Synopsis

SACC Manual Review Project

Background

As part of Public Works and Government Services Canada's Plain Language Standard Procurement Documents initiative, an end-to-end review of the Standard Acquisition Clauses and Conditions (SACC) Manual has been undertaken. The mandate of the SACC Manual Review Project is to review every SACC Manual clause contained in Sections 5A to 5P inclusive for plain language, usage, duplication, translation and consistency.

The SACC Manual Review Project Team consists of core members from Legal Services Branch, Acquisition Policy Division and Procurement Process Tools Division, working in consultation with representatives from the contracting sectors of Acquisitions Branch and of the Regions.

The renewal of the SACC Manual requires a significant effort which cannot be completed over the span of one SACC release. As of December 2005, there were 730 active clauses. To date, 157 of these clauses have been reviewed, resulting in the revision, supersession, or cancellation of these clauses, as well as the creation of new clauses. For this release, most of the changes occur within Sections 5A and 5B. The review of the remaining clauses in Sections 5A and 5B is still ongoing, and will continue along with the review of the other clauses in Section 5, up to Section 5P inclusive.

Key Changes to the SACC Manual

A. General:

The SACC Manual Review involves the:

- Elimination of redundant or unused clauses;
- Elimination of clauses covered by all general conditions;
- Redrafting of incomplete and/or ambiguous clauses based on feedback from stakeholders;
- Ensuring clauses are current with acquisition policy;
- Merging clauses on a similar topic;
- Provision of alternatives/choices in clauses to provide more flexibility;
- Drafting of remarks for all clauses to assist contracting officers in the selection and use of the clauses;
- Simplification of wording;
- Ensuring legal soundness of each clause;
- Ensuring consistency of language and uniformity of format; and
- Ensuring accurate translation.

B. Usage of "T", "C" and "D" as the Suffix of Clause Numbers

The SACC Manual Review Team has reexamined the usage of the characters "T", "C", and "D" as the last letter of a SACC clause number, keeping in mind the way solicitations and contracts are structured using the Plain Language templates.

When the SACC Manual was first created, it was decided that the final alphabetic character (T, C or D) of a SACC clause would indicate the type of document into which the clause should be inserted (i.e. T = Tender; C = Contract; D = Dual purpose, used in both tenders and contracts).

However, with the advent of the Plain Language templates, there is a need to reexamine this methodology. The Plain Language templates are structured so that the solicitation includes bidder information/instructions and a consolidation of all the resulting contract clauses (also known as the "model contract").

The model contract approach is the appropriate way to structure bid solicitations, even when the use of plain language templates is not applicable to the procurement, as it clearly separates information / instructions that are intended for the bidder, from contractual requirements that are intended for the contractor. This approach also gives bidders a clear understanding of the terms and conditions of the resulting contract. When the usage of the plain language templates is not applicable to a procurement, contracting officers may use the Medium Complexity template as a model for their bid solicitations.

With the model contract approach, there is a need for only two types of clauses - bid solicitation (T) and contract (C). The "T" clauses will be used to detail information and requirements for the bidder, and will be inserted into solicitations only. The "C" clauses will be used to detail requirements for the contractor, and will be inserted into the "resulting contract clauses" part of the solicitation, and at contract award, into the actual contract.

A clause cannot be applicable to both the solicitation and the resulting contract at the same time. The clauses would have to be drafted differently. For these reasons, SACC Manual clauses are being revised so that each clause is being given either the suffix "T" or "C". The suffix "D" is being phased out.

Some clause numbers will have both "T and "C" versions, whereas other clause numbers will have only either a "T" version or a "C" version. For example, the International Sanctions clause has only a "C" version whereas evaluation clauses have only "T" versions. The Applicable Laws clause has both "T" and "C" versions.

C. Usage of "must", "shall" and "will"

Although traditionally the word "shall" has been used to indicate a mandatory requirement, the word "shall" is not to be used in plain language. Therefore, the word "shall" is being deleted from the SACC clauses and conditions and is being replaced by the word "must".

The word "will" is used to provide information, and also as an auxiliary of future expressing a contingent event or a result to be expected under particular conditions. The word "will" can also be used to indicate conditional undertaking, e.g., "Canada will pay the Contractor ..."

D. "Technical Authority" and "Project Authority"

The clauses are being modified to allow contracting officers to choose either the term "Technical Authority" or "Project Authority" for usage in their procurement documents. Contracting officers must ensure their procurement documents are consistent in the use of either term.

E. Removal of capitalization of terms

Unless a term is specifically defined in the contract, either in the general conditions or in the body of the contract, that term must not be capitalized.

F. Removal of "Notes" in clauses

"Notes" are being deleted from clauses as they are not contractually-binding.

Local Clauses

Standardization of our procurement documents is a key goal of the SACC Manual Review Project. The SACC Manual clauses are to be used as modified in this release.

Following completion of the end-to-end review of the SACC Manual, a review of local clauses is anticipated in order to standardize, streamline, reduce duplication and ensure plain language. When appropriate, the clause will be added to the SACC Manual for wide usage. Should a sector require a clause that is currently not available in the SACC Manual or as a local clause, the proposed clause should be forwarded to the SACC Manual Review Project Team for review, via the contact person below.

This Manual is intended to provide suppliers and clients of Public Works and Government Services Canada (PWGSC) with information on terms and conditions commonly used in the contracting process by the federal government and PWGSC. Its contents are referred to in bidding opportunities and contracting activities.

The Standard Acquisition Clauses and Conditions (SACC) Manual is designed to make dealing with the government more time and cost efficient by reducing the level of detailed text contained within the various procurement documents. Those basic clauses and conditions which are normally attached to each document will be issued by the Department through "Incorporation by Reference". Specific attachments and clauses will be simply identified by their number, title and effective date. Full text reading capability will be provided through the appropriate section of the Government Electronic Tendering Service (GETS), provided by MERX, and of the hard copy of the SACC Manual itself.

This Manual signifies an important step in PWGSC's continuing move towards electronic contracting and is critical in preparing solicitation documents for electronic display of full Requests for Proposals/Tenders.

Introduction

AUTHORITY

Under the authority of the *Department of Public Works and Government Services Act*:

"21.(1) The Minister may fix terms and conditions of contracts, and instructions and terms and conditions with respect to other documents relating to contracts and their formation.

Designation (2) The terms and conditions and instructions may be identified by number or other designation and may be incorporated in a contract or other document by reference to their number or other designation.

Publication (3) The Minister may, by regulation, prescribe the electronic or other means by which a term, condition or instruction, including its identification number or other designation, shall be published."

DISTRIBUTION

The *Standard Acquisition Clauses and Conditions (SACC)* Manual is produced in two electronic versions - HTML and PDF. Both versions contain information on current clauses and conditions as well as instructions on how these clauses and conditions are used. They also provide the reader with the complete text of previous general conditions, supplemental general conditions and/or clause found in the Manual, that have been either cancelled or superseded.

STRUCTURE

The Manual has been organized to follow the progression of information presented in procurement documents:

Section 1 - Standard Instructions and Conditions

Previously printed on the reverse of page 1 of solicitations and contracts, or included as attachments, these instructions and conditions are now identified in standard clause A0000T, located at the beginning of the clause section in procurement documents.

Section 2 - Templates and Forms

Departmental Plain Language Standard Procurement Templates for Goods and Services

This section provides templates for Low Dollar Value and Medium Complexity requirements as well as the procedures for their use.

The development of the Plain Language Standard Procurement documents is an on-going initiative whose objectives are to standardize procurement terminology, simplify the language, and ensure more consistency and uniformity in acquisition documents issued by the Department.

Forms

This section contains a listing of PWGSC forms available on PWGSC Website and which are commonly used in the procurement process, such as PWGSC-TPSGC 1111, Claim for Progress Payment, and PWGSC-TPSGC 9411, Claim for Exchange Rate Adjustments. A number of forms commonly-used in real property contracting are also included.

Sections 3 and 4 - General Conditions and Supplemental General Conditions

1. These sections present those sets of standard conditions which form the foundation upon which all procurement documents issued by PWGSC are built.

Introduction

- (a) Section 3, General Conditions, defines the basic sets of conditions which apply to specific classes of contracts (e.g. 9601, General Conditions - Long Form).
 - (b) Section 4, Supplemental General Conditions, addresses areas unique to specific subclasses of contracts (e.g. 1028, Ship Construction - Firm Price).
2. Each section/article within a condition set has been given its own effective date. The condition set as a whole has also been given an effective date which is reflected in section 00 and is determined by the latest revision date of one or more of its sections.

Section 5 - Standard Procurement Clauses

1. This section contains a collection of national procurement clauses, common to various classes of contracts. The full text of individual clauses, incorporated by reference into a bid solicitation or contract by their Number, Title and Effective Date, can be found in this section of the Manual. Each subsection (A-Z) is devoted to a particular subject area. Please note that some subsections have not been assigned at this time.
2. Clauses may be identified by their numbers which break down as follows:
 - (a) the first alphabetic character (A-Z) indicates the subsection in Section 5;
 - (b) the four numeric characters (0000-9999) indicate the clause's position within the numeric sequence of the subsection;
 - (c) the final alphabetic character (T, C or D) indicates the type of document in which a given clause would be used (i.e. T = Tender; C = Contract; D = Dual purpose, used in both tenders and contracts).

Example: Clause C0004T - Price Certification. This is the fourth sequential clause found in subsection C - Price, of Section 5 and is used in Tender (solicitation) documents.

USE OF THE MANUAL

1. Incorporation by Reference clauses (R)

Bid solicitations and contracts will contain references to specific clauses and general conditions which will apply to that particular requirement. Clause references will include the clause number, its effective date and its title (e.g. B1504D (16/02/98) State of Charge). All clauses referred to in this manner can be found in Section 5 of this Manual.

2. Fill-in clauses (F)

Clauses which require the insertion of specific information by the contracting officer or the supplier (fill-in clauses) will be produced in full on procurement documents.

NOTE: In the case of discrepancies in clause versions between solicitation documents and the Manual, any clause appearing in full text in a procurement document will override any version set out in the Manual.

3. Updates

Any standard clause, and any condition or instruction set, used or referenced in a bid solicitation or contract may be updated from time to time. When this happens, the version used in an already-issued document will remain in effect in that document, unless the updated version is legally incorporated.

01 Procurement Business Number

Canadian suppliers are required to have a Procurement Business Number (PBN) before Contract award. Suppliers may register for a PBN in the Supplier Registration Information service on line at the Business Access Canada Website at: <http://contractscanada.gc.ca>. For non-Internet registration, suppliers may contact the Business Access Canada InfoLine at 1-800-811-1148 to obtain the telephone number of the nearest Supplier Registration Agent.

02 Standard Instructions, Clauses and Conditions

Pursuant to the *Department of Public Works and Government Services Act*, S.C. 1996, c.16, the instructions, clauses and conditions identified in the bid solicitation and resulting contract by title, number and date are incorporated by reference into and form part of the bid solicitation and resulting contract as though expressly set out in the bid solicitation and resulting contract.

03 Submission of Bids

1. Canada requires that each bid be signed by the Bidder or by an authorized representative of the Bidder. If a bid is being submitted by a joint venture, the bid must clearly state that it is submitted as a joint venture and must be signed by all members of the joint venture or a statement must be provided to the effect that the signatory represents all members of the joint venture.
2. It is the Bidder's responsibility to:
 - (a) obtain clarification of the requirements contained in the bid solicitation, if necessary, prior to submitting a bid;
 - (b) prepare its bid in accordance with the instructions contained in the bid solicitation;
 - (c) submit by closing time and date a signed and complete bid;
 - (d) send its bid ONLY to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit specified on page 1 of the bid solicitation or to the address specified in the bid solicitation;
 - (e) ensure that the Bidder's name, return address, the bid solicitation number, and bid solicitation closing date and time are clearly visible on the envelope or the parcel(s) containing the bid; and,
 - (f) provide a comprehensible and sufficiently detailed bid, including all requested pricing details, that will permit a complete evaluation in accordance with the criteria set out in the bid solicitation.

3. If Canada has provided bidders with multiple formats of a document (for example, a document may be downloaded through the GETS, but may also be made available on CD-ROM through GETS), the format downloaded through the GETS will take precedence. If Canada issues an amendment to the bid solicitation revising any documents provided to bidders in multiple formats, Canada will not necessarily update all formats to reflect these revisions. It is the Bidder's responsibility to ensure that revisions made through any solicitation amendment issued through the GETS are taken into account in the alternate formats it uses of bid solicitation documents.
4. Bids will remain open for acceptance for a period of not less than sixty (60) days from the closing date of the bid solicitation, unless otherwise indicated in the bid solicitation. Canada reserves the right to seek an extension of the bid validity period from all responsive bidders in writing, within a minimum of three (3) days prior to the end of the bid validity period. If the extension is accepted by all responsive bidders, Canada will continue with the evaluation of the bids. If the extension is not accepted by all responsive bidders, Canada will, at its sole discretion, either continue with the evaluation of the bids of those who have accepted the extension or cancel the solicitation.
5. Bid documents and supporting information may be submitted in either English or French.
6. For Canadian-based bidders, Canadian customs duties and excise taxes must be included and, Goods and Services Tax (GST) or Harmonized Sales Tax (HST) must be excluded. For foreign-based bidders, Canadian customs duties, excise taxes and GST or HST, must be excluded. Canadian customs duties and excise taxes payable by Canada will be added, for evaluation purposes only, to the prices submitted by foreign-based bidders.

Although Canada reserves the right to award the contract(s) either on an FOB plant or FOB destination basis or other Incoterms as indicated in the bid solicitation document, bidders are requested to provide prices as indicated in the bid solicitation document.
7. Bids received on or before the stipulated bid solicitation closing date and time will become the property of Canada and will not be returned. All bids will be treated as confidential, subject to the provisions of the *Access to Information Act*, R.S. 1985, c.A-1 and the *Privacy Act*, R.S. 1985, c.P-21.
8. Except as specifically provided otherwise in the bid solicitation, Canada will evaluate a bidder's bid only on the documentation provided as part of its bid. References in a bid to additional information not submitted with the bid, such as website addresses where additional information can be found or technical manuals or brochures not submitted with the bid will not be considered in the evaluation of the bid.

04 Late Bids

Public Works and Government Services Canada (PWGSC) will return bids delivered after the stipulated bid solicitation closing date and time, unless they qualify as a delayed bid as described below.

05 Delayed Bids

1. A bid delivered to the specified Bid Receiving Unit after the closing date and time but before the contract award date may be considered, provided the delay can be proven to have been due solely to a delay in delivery that can be attributed to the Canada Post Corporation (CPC) (or national equivalent of a foreign country). Purolator Inc. is not considered to be part of CPC for the purposes of delayed bids. The only pieces of evidence relating to a delay in the CPC system that are acceptable to PWGSC are:

- (a) a CPC cancellation date stamp; or
- (b) a CPC Priority Courier Bill of Lading; or
- (c) a CPC Xpresspost Label

that clearly indicates that the bid was mailed before the bid closing date.

2. For bids transmitted by facsimile, only the date, time and place of receipt recorded by PWGSC will be accepted as evidence of a delayed bid.
3. Misrouting, traffic volume, weather disturbances, labour disputes or any other causes for the late delivery of bids are not acceptable reasons for the bid to be accepted by PWGSC.
4. Postage meter imprints, whether imprinted by the Bidder, the CPC or the postal authority outside Canada, are not acceptable as proof of timely mailing.

06 Transmission by Facsimile

1. Unless otherwise instructed in the bid solicitation, bids may be submitted by facsimile. The only acceptable facsimile number for responses to bid solicitations issued by PWGSC headquarters is (819) 997-9776. The facsimile number for responses to bid solicitations issued by PWGSC regional offices is identified in the bid solicitation.
2. If the Bidder submits a bid by facsimile, Canada will not be responsible for any failure attributable to the transmission or receipt of the faxed bid including, but not limited to, the following:
 - (a) receipt of garbled or incomplete bid;
 - (b) availability or condition of the receiving facsimile equipment;
 - (c) incompatibility between the sending and receiving equipment;
 - (d) delay in transmission or receipt of the bid;
 - (e) failure of the Bidder to properly identify the bid;
 - (f) illegibility of the bid; or
 - (g) security of bid data.
3. Bids submitted by facsimile will constitute the formal bid of the Bidder and must be submitted in accordance with section 3. For responses transmitted by facsimile, written confirmation is required within two (2) working days after bid closing, unless otherwise specified in the solicitation. All documents confirming bids should bear the word "CONFIRMATION".

07 Customs Clearance

It is the responsibility of the Bidder to allow sufficient time to obtain customs clearance, where required, before the bid closing date and time. Delays related to the obtaining of customs clearance cannot be construed as "undue delay in the mail" and will not be accepted as a delayed bid under section 5.

08 Legal Capacity

The Bidder must have the legal capacity to contract. If the Bidder is a sole proprietorship, a partnership or a corporate body, the Bidder must provide, if requested by the Contracting Authority, a statement and any requested supporting documentation indicating the laws under which it is registered or incorporated together with the registered or corporate name and place of business. This also applies to bidders submitting a bid as a joint venture.

09 Rights of Canada

Canada reserves the right to:

- (a) reject any or all bids received in response to the bid solicitation;
- (b) enter into negotiations with bidders on any or all aspects of their bids;
- (c) accept any bid in whole or in part without negotiations;
- (d) cancel the bid solicitation at any time;
- (e) reissue the bid solicitation;
- (f) if no compliant bids are received and the requirement is not substantially modified, re-tender the requirement by inviting only the bidders who bid to re-submit bids within a period designated by Canada; and,
- (g) negotiate with the sole compliant Bidder to ensure best value to Canada.

10 Vendor Performance

1. Canada may reject a bid where any of the following circumstances is present:
 - (a) the Bidder, or any employee or subcontractor included as part of the bid, has been convicted under Section 121 (*Frauds on the government & Contractor subscribing to election fund*), Section 124 (*Selling or purchasing office*), or Section 418 (*Selling defective stores to Her Majesty*) of the Criminal Code; or,

- (b) the Bidder is subject to a Vendor Performance Corrective Measure, under the Vendor Performance Policy, which renders the Bidder ineligible to bid on the requirement;
 - (c) an employee or subcontractor included as part of the bid, is subject to a Vendor Performance Corrective Measure, under the Vendor Performance Policy, which would render that employee or subcontractor ineligible to bid on the requirement, or the portion of the requirement the employee or subcontractor is to perform;
 - (d) with respect to current or prior transactions with the Government of Canada
 - (i) the Bidder is bankrupt or where, for whatever reason, its activities are rendered inoperable for an extended period;
 - (ii) evidence, satisfactory to Canada, of fraud, bribery, fraudulent misrepresentation or failure to comply with any law protecting individuals against any manner of discrimination, has been received with respect to the Bidder, any of its employees or any subcontractor included as part of its bid;
 - (iii) Canada has exercised its contractual remedies of suspension or termination for default with respect to a contract with the Bidder, any of its employees or any subcontractor included as part of its bid;
 - (iv) Canada determines that the Bidder's performance on other contracts, including the efficiency and workmanship as well as the extent to which the Bidder executed the requirement in accordance with contractual terms and conditions, is sufficiently poor to jeopardize the successful completion of the requirement being bid on.
2. Where Canada intends to reject a bid pursuant to a provision of paragraph 1, other than 1.(b), the Contracting Authority will so inform the Bidder and provide the Bidder ten (10) days within which to make representations, prior to making a final decision on the bid rejection.

11 Communications - Solicitation Period

To ensure the integrity of the competitive bid process, enquiries and other communications regarding the bid solicitation, must be directed only to the Contracting Authority identified in the bid solicitation. Failure to comply can (for that reason alone) result in the disqualification of the bid.

To ensure consistency and quality of information provided to bidders, significant enquiries received and the replies to such enquiries will be provided simultaneously to bidders to which the bid solicitation has been sent, without revealing the sources of the enquiries.

12 Price Support

In the event that the Bidder's bid is the sole responsive bid received, the Bidder must provide, on Canada's request, one or more of the following price support if applicable:

- (a) a current published price list indicating the percentage discount available to Public Works and Government Services Canada (PWGSC);
- (b) copies of paid invoices for like services performed for other customers or for like items (same quantity and quality) sold to other customers;
- (c) a price breakdown showing the cost of direct labour, direct materials, purchased items, engineering and plant overheads, general and administrative overhead, transportation, profit, etc.;
- (d) price or rate certification;
- (e) any other supporting documentation as requested by Canada.

13 Bid Costs

No payment will be made for costs incurred in the preparation and submission of a bid in response to the bid solicitation. Costs associated with preparing and submitting a bid as well as any costs incurred by the Bidder associated with the evaluation of the bid, are the sole responsibility of the Bidder.

14 Conduct of Evaluation

In conducting its evaluation of the bids, Canada may, but will have no obligation to, do the following:

- (a) seek clarification or verification from bidders regarding any or all information provided by them with respect to the bid solicitation;
- (b) contact any or all references supplied by bidders to verify and validate any information submitted by them;
- (c) request, before award of any contract, specific information with respect to bidders' legal status;
- (d) conduct a survey of bidders' facilities and/or examine their technical, managerial, and financial capabilities to determine if they are adequate to meet the requirements of the bid solicitation;
- (e) correct any error in the extended pricing of bids by using unit pricing and any error in quantities in bids to reflect the quantities stated in the bid solicitation;
- (f) verify any information provided by bidders through independent research, use of any government resources or by contacting third parties;
- (g) interview, at the sole costs of bidders, any bidder and/or any or all of the resources proposed by bidders to fulfill the requirement of the bid solicitation.

Bidders will have the number of days specified in the request by the Contracting Authority to comply with any request related to any of the above items. Failure to comply with the request may result in the bid being declared non-responsive.

15 Further Information

1. For further information, bidders may contact the Contracting Authority identified in the bid solicitation.
2. For bid solicitations issued out of PWGSC headquarters, enquiries concerning receipt of bids may be addressed to the Bid Receiving Unit, Procurement Operational Support Division, telephone (819) 956-3370. For bid solicitations issued out of PWGSC regional offices, enquiries concerning receipt of bids may be addressed to the Contracting Authority identified in the bid solicitation.

9403 (10/12/04) Standard Instructions and Conditions

A. INSTRUCTIONS (APPLICABLE TO BID SOLICITATION)**1. Submission of Bids**

- (1) It is the Bidder's responsibility to:
- (a) return a signed original of the bid solicitation, duly completed, IN THE FORMAT REQUESTED;
 - (b) direct its bid ONLY to the Bid Receiving address specified;
 - (c) ensure that the Bidder's name, the bid solicitation reference number, and bid solicitation closing date and time are clearly visible;
 - (d) provide a comprehensive and sufficiently detailed bid, including all requested pricing details, that will permit a complete evaluation in accordance with the criteria set out in the bid solicitation.

Timely and correct delivery of bids to the specified bid delivery address is the sole responsibility of the Bidder. Public Works and Government Services Canada (PWGSC) will not assume or have transferred to it those responsibilities. All risks and consequences of incorrect delivery of bids are the responsibility of the Bidder.

- (2) Bids may be accepted in whole or in part. The lowest or any bid will not necessarily be accepted. In the case of error in the extension of prices, the unit price will govern. Canada may enter into contract without negotiation.
- (3) Bids will remain open for acceptance for a period of not less than sixty (60) days from the closing date of the bid solicitation, unless otherwise indicated by Canada in such bid solicitation.

Notwithstanding the bid validity period stipulated in this solicitation, Canada reserves the right to seek an extension from all responsive bidders, within a minimum of three (3) days prior to the end of such period. Bidders shall have the option to either accept or reject the extension.

If the extension referred to above is accepted, in writing, by all those who submitted responsive bids, then Canada shall continue immediately with the evaluation of the bids and its approval processes.

If the extension referred to above is not accepted, in writing, by all those who submitted responsive bids then Canada shall, at its sole discretion, either: (a) continue to evaluate the responsive bids of those who have accepted the extension and seek the necessary approvals; or (b) cancel the solicitation; or (c) cancel and reissue the solicitation.

- (4) While Canada may enter into contract without negotiation, Canada reserves the right to negotiate with bidders on any procurement.
- (5) Bid documents and supporting information may be submitted in either English or French.
- (6) Bids received on or before the stipulated bid solicitation closing date and time will become the property of Canada and will not be returned. All bids will be treated as CONFIDENTIAL, subject to the provisions of the *Access to Information Act* and the *Privacy Act*.

2. Late Bids

It is PWGSC's policy to return, unopened, bids delivered after the stipulated bid solicitation closing date and time, unless they qualify as a delayed bid as described below.

3. Delayed Bids

- (1) A bid delivered to the specified Bid Receiving area after the closing date and time but before the contract award date may be considered, provided the delay can be proven to have been due solely to a delay in delivery that can be attributed to the Canada Post Corporation (CPC) (or national equivalent of a foreign country). The only pieces of evidence relating to a delay in the CPC system that are acceptable to PWGSC are:

- (a) a CPC cancellation date stamp;
- (b) a CPC Priority Courier Bill of Lading; and
- (c) a CPC Xpresspost Label,

that clearly indicate that the bid was mailed prior to the bid closing date.

Example: If the bid closing date was May 15, 1995, then the CPC cancellation date stamp should read no later than May 14, 1995, to be accepted.

- (2) Please request the postal employee to date-stamp your envelope.
- (3) For bids transmitted by facsimile, only the date and the time of receipt recorded by PWGSC at the Bid Receiving number stated in the bid solicitation will be accepted as evidence of a delayed bid.
- (4) Misrouting, traffic volume, weather disturbances, or any other causes for the late delivery of bids are not acceptable reasons for the bid to be accepted by PWGSC.

4. Postage Meters

Postage meter imprints, whether imprinted by the Supplier, the CPC or the postal authority outside Canada, are not acceptable as proof of timely mailing. It should be noted that CPC does not normally apply a cancellation date stamp to metered mail; this is usually done only when postage stamps are used.

5. Responses Transmitted by Facsimile

- (1) If you are in doubt that your bid will be delivered on time at the specific location designated for the receipt of the bid, you may use a facsimile, unless otherwise instructed in the bid solicitation.

NOTE: Due to the volume of technical material required for some bids, certain bid solicitations may specify that submissions by facsimile are not acceptable (e.g. science solicitations).

- (2) Unless otherwise instructed in the bid solicitation, the only acceptable facsimile number for responses to bid solicitations issued by PWGSC headquarters sectors is (819) 997-9776.
- (3) The facsimile number for responses to bid solicitations issued by PWGSC regional offices is identified on the front page of the bid solicitation.

If the bidder chooses to submit a bid by facsimile, Canada will not be responsible for any failure attributable to the transmission or receipt of the faxed bid including, but not limited to the following:

- (a) receipt of garbled or incomplete bid;
- (b) availability or condition of the receiving facsimile equipment;
- (c) incompatibility between the sending and receiving equipment;
- (d) delay in transmission or receipt of the bid;
- (e) failure of the Bidder to properly identify the bid;
- (f) illegibility of the bid; or
- (g) security of bid data.

- (4) Bids submitted by facsimile will constitute your formal bid and must contain:
 - (a) the bid reference number;
 - (b) the closing date and time;
 - (c) sufficient data to allow evaluation, such as unit prices, country of currency in the event that the bid is submitted in a foreign currency, sales tax, duty, technical data (where applicable) and any deviation(s) from the bid solicitation document.
- (5) For responses transmitted by facsimile, written confirmation is required within two (2) working days after bid closing, unless otherwise specified in this solicitation. All documents confirming bids should bear the word "CONFIRMATION".

6. Customs Clearance

It is the responsibility of the Bidder to allow sufficient time to obtain customs clearance, where required, before the scheduled bid closing date and time. Delays related to the obtaining of customs clearance cannot be construed as "undue delay in the mail" and will not be accepted under the Late Bids Policy.

7. Further Information

- (1) For further information, please contact the Contracting Authority identified on page one of the bid solicitation.
- (2) For bid solicitations issued out of PWGSC headquarters, enquiries concerning receipt of bids may be addressed to the Bid Receiving Unit, Procurement Operational Support Division, telephone (819) 956-3370.

8. Identity or Legal Capacity of Bidder

In order to establish the legal capacity under which a bidder proposes to enter into the Contract, any bidder who carries on business in other than its own personal name shall, if requested by the Contracting Authority, provide proof of the legal capacity under which it carries on business to the Contracting Authority prior to contract award. Such proof may be in the form of a copy of the articles of incorporation or of the registration of the business name of a sole proprietor, of a trade name, of a partnership, etc.

B. CONDITIONS (APPLICABLE TO RESULTING CONTRACT)**1. Municipal Taxes**

Municipal taxes are not applicable.

2. Provincial Taxes

- (1) Excluding legislated exceptions (see subsection (5) below), federal government departments and agencies are not required to pay any ad valorem sales tax levied by the province in which the taxable goods or services are delivered. This exemption has been provided to federal government departments and agencies under the authority of one of the following:
 - (a) Provincial Sales Tax (PST) Exemption Licence Numbers, for the provinces of:

Prince Edward Island	OP-10000-250
Ontario	11708174G
Manitoba	390-516-0
British Columbia	R005521
 - (b) An Exemption Certification, for Quebec, Saskatchewan, the Yukon Territory, the Northwest Territories and Nunavut, which certifies that the property and/or services ordered/purchased hereby are for the use of, and are being purchased by the federal government with Canada funds, and are therefore not subject to provincial/territorial sales and consumption taxes.
- (2) Currently, in Alberta, the Yukon Territory, the Northwest Territories and Nunavut, there is no general PST. However, should a PST be introduced in the Northwest Territories, Nunavut, or Yukon Territory, the sales tax exemption certificate would be required on purchase orders or other purchasing documents.
- (3) Federal departments are required to pay the Harmonized Sales Tax (HST) in the participating provinces of Newfoundland and Labrador, Nova Scotia and New Brunswick.
- (4) The Contractor is not exempt from paying PST under the above Exemption Licence Numbers or Exemption Certification. The Contractor is required to pay the PST on taxable goods or services used or consumed in the performance of the Contract (as per appropriate provincial legislation), including material incorporated into real property.
- (5) Exceptions

The following exceptions are provided as examples and may not represent a complete list of all exceptions under the law:

 - (a) tobacco products subject to tobacco taxes (except in Alberta);
 - (b) petroleum products subject to gasoline and motive fuel taxes;
 - (c) vehicle registration fees (except in Alberta, Northwest Territories, Nunavut and Yukon Territory);

- (d) amusement/admission (Nova Scotia and New Brunswick);
- (e) insurance premiums (Quebec);
- (f) tires/batteries subject to environmental levies; and
- (g) transient living accommodation subject to hotel room taxes (British Columbia).

3. Condition of Material

Unless otherwise specified elsewhere in the Contract, materiel supplied shall be new and conform to the latest issue of the applicable drawing, specification and/or part number that is in effect on the solicitation closing date.

4. Labour and Health Conditions

The Contractor shall comply with all labour and health conditions applicable to the Work.

5. Transportation Charges

If transportation charges are payable by Canada under the terms of the Contract, shipments are to be made by the most direct and economical means consistent with normal shipping practice, unless otherwise directed (as in the case when transportation costs are part of the unit price). They are to be shown as a separate item on the invoice.

6. Valuation

The federal government's policy of underwriting its own risks precludes payment of any excess valuation and/or transportation charges beyond the specified FOB point (the point at which title of goods passes to the federal government). Goods will be covered to the carrier's maximum liability and value will be declared only when additional costs will not be incurred.

7. Foreign Shipments

Goods shipped into Canada from another country are to be consigned to destination, **in bond**, unless otherwise directed.

8. Bill of Lading

The transportation bill of lading must accompany the original invoice, except for "collect" shipments (if and when stipulated), in which event it shall accompany the shipment; in addition, a packing slip must accompany each shipment, showing item, quantity, part or reference numbers, description of supplies and contract reference numbers, including the Client Reference Number (CRN) and Procurement Business Number (PBN). If the supplies have been inspected at the Contractor's plant, the signed inspection voucher must be attached to the packing slip normally enclosed in the packing note envelope.

9. Invoice Submission

Invoices shall be submitted in the name of the Contractor and shall not be submitted prior to the delivery of supplies or the performance of the services. They must show the name and address of the consignee, together with date, method of shipment, the case numbers if applicable, item, quantity, unit of issue, unit price, additional charges if applicable, and the Goods and Services Tax or the Harmonized Sales Tax if applicable, part or reference numbers, description of supplies as shown in the Contract, Contract number, requisition number, CRN, PBN and financial code(s). Separate invoices must be submitted for each shipment and must apply to one contract only. Each invoice must indicate whether it covers partial or final shipment.

10. Inspection and Acceptance

The goods/services are subject to inspection and acceptance by consignee at destination, unless otherwise indicated in the contractual document.

11. Standard Clauses, Conditions and Instruction Sets

Any standard clause, and any condition or instruction set, used or referenced in a bid solicitation or contract may be updated from time to time. When this happens, the version used in an already-issued document will remain in effect in that document, unless the updated version is legally incorporated.

9403-2 (30/10/96) Termination for Convenience

1. Cease all work under the Contract in accordance with and to the extent specified in the Notice of Termination. Read carefully the termination clause in your Contract.
2. Immediate steps are to be taken to terminate or reduce any subcontracts or orders to suppliers for materials and parts, this to the extent necessary to give effect to this Notice of Termination of Contract.
3. A list showing the names of all subcontractors and suppliers whose contracts or orders have been terminated pursuant to this Notice is to be forwarded immediately to the responsible Department of Public Works and Government Services (DPWGS) Contracting Officer. Opposite the name and address of each subcontractor is to be shown the Contract Price or value of the cancelled portion of terminated subcontracts or orders.
4. Where the Contractor or any subcontractor or supplier proposes to make a claim based on or arising out of this Notice, he is to take and is to instruct each of his subcontractors and suppliers affected by this Notice to take a physical inventory of materials, manufactured or purchased parts, work-in-process, and finished goods acquired or on hand for the purpose of the contract, subcontract, or order terminated by this Notice.
5. Termination claims are to be prepared and submitted at the earliest possible moment being guided in connection therewith by the *Procedures Manual on Termination of Contracts*.
6. The contents of this Notice of Termination of Contract are confidential and must not be disclosed to any person or persons except those employees, subcontractors and/or suppliers to whom it may be necessary to make such disclosure to give effect to this Notice of Termination of Contract. Every person to whom the disclosure is made is to be informed that the prohibition contained in this paragraph applies similarly to them, their employees, subcontractors, and suppliers. Should the Contractor or any of his subcontractors or suppliers be of the opinion that some publicity relative to this Notice of Termination of Contract would be in the public interest, the proposal is to be submitted to the responsible DPWGS Contracting Officer for advice as to what, if any, publicity is permissible.

9403-5 (10/12/04) Professional and Research and Development Services

A. INSTRUCTIONS (APPLICABLE TO BID SOLICITATION)**1. Submission of Proposals**

- (1) This is a request (hereinafter referred to as a "bid solicitation") that proposals be developed and submitted to the Minister of Public Works and Government Services Canada (PWGSC) setting out the alternative means by which several technical, performance, time and other goals and objectives may be best met, having regard to stated mandatory requirements. Canada will consider entering into contract for the implementation of the most acceptable proposal which will be determined having regard to the evaluation factors set out in this bid solicitation. In addition, the proposal will be measured against the contract terms and conditions set forth in this bid solicitation.
- (2) It is the Bidder's responsibility to:
- (a) return a signed original of the bid solicitation, duly completed, IN THE FORMAT REQUESTED;
 - (b) direct its bid ONLY to the Bid Receiving address specified;

Timely and correct delivery of bids to the specified bid delivery address is the sole responsibility of the Bidder. PWGSC will not assume or have transferred to it those responsibilities. All risks and consequences of incorrect delivery of bids are the responsibility of the Bidder.

- (3) Bids may be accepted in whole or in part. The lowest or any bid will not necessarily be accepted. In the case of error in the extension of prices, the unit price will govern.
- (4) Bids will remain open for acceptance for a period of not less than sixty (60) days from the closing date of the bid solicitation, unless otherwise indicated by Canada in such bid solicitation.

Notwithstanding the bid validity period stipulated in this solicitation, Canada reserves the right to seek an extension from all responsive bidders, within a minimum of three (3) days prior to the end of such period. Bidders shall have the option to either accept or reject the extension.

If the extension referred to above is accepted, in writing, by all those who submitted responsive bids, then Canada shall continue immediately with the evaluation of the bids and its approval processes.

If the extension referred to above is not accepted, in writing, by all those who submitted responsive bids then Canada shall, at its sole discretion, either: (a) continue to evaluate the responsive bids of those who have accepted the extension and seek the necessary approvals; or (b) cancel the solicitation; or (c) cancel and reissue the solicitation.

- (5) While Canada may enter into contract without negotiation, Canada reserves the right to negotiate with bidders on any procurement.
- (6) Bid documents and supporting information may be submitted in either English or French.
- (7) Proposals received on or before the stipulated bid solicitation closing date and time will become the property of Canada and will not be returned. All proposals will be treated as CONFIDENTIAL, subject to the provisions of the *Access to Information Act* and the *Privacy Act*.

2. Late Bids

It is PWGSC's policy to return, unopened, bids delivered after the stipulated bid solicitation closing date and time, unless they qualify as a delayed bid as described below.

3. Delayed Bids

- (1) A bid delivered to the specified Bid Receiving area after the closing date and time but before the Contract award date may be considered, provided the delay can be proven to have been due solely to a delay in delivery that can be attributed to the Canada Post Corporation (CPC) (or national equivalent of a foreign country). The only pieces of evidence relating to a delay in the CPC system that are acceptable to PWGSC are:
 - (a) a CPC cancellation date stamp;
 - (b) a CPC Priority Courier Bill of Lading; and
 - (c) a CPC Xpresspost Label,

that clearly indicate that the bid was mailed prior to the bid closing date.

Example: If the bid closing date was May 15, 1995, then the CPC cancellation date stamp should read no later than May 14, 1995, to be accepted.

- (2) Please request the postal employee to date-stamp your envelope.
- (3) For bids transmitted by facsimile, only the date and the time of receipt recorded by PWGSC at the Bid Receiving number stated in the bid solicitation will be accepted as evidence of a delayed bid.
- (4) Misrouting, traffic volume, weather disturbances, or any other causes for the late delivery of bids are not acceptable reasons for the bid to be accepted by PWGSC.

4. Postage Meters

Postage meter imprints, whether imprinted by the Supplier, the CPC or the postal authority outside Canada, are not acceptable as proof of timely mailing. It should be noted that CPC does not normally apply a cancellation date stamp to metered mail; this is usually done only when postage stamps are used.

5. Responses Transmitted by Facsimile

- (1) If you are in doubt that your bid will be delivered on time at the specific location designated for the receipt of the bid, you may use a facsimile, unless otherwise instructed in the bid solicitation.

NOTE: Due to the volume of technical material required for some bids, certain bid solicitations may specify that submissions by facsimile are not acceptable (e.g. science solicitations).
- (2) Unless otherwise instructed in the bid solicitation, the only acceptable facsimile number for responses to bid solicitations issued by PWGSC headquarters sectors is (819) 997-9776.
- (3) The facsimile number for responses to bid solicitations issued by PWGSC regional offices is identified on the front page of the bid solicitation.

If the bidder chooses to submit a bid by facsimile, Canada will not be responsible for any failure attributable to the transmission or receipt of the faxed bid including, but not limited to the following:

- (a) receipt of garbled or incomplete bid;
 - (b) availability or condition of the receiving facsimile equipment;
 - (c) incompatibility between the sending and receiving equipment;

- (4) Bids submitted by facsimile will constitute your formal bid and must contain:

6. Pricing

Unless otherwise specified by Canada, all prices quoted shall be net prices in Canadian funds including Canadian customs duties and excise taxes, and are to be FOB, including all delivery charges to destination(s) as indicated. The amount of the Goods and Services Tax (GST) or the Harmonized Sales Tax (HST) if applicable, shall be shown as a separate item.

7. Identity or Legal Capacity of Bidder

In order to establish the legal capacity under which a bidder proposes to enter into the Contract, any bidder who carries on business in other than its own personal name shall, if requested by the Contracting Authority, provide proof of the legal capacity under which it carries on business to the Contracting Authority prior to contract award. Such proof may be in the form of a copy of the articles of incorporation or of the registration of the business name of a sole proprietor, of a trade name, of a partnership, etc.

B. CONDITIONS (APPLICABLE TO RESULTING CONTRACT)**1. Municipal Taxes**

Municipal taxes are not applicable.

2. Provincial Taxes

- (1) Excluding legislated exceptions (see subsection (5) below), federal government departments and agencies are not required to pay any ad valorem sales tax levied by the province in which the taxable goods or services are delivered. This exemption has been provided to federal government departments and agencies under the authority of one of the following:

- (a) Provincial Sales Tax (PST) Exemption Licence Numbers, for the provinces of:

Prince Edward Island OP-10000-250
Ontario 11708174G
Manitoba 390-516-0
British Columbia R005521

- (b) An Exemption Certification, for Quebec, Saskatchewan, the Yukon Territory, the Northwest Territories and Nunavut, which certifies that the property and/or services ordered/purchased hereby are for the use of, and are being purchased by the federal government with Canada funds, and are therefore not subject to provincial/territorial sales and consumption taxes.

- (2) Currently, in Alberta, the Yukon Territory, the Northwest Territories and Nunavut, there is no general PST. The following exceptions are provided as examples and may not represent a complete list of all exceptions under the law:

- (a) tobacco products subject to tobacco taxes (except in Alberta);
(b) petroleum products subject to gasoline and motive fuel taxes;
(c) vehicle registration fees (except in Alberta, Northwest Territories, Nunavut and Yukon Territory);

4. Valuation

The federal government's policy of underwriting its own risks precludes payment of any excess valuation and/or transportation charges beyond the specified FOB point (the point at which title of goods passes to the federal government). Goods will be covered to the carrier's maximum liability and value will be declared only when additional costs will not be incurred.

5. Inspection and Acceptance

The Work is subject to inspection and acceptance by the consignee at destination, unless otherwise indicated in the contractual document.

6. Standard Clauses, Conditions and Instruction Sets

Any standard clause, and any condition or instruction set, used or referenced in a bid solicitation or Contract may be updated from time to time. When this happens, the version used in an already-issued document will remain in effect in that document, unless the updated version is legally incorporated.

9403-6 (10/06/05) Standard Instructions and Conditions - Standing Offers

Part A. Instructions (Applicable to Requests for a Standing Offer)

1. Method of Supply

One method of supply used by Public Works and Government Services Canada (PWGSC) to satisfy the requirements of identified users is to arrange with offerors to submit a Standing Offer to provide goods, services, or both, to the federal government during a specified period. The identified users to be served are then delegated purchasing authority by PWGSC and may access the source of supply directly, as and when requested, by issuing call-ups detailing the exact quantities of goods or level of services they wish to order from the Offeror at a particular time during the effective period of the Offeror's offer and in accordance with the predetermined conditions.

2. Purpose of the Standing Offer

This method of supply is particularly useful in acquiring frequently ordered commercially and non-commercially available goods or services when the total volume or value of goods or level of services that may be required by one or more identified users can be estimated beforehand, but it is not possible at the outset to identify the exact requirements for any given user at a specific time in the future.

Inasmuch as PWGSC, during the period stated in the Request for a Standing Offer (RFSO), foresees a potential need for goods or services, or both, the Offeror is hereby invited to provide PWGSC with a Standing Offer.

3. Quantity

The quantity of goods, level of services and estimated expenditure specified in the RFSO are only an approximation of requirements given in good faith. The making of a Standing Offer by the Offeror shall not constitute an agreement by Canada or any Identified User to order any or all of the said goods or services. The Identified User may make one or several call-ups against a Standing Offer.

4. DPWGS Obligation

A request does not commit PWGSC to authorize the utilization of a Standing Offer or to pay any cost incurred in the submission of offers, or cost incurred in making necessary studies for the preparation thereof, or to procure or contract for any services or supplies. PWGSC reserves the right to reject or authorize for utilization any offer in whole or in part, with or without further discussion or negotiation.

5. Process

The Standing Offer is normally processed as follows:

- (a) An RFSO is obtained by offerors (suppliers) through the Government Electronic Tendering Service (GETS), provided by MERX.
- (b) Offerors then complete the request and return it to PWGSC as a proposed Standing Offer.
- (c) PWGSC issues a Standing Offer and Call-up Authority (SOCA) to successful offerors and identified users (customer departments or agencies) authorized to make call-ups directly.

6. Submission of Offers

(1) It is the Offeror's responsibility to:

- (a) return a signed original of the RFSO, duly completed, **in the format requested**;
- (b) direct its offer **only** to the PWGSC receiving address specified;
- (c) ensure that the Offeror's name, the PWGSC file number, and solicitation closing date and time are clearly visible;
- (d) provide a comprehensive and sufficiently detailed offer, including all requested pricing details, that will permit a complete evaluation in accordance with the criteria set out in the solicitation.

Timely and correct delivery of offers to the specified delivery address is the sole responsibility of the Offeror. PWGSC will not assume or have transferred to it those responsibilities. All risks and consequences of incorrect delivery of offers are the responsibility of the Offeror.

- (2) The evaluation of proposed standing offers may result in authorization to utilize one or more standing offers in whole or in part, taking into consideration the lowest price per item and/or destination or group of items and/or destinations or on a lowest aggregate price basis. The lowest or any proposed standing offer will not necessarily be authorized. In case of error in the extension of prices, the unit price will govern. A Standing Offer and Call-up Authority (SOCA) document may be issued against any proposed standing offer up to sixty (60) days after the closing date of the Request for a Standing Offer (RFSO), unless otherwise indicated, by Canada, in such RFSO.

Notwithstanding the offer validity period stipulated in this RFSO, Canada reserves the right to seek an extension from all responsive offerors, within a minimum of three (3) days prior to the end of such period. Offerors shall have the option to either accept or reject the extension.

If the extension referred to above is accepted, in writing, by all those who submitted responsive offers, then Canada shall continue immediately with the evaluation of the offers and its approval processes.

If the extension referred to above is not accepted, in writing, by all those who submitted responsive offers then Canada shall, at its sole discretion:

- (a) either continue to evaluate the responsive offers of those who have accepted the extension and seek the necessary approvals; or
 - (b) cancel the RFSO; or
 - (c) cancel and reissue the RFSO.
- (3) The Standing Offer should completely and thoroughly address each element of the requirement as enumerated in the RFSO. It is also essential that the elements contained in the offer be stated in a clear and concise manner.
- (4) Bid documents and supporting information may be submitted in either English or French.
- (5) Offers received on or before the stipulated bid solicitation closing date and time will become the property of Canada and will not be returned. All offers will be treated as CONFIDENTIAL, subject to the provisions of the *Access to Information Act* and the *Privacy Act*.

7. Responses Transmitted by Facsimile

- (1) If there is a doubt that the offer will be delivered on time at the specific location designated for the receipt of the offer, the Offeror may use a facsimile, unless otherwise instructed in the RFSO.

NOTE: Due to the volume of technical material required for some offers, certain RFSO's may specify that submissions by facsimile are not acceptable (e.g. science solicitations).

- (2) Unless otherwise instructed in the RFSO, the only acceptable facsimile number for responses to RFSO's issued by PWGSC headquarters sectors is (819) 997-9776.
- (3) The facsimile number for responses to RFSO's issued by PWGSC regional offices is identified on the front page of the document.

If the Offeror chooses to submit an offer by facsimile, Canada will not be responsible for any failure attributable to the transmission or receipt of the faxed offer including, but not limited to the following:

- (a) receipt of garbled or incomplete offer;
 - (b) availability or condition of the receiving facsimile equipment;
 - (c) incompatibility between the sending and receiving equipment;
 - (d) delay in transmission or receipt of the offer;
 - (e) failure of the Offeror to properly identify the offer;
 - (f) illegibility of the offer; or
 - (g) security of bid data.
- (4) Offers submitted by facsimile will constitute your formal offer and must contain:

- (a) the PWGSC file reference number;
 - (b) the closing date and time;
 - (c) sufficient data to allow evaluation, such as unit prices, country of currency in the event that the offer is submitted in a foreign currency, sales tax, duty, technical data (where applicable) and any deviation(s) from the RFSO document.
- (5) For responses transmitted by facsimile, written confirmation is required within two (2) working days after bid closing, unless otherwise specified in this solicitation. All documents confirming bids should bear the word "CONFIRMATION".

8. Late Offers

It is PWGSC's policy to return, unopened, offers delivered after the stipulated RFSO closing date and time, unless they qualify as a delayed offer as described below.

9. Delayed Offers

- (1) An offer delivered to the specified Bid Receiving area after the closing date and time but before the issue of a SOCA may be considered, provided the delay can be proven to have been due solely to a delay in delivery that can be attributed to the Canada Post Corporation (CPC) (or national equivalent of a foreign country). The only pieces of evidence relating to a delay in the CPC system that are acceptable to PWGSC are:

- (a) a CPC cancellation date stamp;
- (b) a CPC Priority Courier Bill of Lading; and
- (c) a CPC Xpresspost Label,

that clearly indicate that the offer was mailed prior to the RFSO closing date.

Example: If the RFSO closing date was May 15, 2005, then the CPC cancellation date stamp should read no later than May 14, 2005, to be accepted.

- (2) Please request the postal employee to date-stamp your envelope.
- (3) For offers transmitted by facsimile, only the date and the time of receipt recorded by PWGSC at the Bid Receiving number stated in the solicitation document will be accepted as evidence of a delayed offer.
- (4) Misrouting, traffic volume, weather disturbances, or any other causes for the late delivery of offers are not acceptable reasons for the offer to be accepted by PWGSC.

10. Postage Meters

Postage meter imprints, whether imprinted by the Offeror, the CPC or the postal authority outside Canada, are not acceptable as proof of timely mailing. It should be noted that CPC does not normally apply a cancellation date stamp to metered mail; this is usually done only when postage stamps are used.

11. Standard Clauses, Conditions and Instruction Sets

Any standard clause, and any condition or instruction set, used or referenced in an RFSO, a Standing Offer, or a call-up pursuant to a standing offer may be updated from time to time. When this happens, the version used in an already-issued document will remain in effect in that document, unless the updated version is legally incorporated.

12. Identity or Legal Capacity of Offeror

In order to establish the legal capacity under which an Offeror proposes to enter into a Standing Offer, any offeror who carries on business in other than its own personal name shall, if requested by the Contracting Authority, provide proof of the legal capacity under which it carries on business to the Contracting Authority prior to the issuance of a Standing Offer. Such proof may be in the form of a copy of the articles of incorporation or of the registration of the business name of a sole proprietor, of a trade name, of a partnership, etc.

Part B. Particulars of the Standing Offer

1. General

- (1) The Offeror acknowledges that a standing offer is not a contract.
- (2) The Offeror offers to sell or provide and deliver to Canada, acting through and represented by the Minister of Public Works and Government Services, the goods or services, or both, listed at the price(s) or on the pricing basis set out, as and when the Identified User may request such goods or services, in accordance with the following provisions.
- (3) It is understood and agreed that:
 - (a) a call-up against a standing offer shall form a contract only for those goods or services, or both, which have been called-up, provided always that such call-up is made in accordance with the provisions of the Standing Offer;
 - (b) the issue and distribution of the authorization to use this Standing Offer does not oblige Canada to authorize or order all or any of the goods, services, or both, described in the Standing Offer;
 - (c) Canada's liability shall be limited to that which arises from call-ups against the offer, made within the period specified in the SOCA;
 - (d) Canada reserves the right to procure the specified goods or services by means of contracts, standing offers, or by other contracting methods;
 - (e) Canada may require at its sole discretion that the purchasing of these goods or services be performed, in whole or in part, through electronic means. In such event, Canada may require the Supplier to levy a fee from the identified users on Canada's behalf.

2. Notification of Withdrawal/Revision

In the event that the Offeror wishes to withdraw the Standing Offer after authority to call-up against a standing offer has been given, the Offeror shall provide no less than thirty (30) days' written notice to the Contracting Authority, unless otherwise indicated in the SOCA, in order that the Contracting Authority may inform all identified users. Such withdrawal of Standing Offer shall not be effective until receipt of such notification by PWGSC and the expiry of such notice period. The Offeror hereby agrees to fulfil any and all call-ups which may be made before the expiry of such notice period. If the period of the Standing Offer is extended or the limitation of expenditure is increased, the Contracting Authority will issue a revision to the SOCA.

3. Call-up Instrument

The identified users shall order goods and services either on form PWGSC-TPSGC 942, Call-up Against a Standing Offer, or on such other call-up document as may be specified in the Standing Offer. Goods and services may also be ordered by other methods such as telephone, facsimile, or electronic means, but must be confirmed in writing either on form PWGSC-TPSGC 942 or on such other document as may be specified.

Call-ups against a standing offer paid for with the Government of Canada acquisition card (credit card) at point of sale will be accorded the same prices and terms and conditions as any other call-up.

Part C. Conditions**1. Applicability**

The following conditions apply to all contracts resulting from any call-up pursuant to the standing offer.

2. Municipal Taxes

Municipal taxes are not applicable.

3. Provincial Taxes

- (1) Excluding legislated exceptions (see subsection (5) below), identified users are not required to pay any ad valorem sales tax levied by the province in which the taxable goods or services are delivered. This exemption has been provided to identified users under the authority of one of the following:

- (a) Provincial Sales Tax (PST) Exemption Licence Numbers, for the provinces of:
- | | |

| Prince Edward Island | OP-10000-250 |
| Ontario | 11708174G |
| Manitoba | 390-516-0 |
| British Columbia | R005521 |
- (b) An Exemption Certification, for Quebec, Saskatchewan, the Yukon Territory, the Northwest Territories and Nunavut, which certifies that the property and/or services ordered/purchased hereby are for the use of, and are being purchased by the federal government with Canada funds, and are therefore not subject to provincial/territorial sales and consumption taxes.
- (2) Currently, in Alberta, the Yukon Territory, the Northwest Territories and Nunavut, there is no general PST. However, should a PST be introduced in the Northwest Territories, Nunavut, or Yukon Territory, the sales tax exemption certificate would be required on purchase orders or other purchasing documents.
- (3) Federal departments are required to pay the Harmonized Sales Tax (HST) in the participating provinces of Newfoundland and Labrador, Nova Scotia and New Brunswick.
- (4) The Offeror is not exempt from paying the PST under the above Exemption Licence Numbers or Exemption Certification. The Offeror is required to pay the PST on taxable goods or services used or consumed in the performance of the contract (as per appropriate provincial legislation), including material incorporated into real property.
- (5) Exceptions
- The following exceptions are provided as examples and may not represent a complete list of all exceptions under the law:
- (a) tobacco products subject to tobacco taxes (except in Alberta);
 - (b) petroleum products subject to gasoline and motive fuel taxes;
 - (c) vehicle registration fees (except in Alberta, Northwest Territories, Nunavut and Yukon Territory);

If the supplies have been inspected at the Offeror's plant, the signed inspection voucher must be attached to the packing slip normally enclosed in the packing note envelope.

They are to be shown as a separate item on the invoice.

9. Valuation

The federal government's policy of underwriting its own risks precludes payment of any excess valuation and/or transportation charges beyond the specified FOB point (the point at which title of goods passes to the federal government). Goods will be covered to the carrier's maximum liability and value will be declared only when additional costs will not be incurred.

10. Shipment into Canada

6. If required, the Supplier will enter into a formal agreement with the Buyer containing such terms and conditions (not inconsistent with the terms and conditions hereof) as may be required by the Buyer. Unless and until such a formal agreement is entered into, this shall be the only contract and the terms and conditions hereof shall not be altered or added to by anything not set out herein.
7. The supplies shall be at the risk of the Supplier, and the Supplier shall bear all loss or damage whatsoever from whatsoever cause arising which may occur to the supplies or any part thereof up to the time the same are delivered at the FOB point or FAS point or other place of delivery specified in this Contract.
8. The Buyer reserves the right to change the place of delivery shown in this Contract to such other place as the Buyer may direct at any time prior to actual shipment, in which case the Supplier agrees to comply with such direction and shall be entitled to be reimbursed for any additional costs incurred or agrees to reduce its price or prices to the extent of any lesser costs involved.
9. Where the sale of the supplies is by description and there has been no examination or inspection of the supplies by or on behalf of the Buyer prior to delivery thereof, and the supplies do not correspond with the description, thereby involving a breach of a condition or warranty, expressed or implied, then the failure to inspect or reject the supplies shall not impose liability on the Buyer for such supplies which are not in accordance with the description and any and all costs and expenses incurred by the Buyer in respect of any such supplies which may be rejected at their destination, shall be borne by the Supplier.
10. The Supplier shall procure and/or supply at no additional cost to the Buyer all documents and reports which are necessary in connection with the delivery and shipment of the supplies, including the documents and reports specified in this Contract and such other documents and reports as may be required by the Buyer.

ANNEX "X"

CERTIFICATIONS PRECEDENT TO CONTRACT AWARD

Remark to Contracting Authority:

Use Annex "X", Certifications Precedent to Contract Award, in conjunction with the clause entitled "Certifications Precedent to Contract Award, Section III: Certification Requirements.

Use the following Standard Acquisition Clauses and Conditions (SACC) Manual certification clauses in full text, if applicable. Delete this annex, if it is not applicable. The certifications will be a condition precedent to award of contract as opposed to a mandatory requirement for evaluation purposes. This approach is recommended to ensure bids are not rejected during evaluation for lack of certifications. In the event that a bidder does not provide certifications at bid closing, the Contracting Authority must request these certifications prior to contract award. Failure by the Bidder to comply will render the bid non-responsive.

In order to be considered for contract award, a bidder whose bid is technically and financially responsive, must meet the following conditions:

Remark to Contracting Authority:

If applicable, use in full text one of the following clauses: K2000T, Federal Contractors Program for Employment Equity - \$200,000 or more; or K2002T, Federal Contractors Program for Employment Equity - over \$25,000 and below \$200,000. Use in conjunction with K2003C in the contract.

2T-PROC1 (16/06/06) Procedures for Using the Low Dollar Value and Medium Complexity Templates

Departmental Plain Language Standard Procurement documents which include templates for Bid Solicitation and Resulting Contract for Low Dollar Value and Medium Complexity requirements, new standard instructions and general conditions have been developed in consultation with Public Works and Government Services Canada's (PWGSC) Legal Services.

These documents must be used for Low Dollar Value and Medium Complexity competitive and non-competitive requirements for goods or services.

Text

Contracting officers must use the Low Dollar Value (LDV) and Medium Complexity documents in accordance with the following procedures:

1. 2T-LDV1 Low Dollar Value Bid Solicitation and Resulting Contract Template - Goods or Services
 - 1.1 The LDV template can be used for:
 - (a) Low risk requirements;
 - (b) Requirements with highly predictable application of standard terms and conditions;
 - (c) Requirements below \$25K (including all applicable taxes);
 - (d) Requirements with standard well defined requirements and specifications;
 - (e) Requirements for which the basis of selection is based on lowest priced bid; may include mandatory evaluation criteria.
 - 1.2 The LDV template cannot be used for:
 - (a) LDV requirements with point rated technical and financial evaluation criteria (refer to the Medium Complexity template 2T-MED1);
 - (b) Standing Offers;
 - (c) Supply Arrangements;
 - (d) Construction and Architectural and Engineering (A&E) contracting requirements;
 - (e) Canadian Commercial Corporation requirements;
 - (f) Aboriginal procurement strategy and set asides.
 - 1.3 Examples of requirement that may fall under LDV requirements:
 - (a) telephone buys;
 - (b) requirements for preconfigured product specifications;
 - (c) some services requirements;
 - (d) commercial aviation parts, etc.
 - 1.4 The following standard instruction and general conditions must be used with this template.
 - (a) 2003 Standard Instructions - Goods or Services (incorporated by reference under Part 1 of the template); and
 - (b) 2029 General Conditions - Goods or Services (Low Dollar Value) (incorporated by reference under Part 2 of the template).
 - 1.5 The template must not be used with other standard instructions and general conditions. This is a business rule.
 - 1.6 The template must not be used when supplemental general conditions are required.
2. 2T-MED1 Medium Complexity Bid Solicitation and Resulting Contract Template - Goods or Services
 - 2.1 The Medium Complexity template can be used for:

Templates and Forms

- (a) Medium risk requirements;
- (b) Requirements with standard well defined requirements and specifications;
- (c) Requirements with predictable application of standard terms and conditions;
- (d) Requirements that may involve high volume of transactions;
- (e) Requirements for which the evaluation and basis of selection are based on price, technical and financial evaluation criteria.

2.2 The Medium Complexity template cannot be used for:

- (a) Standing Offers;
- (b) Supply Arrangements;
- (c) Construction and Architectural and Engineering (A&E) contracting requirements;
- (d) Canadian Commercial Corporation requirements.

2.3 Examples of requirement that may fall under Medium Complexity requirements:

- (a) some commercial products;
- (b) some electrical and electronics products;
- (c) some commercial spare parts with military specifications;
- (d) some services requirements;
- (e) some information management/information technology (IM/IT) requirements, except those which require the use of supplemental general conditions.

2.4 The following standard instruction and general conditions must be used with this template.

- (a) 2003 Standard Instructions - Goods or Services (incorporated by reference under Part 2 of the template); and
- (b) 2010 General Conditions - Goods or Services (Medium Complexity) (incorporated by reference under Part 4 of the template).

2.5 The template must not be used with other standard instructions and general conditions. This is a business rule.

2.6 The template must not be used when supplemental general conditions are required.

3. Tips for using the standardized plain language documents

3.1 Standard Acquisition Clauses and Conditions (SACC) Manual clauses, other approved clauses and annexes to meet specific commodity needs may be added to the Bid Solicitation and Resulting Contract template as follows:

- (a) Contracting officers must ensure the additional clauses are not contained in 2003 Standard Instructions - Good or Services, and in the applicable general conditions (2029 General Conditions - Goods or Services (Low Dollar Value) or in 2010 General Conditions - Goods or Services (Medium Complexity));
- (b) Contracting officers must ensure there are no contradictions, inconsistencies and redundancy with the clauses added to the bid solicitation and resulting contract, the standard instructions and the general conditions;
- (c) Contracting officers must incorporate, by reference only, SACC Manual clauses unless there are blanks to be filled in. While incorporating SACC Manual clauses by reference may be contrary to current procedures identified under the Remarks section of the SACC Manual, this approach is recommended by Legal and must be followed when using the Plain Language Templates;
- (d) Contracting officers must incorporate in full text SACC Manual clauses with blanks to be filled in, in the appropriate section of the templates;
- (e) Contracting officers must incorporate all other clauses in full text (such as local clauses necessary for specific requirements) in the appropriate section of the templates as stand alone clauses with appropriate numbering;

Templates and Forms

- (f) Contracting officers must revise the Table of content when stand alone clauses have been added to the Bid Solicitation and Resulting Contract template.
- 3.2 Contracting officers must take advantage of the Remarks contained in the templates.
- 3.3 Contracting officers must delete unused choices as well as "Remarks to Contracting Authority" before issuing the bid solicitation.
- 3.4 Contracting officers must familiarize themselves with the content of the standard instructions and general conditions.
- 3.5 Contracting officers should have a hard copy of the templates, standard instructions and general conditions in hand when using the templates.
- 3.6 In English, the words "Contractor", "Bidder", "Work", "Contract" and "Contracting Authority" are capitalized when they are in the singular and preceded by "the" because, with the exception of "Bidder", they are defined in the Contract. In French, this rule for capitalization does not apply.
- 3.7 Contracting officers may use the resulting contract portion of the templates when they the bid solicitation is not used.
 - (a) For 2T-LDV1 template, retain Part 2 only of the document and delete the Title "Part 2 - Resulting Contract Clauses" before use.
 - (b) For 2T-MED1 template, retain Part 4 only of the document and delete the title "Part 4 - Resulting Contract Clauses" before use.

General Conditions describe the government's and contractors' rights and obligations in various types of contractual situations. Through the addition of clauses and additional statements, specific to an individual requirement, they form the foundation upon which contracts are built.

Prior to the introduction of the *Standard Acquisition Clauses and Conditions* Manual, General Condition sets were attached to bid solicitation packages. This practice has been replaced by incorporation by reference. The General Conditions specified in standard clause K0000D form part of the procurement document.

To improve readability, each set of General Conditions include an index section (article) - 00, which details the various subjects covered within the condition set. As well, each section has an effective date. As conditions are updated and modified, only the affected section will receive a new effective date, corresponding to the effective date for the whole condition set; thus making changes more readily identifiable by users.

The following list identifies those sets of General Conditions which are currently in use by the Department of Public Works and Government Services, their latest revision date and their title.

1026A 13 (1999-12-13) Further Assurances

1. If the Contractor is in default in carrying out any of the terms, conditions, or obligations of the Contract, or if the Contractor becomes bankrupt or insolvent, or has a receiving order made against it, or makes an assignment for the benefit of creditors, or if an order is made or resolution passed for the winding up of the Contractor, or if the Contractor takes the benefit of any statute for the time being in force relating to bankrupt or insolvent debtors, the Minister may, upon giving notice in writing to the Contractor, terminate the whole or any part of the Contract.

Upon a termination notice being given, the Contractor shall cease work (including the manufacturing and procuring of materials for the fulfilment of the Contract) in accordance with and to the extent specified in such notice. The Minister may, at any time or from time to time, give one or more additional termination notices with respect to any or all parts of the work not terminated by any previous termination notice.
2. In the event of a termination notice being given under the provisions of this section, and subject as hereinafter provided
 - (a) all finished work, whether completed before the giving of such notice or completed thereafter pursuant to such notice, shall be paid for (subject to acceptance in accordance with the provisions of the Contract) on the basis of the Contract Price;
 - (b) in respect of work not completed before the giving of such notice, and not completed thereafter pursuant to such notice, the Contractor shall be entitled to be reimbursed the actual cost to the Contractor of such uncompleted work and to receive in addition an amount representing a fair and reasonable profit in respect of work done thereon. Cost shall be determined in accordance with the provisions of Contract Cost Principles 1031-2, subject to any modifications thereof which the Minister may consider to be appropriate in the circumstances;
 - (c) subject as provided in paragraph (d) of this subsection 2, the Contractor shall be entitled to be reimbursed the amount of any capital expenditures specifically authorized by the Contract or approved by the Minister for the purpose of the Contract (and actually made or incurred) to the extent that the same (less any depreciation in respect thereof already taken into account in determining cost) were reasonably and properly incurred by the Contractor in respect of and are properly apportionable to the performance of the Contract and not included in the amounts paid or payable to the Contractor in respect of finished work;
 - (d) if the Contract is exclusively a Contract for the making of capital expenditures in respect of additional equipment or plant additions, the foregoing paragraphs (a) to (c) inclusive of this subsection 2 shall not apply but Canada shall pay, or reimburse the Contractor for the reasonable and proper cost to the Contractor (not previously paid by Canada) of:

 - (ii) all additional equipment in process of manufacture by the Contractor as at the date of the giving of such notice and all work in connection with the construction of the plant addition up to the said date, including the cost of materials and parts contracted for by

the Contractor for the purpose of such manufacture of construction and for which the Contractor is obligated to make payment.

3. Provided always that no reimbursements shall be made in respect of work which has been or may be rejected after inspection as not complying with the requirements of the Contract.
4. The Contractor shall not be reimbursed any amount which, taken together with any amounts paid or due or becoming due to the Contractor under the Contract, shall exceed the Contract Price applicable to the work or the particular part thereof.
5. Notwithstanding the provisions of any of the foregoing subsections 1 to 4 inclusive, the amounts which the Contractor shall be entitled to be reimbursed in the event of the giving of a termination notice under this section 26 shall include, subject as hereinafter provided, the costs of the Contractor of and incidental to the cancellation of obligations incurred by the Contractor pursuant to the termination notice, the cost of preparing the necessary accounts and statements with respect to work performed to the effective date of such termination and commitments made by the Contractor with respect to the terminated portions of the Work, wages which the Contractor is obligated under any laws and regulations for the time being in force, to pay to employees whose services are no longer required by reason of such termination, the costs of and incidental to the taking of an inventory of materials, components, work-in-process and finished work on hand at the effective date of the termination and other costs and expenses of and incidental to the termination, in whole or in part, of operations under the Contract provided always that payment and reimbursement under the provisions of this subsection shall be made only to the extent that it is established to the satisfaction of the Minister that the costs and expenses aforesaid were actually incurred by the Contractor and that the same are reasonable and are properly attributable to the termination of the Work or the part thereof so terminated.
6. In case of disagreement as to the amount which the Contractor is entitled to be reimbursed, the matter shall be referred to the Federal Court.
7. As far as practicable, the Contractor shall place purchase orders and subcontracts on terms that will enable the Contractor to terminate the same upon conditions and terms similar in effect to those provided in this section, and generally the Contractor shall co-operate with the Minister and do everything reasonably within its power at all times to minimize and reduce the amount of Canada's obligations in the event of termination hereunder.
8. Title to all materials, parts, plant, equipment and work-in-process in respect of which reimbursement is made to the Contractor as herein provided shall, upon such reimbursement being made, pass to and vest in Canada unless already so vested under any other provision of the Contract and such materials, parts, plant, equipment and work-in-process shall be delivered to the order of the Minister, but the materials thus taken over will in no case be in excess of what would have been required for performing the Contract in full if no termination notice had been given.
9. If the Minister is satisfied that by reason of any action taken under the provisions of this section exceptional hardships have resulted to the Contractor, then the Minister may, in his absolute discretion, grant such allowance (not to include in any case, however, any allowance or compensation for loss of profit) to the Contractor as, in the opinion of the Minister, is warranted by the circumstances.
10. The Contractor shall have no claim for damages, compensation, loss of profit, allowance or otherwise by reason of or directly or indirectly arising out of any action or notice given by the Minister under or pursuant to the provisions of this section to the extent in this section expressly provided.

1026A 27 (1991-06-01) Accounts

The Contractor shall keep proper accounts and records of the cost to the Contractor of the work and of all expenditures or commitments made by the Contractor in connection therewith and such accounts and records together with the related invoices, receipts and vouchers shall be open to audit and inspection by the authorized representatives of the Minister (who may make copies thereof and take extracts therefrom) at any time until the expiration of six (6) years from the end of the calendar year in which the Contract is terminated or completed and the Contractor shall afford all facilities for such audits and inspections and shall furnish the Minister and his authorized representatives with all such information as he or they may from time to time require with reference to such accounts, records, invoices, receipts and vouchers until the expiration of six (6) years from the end of the calendar year in which the Contract is terminated or completed, but shall preserve and keep the same available for audit and inspection at any time during such retention period.

In the event of any change in any tax imposed under the *Excise Act*, the *Excise Tax Act*, or any duties imposed under the Customs Tariff after the date of the Contract and which affects the cost to the Contractor of the work, the Contract Price shall be adjusted to reflect the increase or decrease in the cost to the Contractor.
2. As a prerequisite of payment, the Contractor shall forward to the Minister a certified statement showing the increase or decrease in cost to the Contractor that is directly attributable to the change in tax or duty. Any price revision under this section may be verified by government audit.
3. For the purpose of determining the adjustment in price referred to in subsection 2 of this section resulting from any change in tax or duty described in subsection 1 of this section, where such tax or duty is changed after the date of submission of the Contractor's tender or price proposal but public notice of such change has been given by the Minister of Finance before the date of submission thereof, the change of such tax or duty shall, for the purposes of this section, be deemed to have occurred before the date of submission of such tender or price proposal.

2. All accounts and records pertaining to payments of fees or other compensation for the solicitation, obtaining or negotiation of the Contract shall be subject to the Accounts and Audit provisions of the Contract.
3. If the Contractor certifies falsely under this section or is in default of the obligations contained therein, the Minister may either terminate this Contract for default in accordance with the termination for default provisions of the Contract or recover from the Contractor by way of reduction to the Contract Price or otherwise the full amount of the contingency fee.

8. The Contractor shall have no claim for damages, compensation, loss of profit, allowance or otherwise by reason of or directly or indirectly arising out of any action taken or notice given by the Minister under or pursuant to the provisions of this section except as and to the extent in this section expressly provided.

- 01 General Principle
- 02 Definition of a Reasonable Cost
- 03 Direct Costs
- 04 Indirect Costs
- 05 Allocation of Indirect Costs
- 06 Credits
- 07 Non-applicable Costs

1031-2 01 (1992-04-01) General Principle

The total cost of the Contract shall be the sum of the applicable direct and indirect costs which are, or are to be reasonably and properly incurred and/or allocated, in the performance of the Contract, less any applicable credits. These costs shall be determined in accordance with the Contractor's cost accounting practices as accepted by the Crown and applied consistently over time.

1031-2 02 (1991-06-01) Definition of a Reasonable Cost

1. A cost is reasonable if, in nature and amount, it does not exceed that which would be incurred by an ordinary prudent person in the conduct of a competitive business.
2. In determining the reasonableness of a particular cost, consideration shall be given to:
 - (a) whether the cost is of a type generally recognized as normal and necessary for the conduct of a contractor's business or performance of the Contract;
 - (b) the restraints and requirements by such factors as generally accepted sound business practices, arm's length bargaining, federal, provincial and local laws and regulations, and Contract terms;
 - (c) the action that prudent business persons would take in the circumstances, considering their responsibilities to the owners of the business, their employees, customers, the Government and public at large;
 - (d) significant deviations from the established practices of the Contractor which may unjustifiably increase the Contract costs; and
 - (e) the specifications, delivery schedule and quality requirements of the particular contract as they affect costs.

1031-2 03 (2004-12-10) Direct Costs

There are three categories of direct costs:

- (a) Direct Material Cost meaning the cost of materials which can be specifically identified and measured as having been used or to be used on the Contract and which are so identified and measured consistently by the Contractor's cost accounting practices as accepted by the Crown.
 - (i) These materials may include, in addition to materials purchased solely for the Contract and processed by the Contractor, or obtained from subcontractors, any other materials issued from the Contractor's general stocks.
 - (ii) Materials purchased solely for the Contract or subcontracts shall be charged to the Contract at the net laid-down cost to the Contractor before cash discounts for prompt payment.
 - (iii) Materials issued from the Contractor's general stocks shall be charged to the Contract in accordance with the method as used consistently by the Contractor in pricing material inventories.
- (b) Direct Labour Cost meaning that portion of gross wages or salaries incurred for work which can be specifically identified and measured as having been performed or to be performed on the Contract and

which is so identified and measured consistently by the Contractor's cost accounting practices as accepted by the Crown.

- (c) Other Direct Costs meaning those applicable costs, not falling within the categories of direct material or direct labour, but which can be specifically identified and measured as having been incurred or to be incurred in performance of the Contract and which are so identified and measured consistently by the Contractor's costing practices as accepted by the Crown.

1031-2 04 (1991-06-01) Indirect Costs

- 1 Indirect Costs (overhead) meaning those costs which, though necessarily having been incurred during the period of the Contract performance for the conduct of the Contractor's business in general, cannot be identified and measured as directly applicable to contracts.
2. These Indirect Costs may include, but are not necessarily restricted to, such items as:
- (a) indirect materials and supplies(*);
 - (b) indirect labour;
 - (c) fringe benefits (the Contractor's contribution only);
 - (d) service expenses: expenses of a general nature such as power, heat, light, operation and maintenance of general assets and facilities;
 - (e) fixed/period charges: recurring charges such as property taxes, rentals and reasonable provision for depreciation;
 - (f) general and administrative expenses: including remuneration of executive and corporate officers, office wages and salaries and expenses such as stationery, office supplies, postage and other necessary administration and management expenses;
 - (g) selling and marketing expenses associated with the products or services being acquired under the Contract;
 - (h) general research and development expenses as considered applicable by the Crown.

- (*) For supplies of similar low-value, high-usage items the costs of which meet the above definition of Direct Material Costs but for which it is economically expensive to account for these costs in the manner prescribed for direct costs, then they may be deemed to be indirect costs for the Contract purposes.

1031-2 05 (2004-12-10) Allocation of Indirect Costs

Indirect costs shall be accumulated in appropriate indirect cost pools, reflecting a contractor's organizational or operational lines and these pools subsequently allocated to contracts in accordance with the following two principles:

- (a) the costs included in a particular indirect cost pool should have a similarity of relationship with each contract to which that indirect cost pool is subsequently distributed; further, the costs included in an indirect cost pool should be similar enough in their relationship to each other that the allocation of the total costs in the pool provides a result which would be similar to that achieved if each cost within that pool were separately distributed;
- (b) the allocation basis for each indirect cost pool should reflect, as far as possible, the causal relationship of the pooled costs to the contracts to which these costs are distributed.

1031-2 6 (1991-06-01) Credits

The applicable portion of any income, rebate, allowance, or any other credit relating to any applicable direct or indirect cost, received by or accruing to the Contractor, shall be credited to the Contract.

1031-2 07 (2004-12-10) Non-applicable Costs

Notwithstanding that the following costs may have been or may be reasonably and properly incurred by the Contractor during the performance of the Contract, they are considered non-applicable costs to the Contract:

- (a) allowance for interest on invested capital, bonds, debentures, bank or other loans together with related bond discounts and finance charges;
- (b) legal, accounting and consulting fees in connection with financial reorganization, security issues, capital stock issues, obtaining of patents and licenses and prosecution of claims against the Crown;
- (c) losses on investments, bad debts and expenses for the collection thereof;
- (d) losses on other contracts;
- (e) federal and provincial income taxes, excess profit taxes or surtaxes and/or special expenses in connection therewith;
- (f) provisions for contingencies;
- (g) premiums for life insurance on the lives of officers and/or directors where proceeds accrue to the Contractor;
- (h) amortization of unrealized appreciation of assets;
- (i) depreciation of assets paid for by the Crown;
- (j) fines and penalties;
- (k) expenses and depreciation of excess facilities;
- (l) unreasonable compensation for officers and employees;
- (m) product development or improvement expenses not associated with the product being acquired under the Contract;
- (n) advertising, except reasonable advertising of an industrial or institutional character placed in trade, technical or professional journals for the dissemination of information for the industry or institution;
- (o) entertainment expenses;
- (p) donations except those to charities registered under the *Income Tax Act*;
- (q) dues and other memberships other than regular trade and professional associations;
- (r) fees, extraordinary or abnormal for professional advice in regard to technical, administrative or accounting matters, unless approval from the Contracting Authority is obtained.

1. Notices for the purposes of paragraph 16.1.(a) and sections 18 and 19 of these General Conditions shall be in writing and shall
 - (a) be delivered to the Contractor in person or, if the Contractor is a corporation or partnership, be delivered to a senior administrative or executive officer of the corporation or partnership; or

and if any question arises as to whether any such notice was communicated to the Contractor, it shall be deemed to have been sufficiently communicated to him;

- (c) if it was delivered pursuant to paragraph (a), on the day it was delivered; and

- (d) if it was sent by mail pursuant to paragraph (b), on the day it was received by the Contractor or on the sixth day after it was mailed, whichever is earlier.
2. Any notice, order, direction, decision or communication other than a notice to which subsection 1 refers, which may be given to the Contractor pursuant to the Contract, may be given in any manner, but it shall be deemed to have been sufficiently communicated to the Contractor if it was put in writing and the writing was

 - (c) left at the Contractor's office or, if he has more than one office, at one of them; or
 - (d) sent by mail to the Contractor or his superintendent addressed to the address mentioned in the Contract or to the Contractor's last known place of business or residence.

1034 12 (2000-12-01) Changes in Soil Conditions and Neglect or Delay by Canada

1. No payment will be made by Canada to the Contractor in addition to the payment expressly promised by the Contract on account of any extra expense, loss or damage incurred or sustained by the Contractor for any reason including a misunderstanding on the part of the Contractor as to any fact, whether or not such misunderstanding is attributable directly or indirectly to Canada or any of Canada's agents or servants (whether or not any negligence or fraud on the part of Canada's agents or servants is involved) unless, in the opinion of the Engineer, the extra expense, loss or damage is directly attributable to
- (a) a substantial difference between information relating to soil conditions at the rise of the Work, or a reasonable assumption of fact based thereon, in the Plans and Specifications or other documents or material communicated by Canada to the Contractor for his use in preparing his tender and the real soil conditions encountered at the site of the Work by the Contractor when executing the Work; or
 - (b) neglect or delay occurring after the date of the Contract on the part of Canada in providing any information or in doing any act which the Contract either expressly requires Canada to do or which would be done by an owner, in accordance with the usage of the trade, to enable his Contractor to carry out an undertaking similar to the Work being executed under the Contract for Canada,
- in which case, if the Contractor has given to the Engineer written notice of his claim before the expiration of thirty days from the encountering of the soil conditions giving rise to the claim or from the day on which the neglect occurs or the delay commences, as the case may be, Canada will pay to the Contractor in respect of the additional expense, loss or damage incurred or sustained by reason of that difference, neglect or delay, an amount equal to the cost, calculated in accordance with sections 44 to 47 of these General Conditions, of the additional plant, labour and materials necessarily involved.
2. If, in the opinion of the Engineer, the Contractor has effected a saving of expenditure by reason of the execution of the Work by the Contractor being rendered less difficult and less costly because the soil conditions actually encountered by the Contractor at the site of the Work when executing the Work are substantially different from soil conditions indicated in information or a reasonable assumption of fact based thereon in the Plans and Specifications or other documents or material communicated by Canada to the Contractor for his use in preparing his tender, the amount set out in the Contract shall be reduced by an amount equal to the saving effected by the Contractor.
3. Paragraph 1.(a) and subsection 2 are applicable only to a fixed price arrangement.
4. If information relating to soil conditions at the site of the Work appeared in the Plans and Specifications or in other documents or material communicated by Canada to the Contractor for his use in preparing his tender and if the real soil conditions encountered at the site of the Work by the Contractor when executing the Work are substantially different from such information, or a reasonable assumption of fact based thereon, so that the cost to the Contractor of executing the Work is directly and substantially increased or decreased by reason of such difference, then the Minister and the Contractor may, by agreement, amend the Unit Price Table so that the benefit of a substantial decrease in cost shall accrue to Canada and the burden of a substantial increase in cost will not be borne by the Contractor.
5. Subsection 4 is applicable only to a Unit Price Arrangement.

1034 13 (2000-12-01) Materials, Plant and Real Property Become Property of Canada

1. All materials and plant and the interest of the Contractor in all real property, licences, powers and privileges acquired, used or provided by the Contractor for the Work shall, from the time of being so acquired, used or provided, become and they are the property of Canada for the purposes of the Work and they shall continue to be the property of Canada
 - (a) in the case of materials, until incorporated in the Work or until the Engineer indicates that he is satisfied that they will not be required for the Work; and
 - (b) in the case of plant, real property, licences, powers and privileges, until the Engineer indicates that he is satisfied that the interest vested in Canada therein is no longer required for the purposes of the Work.
2. material or plant that is the property of Canada by virtue of this section shall not be taken away from the site of the Work, or used or disposed of, except for the purposes of the Work, without the consent in writing of the Engineer.
3. Canada is not liable for loss or damage to material or plant that is the property of Canada by virtue of this section and the Contractor is liable for such loss or damage notwithstanding that the material or plant is the property of Canada.

1034 14 (2000-12-01) Materials, Plant and Real Property Supplied by Canada

1. The Contractor is liable to Canada for loss or damage to material, plant or real property, whether attributable to causes beyond his control or not, supplied or made available by Canada to the Contractor for use in connection with the Work other than loss or damage resulting from and directly attributable to reasonable wear and tear.
2. The Contractor will not use material, plant or real property to which this section applies, except for the purpose of carrying out this Contract.
3. When the Contractor has failed, within a reasonable time after being required by the Engineer to do so, to make good any loss or damage for which he is liable under this section, the Engineer may cause the loss or damage to be made good, and the Contractor shall thereupon be liable to her Majesty for the cost thereof and shall, on demand, pay to Canada an amount equal to such cost.
4. The Contractor shall keep records of material, plant and real property to which this section applies that the Engineer from time to time requires and shall, from time to time as the Engineer requires, satisfy the Engineer that such material, plant and real property are at the place and in the condition that they ought to be.
5. This section applies to material, plant and real property supplied or made available by Canada to the Contractor for use in connection with the Work.

1034 15 (2000-12-01) Extension of Time

1. The Minister may, on the application of the Contractor made before the day fixed by the Contract for completion of the Work or before any new date for completion fixed under this subsection, if in his opinion it is in the public interest, extend the time for completion of the Work by fixing a new day for completion of the Work.
2. Where the Contractor does not complete the Work by the day fixed by the Contract for completion of the Work but does complete the Work thereafter, the Contractor shall pay to Canada.
 - (a) an amount equal to all salaries, wages and travelling expenses paid by Canada to persons superintending the Work during the period of delay;
 - (b) an amount equal to the value to Canada of the use of the completed Work for the period of delay; and
 - (c) an amount equal to all other expenses and damages incurred or sustained by Canada as a result of the Work not being completed during the period of delay.
3. For the purpose of this section,

- (a) the Work shall be deemed to be completed on the day the Engineer issues his Interim Certificate of Completion; and
 - (b) "period of delay" means the period commencing on the day fixed by the Contract for completion of the Work and ending on the day immediately preceding the day on which the Work is completed, but excluding therefrom any day within a period of extension granted under subsection 1, if on such day, in the opinion of the Minister, causes beyond the control of the Contractor delayed completion of the Work.
4. The Minister may, if in his opinion it is in the public interest, waive the right of Canada to the whole or any part of a payment payable pursuant to subsection 2.

1034 16 (2000-12-01) Taking the Work out of the Contractor's Hands

1. In any of the following cases, namely,
- (a) where the Contractor has made default or delayed in commencing or in diligently executing the Work or any portion thereof to the satisfaction of the Engineer and the Minister or the Engineer has given notice thereof to the Contractor and has by such notice required the Contractor to put an end to such default or delay, and such default or delay continues for six days after such notice was communicated;
 - (b) where the Contractor has made default in the completion of the Work, or any portion thereof, within the time limited for such completion by the Contract;
 - (c) where the Contractor has become insolvent;
 - (d) where the Contractor has committed an act of bankruptcy;
 - (e) where the Contractor has abandoned the Work;
 - (f) where the Contractor has made an assignment of the Contract without the required consent; or
 - (g) where the Contractor has otherwise failed to observe or perform any of the provisions of the Contract;

the Minister may, without any other authorization, take all or any part of the Work out of the Contractor's hands and may employ such means as he may see fit to complete the Work.

2. Where the Work or any portion thereof has been taken out of the Contractor's hands under subsection 1, the Contractor shall not, except as provided in subsection 3, be entitled to any further payment, including payments then due and payable but not paid, and the obligation of Canada to make payments as provided for in the Contract shall be at an end and the Contractor shall be liable to and upon demand therefor pay to Canada an amount equal to all loss and damage suffered by Canada by reason of the non-completion of the Work by the Contractor.
3. Where the Work or any portion thereof has been taken out of the Contractor's hands under subsection 1 and that portion is subsequently completed by Canada, the Engineer shall determine the amount, if any, of holdback and progress claims of the Contractor unpaid at the time of taking the Work out of his hands that in his opinion are not required by Canada for the purposes of the Contract and the Minister shall, if he is of opinion that no financial prejudice to Canada will result, authorize payment of that amount to the Contractor.

1034 17 (2000-12-01) Effect of Taking the Work from Contractor

1. The taking of the Work, or any portion thereof, out of the Contractor's hands pursuant to section 16 of the General Conditions does not operate so as to relieve or discharge the Contractor from any obligation under the Contract or imposed upon him by law except the obligation to complete the physical execution of that portion of the Work so taken out of his hands.
2. If the Work or any part thereof is taken out of the Contractor's hands pursuant to section 16, all materials and plant and the interest of the Contractor in all real property, licences, powers and privileges acquired, used or provided by the Contractor for the purposes of the Work shall, notwithstanding subsection 1 of section 13 of these General Conditions, be the property of Canada without compensation to the Contractor.

3. If the Engineer certifies that any interest in the property of Canada by virtue of subsection 2 is no longer required for the purposes of the Work and that it is not in the interests of Canada to retain the interest, it shall become the property of the Contractor.

1034 18 (1991-06-01) Suspension of Work by the Minister

1. The Minister may, when in his opinion it is in the public interest, require the Contractor to suspend execution of the Work, either for a specified or unspecified period, by communicating notice to that effect to the Contractor.
2. The Contractor, upon receiving notice of the Minister's requirement pursuant to subsection 1, shall suspend all operations except those which, in the Engineer's opinion, are necessary for the care and preservation of the Work, the materials and plant.
3. During the period of suspension, the Contractor shall not remove from the site any part of the Work, any materials or any plant without the consent of the Engineer.
4. If the period of suspension is 30 days or less, the Contractor, upon expiration of the period of suspension, shall resume the execution of the Work and he is entitled to be paid the cost, calculated in accordance with sections 44 to 47 of the General Conditions, of any plant, labour and material necessarily involved in complying with the suspension.
5. If the period of suspension is more than 30 days and if, upon the expiration of the period of suspension, the Minister and the Contractor agree that the execution of the Work be completed by the Contractor, the Contractor shall resume operations and complete the execution of the Work in accordance with any terms and conditions agreed upon by the Minister and the Contractor.
6. If, upon the expiration of a period of suspension of more than 30 days, the Minister and the Contractor do not agree that the Work will be completed by the Contractor or they are unable to agree upon the terms and conditions under which the Contractor will complete the Work, the notice of suspension shall be deemed to be a notice of termination pursuant to section 19.

1034 19 (2000-12-01) Termination of Contract

1. The Minister may, at any time by giving notice to that effect, terminate the Contract.
2. The Contractor will, upon receipt of a notice pursuant to subsection 1, cease all operations forthwith.
3. If the Contract is terminated pursuant to subsection 1, Canada will pay to the Contractor an amount equal to the lesser of
 - (a) the cost, as agreed upon by the Contractor and the Minister, of all labour, material and plant supplied by the Contractor as at the date of termination or, if the Contractor and the Minister cannot agree, as calculated in accordance with the formula set out in section 46 of the General Conditions, less all amounts already paid to the Contractor by Canada and less all amounts which the Contractor is liable to pay to Canada; and
 - (b) the amount calculated in accordance with the terms of payment which would have been payable to the Contractor had he completed the Work.
4. If the Contract is terminated pursuant to subsection 1, Canada will pay to the Contractor an amount equal to the cost, as agreed upon by the Contractor and the Minister, of all labour, material and plant supplied by the Contractor as of the date of termination or, if the Contractor and the Minister cannot agree, as calculated in accordance with the formula set out in section 46 of the General Conditions, less all amounts already paid to the Contractor by Canada and less all amounts which the Contractor is liable to pay to Canada.
5. Subsection 3 is applicable only to a fixed price arrangement and subsection 4 is applicable only to a unit price arrangement.

1034 20 (1991-06-01) Provision for Execution of Work

The Contractor will provide everything necessary for the execution of the Work, except things in respect of which the Contract expressly provides otherwise and except the site of the Work if the Work when completed is to remain permanently affixed thereon.

1034 21 (2000-12-01) Claims Against and Obligations of the Contractor or Subcontractor

1. Canada may, in order to discharge lawful obligations of and satisfy lawful claims against the Contractor or a subcontractor arising out of the execution of the Work, pay any amount which is due and payable to the Contractor pursuant to the Contract or is payable pursuant to section 41 of the General Conditions following a conversion or a negotiation of the security deposit directly to the obligees of and the claimant against the Contractor or the subcontractor.
2. A payment made pursuant to subsection 1 is, to the extent of the payment, a discharge of Canada's liability under the Contract to the Contractor.
3. To the extent that the circumstance of the Work being executed for Canada permits it, the Contractor will comply with all laws in force in the Province where the Work is being executed relating to payment periods, mandatory holdbacks, and creation and enforcement of mechanics' liens or, if such Province is the Province of Quebec, the law relating to privileges.
4. The Contractor will discharge all lawful obligations of his and will satisfy all lawful claims against him arising out of the execution of the Work, at least as often as the Contract requires Canada to discharge Her obligations to the Contractor.
5. The Contractor will, whenever so requested by the Engineer, make a statutory declaration deposing to the existence and condition of the obligations and claims referred to in subsection 4.

1034 22 (1991-06-01) Execution of Work under Direction of Engineer

The Contractor will permit the Engineer to have access to the Work at all times during the execution of the Work, will provide the Engineer with full information concerning what is being done to execute the Work, and will give the Engineer every possible assistance in respect of the performance of his duty to see that the Work is executed in accordance with the Contract and also in respect of the performance and exercise of the duties and powers specially imposed or conferred on him by the Contract.

1034 23 (1991-06-01) Clearing of Site

The Contractor will, upon completion of the Work, clear and clean the Work and its site to the satisfaction of and in accordance with any directions of the Engineer.

1034 24 (1991-06-01) Contractor's Superintendent

2010 02 (2006-06-16) Standard Clauses and Conditions

Pursuant to the *Department of Public Works and Government Services Act*, S.C. 1996, c. 16, the clauses and conditions identified by title, number and date in the Contract are incorporated by reference into and form part of the Contract as though expressly set out in the Contract.

2010 03 (2005-06-10) Status of the Contractor

The Contractor is engaged as an independent Contractor for the sole purpose of performing the Work. Neither the Contractor nor any of its personnel is engaged as an employee, servant or agent of Canada. The Contractor is responsible for all deductions and remittances required by law in relation to its employees.

2010 04 (2006-06-16) Conduct of the Work

1. The Contractor represents and warrants that:
 - (a) it is competent to perform the Work; and
 - (b) it has the necessary qualifications, including knowledge and skill, to perform the Work.
2. The Contractor must:
 - (a) supply everything necessary for the performance of the Work;
 - (b) carry out the Work in a diligent and efficient manner; and
 - (c) perform the Work in accordance with standards of quality acceptable to Canada and in full conformity with the requirements of the Contract.

2010 05 (2005-06-10) Subcontracts

1. The Contractor may subcontract the supply of standard goods or services which are customarily subcontracted by the Contractor. In any other instance, the Contractor must obtain the prior consent in writing of the Minister. The Minister may require the Contractor to furnish such particulars of the proposed Subcontract as he deems necessary.
2. Subcontracting does not relieve the Contractor from any of its obligations under the Contract or impose any liability upon Canada or the Minister to a subcontractor.
3. In any Subcontract, the Contractor agrees to bind the subcontractor by the same terms and conditions by which the Contractor is bound under the Contract, unless the Minister requires or agrees otherwise.

2010 06 (2005-06-10) Excusable Delay

1. A delay in the performance by the Contractor of any obligation under the Contract which is caused solely by an event that
 - (a) was beyond the reasonable control of the Contractor,
 - (b) could not reasonably have been foreseen,
 - (c) could not reasonably have been prevented by means reasonably available to the Contractor, and
 - (d) occurred without the fault or neglect of the Contractor,

constitutes an "Excusable Delay" provided that the Contractor advises the Minister of the occurrence of the delay or of the likelihood of the delay occurring as soon as the Contractor becomes aware of it. The Contractor must further advise the Minister, within fifteen (15) working days, of the full facts or matters giving rise to the delay and provide to the Minister for approval a clear work-around plan indicating in detail the steps that the Contractor proposes to take in order to minimize the impact of the event causing the delay.

2. In the event of an Excusable Delay, any delivery date or other date that is directly affected will be postponed for a reasonable time not to exceed the duration of the Excusable Delay.
3. The Minister may, however, after an Excusable Delay has continued for thirty (30) days or more, in the Minister's absolute discretion, terminate the Contract. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any other loss arising out of the termination or the event that gave rise to the Excusable Delay. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination.
4. Except to the extent that Canada is responsible for the delay for reasons of failure to meet an obligation under the Contract, Canada is not liable for any costs or charges of any nature incurred by the Contractor or any of its subcontractors or agents as a result of an Excusable Delay.
5. Upon termination of the Contract under this section, the Minister may require the Contractor to deliver to Canada, in the manner and to the extent directed by the Minister, any completed parts of the Work which have not been delivered and accepted prior to the termination and any materials, parts, plant, equipment or work-in-process which the Contractor has acquired or produced specifically in the fulfilment of the Contract. Canada will pay the Contractor the value, determined on the basis of the Contract Price, including the proportionate part of the Contractor's profit or fee included in the Contract Price, of all completed parts of the Work and the Cost to the Contractor that the Minister considers reasonable in respect of all materials, parts, plant, equipment or work-in-process delivered to Canada and accepted by Canada. In no event will the aggregate of the amounts paid by Canada under the Contract to the date of termination and any amounts payable pursuant to this subsection exceed the Contract Price.

2010 07 (2005-06-10) Inspection, Acceptance and Warranty

The Work is subject to inspection and acceptance by Canada. Despite prior acceptance of the Work and without restricting any conditions or warranty imposed by law, the Contractor, if requested by the Minister to do so, must replace, repair or correct at its option and its own expense any Work which becomes defective or which fails to conform to the Contract requirements, where applicable. For goods, the warranty period will be twelve (12) months after delivery and acceptance or the length of the Contractor's or manufacturer's standard warranty period, whichever is longer. Any Work replaced, repaired or corrected pursuant to this section is subject to all provisions of the contract to the same extent as Work initially performed.

Canada must pay the transportation cost associated with returning any Work to the Contractor for replacement, repair or making good and the Contractor must pay the transportation cost associated with forwarding the replacement or returning the Work to the delivery point specified in the Contract or to another location as directed by Canada. If, in the opinion of the Minister, it is not expedient to remove the Work from its location, the Contractor must carry out any necessary repair or making good of the Work at that location and will be paid its reasonable travelling and living expenses.

2010 08 (2005-06-10) Invoice Submission

Invoices must be submitted in the name of the Contractor. They must show the name and address of the client department, item/reference number, deliverable and/or description of Work, contract serial number, Client Reference Number (CRN), Procurement Business Number (PBN) and financial code(s). If applicable, the method of shipment together with date, case numbers and part or reference numbers, item, quantity, unit of issue, unit price, and additional charges will be shown on the invoice. If applicable, fixed time labour rates and level of effort and, the amount invoiced (exclusive of the Goods and Services Tax {GST} or Harmonized Sales Tax {HST} as appropriate), will be shown separately.

GST or HST, if applicable, will be incorporated into all invoices and shown as a separate item on invoices. All items that are zero-rated, exempt or to which the GST or HST does not apply, are to be identified as such on all invoices. Invoices must be submitted for each delivery/shipment and must apply to one contract only. Each invoice must indicate whether it covers partial or final delivery.

2010 09 (2005-06-10) Taxes

1. Municipal Taxes
Municipal Taxes are not applicable.
2. Provincial Taxes
 - (a) Excluding legislated exceptions, federal government departments and agencies are not required to pay any ad valorem sales tax levied by the province in which the taxable goods or

services are delivered. This exemption has been provided to federal government departments and agencies under the authority of one of the following:

- (i) Provincial Sales Tax (PST) Exemption Licence Numbers, for the provinces of:

Prince Edward Island	OP-10000-250
Ontario	11708174G
Manitoba	390-516-0
British Columbia	R005521

- (ii) For Quebec, Saskatchewan, the Yukon Territory, the Northwest Territories and Nunavut, an Exemption Certification, which certifies that the goods or services purchased are not subject to the provincial/territorial sales and consumption taxes because they are being purchased by the federal government with Canada funds for the use of the federal government.

- (b) Currently, in Alberta, the Yukon Territory, the Northwest Territories and Nunavut, there is no general PST. However, should a PST be introduced in the Northwest Territories, Nunavut, or Yukon Territory, the sales tax exemption certificate would be required on the purchasing document.
- (c) Federal departments are required to pay the HST in the participating provinces of Newfoundland and Labrador, Nova Scotia and New Brunswick.
- (d) The Contractor is not exempt from paying PST under the above Exemption Licence Numbers or Exemption Certification. The Contractor is required to pay the PST on taxable goods or services used or consumed in the performance of the Contract (as per appropriate provincial legislation), including material incorporated into real property.

3. Changes to Taxes and Duties

In the event of any change in any tax imposed under the *Excise Act*, R.S.C 1985, c. E-14, and *Excise Tax Act*, R.S.C. 1985, c. E-15, or any duties imposed under the Customs Tariff or any other federal or provincial sales, excise or other like duties, taxes, charges or impositions after the bid submission date and which affects the costs of the Work to the Contractor, the Contract price will be adjusted to reflect the increase or decrease in the cost to the Contractor.

4. Goods and Services Tax/Harmonized Sales Tax

The estimated Goods and Services Tax (GST) or Harmonized Sales Tax (HST), if applicable, is included in the total estimated cost on page 1 of the Contract. The GST or HST is not included in the Contract price but will be paid by Canada as provided in the Invoice Submission clause above. The Contractor agrees to remit to Canada Revenue Agency any amounts of GST and HST paid or due.

2010 10 (2005-06-10) Transportation Charges

If transportation charges are payable by Canada under the terms of the Contract and the Contractor makes the transportation arrangements, shipments must be made by the most direct and economical means consistent with normal shipping practice. The charges must be shown as a separate item on the invoice. The federal government's policy of underwriting its own risks precludes payment of insurance or valuation charges for transportation beyond the point at which title of goods passes to the federal government (determined by the FOB point or Incoterms). Where increased carrier liability is available without charge, the Contractor must obtain the increased liability for shipment.

2010 11 (2005-06-10) Shipment Documentation

For the shipment of goods, the transportation bill of lading must accompany the original invoice, except for "collect" shipments (if and when stipulated), in which event it must accompany the shipment. In addition, a packing slip must accompany each shipment, showing item, quantity, part or reference numbers, description of suppliers and contract reference numbers, including the Client Reference Number (CRN) and Procurement Business Number (PBN). If the goods have been inspected at the Contractor's plant, the signed inspection voucher must be attached to the packing slip normally enclosed in the packing note envelope.

2010 12 (2005-06-10) Payment

Payment by Canada for the Work will be made following delivery, inspection and acceptance of the Work, and upon presentation of invoices and any other substantiating documentation as Canada requires.

2010 13 (2005-06-10) Interest on Overdue Accounts

1. For the purposes of this section:

"Average Rate" means the simple arithmetic mean of the Bank Rates in effect at 4:00 p.m. Eastern Standard Time each day during the calendar month which immediately precedes the calendar month in which payment is made;

"Bank Rate" means the rate of interest established from time to time by the Bank of Canada as the minimum rate at which the Bank of Canada makes short term advances to members of the Canadian Payments Association;

"date of payment" means the date of the negotiable instrument drawn by the Receiver General for Canada and given for payment of an amount due and payable under the Contract;

an amount becomes "overdue" when it is unpaid on the first day following the day upon which it is due and payable in accordance with the terms of the Contract.

2. Canada is liable to pay to the Contractor simple interest at the Average Rate plus three percent (3%) per annum on any amount that is overdue, from the date such amount becomes overdue until the day prior to the date of payment, inclusive. Interest will be paid without notice from the Contractor.
3. Canada is not liable to pay interest in accordance with this section if Canada is not responsible for the delay in paying the Contractor. Canada is not liable to pay interest on overdue advance payments.

2010 14 (2005-06-10) Audit

1. The Contractor must keep proper accounts and records of the Cost to the Contractor of the Work and of all expenditures or commitments made by the Contractor in connection with the Work and must keep all invoices, receipts and vouchers relating to the Work. The Contractor must not, without the prior written consent of the Minister, dispose of any such accounts, records, invoices, receipts or vouchers until the expiration of 6 years after final payment under the Contract, or until the settlement of all outstanding claims and disputes, whichever is later.
2. All such accounts and records as well as any invoices, receipts and vouchers must at all times during the retention period referred to in subsection 1 be open to audit, inspection and examination by the authorized representatives of the Minister, who may make copies and take extracts. The Contractor must provide all facilities for such audits and inspections and must furnish all such information as the representatives of the Minister may from time to time require with respect to such accounts, records, invoices, receipts and vouchers.

2010 15 (2005-06-10) Compliance with Applicable Laws

The Contractor must comply with all laws applicable to the performance of the Work.

2010 16 (2005-06-10) Time of the Essence

The Work must be performed within or at the time stated in the Contract.

2010 17 (2005-06-10) Title

1. Except as otherwise provided in the Contract, and except as provided in subsection 2, title of the Work or any part of the Work belongs to Canada upon delivery and acceptance by or on behalf of Canada.
2. If any payment is made to the Contractor for or on account of materials, parts, work-in-process or finished work, either by way of progress payments or accountable advances or otherwise, title in and to all materials, parts, work-in-process and finished work so paid for belongs to Canada upon payment. Transfer pursuant to this subsection does not constitute acceptance by Canada of the materials, parts, work-in-process or finished work, and does not relieve the Contractor of its obligation to perform the Work in accordance with the Contract.
3. Despite any transfer of title referred to in this section and except as otherwise provided in the Contract, the risk of loss or damage to the materials, parts, work-in-process or finished Work remains with the Contractor until their delivery to Canada in accordance with the Contract.

4. Where title to any materials, parts, work-in-process or finished Work is transferred to Canada, the Contractor must, upon the Minister's request, establish to the Minister's satisfaction that the title is free and clear of all claims, liens, attachments, charges or encumbrances and must execute such conveyances and other instruments necessary to perfect that title as the Minister may request.

2010 18 (2005-06-10) Confidentiality

1. The Contractor must keep confidential all information provided to the Contractor by or on behalf of Canada in connection with the Work and all information conceived, developed or produced by the Contractor as part of the Work. Information provided to the Contractor by or on behalf of Canada must be used solely for the purpose of the Contract and remains the property of Canada.
2. Subject to the *Access to Information Act*, R.S.C. 1985, c. A-1, and to any right of Canada under the Contract to release or disclose, Canada agrees not to release or disclose outside the Government of Canada any information delivered to Canada under the Contract that is proprietary to the Contractor or a subcontractor.
3. The obligations of the Parties set out in this section do not apply to any information where the same information:
- (a) is publicly available from a source other than the other Party; or
 - (b) is or becomes known to a Party from a source other than the other Party, except any source that is known to be under an obligation to the other Party not to disclose the information, or
 - (c) is developed by a Party without use of the information of the other Party.

2010 19 (2005-06-10) Copyright

1. Anything that is created or developed by the Contractor as part of the Work under the Contract in which copyright subsists belongs to Canada. The Contractor must incorporate the copyright symbol and either of the following notices, as appropriate:
- © HER MAJESTY THE QUEEN IN RIGHT OF CANADA (year)
- or
- © SA MAJESTÉ LA REINE DU CHEF DU CANADA (année)
2. At the request of the Minister, the Contractor must provide to Canada, at the completion of the Work or at such other time as the Minister may require, a written permanent waiver of Moral Rights, in a form acceptable to the Minister, from every author that contributed to the Work. If the Contractor is an author, the Contractor permanently waives the Contractor's Moral Rights.

2010 20 (2005-06-10) Government Property

The Contractor must take reasonable and proper care of all Government Property while such property is in its possession or subject to its control and is responsible for any loss or damage, ordinary wear and tear excepted, resulting from its failure to do so.

2010 21 (2005-06-10) Amendment

No amendment to the Contract is effective unless it is incorporated into the Contract by written amendment executed by the authorized representatives of the Minister and of the Contractor.

2010 22 (2005-06-10) Assignment

1. The Contract must not be assigned, in whole or in part, by the Contractor without the prior consent in writing of the Minister and any assignment made without that consent is void and of no effect.
2. Assignment of the Contract does not relieve the Contractor from any obligation under the Contract or impose any liability upon Canada or the Minister, unless otherwise agreed to in writing by the Minister.

2010 23 (2005-06-10) Default by the Contractor

1. Where the Contractor is in default in carrying out any of its obligations under the Contract, the Minister may, upon giving written notice to the Contractor, terminate for default the whole or any part of the

- Contract, either immediately, or at the expiration of a cure period specified in the notice if the Contractor has not cured the default to the satisfaction of the Minister within that cure period.
2. Where the Contractor becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or where a receiver is appointed under a debt instrument or a receiving order is made against the Contractor, or an order is made or a resolution passed for the winding up of the Contractor, the Minister may, upon giving notice to the Contractor, immediately terminate for default the whole or any part of the Contract.
 3. Upon the giving of a notice provided for in subsection 1 or 2, the Contractor will have no claim for further payment, but remains liable to Canada for any amounts, including milestone payments, paid by Canada and for all losses and damages which may be suffered by Canada by reason of the default, including any increase in the cost incurred by Canada in procuring the Work from another source.
 4. Upon termination of the Contract under this section, the Minister may require the Contractor to deliver to Canada, in the manner and to the extent directed by the Minister, any completed parts of the Work which have not been delivered and accepted prior to the termination and any materials, parts, plant, equipment or work-in-process which the Contractor has acquired or produced specifically in the fulfilment of the Contract.
 5. Subject to the deduction of any claim that Canada may have against the Contractor arising under the Contract or out of the termination, Canada will pay the Contractor the value, determined on the basis of the Contract Price including the proportionate part of the Contractor's profit or fee included in the Contract Price, of all completed parts of the Work and the Cost to the Contractor that the Minister considers reasonable in respect of all materials, parts, plant, equipment or work-in-process delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada.

2010 24 (2005-06-10) Termination for Convenience

1. The Minister may, at any time prior to the completion of the Work, by giving notice to the Contractor in writing, terminate the Contract as regards all or any part of the Work not completed. Upon a termination notice being given, the Contractor must cease Work in accordance with and to the extent specified in the notice, but must proceed to complete such part or parts of the Work as are not affected by the termination notice.
2. In the event of a termination notice being given pursuant to subsection 1, the Contractor will be entitled to be paid, to the extent that costs have been reasonably and properly incurred for purposes of performing the Contract and to the extent that the Contractor has not already been so paid or reimbursed by Canada:
 - (a) on the basis of the Contract Price, for all completed Work that is accepted in accordance with the Contract, whether completed before, or after and in compliance with the instructions contained in the termination notice;
 - (b) the Cost to the Contractor plus a fair and reasonable profit, for all Work terminated by the termination notice before completion, the Cost to the Contractor being determined in accordance with the terms of the Contract and with Contract Cost Principles 1031-2;
 - (c) all costs of and incidental to the termination of the Work, but not including the cost of severance payments or damages to employees whose services are no longer required by reason of the termination except wages that the Contractor is obligated by statute to pay them and except for reasonable severance payments or damages paid to employees hired to perform the Contract whose hiring was expressly required by the Contract or approved in writing by the Minister for the purpose of the Contract.
3. The Minister may reduce the payment in respect of any of the Work to the extent that, upon inspection, it is deficient in meeting the requirements of the Contract.
4. The total of the amounts to which the Contractor is entitled under subsections 2.(a) and (b), together with any amounts paid or due or becoming due to the Contractor under other provisions of the Contract, must not exceed the Contract Price or the portion that is applicable to the part of the Work that is terminated.
5. The Contractor has no claim for damages, compensation, loss of profit, allowance or otherwise by reason of, or directly or indirectly arising out of, any action taken or termination notice given by the Minister under this section, except to the extent that this section expressly provides.

2010 25 (2006-06-16) Conflict of Interest

Persons not in compliance with the provisions of the Conflict of Interest and Post-Employment Code for Public Office Holders, the Values and Ethics Code for the Public Service, or the Defence Administrative Orders and Directives governing Conflict of Interest and Post-Employment, cannot derive any direct benefit from the Contract.

2010 26 (2006-06-16) Contingency Fees

The Contractor certifies that it has not directly or indirectly paid or agreed to pay and agrees that it will not directly or indirectly pay a contingency fee for the solicitation, negotiation or obtaining of the Contract to any person, other than an employee of the Contractor acting in the normal course of the employee's duties. In this section, "contingency fee" means any payment or other compensation that is depending or calculated upon the basis of a degree of success in soliciting, negotiating or obtaining the Contract and "person" includes any individual who is required to file a return with the registrar pursuant to section 5 of the *Lobbyists Registration Act*, R.S., 1985, c. 44 (4th Supp.).

2010 27 (2006-06-16) International Sanctions

1. Persons in Canada, and Canadians outside of Canada, are bound by economic sanctions imposed by Canada. As a result, the Government of Canada cannot accept delivery of goods or services that originate, either directly or indirectly, from the countries or persons subject to economic sanctions.

<http://www.dfait-maeci.gc.ca/trade/sanctions-en.asp>.

2. The Contractor must not supply to the Government of Canada any goods or services which are subject to economic sanctions.
3. By law, the Contractor must comply with changes to the regulations imposed during the life of the Contract. During the performance of the Contract, should the imposition of sanctions against a country or person or the addition of a good or service to the list of sanctioned goods or services cause an impossibility of performance for the Contractor, the situation will be treated by the Parties as a force majeure. The Contractor must immediately inform Canada of the situation and the procedures applicable to force majeure will then apply.

The Work is subject to inspection and acceptance by Canada. Despite prior acceptance of the Work and without restricting any conditions or warranty imposed by law, the Contractor, if requested by the Minister to do so, must replace, repair or correct, at its option and its own expense any Work which becomes defective or which fails to conform to the Contract requirements, where applicable. For goods, the warranty period will be twelve (12) months after delivery and acceptance of the Work or the length of the Contractor's or manufacturer's standard warranty period, whichever is longer. Any Work replaced, repaired or corrected pursuant to this section is subject to all provisions of the Contract to the same extent as Work initially performed.

Canada must pay the transportation cost associated with returning any Work to the Contractor for replacement, repair or making good and the Contractor must pay the transportation cost associated with forwarding the replacement or returning the Work to the delivery point specified in the Contract or to another location as directed by Canada. If, in the opinion of the Minister, it is not expedient to remove the Work from its location, the Contractor must carry out any necessary repair or making good of the Work at that location and will be paid its reasonable travelling and living expenses.

2029 05 (2005-06-10) Invoice Submission

Invoices must be submitted in the name of the Contractor. They must show the name and address of the client department, item/reference number, deliverable and/or description of Work, contract serial number, Client Reference Number (CRN), Procurement Business Number (PBN) and financial code(s). If applicable, the method of shipment together with date, case numbers and part or reference numbers, item, quantity, unit of issue, unit price, and additional charges will be shown on the invoice. If applicable, fixed time labour rates, level of effort and, the amount invoiced (exclusive of the Goods and Services Tax {GST} or Harmonized Sales Tax {HST} as appropriate), will be shown separately.

GST, HST or other taxes, if applicable, will be incorporated into all invoices and shown as a separate item on invoices. All goods or services that are zero-rated, exempt or to which the GST or HST does not apply, are to be identified as such on all invoices. Invoices must be submitted for each delivery/shipment and must apply to one contract only. Each invoice must indicate whether it covers partial or final delivery.

2029 06 (2005-06-10) Taxes

1. Municipal Taxes
Municipal Taxes are not applicable.
2. Provincial Taxes
 - (a) Excluding legislated exceptions, federal government departments and agencies are not required to pay any ad valorem sales tax levied by the province in which the taxable goods or services are delivered. This exemption has been provided to federal government departments and agencies under the authority of one of the following:
 - (i) Provincial Sales Tax (PST) Exemption Licence Numbers, for the provinces of:

Prince Edward Island	OP-10000-250
Ontario	11708174G
Manitoba	390-516-0
British Columbia	R005521
 - (ii) For Quebec, Saskatchewan, the Yukon Territory, the Northwest Territories and Nunavut, an Exemption Certification, which certifies that the goods or services purchased are not subject to the provincial/territorial sales and consumption taxes because they are being purchased by the federal government with Canada funds for the use of the federal government.
 - (b) Currently, in Alberta, the Yukon Territory, the Northwest Territories and Nunavut, there is no general PST. However, should a PST be introduced in the Northwest Territories, Nunavut, or Yukon Territory, the sales tax exemption certificate would be required on the purchasing document.
 - (c) Federal departments are required to pay the Harmonized Sales Tax (HST) in the participating provinces of Newfoundland and Labrador, Nova Scotia and New Brunswick.
 - (d) The Contractor is not exempt from paying PST under the above Exemption Licence Numbers or Exemption Certification. The Contractor is required to pay the PST on taxable goods or

services used or consumed in the performance of the Contract (as per appropriate provincial legislation), including material incorporated into real property.

3. **Changes to Taxes and Duties**
In the event of any change in any tax imposed under the *Excise Act*, R.S.C 1985, c. E-14, and *Excise Tax Act*, R.S.C. 1985, c. E-15, or any duties imposed under the Customs Tariff or any other federal or provincial sales, excise or other like duties, taxes, charges or impositions after the bid submission date and which affects the costs of the Work to the Contractor, the Contract price will be adjusted to reflect the increase or decrease in the cost to the Contractor.
4. **Goods and Services Tax/Harmonized Sales Tax**
The estimated Goods and Services Tax (GST) or Harmonized Sales Tax (HST), if applicable, is included in the total estimated cost on page 1 of the Contract. The GST or HST is not included in the Contract price but will be paid by Canada as provided in the Invoice Submission clause above. The Contractor agrees to remit to Canada Revenue Agency any amounts of GST and HST paid or due.

2029 07 (2005-06-10) Transportation Charges

If transportation charges are payable by Canada under the terms of the Contract and the Contractor makes the transportation arrangements, shipments must be made by the most direct and economical means consistent with normal shipping practice. The charges must be shown as a separate item on the invoice. The federal government's policy of underwriting its own risks precludes payment of insurance or valuation charges for transportation beyond the point at which title of goods passes to the federal government (determined by the FOB point or Incoterms). Where increased carrier liability is available without charge, the Contractor must obtain the increased liability for shipment.

2029 08 (2005-06-10) Shipment Documentation

For the shipment of goods, the transportation bill of lading must accompany the original invoice, except for "collect" shipments (if and when stipulated), in which event it must accompany the shipment. In addition, a packing slip must accompany each shipment, showing item, quantity, part or reference numbers, description of suppliers and contract reference numbers, including the Client Reference Number (CRN) and Procurement Business Number (PBN). If the goods have been inspected at the Contractor's plant, the signed inspection voucher must be attached to the packing slip normally enclosed in the packing note envelope.

2029 09 (2005-06-10) Payment and Interest on Overdue Accounts

1. Payment by Canada for the Work will be made following delivery, inspection and acceptance of the Work, and upon presentation of invoices and any other substantiating documentation as Canada requires.
2. For the purposes of this section:

"Average Rate" means the simple arithmetic mean of the Bank Rates in effect at 4:00 p.m. Eastern Standard Time each day during the calendar month which immediately precedes the calendar month in which payment is made;

"Bank Rate" means the rate of interest established from time to time by the Bank of Canada as the minimum rate at which the Bank of Canada makes short term advances to members of the Canadian Payments Association;

"date of payment" means the date of the negotiable instrument drawn by the Receiver General for Canada and given for payment of an amount due and payable under the Contract;

an amount becomes "overdue" when it is unpaid on the first day following the day upon which it is due and payable in accordance with the terms of the Contract.

3. Canada is liable to pay to the Contractor simple interest at the Average Rate plus three percent (3%) per annum on any amount that is overdue, from the date such amount becomes overdue until the day prior to the date of payment, inclusive. Interest will be paid without notice from the Contractor.
4. Canada is not liable to pay interest in accordance with this section if Canada is not responsible for the delay in paying the Contractor. Canada is not liable to pay interest on overdue advance payments.

2029 10 (2005-06-10) Audit

The amount claimed by the Contractor under the Contract is subject to audit by Canada before or after payment has been made to the Contractor. The Contractor must keep proper accounts and records of the cost of performing the Contract and keep all documents relating to such cost for a period of 6 years after final payment under the Contract.

2029 11 (2005-06-10) Compliance with Applicable Laws

The Contractor must comply with all laws applicable to the performance of the Work.

2029 12 (2005-06-10) Time of the Essence

The Work must be performed within or at the time stated in the Contract.

2029 13 (2005-06-10) Title

Except as otherwise provided in the Contract, title to the Work (including copyright where it exists) belongs to Canada upon delivery and acceptance by Canada and the risk of loss or damage remains with the Contractor until delivery of the Work to Canada.

2029 14 (2005-06-10) Government Property

The Contractor must take reasonable and proper care of all Government Property while such property is in its possession or subject to its control and is responsible for any loss or damage, ordinary wear and tear excepted, resulting from its failure to do so.

2029 15 (2005-06-10) Amendment and Assignment

The Contract must not be amended or assigned, in whole or in part, without the prior written agreement of the parties.

2029 16 (2005-06-10) Default by the Contractor

If the Contractor is in default in carrying out any of its obligations under the Contract, or is bankrupt or insolvent or in receivership, the Minister may, upon giving written notice to the Contractor, terminate the whole or any part of the Contract. Upon the giving of such notice, the Contractor will have no claim for any further payment and remains liable to Canada for all losses and damages suffered by Canada by reason of the default, including any increase in the cost incurred by Canada in procuring the Work from another source.

2029 17 (2005-06-10) Termination for Convenience

The Minister may, any time prior to the completion of the Work, by giving notice to the Contractor in writing, terminate all or any portion of the Contract. In such case, the Contractor will be paid for Work that has been performed, accepted and unpaid in accordance with the Contract price. The Contractor will be entitled to be reimbursed the actual costs reasonably and properly incurred as a direct result of the termination, but in no case such reimbursement must exceed the Contract price. The Contractor will have no claim for damages, compensation, loss of profit or otherwise, except as provided in this section.

2029 18 (2006-06-16) Conflict of Interest

Persons not in compliance with the provisions of the Conflict of Interest and Post-Employment Code for Public Office Holders or the Values and Ethics Code for the Public Service cannot derive any direct benefit from the Contract.

2029 19 (2006-06-16) Contingency Fees

The Contractor certifies that it has not directly or indirectly paid or agreed to pay and agrees that it will not directly or indirectly pay a contingency fee for the solicitation, negotiation or obtaining of the Contract to any person, other than an employee of the Contractor acting in the normal course of the employee's duties. In this section, "contingency fee" means any payment or other compensation that is depending or calculated upon the basis of a degree of success in soliciting, negotiating or obtaining the Contract and "person" includes any individual who is required to file a return with the registrar pursuant to section 5 of the *Lobbyists Registration Act*, R.S. 1985 c.44 (4th Supplement).

2029 20 (2006-06-16) International Sanctions

1. Persons in Canada, and Canadians outside of Canada, are bound by economic sanctions imposed by Canada. As a result, the Government of Canada cannot accept delivery of goods or services that originate, either directly or indirectly, from the countries or persons subject to economic sanctions.

Details on existing sanctions can be found at:
<http://www.dfait-maeci.gc.ca/trade/sanctions-en.asp>.
2. The Contractor must not supply to the Government of Canada any goods or services which are subject to economic sanctions.
3. By law, the Contractor must comply with changes to the regulations imposed during the life of the Contract. During the performance of the Contract, should the imposition of sanctions against a country or person or the addition of a good or service to the list of sanctioned goods or services cause an impossibility of performance for the Contractor, the situation will be treated by the parties as a force majeure. The Contractor must immediately inform Canada of the situation and the procedures applicable to force majeure will then apply.

2029 21 (2006-06-16) Entire Agreement

The Contract constitutes the entire and sole agreement between the parties.

9601 02 (1994-01-04) Powers of the Minister

9601 03 (2004-05-14) Status of the Contractor

1. The Contractor is engaged as an independent contractor for the sole purpose of performing the Work. Neither the Contractor nor any of its personnel is engaged as an employee, servant or agent of Canada. The Contractor is responsible for all deductions and remittances required by law in relation to its employees including those required for Canada or Quebec Pension Plans, unemployment insurance, workers' compensation, or income tax.
2. Without restricting the terms and conditions of the Contract, and particularly section 22 of these general conditions, it is hereby understood and agreed that, except to the extent caused by or due to Canada, Canada shall not be liable for any losses, claims, damages, or expenses relating to any injury, disease, illness, disability or death of the Contractor or any employee, agent or representative of the Contractor caused or alleged to be caused as a result of performing the Contract. 9601 05 (2004-12-10) Conduct of the Work

1. The Contractor represents and warrants that:
 - (a) it is competent to perform the Work; and
 - (b) it has the necessary qualifications, including knowledge, skill and experience, to perform the Work, together with the ability to use those qualifications effectively for that purpose.
2. Except for Government Property specifically provided for in the Contract, the Contractor shall supply everything necessary for the performance of the Work, including all the resources, facilities, labour and supervision, management, services, equipment, materials, drawings, technical data, technical assistance, engineering services, inspection and quality assurance procedures, and planning necessary to perform the Work.
3. The Contractor shall:
 - (a) carry out the Work in a diligent and efficient manner;
 - (b) apply as a minimum quality assurance tests, inspections and controls consistent with those in general usage in the trade and that are reasonably calculated to ensure the degree of quality required by the Contract; and

 - (ii) is in full conformity with the Specifications; and
 - (iii) meets all other requirements of the Contract.

5. The Contractor shall provide such reports on the performance of the Work as are required by the Contract and such other reports as may reasonably be required by the Minister or the Technical Authority.
6. The Contractor shall be fully responsible for performing the Work and Canada shall not be liable for any negative consequences or extra costs arising out of the Contractor's following any advice given by Canada, whether given without or upon invitation by the Contractor, unless the advice was provided to the Contractor in writing by the Contracting Authority and was accompanied by a statement specifically relieving the Contractor of any responsibility for negative consequences or extra costs that might arise from following the advice.

9601 06 (1994-01-04) Compliance with Applicable Laws

The Contractor shall comply with all laws applicable to the performance of the Work or any part thereof including, without limitation, all laws concerning health and labour conditions and the protection of the environment, and shall require compliance therewith by all of its subcontractors. 9601 07 (2001-05-25) Specifications

1. Where, pursuant to the terms of the Contract, Specifications furnished by the Contractor are subject to approval by the Minister or the Technical Authority, such approval shall not relieve the Contractor of its responsibility to complete the Work and to meet all requirements of the Contract. Any such approval shall not be unreasonably withheld.
2. The Contractor agrees to accept and be bound by the Inspection or Quality Assurance Authority's interpretation of the Specifications, insofar as such an interpretation is not inconsistent with any other part of the Contract.

1. Unless otherwise provided in the Contract, the Contractor shall obtain the consent of the Minister in writing prior to subcontracting or permitting the subcontracting of any portion of the Work at any tier. The Minister shall not unreasonably withhold consent.

A Subcontract at any tier may not be let without consent, under paragraph (b), (c) or (d), where the subcontractor would obtain title to intellectual property developed as part of the Work.

3. In any Subcontract other than a Subcontract referred to in paragraph 2 (a), the Contractor shall, unless the Minister otherwise consents in writing, ensure that the subcontractor is bound by terms and conditions compatible with and, in the opinion of the Minister, not less favourable to Canada than the terms and conditions of the Contract. Deviations in any subcontract from the terms of the Contract, including any right of termination of the Contract, shall be entirely at the risk of the Contractor.
4. The Contractor is not obliged to seek consent to subcontracts specifically authorized in the Contract.
5. Any consent to a Subcontract shall not relieve the Contractor from its obligations under the Contract or be construed as authorizing any liability on the part of Canada or the Minister to a subcontractor.

1. When specific persons have been named in the Contract as the persons who must perform the Work, the Contractor shall provide the services of the persons so named unless the Contractor is unable to do so for reasons beyond its control.

 - (b) the name, qualifications and experience of the proposed replacement person; and
 - (c) proof that the person has the required security clearance granted by Canada, if applicable.

3. The Minister may order the removal from the Work of any such replacement person and the Contractor shall immediately remove the person from the Work and shall, in accordance with subsection 2, secure a further replacement.
4. The fact that the Minister does not order the removal of a replacement person from the Work shall not relieve the Contractor from its responsibility to meet the requirements of the Contract.

9601 10 (1994-01-04) Assignment

1. The Contract shall not be assigned, in whole or in part, by the Contractor without the prior consent in writing of the Minister and any purported assignment made without that consent is void and of no effect.

Time is of the essence of the Contract.

9601 12 (1994-01-04) Excusable Delay

1. A delay in the performance by the Contractor of any obligation under the Contract which is caused solely by an event that
 - (a) was beyond the reasonable control of the Contractor,
 - (b) could not reasonably have been foreseen,
 - (c) could not reasonably have been prevented by means reasonably available to the Contractor, and
 - (d) occurred without the fault or neglect of the Contractor,shall, subject to subsections 2, 3 and 4, constitute an "Excusable Delay" provided that the Contractor invokes this section by notice under subsection 4.
2. If any delay in the Contractor's performance of any obligation under the Contract is caused by a delay of a subcontractor, such a delay may constitute an Excusable Delay for the Contractor, but only if the delay of the subcontractor meets the criteria set out in this section for an Excusable Delay by the Contractor and only to the extent that the delay has not been contributed to by the Contractor.
3. Notwithstanding subsection 1, any delay caused by lack of financial resources of the Contractor or an event that is a ground for termination provided for in subsection 2 of article 26, or any delay in the Contractor fulfilling an obligation to deliver a bond, guarantee, letter of credit or other security relating to performance or the payment of money, shall not qualify as an Excusable Delay.
4. The Contractor shall not benefit from an Excusable Delay unless the Contractor has:
 - (a) used its best efforts to minimize the delay and recover lost time;
 - (b) advised the Minister of the occurrence of the delay or of the likelihood of a delay occurring as soon as the Contractor has become aware of it;
 - (c) within fifteen (15) working days of the beginning of a delay or of the likelihood of a delay coming to the attention of the Contractor, advised the Minister of the full facts or matters giving rise to the delay, and provided to the Minister for approval (which approval shall not be unreasonably withheld) a clear "work-around" plan indicating in detail the steps that the Contractor proposes to take in order to minimize the impact of the event causing the delay; this plan shall include alternative sources of materials and labour, if the event causing the delay involves the supply of them; and
 - (d) carried out the work-around plan approved by the Minister.
5. In the event of an Excusable Delay, any delivery date or other date that is directly affected shall be postponed for a reasonable time not to exceed the duration of the Excusable Delay. The Parties shall amend the Contract, as appropriate, to reflect any such change in dates.

6. Notwithstanding subsection 5, the Minister may, after an Excusable Delay has continued for 30 days or more, in the Minister's absolute discretion terminate the Contract. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any other loss arising out of the termination or the event that gave rise to the Excusable Delay. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination. Subsections 4, 5 and 6 of article 26 apply in the event of a termination under this subsection.
7. Except to the extent that Canada is responsible for the delay for reasons of failure to meet an obligation under the Contract, Canada shall not be liable for any costs or charges of any nature incurred by the Contractor or any of its subcontractors or agents as a result of an Excusable Delay.

9601 13 (2001-05-25) Security and Protection of the Work

1. The Contractor shall keep confidential all information provided to the Contractor by or on behalf of Canada in connection with the Work, including any information that is confidential or proprietary to third parties, and all information conceived, developed or produced by the Contractor as part of the Work where copyright or any other intellectual property rights in such information (except a licence) vests in Canada under the Contract. The Contractor shall not disclose any such information to any person without the written permission of the Minister, except that the Contractor may disclose to a subcontractor authorized in accordance with section 08 information necessary for the performance of the Subcontract, on the condition that the subcontractor agrees that it will be used solely for the purposes of such Subcontract. Information provided to the Contractor by or on behalf of Canada shall be used solely for the purpose of the Contract and shall remain the property of Canada or the third party, as the case may be. Unless the Contract otherwise expressly provides, the Contractor shall deliver to Canada all such information, together with every copy, draft, working paper and note thereof that contains such information, upon completion or termination of the Contract or at such earlier time as the Minister may require.
2. Subject to the *Access to Information Act*, R.S. 1985, c. A-1 and to any right of Canada under this Contract to release or disclose, Canada shall not release or disclose outside the Government of Canada any information delivered to Canada under the Contract that is proprietary to the Contractor or a subcontractor.
3. The obligations of the Parties set out in this section do not apply to any information where the same information:
 - (a) is publicly available from a source other than the other Party; or
 - (b) is or becomes known to a Party from a source other than the other Party, except any source that is known to be under an obligation to the other Party not to disclose the information, or
 - (c) is developed by a Party without use of the information of the other Party.
4. Wherever practical, the Contractor shall mark or identify any proprietary information delivered to Canada under the Contract as "Property of (Contractor's name), permitted Government uses defined under the Public Works and Government Services Canada (PWGSC) Contract No. (fill in Contract number)", and Canada shall not be liable for any unauthorized use or disclosure of information that could have been so marked or identified and was not.
5. When the Contract, the Work, or any information referred to in subsection 1 is identified as TOP SECRET, SECRET, CONFIDENTIAL, or PROTECTED by Canada, the Contractor shall at all times take all measures reasonably necessary for the safeguarding of the material so identified, including those set out in the PWGSC *Industrial Security Manual* and its supplements and any other instructions issued by the Minister.
6. Without limiting the generality of subsections 1 and 2, when the Contract, the Work, or any information referred to in subsection 1 is identified as TOP SECRET, SECRET, CONFIDENTIAL, or PROTECTED by Canada, the Minister shall be entitled to inspect the Contractor's premises and the premises of a subcontractor at any tier for security purposes at any time during the term of the Contract, and the Contractor shall comply with, and ensure that any such subcontractor complies with, all written instructions issued by the Minister dealing with the material so identified, including any requirement that employees of the Contractor or of any such subcontractor execute and deliver declarations relating to reliability screenings, security clearances and other procedures.

7. Any proposed change in the security requirements after the effective date of the Contract that would involve a significant increase in cost to the Contractor shall require an amendment to the Contract under the provisions of section 04.

9601 14 (1994-01-04) Payment

1. Notwithstanding any other provision of the Contract, no payment shall be made to the Contractor unless and until:
- (a) an invoice, inspection notes, certificates and any other documents required by the Contract have been submitted in accordance with the terms of the Contract and the instructions of the Minister;
 - (b) all such documents have been verified by the Minister;
 - (c) with respect to all parts of the Work in respect of which payment is claimed, the Contractor, where required to do so, establishes to the satisfaction of the Minister that such parts of the Work will be free from all claims, liens, attachments, charges or encumbrances; and
 - (d) in the case of payment in respect of finished work, the finished work has been inspected by Canada and accepted as being in accordance with the Contract, including the Specifications.
2. The Minister shall notify the Contractor, within 15 days of receipt of an invoice, of any inadequacy of the invoice or of the supporting documentation, and where any such notice is given within that period the date for payment of the amount invoiced shall be postponed until the Contractor remedies the inadequacy to the satisfaction of the Minister.
3. Where a delay referred to in section 12 has occurred, the Minister may, at the Minister's discretion, withhold all or a portion of any payment due to the Contractor until a "work-around" plan approved by the Minister has been implemented in accordance with that section. Section 15 shall not apply to any amount withheld under this subsection.

9601 15 (2000-12-01) Interest on Overdue Accounts

1. For the purposes of this section:

"Average Rate" means the simple arithmetic mean of the Bank Rates in effect at 4:00 p.m. Eastern Standard Time each day during the calendar month which immediately precedes the calendar month in which payment is made, where the "Bank Rate" means the rate of interest established from time to time by the Bank of Canada as the minimum rate at which the Bank of Canada makes short term advances to members of the Canadian Payments Association.

"date of payment" means the date of the negotiable instrument drawn by the Receiver General for Canada and given for payment of an amount due and payable;

an amount is "due and payable" when it is due and payable by Canada to the Contractor in accordance with the terms of the Contract; and

an amount becomes "overdue" when it is unpaid on the first day following the day upon which it is due and payable.

2. Subject to the Contract, Canada shall be liable to pay to the Contractor simple interest at the Average Rate plus 3 percent per annum on any amount that is overdue, from the date such amount becomes overdue until the day prior to the date of payment, inclusive. Interest shall be paid without notice from the Contractor.
3. Canada shall not be liable to pay interest in accordance with this section if Canada is not responsible for the delay in paying the Contractor.
4. Canada shall not be liable to pay interest on overdue advance payments.

9601 16 (1994-01-04) Changes in Taxes and Duties

1. In this section, "bid" includes a proposal, tender or offer submitted by the Contractor in response to an invitation from the Minister.

2. Subject to subsection 3, in the event of any change (including a new imposition or repeal), on or after the date of submission of the bid, of any tax, customs or other duty, charge, or any similar imposition that is imposed under sales or excise tax legislation of the Government of Canada and which affects the Cost to the Contractor of the Work, the Contract Price shall be adjusted to reflect the increase or decrease in the Cost to the Contractor.
3. There shall be no adjustment under subsection 2 in respect of any change that would increase the Cost to the Contractor of the Work if public notice of the change was given before the bid submission date in sufficient detail to permit the Contractor to have calculated the effect on its Cost before that date.
4. The Contractor shall forward to the Minister a certified statement showing the increase or decrease in Cost to the Contractor that is directly attributable to the change in the imposition. The Minister may verify the increase or decrease in Cost by audit before or after the Contract Price is adjusted.
5. Notwithstanding subsections 2 to 4, no adjustment to the Contract Price in respect of the Work or a part thereof shall be made for a change in any imposition referred to in this section that occurs after the date required by the Contract for delivery of the Work or that part of the Work.

9601 17 (1994-01-04) Discounts, Wastes and Spoilage

1. This section applies only to a Contract or part thereof that has a cost reimbursable basis of payment.
2. The Contractor shall, as far as practicable, take all trade discounts, rebates, refunds of taxes and duties, credits, and other allowances available in carrying out the Work. In determining the cost of articles, materials and services of every kind to be paid by Canada, all trade discounts, rebates, refunds of taxes and duties, credits and allowances not taken by the Contractor shall be deducted from gross costs, except those not taken through no fault or neglect on the part of the Contractor.
3. The Contractor shall carry out the Work as economically as possible and shall avoid waste and spoilage. Where, in the opinion of the Minister, the character and value of spoiled or wasted materials constitutes mismanagement on the part of the Contractor, the cost of the spoiled and wasted materials shall, to the extent directed by the Minister, not be considered to be part of the cost of the Work and the Contractor shall not be reimbursed therefor.

9601 18 (1994-01-04) Inspection of the Work

1. The Work and any and all parts thereof shall be subject to such inspection as the Technical or Inspection Authority determines to be appropriate, consistent with the relevant provisions of the Contract, if any, prior to acceptance by Canada. The Contracting Authority and the Technical or Inspection Authority, or their representatives, shall have access to the Work at any time during working hours where any part of the Work is being carried out and may make examinations and such tests of the Work as they may think fit. Should the Work or any part thereof not be in accordance with the requirements of the Contract, the Technical or Inspection Authority shall have the right to reject the Work and require its correction or replacement at the Contractor's expense. The Technical or Inspection Authority, as the case may be, shall inform the Contractor of the reasons for any such rejection.
2. The Contractor shall provide all assistance and facilities, test pieces, samples and documentation that the Technical or Inspection Authority may reasonably require for the carrying out of any such inspection, and the Contractor shall forward such test pieces and samples to such person or location as the Technical, Inspection or Contracting Authority may direct. Inspection by the Technical or Inspection Authority shall not relieve the Contractor from responsibility to meet the requirements of the Contract.
3. No part of the Work shall be submitted for acceptance or delivery until it has been inspected and approved by the Contractor and, wherever practicable, marked with an approval stamp satisfactory to the Technical or Inspection Authority. The Contractor shall keep accurate and complete inspection records which shall, upon request, be made available to the Technical or Inspection Authority, who may make copies thereof and take extracts therefrom during the performance of the Contract and for any period of time thereafter provided for in the Contract.

2. Except as otherwise provided in the intellectual property provisions of the Contract, upon any payment being made to the Contractor for or on account of materials, parts, work-in-process or finished work, either by way of progress payments or accountable advances or otherwise, title in and to all materials, parts, work-in-process and finished work so paid for shall vest in and remain in Canada unless already so vested under any other provision of the Contract.
3. Notwithstanding any vesting of title referred to in this section and except as otherwise provided in the Contract, the risk of loss or damage to the materials, parts, work-in-process or finished work or part thereof so vested shall remain with the Contractor until their delivery to Canada in accordance with the Contract. The Contractor shall be liable for any loss or damage to any part of the Work caused by the Contractor or any subcontractor after such delivery.
4. Any vesting of title referred to in subsection 2 shall not constitute acceptance by Canada of the materials, parts, work-in-process or finished work, and shall not relieve the Contractor of its obligation to perform the Work in accordance with the Contract.
5. Where title to any materials, parts, work-in-process or finished work becomes vested in Canada, the Contractor shall, upon the Minister's request, establish to the Minister's satisfaction that the title is free and clear of all claims, liens, attachments, charges or encumbrances and shall execute such conveyances thereof and other instruments necessary to perfect that title as the Minister may request.
6. If the Contract is a defence contract within the meaning of the *Defence Production Act*, R.S. 1985, c. D-1, title to the Work or to any materials, parts, work-in-process or finished work shall vest in Canada free and clear of all claims, liens, attachments, charges or encumbrances, and the Minister shall be entitled at any time to remove, sell or dispose of it or any part of it in accordance with section 20 of that Act.

9601 20 (2001-05-25) Warranty

1. Notwithstanding inspection and acceptance of the Work by or on behalf of Canada and without restricting any other provision of the Contract or any condition, warranty or provision implied or imposed by law, the Contractor warrants that, for a period of twelve (12) months from the date of delivery, or if acceptance takes place on a later date, the date of acceptance, or for such other period as may be specified in the written agreement between the Parties, the Work shall be free from all defects in design, materials or workmanship, and shall conform with the requirements of the Contract, provided that with respect to Government Property not supplied by the Contractor, the Contractor's warranty shall extend only to its proper incorporation into the Work.
2. In the event of a defect or non-conformance in any part of the Work during the warranty period defined in subsections 1 and 5, the Contractor, at the request of the Minister to do so, shall as soon as possible repair, replace or otherwise make good at its own option and expense the part of the Work found to be defective or not in conformance with the requirements of the Contract.
3. The Work or any part thereof found to be defective or non-conforming shall be returned to the Contractor's plant for replacement, repair or making good; provided that, when in the opinion of the Minister it is not expedient to remove the Work from its location, the Contractor shall carry out any necessary repair or making good of the Work at that location, and shall be paid the fair and reasonable Cost (including reasonable travelling and living expenses) incurred in so doing, with no allowance therein by way of profit, less an amount equal to the Cost of rectifying the defect or non-conformance at the Contractor's plant.
4. Canada shall pay the transportation cost associated with returning any work or part thereof to the Contractor's plant pursuant to subsection 3, and the Contractor shall pay the transportation cost associated with forwarding the replacement or returning the Work or part thereof when rectified to the delivery point specified in the Contract, or such lesser cost as may be required to transport the Work or part thereof to another location directed by the Technical Authority.
5. The warranty period set out in subsection 1 shall be extended by the duration of any period or periods during the life of the warranty, including any such extension, in which the Work is unavailable for use or cannot be used because of a defect or non-conformance referred to in this section, less the duration of any delay by Canada in informing the Contractor of the defect or non-conformance or in returning the Work or part thereof to the Contractor's plant. Upon returning the Work or part thereof to Canada, the Contractor shall advise the Minister in writing of the warranty period remaining, including any such extension.
6. The warranties set out in subsection 1 shall apply to any part of the Work repaired, replaced or otherwise made good pursuant to subsection 2, for the greater of

- (a) the warranty period remaining under subsection 5, or
- (b) ninety (90) days or such other period as may be specified for that purpose in the written agreement between the Parties.

All of the provisions of subsections 2 to 6 of this section inclusive apply, with such minimum changes as the context may require, to any such part of the Work that is found during that period to be defective or not in conformance with the Contract.

9601 21 (2004-12-10) Government Property

1. Unless otherwise provided in the Contract, all Government Property shall be used by the Contractor solely for the purpose of the Contract and shall remain the property of Canada, and the Contractor shall maintain adequate accounting records of all Government Property, and, whenever feasible, shall mark the same as being the property of Canada.
2. The Contractor shall take reasonable and proper care of all Government Property while the same is in, on, or about the plant and premises of the Contractor or otherwise in its possession or subject to its control, and shall be responsible for any loss or damage resulting from its failure to do so other than loss or damage caused by ordinary wear and tear.
3. All Government Property, except such as is installed or incorporated into the Work, shall, unless otherwise specifically provided in the Contract, be returned to Canada on demand.
4. All scrap and all waste materials, articles or things that are Government Property shall, unless otherwise provided in the Contract, remain the property of Canada and shall be disposed of only as directed by the Minister.
5. At the time of completion of the Contract, and if requested by the Contracting Authority, the Contractor shall provide an inventory of all Government Property relating to the Contract to both the Contracting Authority and the Technical Authority.

9601 22 (1994-01-04) Indemnity Against Third-party Claims

1. The Contractor shall indemnify and save harmless Canada, the Minister and their servants and agents from and against any damages, costs or expenses or any claim, action, suit or other proceeding which they or any of them may at any time incur or suffer as a result of or arising out of
 - (a) any injury to persons (including injuries resulting in death) or loss of or damage to property of others which may be or be alleged to be caused by or suffered as a result of the performance of the Work or any part thereof, except that Canada and the Minister shall not claim indemnity under this section to the extent that the injury, loss or damage has been caused by Canada, and
 - (b) any liens, attachments, charges or other encumbrances or claims upon or in respect of any materials, parts, work-in-process or finished work furnished to, or in respect of which any payment has been made by, Canada.

 - (a) the use by the Contractor, in performing the Contract, of equipment, Specifications or other information not prepared by the Contractor and supplied to the Contractor by or on behalf of Canada, or
 - (b) the Contractor complying with production drawings not prepared by the Contractor and supplied by or on behalf of Canada which direct an alteration of or modification to the Work,provided that the Contractor notifies the Minister immediately of any such claim, action, suit or other proceeding, but Canada shall not be liable to indemnify or save harmless the Contractor for payment of any settlement unless Canada has consented to the settlement.
 4. The Minister shall give notice to the Contractor of any claim, action, suit or proceeding referred to in subsection 2 and the Contractor shall, to the extent requested by the Attorney General of Canada, at its own expense participate in or conduct the defence of any such claim, action, suit or proceeding and any negotiations for settlement of the same, but the Contractor shall not be liable to indemnify or save harmless Canada for payment of any settlement unless it has consented to the settlement.

 6. Where and to the extent that the Minister so directs, the Contractor shall not pay and shall direct its subcontractors not to pay any Royalties in respect of the carrying out of the Contract.
 7. After the giving of any direction provided for in subsection 6, and subject to compliance by the Contractor with the foregoing provisions, Canada shall indemnify the Contractor and its subcontractors from and against all claims, actions, suits or proceedings for payment of such Royalties as are covered by the direction.
 8. The Contractor shall not be entitled to any payment in respect of any Royalties included in the Contract Price to which the indemnity provided in subsection 7 applies.

or

© SA MAJESTÉ LA REINE DU CHEF DU CANADA (year)
3. At the completion of the Contract, or at such other time as the Contract or the Minister may require, the Contractor shall fully and promptly disclose to the Minister all Material created or developed under the Contract.
4. Where copyright in any Material vests in Canada under the Contract, the Contractor shall execute such conveyances and other documents relating to title or copyright as the Minister may require.

7. If the Contractor is an author of the Material, the Contractor hereby permanently waives the Contractor's Moral Rights in respect of the Material.

9601 25 (1994-01-04) Suspension of the Work

1. The Minister may at any time, by written notice, order the Contractor to suspend or stop all or part of the Work under the Contract for a period of up to one hundred and eighty (180) days. The Contractor shall immediately comply with any such order in the manner that minimizes the cost of so doing. While such an order is in effect, the Contractor shall not remove any part of the Work from any premises without the prior written consent of the Contracting Authority. At any time prior to the expiration of the one hundred and eighty (180) days, the Minister shall either rescind the order or terminate the Contract, in whole or in part, under section 26 or section 27.
2. When an order is made under subsection 1, unless the Minister terminates the Contract by reason of default by the Contractor or the Contractor abandons the Contract, the Contractor shall be entitled to be paid its additional costs incurred as a result of the suspension plus a fair and reasonable profit thereon.
3. When an order is made under subsection 1 and is rescinded:
 - (a) the Contractor shall as soon as practicable resume work in accordance with the Contract;
 - (b) if the suspension has affected the Contractor's ability to meet any delivery date under the Contract, the date for the performance of that part of the Work affected by the suspension shall be extended for a period equal to the period of suspension plus a period, if any, which in the opinion of the Minister following consultation with the Contractor is reasonably necessary for the Contractor to resume the Work; and
 - (c) subject to section 04, an equitable adjustment shall be made as necessary to affected terms and conditions of the Contract.

9601 26 (1994-01-04) Default by the Contractor

1. Where the Contractor is in default in carrying out any of its obligations under the Contract, the Minister may, upon giving written notice to the Contractor, terminate for default the whole or any part of the Contract, either immediately, or at the expiration of a cure period specified in the notice if the Contractor has not cured the default to the satisfaction of the Minister within that cure period.
2. Where the Contractor becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or where a receiver is appointed under a debt instrument or a receiving order is made against the Contractor, or an order is made or a resolution passed for the winding up of the Contractor, the Minister may, to the extent permitted by the laws of Canada, upon giving notice to the Contractor, immediately terminate for default the whole or any part of the Contract.
3. Upon the giving of a notice provided for in subsection 1 or 2, the Contractor shall have no claim for further payment other than as provided in this section, but shall be liable to Canada for any amounts, including milestone payments, paid by Canada and for all losses and damages which may be suffered by Canada by reason of the default or occurrence upon which the notice was based, including any increase in the cost incurred by Canada in procuring the Work from another source. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination. Nothing in this section affects any obligation of Canada under the law to mitigate damages.
4. Upon termination of the Contract under this section, the Minister may require the Contractor to deliver to Canada, in the manner and to the extent directed by the Minister, any completed parts of the Work which have not been delivered and accepted prior to the termination and any materials, parts, plant, equipment or work-in-process which the Contractor has acquired or produced specifically in the fulfilment of the Contract.
5. Subject to the deduction of any claim that Canada may have against the Contractor arising under the Contract or out of the termination, Canada shall pay or credit to the Contractor the value, determined on the basis of the Contract Price including the proportionate part of the Contractor's profit or fee

included in the Contract Price, of all completed parts of the Work delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada, and shall pay or credit to the Contractor the Cost to the Contractor that the Minister considers reasonable in respect of all materials, parts, plant, equipment or work-in-process delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada, but in no event shall the aggregate of the amounts paid by Canada under the Contract to the date of termination and any amounts payable pursuant to this subsection exceed the Contract Price.

6. Title to all materials, parts, plant, equipment, work-in-process and finished work in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such materials, parts, plant, equipment, work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for materials, parts, plant, equipment or work-in-process that would not have been required to perform the Work or that exceed what would have been required to perform the Work.
7. Where, subsequent to issuance of a notice pursuant to subsection 1, the Minister is satisfied that grounds did not exist for a termination under this section, the notice shall be deemed a notice of termination for convenience issued under subsection 1 of article 27.

9601 27 (2004-12-10) Termination for Convenience

1. Notwithstanding anything contained in the Contract, the Minister may, at any time prior to the completion of the Work, by giving notice to the Contractor (in this section sometimes referred to as a "termination notice"), terminate the Contract as regards to all or any part of the Work not completed. Upon a termination notice being given, the Contractor shall cease work (including the manufacture and procuring of materials for the fulfilment of the Contract) in accordance with and to the extent specified in the notice, but shall proceed to complete such part or parts of the Work as are not affected by the termination notice. The Minister may, at any time or from time to time, give one or more additional termination notices with respect to any or all parts of the Work not terminated by any previous termination notice.
2. In the event of a termination notice being given pursuant to subsection 1, the Contractor shall be entitled to be paid, to the extent that costs have been reasonably and properly incurred for purposes of performing the Contract and to the extent that the Contractor has not already been so paid or reimbursed by Canada including the unliquidated portion of any advance payment:
 - (a) on the basis of the Contract Price, for all completed work that is inspected and accepted in accordance with the Contract, whether completed before, or after and in compliance with the instructions contained in, the termination notice;
 - (b) the Cost to the Contractor plus a fair and reasonable profit thereon, for all work terminated by the termination notice before completion, the Cost to the Contractor being determined in accordance with the terms of the Contract and with Contract Cost Principles 1031-2;
 - (c) the amount of any capital expenditures actually incurred only if they were specifically authorized under the Contract or approved in writing by the Minister for the purpose of the Contract, less any depreciation in respect thereof already taken into account in determining cost, to the extent that the capital expenditures are properly apportionable to the performance of the Contract;
 - (d) if the Contract is exclusively for the making of capital expenditures in respect of additional equipment or plant additions, in lieu of the amounts described in paragraphs (a) to (c) inclusive, the reasonable and proper cost to the Contractor of:
 - (i) all additional equipment that, prior to the giving of the termination notice, has been purchased, acquired or manufactured by the Contractor or contracted for and for which the Contractor is obligated to make payment, and
 - (ii) all additional equipment in process of manufacture by the Contractor at the date of giving of the termination notice and all work in connection with the construction of the plant additions to that date, including the cost of materials and parts Contracted for by the Contractor for the purpose of such manufacture or construction and for which the Contractor is obligated to make payment; and
 - (e) all costs of and incidental to the termination of the Work or part thereof, including the Cost of cancellation of obligations incurred by the Contractor with respect to the terminated Work or

part thereof, the Cost of and incidental to the taking of an inventory of materials, components, work-in-process and finished work on hand related to the Contract at the date of the termination, and the Cost of preparation of necessary accounts and statements with respect to work performed to the effective date of the termination and commitments made by the Contractor with respect to the terminated portions of the Work; but not including the cost of severance payments or damages to employees whose services are no longer required by reason of the termination except wages that the Contractor is obligated by statute to pay them and except for reasonable severance payments or damages paid to employees hired to perform the Contract whose hiring was expressly required by the Contract or approved in writing by the Minister for the purpose of the Contract.

3. In paragraphs 2.(c) and (d), "capital expenditures" includes the entry into leases of real property and equipment.
4. The Minister may reduce the payment in respect of any of the Work to the extent that, upon inspection, it is deficient in meeting the requirements of the Contract.
5. Notwithstanding anything in subsection 2, the total of the amounts to which the Contractor is entitled under paragraphs 2.(a) to (d) inclusive, together with any amounts paid or due or becoming due to the Contractor under other provisions of the Contract, shall not exceed the Contract Price or the portion thereof that is applicable to the part of the Work that is terminated, and shall not exceed the proportion of the price quoted by the Contractor for all of the Work that is reasonably attributable to the proportion of the Work performed to the effective date of the termination.
6. In the procuring of materials and parts required for the performance of the Contract and in the subcontracting of any of the Work, the Contractor shall, unless otherwise authorized by the Minister, place purchase orders and subcontracts on terms that will enable the Contractor to terminate the same upon terms and conditions similar in effect to those provided in this section, and generally the Contractor shall co-operate with the Minister and do everything reasonably within its power at all times to minimize the amount of Canada's obligations in the event of a termination under this section.
7. Title to all materials, parts, plant, equipment, work-in-process and finished work in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such materials, parts, plant, equipment, work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for materials, parts, plant, equipment or work-in-process that would not have been required to perform the Work or that exceed what would have been required to perform the Work.
8. The Contractor shall have no claim for damages, compensation, loss of profit, allowance or otherwise by reason of, or directly or indirectly arising out of, any action taken or termination notice given by the Minister under this section, except to the extent that this section expressly provides.

The Contractor shall keep proper accounts and records of the Cost to the Contractor of the Work and of all expenditures or commitments made by the Contractor in connection therewith, and shall keep all invoices, receipts and vouchers relating thereto. The Contractor shall not, without the prior written consent of the Minister, dispose of any such accounts, records, invoices, receipts or vouchers until the expiration of six (6) years after final payment under this Contract, or until the settlement of all outstanding claims and disputes, whichever is later.
2. All such accounts and records as well as any invoices, receipts and vouchers shall at all times during the retention period referred to in subsection 1 be open to audit, inspection and examination by the authorized representatives of the Minister, who may make copies and take extracts thereof. The Contractor shall provide all facilities for such audits and inspections and shall furnish all such information as the representatives of the Minister may from time to time require with respect to such accounts, records, invoices, receipts and vouchers.

9601 29 (1994-01-04) Notice

9601 32 (1994-06-01) No Bribe

The Contractor represents and covenants that no bribe, gift, benefit, or other inducement has been or will be paid, given, promised or offered directly or indirectly to any official or employee of Canada or to a member of the family of such a person, with a view to influencing the entry into the Contract or the administration of the Contract.

9601 33 (1994-01-04) Survival

All of the Contractor's obligations of confidentiality and all of the Contractor's representations and warranties set out in the Contract as well as the provisions concerning Specifications, warranty, Government Property, indemnity against third-party claims, royalties and infringement, intellectual property rights and accounts and audit shall survive the expiry of the Contract or the termination of the Contract for default, for convenience, pursuant to subsection 12.6, or by mutual consent, as shall any other provision of the Contract which, by the nature of the rights or obligations set out therein, might reasonably be expected to be intended to so survive.

9601 34 (1994-01-04) Severability

If any provision of the Contract is declared by a court of competent jurisdiction to be invalid, illegal or unenforceable, such provision shall be severed from the Contract and all other provisions of the Contract shall remain in full force and effect.

9601 35 (1994-01-04) Successors and Assigns

The Contract shall enure to the benefit of, and shall be binding upon, the successors and permitted assignees of Canada and of the Contractor.

5. In no event shall the Contractor allow performance of the Work by unauthorized replacement persons and acceptance of a replacement person by the Technical Authority and the Contracting Authority shall not relieve the Contractor from responsibility to meet the requirements of the Contract.
6. The Minister may order the removal from the Work of any such replacement person and the Contractor shall immediately remove the person from the Work and shall, in accordance with subsection 2 and paragraphs 3.(b) and (c), secure a further replacement.

7. The fact that the Minister does not order the removal of a replacement person from the Work shall not relieve the Contractor from its responsibility to meet the requirements of the Contract.

1. The Contract shall not be assigned, in whole or in part, by the Contractor without the prior consent in writing of the Minister and any purported assignment made without that consent is void and of no effect.

Time is of the essence of the Contract.

1. A delay in the performance by the Contractor of any obligation under the Contract which is caused solely by an event that
- (a) was beyond the reasonable control of the Contractor,
 - (b) could not reasonably have been foreseen,
 - (c) could not reasonably have been prevented by means reasonably available to the Contractor, and
 - (d) occurred without the fault or neglect of the Contractor
- shall, subject to subsections 2, 3 and 4, constitute an "Excusable Delay" provided that the Contractor invokes this section by notice under subsection 4.
2. If any delay in the Contractor's performance of any obligation under the Contract is caused by a delay of a subcontractor, such a delay may constitute an Excusable Delay for the Contractor, but only if the delay of the subcontractor meets the criteria set out in this section for an Excusable Delay by the Contractor and only to the extent that the delay has not been contributed to by the Contractor.
3. Notwithstanding subsection 1, any delay caused by lack of financial resources of the Contractor or an event that is a ground for termination provided for in subsection 32.2, or any delay in the Contractor fulfilling an obligation to deliver a bond, guarantee, letter of credit or other security relating to performance or the payment of money, shall not qualify as an Excusable Delay.
4. The Contractor shall not benefit from an Excusable Delay unless the Contractor has:
- (a) used its best efforts to minimize the delay and recover lost time;
 - (b) advised the Minister of the occurrence of the delay or of the likelihood of a delay occurring as soon as the Contractor has become aware of it;
 - (c) within fifteen (15) working days of the beginning of a delay or of the likelihood of a delay coming to the attention of the Contractor, advised the Minister of the full facts or matters giving rise to the delay, and provided to the Minister for approval (which approval shall not be unreasonably withheld) a clear "work-around" plan indicating in detail the steps that the Contractor proposes to take in order to minimize the impact of the event causing the delay; this plan shall include alternative sources of materials and labour, if the event causing the delay involves the supply of them; and
 - (d) carried out the work-around plan approved by the Minister.
5. In the event of an Excusable Delay, any delivery date or other date that is directly affected shall be postponed for a reasonable time not to exceed the duration of the Excusable Delay. The Parties shall amend the Contract, as appropriate, to reflect any such change in dates.
6. Notwithstanding subsection 5, the Minister may, after an Excusable Delay has continued for thirty (30) days or more, in the Minister's absolute discretion, terminate the Contract. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any

other loss arising out of the termination or the event that gave rise to the Excusable Delay. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination. Subsections 32.4, 5 and 6 apply in the event of a termination under this subsection.

7. Except to the extent that Canada is responsible for the delay for reasons of failure to meet an obligation under the Contract, Canada shall not be liable for any costs or charges of any nature incurred by the Contractor or any of its subcontractors or agents as a result of an Excusable Delay.

9624 12 (2001-05-25) Security and Protection of the Work

1. The Contractor shall keep confidential all information provided to the Contractor by or on behalf of Canada in connection with the Work, including any information that is confidential or proprietary to third parties, and all information conceived, developed or produced by the Contractor as part of the Work where copyright or any other Intellectual Property Rights in such information (except a licence) vests in Canada under the Contract. The Contractor shall not disclose any such information to any person without the written permission of the Minister, except that the Contractor may disclose to a Subcontractor authorized in accordance with section 07 information necessary for the performance of the Subcontract, on the condition that the Subcontractor agrees that it will be used solely for the purposes of such Subcontract. Information provided to the Contractor by or on behalf of Canada shall be used solely for the purpose of the Contract and shall remain the property of Canada or the third party, as the case may be. Unless the Contract otherwise expressly provides, the Contractor shall deliver to Canada all such information, together with every copy, draft, working paper and note thereof that contains such information, upon completion or termination of the Contract or at such earlier time as the Minister may require.
2. Subject to the *Access to Information Act*, R.S. 1985, c. A-1 and to any right of Canada under this Contract to release or disclose, Canada shall not release or disclose outside the Government of Canada any information delivered to Canada under the Contract that is proprietary to the Contractor or a subcontractor.
3. The obligations of the Parties set out in this section do not apply to any information where the same information:
 - (a) is publicly available from a source other than the other Party; or
 - (b) is or becomes known to a Party from a source other than the other Party, except any source that is known to be under an obligation to the other Party not to disclose the information, or
 - (c) is developed by a Party without use of the information of the other Party.
4. Wherever practical, the Contractor shall mark or identify any proprietary information delivered to Canada under the Contract as "Property of (Contractor's name), permitted Government uses defined under Public Works and Government Services Canada (PWGSC) Contract No. (fill in Contract number)", and Canada shall not be liable for any unauthorized use or disclosure of information that could have been so marked or identified and was not.
5. When the Contract, the Work, or any information referred to in subsection 1 is identified as TOP SECRET, SECRET, CONFIDENTIAL, or PROTECTED by Canada, the Contractor shall at all times take all measures reasonably necessary for the safeguarding of the material so identified, including those set out in the PWGSC *Industrial Security Manual* and its supplements and any other instructions issued by the Minister.

Without limiting the generality of subsections 1 and 2, when the Contract, the Work, or any information referred to in subsection 1 is identified as TOP SECRET, SECRET, CONFIDENTIAL, or PROTECTED by Canada, the Minister shall be entitled to inspect the Contractor's premises and the premises of a subcontractor at any tier for security purposes at any time during the term of the Contract, and the Contractor shall comply with, and ensure that any such subcontractor complies with, all written instructions issued by the Minister dealing with the material so identified, including any requirement that employees of the Contractor or of any such subcontractor execute and deliver declarations relating to reliability screenings, security clearances and other procedures.
7. Any proposed change in the security requirements after the effective date of the Contract that would involve a significant increase in cost to the Contractor shall require an amendment to the Contract under the provisions of section 04.

9624 13 (1994-01-04) Payment

1. Notwithstanding any other provision of the Contract, no payment shall be made to the Contractor unless and until:
 - (a) an invoice, inspection notes, certificates and any other documents required by the Contract have been submitted in accordance with the terms of the Contract and the instructions of the Minister;
 - (b) all such documents have been verified by the Minister;
 - (c) with respect to all parts of the Work in respect of which payment is claimed, the Contractor, where required to do so, establishes to the satisfaction of the Minister that such parts of the Work will be free from all claims, liens, attachments, charges or encumbrances; and

2. The Minister shall notify the Contractor, within fifteen (15) days of receipt of an invoice, of any inadequacy of the invoice or of the supporting documentation, and where any such notice is given within that period the date for payment of the amount invoiced shall be postponed until the Contractor remedies the inadequacy to the satisfaction of the Minister.
3. Where a delay referred to in section 11 has occurred, the Minister may, at the Minister's discretion, withhold all or a portion of any payment due to the Contractor until a "work-around" plan approved by the Minister has been implemented in accordance with that section. 3. There shall be no adjustment under subsection 2 in respect of any change that would increase the Cost to the Contractor of the Work if public notice of the change was given before the bid submission date in sufficient detail to permit the Contractor to have calculated the effect on its Cost before that date.
4. The Contractor shall forward to the Minister a certified statement showing the increase or decrease in Cost to the Contractor that is directly attributable to the change in the imposition. The Minister may verify the increase or decrease in Cost by audit before or after the Contract Price is adjusted.
5. Notwithstanding subsections 2 to 4, no adjustment to the Contract Price in respect of the Work or a part thereof shall be made for a change in any imposition referred to in this section that occurs after the date required by the Contract for delivery of the Work or that part of the Work.

9624 16 (1994-01-04) Inspection of the Work

1. The Work and any and all parts thereof shall be subject to such inspection as the Technical or Inspection Authority determines to be appropriate, consistent with the relevant provisions of the Contract, if any, prior to acceptance by Canada. The Contracting Authority and the Technical or Inspection Authority, or their representatives, shall have access to the Work at any time during working hours where any part of the Work is being carried out and may make examinations and such tests of the Work as they may think fit. Should the Work or any part thereof not be in accordance with the requirements of the Contract, the Technical or Inspection Authority shall have the right to reject the Work and require its correction or replacement at the Contractor's expense. The Technical or Inspection Authority, as the case may be, shall inform the Contractor of the reasons for any such rejection.
2. The Contractor shall notify the Contracting Authority and the Technical or Inspection Authority prior to conducting any critical test, trial or examination of the Work required under the Contract, as to the specific time and location of such test, trial or examination.
3. The Contractor shall provide all assistance and facilities, test pieces, samples and documentation that the Technical or Inspection Authority may reasonably require for the carrying out of any such inspection, and the Contractor shall forward such test pieces and samples to such person or location as the Technical, Inspection or Contracting Authority may direct. 1. Except as otherwise provided in the Contract including the intellectual property provisions, and except as provided in subsection 2, title to the Work or any part thereof shall vest in Canada upon delivery and acceptance thereof by or on behalf of Canada.
2. Except as otherwise provided in the intellectual property provisions of the Contract, upon any payment being made to the Contractor for or on account of materials, work-in-process or finished work, either by way of progress payments or accountable advances or otherwise, title in and to all materials, parts, work-in-process and finished work so paid for shall vest in and remain in Canada unless already so vested under any other provision of the Contract.
3. Notwithstanding any vesting of title referred to in this section and except as otherwise provided in the Contract, the risk of loss or damage to the materials, parts, work-in-process or finished work or part thereof so vested shall remain with the Contractor until their delivery to Canada in accordance with the Contract. The Contractor shall be liable for any loss or damage to any part of the Work caused by the Contractor or any subcontractor after such delivery.
4. Any vesting of title referred to in subsection 2 shall not constitute acceptance by Canada of the materials, parts, work-in-process or finished work and shall not relieve the Contractor of its obligation to perform the Work in accordance with the Contract.
5. Where title to any materials, parts, work-in-process or finished work becomes vested in Canada, the Contractor shall, upon the Minister's request, establish to the Minister's satisfaction that the title is free and clear of all claims, liens, attachments, charges or encumbrances and shall execute such conveyances thereof and other instruments necessary to perfect that title as the Minister may request.
6. If the Contract is a defence contract within the meaning of the *Defence Production Act*, R.S. 1985, c. D-1, title to the Work or to any materials, parts, work-in-process or finished work shall vest in Canada free and clear of all claims, liens, attachments, charges or encumbrances, and the Minister shall be

entitled at any time to remove, sell or dispose of it or any part of it in accordance with section 20 of that Act.

1. In this section, "Equipment" includes any material, prototype, machinery, device, system, apparatus, tool, die, instrument and any equipment of all kinds required to be delivered under the Contract.
2. Notwithstanding inspection and acceptance of the Work by or on behalf of Canada and without restricting any other provision of the Contract or any condition, warranty or provision implied or imposed by law, the Contractor warrants that, for a period of twelve (12) months from the date of delivery, or if acceptance takes place on a later date, the date of acceptance, or for such other period as may be specified in the written agreement between the Parties, the Equipment shall be free from all defects in design, materials or workmanship, and shall conform with the requirements of the Contract, provided that with respect to Government Property not supplied by the Contractor, the Contractor's warranty shall extend only to its proper incorporation into the Work.
3. In the event of a defect or non-conformance in the Equipment or any part thereof during the warranty period defined in subsections 2 and 6, the Contractor, at the request of the Minister to do so, shall as soon as possible repair, replace or otherwise make good at its own option and expense the Equipment or any part thereof found to be defective or not in conformance with the requirements of the Contract.
4. The Equipment or any part thereof found to be defective or non-conforming shall be returned to the Contractor's plant for replacement, repair or making good; provided that, when in the opinion of the Minister it is not expedient to remove the Equipment from its location, the Contractor shall carry out any necessary repair or making good of the Equipment at that location, and shall be paid the fair and reasonable Cost (including reasonable travelling and living expenses) incurred in so doing, with no allowance therein by way of profit, less an amount equal to the Cost of rectifying the defect or non-conformance at the Contractor's plant.
5. Canada shall pay the transportation cost associated with returning any Equipment or part thereof to the Contractor's plant pursuant to subsection 4, and the Contractor shall pay the transportation cost associated with forwarding the replacement or returning the Equipment or part thereof when rectified to the delivery point specified in the Contract, or such lesser cost as may be required to transport the Equipment or part thereof to another location directed by the Technical Authority.
6. The warranty period set out in subsection 2 shall be extended by the duration of any period or periods during the life of the warranty, including any such extension, in which the Equipment is unavailable for use or cannot be used because of a defect or non-conformance referred to in this section, less the duration of any delay by Canada in informing the Contractor of the defect or non-conformance or in returning the Equipment or part thereof to the Contractor's plant. Upon returning the Equipment or part thereof to Canada, the Contractor shall advise the Minister in writing of the warranty period remaining, including any such extension.
7. The warranties set out in subsection 2 shall apply to any part of the Equipment repaired, replaced or otherwise made good pursuant to subsection 3, for the greater of:
 - (a) the warranty period remaining under subsection 6; or
 - (b) ninety (90) days or such other period as may be specified for that purpose in the written agreement between the Parties.

All of the provisions of subsections 3 to 6 of this section inclusive apply, with such minimum changes as the context may require, to any such part of the Equipment that is found during that period to be defective or not in conformance with the Contract.

9624 19 (2004-12-10) Government Property

1. Unless otherwise provided in the Contract, all Government Property shall be used by the Contractor solely for the purpose of the Contract and shall remain the property of Canada, and the Contractor shall maintain adequate accounting records of all Government Property, and, whenever feasible, shall mark the same as being the property of Canada.
2. The Contractor shall take reasonable and proper care of all Government Property while the same is in, on, or about the plant and premises of the Contractor or otherwise in its possession or subject to its control, and shall be responsible for any loss or damage resulting from its failure to do so other than loss or damage caused by ordinary wear and tear.

3. All Government Property, except such as is installed or incorporated into the Work, shall, unless otherwise specifically provided in the Contract, be returned to Canada on demand.
4. All scrap and all waste materials, articles or things that are Government Property shall, unless otherwise provided in the Contract, remain the property of Canada and shall be disposed of only as directed by the Minister.
5. At the time of completion of the Contract, and if requested by the Contracting Authority, the Contractor shall provide an inventory of all Government Property relating to the Contract to both the Contracting Authority and the Technical Authority.

9624 20 (1994-01-04) Indemnity Against Third-party Claims

1. The Contractor shall indemnify and save harmless Canada, the Minister and their servants and agents from and against any damages, costs or expenses or any claim, action, suit or other proceeding which they or any of them may at any time incur or suffer as a result of or arising out of
 - (a) any injury to persons (including injuries resulting in death) or loss of or damage to property of others which may be or be alleged to be caused by or suffered as a result of the performance of the Work or any part thereof, except that Canada and the Minister shall not claim indemnity under this section to the extent that the injury, loss or damage has been caused by Canada, and
 - (b) any liens, attachments, charges or other encumbrances or claims upon or in respect of any materials, parts, work-in-process or finished work furnished to, or in respect of which any payment has been made by, Canada.
2. The Minister shall give notice to the Contractor of any claim, action, suit or proceeding referred to in subsection 1 and the Contractor shall, to the extent requested by the Attorney General of Canada, at its own expense participate in or conduct the defence of any such claim, action, suit or proceeding and any negotiations for settlement of the same, but the Contractor shall not be liable to indemnify Canada for payment of any settlement unless it has consented to the settlement.

9624 21 (2005-06-10) Royalties and Infringement

1. In this section, "Royalties" includes:
 - (a) license fees and all other payments analogous to royalties for, and also claims for damages based upon, the use or infringement of any patent, registered industrial design, trade mark, copyrighted work, trade secret, or other Intellectual Property Rights, and
 - (b) any costs or expenses incurred as a result of the exercise by any person of Moral Rights.
2. Subject to subsection 4, the Contractor shall indemnify and save harmless Canada, the Minister and their servants and agents against any claim, action, suit or other proceeding for the payment of Royalties, that results from or is alleged to result from the carrying out of the Contract or the use or disposal by Canada of anything furnished by the Contractor under the Contract.
3. Canada shall indemnify and save harmless the Contractor and its servants and agents against any claim, action, suit or other proceeding for the payment of Royalties, that results from or is alleged to result from
 - (a) the use by the Contractor in performing the Contract of equipment, Specifications or other information not prepared by the Contractor and supplied to the Contractor by or on behalf of Canada; or
 - (b) the Contractor complying with production drawings not prepared by the Contractor and supplied by or on behalf of Canada which direct an alteration of or modification to the Work,provided that the Contractor notifies the Minister immediately of any such claim, action, suit or other proceeding, but Canada shall not be liable to indemnify or save harmless the Contractor for payment of any settlement unless Canada has consented to the settlement.
4. The Minister shall give notice to the Contractor of any claim, action, suit or proceeding referred to in subsection 2 and the Contractor shall, to the extent requested by the Attorney General of Canada, at its own expense participate in or conduct the defence of any such claim, action, suit or proceeding and

any negotiations for settlement of the same, but the Contractor shall not be liable to indemnify or save harmless Canada for payment of any settlement unless it has consented to the settlement.

5. The Contractor shall notify the Minister of all Royalties which it or any of its subcontractors will or may be obligated to pay or propose to pay in respect of carrying out the Contract, and the basis thereof, and the parties to whom the same are payable, and shall promptly advise the Minister of any and all claims which would or might result in further or different payments by way of Royalties being made by the Contractor or any of its subcontractors.
6. Where and to the extent that the Minister so directs, the Contractor shall not pay and shall direct its subcontractors not to pay any Royalties in respect of the carrying out of the Contract.
7. After the giving of any direction provided for in subsection 6, and subject to compliance by the Contractor with the foregoing provisions, Canada shall indemnify the Contractor and its subcontractors from and against all claims, actions, suits or proceedings for payment of such Royalties as are covered by the direction.
8. The Contractor shall not be entitled to any payment in respect of any Royalties included in the Contract Price to which the indemnity provided in subsection 7 applies.

9624 22 (2001-05-25) Disclosure of Foreground Information

1. The Contractor shall promptly report and fully disclose to the Minister all Foreground Information that could be Inventions, and shall report and fully disclose to the Minister all other Foreground Information not later than the time of completion of the Work or such earlier time as the Minister or the Contract may require.
2. The Contractor shall, in each disclosure under this section, indicate the names of all subcontractors at any tier, if any, in which Intellectual Property Rights to any Foreground Information have vested or will vest.
3. Before and after final payment to the Contractor, the Minister shall have the right to examine all records and supporting data of the Contractor which the Minister reasonably deems pertinent to the identification of Foreground Information.

9624 23 (2001-05-25) Contractor to Own Intellectual Property Rights in Foreground Information

1. Subject to subsection 3 and section 27, and without affecting any Intellectual Property Rights or interests therein that have come into being prior to the Contract or that relate to information or data supplied by Canada for purposes of the Contract, all Intellectual Property Rights in the Foreground Information shall immediately, as soon as they come into existence, vest in and remain the property of the Contractor.
2. Notwithstanding the Contractor's ownership of the Intellectual Property Rights in Foreground Information that is a prototype, model or custom or customized system or equipment together with associated manuals and other operating and maintenance documents and tools, Canada shall have unrestricted ownership rights in those Deliverables, including the right to make them available for public use, whether for a fee or otherwise, and, except in the case of Software that is not necessary for the operation of the prototype, model or system or equipment, the right to sell them.
3. (a) Where the Work under the Contract involves the preparation of a database or other compilation using information or data supplied by Canada or personal information referred to in paragraph (b), then the Intellectual Property Rights that shall vest under subsection 1 shall be restricted to the Intellectual Property Rights in Foreground Information that is capable of being exploited without the use of the information or data supplied by Canada or such personal information. All Intellectual Property Rights in any database or other compilation, the Foreground Information in which cannot be exploited without the use of such information, data, or personal information, shall vest in Canada. The Contractor agrees that it shall not use or disclose any such information or data or personal information for any purpose other than completing the Work under the Contract, and shall not dispose of it except by returning it to Canada. The Contractor shall comply with the general conditions of the Contract in regard to maintaining the confidentiality of such information, data or personal information. Unless the Contract otherwise expressly provides, the Contractor shall deliver to Canada all such information, data or personal information, together with every copy, draft, working paper and note thereof that contains such information, data, or personal information, upon the completion or termination of the Contract or at such earlier time as the Minister may require.

- (b) Notwithstanding subsection 1, if the Work under the Contract involves the collection of personal information as that term is defined in the *Privacy Act* (R.S., c. P-21), then all Intellectual Property Rights in and title to that personal information shall, immediately upon the collection of it by the Contractor, vest in Canada, and the Contractor shall have no right or interest in it.

9624 24 (2001-05-25) License to Intellectual Property Rights in Foreground Information

1. In consideration of Canada's contribution to the cost of development of the Foreground Information, the Contractor hereby grants to Canada a non-exclusive, perpetual, irrevocable, world-wide, fully-paid and royalty-free license to exercise all Intellectual Property Rights in the Foreground Information that vest in the Contractor pursuant to section 23, for any public purpose except Commercial Exploitation in Competition with the Contractor. Canada's license to the Intellectual Property Rights in the Foreground Information also includes the right to disclose the Foreground Information to other governments for information purposes only. The Intellectual Property Rights arising from any modification, improvement, development or translation of the Foreground Information that is effected by or for Canada in the exercise of this license shall vest in Canada, or in such person as Canada shall decide.
2. The Contractor acknowledges that Canada may wish to award contracts for any of the purposes contemplated in subsection 1 and that such contract awards may follow a competitive process. The Contractor agrees that Canada's license in relation to the Intellectual Property Rights in the Foreground Information that vest in the Contractor pursuant to section 23, includes the right to disclose the Foreground Information to bidders for such contracts, and to sub-license or otherwise authorize the use of that information by any contractor engaged by Canada solely for the purpose of carrying out such a contract. Canada shall require the bidder or the Contractor not to use or disclose any Foreground Information except as may be necessary to bid for or to carry out that contract.
3. For greater certainty and without limiting the generality of subsections 1 and 2, Canada's right to modify, improve, translate, reproduce or further develop any Foreground Information pursuant to subsections 1 and 2:
 - (a) applies to Foreground Information that is Software, notwithstanding any terms to the contrary delivered by the Contractor with any Deliverables, including the wording on any shrink-wrapped license attached to any Deliverables; and
 - (b) includes the right to reproduce and use Foreground Information that is Software, or any modified or improved or translated or further developed form of it, on any and all computer systems owned, leased or operated by Canada anywhere in the world.
4. Notwithstanding subsections 1, 2, and 3, if any Foreground Information arises solely from correction by the Contractor of errors in Background Information that is Software, or from minor modifications made by the Contractor to such Software, then the license set out in subsections 1, 2 and 3 shall not apply to that Foreground Information and, unless otherwise agreed, the license that applies to such Background Information shall apply to that Foreground Information.
5. Where the Intellectual Property Rights in any Foreground Information are or will be owned by a subcontractor at any tier, the Contractor shall either obtain a license from that subcontractor that permits compliance with subsections 1, 2 and 3 or arrange for the subcontractor to convey directly to Canada the same rights by execution of the form provided for that purpose by the Minister, in which case the Contractor shall deliver that form to the Minister, duly completed and executed by the subcontractor, no later than the time of disclosure to Canada of that Foreground Information.
6. If the Contractor wishes to make use of any Canada-owned information that was supplied for purposes of the Contract, for the commercial exploitation or further development of any of the Foreground Information, then the Contractor may make a written request for a license to exercise the required Intellectual Property Rights in that Canada-owned information, to the minister for whose department or agency the Work is being or was carried out. The Contractor shall give that minister an explanation as to why such a license is required. That minister shall respond in writing to the request within a reasonable period of time. If the request is refused, the response shall provide an explanation for the refusal. Should that minister agree to grant such a license, it shall be on terms and conditions to be negotiated between the Contractor and that minister. It is understood that those terms may include payment of compensation to Canada.
7. The Contractor may apply to the minister for whose department or agency the Work is being or was carried out for a license to commercially exploit a translation of the Foreground Information which is effected by or for Canada, subject to the same restrictions and obligations as apply under the Contract

to commercial exploitation of the Foreground Information that was translated. Any such license shall be on terms and conditions to be negotiated between the Contractor and that minister. It is understood that those terms may include payment of compensation to Canada.

9624 25 (2001-12-10) License to Intellectual Property Rights in Background Information

1. Without restricting the scope of any license or other right in the Background Information that Canada may otherwise hold, the Contractor hereby grants to Canada a non-exclusive, perpetual, irrevocable, worldwide, fully-paid and royalty-free license to exercise such of the Intellectual Property Rights in any Background Information incorporated into the Work or necessary for the performance of the Work as may be required in order for Canada to exercise its license in the Intellectual Property Rights in the Foreground Information. The Contractor agrees, subject to subsection 4, to make any such Background Information (including, in the case of Software, source code) promptly available to Canada for any such purpose.
2. The Contractor acknowledges that Canada may wish to award contracts for a purpose contemplated in subsection 1 and that such contract awards may follow a competitive process. The Contractor agrees that Canada's license in relation to the Intellectual Property Rights in Background Information includes the right to disclose the Background Information to bidders for such contracts, and to sublicense or otherwise authorize the use of that information by any contractor engaged by Canada solely for the purpose of carrying out such a contract. Canada shall require bidders and the contractor not to use or disclose any Background Information except as may be necessary to bid for or to carry out that contract.
3. Where the Intellectual Property Rights in any Background Information are owned by a subcontractor at any tier, the Contractor shall either obtain a license from that subcontractor that permits compliance with subsections 1 and 2 or arrange for the subcontractor to convey directly to Canada the same rights by execution of the form provided for that purpose by the Minister, in which case the Contractor shall deliver that form to the Minister, duly completed and executed by the subcontractor, no later than the time of disclosure to Canada of that Background Information.
4. Notwithstanding subsection 1, the license set out therein shall not apply to any Software that is subject to detailed license conditions that are set out elsewhere in the Contract. Furthermore, in the case of commercial off-the-shelf Software, the Contractor's obligation to make the source code promptly available to Canada for a purpose set out in subsection 1 shall apply only to source code that is within the control of or can be obtained by the Contractor or any subcontractor, and in that event the Contractor shall, if requested by Canada, make the source code available to Canada within reasonable delivery times and on reasonable other commercial terms.

9624 26 (2001-12-10) Right to License

The Contractor represents and warrants that the Contractor has, or the Contractor shall obtain, without delay, the right to grant to Canada the license to exercise the Intellectual Property Rights in the Foreground Information and the Background Information as required by the Contract.

9624 27 (2001-05-25) Transfer of Intellectual Property Rights in Foreground Information

1. Until the Contractor completes the Work and discloses all of the Foreground Information in accordance with section 22, the Contractor shall not, without the prior written permission of the Minister, sell, assign or otherwise transfer title to the Intellectual Property Rights in any Foreground Information, or license or otherwise authorize the use of the Intellectual Property Rights in any of the Foreground Information by any person.
2. If Canada terminates the Contract in whole or in part for default, or if the Contractor fails to disclose any Foreground Information in accordance with section 22, the Minister may, by notice given not later than ninety (90) days from the date of termination or from the date Canada learns of the failure to disclose, as the case may be, require the Contractor to convey to Canada all of the Intellectual Property Rights in the Foreground Information or, in the case of a notice based on failure to disclose, all of the Intellectual Property Rights in the Foreground Information not disclosed. In the case of either notice, the rights to be conveyed shall include the Intellectual Property Rights in any Foreground Information that have vested or are to vest in a subcontractor at any tier. In the case of Intellectual Property Rights in Foreground Information which have been sold or assigned to a party other than a subcontractor at any tier, the Contractor shall not be obligated to convey rights to Canada in accordance with this subsection, but shall pay to Canada on demand an amount equal to the consideration which the Contractor received from the sale or assignment of the Intellectual Property Rights in that Foreground Information or, in the case of a sale or assignment that was not at arm's

length, the fair market value of the Intellectual Property Rights in that Foreground Information, in each case including the value of future Royalties or license fees.

3. In the event of the issuance by the Minister of a notice under subsection 2, the Contractor shall, at its own expense and without delay, execute such conveyances or other documents relating to title to the Intellectual Property Rights as the minister for whose department or agency the Work is being or was carried out may require, and the Contractor shall, at Canada's expense, afford that minister all reasonable assistance in the preparation of applications and in the prosecution of any applications for, or any registration of, any Intellectual Property Rights in any jurisdiction, including without limitation the assistance of the inventor in the case of Inventions.

9624 28 (2001-05-25) Sale, Assignment, Transfer or Licensing of Intellectual Property Rights in Foreground Information

1. In any sale, assignment, transfer or license of Intellectual Property Rights in Foreground Information by the Contractor except a sale or license for end use of a product based on Foreground Information, the Contractor shall impose on the other Party all of its obligations to Canada in relation to the Intellectual Property Rights in the Foreground Information and any restrictions set out in the Contract on the use or disposition of the Intellectual Property Rights in the Foreground Information (and, if applicable, the Foreground Information), including the obligation to impose the same obligations and restrictions on any subsequent transferee, assignee or licensee.
2. The Contractor shall promptly notify Canada of the name, address and other pertinent information in regard to any transferee, assignee or licensee referred to in subsection 1, and shall ensure that such Party is required to do the same with regard to any subsequent transferee, assignee or licensee.
3. The Contractor shall not charge or permit any person to charge a royalty or other fee to Canada in respect of the Intellectual Property Rights in any Foreground Information for purposes of a contract or other arrangement with Canada. Where the contract or other arrangement is for a product based on Foreground Information or on any modification or improvement thereof, the Contractor shall grant to Canada a reasonable credit against its commercial price for that product to take into account Canada's financial contribution toward the development of the product, and in the case of a product owned by a transferee, assignee or licensee of the Intellectual Property Rights in any Foreground Information, the Contractor shall ensure that such Party is required to do the same.

9624 29 (2001-05-25) Access to Information; Exception to Contractor Rights

1. Subject to the *Access to Information Act*, R.S., c. A-1, and to any right of Canada under the Contract to release or disclose, Canada shall not release or disclose outside the Government of Canada any information delivered to Canada under the Contract that is confidential information or a trade secret of the Contractor or a subcontractor.
2. Notwithstanding subsection 1, nothing in these terms and conditions shall be construed as limiting Canada's right to exercise the Intellectual Property Rights in any Foreground Information or any Background Information, or to disclose any Foreground Information or any Background Information, to the extent that such information:
 - (a) is or becomes in the public domain, or to the extent that the Contractor does not benefit from or ceases to benefit from any intellectual property rights protection for such information under legislation or at law (other than under the terms of the Contract), for any reason including as a result of Canada's use or disclosure of Deliverables under the Contract for any purpose whatever that is not expressly excluded under the Contract;
 - (b) is or becomes known to Canada from a source other than the Contractor, except from any source that is known to Canada to be under an obligation to the Contractor not to disclose the information;
 - (c) is independently developed by or for Canada; or
 - (d) is disclosed under compulsion of a legislative requirement or any order of a court or other tribunal having jurisdiction.

9624 30 (2001-05-25) Waiver of Moral Rights

1. The Contractor shall provide to Canada, at the completion of the Work or at such other time as the Minister may require, a written permanent waiver of Moral Rights, in a form acceptable to the Minister,

from every author that contributed to any Foreground Information which is subject to copyright protection and which is deliverable to Canada under the terms of the Contract.

2. If the Contractor is an author of the Foreground Information referred to in subsection 1, the Contractor hereby permanently waives the Contractor's Moral Rights in that Foreground Information.

9624 31 (2001-05-25) Suspension of the Work

1. The Minister may at any time, by written notice, order the Contractor to suspend or stop all or part of the Work under the Contract for a period of up to one hundred eighty (180) days. The Contractor shall immediately comply with any such order in the manner that minimizes the cost of so doing. While such an order is in effect, the Contractor shall not remove any part of the Work from any premises without the prior written consent of the Contracting Authority. At any time prior to the expiration of the one hundred eighty (180) days, the Minister shall either rescind the order or terminate the Contract, in whole or in part, under section 32 or section 33.
2. When an order is made under subsection 1, unless the Minister terminates the Contract by reason of default by the Contractor or the Contractor abandons the Contract, the Contractor shall be entitled to be paid its additional costs incurred as a result of the suspension plus a fair and reasonable profit thereon.
3. When an order is made under subsection 1 and is rescinded:
 - (a) the Contractor shall as soon as practicable resume work in accordance with the Contract;
 - (b) if the suspension has affected the Contractor's ability to meet any delivery date under the Contract, the date for the performance of that part of the Work affected by the suspension shall be extended for a period equal to the period of suspension plus a period, if any, which in the opinion of the Minister following consultation with the Contractor is reasonably necessary for the Contractor to resume the Work; and
 - (c) subject to section 04, an equitable adjustment shall be made as necessary to affected terms and conditions of the Contract.

9624 32 (2001-05-25) Default by the Contractor

1. Where the Contractor is in default in carrying out any of its obligations under the Contract, the Minister may, upon giving written notice to the Contractor, terminate for default the whole or any part of the Contract, either immediately, or at the expiration of a cure period specified in the notice if the Contractor has not cured the default to the satisfaction of the Minister within that cure period.
2. Where the Contractor becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or where a receiver is appointed under a debt instrument or a receiving order is made against the Contractor, or an order is made or a resolution passed for the winding up of the Contractor, the Minister may, to the extent permitted by the laws of Canada, upon giving notice to the Contractor, immediately terminate for default the whole or any part of the Contract.
3. Upon the giving of a notice provided for in subsection 1 or 2, the Contractor shall have no claim for further payment other than as provided in this section, but shall be liable to Canada for any amounts, including milestone payments, paid by Canada and for all losses and damages which may be suffered by Canada by reason of the default or occurrence upon which the notice was based, including any increase in the cost incurred by Canada in procuring the Work from another source. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination. Nothing in this section affects any obligation of Canada under the law to mitigate damages.
4. Upon termination of the Contract under this section, the Minister may require the Contractor to deliver to Canada, in the manner and to the extent directed by the Minister, any completed parts of the Work which have not been delivered and accepted prior to the termination and any materials, parts, equipment or work-in-process which the Contractor has acquired or produced specifically in the fulfilment of the Contract.
5. Subject to the deduction of any claim that Canada may have against the Contractor arising under the Contract or out of the termination, Canada shall pay or credit to the Contractor the value, determined on the basis of the Contract Price including the proportionate part of the Contractor's profit or fee included in the Contract Price, of all completed parts of the Work delivered to Canada pursuant to a

direction under subsection 4 and accepted by Canada, and shall pay or credit to the Contractor the cost to the Contractor that the Minister considers reasonable in respect of all materials, parts, equipment or work-in-process delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada, but in no event shall the aggregate of the amounts paid by Canada under the Contract to the date of termination and any amounts payable pursuant to this subsection exceed the Contract Price.

6. Title to all materials, parts, equipment, work-in-process and finished work in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such materials, parts, equipment, work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for materials, parts, equipment or work-in-process that would not have been required to perform the Work or that exceed what would have been required to perform the Work.
7. Where, subsequent to issuance of a notice pursuant to subsection 1, the Minister is satisfied that grounds did not exist for a termination under this section, the notice shall be deemed a notice of termination for convenience issued under subsection 33.1.

9624 33 (2004-05-14) Termination for Convenience

1. Notwithstanding anything contained in the Contract, the Minister may, at any time prior to the completion of the Work, by giving notice to the Contractor (in this section sometimes referred to as a "termination notice"), terminate the Contract as regards to all or any part of the Work not completed. Upon a termination notice being given, the Contractor shall cease work (including the manufacture and procuring of materials for the fulfilment of the Contract) in accordance with and to the extent specified in the notice, but shall proceed to complete such part or parts of the Work as are not affected by the termination notice. The Minister may, at any time or from time to time, give one or more additional termination notices with respect to any or all parts of the Work not terminated by any previous termination notice.
2. In the event of a termination notice being given pursuant to subsection 1, the Contractor shall be entitled to be paid, to the extent that costs have been reasonably and properly incurred for purposes of performing the Contract and to the extent that the Contractor has not already been so paid or reimbursed by Canada including the unliquidated portion of any advance payment:
 - (a) on the basis of the Contract Price, for all completed work that is inspected and accepted in accordance with the Contract, whether completed before, or after and in compliance with the instructions contained in, the termination notice;
 - (b) the Cost to the Contractor plus a fair and reasonable profit thereon, for all work terminated by the termination notice before completion, the Cost to the Contractor being determined in accordance with the terms of the Contract and with Contract Cost Principles 1031-2;
 - (c) the amount of any capital expenditures actually incurred only if they were specifically authorized under the Contract or approved in writing by the Minister for the purpose of the Contract, less any depreciation in respect thereof already taken into account in determining cost, to the extent that the capital expenditures are properly apportionable to the performance of the Contract;
 - (d) all costs of and incidental to the termination of the Work or part thereof, including the Cost of cancellation of obligations incurred by the Contractor with respect to the terminated Work or part thereof, the Cost of and incidental to the taking of an inventory of materials, components, work-in-process and finished work on hand related to the Contract at the date of the termination, and the Cost of preparation of necessary accounts and statements with respect to work performed to the effective date of the termination and commitments made by the Contractor with respect to the terminated portions of the Work; but not including the cost of severance payments or damages to employees whose services are no longer required by reason of the termination except wages that the Contractor is obligated by statute to pay them and except for reasonable severance payments or damages paid to employees hired to perform the Contract whose hiring was expressly required by the Contract or approved in writing by the Minister for the purpose of the Contract.
3. In paragraph 2.(c), "capital expenditures" includes the entry into leases of real property and equipment.
4. The Minister may reduce the payment in respect of any of the Work to the extent that, upon inspection, it is deficient in meeting the requirements of the Contract.

5. Notwithstanding anything in subsection 2, the total of the amounts to which the Contractor is entitled under paragraphs 2.(a) to (c) inclusive, together with any amounts paid or due or becoming due to the Contractor under other provisions of the Contract, shall not exceed the Contract Price or the portion thereof that is applicable to the part of the Work that is terminated, and shall not exceed the proportion of the price quoted by the Contractor for all of the Work that is reasonably attributable to the proportion of the Work performed to the effective date of the termination.
6. In the procuring of materials and parts required for the performance of the Contract and in the subcontracting of any of the Work, the Contractor shall, unless otherwise authorized by the Minister, place purchase orders and subcontracts on terms that will enable the Contractor to terminate the same upon terms and conditions similar in effect to those provided in this section, and generally the Contractor shall co-operate with the Minister and do everything reasonably within its power at all times to minimize the amount of Canada's obligations in the event of a termination under this section.
7. Title to all materials, parts, equipment, work-in-process and finished work in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such materials, parts, equipment, work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for materials, parts, equipment or work-in-process that would not have been required to perform the Work or that exceed what would have been required to perform the Work.
8. 3. Notwithstanding subsection 1, any delay caused by lack of financial resources of the Contractor or an event that is a ground for termination provided for in subsection 2 of section 23, or any delay in the Contractor fulfilling an obligation to deliver a bond, guarantee, letter of credit or other security relating to performance or the payment of money, shall not qualify as an Excusable Delay.

5. In the event of an Excusable Delay, any delivery date or other date that is directly affected shall be postponed for a reasonable time not to exceed the duration of the Excusable Delay. The Parties shall amend the Contract, as appropriate, to reflect any such change in dates.
6. Notwithstanding subsection 5, the Minister may, after an Excusable Delay has continued for thirty (30) days or more, in the Minister's absolute discretion terminate the Contract. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination. Subsections 4, 5 and 6 of section 23 apply in the event of a termination under this subsection.
7. Except to the extent that Canada is responsible for the delay for reasons of failure to meet an obligation under the Contract, Canada shall not be liable for any costs or charges of any nature incurred by the Contractor or any of its subcontractors or agents as a result of an Excusable Delay.

Information provided to the Contractor by or on behalf of Canada shall be used solely for the purpose of the Contract and shall remain the property of Canada or the third party, as the case may be. Unless the Contract otherwise expressly provides, the Contractor shall deliver to Canada all such information, together with every copy, draft, working paper and note thereof that contains such information, upon completion or termination of the Contract or at such earlier time as the Minister may require.

3. There shall be no adjustment under subsection 2 in respect of any change that would increase the Cost to the Contractor of the Work if public notice of the change was given before the bid submission date in sufficient detail to permit the Contractor to have calculated the effect on its Cost before that date.
4. The Contractor shall forward to the Minister a certified statement showing the increase or decrease in Cost to the Contractor that is directly attributable to the change in the imposition. The Minister may verify the increase or decrease in Cost by audit before or after the Contract Price is adjusted.

5. Notwithstanding subsections 2 to 4, no adjustment to the Contract Price in respect of the Work or a part thereof shall be made for a change in any imposition referred to in this section that occurs after the date required by the Contract for delivery of the Work or that part of the Work.

9676 16 (1994-01-04) Inspection of the Work

The Work and any and all parts thereof shall be subject to such inspection as the Technical or Inspection Authority determines to be appropriate, consistent with the relevant provisions of the Contract, if any, prior to acceptance by Canada. 4. Any vesting of title referred to in subsection 2 shall not constitute acceptance by Canada of the Work and shall not relieve the Contractor of its obligation to perform the Work in accordance with the Contract.
5. If the Contract is a defence Contract within the meaning of the *Defence Production Act*, R.S.C. 1985, c. D-1, title to the Work or to any materials, parts, work-in-process or finished work shall vest in Canada free and clear of all claims, liens, attachments, charges or encumbrances, and the Minister shall be entitled at any time to remove, sell or dispose of it or any part of it in accordance with section 20 of that Act.

3. All Government Property, except such as is installed or incorporated into the Work, shall, unless otherwise specifically provided in the Contract, be returned to Canada on demand.
4. At the time of completion of the Contract, and if requested by the Contracting Authority, the Contractor shall provide an inventory of all Government Property relating to the Contract to both the Contracting Authority and the Technical Authority.

1. The Contractor shall indemnify and save harmless Canada, the Minister and their servants and agents from and against any damages, costs or expenses or any claim, action, suit or other proceeding which they or any of them may at any time incur or suffer as a result of or arising out of

- (a) any injury to persons (including injuries resulting in death) or loss of or damage to property of others which may be or be alleged to be caused by or suffered as a result of the performance of the Work or any part thereof, except that Canada and the Minister shall not claim indemnity under this section to the extent that the injury, loss or damage has been caused by Canada, and

4. The Minister shall give notice to the Contractor of any claim, action, suit or proceeding referred to in subsection 2 and the Contractor shall, to the extent requested by the Attorney General of Canada, at its own expense participate in or conduct the defence of any such claim, action, suit or proceeding and any negotiations for settlement of the same, but the Contractor shall not be liable to indemnify and save harmless Canada for payment of any settlement unless it has consented to the settlement.
5. The Contractor shall notify the Minister of all Royalties which it or any of its subcontractors will or may be obligated to pay or propose to pay in respect of carrying out the Contract, and the basis thereof, and the parties to whom the same are payable, and shall promptly advise the Minister of any and all claims which would or might result in further or different payments by way of Royalties being made by the Contractor or any of its subcontractors.
6. Where and to the extent that the Minister so directs, the Contractor shall not pay and shall direct its subcontractors not to pay any Royalties in respect of the carrying out of the Contract.
7. After the giving of any direction provided for in subsection 6, and subject to compliance by the Contractor with the foregoing provisions, Canada shall indemnify the Contractor and its subcontractors from and against all claims, actions, suits or proceedings for payment of such Royalties as are covered by the direction.
8. The Contractor shall not be entitled to any payment in respect of any Royalties included in the Contract Price to which the indemnity provided in subsection 7 applies.

1. In this section,

"Material" means anything that is created or developed by the Contractor as part of the Work under the Contract, and in which copyright subsists, but does not include computer programs and related software documentation.

2. Copyright in the Material shall vest in Canada and the Contractor shall incorporate in all Material the copyright symbol and either of the following notices, as appropriate:
 - © HER MAJESTY THE QUEEN IN RIGHT OF Canada (year)
 - or
 - © SA MAJESTÉ LA REINE DU CHEF DU CANADA (year)
3. At the completion of the Contract, or at such other time as the Contract or the Minister may require, the Contractor shall fully and promptly disclose to the Minister all Material created or developed under the Contract.
4. Where copyright in any Material vests in Canada under the Contract, the Contractor shall execute such conveyances and other documents relating to title or copyright as the Minister may require.
5. The Contractor shall not use, copy, divulge or publish any Material except as is necessary to perform the Contract.
6. At the request of the Minister, the Contractor shall provide to Canada, at the completion of the Work or at such other time as the Minister may require, a written permanent waiver of Moral Rights, in a form acceptable to the Minister, from every author that contributed to the Material.
7. If the Contractor is an author of the Material, the Contractor hereby permanently waives the Contractor's Moral Rights in respect of the Material.

9676 22 (1994-01-04) Suspension of the Work

1. The Minister may at any time, by written notice, order the Contractor to suspend or stop all or part of the Work under the Contract for a period of up to one hundred eighty (180) days. The Contractor shall immediately comply with any such order in the manner that minimizes the cost of so doing. While such an order is in effect, the Contractor shall not remove any part of the Work from any premises without the prior written consent of the Contracting Authority. At any time prior to the expiration of the one hundred eighty (180) days, the Minister shall either rescind the order or terminate the Contract, in whole or in part, under section 23 or section 24 .
2. When an order is made under subsection 1, unless the Minister terminates the Contract by reason of default by the Contractor or the Contractor abandons the Contract, the Contractor shall be entitled to be paid its additional costs incurred as a result of the suspension plus a fair and reasonable profit thereon.
3. When an order is made under subsection 1 and is rescinded:
 - (a) the Contractor shall as soon as practicable resume work in accordance with the Contract;
 - (b) if the suspension has affected the Contractor's ability to meet any delivery date under the Contract, the date for the performance of that part of the Work affected by the suspension shall be extended for a period equal to the period of suspension plus a period, if any, which in the opinion of the Minister following consultation with the Contractor is reasonably necessary for the Contractor to resume the Work; and
 - (c) subject to section 04, an equitable adjustment shall be made as necessary to affected terms and conditions of the Contract.

9676 23 (1994-01-04) Default by the Contractor

1. Where the Contractor is in default in carrying out any of its obligations under the Contract, the Minister may, upon giving written notice to the Contractor, terminate for default the whole or any part of the Contract, either immediately, or at the expiration of a cure period specified in the notice if the Contractor has not cured the default to the satisfaction of the Minister within that cure period.
2. Where the Contractor becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or where a

receiver is appointed under a debt instrument or a receiving order is made against the Contractor, or an order is made or a resolution passed for the winding up of the Contractor, the Minister may, to the extent permitted by the laws of Canada, upon giving notice to the Contractor, immediately terminate for default the whole or any part of the Contract.

3. Upon the giving of a notice provided for in subsection 1 or 2, the Contractor shall have no claim for further payment other than as provided in this section, but shall be liable to Canada for any amounts, including milestone payments, paid by Canada and for all losses and damages which may be suffered by Canada by reason of the default or occurrence upon which the notice was based, including any increase in the cost incurred by Canada in procuring the Work from another source. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination. Nothing in this section affects any obligation of Canada under the law to mitigate damages.
4. Upon termination of the Contract under this section, the Minister may require the Contractor to deliver to Canada, in the manner and to the extent directed by the Minister, any completed parts of the Work which have not been delivered and accepted prior to the termination and any material, equipment or work-in-process which the Contractor has acquired or produced specifically in the fulfilment of the Contract.
5. Subject to the deduction of any claim that Canada may have against the Contractor arising under the Contract or out of the termination, Canada shall pay or credit to the Contractor the value, determined on the basis of the Contract Price including the proportionate part of the Contractor's profit or fee included in the Contract Price, of all completed parts of the Work delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada, and shall pay or credit to the Contractor the Cost to the Contractor that the Minister considers reasonable in respect of all material, equipment or work-in-process delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada, but in no event shall the aggregate of the amounts paid by Canada under the Contract to the date of termination and any amounts payable pursuant to this subsection exceed the Contract Price.
6. Title to all material, equipment, work-in-process and finished work in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such material, equipment, work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for material, equipment or work-in-process that would not have been required to perform the Work or that exceed what would have been required to perform the Work.
7. Where, subsequent to issuance of a notice pursuant to subsection 1, the Minister is satisfied that grounds did not exist for a termination under this section, the notice shall be deemed a notice of termination for convenience issued under subsection 1 of section 24.

9676 24 (2004-05-14) Termination for Convenience

1. Notwithstanding anything contained in the Contract, the Minister may, at any time prior to the completion of the Work, by giving notice to the Contractor (in this section sometimes referred to as a "termination notice"), terminate the Contract as regards all or any part of the Work not completed. Upon a termination notice being given, the Contractor shall cease work in accordance with and to the extent specified in the notice, but shall proceed to complete such part or parts of the Work as are not affected by the termination notice. The Minister may, at any time or from time to time, give one or more additional termination notices with respect to any or all parts of the Work not terminated by any previous termination notice.
2. In the event of a termination notice being given pursuant to subsection 1, the Contractor shall be entitled to be paid, to the extent that costs have been reasonably and properly incurred for purposes of performing the Contract and to the extent that the Contractor has not already been so paid or reimbursed by Canada including the unliquidated portion of any advance payment:
 - (a) on the basis of the Contract Price, for all completed work that is inspected and accepted in accordance with the Contract, whether completed before, or after and in compliance with the instructions contained in, the termination notice;
 - (b) the cost to the Contractor plus a fair and reasonable profit thereon, for all work terminated by the termination notice before completion, the Cost to the Contractor being determined in accordance with the terms of the Contract and with Contract Cost Principles 1031-2;
 - (c) the amount of any capital expenditures actually incurred only if they were specifically authorized under the Contract or approved in writing by the Minister for the purpose of the

Contract, less any depreciation in respect thereof already taken into account in determining cost, to the extent that the capital expenditures are properly apportionable to the performance of the Contract;

- (d) all costs of and incidental to the termination of the Work or part thereof, including the cost of cancellation of obligations incurred by the Contractor with respect to the terminated work or part thereof, the Cost of and incidental to the taking of an inventory of materials, components, work-in-process and finished work on hand related to the Contract at the date of the termination, and the cost of preparation of necessary accounts and statements with respect to Work performed to the effective date of the termination and commitments made by the Contractor with respect to the terminated portions of the Work; but not including the cost of severance payments or damages to employees whose services are no longer required by reason of the termination except wages that the Contractor is obligated by statute to pay them and except for reasonable severance payments or damages paid to employees hired to perform the Contract whose hiring was expressly required by the Contract or approved in writing by the Minister for the purpose of the Contract.
3. In paragraph 2.(c), "capital expenditures" includes the entry into leases of real property and equipment.
4. The Minister may reduce the payment in respect of any of the Work to the extent that, upon inspection, it is deficient in meeting the requirements of the Contract.
5. Notwithstanding anything in subsection 2, the total of the amounts to which the Contractor is entitled under paragraphs 2.(a) to (c) inclusive, together with any amounts paid or due or becoming due to the Contractor under other provisions of the Contract, shall not exceed the Contract Price or the portion thereof that is applicable to the part of the Work that is terminated, and shall not exceed the proportion of the price quoted by the Contractor for all of the Work that is reasonably attributable to the proportion of the Work performed to the effective date of the termination.
6. In the procuring of materials and parts required for the performance of the Contract and in the subcontracting of any of the Work, the Contractor shall, unless otherwise authorized by the Minister, place purchase orders and subcontracts on terms that will enable the Contractor to terminate the same upon terms and conditions similar in effect to those provided in this section, and generally the Contractor shall co-operate with the Minister and do everything reasonably within its power at all times to minimize the amount of Canada's obligations in the event of a termination under this section.
7. Title to all material, equipment, work-in-process and finished work in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such material, equipment, work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for material, equipment or work-in-process that would not have been required to perform the Work or that exceed what would have been required to perform the Work.
8. The Contractor shall have no claim for damages, compensation, loss of profit, allowance or otherwise by reason of, or directly or indirectly arising out of, any action taken or termination notice given by the Minister under this section, except to the extent that this section expressly provides.

9676 25 (1994-01-04) Accounts and Audit

1. The Contractor shall keep proper accounts and records of the cost to the Contractor of the Work and of all expenditures or commitments made by the Contractor in connection therewith, and shall keep all invoices, receipts and vouchers relating thereto. The Contractor shall not, without the prior written consent of the Minister, dispose of any such accounts, records, invoices, receipts or vouchers until the expiration of six (6) years after final payment under this Contract, or until the settlement of all outstanding claims and disputes, whichever is later.
2. All such accounts and records as well as any invoices, receipts and vouchers shall at all times during the retention period referred to in subsection 1 be open to audit, inspection and examination by the authorized representatives of the Minister, who may make copies and take extracts thereof. The Contractor shall provide all facilities for such audits and inspections and shall furnish all such information as the representatives of the Minister may from time to time require with respect to such accounts, records, invoices, receipts and vouchers.

9676 26 (1994-01-04) Notice

Any notice shall be in writing and may be delivered by hand or by courier, by registered mail, or by facsimile or other electronic means that provides a paper record of the text of the notice, addressed to the Party for whom it

is intended at the address in the Contract or at the last address of which the sender has received notice in accordance with this section. Any notice shall be deemed to be effective on the day it is received at that address.

No member of the House of Commons shall be admitted to any share or part of the Contract or to any benefit arising from the Contract.

9676 28 (2005-12-16) Conflict of Interest

The Contractor agrees that it is a term of the Contract that no person who is not in compliance with the provisions of the Conflict of Interest and Post-Employment Code for Public Office Holders, the Values and Ethics Code for the Public Service, or the Defence Administrative Orders and Directives governing Conflict of Interest and Post-Employment, shall derive any direct benefit from this Contract.

9676 29 (1994-06-01) No Bribe

The Contractor represents and covenants that no bribe, gift, benefit, or other inducement has been or will be paid, given, promised or offered directly or indirectly to any official or employee of Canada or to a member of the family of such a person, with a view to influencing the entry into the Contract or the administration of the Contract.

9676 30 (1994-01-04) Survival

All of the Contractor's obligations of confidentiality and all of the Contractor's representations and warranties set out in the Contract as well as the provisions concerning Government Property, indemnity against third party claims, royalties and infringement, intellectual property rights and accounts and audit shall survive the expiry of the Contract or the termination of the Contract for default, for convenience, pursuant to subsection 6 of section 11, or by mutual consent, as shall any other provision of the Contract which, by the nature of the rights or obligations set out therein, might reasonably be expected to be intended to so survive.

9676 31 (1994-01-04) Severability

If any provision of the Contract is declared by a court of competent jurisdiction to be invalid, illegal or unenforceable, such provision shall be severed from the Contract and all other provisions of the Contract shall remain in full force and effect.

9676 32 (1994-01-04) Successors and Assigns

The Contract shall enure to the benefit of, and shall be binding upon, the successors and permitted assignees of Canada and of the Contractor.

9676 33 (1994-01-04) Entire Agreement

The Contract constitutes the entire and sole agreement between the parties with respect to the subject matter of the Contract and supersedes all previous negotiations, communications and other agreements, whether written or oral, relating to it, unless they are incorporated by reference in the Contract. There are no terms, covenants, representations, statements or conditions binding on the parties other than those contained in the Contract.

9676 34 (1994-06-06) Certification - Contingency Fees

1. The Contractor certifies that it has not directly or indirectly paid or agreed to pay and covenants that it will not directly or indirectly pay a contingency fee for the solicitation, negotiation or obtaining of this Contract to any person other than an employee acting in the normal course of the employee's duties.
2. All accounts and records pertaining to payments of fees or other compensation for the solicitation, obtaining or negotiation of the Contract shall be subject to the Accounts and Audit provisions of the Contract.

CCC50 02 (1991-06-01) Powers of the Corporation

The Corporation is the agent of Her Majesty for all purposes of the Contract.

CCC50 03 (2000-05-12) Assignment and Subletting

1. The Contractor shall not assign or sublet the Contract or any of the Work without the prior written consent of the Corporation and any assignment or subletting made without such consent shall be of no effect provided that (unless the Contract or the Corporation directs otherwise) the Contractor may sublet such portions of the Work as are usually sublet in similar cases. The Contractor shall promptly furnish to the Corporation full particulars of all subcontracts. No assignment or subletting shall relieve the Contractor from any of its obligations under the Contract or impose any liability upon Her Majesty or the Corporation to an assignee or subcontractor.

2. Subject to the foregoing, the Contract shall enure to the benefit of and shall be binding upon the successors and assigns of Her Majesty and of the Contractor, respectively.

CCC50 04 (1991-06-01) Conduct of the Work

1. The Contractor shall diligently carry out the work, shall provide efficient supervision and inspection thereof and shall be responsible for seeing that the Work is of proper quality, material and workmanship and satisfies the requirements of the Contract.
2. The nature and spirit of the Contract is to provide for the Work therein enumerated to be fully completed in every detail for the purpose designed; and the Contractor agrees to furnish any and every thing necessary for such purpose, notwithstanding any omission in the drawings or Specifications.
3. The Contractor shall apply to the Corporation for any explanation which the Contractor may require in regard to the meaning and intent of any clause in the Specifications and Contract, and shall be held responsible for any errors or losses consequent upon failure to obtain such explanation.
4. Drawings and Specifications are intended to complement each other, so that if anything is shown on the drawings but not mentioned in the Specifications, or vice versa, it is to be furnished and built as though specifically set forth in both. If any discrepancies are discovered in the drawings, or any conflict between the drawings and the Specifications, the same shall be referred to the Corporation before proceeding with the Work. Figured dimensions on drawings are to have precedence.
5. Materials used must conform to the Specifications whether shown on the Corporation's or the Contractor's drawings or not.
6. Approval by the Corporation of the Contractor's drawings shall not relieve the Contractor of responsibility for corrections thereof, nor for results arising from error or omission.
7. No materials or parts shall be used or processed and no Finished Work shall be submitted for acceptance or shall be delivered unless or until approved by the Contractor's inspection staff and, wherever practicable, marked with an approval stamp satisfactory to the Inspector. The Contractor shall keep proper and adequate inspection records which shall at all times be open to examination by the Inspector who may make copies thereof and take extracts therefrom.
8. The Corporation and the Inspector shall have access to the Work at all times and may make such tests of the Work as they may think fit. Provided always that if the Agreement provides for a particular place or manner of delivery, such delivery shall not be complete unless or until made in accordance therewith. Upon delivery, title to the Work delivered shall vest in Her Majesty if not already so vested. Without restricting any other term of the Contract or any warranty stipulated or implied by law, the Contractor shall, at its own expense, replace any articles, parts or materials included in the Work (not including any Government Issue) which at any time within eighteen (18) months from the delivery thereof become defective as a result of faulty or inefficient manufacture, materials or workmanship.

3. All Government Issue (except such as are installed or incorporated in the Work) shall be returned to the Corporation upon demand, in the same condition as when supplied to the Contractor; provided that the Contractor shall not be responsible for any loss or damage resulting from ordinary wear and tear or from causes beyond the Contractor's reasonable control.

1. The Contractor shall take reasonable and proper care of any and all property owned by Her Majesty which is from time to time in the Contractor's custody or control and shall be responsible for any loss thereof or damage thereto resulting from its failure to do so, other than loss or damage caused by fire or by ordinary wear and tear.
2. Unless otherwise provided elsewhere in the Contract, no insurance shall be carried by the Contractor on any property owned by Her Majesty provided that if the Contract is for a stipulated price, this subsection 2 shall not prevent the Contractor from carrying insurance upon property the title to which becomes vested in Her Majesty by virtue of section 19 of these general conditions.

2. Upon the giving of such notice, the Contractor shall have no claim for any further payment, save as hereinafter in section 22 provided, but shall remain liable for all loss and damage which may be suffered by Her Majesty by reason of the default or occurrence upon which such notice was based.
3. If the Work is taken over by the Corporation,

Upon a termination notice being given, the Contractor shall cease Work (including the manufacturing and/or procuring of materials for the fulfilment of the Contract) in accordance with and to the extent specified in such notice. The Corporation may, at any time or from time to time, give one or more additional termination notices with respect to any or all parts of the Work not terminated by any previous termination notice.

Cost shall be determined in accordance with the provisions of the Contract Cost Principles 1031-2, subject to any modifications thereof which the Corporation may consider to be appropriate in the circumstances;
 - (c) subject as provided in paragraph (d) of this subsection 2, the Contractor shall be entitled to be reimbursed the amount of any capital expenditures specifically authorized by the Contract or approved by the Corporation for the purposes of the Contract (and actually made or incurred) to the extent that the same (less any depreciation in respect thereof already taken into account in determining cost) were reasonably and properly incurred by the Contractor in respect of and are properly apportionable to the performance of the Contract and not included in the amounts paid or payable to the Contractor in respect of Finished Work;
 - (d) if the Contract is exclusively a Contract for the making of capital expenditures in respect of additional equipment and/or plant additions, the foregoing paragraphs (a) to (c) inclusive of this subsection 2 shall not apply, but Her Majesty shall pay or reimburse the Contractor for the reasonable and proper cost to the Contractor (not previously paid by Her Majesty) of
 - (i) all additional equipment which prior to the giving of the termination notice shall have been purchased, acquired or manufactured by the Contractor, or contracted for and for which the Contractor is obligated to make payments; and

- (ii) all additional equipment in process of manufacture by the Contractor as at the date of the giving of such notice and all Work in connection with the construction of the plant addition up to the said date, including the cost of materials and parts contracted for by the Contractor for the purposes of such manufacture or construction and for which the Contractor is obligated to make payment.
3. Provided always that no reimbursement shall be made in respect of Work which has been or may be rejected after inspection as not complying with the requirements of the Contract.
 4. The Contractor shall not be entitled to be reimbursed any amount which taken together with any amounts paid or due or becoming due to the Contractor under the Contract, shall exceed the Contract Price applicable to the Work or the particular part thereof.

 6. In case of disagreement as to the amount which the Contractor is entitled to be reimbursed, the matter shall be referred to the Federal Court.
 7. As far as practicable, the Contractor shall place purchase orders and subcontracts on terms that will enable the Contractor to terminate the same upon conditions and terms similar in effect to those provided in this section, and generally the Contractor shall co-operate with the Corporation and do everything reasonably within its power at all times to minimize and reduce the amount of Her Majesty's obligations in the event of termination hereunder.
 8. Title to all materials, parts, plant, equipment and/or work in process in respect of which reimbursement is made to the Contractor as herein provided shall, upon such reimbursement being made, pass to and vest in Her Majesty unless already so vested under any other provision of the Contract and such materials, parts, plant, equipment and/or work in process shall be delivered to the order of the Corporation, but the materials thus taken over will in no case be in excess of what would have been required for performing the Contract in full if no termination notice had been given.
 9. If the Corporation is satisfied that by reason of any action taken under the provisions of this section exceptional hardship has resulted to the Contractor, then the Corporation may, in its absolute discretion, grant such allowance (not to include in any case, however, an allowance or compensation for loss of profit) to the Contractor as, in the opinion of the Corporation, is warranted by the circumstances.
 10. The Contractor shall have no claim for damages, compensation, loss of profit, allowance or otherwise by reason of or directly or indirectly arising out of any action taken or notice given by the Corporation under or pursuant to the provisions of this section except to the extent in this section expressly provided.

2. All accounts and records pertaining to payments of fees or other compensation for the solicitation, obtaining or negotiation of the Contract shall be subject to the Accounts and Audit provisions of the Contract.

1. Unless otherwise provided for in the Contract, all Government Property shall be used by the Contractor solely for the purpose of the Contract and shall remain the property of Canada.

4. If the Contractor is the author of the Work, the Contractor hereby permanently waives the Contractor's Moral Rights in respect of the Work.

TRA-95 22 (1995-12-15) Suspension of the Work

1. The Minister may at any time, by written notice, order the Contractor to suspend or stop all or part of the Work under the Contract. The Contractor shall immediately comply with any such order in the manner that minimizes the cost of so doing. At any time during the period of the suspension or stopping of the Work, the Minister may either rescind the order or terminate the Contract, in whole or in part, under section 23 or terminate it under section 24.
2. When an order is made under subsection 1, unless the Minister terminates the Contract by reason of default by the Contractor or the Contractor abandons the Contract, the Contractor shall be entitled to be paid its additional costs incurred as a result of the suspension plus a fair and reasonable profit thereon.
3. When an order is made under subsection 1 and is rescinded:
 - (a) the Contractor shall as soon as practicable resume work in accordance with the Contract;
 - (b) if the suspension has affected the Contractor's ability to meet any delivery date under the Contract, the date for the performance of that part of the Work affected by the suspension shall be extended for a period equal to the period of suspension plus a period, if any, which in the opinion of the Minister following consultation with the Contractor is reasonably necessary for the Contractor to resume the Work; and
 - (c) subject to section 04, an equitable adjustment shall be made as necessary to affected terms and conditions of the Contract.

TRA-95 23 (1995-12-15) Default by the Contractor

1. 2. Where the Contractor becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or where a receiver is appointed under a debt instrument or a receiving order is made against the Contractor, or an order is made or a resolution passed for the winding up of the Contractor, the Minister may, to the extent permitted by the laws of Canada, upon giving notice to the Contractor, immediately terminate for default the whole or any part of the Contract.
3. Upon the giving of a notice provided for in subsection 1 or 2, the Contractor shall have no claim for further payment other than as provided in this section, but shall be liable to Canada for any amounts, including milestone payments, paid by Canada and for all losses and damages which may be suffered by Canada by reason of the default or occurrence upon which the notice was based, including any increase in the cost incurred by Canada in procuring the Work from another source or calling upon its internal resources. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination. Nothing in this section affects any obligation of Canada under the law to mitigate damages.
4. Upon termination of the Contract under this section, the Minister may require the Contractor to deliver to Canada, in the manner and to the extent directed by the Minister, any completed parts of the Work which have not been delivered and accepted prior to the termination and any materials or work-in-process which the Contractor has produced specifically in the fulfilment of the Contract.
5. Subject to the deduction of any claim that Canada may have against the Contractor arising under the Contract or out of the termination, Canada shall pay or credit to the Contractor the value, determined on the basis of the Contract Price, including the proportionate part of the Contractor's profit or fee included in the Contract Price, of all completed parts of the Work delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada, and shall pay or credit to the Contractor the cost to the Contractor that the Minister considers reasonable in respect of all materials and work-in-process delivered to Canada pursuant to a direction under subsection 4 and accepted by Canada, but in no event shall the aggregate of the amounts paid by Canada under the Contract to the date of termination and any amounts payable pursuant to this subsection exceed the Contract Price.

6. Titles to all materials, work-in-process and finished work, in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such materials, work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for those that would not have been required to perform the Work or that exceed what would have been required to perform the Work.
7. Where, subsequent to issuance of an order pursuant to subsection 1, the Minister is satisfied that grounds did not exist for a termination under this section, the notice shall be deemed a notice of termination for convenience issued under subsection section 24.1.

TRA-95 24 (1995-12-15) Termination for Convenience

1. Notwithstanding anything contained in this Contract, the Minister may, at any time prior to the completion of the Work, by giving notice to the Contractor (in this section sometimes referred to as a "termination notice"), terminate the Contract as regards all or any part of the Work not completed. Upon a termination notice being given, the Contractor shall cease work in accordance with and to the extent specified in the notice, but shall proceed to complete any such part or parts of the Work as are not affected by the termination notice. The Minister may, at any time or from time to time, give one or more additional termination notices with respect to any or all parts of the Work not terminated by any previous termination notice.
2. In the event of a termination notice being given pursuant to subsection 1, the Contractor shall be entitled to be paid, to the extent that costs have been reasonably and properly incurred for purposes of performing the Contract and to the extent that the Contractor has not already been so paid or reimbursed by Canada including the unliquidated portion of any advance payment:
 - (a) on the basis of the Contract Price, for all completed Work that is inspected and accepted in accordance with the Contract, whether completed before, or after and in compliance with the instructions contained in, the termination notice;
 - (b) the cost to the Contractor plus a fair and reasonable profit thereon, for all Work terminated by the termination notice before completion, the cost to the Contractor being determined in accordance with the terms of the Contract;
 - (c) all costs of and incidental to the termination of the Work or part thereof, including the Cost of cancellation of obligations incurred by the Contractor with respect to the terminated Work or part thereof, but not including the cost of severance payments or damages to employees whose services are no longer required by reason of the termination except wages that the Contractor is obligated by statute to pay them and except for reasonable severance payments or damages paid to employees hired to perform the Contract whose hiring was expressly required by Contract or approved in writing by the Minister for the purpose of the Contract.
3. The Minister may reduce the payment in respect of any of the Work to the extent that, upon inspection, it is deficient in meeting the requirements of the Contract.
4. Notwithstanding anything in subsection 2, the total of the amounts to which the Contractor is entitled under paragraphs 2.(a) and (b), together with any other amounts paid or due to the Contractor under other provisions of the Contract, shall not exceed the Contract Price or the portion thereof that is applicable to the part of the Work that is terminated, and shall not exceed the proportion of the price quoted by the Contractor for all the Work that is reasonably attributable to the proportion of the Work performed to the effective date of the termination.
5. In the subcontracting of any of the Work, the Contractor shall, unless otherwise authorized by the Minister, place subcontracts on terms that will enable the Contractor to terminate the same upon terms and conditions similar in effect to those provided in this section, and generally the Contractor shall co-operate with the Minister and do everything reasonably within its power at all times to minimize the amount of Canada's obligations in the event of a termination under this section.
6. Title to all equipment, work-in-process and finished work in respect of which payment is made to the Contractor shall, upon such payment being made, pass to and vest in Canada unless already so vested under any other provision of the Contract, and such work-in-process and finished work shall be delivered according to the order of the Minister, but Canada will not accept and will not pay for work-in-process that would not have been required to perform the Work or that exceed what would have been required to perform the Work.

7. The Contractor shall have no claim for damages, compensation, loss of profit, allowance or otherwise by reason of, or directly or indirectly arising out of, any action or termination notice given by the Minister under this section, except to the extent that this section expressly provides.

The Contractor shall not, without the prior written consent of the Minister, dispose of any such accounts, records, invoices, receipts or vouchers until the expiration of 6 years after final payment under this Contract, or until the settlement of all outstanding claims and disputes, whichever is later.
2. All such accounts and records as well as any invoices, receipts and vouchers shall at all times during the retention period referred to in subsection 1 be open to audit, inspection and examination by the authorized representatives of the Minister, who may make copies and take extracts thereof. There are no terms, covenants, representations, statements or conditions binding on the Parties other than those contained in the Contract.

Supplemental general conditions are used in conjunction with one of the general conditions sets in Section 3. Their purpose is to expand upon and clarify specific points within the context of an identified subject area. For example, supplemental general conditions 1028 - Ship Construction - Firm Price, expands upon the topic of ship construction.

Prior to the introduction of the *Standard Acquisition Clauses and Conditions* Manual, supplemental general conditions sets were attached to each bid solicitation package. This practice has been replaced by incorporation by reference. The specified supplemental general conditions specified in standard clause K0000D form part of the procurement document.

To improve readability, each condition set includes an index section (article) - 00, which details the various subjects covered within the condition set. As well, each section has an effective date. As conditions are updated and modified, only the affected section will receive a new effective date, corresponding to the effective date for the whole condition set; thus making changes more readily identifiable by users.

The following list identifies those sets of supplemental general conditions which are currently in use by the Department of Public Works and Government Services, their latest revision date and their title.

3. The Contractor shall enter into a contract of insurance issued in the joint names of the Contractor and Canada as their respective interests may appear in the standard form of Marine Builder's Risk Policy to provide full indemnification to Canada for any loss or damage to the vessel or any other materials which are the property of Canada for installation in the vessel in the custody of the Contractor or any claim or expenses to Canada as aforesaid for which the Contractor assumes responsibility hereunder, and the premium or cost of such insurance coverage shall be incorporated into and form part of the purchase price.

1. Except where the Contract provides otherwise, Canada shall prepare the installation site for the Hardware at Canada's own expense in accordance with the site preparation Specifications provided by the Contractor.
2. If the site Specifications are not contained in the Contract, and if no date is specified in the Contract for delivery of those specifications to Canada, the Contractor shall deliver those Specifications to Canada forthwith following execution of the Contract or, where delivery of the Hardware is to occur more than thirty (30) days after execution of the Contract, at any time prior to the 30th day before the date specified in the Contract for delivery of the Hardware. 9601-1 06 (1992-12-01) Availability-level Test

1. In this section:

"Downtime" means the time, to be measured in hours and whole minutes, during which the Hardware is not available for use during User Time due to a malfunction of the Hardware; Downtime commences when Canada notifies the Contractor that the Hardware is not available for use and ceases when the malfunction has been corrected and the Contractor notifies Canada that the Hardware is available for use;

Where installation of the Hardware is the responsibility of Canada, and where Canada intends to subject the Hardware to Availability-level Testing, Canada shall install the Hardware within ten (10) days following its delivery to Canada or following the delivery date specified in the Contract, whichever is later, and shall immediately commence the Availability-level Test.
4. Without prejudice to Canada's other rights under the Contract, Canada shall have access to the Hardware and may make unrestricted operational use of it after the Contractor has given notice that it is Ready for Use or, where installation is the responsibility of Canada, after it is delivered to and installed by Canada. However, the Contractor shall, at all times prior to acceptance of the Hardware, have priority with respect to access to the Hardware to maintain the Hardware and to fulfill the requirements of the Contract.

5. The Hardware must achieve a minimum of 95 percent availability level, or such other minimum percentage as may be specified in the Contract, for thirty (30) consecutive calendar days. All Operational Use Time shall be included in determining the availability level. Availability level shall be calculated as follows:

$$\frac{\text{Operational Use Time}}{\text{Operational Use Time} + \text{Downtime}} \times 100\%$$

6. The Contractor shall ensure that the 30-day minimum availability level mentioned in subsection 5 is achieved within ninety (90) consecutive calendar days of the first full day after the Technical Authority commences the Availability-level Test in accordance with subsection 2 or 3.
7. Subject to subsection 8, if Canada fails to carry out Availability-level Testing during any period or periods of time during which Canada is obligated under the Contract to carry out such testing, then, for the purposes of calculating the availability level of the Hardware during that time, that time shall be deemed to constitute uninterrupted Operational Use Time.
8. If Canada is unable to commence or continue the Availability-level Test because of an act in Canada's sovereign capacity or the occurrence of an event of force majeure, the Availability-level Test may be temporarily suspended by Canada for a period of time not to exceed sixty (60) days. The time limits for testing referred to in this section or elsewhere in the Contract shall in such cases be extended by the number of calendar days of the suspension.

In the event of a defect or nonconformance in any part of the Hardware during the Warranty Period, the Contractor, at the request of Canada to do so, shall, as soon as possible, repair, replace or otherwise make good at its own option and expense the part of the Hardware found to be defective or not in conformance with the requirements of the Contract.
4. The Hardware or any part thereof found to be defective or non-conforming may be returned to the Contractor's repair facility for replacement, repair or making good; provided that, when in the opinion of Canada it is not expedient to remove the Hardware from its location, the Contractor shall carry out any necessary repair or making good at that location, and shall, except as otherwise provided in the Contract, be paid the fair and reasonable Cost (including reasonable travelling and living expenses) incurred in so doing, with no allowance therein by way of profit, less an amount equal to the Cost of rectifying the defect or nonconformance at the Contractor's repair facility.
5.  - (f) the attachment to the Hardware of equipment which was not designed or approved for use with the Hardware by the Contractor or a Subcontractor.
7. Where the Contractor is to carry out any necessary replacement, repair or making good at Canada's facilities, Canada shall give the Contractor reasonable access to the Hardware. Where provision is made in the Contract for remote diagnostics, Canada shall provide a modem and associated dial-up telephone lines for use by the Contractor for diagnostic purposes. Access, whether remote or on-site, shall at all times be subject to prior authorization by the Technical Authority and to Canada's security requirements.
8. The warranties set out in subsection 2 shall apply for the remainder of the Warranty Period to any part of the Hardware that is repaired, replaced or otherwise made good pursuant to subsection 3. All of the provisions of subsections 3 to 7 inclusive and this subsection apply mutatis mutandis to any such part of the Hardware that is found during that period to be defective or not in conformance with the Contract.

2. If the Contract contains a purchase option in relation to the Hardware or any part thereof, title to the Hardware or that part, and the risk of loss or damage to the Hardware or that part, shall, unless otherwise provided in the Contract, pass to Canada on the date of the exercise of that option, and subsections 9.5 and 9.6 and section 10 shall apply.

5. The Contractor shall have no claim for damages, compensation, loss of profits, allowance or otherwise by reason of, or directly or indirectly arising out of, any action taken or termination notice given by the Minister under or pursuant to the provisions of this section, except to the extent that this section expressly provides.

9601-1 14 (1992-12-01) Risk of Loss

1. The Contractor agrees to bear the risk of loss of or damage to the Hardware during periods of transportation, installation and during the entire time the Hardware is in the possession of Canada, except when the loss or damage is caused by the negligence of Canada or by anyone acting on behalf of Canada.

3. If the Hardware is lost or damaged, and if such loss or damage is not caused by the Contractor or by Canada or by anyone acting on behalf of either of them, the Contractor shall, as soon as possible, repair or replace the Hardware at its option and expense. In such event, the lease period, and Canada's liability to pay lease payments, shall not be affected.

Part I - Development of Detailed Design**9601-2 02 (1994-01-04) Application of Part I**

This Part applies if the Contract requires the Contractor either to design the Custom Software or to further develop an existing technical design for the Custom Software.

9601-2 03 (1994-01-04) Functional Specifications

If the Functional Specifications are to be further developed by the Contractor under the Contract, and if the Functional Specifications thereafter developed by the Contractor are accepted by Canada, then the developed Functional Specifications shall be deemed to be incorporated in the Contract by reference, and shall supersede the Functional Specifications which were originally incorporated in the Contract.

9601-2 04 (1994-01-04) Detailed Design Specifications

1. The Contractor shall develop the Detailed Design Specifications for the Custom Software in conformity with the Functional Specifications and all other requirements of the Contract.

1. In this section, unless otherwise indicated in the Contract, "Review Period" means a period of five (5) working days from the date on which the Detailed Design Specifications are to be submitted to Canada in accordance with the terms of the Contract, or from the actual date of submission of those Specifications by the Contractor, whichever is later.
2. The Review Period may be extended by Canada by an additional five (5) working days by notice given to the Contractor by the Technical Authority within the Review Period.
3. During the Review Period, Canada shall inspect the Detailed Design Specifications submitted by the Contractor and, within two (2) working days following the end of the Review Period, shall advise the Contractor whether or not the Detailed Design Specifications have passed inspection.
4. If the Detailed Design Specifications submitted by the Contractor are inconsistent with the Functional Specifications, or fail in any other way to meet the requirements of the Contract, Canada shall prepare a written description of the deficiencies, and shall deliver such description to the Contractor within two (2) working days following the end of the Review Period.
5. Upon receipt of Canada's description of the deficiencies mentioned in subsection 4, the Contractor shall thereupon modify the Detailed Design Specifications to correct the deficiencies and shall promptly submit the corrected Work to Canada for inspection.
6. During a second Review Period, Canada shall inspect the corrected Work submitted to Canada pursuant to subsection 5, and subsections 3 and 4 shall apply to that inspection.
7. Notwithstanding anything else contained in this section, the Contractor shall ensure that the Detailed Design Specifications developed by the Contractor pass inspection by Canada within thirty (30) days from the date on which the Detailed Design Specifications were originally to be submitted by the Contractor to Canada in accordance with the terms of the Contract.

9601-2 06 (1994-01-04) Design Warranty

1. Notwithstanding inspection of the Detailed Design Specifications by Canada, the Contractor warrants that the Detailed Design Specifications will be derived from and be in accordance and consistent with the Functional Specifications and all other requirements of the Contract.
2. If Part II of these supplemental general conditions applies, the warranty set forth in subsection 1 shall expire on the date of expiry of the Warranty Period referred to in section 14. If Part II does not apply, the warranty set forth in subsection 1 shall expire upon acceptance of the Work by Canada.

Part II - Implementation of Custom Software**9601-2 07 (1994-01-04) Application of Part II**

This Part applies if the Contract requires the Contractor to develop the Custom Software based on the Detailed Design Specifications and the Functional Specifications.

9601-2 08 (1994-01-04) Coding and Pre-Installation Tests

1. In the development of the Custom Software, the Contractor shall carry out all detailed programming and coding required in conformity with the Detailed Design Specifications, and, if necessary, shall revise the Detailed Design Specifications in order to ensure that they are derived from and are consistent with the Functional Specifications and all other requirements of the Contract.
2. The Contractor shall conduct pre-installation testing to ensure that the Custom Software will operate in conformity with the Functional Specifications and all other requirements of the Contract. The Contractor shall notify the Technical Authority of all such tests and, upon the request of the Technical Authority, will give the Technical Authority an opportunity to witness those tests, and a copy of all intermediate and final test records and results.

2. The Contractor shall deliver the New Source Code to Canada at such time or times as the Contract may require, or, if no other time is specified, within thirty (30) days following acceptance of the Custom Software by Canada.
3. The New Source Code furnished by the Contractor shall contain a complete description of the operation of the developed software in sufficient detail to enable a programmer, experienced in the programming language or languages in which the source code is written, to modify all aspects of that software without assistance from the Contractor.

9601-2 10 (2004-12-10) Pre-Existing Software

1. In this section, "Pre-Existing Software" means software that is not developed as part of the Work under the Contract, and that is proprietary to the Contractor or any of its subcontractors or other suppliers.
2. The Contractor shall not develop the Custom Software by modifying Pre-Existing Software, or incorporate any Pre-Existing Software into the Custom Software, without the prior written consent of the Contracting Authority.
3. Notwithstanding subsection 2, the Contractor is not obligated to seek the consent of the Contracting Authority in relation to any Pre-Existing Software the use of which is specifically authorized in the Contract.
4. If Pre-Existing Software forms part of the Custom Software, and if the Contract does not otherwise require the Contractor to deliver the source code for that software to Canada or to put that source code into escrow for the benefit of Canada, the Contractor shall, at its option and expense, either:
 - (a) deliver the source code for that software to Canada within thirty (30) days following acceptance of the Custom Software by Canada; or
 - (b) deliver that source code, at the time mentioned in paragraph (a), to an escrow agent approved by the Minister to be held in trust by that agent for release to Canada upon the occurrence of any of the following events:
 - (i) Canada terminates for default the Contract or any subsequent support or development arrangement relating to the Custom Software;
 - (ii) the Contractor or its supplier defaults in the performance of its obligations under the escrow agreement relating to the source code;
 - (iii) the Contractor or its supplier ceases to do business in the ordinary course, or ceases to make support or development services in relation to the Custom Software reasonably available to Canada;
 - (iv) the Contractor or its supplier becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors;
 - (v) a receiver is appointed for the Contractor or its supplier under a debt instrument, or a receiving order is made against the Contractor or its supplier; or

- (vi) an order is made or a resolution passed for the winding up of the Contractor or its supplier.

5. The source code delivered by the Contractor to Canada, or to any escrow agent, in relation to any Pre-Existing Software that forms part of the Custom Software, shall contain a complete description of the operation of that Pre-Existing Software in sufficient detail to enable a programmer, experienced in the programming language or languages in which the source code is written, to modify all aspects of that software without assistance from the Contractor. If the source code for the Pre-Existing Software is to be delivered to an escrow agent, the Contractor shall ensure that the source code in the possession of the escrow agent is updated from time to time to correspond with the most current version of the object code in the possession of Canada.
6. Unless otherwise provided in the Contract, or in any escrow agreement signed by Canada, Canada's rights to use, copy, modify and disclose any Pre-Existing Software supplied under the Contract, and any source code for that software, shall be identical to those set out in supplemental general conditions 9601-4.
7. Without limiting the generality of the section entitled "Subcontracting" in the General Conditions, the Contractor shall impose on its subcontractors and other suppliers the obligations to Canada imposed under this section, and shall ensure that those obligations are carried out.

9601-2 11 (1994-01-04) Object Code and User Documentation

1. Without limiting any of the Contractor's other obligations under the Contract, including its obligation with respect to the supply of source code, the Contractor shall furnish all of the developed or modified programs to Canada in executable object code.
2. The operating manuals, technical manuals, and other user documentation furnished by the Contractor to Canada for use with the Custom Software shall describe the operation of the Custom Software in sufficient detail to enable appropriately trained employees of Canada to use all functions and features of the Custom Software without assistance from the Contractor.

9601-2 12 (1994-01-04) Conversion of Data Files

Where indicated in the Contract, the Contractor shall convert Canada's machine-readable data files, as they exist on any existing computer system used to fulfil all or part of the then-current functional requirements of Canada, to data files designed for use with the Custom Software. Canada is responsible for the accuracy and the completeness of data files delivered to the Contractor, and the Contractor is responsible for the accuracy and completeness of the data files after conversion, and for the compatibility of such data files with the Custom Software.

9601-2 13 (1994-01-04) Acceptance Tests

1. Notwithstanding anything else contained in this section, the acceptance procedures set out in subsections 2 to 5 inclusive shall only apply in the absence of any other detailed acceptance procedures for the Custom Software set out or referred to in the Contract.
2. Canada shall prepare and provide to the Contractor acceptance test data prior to the date specified in the Contract for the start of pre-installation testing of the Custom Software. Canada will consult with the Contractor in connection with the preparation of such data, and the Contractor shall assist in such preparation to the extent indicated in the Contract. Such data shall be used by Canada and the Contractor to determine whether the Custom Software, when executed on the hardware and its operating system, performs in accordance with the Functional Specifications and all other requirements of the Contract. Unless otherwise agreed, the test data shall be in the format and media required for direct input to the computer system, as defined in the Detailed Design Specifications.
3. Following receipt of the acceptance test data referred to in subsection 2, and prior to the date specified in the Contract for the start of acceptance testing of the Custom Software (the "Test Start Date"), the Contractor shall provide an "Acceptance Test Plan" to Canada for Canada's review and approval. The Acceptance Test Plan shall consist of a description of a series of tasks and verifications, based on the acceptance test data, in sufficient detail to enable Canada and the Contractor to determine whether the Custom Software performs in accordance with the Functional Specifications and all other requirements of the Contract.
4. On the Test Start Date, the acceptance tests in relation to the Custom Software shall commence using the pre-approved Acceptance Test Plan referred to in subsection 3. The acceptance tests shall be conducted over such period of time as is specified therefor in the Contract, or, if no other acceptance

testing period is specified, over a 40-day period from the Test Start Date. If the Custom Software passes the acceptance tests, and if the Contractor has completed all other Work under the Contract in accordance with the terms of the Contract, the Technical Authority shall promptly give notice to the Contractor that the Custom Software is accepted.

5. If the Custom Software fails to pass the acceptance tests referred to in subsection 4, Canada shall prepare a written description of the deficiencies and deliver such description to the Contractor within ten (10) days following the end of the acceptance testing period referred to in that subsection. Upon receipt of Canada's description of the deficiencies, the Contractor shall thereupon modify the Custom Software to correct the deficiencies and shall do so within ten (10) days of receipt of such description. All acceptance tests in relation to the Custom Software shall then be repeated, at no additional cost to Canada, and the Contractor shall ensure that the Custom Software passes the second set of acceptance tests within the acceptance testing period.
6. Notwithstanding anything else contained in this section, if Canada is unable to commence or continue the acceptance tests in relation to the Custom Software because of an act in Canada's sovereign capacity or the occurrence of an event of force majeure, the acceptance tests may be temporarily suspended for a period of time not to exceed sixty (60) days. The time limits for testing referred to in this section or elsewhere in the Contract shall in such cases be extended by the number of calendar days of the suspension. If the delay exceeds sixty (60) days, the Parties shall thereafter use reasonable efforts to negotiate a mutually acceptable amendment to the Contract.

9601-2 14 (1994-01-04) Warranty

1. In this section, unless otherwise indicated in the Contract, "Warranty Period" means a period of ninety (90) days commencing on the date of completion of the whole of the Work by the Contractor, and acceptance of the whole of the Work by Canada, with the exception only of warranty work.
2. Notwithstanding inspection and acceptance of the Custom Software by Canada and without restricting any term or condition of the Contract or any condition, warranty or provision implied or imposed by law, the Contractor warrants that, during the Warranty Period, the Custom Software will perform in accordance with the Functional Specifications and all other requirements of the Contract on the computer system on which the Custom Software is installed under the Contract.
3. During the Warranty Period, the Contractor shall, as soon as possible, provide, at no additional charge to Canada, corrections to the Custom Software where Canada notifies the Contractor in writing of any failure of the Custom Software to perform in accordance with the Functional Specifications or any other requirement of the Contract. If Canada reports a failure to the Contractor, Canada shall give the Contractor reasonable access to the computer system on which the Custom Software resides, and shall provide such information as the Contractor may reasonably request, including sample output and other information, in order to permit the Contractor to expeditiously correct the error which caused that failure.
4. Although the Contractor shall use all reasonable efforts to provide permanent corrections for all software errors, Canada acknowledges that certain errors may not be permanently corrected by the Contractor under the warranty set out in this section. The Contractor shall provide a software patch or by-pass around the error in all cases where the error will not be permanently corrected. As a minimum, any such software patch or by-pass shall cause the Custom Software to meet the functional and performance criteria set out in the Functional Specifications.
5. The Contractor is not obligated to correct errors in the Custom Software which result from modifications to the Custom Software or any part thereof unless those modifications were made by the Contractor or by someone authorized by the Contractor to perform those modifications.

Part III - Title and Risk**9601-2 15 (1994-01-04) Title to Media**

1. For the purposes of this section, the term "media" does not include the information stored on the media.
2. All documents, magnetic tapes and any other tangible media containing the Custom Software or any part thereof, or containing any specification, design, prototype or other information furnished as part of the Work, shall become the property of Canada upon the earlier of delivery to and acceptance thereof by Canada or upon any payment being made to the Contractor for or on account of the media or the information stored thereon, either by way of progress payments or accountable advances or otherwise.

It is agreed that the vesting of title in Canada shall not constitute acceptance by Canada of the media or of the information stored thereon and shall not relieve the Contractor of its obligation to perform the Work in conformity with the requirements of the Contract.

9601-2 16 (1994-01-04) Risk of Loss

1. Risk of loss of or damage to the media referred to in section 15, or to the information stored thereon, shall pass to Canada upon delivery of the media to Canada in accordance with the Contract, provided, however, that if the Contractor has retained a copy of the information that was stored on the media, the Contractor shall, upon the request of the Minister, replace the lost or damaged media and information at no additional charge to Canada except for any charge for costs reasonably and properly incurred in the carrying out of such replacement.
2. Notwithstanding subsection 1, the Contractor shall be liable for loss of or damage to the media and the information stored thereon that is caused by the Contractor or any of its subcontractors after delivery.

9601-2 17 (1994-01-04) Title to Developed Software

1. For the purposes of this section, "Developed Software" includes object code, source code, documentation, data bases, specifications, designs, prototypes and other related information conceived, developed or produced as part of the Work under the Contract.
2. Title to the Developed Software shall vest either in Canada or the Contractor, whichever is indicated in the intellectual property provisions of the Contract. If title vests in the Contractor, the Contractor grants to Canada the license with respect to the Developed Software set out or referred to in those provisions.
3. The provisions of this section shall not be interpreted so as to limit in any way the intellectual property provisions of the Contract.

4. Except where there is an express restriction in the Contract on the number of copies of the Licensed Software that can be made, Canada shall have the right to reproduce the Licensed Software, without restriction, for use by Canada on computer systems at the site or sites designated in the Contract.

9601-4 06 (1992-12-01) Licensed Documentation

1. Except as provided in sections 03, 04 and 05, and except as otherwise provided in the Contract, Canada shall not reproduce the Licensed Documentation without the prior written consent of the Contractor.
2. The Contractor represents and warrants that the Licensed Documentation shall contain enough detail to permit an experienced user to install, test and use all features of the Licensed Programs. If the source code for the Licensed Programs is to be furnished to Canada under the Contract, the Contractor represents and warrants that the code so furnished shall contain enough detail to permit a programmer, experienced in the use of the programming language or languages in which the source code is written, to modify the Licensed Programs.

9601-4 07 (1992-12-01) Copyright Notices

If the Licensed Software contains copyright or other proprietary notices, Canada shall reproduce those notices on all copies of the Licensed Software.

9601-4 08 (1992-12-01) Media

1. The Contractor represents and warrants that the Media shall be compatible with the computer system on which the Licensed Programs are to be installed.
2. The Contractor further represents and warrants that the Media, as supplied by the Contractor, shall be free from computer viruses.
3. Title to the Media shall vest in Canada upon delivery to and acceptance thereof by or on behalf of Canada. "Media", for the purposes of this subsection, does not include the Licensed Software stored on the Media.

9601-4 09 (1992-12-01) Term of License

1. Unless otherwise indicated in the Contract, Canada's license with respect to the Licensed Software shall be perpetual, subject only to the termination provisions set out in the Contract.
2. If Canada is in breach of Canada's license with respect to the Licensed Software, and if that breach continues for a period of thirty (30) days following receipt by the Contracting Authority of written notice from the Contractor giving particulars of the breach, the Contractor may terminate Canada's license with respect to the Licensed Software by giving the Contracting Authority written notice to that effect.

9601-4 10 (1995-03-31) Acceptance Tests

1. After installation of the Licensed Programs in accordance with the terms of the Contract, the Technical Authority shall perform the acceptance tests set out or referred to in the Contract to determine whether the Licensed Software and the Media conform to the requirements of the Contract, including the Specifications. If the Contract does not provide for any such tests, the Parties may agree upon the acceptance tests to be conducted, provided, however, that if the Parties do not or are unable to agree, the Technical Authority may conduct whatever acceptance tests it reasonably deems necessary to verify conformity with the requirements of the Contract. Unless otherwise specified in the Contract, the acceptance tests shall be conducted at Canada's facilities.
2. Except as otherwise provided in the Contract, the acceptance tests referred to in subsection 1 shall be conducted over a period of forty (40) days from the date of installation of the Licensed Software at Canada's facilities. If the Licensed Software and Media pass those acceptance tests, the Technical Authority shall give notice to the Contractor that the Licensed Software and Media are accepted.

3. Notwithstanding anything else contained in this section, if Canada is unable to commence or continue the acceptance tests in relation to the Licensed Software because of an act in Canada's sovereign capacity or the occurrence of an event of force majeure, the acceptance tests may be temporarily suspended for a period of time not to exceed sixty (60) days. The time limits for testing referred to in this section or elsewhere in the Contract shall in such cases be extended by the number of calendar days of the suspension. If the delay exceeds sixty (60) days, the Parties shall thereafter use reasonable efforts to negotiate a mutually acceptable amendment to the Contract.

9601-4 11 (2004-12-10) Non-Disclosure Obligations

1. Canada acknowledges that the Licensed Software contains information which the Contractor considers to be proprietary and confidential. Subject to the *Access to Information Act*, R.S.C. 1985, c. A-1, and to Canada's rights under the Contract to disclose such information to contractors and agents of Canada engaged in the work of the User, Canada shall not release or disclose such information outside the Government of Canada without the prior written consent of the Contractor.
2. The foregoing obligation does not apply to information that:
 - (a) is publicly available from a source other than Canada;
 - (b) is or becomes known to Canada from a source other than the Contractor, except from any source that is known to Canada to be under an obligation to the Contractor not to disclose the information; or
 - (c) is developed by Canada without the use of the information of the Contractor or its licensor.

9601-4 12 (1992-12-01) Right to License

1. The Contractor represents and warrants that it has the right to license the Licensed Software and full power and authority to grant to Canada the rights granted under the Contract. The Contractor further represents and warrants that all necessary consents to that grant have been obtained.
2. Except to the extent that those conditions may be expressly incorporated in the Contract, it is agreed that conditions accompanying or enclosed with the Licensed Software, if any, shall not form part of Canada's license or affect the rights of the Parties in any manner whatsoever. In no event shall Canada or any end user be required to enter into any further license agreement with respect to the Licensed Software or any portion thereof after the effective date of the Contract.

9601-4 13 (1992-12-01) Warranty

1. In this section, unless otherwise indicated in the Contract, "Warranty Period" means a period of ninety (90) days from the date on which the Contractor has completed the whole of the Work in accordance with the terms of the Contract, except for warranty work and any other work which is scheduled under the Contract to be performed after the start of the Warranty Period.
2. The Contractor warrants that, during the Warranty Period, the Licensed Programs shall operate in conformity with the Specifications on the computer system or systems on which the Licensed Programs are installed. In the event that the Licensed Programs fail to meet the foregoing warranty at any time during the Warranty Period, the Contractor, at the request of Canada to do so, shall, as soon as possible, correct, at its expense, any programming errors and defects and make such additions, modifications or adjustments to the Licensed Software as may be necessary to keep the Licensed Programs in operating order, in accordance with the Specifications. Although the Contractor shall use all reasonable efforts to provide permanent corrections for all software errors, Canada acknowledges that certain errors may not be permanently corrected by the Contractor under the foregoing warranty. The Contractor shall provide a software patch or by-pass around the error in all cases where the error will not be permanently corrected. As a minimum, any such software patch or by-pass shall cause the Licensed Programs to meet the functional and performance criteria set out in the Specifications.
3. The Contractor warrants that, during the Warranty Period, the Licensed Documentation shall be free from all defects in materials and shall conform with the requirements of the Contract. If Canada discovers a defect or nonconformance in any part of the Licensed Documentation during the Warranty Period, the Contractor, at the request of Canada to do so, shall, as soon as possible, correct, at its expense, the part of the Licensed Documentation found to be defective or not in conformance with the requirements of the Contract.
4. The Contractor warrants that, during the Warranty Period, the Media shall be free from all defects in materials or workmanship, and shall conform with the requirements of the Contract. Canada may

return nonconforming or defective Media to the Contractor within the Warranty Period, with notice of the nonconformance or the defect, and the Contractor shall promptly replace such Media with corrected Media at no additional cost to Canada.

5. If the Contractor is to perform support services with respect to the Licensed Software during the Warranty Period, it is agreed that the provisions concerning support shall not be interpreted so as to derogate from the warranty provisions set out in this section.
6. The warranties set out in this section shall survive inspection and acceptance of the Work by or on behalf of Canada, and do not restrict any other provision of the Contract or any condition, warranty or provision implied or imposed by law.

9601-4 14 (1992-12-01) Availability of Source Code

1. This section applies if the Contract does not otherwise require the Contractor to provide the source code for the Licensed Software to Canada.
2. If the Contractor and Canada have not entered into a separate escrow agreement concerning the source code with an escrow agent on or prior to the effective date of the Contract, then the Contractor shall put in place for Canada, at no additional charge, whatever escrow arrangements, if any, it usually puts in place for its customers, and shall give Canada, within thirty (30) days of the date of execution of the Contract, a copy of the agreement with its escrow agent which sets out the terms under which the escrow agent is authorized to release the source code to Canada.

9601-4 15 (1992-12-01) Right to Modify

If the source code for the Licensed Programs is provided to Canada under the terms of the Contract, that code shall form part of the "Licensed Software" for the purposes of the Contract, and Canada shall have the right, at Canada's discretion, to independently copy and modify the Licensed Software for Canada's own purposes and use, through the services of Canada's own employees or of independent contractors provided such contractors agree not to disclose or distribute any part of the Licensed Software to any other person or entity or otherwise violate the proprietary rights of the owner of the Licensed Software. Canada shall be the owner of any such modifications, but shall obtain no ownership interest in the Licensed Software, and any portion of the Licensed Software contained in such modifications shall remain subject to the terms and conditions of Canada's license. The Contractor shall not incorporate any such modifications into its software for distribution to third parties unless Canada has granted the necessary distribution rights to the Contractor pursuant to a written license agreement. The provisions of this section shall not be interpreted so as to preclude the Contractor or its third-party licensors from independently developing modifications.

9601-4 16 (1992-12-01) Risk of Loss

1. Risk of loss of or damage to the Licensed Software or the Media, or to any part thereof, shall pass to Canada upon delivery of the Licensed Software or the Media, or that part, to Canada.
2. Notwithstanding subsection 1, the Contractor shall be liable for loss or damage to the Licensed Software or Media that is caused by the Contractor or any of its Subcontractors after delivery.

9601-4 17 (1992-12-01) Destruction on Termination

In the event of termination or expiration of Canada's license, Canada will, upon the written request of the Contractor, either return all copies of the Licensed Software to the Contractor or, at Canada's option, will represent in writing to the Contractor that all copies of the Licensed Software have been destroyed except for one copy which may be retained by Canada for archival purposes only.

9601-5 06 (1992-12-01) Hotline Service

Where the Contract provides for hotline services, the Contractor shall provide Canada remote access to the Contractor's personnel, to help Canada in answering questions with respect to the Licensed Software, during the hours specified in the Contract, or if not otherwise specified, during the hours of 8:00 a.m. to 5:00 p.m., local time at the site where the Licensed Programs are installed, Monday through Friday, exclusive of statutory holidays observed by Canada at such site. 1. The section of the General Conditions entitled "Termination for Convenience" does not apply to the support services for the Licensed Software. This section applies in lieu thereof.
2. Notwithstanding anything contained in the Contract, the Minister may, at any time during the Software Support Period, by giving thirty (30) days prior notice to the Contractor (hereinafter sometimes referred

to as a "termination notice"), terminate the Contract as regards all or any part of the software support services. Upon a termination notice being given, the Contractor shall cease work in accordance with and to the extent specified in the notice, but shall continue to perform such part or parts of the software support services as are not affected by the termination notice. The Minister may, at any time or from time to time, give one or more additional termination notices with respect to any or all parts of the software support services not terminated by any previous termination notice.

3. In the event of a termination notice being given pursuant to subsection 2, the Contractor shall be entitled to be paid, on the basis of the Contract Price, for all software support services terminated by the termination notice and performed to the date of termination, but only to the extent that costs have been reasonably and properly incurred for the purposes of performing the software support services and only to the extent that the Contractor has not already been so paid or reimbursed by Canada. If the date of termination falls on a day other than the last day of a calendar month (in the case of a monthly support charge) or on a day other than the last day of the support year (in the case of a yearly support charge), the charge for the month or year in which termination occurs will be a portion of the specified monthly or yearly charge determined by multiplying the number of days in the month or year to the date of termination by $1/30$ or $1/365$ of the specified monthly or yearly charge, as the case may be. In the case of an advance payment, the Contractor shall refund the unliquidated portion of the specified monthly or yearly support charge to Canada upon written demand from the Contracting Authority. The unliquidated portion of the support charge shall be determined using the formula set out above in this subsection.
4. The Contractor shall have no claim for damages, compensation, loss of profits, allowance or otherwise by reason of, or directly or indirectly arising out of, any action taken or termination notice given by the Minister under this section, except to the extent that this section expressly provides.

1. 3. Before and after final payment to the Contractor, the Minister shall have the right to examine all records and supporting data of the Contractor which the Minister reasonably deems pertinent to the identification of Foreground Information.

9601-6 03 (2001-05-25) Contractor to Own Intellectual Property Rights in Foreground Information

1. Subject to subsection 3 and section 07, and without affecting any Intellectual Property Rights or interests therein that have come into being prior to the Contract or that relate to information or data supplied by Canada for purposes of the Contract, all Intellectual Property Rights in the Foreground Information shall immediately, as soon as they come into existence, vest in and remain the property of the Contractor.
2. 9601-6 04 (2001-05-25) License to Intellectual Property Rights in Foreground Information

1. In consideration of Canada's contribution to the cost of development of the Foreground Information, the Contractor hereby grants to Canada a non-exclusive, perpetual, irrevocable, world-wide, fully-paid and royalty-free license to exercise all Intellectual Property Rights in the Foreground Information that vest in the Contractor pursuant to section 03, for any public purpose except Commercial Exploitation in Competition with the Contractor. Canada's license to the Intellectual Property Rights in the Foreground Information also includes the right to disclose the Foreground Information to other

- governments for information purposes only. The Intellectual Property Rights arising from any modification, improvement, development or translation of the Foreground Information that is effected by or for Canada in the exercise of this license shall vest in Canada, or in such person as Canada shall decide.
2. The Contractor acknowledges that Canada may wish to award contracts for any of the purposes contemplated in subsection 1 and that such contract awards may follow a competitive process. The Contractor agrees that Canada's license in relation to the Intellectual Property Rights in the Foreground Information that vest in the Contractor pursuant to section 03, includes the right to disclose the Foreground Information to bidders for such contracts, and to sub-license or otherwise authorize the use of that information by any contractor engaged by Canada solely for the purpose of carrying out such a contract. Canada shall require the bidder or the contractor not to use or disclose any Foreground Information except as may be necessary to bid for or to carry out that contract.
 3. For greater certainty and without limiting the generality of subsections 1 and 2, Canada's right to modify, improve, translate, reproduce or further develop any Foreground Information pursuant to subsections 1 and 2:
 - (a) applies to Foreground Information that is Software, notwithstanding any terms to the contrary delivered by the Contractor with any deliverable, including the wording on any shrink-wrapped license attached to any deliverable; and
 - (b) includes the right to reproduce and use Foreground Information that is Software, or any modified or improved or translated or further developed form of it, on any and all computer systems owned, leased or operated by Canada anywhere in the world.
 4. Notwithstanding subsections 1, 2, and 3, if any Foreground Information arises solely from correction by the Contractor of errors in Background Information that is Software, or from minor modifications made by the Contractor to such Software, then the license set out in subsections 1, 2 and 3 shall not apply to that Foreground Information and, unless otherwise agreed, the license that applies to such Background Information shall apply to that Foreground Information.
 5. Where the Intellectual Property Rights in any Foreground Information are or will be owned by a Subcontractor at any tier, the Contractor shall either obtain a license from that Subcontractor that permits compliance with subsections 1, 2 and 3 or arrange for the Subcontractor to convey directly to Canada the same rights by execution of the form provided for that purpose by the Minister, in which case the Contractor shall deliver that form to the Minister, duly completed and executed by the Subcontractor, no later than the time of disclosure to Canada of that Foreground Information.
 6. If the Contractor wishes to make use of any Canada-owned information that was supplied for purposes of the Contract, for the commercial exploitation or further development of any of the Foreground Information, then the Contractor may make a written request for a license to exercise the required Intellectual Property Rights in that Canada-owned information, to the minister for whose department or agency the Work is being or was carried out. The Contractor shall give that minister an explanation as to why such a license is required. That minister shall respond in writing to the request within a reasonable period of time. If the request is refused, the response shall provide an explanation for the refusal. Should that minister agree to grant such a license, it shall be on terms and conditions to be negotiated between the Contractor and that minister. It is understood that those terms may include payment of compensation to Canada.
 7. The Contractor may apply to the minister for whose department or agency the Work is being or was carried out for a license to commercially exploit a translation of the Foreground Information which is effected by or for Canada, subject to the same restrictions and obligations as apply under the Contract to commercial exploitation of the Foreground Information that was translated. Any such license shall be on terms and conditions to be negotiated between the Contractor and that minister. It is understood that those terms may include payment of compensation to Canada.

9601-6 05 (2001-12-10) License to Intellectual Property Rights in Background Information

1. Without restricting the scope of any license or other right in the Background Information that Canada may otherwise hold, the Contractor hereby grants to Canada, in relation to any custom-designed or custom-manufactured part of the Work, a non-exclusive, perpetual, irrevocable, worldwide, fully-paid and royalty-free license to exercise such of the Intellectual Property Rights in any Background Information incorporated into the Work or necessary for the performance of the Work as may be required for the following purposes:

- (a) for the use, operation, maintenance, repair or overhaul of the custom-designed or custom-manufactured parts of the Work;
- (b) in the manufacturing of spare parts for maintenance, repair or overhaul of any custom-designed or custom-manufactured part of the Work by Canada if those parts are not available on reasonable commercial terms to enable timely maintenance, repair or overhaul;
- (c) for disclosure to any contractor engaged by Canada (or bidder for such a contract) to be used solely for a purpose set out in paragraph (a) or (b), but in the case of paragraph (b), only if the Contractor is unable or unwilling to provide the spare parts on reasonable commercial terms and within reasonable delivery times;

and the Contractor agrees to make any such Background Information (including, in the case of Software, source code) promptly available to Canada for any such purpose.

2. Notwithstanding subsection 1, the license set out therein shall not apply to any Software that is subject to detailed license conditions that are set out elsewhere in the Contract. Furthermore, in the case of commercial off-the-shelf software, the Contractor's obligation to make the source code promptly available to Canada for a purpose set out in subsection 1 shall apply only to source code that is within the control of or can be obtained by the Contractor or any Subcontractor, and in that event the Contractor shall, if requested by Canada, make the source code available to Canada within reasonable delivery times and on reasonable other commercial terms.
3. Canada may wish to award contracts to third party contractors under subsection 1, and such contract awards may follow a competitive process. The Contractor agrees that Canada's license in relation to the Intellectual Property Rights in Background Information includes the right to disclose the Background Information to bidders for such contracts, and to sublicense or otherwise authorize the use of that information by any contractor engaged by Canada solely for the purpose of carrying out such a contract. Canada shall require bidders and the contractor not to use or disclose any Background Information except as may be necessary to bid for or to carry out that contract.
4. Where the Intellectual Property Rights in any Background Information are owned by a Subcontractor at any tier, the Contractor shall either obtain a license from that Subcontractor that permits compliance with subsection 1 or arrange for the Subcontractor to convey directly to Canada the same rights by execution of the form provided for that purpose by the Minister, in which case the Contractor shall deliver that form to the Minister, duly completed and executed by the Subcontractor, no later than the time of disclosure to Canada of that Background Information.

9601-6 06 (2001-12-10) Right to License

The Contractor represents and warrants that the Contractor has, or the Contractor shall obtain, without delay, the right to grant to Canada the license to exercise the Intellectual Property Rights in the Foreground Information and the Background Information as required by the Contract.

1. Until the Contractor completes the Work and discloses all of the Foreground Information in accordance with section 02, the Contractor shall not, without the prior written permission of the Minister, sell, assign or otherwise transfer title to the Intellectual Property Rights in any Foreground Information, or license or otherwise authorize the use of the Intellectual Property Rights in any of the Foreground Information by any person.
2. If Canada terminates the Contract in whole or in part for default, or if the Contractor fails to disclose any Foreground Information in accordance with section 02, the Minister may, by notice given not later than ninety (90) days from the date of termination or from the date Canada learns of the failure to disclose, as the case may be, require the Contractor to convey to Canada all of the Intellectual Property Rights in the Foreground Information or, in the case of a notice based on failure to disclose, all of the Intellectual Property Rights in the Foreground Information not disclosed. In the case of either notice, the rights to be conveyed shall include the Intellectual Property Rights in any Foreground Information that have vested or are to vest in a Subcontractor at any tier. In the case of Intellectual Property Rights in Foreground Information which have been sold or assigned to a party other than a Subcontractor at any tier, the Contractor shall not be obligated to convey rights to Canada in accordance with this subsection, but shall pay to Canada on demand an amount equal to the consideration which the Contractor received from the sale or assignment of the Intellectual Property Rights in that Foreground Information or, in the case of a sale or assignment that was not at arm's length, the fair market value of the Intellectual Property Rights in that Foreground Information, in each case including the value of future royalties or license fees.

3. In the event of the issuance by the Minister of a notice under subsection 2, the Contractor shall, at its own expense and without delay, execute such conveyances or other documents relating to title to the Intellectual Property Rights as the minister for whose department or agency the Work is being or was carried out may require, and the Contractor shall, at Canada's expense, afford that minister all reasonable assistance in the preparation of applications and in the prosecution of any applications for, or any registration of, any Intellectual Property Right in any jurisdiction, including without limitation the assistance of the inventor in the case of Inventions.

9601-6 08 (2001-05-25) Sale, Assignment, Transfer or Licensing of Intellectual Property Rights in Foreground Information

1. In any sale, assignment, transfer or license of Intellectual Property Rights in Foreground Information by the Contractor except a sale or license for end use of a product based on Foreground Information, the Contractor shall impose on the other party all of its obligations to Canada in relation to the Intellectual Property Rights in the Foreground Information and any restrictions set out in the Contract on the use or disposition of the Intellectual Property Rights in the Foreground Information (and, if applicable, the Foreground Information), including the obligation to impose the same obligations and restrictions on any subsequent transferee, assignee or licensee.
2. The Contractor shall promptly notify Canada of the name, address and other pertinent information in regard to any transferee, assignee or licensee referred to in subsection 1, and shall ensure that such party is required to do the same with regard to any subsequent transferee, assignee or licensee.
3. The Contractor shall not charge or permit any person to charge a royalty or other fee to Canada in respect of the Intellectual Property Rights in any Foreground Information for purposes of a contract or other arrangement with Canada. Where the contract or other arrangement is for a product based on Foreground Information or on any modification or improvement thereof, the Contractor shall grant to Canada a reasonable credit against its commercial price for that product to take into account Canada's financial contribution toward the development of the product, and in the case of a product owned by a transferee, assignee or licensee of the Intellectual Property Rights in any Foreground Information, the Contractor shall ensure that such party is required to do the same.

9601-6 09 (2001-05-25) Access to Information; Exception to Contractor Rights

1. Subject to the *Access to Information Act*, R.S.C., c. A-1 and to any right of Canada under the Contract to release or disclose, Canada shall not release or disclose outside the Government of Canada any information delivered to Canada under the Contract that is confidential information or a trade secret of the Contractor or a Subcontractor.

Notwithstanding subsection 1, nothing in these terms and conditions shall be construed as limiting Canada's right to exercise the Intellectual Property Rights in any Foreground Information or any Background Information, or to disclose any Foreground Information or any Background Information, to the extent that such information:
 - (a) is or becomes in the public domain, or to the extent that the Contractor does not benefit from or ceases to benefit from any Intellectual Property Rights protection for such information under legislation or at law (other than under the terms of the Contract), for any reason including as a result of Canada's use or disclosure of deliverables under the Contract for any purpose whatever that is not expressly excluded under the Contract;

1. The Contractor shall obtain a written permanent waiver of moral rights (as this term is defined in the *Copyright Act*, R.S.C., c. C-42), in a form acceptable to the Minister, from every author that contributes to any Foreground Information which is subject to copyright protection and which is deliverable to Canada under the terms of the Contract. C0417T (01/12/92) Unscheduled Work and Evaluation Price

In any refit/repair or docking contract, unscheduled work will arise after the vessel and its equipment is opened up and surveyed. Since this work is inevitable, the anticipated cost of such work must be taken into account when evaluating the bids. This is done by including a most likely amount of additional person-hours (and/or material) to which a competitive charge-out rate is applied in dollars, and is added to the firm price for the Work.

The overall total is known as the "Evaluation Price" which is the price used for evaluating the bids. There is no minimum or maximum amount of unscheduled work nor is there a guarantee of such work, but rather it is a most likely work estimate based on historical experience.

Risks arising from work under the contract should be identified and assessed to ensure that the Contractor is adequately and appropriately insured and to protect the interests of Canada.

Contracting officers are advised to establish with their clients, based on the Treasury Board Risk Management Policy, whether or not: (1) the self-underwriting option of Canada is applicable; (2) the Contractor is responsible for the risks; and, (3) commercial insurance is applicable.

G1001D (10/06/05) Contractor's Responsibility

1. It shall be the sole responsibility of the Contractor to decide whether or not any other insurance coverage, in addition to the insurance requirements stipulated in the bid solicitation and resulting contract, is necessary for its own protection or to fulfill its obligations under the Contract. Any such insurance shall be provided and maintained by the Contractor at its own expense.

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. It is highly advisable that all contracts contain clause G1001D. In instances where the insurance provisions do not apply to specific contracts, the following clause should be used instead.

G1005D (10/06/05) Contractor's Responsibility

It shall be the sole responsibility of the Contractor to decide whether or not any insurance coverage is necessary for its own protection or to fulfill its obligations under the Contract and to ensure compliance with required federal, provincial or municipal law. Any such insurance shall be provided and maintained by the Contractor at its own expense.

Any insurance secured is to the benefit and protection of the Contractor and shall not be deemed to release or diminish its liability in any manner including as may be referenced elsewhere by the provision of this Contract.

G1005D (14/05/04) Contractors Responsibility

Effective 10/06/05, this clause is superseded by G1005D.

Commercial General Liability insurance protects the Contractor against claims for damages (principally property damage and bodily injury), the Contractor may cause by negligence in its activities and operations whilst in performance of the Contract.

This clause comprises essential endorsements applicable to government procurement contracts. The noted description of the endorsements convey only the intent of the coverage sought and standard insurance industry wording is the expected requirement.

The contracting officer should also refer to G2015D for important additional endorsements that may apply to specific contracting areas and that are to be individually selected and included in the endorsements found in this clause.

If either the contracting officer or the client believes that the suggested MINIMUM LIMIT of liability of \$2,000,000 per accident or occurrence is not sufficient, alternate limits may be established in consultation with the client and Public Works and Government Services Canada's Risk Management and Insurance Advisory Services at NCR_RMIAS-SCGRA@pwgsc.gc.ca.

G2001D (10/06/05) Commercial General Liability Insurance

1. Commercial General Liability insurance shall be effected by the Contractor and maintained in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but, in

The interest of Canada as additional insured should read as follows: Canada, represented by _____ (**insert client department's name**) and/or Public Works and Government Services Canada.

- (b) Notice of Cancellation or Amendment: The Insurer agrees to provide the Contracting Authority thirty (30) days written notice of policy cancellation.
- (c) Cross Liability: Without increasing the limit of liability, the policy shall protect all insured parties to the full extent of coverage provided. Further, the policy shall apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
- (d) Contractual Liability: The policy shall, on a blanket basis or by specific reference to this Contract, extend to assumed liabilities with respect to contractual insurance provisions.
- (e) Contingent Employer's Liability: To protect the Contractor for liabilities arising in the management and administration of statutory and contractual entitlements of its employees.

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Environmental Impairment Liability insurance protects the Contractor against claims caused by chronic pollution damage to the environment

It is important to note for the purposes of insurance, that the term *pollution* will normally include most waste products. Accordingly, coverage under simple liability policies will thus be excluded. In order to gain this coverage, this clause is used in all cases where the Contractor owns or operates a waste disposal facility.

At times, it is equally effective to simply add endorsement (c) of G2015D to the basic clause G2001D requirement where the Contractor may generate the risk exposure by virtue of the contract but not necessarily be owner or operator of the facilities itself.

The term Contractor's Pollution Liability is also common in the insurance industry for certain regions and equally acceptable.

If either the contracting officer or the client believes that the suggested MINIMUM LIMIT of liability of \$1,000,000 per loss is not sufficient, alternate limits may be established in consultation with the client and Public Works and Government Services Canada's Risk Management and Insurance Advisory Services, at [NCR RMIAS-SCGRA@pwgsc.gc.ca](mailto:NCR_RMIAS-SCGRA@pwgsc.gc.ca).

2. If this is a claims made policy and the duration of the Contract exceeds the policy term; in the event of cancellation or non-renewal of the policy, an Extended Claims Reporting Endorsement, minimum twelve (12) months, must be secured by the Contractor.
3. The following endorsements must be included:
 - (a) Additional Insured: Canada is included as an additional insured, but only with respect to liabilities that may arise from the Contractor's own negligence in the performance of the Contract.

The interest of Canada as additional insured should read as follows: Canada, represented by _____ (**insert client department's name**) and/or Public Works and Government Services Canada.
 - (b) Notice of Cancellation or Amendment: The Insurer agrees to provide the Contracting Authority thirty (30) days written notice of policy cancellation.

(Refer also to procedure 7A.127.)

K2000T (10/12/04) Federal Contractors Program for Employment Equity - \$200,000 or more

1. The Federal Contractors Program for Employment Equity (FCP-EE) requires that some organizations bidding for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity, as a condition precedent to the contract award. If the bidder is subject to the Program, evidence of its commitment must be provided prior to the award of any contract.

Contractors that have been declared "Ineligible Contractors" by the Department of Human Resources and Skills Development (HRSD) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the *Government Contract Regulations* (currently at \$25,000, including all applicable taxes), either as a result of a finding of non-compliance by the Department of HRSD, or following their voluntary withdrawal from the Program for a reason other than the reduction in their workforce. Any bid from ineligible contractors will not be considered for award.

2. The Bidder certifies its status with FCP-EE, as follows:

The Bidder

- (a) () is not subject to FCP-EE, having a workforce of less than 100 permanent full or part-time employees in Canada,
 - (b) () is not subject to FCP-EE, being a regulated employer under the *Employment Equity Act*;
 - (c) () is subject to the requirements of FCP-EE, having a workforce of 100 or more permanent full or part-time employees in Canada, but has not previously obtained a certificate number from the Department of HRSD, (having not bid on requirements of \$200,000 or more), in which case a duly signed certificate of commitment is provided herewith (attached);
 - (d) () is subject to FCP-EE, and has a valid certification number as follows: _____ (e.g. has not been declared "Ineligible Contractor" by the Department of HRSD).
3. If the Bidder does not fall within the exceptions enumerated in 2. (a) or (b), the Program requirements do apply, and as such, the Bidder is required to submit to the Department of HRSD form LAB 1168, Certificate of Commitment to Implement Employment Equity, DULY SIGNED or a valid Certificate number confirming its adherence to the FCP-EE.
 4. The Bidder acknowledges that the Minister shall rely on this certification to award the Contract. Should a verification by the Minister disclose a misrepresentation on the part of the Bidder, the Minister shall have the right to treat any contract resulting from this bid as being in default, and to terminate it pursuant to the Default provisions of the Contract.
 5. In all cases, the Bidder is required to produce evidence or supporting information on demand prior to contract award, if such evidence is not included with its bid.

K2002T (14/05/04) Federal Contractors Program for Employment Equity - over \$25,000 and below \$200,000

Organizations that are subject to the Federal Contractors Program for Employment Equity (FCP-EE) but that have been declared ineligible to receive government contracts of goods and services over the threshold for solicitation of bids as set out in the *Government Contract Regulations* (GCRs) (currently \$25,000, including all applicable taxes) by the Department of Human Resources and Skills Development (HRSD), either as a result of a finding of non-compliance by HRSD, or following their voluntary withdrawal from the FCP-EE for a reason other than a reduction in their workforce, have been advised by HRSD that as a consequence of this action they are no longer eligible to receive any government contract over this threshold. Consequently, their certificate numbers have been cancelled and their names have been placed on HRSD's List of Ineligible Contractors. Bids from such organizations will be considered non-responsive.

The Bidder certifies that it has not been declared "ineligible" by HRSD to receive government contracts over the GCRs threshold for solicitation of bids (currently \$25,000, including all applicable taxes) as a result of a finding of non-compliance, or as a result of having voluntarily withdrawn from the FCP-EE for a reason other than a reduction in their workforce.

The Bidder acknowledges that the Minister shall rely on this certification to award the Contract. K3025D (10/12/04) License to Intellectual Property Rights in Background Information (Contractor Owns)

The Contractor agrees, subject to subsection 4, to make any such Background Information (including, in the case of Software, source code) promptly available to Canada for any such purpose.
 2. The Contractor acknowledges that Canada may wish to award contracts for a purpose contemplated in subsection 1 and that such contract awards may follow a competitive process. The Contractor agrees that Canada's license in relation to the Intellectual Property Rights in Background Information includes the right to disclose the Background Information to bidders for such contracts, and to sublicense or otherwise authorize the use of that information by any contractor engaged by Canada solely for the purpose of carrying out such a contract. Canada shall require bidders and the contractor not to use or disclose any Background Information except as may be necessary to bid for or to carry out that contract.
 3. Where the Intellectual Property Rights in any Background Information are owned by a Subcontractor at any tier, the Contractor shall either obtain a license from that Subcontractor that permits compliance with subsections 1 and 2 or arrange for the Subcontractor to convey directly to Canada the same rights by execution of the form provided for that purpose by the Minister, in which case the Contractor shall deliver that form to the Minister, duly completed and executed by the Subcontractor, no later than the time of disclosure to Canada of that Background Information.
 4. Notwithstanding subsection 1, the license set out therein shall not apply to any Software that is subject to detailed license conditions that are set out elsewhere in the Contract. Furthermore, in the case of commercial off-the-shelf software, the Contractor's obligation to make the source code promptly available to Canada for a purpose set out in subsection 1 shall apply only to source code that is within the control of or can be obtained by the Contractor or any Subcontractor, and in that event the Contractor shall, if requested by Canada, make the source code available to Canada within reasonable delivery times and on reasonable other commercial terms."
2. Subsection 1 of section 10 of supplemental general conditions 9601-6 is deleted and replaced by the following:

"10. Waiver of Moral Rights

 1. The Contractor shall provide to Canada, at the completion of the Work or at such other time as the Minister may require, a written permanent waiver of moral rights (as this term is defined in the *Copyright Act*, R.S. 1985, c. C-42), in a form acceptable to the Minister, from every author that contributed to any Foreground Information which is subject to copyright protection and which is deliverable to Canada under the terms of the Contract."

The following clause may be used in combination with K3002D where the client department wishes to ensure that it obtains a license to exercise all rights comprised in the copyright, if any, in a protected Work arising in the Contractor's performance of the Contract, but does not require a license to exercise any other intellectual property rights arising from the Work under the Contract.

Do not use this clause in conjunction with general conditions 9624.

K3030D (10/12/04) **License to Material Subject to Copyright**

1. In this clause, "Material" means anything that is created or developed by the Contractor as part of the Work under the Contract, and in which copyright subsists.
 2. The Contractor hereby grants to Canada a non-exclusive, perpetual, irrevocable, world-wide, fully-paid and royalty-free license to exercise all rights comprised in the copyright in the Material, for any public purpose.
 3. Copyright in any translation of the Material made by or for Canada shall vest in Canada.
 4. Canada may use independent contractors in the exercise of Canada's license pursuant to this clause.
 5. Canada shall reproduce the Contractor's copyright notice, if any, on all copies of the Material, and Canada shall acknowledge the Contractor's title to the copyright in the original work on all copies of translations of the Material effected by or for Canada.
 6. No restrictions other than those set out in this section shall apply to Canada's use of copies of the Material or of translated versions of the Material.
 7. At the request of the Minister, the Contractor shall provide to Canada, at the completion of the Work or at such other time as the Minister may require, a written permanent waiver of Moral Rights, in a form acceptable to the Minister, from every author that contributed to the Material.

The contracting officer will insert the name of the client department or agency and one or more of the following grounds for Canada ownership, as supplied by the client department or agency (do not include the exception number):

- (6.1) national security;
- (6.2) statutes, regulations or prior obligations of Canada to a third party or parties preclude Contractor ownership of the Intellectual Property Rights in Foreground Information;
- (6.3) the Contractor has declared in writing that the Contractor is not interested in owning the Intellectual Property Rights in Foreground Information;
- (6.4.1) the main purpose of the Contract, or of the deliverables contracted for, is to generate knowledge and information for public dissemination;
- (6.4.2) the main purpose of the Contract, or of the deliverables contracted for, is to augment an existing body of Canada's background information rights as a prerequisite to their planned transfer to the private sector, through licensing or assignment of ownership to another person, for the purposes of commercial exploitation;
- (6.4.3) the main purpose of the Contract, or of the deliverables contracted for, is to deliver a component or subsystem that will be incorporated into a complete system at a later date, as a prerequisite to the planned transfer of the complete system to the private sector, through licensing or assignment of ownership, for purposes of commercial exploitation;

K - General Conditions - Modifications

(6.5) Canada has opted to own the intellectual property rights in any material subject to copyright that is created or developed as part of the Work, with the exception of computer software or any documentation pertaining to such software.

K3200T (30/05/03) Basis for Canada's Ownership of Intellectual Property

The _____ has determined that any intellectual property arising from the performance of the Work under the Contract will vest in Canada, on the following grounds: _____.

K3200T (25/05/01) Basis for Canada's Ownership of Intellectual Property

Effective 30/05/03, this clause is superseded by K3200T.

K3300D (01/12/92) Intellectual Property Rights

This clause is cancelled effective 04/01/94.

K3300D (19/12/91) Intellectual Property Rights

Effective 01/12/92, this clause is superseded by K3300D.

K3301D (01/12/92) Intellectual Property Rights

This clause is cancelled effective 04/01/94.

K3301D (19/12/91) Intellectual Property Rights

Effective 01/12/92, this clause is superseded by K3301D.

K - General Conditions - Modifications

K3302D (01/12/92) Intellectual Property Rights

This clause is cancelled effective 04/01/94.

Remarks: Use the following clause where Canada is to own the foreground information and where supplemental general conditions 9601-7 form part of the Contract, if Canada is prepared, at the time of Contract, to consider granting the Contractor a license to exercise the Intellectual Property Rights in the Foreground Information owned by Canada.

Article 9.1 of the Intellectual Property (IP) Policy states that Canada should not unreasonably refuse to grant a license to the Contractor for the Contractor's use of the Foreground Information.

Article 9.2 of the IP Policy states that where the reason which was invoked for Canada's ownership of the Intellectual Property Rights in the Foreground Information was either:

1. that the main purpose of the Contract, or of the deliverables contracted for, is to augment an existing body of Canada's background information rights as a prerequisite to their planned transfer to the private sector at a later date, through licensing or assignment of ownership to another person, for the purposes of commercial exploitation; or
2. that the main purpose of the Contract, or of the deliverables contracted for, is to deliver a component or subsystem that will be incorporated into a complete system at a later date, as a prerequisite to the planned transfer of the complete system to the private sector, through licensing or assignment of ownership, for purposes of commercial exploitation,

then when Canada grants a license for the Foreground Information, the license must be royalty-free. The following clause applies in those circumstances.

K3305D (10/12/04) License to Intellectual Property Rights in Foreground Information (Royalty Free)

1. Subject to subsection 2, if the Contractor wishes to make use of the Foreground Information for purposes of its commercial exploitation or further development, then the Contractor may make a written request for a license to the minister for whose department or agency the Work is being or was carried out. Such a request should be made within thirty (30) working days following completion of the Work. The Contractor shall give that minister an explanation as to why such a license is required. That minister shall respond in writing to any request for such a license within a reasonable period of time. If the request is refused the response shall provide an explanation for the refusal. Should the minister for whose department the work is being or was carried out agree to grant such a license, it shall be on terms and conditions to be negotiated between the Contractor and that minister.
 2. Where the Work under the Contract involves the preparation of a database or other compilation using information or data supplied by Canada, or personal information (as this term is defined in the *Privacy Act* (R.S.C., c. P-21)) collected by the Contractor as part of the Work, then the license referred to in subsection 1 shall be restricted to the Intellectual Property Rights in Foreground Information that are capable of being exploited without the use of such information or data or personal information.
-

K - General Conditions - Modifications

K3305D (25/05/01) **License to Intellectual Property Rights in Foreground Information (Royalty Free)**

Effective 10/12/04, this clause is superseded by K3305D.

Remarks: Use the following clause where Canada is to own the Foreground Information, if the Crown is prepared, at the time of the Contract, to consider granting the Contractor a license to exercise the Intellectual Property Rights in the Foreground Information owned by Canada, on terms and conditions that could include the payment of a royalty by the Contractor.

Article 9.1 of the Intellectual Property (IP) Policy states that the Crown should not unreasonably refuse to grant a license to the Contractor for the Contractor's use of the Foreground Information. Where the client department is relying on any exception in the IP Policy for Canada's ownership of the Intellectual Property Rights in the Foreground Information other than those exceptions set out in 6.4.2 or 6.4.3 of the IP Policy, or in the event that 6.4.2 or 6.4.3 of the IP Policy was invoked by the Crown but a license is to be granted to the Contractor as part of the transfer of the final product or complete system to the private sector, then the following clause may be used.

K3306D (25/05/01) **License to Intellectual Property Rights in Foreground Information (Possible Royalty)**

1. Subject to subsection 2, if the Contractor wishes to make use of the Foreground Information for purposes of its commercial exploitation or further development, then the Contractor may make a written request for a license to the minister for whose department or agency the Work is being or was carried out. Such a request should be made within thirty (30) working days following completion of the Work. The Contractor shall give that minister an explanation as to why such a license is required. That minister shall respond in writing to any request for such a license within a reasonable period of time. If the request is refused the response shall provide an explanation for the refusal. Should the minister for whose department the work is being or was carried out agree to grant such a license, it shall be on terms and conditions to be negotiated between the Contractor and that minister. It is understood that those terms may include payment of compensation to Canada.
 2. Where the Work under the Contract involves the preparation of a database or other compilation using information or data supplied by Canada, or personal information (as this term is defined in the *Privacy Act* (R.S.C., c. P-21)) collected by the Contractor as part of the Work, then the license referred to in subsection 1 shall be restricted to the Intellectual Property Rights in Foreground Information that are capable of being exploited without the use of such information or data or such personal information.
-

Remarks: Use the following clause only where Canada is to own the Intellectual Property Rights in the Foreground Information pursuant to the terms of the Contract

The following clause may be used where Canada is to own the Intellectual Property Rights in the Foreground Information but Canada is prepared to license the Contractor to exercise same.

Add the following clause if the Contractor is not to be permitted to sub-license the use of the Foreground Information.

K3310D (25/05/01) **No Right for Contractor to Sub-license**

The Contractor shall not have the right to sub-license or otherwise authorize any party to exercise any of the Intellectual Property Rights in the Foreground Information.

K - General Conditions - Modifications

K3310D (01/12/00) No Right for Contractor to Sub-license

Effective 25/05/01, this clause is superseded by K3310D.

Remarks: Use the following clause where Canada will own the foreground information pursuant to supplemental general conditions 9601-7 or clause K3410D, where K3305D or K3306D will be used and where the client department is, at the time of the Contract, prepared to grant the Contractor access to Canada-owned information for purposes of Contractor's further development or commercial exploitation of the foreground information, where such development and commercial exploitation is permitted under license from Canada. Such a license to Canada-owned information would be negotiated separately between Canada and the Contractor, for purposes of the commercial exploitation of the foreground information.

If appropriate, replace "certain Canada-owned information" by a list of specific items Canada may be willing to licence to the Contractor.

K3315D (10/12/04) License to Intellectual Property Rights in Canada-owned Information

If the Contractor wishes to make use of certain Canada-owned information for purposes of the commercial exploitation or further development of the Foreground Information, and where Canada has granted or grants a license to the Intellectual Property Rights in the Foreground Information for such purposes, then the Contractor may make a written request for a license to exercise the required Intellectual Property Rights in such Canada-owned information, to the minister for whose department or agency the Work is being or was carried out. The Contractor shall give that minister an explanation as to why such a license is required. That minister shall respond in writing to any request for such a license within a reasonable period of time. Should the minister for whose department the Work is being or was carried out agree to grant such a license, it shall be on terms and conditions to be negotiated between the Contractor and that minister. It is understood that those terms may include payment of compensation to Canada.

K3315D (25/05/01) License to Intellectual Property Rights in Canada-owned Information

Effective 10/12/04, this clause is superseded by K3315D.

Remarks: Use this clause where the Contractor is engaged to, essentially, produce a new product and where the Responsible Department has determined that it wishes to have a broader license to the Contractor's Background Information to allow for further development of that product, including, possibly, production of it for Canada's use.

K3320D (10/12/04) License to Intellectual Property Rights in Background Information

"04 License to Intellectual Property Rights in Background Information

1. Without restricting the scope of any license or other right in the Background Information that Canada may otherwise hold, the Contractor hereby grants to Canada a non-exclusive, perpetual, irrevocable, worldwide, fully-paid and royalty-free license to exercise such of the Intellectual Property Rights in any Background Information incorporated into the Work or necessary for the performance of the Work as may be required in order for Canada to exercise its Intellectual Property Rights in the Foreground Information. The Contractor agrees, subject to subsection 4, to make any such Background Information (including, in the case of Software, source code) promptly available to Canada for any such purpose.
2. The Contractor acknowledges that Canada may wish to award contracts for a purpose contemplated in subsection 1 and that such contract awards may follow a competitive process. Canada shall require bidders and the Contractor not to use or disclose any Background Information except as may be necessary to bid for or to carry out that contract.
3. Where the Intellectual Property Rights in any Background Information are owned by a Subcontractor at any tier, the Contractor shall either obtain a license from that Subcontractor that permits compliance with subsections 1 and 2 or arrange for the Subcontractor to convey directly to Canada the same rights by execution of the form provided for that purpose by the Minister, in which case the Contractor shall deliver that form to the Minister, duly completed and executed by the Subcontractor, no later than the time of disclosure to Canada of that Background Information.
4. Notwithstanding subsection 1, the license set out therein shall not apply to any Software that is subject to detailed license conditions that are set out elsewhere in the Contract. Furthermore, in the case of commercial off-the-shelf software, the Contractor's obligation to make the source code promptly available to Canada for a purpose set out in subsection 1 shall apply only to source code that is within the control of or can be obtained by the Contractor or any subcontractor, and in that event the Contractor shall, if requested by Canada, make the source code available to Canada within reasonable delivery times and on reasonable other commercial terms."

K3405D (01/12/00) Foreground Information Licence Amendment

Effective 25/05/01, this clause is superseded by K3405D.

Remarks: Use the following clause in conjunction with general conditions 9624, General Conditions - Research & Development, where Canada is to own the foreground information.

K3410D (30/05/03) Canada to Own Intellectual Property Rights in Foreground Information

1. The general conditions 9624, General Conditions - Research & Development, are amended by deleting the sections entitled "Contractor to Own Intellectual Property Rights in Foreground Information"; "License to Intellectual Property Rights in Foreground Information"; "License to Intellectual Property Rights in Background Information"; "Right to License"; "Transfer of Intellectual Property Rights in Foreground Information"; "Sale, Assignment, Transfer or Licensing of Intellectual Property Rights in Foreground Information"; "Access to Information; Exception to Contractor Rights" and subsection 22(2) of "Disclosure of Foreground Information" in their entirety. This section applies in lieu of those sections.

[Canada to Own Intellectual Property Rights in Foreground Information]

Without affecting any Intellectual Property Rights or interests therein that have come into being prior to the Contract, all Intellectual Property Rights in the Foreground Information shall immediately, as soon as they come into existence, vest in and remain the property of Canada. The Contractor shall have no right in or to any such Intellectual Property Rights in the Foreground Information except any right that may be granted in writing by Canada.

The Contractor shall not dispose of such information or data or personal information except by returning it to Canada. The Contractor shall comply with the General Conditions of the Contract in regard to maintaining the confidentiality of such information, data, or personal information. Unless the Contract otherwise expressly provides, the Contractor shall deliver to Canada all such information, data, or personal information, together with every copy, draft, working paper and note thereof that contains such information, data, or personal information upon completion or termination of the Contract or at such earlier time as the Minister may require.

- (b) For greater certainty and without limiting paragraph 4.(a), if the Work under the Contract involves the collection of personal information as that term is defined in the *Privacy Act* (R.S., c. P-21), then all Intellectual Property Rights in and title to that personal information shall, immediately upon the collection of it by the Contractor, vest in Canada, and the Contractor shall have no right or interest in it.
5. The Contractor shall execute such conveyances or other documents relating to the Intellectual Property Rights in the Foreground Information as the minister for whose department or agency the Work is being or was carried out may require, and the Contractor shall, at Canada's expense, afford that minister all reasonable assistance in the preparation of applications and in the prosecution of any applications for registration of any Intellectual Property Right in any jurisdiction, including without limitation the assistance of the inventor in the case of Inventions.

[License to Intellectual Property Rights in Background Information]

6. Without restricting the scope of any license or other right in the Background Information that Canada may otherwise hold, the Contractor hereby grants to Canada a non-exclusive, perpetual, irrevocable, worldwide, fully-paid and royalty-free license to exercise such of the Intellectual Property Rights in any Background Information incorporated into the Work or necessary for the performance of the Work as may be required in order for Canada to exercise its Intellectual Property Rights in the Foreground Information. The Contractor agrees, subject to subsection 9, to make any such Background Information (including, in the case of Software, source code) promptly available to Canada for any such purpose.
7. The Contractor acknowledges that Canada may wish to award contracts for a purpose contemplated in subsection 6 and that such contract awards may follow a competitive process. The Contractor agrees that Canada's license in relation to the Intellectual Property Rights in the Background Information includes the right to disclose the Background Information to bidders for such contracts and to sublicense or otherwise authorize the use of that information by any contractor engaged by Canada solely for the purpose of carrying out such a contract. 8. Where the Intellectual Property Rights in any Background Information are owned by a Subcontractor at any tier, the Contractor shall either obtain a license from that Subcontractor that permits compliance with subsections 6 and 7 or arrange for the Subcontractor to convey directly to Canada the same rights by execution of the form provided for that purpose by the Minister, in which case the Contractor shall deliver that form to the Minister, duly completed and executed by the Subcontractor, no later than the time of disclosure to Canada of that Background Information.

A-1) and to any right of Canada under the Contract to release or disclose, Canada shall not release or disclose outside the Government of Canada any Background Information delivered to Canada under the Contract that is confidential information or a trade secret of the Contractor or a Subcontractor.
12. Nothing in these terms and conditions shall be construed as limiting Canada's right to exercise the Intellectual Property Rights in any Background Information, or to disclose any Background Information, to the extent that such information:
 - (a) is or becomes in the public domain, or to the extent that the Contractor does not benefit from or ceases to benefit from any intellectual property rights protection for such information under legislation or at law (other than under the terms of the Contract), for any reason including as a result of Canada's use or disclosure of deliverables under the Contract for any purpose whatever that is not expressly excluded under the Contract;
 - (b) is or becomes known to Canada from a source other than the Contractor, except from any source that is known to Canada to be under an obligation to the Contractor not to disclose the information;
 - (c) is independently developed by or for Canada; or

K3410D (10/12/01) Canada to Own Intellectual Property Rights in Foreground Information

Effective 30/05/03, this clause is superseded by K3410D.

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use the following clause where the Contractor is to be required to exploit the Intellectual Property in the Foreground Information in Canada. With some deletions and minor changes, this clause can also be used to require commercial exploitation within a specified time, in Canada or elsewhere. *See Legal Services about the advisability of including this clause.*

IMPORTANT NOTE: The following clause, "Commercialization in Canada", must not be used in a contract for the procurement of goods or services which is subject to the procurement disciplines of either the World Trade Organization - Agreement on Government Procurement (WTO-AGP) or the North American Free Trade Agreement (NAFTA). Any use of this provision which is not prohibited pursuant to the WTO-AGP or the NAFTA should be tailored to the specific circumstances of the situation as the clause may be difficult to enforce or may impose impractical restrictions on the Contractor's commercialization and thus may result in the Contractor failing to commercialize the IP. Furthermore, the use of the clause will require on-going monitoring by the client department.

K3415D (25/05/01) Commercialization in Canada

1. In consideration of the Contractor receiving title to the Intellectual Property Rights in the Foreground Information, the Contractor agrees that manufacture of any product incorporating or derived from the Foreground Information will be done substantially in Canada and that the provision of any service incorporating or derived from the Foreground Information will be substantially from a base in Canada, and that such a product or such a service will be marketed and sold within ____ months after final payment under the Contract is made to the Contractor.
2. The Contractor shall have satisfied the obligation in subsection 1 in relation to any part of the Foreground Information if a product manufactured substantially in Canada or a service provided

K - General Conditions - Modifications

substantially from a base in Canada that incorporates or is derived from that part of the Foreground Information is being offered for general sale by the Contractor or its transferee, assignee or licensee, and at least one arm's-length sale has been made (other than a sale from a transferee, assignee or licensee to the Contractor, or vice-versa). The minister for whose department or agency the Work is being or was carried out may accept other evidence as demonstrating satisfaction of the obligation. When the obligation has been satisfied in relation to any part of the Foreground Information, the obligation shall cease to apply to that part of the Foreground Information.

3. If, ___ months before the end of the period specified in subsection 1, the obligation to market and sell a product or service as set out in that subsection has not yet been satisfied in relation to any part of the Foreground Information, the Contractor shall immediately submit to the minister for whose department or agency the Work is being or was carried out a report setting out:
- (a) a description of the efforts that have been and will be made by the Contractor or its transferee, assignee or licensee to satisfy the obligation; and
 - (b) the reasons why the obligation has not been satisfied.

4. At the expiration of the period specified in subsection 1, if the minister for whose department or agency the Work is being or was carried out is satisfied that the Foreground Information is capable of commercial exploitation in Canada but that
- (a) the Contractor (or its transferee, assignee or licensee) is incapable of achieving that; or
 - (b) the Contractor has not made every reasonable effort to fulfil the obligation;

then that minister may invoke either of the remedies set out in subsection 6. If that minister is satisfied that the potential value to Canada of commercial exploitation of the Foreground Information substantially in Canada so justifies, that minister may extend the time for the Contractor to fulfil the obligation by such period as that minister may decide. In any other circumstance, the obligation shall cease to apply to that part of the Foreground Information.

5. The Contractor agrees that any of the following, affecting any part of the Foreground Information, would constitute a breach of the Contractor's obligation entitling the minister to exercise, in relation to that part of the Foreground Information, the option to collect the liquidated damages provided for in the Contract for such a breach (if any), or, without prejudice to any other remedy that may be available at law or under the Contract, to exercise a remedy set out in subsection 6:
- (a) the Contractor or any affiliate, subcontractor or agent of the Contractor manufactures outside Canada a product incorporating or derived from the Foreground Information without that product also being manufactured substantially in Canada, or provides from a base outside Canada a service incorporating or derived from the Foreground Information without that service also being provided substantially from a base in Canada;
 - (b) through the act or omission, whether direct or indirect, and whether deliberate or negligent, of the Contractor or its employee or subcontractor (including the sale or assignment of the Foreground Information or license or other authorization of the use of the Foreground Information), any person, corporation or other entity is enabled to manufacture outside Canada a product incorporating or derived from the Foreground Information without that product also being manufactured substantially in Canada, or to provide from a base outside Canada a service incorporating or derived from the Foreground Information without that service also being provided substantially from a base in Canada;
 - (c) the Contractor or its transferee or assignee, or a controlling interest in the Contractor or its transferee or assignee, is acquired by a person not resident in Canada or by a corporation or other entity controlled outside of Canada, and that person, corporation or other entity does not enter into an agreement with the minister for whose department or agency the Work is being or was carried out governing the use of the Foreground Information, promptly and before a breach described in paragraph (a) or (b) has occurred; or
 - (d) to the extent permitted by the laws of Canada or a Canadian province, the Contractor or its transferee or assignee becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent

K - General Conditions - Modifications

debtors, or the Contractor, its transferee or assignee suffers the appointment against it of a receiver under a debt instrument or by a court, or an order is made or a resolution passed for the winding up of the Contractor, its transferee or assignee.

6. Where this subsection applies by virtue of subsection 4 or 5, the minister for whose department or agency the Work is being or was carried out may, by notice, either
- (a) require the Contractor to assign or transfer to Canada at no cost the Intellectual Property Rights in the Foreground Information, or
 - (b) require the Contractor to provide to one or more persons, corporations or other entities specified by that minister at no cost a non-exclusive, perpetual, unconditional, irrevocable, world-wide, and royalty-free license permitting the commercial exploitation of the Intellectual Property Rights in the Foreground Information, including the right to further develop the Foreground Information and to own the Intellectual Property Rights in any such further development.

The Contractor agrees that it will promptly execute such conveyances or other documents relating to title or licensing as the said minister may require, and that it will afford that minister or a licensee, as the case may be, at that party's expense all reasonable assistance in the preparation of applications and in the prosecution of any application for registration of any Intellectual Property Rights in any jurisdiction arising out of the Foreground Information, including without limitation the assistance of the inventor in the case of Inventions.

7. In the event that a breach described in paragraph (a), (b) or (c) of subsection 5 occurs, in addition to all other remedies available to Canada at law or under the terms of the Contract, the Contractor shall upon demand account for and pay to Canada any net revenues earned by the Contractor as a result of the breach.

K3415D (04/01/94) Commercialisation in Canada

Effective 25/05/01, this clause is superseded by K3415D.

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use the following clause if the Contractor is to be liable for liquidated damages in the event that the Foreground Information is exploited outside of Canada. If there will be more than one item of foreground information with separate commercial potential, separate damages should be specified for each. See Lega Services regarding the evaluation of the amount of damages to be inserted.

K3420D (04/01/94) Liquidated Damages

The Contractor agrees that Canada would suffer actual damages as a result of a breach, described in paragraph 5(a), (b) or (c) of clause K3415D, of the obligation set out in subsection 1. of clause K3415D, and that such damages are likely to be extremely difficult to quantify. In the event that such a breach occurs, the Contractor agrees to pay to Canada liquidated damages in the amount of \$ _____. Canada and the Contractor agree that the foregoing amount is their best estimate of the amount of damages that Canada would suffer, and that it is not intended to be, nor is it to be construed as, a penalty.

K - General Conditions - Modifications

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use this clause only in bid solicitations where the bidder must have access to information that is confidential or proprietary to Canada or a third party. In the case of third party information, the contracting officer must ensure that Canada has the contractual right to disclose that information to bidders.

K4000D (16/12/05) Canadian Content Definition

1. **Canadian good:** A good wholly manufactured or originating in Canada is considered a Canadian good. A product containing imported components may also be considered Canadian for the purpose of this policy when it has undergone sufficient change in Canada, in a manner that satisfies the definition specified under the North American Free Trade Agreement Rules of Origin (see *Supply Manual*, Annex 5.5: <http://www.pwgsc.gc.ca/acquisitions/text/sm/chapter05-e.html#annex5.5>).

For the purposes of this determination, the reference in the NAFTA Rules of Origin to "territory", is to be replaced with "Canada". For photocopiers, computers and office equipment within Federal Supply Classification (FSC) groups 36, 70 and 74, only the products of MERIT/CIRCLE firms or companies in Priority Group 1 prior to April 1992 are considered Canadian (see paragraph 7.(a)).
2. **Canadian service:** A service provided by an individual based in Canada is considered a Canadian service. Where a requirement consists of only one service, which is being provided by more than one individual, the service will be considered Canadian if a minimum of 80 percent of the total bid price for the service is provided by individuals based in Canada.
3. **Variety of goods:** When requirements consist of more than one good:
 - (a) aggregate evaluation: no less than 80 percent of the total bid price must consist of Canadian goods; or,
 - (b) item by item evaluation: in some cases, the bid evaluation may be conducted on an item-by-item basis and contracts may be awarded to more than one supplier. In these cases, suppliers will be asked to identify separately each item that meets the definition of Canadian goods.
4. **Variety of services:** For requirements consisting of more than one service, a minimum of 80 percent of the total bid price must be provided by personnel based in Canada.
5. **Mix of goods and services:** When requirements consist of a mix of goods and services, no less than 80 percent of the total bid price must consist of Canadian goods and services (as defined above).

K - General Conditions - Modifications

6. Annex 7.8 of the *Supply Manual* (<http://www.pwgsc.gc.ca/acquisitions/text/sm/chapter07-e.html#annex7.8>) shows how Canadian content is determined for a mix of goods, a mix of services or a mix of goods and services.
7. Other Canadian goods and services:
 - (a) **CIRCLE Canada and MERIT Partnership Program:** For photocopiers, computers and office equipment within FSC groups 36, 70 and 74, only the products of the following firms are considered Canadian goods:
 - (i) MERIT Partner under the MERIT Partnership Program (<http://strategis.ic.gc.ca/epic/internet/inict-tic.nsf/en/it04598e.html>) (administered by Industry Canada [IC] and Public Works and Government Services Canada [PWGSC]);
 - (ii) Companies which, on March 31, 1992, were allocated to Priority Group 1 under the Priority Groups Policy in effect at that time; or
 - (iii) CIRCLE Canada (<http://strategis.ic.gc.ca/epic/internet/inict-tic.nsf/en/it04597e.html>) companies as agreed on by IC and PWGSC.
 - (b) **Textiles:** Textiles are considered to be Canadian goods according to a modified rule of origin, copies of which are available from the Clothing and Textiles Division, Logistics, Electrical, Fuel and Transportation Directorate.

This Contract is a "defence contract" within the meaning of the *Defence Production Act*, R.S.C. 1985 c.D-1. In accordance with the provisions of section 20 of that Act, title to any government issue (as defined in that Act) furnished or made available to the Contractor or obtained or constructed by it with money provided by Canada remains vested or vests in Canada free and clear of all claims, liens, charges and encumbrances. Notwithstanding any law in force in any province or any territory of Canada but subject to the provisions of this Contract, Canada is entitled, at any time, to remove, sell or dispose of the Government Issue. Without restricting the generality of the foregoing, in the event of default by the Contractor, Canada, or its agents, shall have the immediate right to enter the shipyard, without first obtaining a court order, and to take possession of the "Vessel" and all other property of Canada, including, but not limited to, work-in-process located on the premises, and to perform any further work required to enable the "Vessel", and other such property, to be removed from the shipyard.

1. Interpretation

- 1.1 "day" means any period 24 consecutive hours;
- 1.2 "month" means any period of 30 consecutive days; and
- 1.3 "flight" means the movement of an aircraft from the point of take-off to the first point of landing.

2. Operation, Interruption or Cancellation of Charter Flights

- 2.1 The Carrier shall have exclusive operational control over chartered aircraft and the contents and crew thereof.
- 2.2 Every person who is provided with transportation on a chartered aircraft shall comply with all the terms and conditions of the contract, and all persons and property aboard a chartered aircraft shall be subject to the authority of the pilot-in-charge.
- 2.3 The Carrier may:
 - (a) cancel or terminate a charter or any flight of a charter at any time,
 - (b) return to base or to the last point of landing, or
 - (c) divert or land at an intermediate point,

when such action is deemed by the Carrier to be necessary owing to the unserviceability of the aircraft, weather conditions or other conditions beyond the control of the Carrier.

K - General Conditions - Modifications

3. Dangerous Goods

The Charterer and the Carrier shall comply with the applicable governmental regulations governing the carriage of dangerous goods.

4. Space for the Carrier's Use

Any capacity in the chartered aircraft not being utilized by the Charterer may, unless the Charterer objects, be used by the Carrier for the carriage of its own personnel, baggage or goods.

5. Cancellations, Non-Completions or Deviations

5.1 When a charter is cancelled by the Carrier after commencement, charges shall be charged for the completed portion only.

5.2 No charges shall be charged to the Charterer:

- (a) where flights are not completed due to mechanical failure or crew casualties and the Carrier fails to arrange satisfactory alternative transportation; or
- (b) in respect of any flying in an unsuccessful attempt to complete a flight required under the charter, unless the Charterer, his servant or agent agreed to such flying being done.

6. Substitution of Aircraft

6.1 When, owing to causes beyond the control of the Carrier, the chartered aircraft is unavailable at the time the charter commences or becomes unavailable while carrying out the charter, the Carrier may furnish another aircraft of the same type or, with the consent of the Charterer, substitute any other type of aircraft at the rates and charges applicable to the aircraft originally chartered except as provided in subsections 6.2 and 6.3.

6.2 When a substituted aircraft is capable of a larger payload than the aircraft originally chartered, the payload carried in the substituted aircraft shall not be greater than the payload that would have been available in the aircraft originally chartered, unless the Charterer agrees to pay the rates and charges applicable to the substituted aircraft.

6.3 When the maximum payload of a substituted aircraft is smaller than the maximum payload of the aircraft originally chartered, charges shall be based on the rates and charges applicable to the type of substituted aircraft, except that where such rates and charges are higher than those for the aircraft originally chartered, the rates and charges for the original aircraft chartered shall apply.

7. Determination of Firm Rate Per Hour

7.1 Except as provided in subsection 7.2, the hours and minutes for which a charge is made shall be computed from the time the aircraft leaves the surface of the earth and terminating when the aircraft touches the surface of the earth at the next point of landing. The term "*Firm Rate Per Hour*" is an hourly charge or portion thereof of "*Air Time*" as defined in the Canadian Aviation Regulations, Part VIII, Air Navigation Services, and will be the basis of calculating charges for air services.

7.2 When operations involve a continuous succession of flights, each of less than ten (10) minutes duration, and the engine is not shut down between such flights, air time shall be computed from the time the aircraft leaves the surface of the earth for the first flight and ceases when the aircraft touches the surface of the earth at the final point of landing.

7.3 In determining the duration of a flight:

- (a) each fraction of an hour shall be stated as a decimal, established on the basis of a six minute period,
- (b) each period of less than three minutes shall be rounded to zero, and
- (c) each period of between three and six minutes shall be rounded to six minutes,

except that no flight shall be considered to have a duration of less than 0.1 hour.

9. Methods of Measuring Distance Fixed Wing Only

- 9.1 When a flight is required to be flown over airways routes or routes prescribed by the Department of Transport, the distances shall be measured in straight lines along such routes.
- 9.2 The distances of flights, other than a flight referred to in subsection 9.1, shall be measured in a straight line between the places of commencement and termination of the work provided for in the charter, using standard 8 miles to 1 inch aeronautical charts of the National Topographic Series, as issued by the Department of Natural Resources, Ottawa.

Remarks: Use the following clause in all Requests for a Standing Offer where form PWGSC-TPSGC 944, Call-up Against Multiple Standing Offers, (*french version is also available - PWGSC-TPSGC 945*) is to be used as a call-up document in addition to the current PWGSC-TPSGC 942, Call-Up Against a Standing Offer. Should an offeror not agree that its agent may represent the holder of a standing offer other than itself and that its prices may appear on a multiple call-up form, then the clause should not be included in any subsequent standing offer and call-up authority for that offer.

Only one invoice will be issued per call-up. Call-ups issued using form PWGSC-TPSGC 944 are not, under any circumstances, to be issued in order to prevent competition.

The purpose of form PWGSC-TPSGC 944 is to allow an identified user to issue a single call-up against various standing offers (not to exceed \$40,000) to a single supplier who is the authorized agent of different offerors, when those offerors each hold a valid standing offer with Canada for identified goods.

2. The Offeror agrees to the disclosure of its prices and further agrees that it shall have no right to claim against Canada, the Minister, the Identified User, their employees, agents or servants, or any of them, in relation to such disclosure. The Offeror shall also indemnify Canada, the Minister, the Identified User, their employees, agent or servants, and any of them, against any action, suit, demand, right or claim asserted by anyone as a result of such disclosure.
3. The Offeror is responsible for delivery in the event of default by the agent for those products only that are normally offered by the Offeror.
4. The Identified User agrees that if the agent defaults on one or more items, the call-up using PWGSC-TPSGC 944, Call-Up Against Multiple Standing Offers, cannot be terminated in whole, but only for those portions relating to goods or services specified in the particular Standing Offer to which the default relates and only after the Offeror has been provided with a reasonable opportunity to remedy the default.

Section 5

N - Limitation of Liability

N - Limitation of Liability

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use the following clause ONLY in Information Management or Information Technology contracts that come within the Treasury Board Special Authority to Public Works and Government Services Canada (PWGSC). (See the Deskbook, Appendix A, Commodity Groupings Risk Table.)

Contracting officers should consult Legal Services for a possible adjustment to paragraph 2.(a) if the contract is a defence contract in which the powers under section 22 of the *Defence Production Act* are invoked.

If the contract is for telecommunications services regulated by a tariff established by the Canadian Radio-Television and Telecommunications Commission, some of these provisions will be overridden by the tariff. (See *Legal Services for details*.)

1. For Informatics Professional Services (IPS) contracts and call-ups against Standing Offers with values below the NAFTA threshold:

The liability of contractors to the Crown for losses they cause to the Crown and third parties is specified in the clause below. The contract should not include any insurance conditions. The Crown will rely on the protection provided by the clause below.

2. For contracts and call-ups against standing offers, including IPS procurements with value above the NAFTA threshold:

Where this clause is used, the resulting contract must include an insurance covenant as recommended by PWGSC departmental policy, which will require at minimum a specified insurance limit, coverage commensurate with the type of contract (Commercial General Liability and / or Errors and Omissions coverage) and other related insurance clauses as required. Either a Certificate of Insurance or an equivalent letter of self-insurance will be required for all contracts in which this clause is used. Please contact PWGSC's Risk Management and Insurance Advisory Services, at 819-956-7379.

N0000D (10/12/04) Limitation of Liability - Information Management of Information Technology

1. **Liability of Canada and the Contractor to Third Parties:** Each Party to this Contract agrees it is responsible to any third party for injury or losses that the third party may suffer to the extent such Party to this Contract caused them, where the third party has a cause of action directly against that Party in respect of the injury or losses. The Parties agree that with respect to such third party claims against the Contractor, the Contractor shall be responsible for damages arising out of the injury or losses to the extent that it caused them, including those situations where Canada may be required to pay the damages caused by the Contractor as a result of joint and several liability. With respect to third party claims where the third party does not have a cause of action directly against the Party causing the damage, this subsection 1 does not prevent or restrict in any way Canada's right to pursue and enforce any rights that it may have against the Contractor. In the event of any conflict between this subsection 1 and any other subsection of this clause, this subsection 1 shall prevail.
2. **Extent of Contractor's Liability for Damages:** Regardless of the basis on which Canada may be entitled to claim damages from the Contractor (whether in contract, tort or any other cause of action), the Contractor is liable to Canada only for the following:
 - (a) all damages and costs resulting from intellectual property right infringement as set out in this Contract;
 - (b) all damages for physical injury, including death, caused by the Contractor, its employees, agents or subcontractors;
 - (c) all direct damages for loss of or physical harm to tangible property and real property caused by the Contractor, its employees, agents or subcontractors;
 - (d) all damages for breach of confidentiality;

N - Limitation of Liability

- (e) all damages arising from claims for liens, attachments, charges or other encumbrances or claims upon or in respect of any materials, parts, work-in-process or finished work furnished to, or in respect of which any payment has been made by, Canada, provided that this paragraph does not apply to claims of intellectual property infringement which claims are covered in paragraph 2. (a) above; and,
- (f) any other direct damages caused by the Contractor, its employees, agents or subcontractors in relation to this Contract, including reprourement costs as defined below, and restoration of records to the extent that the Contractor fails to comply with subsection 4 below, up to an aggregate maximum for this paragraph 2. (f) of the greater of _____ (Insert risk factor, to be determined as per the applicable Commodity Groupings Risk Table) times the total estimated cost, or \$1,000,000.

However, if the Contract is primarily for the provision of maintenance services or for the license of software, and the payments under the Contract are to be made on a recurring basis such as an annual or monthly fee, then the aggregate maximum for this paragraph 2. (f) will be the greater of the total estimated cost times _____ (insert risk factor to be determined as per the applicable Commodity Groupings Risk Table) divided by the total time period of the Contract in whole years, or \$1,000,000.

- 3. The Contractor shall not be liable to Canada for the following:
 - (a) damages of third parties claimed against Canada except those referred to in paragraphs 2. (a), (b), (c), (d) or (e) above;
 - (b) harm to Canada's records or data, except for the restoration set out in subsection 4 below, and subject to the limitation set out in paragraph 2. (f) above; or
 - (c) special, indirect or consequential damages (other than the payments referred to in paragraph 2. (a) above, and the damages referred to in paragraph 2. (b) above), even if the Contractor is made aware of the potential for such damages, including lost profits and lost savings.
- 4. Canada is responsible for maintaining adequate backup of its records and data to enable their restoration if needed for any reason. If Canada's records or data are harmed by the Contractor's or a subcontractor's negligence or willful act, the Contractor is responsible for restoring Canada's records and data to the same state as in the last available backup copy.
- 5. For the purposes of this clause:
 - (a) "total estimated cost" shall mean the dollar amount shown on the first page of the Contract in the cell titled "Total Estimated Cost";
 - (b) "reprourement costs" shall mean all identifiable direct costs incurred by Canada to reprocore the Work with another contractor, including deinstallation and return of the Work to the Contractor, administrative costs of selecting another contractor or retendering all or part of the Contract, as applicable, and any increase in the price payable by Canada for the other Work having equivalent functionality, performance and quality; and
 - (c) the term "Contract" shall apply to stand-alone contracts, and to each call-up, purchase order and other contractual document, irrespective of its title, issued under a Standing Offer or a Supply Arrangement.

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use the following clause when limiting a Contractor's liability to the Crown and remaining silent on Contractor's liability for third party claims. Typically, this clause would be used in conjunction with the commodity groupings, (other than Information Management or Information Technology which has its own clause) or after a risk assessment has been performed to determine the risk exposure and amount of protection required by the Crown.

N - Limitation of Liability

Limiting a Contractor's liability should be an exception to the normal practice of using the standard terms and conditions. When the decision is made to limit a contractor's liability to the Crown, contracting officers, in conjunction with client departments, must be able to demonstrate that the risks associated with the procurement have been analyzed and that the limitation of liability provides adequate protection to the Crown. Decisions with respect to limiting a Contractor's liability should be made prior to the Request for Proposal release or in instances of sole source contracts, prior to the start of negotiations.

N0001D (10/12/04) Limitation of Liability - Limits First Party and Remains Silent on Third Party Claims

1. Notwithstanding any other clause in the Contract but subject to the remaining provisions of this clause, the Contractor's total cumulative liability to Canada for all losses or damage suffered by Canada as a result of all breaches of the Contractor's obligations under the Contract or the faulty carrying out of the Contract (including any such liability in tort, negligence or any other cause of action) shall be limited to _____ (**insert \$ amount**) **

**** Note:** It is preferable to add the following wording for multi year service contracts: "for losses or damage caused in any one year of carrying out of the Contract, each such year starting on the date of coming into force of the Contract or its anniversary".

2. The foregoing limitation shall not apply:
 - (a) to any breach of the repair or replacement or rework warranty obligations of the Contract;
 - (b) to any breach of intellectual property rights that results in Canada losing in whole or in part the enjoyment of anything delivered under the Contract; or
 - (c) to any liability of Canada to a third party.

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use the following clause when limiting a Contractor's liability to the Crown and requiring the Contractor to indemnify the Crown against third party claims. Typically, N0001D is used when a Contractor's first party liability is limited and third party is unlimited. N0001D relies on the law to protect the Crown against third party claims, whereas this clause states the Crown's position with respect to third party claims.

Limiting a Contractor's liability should be an exception to the normal practice of using the standard terms and conditions. When the decision is made to limit a Contractor's liability to the Crown, contracting officers, in conjunction with client departments, must be able to demonstrate that the risks associated with the procurement have been analyzed and that the limitation of liability provides adequate protection to the Crown. Decisions with respect to limiting a Contractor's liability should be made prior to the Request for Proposal release or in instances of sole source contracts, prior to the start of negotiations.

N0002D (10/12/04) Limitation of Liability - Limits First Party and Indemnifies the Crown Against Third Party Claims

1. Notwithstanding any other clause in the Contract but subject to the remaining provisions of 1 and 2 of this clause, the Contractor's total cumulative liability to Canada for all losses or damage suffered by Canada as a result of all breaches of the Contractor's obligations under the Contract or the faulty carrying out of the Contract (including any such liability in tort, negligence or any other cause of action) shall be limited to _____ (**insert \$ amount**) **

**** Note:** It is preferable to add the following wording for multi year service contracts: "for losses or damage caused in any one year of carrying out of the Contract, each such year starting on the date of coming into force of the Contract or its anniversary".

The foregoing limitation shall not apply:

N - Limitation of Liability

- (a) to any breach of the repair or replacement or rework warranty obligations of the Contract,
 - (b) to any breach of intellectual property rights that results in Canada losing in whole or in part the enjoyment of anything delivered under the Contract, or
 - (c) to any liability of Canada to a third party.
2. The Contractor agrees to indemnify and save harmless Canada, the Minister and their servants and agents from and against any claim, action, suit or other proceeding or any loss or damage for which they or any of them may be liable to another person arising out of the Contractor's faulty carrying out of or breach of the Contract, except that Canada and the Minister shall not claim such indemnity to the extent that the loss or damage has been caused by Canada. The Minister shall give notice to the Contractor of any such claim, action, suit or proceeding and the Contractor shall, to the extent requested by the Attorney General of Canada, at its own expense participate in or conduct the defence of the claim, action, suit or proceeding and any negotiations for settlement of the same with all reasonable assistance and co-operation by Canada, but the Contractor shall not be liable to indemnify Canada for payment of any settlement unless it has consented to the settlement.

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use the following clause when limiting a Contractor's liability to the Crown for first and third party claims. Limiting a contractor's liability to the Crown should be an exception to the normal practice of using the standard terms and conditions. Limiting a Contractor's liability to the Crown for third party claims should be avoided at all costs, as the exposure of risk to the Crown could be astronomical. Limiting a contractor's third party liability can only be done under a very limited number of circumstances, the main one being sole source contracts.

When the decision is made to limit a Contractor's liability to the Crown, contracting officers, in conjunction with client departments, must be able to demonstrate that the risk associated with the procurement have been analyzed and that the limitation of liability provides adequate protection to the Crown or in the event that there is a substantive transfer of risk to the Crown, that appropriate approvals have been sought. Decisions with respect to limiting a Contractor's liability should be made prior to the start of negotiations.

N0003D (10/12/04) Limitation of Liability - First and Third Party Claims

1. Notwithstanding any other clause in the Contract but subject to the remaining provisions of this clause, the Contractor's total cumulative liability to Canada for all losses or damage suffered by Canada as a result of all breaches of the Contractor's obligations under the Contract or the faulty carrying out of the Contract (including any liability of Canada to a third party and including any liability in tort, negligence or any other cause of action) shall be limited to _____ (**insert \$ amount**) **

****Note:** It is preferable to add the following wording for multi year service contracts: "for losses or damage caused in any one year of carrying out of the Contract, each such year starting on the date of coming into force of the Contract or its anniversary".

The foregoing limitation shall not apply:

- (a) to any breach of the repair or replacement or rework warranty obligations of the Contract,
 - (b) to any breach of intellectual property rights that results in Canada losing in whole or in part the enjoyment of anything delivered under the Contract.
2. For greater certainty, this clause shall not oblige Canada to indemnify the Contractor against the Contractor's direct liability to any third party, or limit the Contractor's liability to Canada for any amount in respect of the Contractor's direct liability to a third party that Canada is required to pay as a result of joint and several liability. Neither shall this clause require any contribution by Canada in relation to any such direct third-party liability of the Contractor.

N - Limitation of Liability

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. Use the following clause in conjunction with general conditions in Information Management or Information Technology contracts using Commodity Groupings. It protects Canada by providing that the Contractor will pay the cost of infringement claims against Canada that are related to the software or other work that has been supplied by the Contractor under the contract. It also provides Canada options like termination and refund where other settlement options are not reasonably available and notifies the Contractor of its obligations and options in respect of defence.

Contracting officers need to fill in the blank with the following information:

- (a) When used in conjunction with general conditions 9601, insert in the blank: "**23, Royalties and Infringement, of general conditions 9601**";
- (b) When used in conjunction with general conditions 9676, insert in the blank: "**20, Royalties and Infringement, of general conditions 9676**";
- (c) When used in conjunction with general conditions 9624, insert in the blank: "**21, Royalties and Infringement, of general conditions 9624**";
- (d) When used in conjunction with general conditions 2010 or 2029, delete entire sentence: "*Section _____, is hereby amended by replacing the section in its entirety by the following:*".

N0005D (10/06/05) Intellectual Property Right Infringement

Section _____, is hereby amended by replacing the section in its entirety by the following:

"Intellectual Property Right Infringement

1. If a third party claims that equipment or software that the Contractor provides under the Contract infringes any intellectual property right, the Contractor, if requested to do so by Canada, will defend Canada against the claim at the Contractor's expense. In this regard, the Contractor will pay all costs, damages and legal fees that a court finally awards, provided that Canada:
 - (a) promptly notifies the Contractor in writing of the claim; and
 - (b) co-operates with the Contractor in, and allows the Contractor full participation in, the defence and related settlement negotiations; and
 - (c) obtains the Contractor's prior approval to any agreement resulting from settlement negotiations held with the third party.

The Contractor shall participate in any claims, action or proceeding arising under subsection 1 and no such claim, action or proceeding shall be settled without the prior written approval of the Contractor and Canada.
2. If such a claim is made or appears likely to be made, Canada agrees to permit the Contractor to enable Canada at the Contractor's expense, to continue to use the equipment or software or to modify or replace it with equipment or software which has published specifications equal or superior to the equipment or software being replaced. If the Contractor determines that none of these alternatives is reasonably available, Canada may elect, at the Contractor's expense, to independently secure the right to continue to use the equipment or software, or Canada may require the Contractor to accept the return of the equipment or software and to refund all monies paid to the Contractor under the Contract for the equipment and software, as well as all amounts paid for services and license and development fees.
3. The provisions of subsections 1 and 2 do not apply in situations where the Contractor was instructed by Canada to purchase a specific item of equipment or software from a specific source on behalf of Canada. In this case, the Contractor shall ensure that its subcontract for the equipment or software states that:

N - Limitation of Liability

"If a third party claims that equipment or software that the subcontractor supplies under the Contract infringes any intellectual property right, the subcontractor, if requested to do so by either the Contractor or Canada, will defend the Contractor and Canada against that claim at the subcontractor's expense and will pay all costs, damages and legal fees that a court finally awards."

In the event that the Contractor is unable to incorporate this into its subcontract, then it shall advise Canada of the situation and not proceed with the subcontract without receiving written notice from Canada that the level of intellectual property right infringement protection is acceptable.

4. Without prejudice to Canada's right to terminate the Contract for default prior to completion of the Work, the above represents the Contractor's entire obligation to Canada regarding any claim of infringement.
5. The Contractor has no obligation regarding any claim based on any of the following:
 - (a) Canada's unauthorized modification of the equipment or software, or Canada's unauthorized use of the equipment or software in other than its published specified operating environment;
 - (b) the combination, operation or use of the equipment or software with any product, data or apparatus that the Contractor did not provide under the Contract, or which combination, operation or use the Contractor did not authorize or approve in advance, if infringement would not have occurred but for such combination, operation or use."

P2010T (01/05/96) Escalation for Paper

1. Subject to the following provisions, a portion of the price may be increased or decreased, depending on the price variation of paper stock. This clause is only applicable to changes to the price of paper stock (upwards or downwards) that occur after thirty (30) days from the closing date of the solicitation.
2. In the event of paper transaction cost variation, the Contractor shall provide notice of increase or decrease in the price of paper used for this requirement. It is mandatory that for the notice to be considered it must be received within ten (10) days of the paper delivered to the printer, indicating the price fluctuation (upwards or downwards) of paper stock, as publicly announced and came into effect, by at least three (3) Canadian paper mills who manufacture the grade specified in this requirement and one of those announcing the increase or decrease is in fact the supplier to the contractor either directly or through a distributor.
3. If less than three (3) Canadian paper mills manufacture the specified grade, the majority of the mills making this grade must have announced a price change (upwards or downwards) that did come into effect for escalation to be implemented.
4. At the time of submitting its bid, the Contractor represents that the transaction costs of paper and estimated quantities of the paper proposed, to be used for this requirement are as follows:
 - (a) cover stock: (if applicable) _____ lb. at a base transaction price per Cwt. of \$ _____.
Brandname and manufacturing mill: _____
 - (b) text stock: (if applicable) _____ lb. at a base transaction price per Cwt. of \$ _____.
Brandname and manufacturing mill: _____
 - (c) text stock: (if applicable) _____ lb. at a base transaction price per Cwt. of \$ _____.
Brandname and manufacturing mill: _____
5. If requested by the Contracting Authority, the above base transaction prices will be supported by submitting copies of quotations from the paper supplier(s).

P - Printing

6. Escalation will be implemented by using the percentage of the announced increase or decrease that came into effect by applying it to the transaction base price(s). Price changes will also be supported by before and after invoices.
7. Upon receipt of the above notice and of the evidence of the price changes announced by the paper mills, the Contracting Authority will then modify the price, by an amendment thereto, to reflect the percentage fluctuation of the paper costs to the Contractor's supported based transaction prices.
8. While not activating the above escalation clause, if, after award, an equivalent paper stock is used by the Contractor other than that specified in the solicitation document, the Contractor must advise the Contracting Authority in writing within fourteen (14) calendar days of this change. It is understood that equivalent means that the paper must meet the specifications in the solicitation document.

- 35.7 The amount of the saving referred to in GC 35.6 shall be determined in accordance with GC 47 to GC 50.

DR 01 (13/12/02) Interpretation

- 1.1 In these Dispute Resolution Conditions and in the Rules attached hereto, "arbitral question of law" means a question of law that:
 - 1.1.1 is capable of determination by arbitration under the laws of Canada, and
 - 1.1.2 does not involve interpretation or application of public law of Canada, including without limitation any matter of constitutional, administrative, criminal or tax law, and
 - 1.1.3 concerns:

R - Real Property Contracting

- 1.1.3.1 the formation, validity, interpretation, application or enforce ability of the contract;
- 1.1.3.2 the performance, breach, termination or other discharge of the contract;
- 1.1.3.3 the rights, duties, obligations or remedies of parties created by or pursuant to the contract; or
- 1.1.3.4 any other issue of private law that may arise between parties relative to performance of the contract;

"dispute" means any disagreement regarding any issue identified by the Contractor in the notice submitted to the Engineer in accordance with DR 3.2, and includes any claim by the Contractor arising from such disagreement and any counterclaim by Her Majesty, but does not include any claim by either party for punitive or exemplary damages, injury to persons, death, or any claim based on an allegation of libel or slander;

"working day" means a day other than a Saturday, Sunday, or a holiday which is observed by the construction industry in the area of the place of the work.

- 1.2 The alternative dispute resolution procedures set out in these Dispute Resolution Conditions do not apply to any claim by Her Majesty against the Contractor except any counterclaim in a dispute as defined in this DR 01 Interpretation, including, but not limited to, any claim of set off regarding any amount due to Her Majesty under GC37 of the General Conditions.

- 3.1 Any difference between the parties to the contract of any nature arising out of or in connection with the contract which could result in a claim by the Contractor against Her Majesty, and which is not settled by consultation and cooperation as envisaged in DR 02 Consultation and Co-operation, shall be resolved in the first instance by the Engineer, whose written decision or direction shall be final and binding subject only to the provisions of these Dispute Resolution Conditions "G." Unless the Minister terminates the contract, orders the Contractor to suspend the work, or takes the work out of the hands of the Contractor, the Contractor shall continue to perform the work in accordance with the provisions and requirements of the contract and the instructions of the Engineer. Such performance shall not prejudice any claim that the Contractor may have.

1. In this Request for Proposal (RFP), the following words or phrases have the corresponding meaning.

Consultant Team: The team of consultants, specialists and other firms, including the Proponent, proposed by the Proponent to perform the services required.

Key Personnel: Staff of the Proponent, consultants and specialists proposed to be assigned to this project.

Phase One Rating: A rating assigned to a proposal in the first phase of the selection procedure, the rating being based on the qualifications and experience of the Consultant Team. The rating is subsequently used to establish a Phase One Score for inclusion as a percentage of the total score to be established following the evaluation and rating of proposals submitted in Phase Two.

Phase Two Technical Rating: A rating assigned to the technical component of a proposal in the second phase of the selection procedure and subsequently used to establish a Technical Score for inclusion as a percentage of the total score to be established following the evaluation and rating of proposals submitted in Phase Two.

Price Rating: A rating assigned to the price proposal component of a proposal in the second phase of the selection procedure and subsequently used to establish a Price Score for inclusion as a percentage of the total score to be established following the evaluation and rating of proposals submitted in Phase Two.

Proponent: The prime consultant entity which submits a proposal.

PWGSC Evaluation Board: The board established to evaluate and rate proposals. Board members represent a sufficiently broad cross-section of professional qualifications and experience to properly assess all aspects of the proposals.

GI 2 (2003-05-30) Overview of Selection Procedure

2.1 Phase One Proposal

1. In response to the RFP, interested Proponents submit a Phase One proposal in which they:
 - (a) indicate whether the proposal is submitted by an individual firm or by a joint venture;
 - (b) if the proposal is submitted by a joint venture, describe the proposed legal and working relationships of the joint venture and the benefits to be gained by the formation of the joint venture;
 - (c) identify the prime consultants and key sub consultants and specialists proposed for inclusion in the Consultant Team, and the proposed organizational structure of the Team;

R - Real Property Contracting

- (d) describe the extent to which proposed members of the Consultant Team have successfully performed services for projects comparable to the project which is the subject of the proposal;
- (e) identify the professional accreditation, experience, expertise and competence of the proposed Consultant Team and the Key Personnel proposed to be assigned to perform the required services.
- (f) comply with all other requirements set out in the RFP.

2.2 Phase One Proposal Evaluation and Rating

1. Each responsive proposal received is reviewed, evaluated and rated by a Public Works and Government Services Canada (PWGSC) Evaluation Board in accordance with the evaluation criteria, components and weight factors set out in the RFP. Upon completion of the evaluation, an initial rating (Phase One Rating) is assigned to the proposal. Phase One Ratings are recorded for subsequent incorporation in the final proposal evaluation and rating.
2. Each Proponent submitting a responsive Phase One proposal is notified in writing of its Phase One Rating and, in addition, is provided with the following:
 - (a) an alphabetic list (normally five names) of Proponents with the highest Phase One Ratings;
 - (b) a list of all Phase One Ratings attained (ratings are not linked to Proponents);
 - (c) a date, time, and location for a Phase Two briefing meeting, if applicable;
 - (d) the date and time for receipt of Phase Two proposals, and any supplementary instructions, terms, conditions or addenda which may be applicable to Phase Two proposal preparation and submission.
3. Proponents that submitted non-responsive Phase One proposals are notified accordingly.

2.3 Phase Two Proposal

1. Phase Two proposals are prepared and submitted after Proponents have been advised of the results of evaluation of Phase One proposals. All Proponents submitting responsive proposals in Phase One, regardless of their Phase One Ratings, are eligible to prepare and submit a Phase Two proposal. The decision to continue participating in the selection procedure in Phase Two is a decision to be made by each eligible Proponent.
2. In Phase Two, a Proponent may not substitute or delete any member of the Consultant Team identified in the Phase One proposal.
3. Phase Two proposals are submitted following a "two-envelope" procedure, in which Proponents submit the "technical" component of their proposal in one envelope and the proposed price of the services (price proposal) in a second envelope.
4. The information that Proponents are required to provide is set out in detail throughout the RFP.

2.4 Phase Two Proposal Evaluation and Final Rating

1. Technical components of Phase Two proposals are reviewed, evaluated and rated by a PWGSC Evaluation Board in accordance with the criteria, components and weight factors set out in the RFP. Upon completion of the evaluation, Phase Two Technical Ratings are established.
2. Phase One Rating and Phase Two Technical Rating are combined to establish a Combined Technical Score. Proposals achieving the minimum Combined Technical Score specified in the Submission Requirements and Evaluation section of the RFP are further considered.
3. The price envelopes of all responsive proposals are opened upon completion of the technical evaluation. An average price is determined by adding all the price proposals together and dividing the total by the number of price proposals opened.
4. All price proposals which are greater than 25 percent above the average price will cause their respective complete proposals to be set aside and receive no further consideration.
5. The remaining price proposals are rated as follows:

R - Real Property Contracting

- (a) The lowest price proposal receives a Price Rating of 100.
 - (b) The second, third, fourth and fifth lowest prices receive Price Ratings of 80, 60, 40, and 20 respectively. All other price proposals receive a Price Rating of 0.
 - (c) On the rare occasion where two (or more) price proposals are identical, these price proposals receive the same rating and the corresponding number of following ratings are skipped.
 - (d) The Price Rating is multiplied by a predetermined percentage factor to establish a Price Score.
6. A price proposal in excess of any maximum funding limit, when this limit has been set in the Supplementary Instructions to Proponents, will result in disqualification of the complete proposal.

2.5 Total Score

1. The total overall score (Total Score) assigned to each Proponent's complete proposal is calculated as the aggregate of:
 - (a) the Phase One Score (Phase One proposal on qualifications and experience), and
 - (b) the Phase Two Technical Score (first envelope of Phase Two proposal), and
 - (c) the Price Score (second envelope of Phase Two proposal).
2. The Proponent receiving the highest Total Score is the first entity that the PWGSC Evaluation Board will recommend be approached in order to finalize details of an agreement for the provision of the required services.

2.6 Notification

PWGSC normally expects to advise in writing unsuccessful Proponents within one week after PWGSC has entered into a contractual arrangement with the successful Proponent.

GI 3 (2004-05-14) Procurement Business Number

1. For procurement purposes, the Government of Canada uses a unique Procurement Business Number (PBN) to identify a company and its branches, divisions, or offices, where appropriate. The PBN is created using the entity's Canada Revenue Agency Business Number.
2. All Canadian companies are required to have a PBN prior to contract award in order to receive a PWGSC contract. In exceptional circumstances, PWGSC may decide to award, at its own discretion, a contract to a company without a PBN. Non-Canadian companies are strongly encouraged to obtain a PBN.
3. Companies may register for a PBN in the Supplier Registration Information (SRI) service on line at the Contracts Canada Internet site at: <http://contractscanada.gc.ca>. In order for companies to be sourced by government buyers, they must complete the registration process and activate their account in the SRI service.
4. For non-Internet registration, contact the Contracts Canada InfoLine at 1-800-811-1148 or (819) 956-3440, in the National Capital Area, to obtain the telephone number of the nearest Supplier Registration Agent.

GI 4 (2003-05-30) Responsive Proposals

To be considered responsive, a proposal must meet all of the mandatory requirements set out in the RFP. No further consideration in the selection procedure will be given to a Proponent submitting a non-responsive proposal.

GI 5 (2003-12-12) Completion of Submission

The Proponent shall base the proposal on the applicable proposal documents listed in the Supplementary Instructions to Proponents. It is the responsibility of the Proponent to obtain clarification of any of the terms, conditions or technical requirements contained in the RFP.

GI 6 (2003-05-30) Proposal Price

Unless specified otherwise elsewhere in the proposal documents:

R - Real Property Contracting

- (a) the price proposal shall be in Canadian currency, and
- (b) the price proposal shall not include any amount for the Goods and Services Tax or the Harmonized Sales Tax as may be applicable, and
- (c) exchange rate fluctuation protection is not offered, and
- (d) any request for exchange rate fluctuation protection will not be considered, and will render the proposal non-responsive.

GI 7 (2003-12-12) Enquiries During the Solicitation Period

- 1. Any question or request for clarification during the solicitation period must be submitted in writing by the prime contact of a Proponent to the person identified on the front page of the RFP. Responses will be sent by PWGSC to the prime contact of the Proponent, who will be responsible for internal distribution as required within the Proponent's Consultant Team.
- 2. To ensure equality of information provided to Proponents, answers to significant enquiries will be forwarded simultaneously to each Proponent.
- 3. Enquiries are to be directed ONLY to the person referred to in paragraph 1 above. Non-compliance with this condition during the solicitation period may, for that reason alone, result in the disqualification of the proposal.

GI 8 (2003-05-30) Limitation of Submissions

- 1. While there is no requirement for firms to participate in this procurement in joint venture, they may elect to do so if they see fit. However, only one submission per proponent will be accepted, whether it is submitted by a firm as an individual Proponent or by that firm as part of a joint venture Proponent. If more than one submission is received from a firm acting either individually or in joint venture, all such submissions shall be rejected and no further consideration shall be given to the firm or to any proposed joint venture of which the firm forms part.
- 2. A joint venture is defined as an association of two or more parties which combine their money, property, knowledge, skills, time or other resources in a joint business enterprise agreeing to share the profits and the losses and each having some degree of control over the enterprise.
- 3. An arrangement whereby Canada contracts directly with a prime consultant who may retain sub-consultants or specialist consultants to perform portions of the services is not a joint venture arrangement. A sub-consultant or specialist consultant firm may, therefore, be proposed as part of the Consultant Team by more than one Proponent.
- 4. Notwithstanding subsection 3 above, in order to avoid any conflict of interest, or any perception of conflict of interest, no firm acting as an individual Proponent or as part of a joint venture Proponent, shall be proposed as a member of another Proponent's Consultant Team, either as a sub-consultant or specialist consultant or as part of another joint venture Proponent. Failure to comply with this limitation will result in all submissions so involved being rejected.
- 5. The Phase Two portion of the proposal must be made in the same name as the entity named as the Proponent in the Phase One portion. Proponents must utilize, in the preparation of their Phase Two proposal, the same Consultant Team, firms and individuals named in the Phase One proposal.
- 6. Any joint venture entered into for the provision of professional services or other services must be in full compliance with the requirements of any provincial or territorial law pertaining thereto in the Province or Territory in which the project is located.

GI 9 (2003-05-30) Licensing Requirements

- 1. Consultant Team members and Key Personnel shall be, or be eligible to be licensed, certified or otherwise authorized to provide the necessary professional services to the full extent that may be required by provincial or territorial law in the Province or Territory in which the project is located.
- 2. By virtue of submission of a Phase One proposal, the Proponent certifies that the Proponent is satisfied that the proposed Consultant Team and Key Personnel are in compliance with the requirements of subsection 1. The Proponent acknowledges that PWGSC reserves the right to verify any information in this regard and that false or erroneous certification may result in the proposal being declared non-responsive.

R - Real Property Contracting

3. Should a verification by PWGSC disclose that the certification referred to in subsection 2 is false or in error, PWGSC shall have the right to reject any Phase Two proposal arising from the Phase One proposal.

GI 10 (2003-05-30) Eligibility Requirements

1. Proponents are advised that a Proponent may be deemed to be ineligible for selection at any time if:
 - (a) any firm or individual included in the Consultant Team has been convicted under section 121 ("Frauds on the government" & "Contractor subscribing to election fund"), 124 ("Selling or purchasing office"), or 418 ("Selling defective stores to Her Majesty") of the Criminal Code;
 - (b) the Proponent has been declared ineligible for selection, following unsatisfactory performance in a previous project as determined in accordance with the department's performance review procedures;
 - (c) any firm or individual included in the Consultant Team has been declared ineligible, for selection for work with the department in accordance with the performance review procedure referred to in paragraph 1. (b), which ineligibility would render the individual ineligible for selection for the work, or the portion of the work the individual is to perform, under any contractual arrangement resulting from submission of the proposal;
 - (d) with respect to current or prior transactions with the Government of Canada,
 - (i) the Proponent is bankrupt or where, for whatever reason, its activities are rendered inoperable for an extended period;
 - (ii) evidence, satisfactory to Canada, of fraud, bribery, fraudulent misrepresentation or failure to comply with any law protecting individuals against any manner of discrimination, has been received with respect to any firm or individual included in the Consultant Team;
 - (iii) Canada has previously exercised or intends to exercise the contractual remedy of taking the services out of the consultant's hands with respect to any commission or contract with any firm or individual included in the Consultant Team;
 - (iv) Canada determines that the performance of the Proponent on other contracts or commissions, including the quality of the services provided and the quality and timeliness of the delivery of the project, is sufficiently poor to jeopardize the successful completion of the requirement which is the subject of the Initial Proposal.
2. Where Canada intends to declare a firm ineligible pursuant to the provisions contained in subsection 1 above, other than provision 1. (b), the Minister will so inform the firm and provide the firm ten (10) days within which to make representations, prior to making a final decision regarding the ineligibility of the firm.

GI 11 (2004-12-10) Federal Contractors Program for Employment Equity

1. The Federal Contractors Program for Employment Equity (FCP-EE) requires that some organizations making proposals for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity, as a condition precedent to the contract award. If the Proponent is subject to the Program, evidence of its commitment must be provided prior to the award of any contract.
2. Proponents that have been declared "Ineligible Proponents" by the Department of Human Resources and Skills Development (HRSD) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the *Government Contract Regulations* (currently at \$25,000, including all applicable taxes), either as a result of a finding of non-compliance by the Department of HRSD, or following their voluntary withdrawal from the Program for a reason other than the reduction in their workforce. Any proposal from ineligible proponents will not be considered for award.
3. The Proponent certifies its status with FCP-EE, as follows:

The Proponent

R - Real Property Contracting

- (a) is not subject to FCP-EE, having a workforce of less than 100 permanent full or part-time employees in Canada,
 - (b) is not subject to FCP-EE, being a regulated employer under the *Employment Equity Act*;
 - (c) is subject to the requirements of FCP-EE, having a workforce of 100 or more permanent full or part-time employees in Canada, but has not previously obtained a certificate number from the Department of HRSD, (having not submitted proposals on requirements of \$200,000 or more), in which case a duly signed certificate of commitment is provided herewith (attached);
 - (d) is subject to FCP-EE, and has a valid certification number as follows: (e.g. has not been declared "Ineligible Proponent" by the Department of HRSD).
4. If the Proponent does not fall within the exceptions enumerated in 3. (a) or (b), the Program requirements do apply, and as such, the Proponent is required to submit to the Department of HRSD form LAB 1168, Certificate of Commitment to Implement Employment Equity, DULY SIGNED or a valid Certificate number confirming its adherence to the FCP-EE.
 5. The Proponent acknowledges that the Minister shall rely on this certification to award the Contract. Should a verification by the Minister disclose a misrepresentation on the part of the Proponent, the Minister shall have the right to treat any contract resulting from this proposal as being in default, and to terminate it pursuant to the Default provisions of the Contract.
 6. When submitting a proposal, the Proponent should complete and return with the proposal the applicable certification for the "Federal Contractors Program for Employment Equity" included in the Declaration Form attached hereto.
 7. In all cases, the Proponent is required to produce evidence or supporting information on demand prior to contract award, if such evidence is not included with its proposal.

NOTE: *Information on the FCP-EE and the Certificate of Commitment (LAB 1168), are available on the following Department of HRSD Website:*
<http://www.hrsdc.gc.ca/en/gateways/topics/wzp-qxr.shtml> and
<http://www100.hrdc.gc.ca/labswenm1e.shtml>, respectively.

GI 12 (2003-05-30) Insurance Requirements

1. The successful Proponent shall be required to obtain and maintain Professional Liability and Commercial General Liability insurance coverage in accordance with the requirements set out elsewhere in the proposal documents.
2. No insurance requirement stipulated in the proposal documents should be construed as limiting any insurance required by federal, provincial or municipal law or as may be required under GC 9.1 (R0202D). Neither should it limit any coverage which the successful Proponent and other members of the Consultant Team may consider to be necessary for their own protection or to fulfill their obligations.
3. By virtue of submission of a proposal, the Proponent certifies that the Proponent and the other members of the Consultant Team as may be applicable are capable of obtaining, and will obtain and maintain liability insurance in accordance with the requirements set out in the proposal documents.

GI 13 (2003-05-30) Industrial and Facility Security Requirements

1. Proponents shall take note of, and comply with, any industrial security or facility security requirement which may be stipulated as a requirement in the proposal and Agreement documents. If industrial security or facility security is required, employees and staff of the Proponent and other members of the Consultant Team involved in the project implementation must either be in possession of, or agree to be investigated for, a valid, appropriate level of personnel security screening that may be required under the provisions of the RFP.
2. If security screening is required, each person involved in the project implementation must hold such security screening prior to the commencement of any work.
3. In all contractual arrangements with persons who are to be employed in the performance of the services, the successful Proponent shall make provision for the performance of any obligation that may be imposed upon the Proponent under the provisions of this clause.

Both envelopes shall be submitted as one package which shall clearly and conspicuously display and indicate on the outside of the package the information identified in paragraph GI 15.1(e) above.
3. Timely and correct delivery of proposals to the office designated for receipt of proposals is the sole responsibility of the Proponent. The confidentiality of information relating to other submissions will be protected.

GI 21 (2003-05-30) Financial Statements

1. In order to confirm a Proponent's financial capability to perform the subject requirement, the Contracting Authority reserves the right to have access, during the proposal evaluation phase, to current proponent financial information. R1120T (30/05/03) Supplementary Instructions to Proponents

SI 1 (30/05/03) Introduction

1. Public Works and Government Services Canada (PWGSC) intends to retain an individual consulting firm or joint venture to provide the professional services for the project as set out in this Request for Proposal (RFP).
2. Because of the considerable time and expense involved in the preparation, submission and evaluation of full proposals, Proponents responding to this RFP are requested to submit a proposal in two phases. Phase One proposals cover only the qualifications, experience and organization of the proposed Consultant Team. Following evaluation and rating of these proposals, Proponents are advised of their competitive standing and have the opportunity to decide whether or not to continue their participation by submitting a Phase Two proposal. Phase Two proposals cover the detailed approach to the work, and the pricing offered. A combination of the Phase One and Phase Two submissions constitutes the final proposal. This procedure follows "open tendering" procedures in the context of Canada's trade agreements. It is followed, however, whether or not the procurement is covered by any trade agreement.
3. Initially, firms are invited to submit a proposal in the first phase of the selection procedure outlined herein. Only the Phase One information asked for in the RFP is to be included in the Phase One proposal, and evaluation and rating of Phase One proposals will be carried out only on the Phase One information requested.

SI 2 (30/05/03) Questions or Requests for Clarification

Questions or requests for clarification during the Phase One solicitation period must be submitted in writing to the Contracting Authority as early as possible. Enquiries should be received no later than ten (10) working days prior to the closing date identified on the front page of the Request for Proposal. Enquiries received after that date may not be answered prior to the closing date of the solicitation.

This procurement is covered under the provisions of the: [North American Free Trade Agreement (NAFTA)] [World Trade Organization - Agreement on Government Procurement (WTO-AGP)] [Agreement on Internal Trade (AIT)].

GC 7.1 (30/05/03) Taking the Services Out of the Consultant's Hands

1. The Minister may take all or any part of the Services out of the Consultant's hands and may employ reasonable means necessary to complete such Services in the event that:
 - (a) the Consultant has become insolvent or has committed an act of bankruptcy, and has neither made a proposal to the Consultant's creditors nor filed a notice of intention to make such a proposal, pursuant to the *Bankruptcy and Insolvency Act*, or
 - (b) the Consultant fails to perform any of the Consultant's obligations under the Agreement or, in the Minister's opinion, so fails to make progress as to endanger performance of the Agreement, in accordance with its terms.

4. If the Services or any part thereof have been taken out of the Consultant's hands, the Consultant shall be liable for, and upon demand pay to Canada, an amount equal to all loss and damage suffered by Canada by reason of the non-completion of the Services by the Consultant.
5. If the Consultant fails to pay on demand for the loss or damage as a result of subsection 4, Canada shall be entitled to deduct and withhold the same from any payments due and payable to the Consultant.
6. The taking of the Services, or any part thereof, out of the Consultant's hands does not relieve or discharge the Consultant from any obligation under the Agreement, or imposed upon the Consultant by law, in respect to the Services or any part thereof that the Consultant has performed.

GC 7.2 (30/05/03) Suspension

1. The Departmental Representative, with the authority of the Minister, may require the Consultant to suspend the Services being provided, or any part thereof, for a specified or unspecified period.

3. If a period of suspension exceeds sixty (60) days or when taken together with other periods of suspension, the total exceeds ninety (90) days, and:
 - (a) the Departmental Representative and the Consultant agree that the performance of the Services shall be continued, then the Consultant shall resume performance of the Services, subject to any terms and conditions agreed upon by the Departmental Representative and the Consultant, or

 4. The fees mentioned in subsection 3 shall be calculated in accordance with the Terms of Payment set out in the Agreement.

Consultant Team: The team of consultants, specialists and other firms, including the Proponent, proposed by the Proponent to perform the services required.

Key Personnel: Staff of the Proponent, consultants and specialists proposed to be assigned to this project.

R - Real Property Contracting

Technical Rating: A rating assigned to the technical component of a proposal in the selection procedure and subsequently used to establish a Technical Score for inclusion as a percentage of the total score.

Proponent: The prime consultant entity which submits a proposal.

PWGSC Evaluation Board: The board established to evaluate and rate proposals. Board members represent a sufficiently broad cross-section of professional qualifications and experience to properly assess all aspects of the proposals.

Technical Rating: A rating assigned to the technical component of a proposal in the selection procedure and subsequently used to establish a Technical Score for inclusion as a percentage of the total score.

GI 2 (2003-05-30) Overview of Selection Procedure

2.1 Proposal

1. Proposals are submitted following a "two-envelope" procedure, in which Proponents submit the "technical" component of their proposal in one envelope and the proposed price of the services (price proposal) in a second envelope.
2. The information that Proponents are required to provide is set out in detail elsewhere in the RFP.
3. In response to the RFP, interested Proponents submit a proposal in which they:
 - (a) indicate whether the proposal is submitted by an individual firm or by a joint venture;
 - (b) if the proposal is submitted by a joint venture, describe the proposed legal and working relationships of the joint venture and the benefits to be gained by the formation of the joint venture;
 - (c) identify the prime consultants and key sub consultants and specialists proposed for inclusion in the Consultant Team, and the proposed organizational structure of the Team;
 - (d) describe the extent to which proposed members of the Consultant Team have successfully performed services for projects comparable to the project which is the subject of the proposal;
 - (e) identify the professional accreditation, experience, expertise and competence of the proposed Consultant Team and the Key Personnel proposed to be assigned to perform the required services.
 - (f) comply with all other requirements set out in the RFP.

2.2 Proposal Evaluation and Rating

1. Technical components of all responsive proposals are reviewed, evaluated and rated by a Public Works and Government Services Canada (PWGSC) Evaluation Board in accordance with the criteria, components and weight factors set out in the RFP. Upon completion of the evaluation, Technical Ratings are established.
2. Proposals achieving the minimum Technical Score specified in the Submission Requirements and Evaluation section of the RFP are further considered.
3. The price envelopes of all responsive proposals are opened upon completion of the technical evaluation. An average price is determined by adding all the price proposals together and dividing the total by the number of price proposals opened.
4. All price proposals which are greater than 25 percent above the average price will cause their respective complete proposals to be set aside and receive no further consideration.

R - Real Property Contracting

5. The remaining price proposals are rated as follows:
 - (a) The lowest price proposal receives a Price Rating of 100.
 - (b) The second, third, fourth and fifth lowest prices receive Price Ratings of 80, 60, 40, and 20 respectively. All other price proposals receive a Price Rating of 0.
 - (c) On the rare occasion where two (or more) price proposals are identical, these price proposals receive the same rating and the corresponding number of following ratings are skipped.
 - (d) The Price Rating is multiplied by a predetermined percentage factor to establish a Price Score.
6. A price proposal in excess of any maximum funding limit, when this limit has been set in the Supplementary Instructions to Proponents, will result in disqualification of the complete proposal.

2.3 Total Score

1. The total overall score (Total Score) assigned to each Proponent's complete proposal is calculated as the aggregate of:
 - (a) the Technical Score (first envelope of the proposal), and
 - (b) the Price Score (second envelope of the proposal).
2. The Proponent receiving the highest Total Score is the first entity that the PWGSC Evaluation Board will recommend be approached in order to finalize details of an agreement for the provision of the required services.

2.4 Notification

PWGSC normally expects to advise in writing unsuccessful Proponents within one week after PWGSC has entered into a contractual arrangement with the successful Proponent.

GI 3 (2004-05-14) Procurement Business Number

1. For procurement purposes, the Government of Canada uses a unique Procurement Business Number (PBN) to identify a company and its branches, divisions, or offices, where appropriate. The PBN is created using the entity's Canada Revenue Agency Business Number.
2. All Canadian companies are required to have a PBN prior to contract award in order to receive a PWGSC contract. In exceptional circumstances, PWGSC may decide to award, at its own discretion, a contract to a company without a PBN. Non-Canadian companies are strongly encouraged to obtain a PBN.
3. Companies may register for a PBN in the Supplier Registration Information (SRI) service on line at the Contracts Canada Internet site at: <http://contractscanada.gc.ca>. In order for companies to be sourced by government buyers, they must complete the registration process and activate their account in the SRI service.
4. For non-Internet registration, contact the Contracts Canada InfoLine at 1-800-811-1148 or (819) 956-3440, in the National Capital Area, to obtain the telephone number of the nearest Supplier Registration Agent.

GI 4 (2003-05-30) Responsive Proposals

To be considered responsive, a proposal must meet all of the mandatory requirements set out in the RFP. No further consideration in the selection procedure will be given to a Proponent submitting a non-responsive proposal.

GI 5 (2003-05-30) Completion of Submission

The Proponent shall base the proposal on the applicable proposal documents listed in the Supplementary Instructions to Proponents. It is the responsibility of the Proponent to obtain clarification of any terms, conditions or technical requirements contained in the RFP.

R - Real Property Contracting

GI 6 (2003-05-30) Proposal Price

Unless specified otherwise elsewhere in the proposal documents:

- (a) the price proposal shall be in Canadian currency, and
- (b) the price proposal shall not include any amount for the Goods and Services Tax or the Harmonized Sales Tax as may be applicable, and
- (c) exchange rate fluctuation protection is not offered, and
- (d) any request for exchange rate fluctuation protection will not be considered, and will render the proposal non-responsive.

GI 7 (2003-05-30) Enquiries During the Solicitation Period

1. Any questions or requests for clarification during the solicitation period must be submitted in writing by the prime contact of a Proponent to the person identified on the front page of the Request for Proposal. Responses will be sent by PWGSC to the prime contact of the Proponent, who will be responsible for internal distribution as required within the Proponent's Consultant Team.
2. To ensure equality of information provided to Proponents, answers to significant enquiries will be forwarded simultaneously to each Proponent.
3. Enquiries are to be directed ONLY to the person referred to in paragraph 1 above. Non-compliance with this condition during the solicitation period may, for that reason alone, result in the disqualification of the proposal.

GI 8 (2003-05-30) Limitation of Submissions

1. While there is no requirement for firms to participate in this procurement in joint venture, they may elect to do so if they see fit. However, only one submission per proponent will be accepted, whether it is submitted by a firm as an individual Proponent or by that firm as part of a joint venture Proponent. If more than one submission is received from a firm acting either individually or in joint venture, all such submissions shall be rejected and no further consideration shall be given to the firm or to any proposed joint venture of which the firm forms part.
2. A joint venture is defined as an association of two or more parties which combine their money, property, knowledge, skills, time or other resources in a joint business enterprise agreeing to share the profits and the losses and each having some degree of control over the enterprise.
3. An arrangement whereby Canada contracts directly with a prime consultant who may retain sub-consultants or specialist consultants to perform portions of the services is not a joint venture arrangement. A sub-consultant or specialist consultant firm may, therefore, be proposed as part of the Consultant Team by more than one Proponent.
4. Notwithstanding paragraph 3. above, in order to avoid any conflict of interest, or any perception of conflict of interest, no firm acting as an individual Proponent or as part of a joint venture Proponent, shall be proposed as a member of another Proponent's Consultant Team, either as a sub-consultant or specialist consultant or as part of another joint venture Proponent. Failure to comply with this limitation will result in all submissions so involved being rejected.
5. Any joint venture entered into for the provision of professional services or other services must be in full compliance with the requirements of any provincial or territorial law pertaining thereto in the Province or Territory in which the project is located.

GI 9 (2003-05-30) Licensing Requirements

1. Consultant Team members and Key Personnel shall be, or be eligible to be licensed, certified or otherwise authorized to provide the necessary professional services to the full extent that may be required by provincial or territorial law in the Province or Territory in which the project is located.
2. By virtue of submission of a proposal, the Proponent certifies that the Proponent is satisfied that the proposed Consultant Team and Key Personnel are in compliance with the requirements of paragraph 1. The Proponent acknowledges that PWGSC reserves the right to verify any

R - Real Property Contracting

information in this regard and that false or erroneous certification may result in the proposal being declared non-responsive.

GI 10 (2003-05-30) Eligibility Requirements

1. Proponents are advised that a Proponent may be deemed to be ineligible for selection at any time if :
 - (a) any firm or individual included in the Consultant Team has been convicted under section 121 ("Frauds on the government" & "Contractor subscribing to election fund"), 124 ("Selling or purchasing office"), or 418 ("Selling defective stores to Her Majesty") of the Criminal Code;
 - (b) the Proponent has been declared ineligible for selection, following unsatisfactory performance in a previous project as determined in accordance with the department's performance review procedures;
 - (c) any firm or individual included in the Consultant Team has been declared ineligible, for selection for work with the department in accordance with the performance review procedure referred to in paragraph 1.(b), which ineligibility would render the individual ineligible for selection for the work, or the portion of the work the individual is to perform, under any contractual arrangement resulting from submission of the proposal;
 - (d) with respect to current or prior transactions with the Government of Canada,
 - (i) the Proponent is bankrupt or where, for whatever reason, its activities are rendered inoperable for an extended period;
 - (ii) evidence, satisfactory to Canada, of fraud, bribery, fraudulent misrepresentation or failure to comply with any law protecting individuals against any manner of discrimination, has been received with respect to any firm or individual included in the Consultant Team;
 - (iii) Canada has previously exercised or intends to exercise the contractual remedy of taking the services out of the consultant's hands with respect to any commission or contract with any firm or individual included in the Consultant Team;
 - (iv) Canada determines that the performance of the Proponent on other contracts or commissions, including the quality of the services provided and the quality and timeliness of the delivery of the project, is sufficiently poor to jeopardize the successful completion of the requirement which is the subject of the Initial Proposal.
2. Where Canada intends to declare a firm ineligible pursuant to the provisions contained in paragraph 1. above, other than provision 1.(b), the Minister will so inform the firm and provide the firm ten (10) days within which to make representations, prior to making a final decision regarding the ineligibility of the firm.

GI 11 (2004-12-10) Federal Contractors Program for Employment Equity

1. The Federal Contractors Program for Employment Equity (FCP-EE) requires that some organizations making proposals for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity, as a condition precedent to the contract award. If the Proponent is subject to the Program, evidence of its commitment must be provided prior to the award of any contract.
2. Proponents that have been declared "Ineligible Proponents" by the Department of Human Resources and Skills Development (HRSD) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the *Government Contract Regulations* (currently at \$25,000, including all applicable taxes), either as a result of a finding of non-compliance by the Department of HRSD, or following their voluntary withdrawal from the Program for a reason other than the reduction in their workforce. Any proposals from ineligible proponents will not be considered for award.
3. The Proponent certifies its status with FCP-EE, as follows:

R - Real Property Contracting

The Proponent

- (a) is not subject to FCP-EE, having a workforce of less than 100 permanent full or part-time employees in Canada,
 - (b) is not subject to FCP-EE, being a regulated employer under the *Employment Equity Act*;
 - (c) is subject to the requirements of FCP-EE, having a workforce of 100 or more permanent full or part-time employees in Canada, but has not previously obtained a certificate number from the Department of HRSD, (having not submitted proposals on requirements of \$200,000 or more), in which case a duly signed certificate of commitment is provided herewith (attached);
 - (d) is subject to FCP-EE, and has a valid certification number as follows: (e.g. has not been declared "Ineligible Proponent" by the Department of HRSD).
4. If the Proponent does not fall within the exceptions enumerated in 3. (a) or (b), the Program requirements do apply, and as such, the Proponent is required to submit to the Department of HRSD form LAB 1168, Certificate of Commitment to Implement Employment Equity, DULY SIGNED or a valid Certificate number confirming its adherence to the FCP-EE.
 5. The Proponent acknowledges that the Minister shall rely on this certification to award the Contract. Should a verification by the Minister disclose a misrepresentation on the part of the Proponent, the Minister shall have the right to treat any contract resulting from this proposal as being in default, and to terminate it pursuant to the Default provisions of the Contract.
 6. When submitting a proposal, the Proponent should complete and return with the proposal the applicable certification for the "Federal Contractors Program for Employment Equity" included in the Declaration Form attached hereto.
 7. In all cases, the Proponent is required to produce evidence or supporting information on demand prior to contract award, if such evidence is not included with its proposal.

NOTE: Information on the FCP-EE and the Certificate of Commitment (LAB 1168), are available on the following Department of HRSD Website:

R1420T (30/05/03) Supplementayu Instructions to Proponents (SI)

SI 1 (30/05/03) Introduction

1. Public Works and Government Services Canada (PWGSC) intends to retain an individual consulting firm or joint venture to provide the professional services for the project as set out in this Request for Proposal (RFP).
2. This is a single phase selection process. The nature of the requirement and the anticipated limited number of response by the industry leads PWGSC to believe that this approach will not unduly force a large number of firms to expend an overall unreasonable amount of effort in response to PWGSC.
3. Proponents responding to this RFP are requested to submit a full and complete proposal. The proposal will cover not only the qualifications, experience and organization of the proposed Consultant Team, but also the detailed approach to the work, and the pricing and terms offered. A combination of the technical and price of services submissions will constitute the proposal.

SI 2 (30/05/03) Questions or Requests for Clarification

Questions or requests for clarification during the Phase One solicitation period must be submitted in writing to the Contracting Authority as early as possible. Enquiries should be received no later than ten (10) working days prior to the closing date identified on the front page of the RFP. Enquiries received after that date may not be answered prior to the closing date of the solicitation.

SI 3 (30/05/03) Canada's Trade Agreements

This procurement is covered under the provisions of the [North American Free Trade Agreement (NAFTA)] [World Trade Organization - Agreement on Government Procurement (WTO-AGP)] [Agreement on Internal Trade (AIT)].

Remarks: THIS CLAUSE IS TO APPEAR IN FULL TEXT IN PROCUREMENT DOCUMENTS. The contracting officer must edit the clause as required by the situation. Use the following clause in 1 Stage - 2 Phase proposals.

Any proposal from ineligible proponents will not be considered for award.

3. Any change in the terms of the Contract, other than changes that may be ordered by the Minister or the Departmental Representative pursuant to subsection 1 of GC 6.1, may be made only by agreement in writing between Canada and the Contractor.

GC 6.2 Changes in Subsurface Conditions and Delays by Canada

1. No extra payment shall be made to the Contractor for any extra expense, loss or damage for any reason unless the Minister or the Departmental Representative under the authority of the Minister shall certify that such extra expense, loss or damage is directly attributable to
 - (a) a substantial difference between the subsurface conditions as indicated in the Plans and Specifications or Scope of Work and the actual conditions found at the site of the Work; or
 - (b) the neglect or delay by Canada, occurring after the date of award of the Contract,
 - (i) in providing any information or the doing of any act which Canada is required expressly by the Contract to do or as required by a known custom of the trade; or
 - (ii) in suspending the Work pursuant to GC 7.3.
2. The Contractor shall, within ten (10) days immediately after encountering such subsurface conditions or such neglect or delay, give written notice to the Departmental Representative of a claim for such extra expense, loss or damage. Failure to provide such written notice shall render the claim null and void.
3. The amount of any extra payment made under this section shall be calculated in accordance with GC 5.9.
4. If, in the opinion of the Departmental Representative, any difference in subsurface conditions referred to in subsection 1 of GC 6.2 results in a savings to the Contractor, the amount of said savings shall be deducted from the Contract Amount owing to the Contractor.

GC 6.3 Extension of Time

1. GC7.1 Taking the Work out of the Contractor's Hands

1. By giving notice in writing to the Contractor, the Minister may take all or any part of the Work out of the Contractor's hands, and may employ such means as the Minister sees fit to have the Work completed if the Contractor

4. If the whole or any part of the Work that is taken out of the Contractor's hands pursuant to subsection 1 of GC7.1 is completed by Canada, the Departmental Representative shall calculate the amount, if any, of the holdback or progress claims that had accrued and was due prior to the date on which the Work was taken out of the Contractor's hands.
5. If it is determined that there is an amount that is not required for the purposes of having the Work performed or of compensating Canada for any other loss or damage incurred or sustained by reason of the Contractor's default, Canada may then pay the Contractor the amount determined not to be required pursuant to subsection 4 of GC7.1.

GC7.2 Effect of Taking the Work Out of the Contractor's Hands

1. The taking of the Work or part thereof out of the Contractor's hands pursuant to subsection 1 of GC7.1 does not operate so as to relieve or discharge the Contractor from any obligations under the Contract or imposed upon the Contractor by law except the obligation to complete the performance of that part of the Work that was taken out of the Contractor's hands.
2. All Plant and Material and the interest of the Contractor in all real property, licenses, powers and privileges acquired, used, provided or consumed by the Contractor under the Contract shall continue to be the property of Canada without compensation to the Contractor.
3. GC7.3 Suspension of the Contract

1. The Minister may, upon giving notice in writing to the Contractor, suspend the performance of the Work at any time. The Contractor shall comply with such notice immediately, subject to any conditions that may be stipulated in the notice.

3. It is the responsibility of the Contractor to mitigate all costs during the suspension period.

GC7.4 Termination of the Contract

1. The Minister may terminate the Contract at any time by giving notice of termination in writing to the Contractor and upon receipt of such notice the Contractor shall cease all operations in performance of the Contract, subject to any conditions that may be stipulated in the notice.
 2. Termination under subsection 1 of GC7.4 shall not relieve the Contractor of any legal or contractual obligations other than that portion of Work that remains to be completed at the time of the termination.
 3. Payment, in event of termination under this subsection, shall be made pursuant to the provision of GC5.8.

"dispute" means any disagreement regarding any issue identified by the Contractor in the notice submitted to the Departmental Representative in accordance with section GC 8.3, and includes any claim by the Contractor arising from such disagreement and any counterclaim by Canada, but does not include any claim by either party for punitive or exemplary damages, injury to persons, death, or any claim based on an allegation of libel or slander; and

"Working Day" means a day other than a Saturday, Sunday or a holiday which is observed by the construction industry in the area where the Work is located.
2. The alternative dispute resolution procedures set out in GC 8, do not apply to any claim by Canada against the Contractor except any counterclaim in a dispute, including, but not limited to, any claim of setoff regarding any amount due to Canada under section GC 6.3.

Such notice shall refer specifically to section GC 8.4, and shall specify the issues in contention and the relevant provisions of the Contract.

3. The giving of a written notice in accordance with subsection GC 8.3.2 shall not relieve the Contractor from complying with the decision or direction that is the subject of the dispute. 4. If a dispute is not resolved promptly, the Departmental Representative shall give such instructions as, in the Departmental Representative's opinion, are necessary for the proper performance of the Work and to prevent delays pending a resolution of the matter. Unless the Minister terminates the Contract, orders the Contractor to suspend the Work, or takes the Work out of the hands of the Contractor, the Contractor shall continue to perform the Work in accordance with the provisions and requirements of the Contract and the instructions of the Departmental Representative. GC 8.4 Negotiation

3. 4. If the Contractor does not request mediation within the period permitted by subsection GC 8.4.3, the Contractor shall be deemed to have accepted the decision or direction of the Departmental Representative under subsection 1 of GC 8.3, and to have expressly waived and released Canada from any claim in respect of the particular matter dealt with in that decision or direction.

1. If the Contractor has requested mediation in accordance with subsection GC 8.4.3, mediation shall be conducted in accordance with clause R0208D, Dispute Resolution - Rules for Mediation.

Effective 14/05/04, this clause is superseded by Z0606C.

Z0607C (01/04/92) Inspection of Supplies - Fixed Price

(a) Definition. "Supplies" as used in this clause, includes but is not limited to raw materials, requirements, intermediate assemblies and end products.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Canadian Commercial Corporation (CCC) covering supplies under this Contract and shall tender for acceptance only supplies that have been inspected in accordance with the inspection system and have been found by the Contractor to be in conformity with Contract requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to CCC during Contract performance and for as long afterwards as the Contract requires. CCC may perform reviews and evaluations as reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in a manner that will not unduly delay the Contract Work. The right of review, whether exercised or not, does not relieve the Contractor of its obligations under the Contract.

(c) CCC has the right to inspect and test all supplies called for by the Contract, to the extent practicable, at all places and times, including the period of manufacture, and in any event before acceptance. CCC shall perform inspections and tests in a manner that will not unduly delay the Work. CCC assumes no contractual obligation to perform any inspection or test for the benefit of the Contractor, unless specifically set forth elsewhere in this Contract.

(d) If CCC performs an inspection or a test on the premises of the Contractor or a subContractor, the Contractor shall furnish, and shall require subcontractors to furnish, without additional charge, all reasonable facilities and assistance for the safe and convenient performance of these duties. Except as otherwise provided in the Contract, CCC shall bear the expense of CCC inspections or tests made at other than the Contractor's or subcontractor's premises; provided, that in a case of rejection, CCC shall not be liable for any reduction in the value of inspection or test samples.

Z - Canadian Commercial Corporation

- (e) 1. When supplies are not ready at the time specified by the Contractor for inspection or test, CCC may charge to the Contractor the additional cost of inspection or test.
2. CCC may also charge the Contractor for any additional cost of inspection or test when prior rejection makes reinspection or retest necessary.
- (f) CCC has the right either to reject or to require correction of non-conforming supplies. Supplies are non-conforming when they are defective in material or workmanship or are otherwise not in conformity with Contract requirements. CCC may reject non-conforming supplies with or without disposition instructions.
- (g) The Contractor shall remove supplies rejected or required to be corrected. However, the U.S. Government may require or permit correction in place, promptly after notice, by and at the expense of the Contractor. The Contractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction, and, when required, shall disclose the corrective action taken.
- (h) If the Contractor fails to promptly remove, replace, or correct rejected supplies that are required to be removed or to be replaced or corrected, CCC may either (1) by Contract or otherwise, remove, replace, or correct the supplies and charge the cost to the Contractor, or (2) terminate the Contract for default. Unless the Contractor corrects or replaces the supplies within the delivery schedule, CCC may require their delivery and make an equitable price reduction. Failure to agree to a price reduction shall be a dispute.
- (i) 1. If this Contract provides for the performance of the Canadian Government quality assurance at source, and if requested by the Government, the Contractor shall furnish advance notification of the time
- (i) when Contractor inspection or tests will be performed in accordance with the terms and conditions of the Contract; and
 - (ii) when the supplies will be ready for Government inspection.
2. The Government request shall specify the period and method of the advance notification and the Government representative to whom it shall be furnished. Requests shall not require more than two (2) workdays of advance notification if the Government representative is in residence in the Contractor's plant; no more than seven (7) workdays in other instances.
- (j) The U.S. Government shall accept or reject supplies as promptly as practicable after delivery, unless otherwise provided in the Contract. U.S. Government failure to inspect and accept or reject the supplies shall not relieve the Contractor from responsibility nor impose liability on the U.S. Government, for non-conforming supplies.
- (k) Inspections and tests by the U.S. Government do not relieve the Contractor of responsibility for the defects or other failures to meet Contract requirements discovered before acceptance. Acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as otherwise provided in the Contract.
- (l) If acceptance is not conclusive for any of the reasons in paragraph (k) hereof, CCC, in addition to any other rights and remedies provided by law, or under other provisions of the Contract, shall have the right to require the Contractor (1) at no increase in Contract Price, to correct or replace the defective or nonconforming supplies at the original point of delivery or at the Contractor's plant at CCC's election, and in accordance within a reasonable delivery schedule as may be agreed upon between the Contractor and CCC; provided that CCC may require a reduction in Contract Price if the Contractor fails to meet such delivery schedule, or (2) within a reasonable time after receipt by the Contractor of notice of defects or non-conformance, to repay such portion of the Contract as is equitable under the circumstances if CCC elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the transportation cost from the original point of delivery to the Contractor's plant and return to the original point. If the Contractor fails to perform or act as required in (1) or (2) above and does not cure such failure within a period of ten (10) days (or such longer period as CCC may authorize in writing) after receipt of notice from CCC specifying such failure, CCC shall have the right by Contract or otherwise to replace or correct such supplies and charge to the Contractor the cost occasioned CCC thereby.

(C) reimbursement of the cost of the material by the U.S. Government,

whichever occurs first.

(d) Use of Government property. The Government property shall be used only for performing this Contract, unless otherwise provided in this Contract or approved by the Contracting Officer.

(e) Property administration.

1. The Contractor shall be responsible and accountable for all Government property provided under this Contract and shall comply with Federal Acquisition Regulation (FAR) Subpart 45.5, as in effect on the date of this Contract.

2. The Contractor shall establish and maintain a program for the use, maintenance, repair, protection, and preservation of Government property in accordance with sound industrial practice and the applicable provisions of Subpart 45.5 of the FAR.

3. If damage occurs to Government property, the risk of which has been assumed by the U.S. Government under this Contract, the U.S. Government shall replace the items or the Contractor shall make such repairs as the U.S. Government directs. However, if the Contractor cannot effect such repairs within the time required, the Contractor shall dispose of the property as directed by the Contracting Officer. When any property for which the U.S. Government is responsible is replaced or repaired, the Contracting Officer shall make an equitable adjustment in accordance with paragraph (h) of this clause.

4. The Contractor represents that the Contract Price does not include any amount for repairs or replacement for which the U.S. Government is responsible. Repair or replacement of property for which the Contractor is responsible shall be accomplished by the Contractor at its own expense.

(f) Access. The U.S. Government and all its designees shall have access at all reasonable times to the premises in which any Government property is located for the purpose of inspecting the Government property.

(g) Risk of loss. (If clause Z0802C or Z0803C is referenced in the procurement document, this paragraph (g) does not apply.) Unless otherwise provided in this Contract, the Contractor assumes the risk of, and shall be responsible for, any loss or destruction of, or damage to, Government property upon its delivery to the Contractor or upon passage of title to the U.S. Government under paragraph (c) of this clause. However, the Contractor is not responsible for reasonable wear and tear to Government property or for Government property properly consumed in performing this Contract.

(h) Equitable adjustment. When this clause specifies an equitable adjustment, it shall be made to any affected Contract provision in accordance with the procedures of the Changes clause, if any, or any other clause that establishes the procedures for amendment of the Contract. When appropriate, the Contracting Officer may initiate an equitable adjustment in favour of CCC or the U.S. Government. The

Z - Canadian Commercial Corporation

right to an equitable adjustment shall be the Contractor's exclusive remedy. Neither CCC nor the U.S. Government shall be liable to suit for breach of Contract for

1. any delay in delivery of Government-furnished property;
2. delivery of Government-furnished property in a condition not suitable for its intended use;
3. a decrease in or substitution of Government-furnished property; or
4. failure to repair or replace Government property for which the U.S. Government is responsible.

(i) Final accounting and disposition of Government property. Upon completing this Contract, or at such earlier dates as may be fixed by the Contracting Officer, the Contractor shall submit, in a form acceptable to the Contracting Officer, inventory schedules covering all items of Government property (including any resulting scrap) not consumed in performing this Contract or delivered to the U.S. Government. The Contractor shall prepare for shipment, deliver FOB origin, or dispose of the Government property as may be directed or authorized by the Contracting Officer. The net proceeds of any such disposal shall be credited to the Contract Price or shall be paid to CCC or the U.S. Government as the Contracting Officer directs.

(j) Abandonment and restoration of Contractor's premises. Unless otherwise provided herein, the U.S. Government

1. may abandon any Government property in place, at which time all obligations of the U.S. Government regarding such abandoned property shall cease; and
2. has no obligation to restore or rehabilitate the Contractor's premises under any circumstances (e.g., abandonment, disposition upon completion of need, or upon Contract completion). However, if the Government-furnished property (listed in the Schedule or specifications) is withdrawn or is unsuitable for the intended use, or if other Government property is substituted, then the equitable adjustment under paragraph (h) of this clause may properly include restoration or rehabilitation costs.

(k) Communications. All communications under this clause shall be in writing.

Remarks: As prescribed in FAR 45.106(b)(2), substitute the following paragraph (g) for paragraph (g) of clause Z0801C, under the following conditions:

- i) if the contract is a negotiated fixed-price contract for which prices are not based on adequate price competition, established catalogue or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, or;
- ii) if the contract is a fixed-price service contract which is performed primarily on a Government installation, provided the contracting officer determines it to be in the best interest of the Government.

NOTE: This clause may only be used in conjunction with clause Z0801C.

Z0802C (01/04/92) Government Property - Alternate I

The following replaces paragraph (g) of clause Z0801C.

(g) Limited risk of loss.

1. The term "Contractor's managerial personnel," as used in this paragraph (g), means the Contractor's directors, officers, and any of the Contractor's managers, superintendents, or equivalent representatives who have supervision or direction of

- (i) all or substantially all of the Contractor's business;

Z - Canadian Commercial Corporation

(ii) all or substantially all of the Contractor's operation at any one plant or separate location at which the Contract is being performed; or

(iii) a separate and complete major industrial operation connected with performing this Contract.

2. The Contractor shall not be liable for loss or destruction of, or damage to, the Government property provided under this Contract (or, if an educational or nonprofit organization, for expenses incidental to such loss, destruction, or damage), except as provided in subparagraphs 3. and 4. below.

3. The Contractor shall be responsible for loss or destruction of, or damage to, the Government property provided under this Contract (including expenses incidental to such loss, destruction, or damage):

(i) that results from a risk expressly required to be insured under this Contract, but only to the extent of the insurance required to be purchased and maintained, or to the extent of insurance actually purchased and maintained, whichever is greater;

(ii) that results from a risk that is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement;

(iii) for which the Contractor is otherwise responsible under the express terms of this Contract;

(iv) that results from wilful misconduct or lack of good faith on the part of the Contractor's managerial personnel; or

(v) that results from a failure on the part of the Contractor, due to wilful misconduct or lack of good faith on the part of the Contractor's managerial personnel, to establish and administer a program or system for the control, use, protection, preservation, maintenance, and repair of Government property as required by paragraph (e) of clause Z0801C.

4. (i) If the Contractor fails to act as provided in subdivision (g)3.(v) above, after being notified (by certified mail addressed to one of the Contractor's managerial personnel) of CCC's or the U.S. Government's disapproval, withdrawal of approval, or nonacceptance of the system or program, it shall be conclusively presumed that such failure was due to wilful misconduct or lack of good faith on the part of the Contractor's managerial personnel.

(ii) In such event, any loss or destruction of, or damage to, the Government property shall be presumed to have resulted from such failure, unless the Contractor can establish by clear and convincing evidence that such loss, destruction, or damage

(A) did not result from the Contractor's failure to maintain an approved program or system; or

(B) occurred while an approved program or system was maintained by the Contractor.

5. If the Contractor transfers Government property to the possession and control of a subcontractor, the transfer shall not affect the liability of the Contractor for loss or destruction of, or damage to, the property as set forth above. However, the Contractor shall require the subcontractor to assume the risk of, and be responsible for, any loss or destruction of, or damage to, the property while in the subcontractor's possession or control, except to the extent that the subcontract, with the advance approval of the Contracting Officer, relieves the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received, except for reasonable wear and tear or for its use in accordance with the provisions of the prime Contract.

6. Upon loss or destruction of, or damage to, Government property provided under this Contract, the Contractor shall so notify the Contracting Officer and shall communicate with the loss and salvage organization, if any, designated by the Contracting Officer. With the assistance of any

Z - Canadian Commercial Corporation

such organization, the Contractor shall take all reasonable action to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the affected Government property in the best possible order, and furnish to the Contracting Officer a statement of

- (i) the lost, destroyed or damaged Government property;
- (ii) the time and origin of the loss, destruction, or damage;
- (iii) all known interests in commingled property of which the Government property is a part; and
- (iv) the insurance, if any, covering any part of or interest in such commingled property.

7. The Contractor shall repair, renovate, and take such other action with respect to damaged Government property as the Contracting Officer directs. If the Government property is destroyed or damaged beyond practical repair, or is damaged and so commingled or combined with property of others (including the Contractor's) that separation is impractical, the Contractor may, with the approval of and subject to any conditions imposed by the Contracting Officer, sell such property for the account of the Government. Such sales may be made in order to minimize the loss to the Government, to permit the resumption of business, or to accomplish a similar purpose. The Contractor shall be entitled to an equitable adjustment in the Contract Price for the expenditure made in performing the obligations under this subparagraph (g) 7. in accordance with paragraph (h) of clause Z0801C. However, the Government may directly reimburse the loss and salvage organization for any of their charges. The Contracting Officer shall give due regard to the Contractor's liability under this paragraph (g) when making such equitable adjustment.

8. The Contractor represents that it is not including in the price, and agrees it will not hereafter include in any price to CCC, any charge or reserve for insurance (including any self-insurance fund or reserve) covering loss or detection of, or damage to, Government property, except to the extent that CCC may have expressly required the Contractor to carry such insurance under another provision of this Contract.

9. In the event the Contractor is reimbursed or otherwise compensated for any loss or destruction of, or damage to, Government property, the Contractor shall use the proceeds to repair, renovate, or replace the lost, destroyed, or damaged Government property, or shall otherwise credit the proceeds to equitably reimburse CCC, as directed by the Contracting Officer.

10. The Contractor shall do nothing to prejudice CCC or the U.S. Government's rights to recover against third parties for any loss or destruction of, or damage to, Government property. Upon the request of the Contracting Officer, the Contractor shall, at the expense of CCC or the U.S. Government, furnish to that party all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favour of that party) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of, or damage to, Government property, the Contractor shall enforce for the benefit of CCC or the U.S. Government the liability of the subcontractor for such loss, destruction, or damage.

Remarks: As prescribed in FAR 45.106(b)(3), substitute the following paragraphs (c) and (g) for paragraphs (c) and (g) of clause Z0801C if the contract is for the conduct of basic applied research at non profit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research.

NOTE: This clause may only be used in conjunction with clause Z0801C.

Z0803C (01/04/92) Government Property - Alternate II

The following replaces paragraphs (c) and (g) of clause Z0801C.

(c) Title to Government property.

Z - Canadian Commercial Corporation

1. The U.S. Government shall retain title to all Government- furnished property.
2. All Government-furnished property and all property acquired by the Contractor, title to which vests in the U.S. Government under this paragraph (collectively referred to as "Government property"), are subject to the provisions of this clause. Title to Government property shall not be affected by its incorporation into or attachment to any property not owned by the Government, nor shall Government property become a fixture or lose its identity as personal property by being attached to any real property.
3. Title to each item of facilities, special test equipment, and special tooling (other than that subject to a special tooling clause) acquired by the Contractor for the U.S. Government under this Contract shall pass to and vest in the U.S. Government when its use in performing this Contract commences, or when the U.S. Government has paid for it, whichever is earlier, whether or not title previously vested in the U.S. Government.
4. Title to equipment (and other tangible personal property) purchased with funds available for research and having an acquisition cost of less than \$5,000 shall vest in the Contractor upon acquisition or as soon thereafter as feasible, provided that the Contractor obtained the Contracting Officer's approval before each acquisition. Title to equipment purchased with funds available for research and having an acquisition cost of \$5,000 or more shall vest as set forth in the Contract. If title to equipment vests in the Contractor under this subparagraph (c)4., the Contractor agrees that no charge will be made to CCC or the U.S. Government for any depreciation, amortization, or use under any existing or future Contract or subcontract thereunder. The Contractor shall furnish the Contracting Officer a list of all equipment to which title is vested in the Contractor under this subparagraph (c)4. within ten (10) days following the end of the calendar quarter during which it was received.
5. Vesting title under this paragraph (c) is subject to civil rights legislation, 42 U.S.C. 2000d. Before title is vested and by signing this Contract, the Contractor accepts and agrees that:

"No person in the United States shall, on the ground of race, colour, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this contemplated financial assistance (title to equipment)."

(g) Limited risk of loss.

1. The term "Contractor's managerial personnel", as used in this paragraph (g), means the Contractor's directors, officers, and any of the Contractor's managers, superintendents, or equivalent representatives who have supervision or direction of:
 - (i) all or substantially all of the Contractor's business;
 - (ii) all or substantially all of the Contractor's operation at any one plant, laboratory, or separate location at which the Contract is being performed; or
 - (iii) a separate and complete major industrial operation connected with performing this Contract.
2. The Contractor shall not be liable for loss or destruction of, or damage to, the Government property provided under this Contract (or, if an educational or nonprofit organization, for expenses incidental to such loss, destruction, or damage), except as provided in subparagraphs 3. and 4. below.
3. The Contractor shall be responsible for loss or destruction of, or damage to, the Government property provided under this Contract (including expenses incidental to such loss, destruction, or damage):
 - (i) that results from a risk expressly required to be insured under this Contract, but only to the extent of the insurance required to be purchased and maintained, or to the extent of insurance actually purchased and maintained, whichever is greater;
 - (ii) that results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement;

Z - Canadian Commercial Corporation

(iii) for which the Contractor is otherwise responsible under the express terms of this Contract;

(iv) that results from wilful misconduct or lack of good faith on the part of the Contractor's managerial personnel; or

(v) that results from a failure on the part of the Contractor, due to wilful misconduct or lack of good faith on the part of the Contractor's managerial personnel, to establish and administer a program or system for the control, use, protection, preservation, maintenance, and repair of Government property as required by paragraph (e) of clause Z0801C.

4. (i) If the Contractor fails to act as provided in subdivision (g)3.(v) above, after being notified (by certified mail addressed to one of the Contractor's managerial personnel) of CCC's or the U.S. Government's disapproval, withdrawal of approval, or nonacceptance of the system or program, it shall be conclusively presumed that such failure was due to wilful misconduct or lack of good faith on the part of the Contractor's managerial personnel.

(ii) Furthermore, any loss or destruction of, or damage to, the Government property shall be presumed to have resulted from such failure, unless the Contractor can establish by clear and convincing evidence that such loss, destruction, or damage:

(A) did not result from the Contractor's failure to maintain an approved program or system; or

(B) occurred while an approved program or system was maintained by the Contractor.

5. If the Contractor transfers Government property to the possession and control of a subcontractor, the transfer shall not affect the liability of the Contractor for loss or destruction of, or damage to, the property as set forth above. However, the Contractor shall require the subcontractor to assume the risk of, and be responsible for, any loss or destruction of, or damage to, the property while in the subcontractor's possession or control, except to the extent that the subcontract, with the advance approval of the Contracting Officer, relieves the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received, except for reasonable wear and tear or for its use in accordance with the provisions of the prime Contract.

6. Upon loss or destruction of, or damage to, Government property provided under this Contract, the Contractor shall so notify the Contracting Officer and shall communicate with the loss and salvage organization, if any, designated by the Contracting Officer. With the assistance of any such organization, the Contractor shall take all reasonable action to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the affected Government property in the best possible order, and furnish to the Contracting Officer a statement of:

(i) the lost, destroyed, or damaged Government property;

(ii) the time and origin of the loss, destruction, or damage;

(iii) all known interests in commingled property of which the Government property is a part; and

(iv) the insurance, if any, covering any part of or interest in such commingled property.

7. The Contractor shall repair, renovate, and take such other action with respect to damaged Government property as the Contracting Officer directs. If the Government property is destroyed or damaged beyond practical repair, or is damaged and so commingled or combined with property of others (including the Contractor's) that separation is impractical, the Contractor may, with the approval of and subject to any conditions imposed by the Contracting Officer, sell such property for the account of the Government. Such sales may be made in order to minimize the loss to the Government, to permit the resumption of business, or to accomplish a similar purpose. The Contractor shall be entitled to an equitable adjustment in the Contract Price for the expenditures made in performing the obligations under this subparagraph (g)7. in accordance with paragraph (h)

Z - Canadian Commercial Corporation

of clause Z0801C. However, the Government may directly reimburse the loss and salvage organization for any of their charges. The Contracting Officer shall give due regard to the Contractor's liability under this paragraph (g) when making any such equitable adjustment.

8. The Contractor represents that it is not including in the price, and agrees it will not hereafter include in any price to CCC, any charge or reserve for insurance (including any self-insurance fund or reserve) covering loss or destruction of, or damage to, Government property, except to the extent that CCC may have expressly required the Contractor to carry such insurance under another provision of this Contract.

9. In the event the Contractor is reimbursed or otherwise compensated for any loss or destruction of, or damage to, the Government property, the Contractor shall use the proceeds to repair, renovate, or replace the lost, destroyed, or damaged Government property or shall otherwise credit the proceeds to or equitably reimburse CCC or the Government, as directed by the Contracting Officer.

10. The Contractor shall do nothing to prejudice CCC's or the U.S. Government's rights to recover against third parties for any loss or destruction of, or damage to, Government property. Upon the request of the Contracting Officer, the Contractor shall, at the expense of CCC or the U.S. Government, furnish to that party all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favour of that party) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of, or damage to, Government property, the Contractor shall enforce for the benefit of the Government the liability of the subcontractor for such loss, destruction, or damage.

Remarks: As prescribed in FAR 45.106(c), insert the following clause, in addition to clause Z0801C, Government Property, in solicitations and contracts when a fixed-price construction Contract is contemplated under which the Government is to furnish Government property FOB railway cars at a specified destination or FOB truck at the project site. The Contract Schedule shall specify the point of delivery and may include special terms and conditions covering installation, preparation for operation, or equipment testing by the Government or by another contractor.

Z0804D (01/04/92) Identification/Gov't-furnished Property

(a) The U.S. Government will furnish to the Contractor the property identified in the Schedule to be incorporated or installed into the Work or used in performing the Contract. The listed property will be furnished FOB railway cars at the place specified in the Contract Schedule or FOB truck at the project site. The Contractor is required to accept delivery, pay any demurrage or detention charges, and unload and transport the property to the job site at its own expense. When the property is delivered, the Contractor shall verify its quantity and condition and acknowledge receipt in writing to the Contracting Officer. The Contractor shall also report in writing to the Contracting Officer within twenty-four (24) hours of delivery any damage to or shortage of the property as received. All such property shall be installed or incorporated into the Work at the expense of the Contractor, unless otherwise indicated in this Contract.

(b) Each item of property to be furnished under this clause shall be identified in the Schedule by quantity, item, and description.

Remarks: As prescribed in FAR 45.106(d), insert the following clause in solicitations and contracts when a fixed-price, time-and-material, or labour-hour contract is contemplated and that the acquisition cost of all Government-furnished property to be involved in the contract is \$50,000 or less; unless a contract with an educational or nonprofit organization is contemplated.

Z - Canadian Commercial Corporation

Z0805D (01/04/92) Government-furnished Property

Z - Canadian Commercial Corporation

(a) The U.S. Government shall deliver to the Contractor, at the time and locations stated in this Contract, the Government-furnished property described in the Schedule or specifications. If that property, suitable for its intended use, is not delivered to the Contractor, the Contracting Officer shall equitably adjust affected provisions of this Contract in accordance with the Changes clause, if applicable, or the clause that establishes procedures for amending the Contract, when:

1. the Contractor submits a timely written request for an equitable adjustment; and
2. the facts warrant an equitable adjustment.

(b) Title to Government-furnished property shall remain in the U.S. Government. The Contractor shall use the Government-furnished property only in connection with this Contract. The Contractor shall maintain adequate property control records in accordance with sound industrial practice and will make such records available for CCC or U.S. Government inspection at all reasonable times, unless the clause at Federal Acquisition Regulation 52.245-1, Property Records, is included in this Contract.

(c) Upon delivery of Government-furnished property to the Contractor, the Contractor assumes the risk and responsibility for its loss or damage, except:

1. for reasonable wear and tear;
2. to the extent property is consumed in performing this Contract; or
3. as otherwise provided for by the provisions of this Contract.

(d) Upon completing this Contract, the Contractor shall follow the instructions of the Contracting Officer regarding the disposition of all Government-furnished property not consumed in performing this Contract or previously delivered to CCC or the U.S. Government. The Contractor shall prepare for shipment, deliver FOB origin, or dispose of the Government property, as may be directed or authorized by the Contracting Officer. The net proceeds of any such disposal shall be credited to the Contract Price or shall be paid to CCC or the U.S. Government as directed by the Contracting Officer.

Remarks: Use the following clause in cost-reimbursement contracts for supplies and services (except contracts for experimental developmental, or research work with educational or non-profit institutions, where no profit to the contractor is contemplated) under which a department is to furnish to a contractor, or a contractor is to acquire U.S. Government property.

NOTE: This clause must be used in conjunction with clause Z0807C and may be used in conjunction with clause Z0808C (formerly U.S. 5B, Alternate I), as applicable.

2. The delivery or performance dates for this Contract are based upon the expectation that Government-furnished property suitable for use will be delivered to the Contractor at the times stated in the Schedule or, if not so stated, in sufficient time to enable the Contractor to meet the Contract's delivery or performance dates.

3. If Government-furnished property is received by the Contractor in a condition not suitable for the intended use, the Contractor shall, upon receipt, notify the Contracting Officer, detailing the facts, and, as directed by the Contracting Officer and at U.S. Government expense, either effect repairs or modifications or return or otherwise dispose of the property. After completing the directed action and upon written request of the Contractor, the Contracting Officer shall make an equitable adjustment as provided in paragraph (h) of clause Z0807C.

Z - Canadian Commercial Corporation

4. If Government-furnished property is not delivered to the Contractor by the required time or times, the Contracting Officer shall, upon the Contractor's timely written request, make a determination of the delay, if any, caused the Contractor and shall make an equitable adjustment in accordance with paragraph (h) of clause Z0807C.

(b) Changes in Government-furnished property.

1. The Contracting Officer may, by written notice,

(i) decrease the Government-furnished property provided or to be provided under this Contract; or

(ii) substitute other Government-furnished property for the property to be provided by the U.S. Government or to be acquired by the Contractor for the U.S. Government under this Contract. The Contractor shall promptly take such action as the Contracting Officer may direct regarding the removal, shipment, or disposal of the property covered by this notice.

2. Upon the Contractor's written request, the Contracting Officer shall make an equitable adjustment to the Contract in accordance with paragraph (h) of clause Z0807C, if the U.S. Government has agreed in the Schedule to make such property available for performing this Contract and there is any:

(i) decrease or substitution of this property pursuant to subparagraph (b)1. above; or

(ii) withdrawal of authority to use property, if provided under any other Contract or lease.

(c) Title. (If clause Z0808C is referenced in the procurement document, this paragraph (c) does not apply.)

1. The U.S. Government shall retain title to all Government- furnished property.

2. Title to all property purchased by the Contractor for which the Contractor is entitled to be reimbursed as a direct item of cost under this Contract shall pass to and vest in the U.S. Government upon the vendor's delivery of such property.

3. Title to all other property, the cost of which is reimbursable to the Contractor, shall pass to and vest in the U.S. Government upon:

(i) issuance of the property for use in Contract performance;

(ii) commencement of processing of the property or use in Contract performance; or

(iii) reimbursement of the cost of the property by CCC or the U.S. Government,

whichever occurs first.

4. All Government-furnished property and all property acquired by the Contractor, title to which vests in the U.S. Government under this paragraph (collectively referred to as "Government property"), are subject to the provisions of this clause. (d) Use of Government property. The Government property shall be used only for performing this Contract, unless otherwise provided in this Contract or approved by the Contracting Officer.

(e) Property administration.

Z - Canadian Commercial Corporation

2. The Contractor shall establish and maintain a program for the use, maintenance, repair, protection, and preservation of Government property in accordance with sound business practice and the applicable provisions of FAR Subpart 45.5.

3. If damage occurs to Government property, the risk of which has been assumed by the U.S. Government under this Contract, the U.S. Government shall replace the items or the Contractor shall make such repairs as CCC or the U.S. Government directs. However, if the Contractor cannot effect such repairs within the time required, the Contractor shall dispose of the property as directed by the Contracting Officer. When any property for which the U.S. Government is responsible is replaced or repaired, the Contracting Officer shall make an equitable adjustment in accordance with paragraph (h) of clause Z0807C.

(f) Access. The Government and all its designees shall have access at all reasonable times to the premises in which any Government property is located for the purpose of inspecting the Government property.

Remarks: This clause must be used in conjunction with clause Z0806C.

Z0807C (01/04/92) Government Property

(g) Limited risk of loss.

1. The term "Contractor's managerial personnel," as used in this clause, means any of the Contractor's directors, officers, managers, superintendents, or equivalent representatives who have supervision or direction of:

- (i) all or substantially all of the Contractor's business;
- (ii) all or substantially all of the Contractor's operation at any one plant or separate location at which the Contract is being performed; or
- (iii) a separate and complete major industrial operation connected with performing this Contract.

2. The Contractor shall not be liable for loss or destruction of, or damage to, the Government property provided under this Contract or for expenses incidental to such loss, destruction, or damage, except as provided in subparagraphs 3. and 4. below.

3. The Contractor shall be responsible for loss or destruction of, or damage to, the Government property provided under this Contract (including expenses incidental to such loss, destruction, or damage):

- (i) that results from a risk expressly required to be insured under this Contract, but only to the extent of the insurance required to be purchased and maintained or to the extent of insurance actually purchased and maintained, whichever is greater;
- (ii) that results from a risk that is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement;

4. (i) If the Contractor fails to act as provided by subdivision (g)3.(v) above, after being notified (by certified mail addressed to one of the Contractor's managerial personnel) of

Z - Canadian Commercial Corporation

CCC's or the U.S. Government's disapproval, withdrawal of approval, or nonacceptance of the system or program, it shall be conclusively presumed that such failure was due to wilful misconduct or lack of good faith on the part of the Contractor's managerial personnel.

(ii) In such event, any loss or destruction of, or damage to, the Government property shall be presumed to have resulted from such failure, unless the Contractor can establish by clear and convincing evidence that such loss, destruction, or damage:

(A) did not result from the Contractor's failure to maintain an approved program or system; or

(B) occurred while an approved program or system was maintained by the Contractor.

5. If the Contractor transfers Government property to the possession and control of a subcontractor, the transfer shall not affect the liability of the Contractor for loss or destruction of, or damage to, the property as set forth above. However, the Contractor shall require the subcontractor to assume the risk of, and be responsible for, any loss or destruction of, or damage to, the property while in the subcontractor's possession or control, except to the extent that the subcontractor, with the advance approval of the Contracting Officer, relieves the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received, except for reasonable wear and tear or for its use in accordance with the provisions of the prime Contract.

6. Upon loss or destruction of, or damage to, Government property provided under this Contract, the Contractor shall so notify the Contracting Officer and shall communicate with the loss and salvage organization, if any, designated by the Contracting Officer. With the assistance of any such organization, the Contractor shall take all reasonable action to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the affected Government property in the best possible order, and furnish to the Contracting Officer a statement of:

(i) the lost, destroyed, or damaged Government property;

(ii) the time and origin of the loss, destruction, or damage;

(iii) all known interests in commingled property of which the Government property is a part; and

(iv) the insurance, if any, covering any part of or interest in such commingled property.

7. The Contractor shall repair, renovate, and take such other action with respect to damaged Government property as the Contracting Officer directs. If the Government property is destroyed or damaged beyond practical repair, or is damaged and so commingled or combined with property of others (including the Contractor's) that separation is impractical, the Contractor may, with the approval of and subject to any conditions imposed by the Contracting Officer, sell such property for the account of CCC or the U.S. Government. Such sales may be made in order to minimize the loss to the U.S. Government, to permit the resumption of business, or to accomplish a similar purpose. The Contractor shall be entitled to an equitable adjustment in the Contract Price for the expenditures made in performing the obligations under this subparagraph (g)7. in accordance with paragraph (h) of this clause. However, the U.S. Government may directly reimburse the loss and salvage organization for any of their charges. The Contracting Officer shall give due regard to the Contractor's liability under this paragraph (g) when making any such equitable adjustment.

8. The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance or of any reserve covering risk of loss or destruction of, or damage to, Government property, except to the extent that CCC may have expressly required the Contractor to carry such insurance under another provision of this Contract.

9. In the event the Contractor is reimbursed or otherwise compensated for any loss or destruction of, or damage to, Government property, the Contractor shall use the proceeds to repair, renovate, or replace the lost, destroyed, or damaged Government property or shall otherwise credit the proceeds to, or equitably reimburse, CCC or the U.S. Government, as directed by the Contracting Officer.

Z - Canadian Commercial Corporation

10. The Contractor shall do nothing to prejudice CCC's or the U.S. Government's rights to recover against third parties for any loss or destruction of, or damage to, Government property. Upon the request of the Contracting Officer, the Contractor shall, at CCC's or the U.S. Government's expense, furnish to that party all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favour of that party) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of, or damage to, Government property, the Contractor shall enforce, for the benefit of CCC or the U.S. Government, the liability of the subcontractor for such loss, destruction, or damage.

(h) Equitable adjustment. When this clause specifies an equitable adjustment, it shall be made to any affected Contract provision in accordance with the procedures of the Changes clause, if applicable, or the clause that establishes procedures for amending the Contract. When appropriate, the Contracting Officer may initiate an equitable adjustment in favour of CCC or the U.S. Government. The right to an equitable adjustment shall be the Contractor's exclusive remedy. Neither CCC nor the U.S. Government shall be liable to suit for breach of Contract for:

1. any delay in delivery of Government-furnished property;
2. delivery of Government-furnished property in a condition not suitable for its intended use;
3. a decrease in or substitution of Government-furnished property; or
4. failure to repair or replace Government property for which the U.S. Government is responsible.

(i) Final accounting and disposition of Government property. Upon completing this Contract, or at such earlier dates as may be fixed by the Contracting Officer, the Contractor shall submit, in a form acceptable to the Contracting Officer, inventory schedules covering all items of Government property not consumed in performing this Contract or delivered to the U.S. Government. The Contractor shall prepare for shipment, deliver FOB origin, or dispose of the Government property as may be directed or authorized by the Contracting Officer. The net proceeds of any such disposal shall be credited to the cost of the Work covered by this Contract or paid to CCC or the U.S. Government as directed by the Contracting Officer. The foregoing provisions shall apply to scrap from Government property; provided, however, that the Contracting Officer may authorize or direct the Contractor to omit from such inventory schedules any scrap consisting of faulty castings or forgings or of cutting and processing waste, such as chips, cuttings, borings, turnings, short ends, circles, trimmings, clippings, and remnants, and to dispose of such scrap in accordance with the Contractor's normal practice and account for it as a part of general overhead or other reimbursable costs in accordance with the Contractor's established accounting procedures.

(j) Abandonment and restoration of Contractor premises. Unless otherwise provided herein, the Government:

1. may abandon any Government property in place, at which time all obligations of the Government regarding such abandoned property shall cease; and
2. has no obligation to restore or rehabilitate the Contractor's premises under any circumstances (e.g., abandonment, disposition upon completion of need, or Contract completion). However, if the Government-furnished property (listed in the Schedule or specifications) is withdrawn or is unsuitable for the intended use, or if other Government property is substituted, then the equitable adjustment under paragraph (h) of this clause may properly include restoration or rehabilitation costs.

(k) Communications. All communications under this clause shall be in writing.

Remarks: As prescribed in 45.106(f)(2), substitute the following paragraph (c) for paragraph (c) of clause Z0801C in solicitations and contracts when a cost-reimbursement, time-and-material, or labour-hour contract is contemplated, except as provided in clause Z0803C.

NOTE: This clause may only be used in conjunction with clauses Z0806C and Z0807C.

6. CCC shall not be liable to the Canadian Contractor except to the extent that it is established that the U.S. government is liable to CCC under the Disputes clause.

Z1600C (01/04/92) Disputes

Effective 03/02/97, this clause is superseded by Z1600C.

Remarks: Use the following clause in fixed price production contracts.

Z1800C (01/04/92) Default

(a) CCC may, subject to the provisions of paragraph c) below, by written notice of default to the Contractor, terminate the whole or any part of this Contract in any one of the following circumstances:

- (i) if the Contractor fails to make delivery of the supplies or to perform the services within the time specified herein or any extension thereof; or

Z - Canadian Commercial Corporation

(ii) if the Contractor fails to perform any of the other provisions of this Contract or so fails to make progress as to endanger performance of this Contract in accordance with its terms and, in either of these two circumstances, does not cure such failure within a period of ten (10) days (or such longer period as CCC may authorize in writing) after receipt of notice from CCC specifying such failure.

(b) In the event CCC terminates this Contract in whole or in part as provided in paragraph (a) of this clause, it may procure, upon such terms and in such manner as it may deem appropriate, supplies or services similar to those so terminated and the Contractor shall be liable to CCC for any excess costs for such similar supplies or services, provided that the Contractor shall continue the performance of the Contract to the extent not terminated under the provisions of this clause.

(c) Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the Contract arises from causes beyond the Contractor's control and without the Contractor's fault or negligence. Examples of such causes include (1) acts of God or of the public enemy, (2) acts of the U.S. Government in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6) quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance the failure to perform must be beyond the Contractor's control and without the Contractor's fault or negligence. If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and its subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(d) If this Contract is terminated as provided in paragraph (a) of this clause, CCC, in addition to any other rights provided in this clause, may require the Contractor to transfer title and deliver to the U.S. Government, in the manner and to the extent directed by CCC:

(i) any completed supplies; and

(ii) such partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and Contract rights (hereinafter called "manufacturing materials") as the Contractor has specifically produced or specifically acquired for the performance of such part of this Contract as has been terminated; and the Contractor shall, upon direction of CCC, protect and preserve property in its possession in which CCC has an interest. Payment for completed supplies delivered to and accepted by the U.S. Government shall be at the Contract Price. Payment for manufacturing materials delivered to and accepted by the U.S. Government and for the protection and preservation of property shall be in an amount agreed upon by the Contractor and CCC; failure to agree to such amount shall be a dispute concerning a question of fact within the meaning of the clause of this Contract entitled "Disputes". CCC may withhold from amounts otherwise due the Contractor for such completed supplies or manufacturing materials such sum as CCC determines to be necessary to protect CCC against loss because of outstanding liens or claims of former lien holders.

If, after notice of termination of this Contract under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, and if this Contract does not contain a clause providing for termination for convenience of the Government, the Contract shall be equitably adjusted to compensate for such termination and the Contract modified accordingly; failure to agree to any such adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this Contract entitled "Disputes".

(b) The Contractor shall promptly notify the Contracting Officer specified herein as to the amount and effective date of each decrease in any established price, and each applicable unit price under this Contract shall be decreased by the amount of the decrease in the applicable established price. Any such decrease in a unit price shall apply to those supplies delivered on and after the effective date of the corresponding decrease in the Contractor's established price, and this Contract shall be amended accordingly. The Contractor shall certify on each invoice submitted under the Contract that each unit price stated therein reflects all decreases, if any, which the Contractor has made in the established price applicable thereto since the date set for opening of bids (or the Contract date, if this is a negotiated Contract rather than one entered into by formal advertising), or shall certify on the final invoice that all such decreases have been applied to supplies delivered on and after the effective date of each such decrease in the Contractor's established prices.

(c) The Contractor may, from time to time after the date of this Contract and during the performance hereof, by written notice to the CCC Contracting Officer, request an upward adjustment in any of the Contract unit prices to be effective as of a date to be specified by the Contractor. Such request shall be acted upon in accordance with the following provisions of this clause.

(d) An upward adjustment in a Contract unit price may be made under this clause only in accordance with the following conditions:

1. Such an upward adjustment shall be made only if the Contractor's applicable established price has increased subsequent to the date set for opening of bids (or the Contract date, if this is a negotiated Contract rather than one entered into by means of formal advertising).
2. No unit price shall be increased by an amount greater than the amount of the increase in the Contractor's applicable established price.
3. The aggregate of the increases in any unit price made under this clause shall not exceed ten (10) percent of the original unit price under the Contract.
4. No adjusted unit price shall be effective earlier than the effective date of the increase in the applicable established price, but if the Contractor's request for adjustment is received by the Contracting Officer more than ten (10) days after the effective date of the increase in the Contractor's applicable rate, no adjusted unit price shall be effective earlier than the date of receipt by the Contracting Officer of such request.
5. No upward adjustment in unit prices hereunder shall apply to supplies which were required by the Contract delivery schedule to be delivered prior to the effective date of the related increase in the applicable established price, unless the Contractor's failure to deliver supplies in accordance with the delivery schedule results from causes beyond the control and without the fault or negligence of the Contractor within the meaning of paragraph c) of the clause of this Contract entitled "Default", in which case the Contract shall be amended to make an equitable extension of the delivery schedule.

(e) In the event the requested upward adjustment in a unit price under the Contract is acceptable to the CCC Contracting Officer, the Contractor shall be so notified by the Contracting Officer, and the Contract shall be amended accordingly. In the event the requested upward adjustment is not acceptable to the Contracting Officer, or if the Contracting Officer does not reach an agreement with the Contractor with respect to a price increase, the Contracting Officer may, within thirty (30) days after receipt of the Contractor's request, cancel, without liability to either party, the Contractor's right to proceed with performance of that portion of the Contract which is undelivered at the time of such cancellation, except that the Contractor may make delivery of all or any of the supplies which a duly authorized officer of the Contractor shall certify were completed or in the process of manufacture at the time of receipt of notice of such cancellation. In such event, CCC shall pay for all supplies so delivered at the applicable unit price contained in the Contractor's request, and the Contract shall be amended accordingly provided that such certification is made within ten (10) days after receipt of notice of such cancellation, and provided further than such requested increase satisfies all of the conditions and does not exceed the limitations of paragraph (d). In the event this Contract is for standard steel supplies, they shall be deemed to be in the process of manufacture when the steel therefor is in any state of processing after the beginning of the furnace melt.

(f) During the period after the Contractor has requested an upward adjustment, and prior to an agreement between the parties with respect to the request, or cancellation of the Contract pursuant to paragraph (e),

Z - Canadian Commercial Corporation

the Contractor shall be paid for deliveries of the item in respect of which the adjustment was requested at the applicable increased unit prices as requested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d), and provided further that if the parties agree on an increase less than that requested, payments previously made at the requested amount shall be adjusted accordingly. If the CCC Contracting Officer neither reaches an agreement with the Contractor on the requested adjustment, nor cancels the Contract, then the Contractor shall be paid therefor at the applicable increased unit prices as requested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d).
