## Note to users

**W**ith the January 2001 data, the Survey of Employment, Payrolls and Hours began publishing its estimates based on the North American Industry Classification. The NAICS based estimates are not comparable to the previously published estimates based on the Standard Industrial Classification of 1980. Therefore, in order to facilitate this transition, a NAICS based historical database from January 1991 to December 2000 has been produced. Please note that the levels of employment and average earnings of the NAICS based series have been adjusted to reflect the levels derived from the administrative sample and were also impacted by slight modifications to the industrial coverage and improvements to the methodology of the survey. In addition, seasonal factors have been revised to improve the historical consistency of the seasonally adjusted estimates.

See annex 3 for the concordance table between NAICS and the 1980 SIC.

Information on the conversion process can be obtained from LSD Clients Services: 613-951-4090 (telephone), 1-866-873-8788 (toll free), 613-951-2869 (fax), [labour@statcan.ca](mailto:labour@statcan.ca) (Internet). ## Avis aux utilisateurs

**C**ommençant avec les données du mois de janvier 2001, l'Enquête sur l'emploi, la rémunération et les heures de travail (EERH) publie ses estimations sur la base du Système de classification des industries de l'Amérique du Nord (SCIAN). Les estimations basées sur le SCIAN ne sont plus comparable aux estimations précédemment publiées sur la base de la Classification type des industries de 1980. Afin de faciliter la transition, une base de données chronologiques fondées sur le SCIAN a été produite pour la période allant de janvier 1991 à décembre 2000. Veuillez noter que les niveaux de l'emploi et des gains moyens des séries fondées sur le SCIAN, ont été ajustés pour refléter les niveaux obtenus à partir des données administratives et incluent aussi, les impacts provenant de modifications mineures à la couverture industrielle ainsi que des améliorations méthodologiques apportées à l'enquête. De plus, les facteurs saisonniers ont été révisés afin d'améliorer l'uniformité des estimations chronologiques désaisonnalisées .

Vous trouverez à l'annexe 3 un tableau de concordance entre les codes du SCIAN et de la CTI de 1980.

De l'information concernant le processus de conversion peut-être obtenue en contactant les Services aux clients de la DST: 613-951-4090 (téléphone), 1-866-873-8788 (sans frais), 613-951-2869 (télécopieur), [travail@statcan.ca](mailto:travail@statcan.ca) (Internet). ## Note to readers

Starting with the January 2001 data, the Survey of Employment, Payrolls and Hours will publish its estimates based on the North American Industry Classification (NAICS). The NAICS-based estimates are not comparable to the previously published estimates based on the Standard Industrial Classification (SIC) of 1980. Therefore, in order to facilitate this transition, NAICS-based historical series from January 1991 to December 2000 have been produced. Please note that the levels of employment and average earnings of the NAICS-based series have been adjusted to reflect the levels derived from the administrative sample and were also affected by slight modifications to the industrial coverage and improvements to the methodology of the survey. In addition, seasonal factors have been revised to improve the historical consistency of seasonally adjusted estimates.

## Note aux lecteurs

Avec la parution des données de janvier 2001, l'Enquête sur l'emploi, la rémunération et les heures de travail publie maintenant ses estimations sur la base du Système de classification des industries de l'Amérique du Nord (SCIAN). Les estimations basées sur le SCIAN ne sont plus comparables aux estimations précédemment publiées sur la base de la Classification type des industries (CTI) de 1980. Alors, afin de faciliter la transition, des séries chronologiques basées sur le SCIAN ont été produites pour la période allant de janvier 1991 à décembre 2000. Veuillez noter que les niveaux de l'emploi et des gains moyens des séries fondées sur le SCIAN ont été ajustés pour refléter les niveaux obtenus à partir des données administratives. Ils incluent aussi les effets provenant de modifications mineures à la couverture industrielle ainsi que des améliorations méthodologiques apportées à l'enquête. De plus, les facteurs saisonniers ont été révisés afin d'améliorer l'uniformité des estimations désaisonnalisées chronologiques.

The monthly Survey of Employment, Payrolls and Hours (SEPH) is designed to provide monthly estimates to measure levels and month-to-month trends of payroll employment paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

L'enquête sur l'emploi, la rémunération et les heures (EERH), a pour objet de mesurer les niveaux et les tendances mensuelles des salariés inscrits sur les listes de paye, des heures rémunérées et de la rémunération. Les estimations sont compilées pour des niveaux détaillés de la classification industrielle pour le Canada, les provinces et les territoires.

## Methodology

### Target population

The target population is composed of all employers in Canada, except those primarily involved in agriculture, fishing and trapping, private household services, religious organisations and military personnel of defence services. SEPH draws its samples from the Business Register (BR) maintained by the Business Register Division of Statistics Canada and from a list of all businesses registered in Canada Customs and Revenue Agency's Business Number program with one or more active payroll deduction accounts.

The Business Register is a list of all businesses in Canada and is updated each month using data from various surveys, business profiling and administrative data. The Business number is a unique identifier assigned by Canada Customs and Revenue Agency to business participating in one or more of the following programs: Payroll Deduction, Goods and Services Tax, Importer and Exporter Tax and Corporation Tax. The payroll deduction source includes all employers with remittances for employee income taxes, CPP/QPP and Employment Insurance contributions.

## Méthodologie

### Population cible

La population cible comprend tous les employeurs du Canada, sauf ceux dont les activités relèvent des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques aux ménages privés, des organismes religieux et du personnel militaire des services de la défense. Les échantillons de l'EERH sont tirés à partir du Registre des entreprises (RE) dont la mise à jour est faite par la Division du registre des entreprises de Statistique Canada, ainsi que d'une liste de toutes les entreprises ayant au moins un compte actif de retenues sur la paye et qui sont enregistrées auprès du programme Numéro d'entreprise de l'Agence des douanes et du revenu du Canada.

Le Registre des entreprises consiste en une liste de toutes les entreprises au Canada. La mise à jour est faite mensuellement à l'aide des résultats obtenus de différentes enquêtes, de profils d'entreprises et de données administratives. Le Numéro d'entreprise est un identificateur unique assigné par l'Agence des douanes et du revenu du Canada aux entreprises participant à un ou plus des programmes suivants: le programme des retenues sur la paye, la taxe sur les biens et les services, la taxe auprès des importateurs et des exportateurs et l'impôt auprès des sociétés. Le programme de retenues sur la paye inclut tous les employeurs qui effectuent des remises d'impôt sur le revenu, des cotisations au RPC/RRQ ainsi que des cotisations d'assurance-emploi pour leurs employés.

**The statistics contained in this publication are based on:**

- census of administrative records for all employers' establishments that are in-scope for the survey and are present on the Business Register 2. The monthly payroll and employment estimates are derived from the administrative source.
- a sample survey "Business Payrolls Survey (BPS)" is conducted monthly to collect data by a CATI (Computer Assisted Telephone Interviews) collection system to estimate SEPH variables not available on administrative records. The estimates derived from the administrative source are combined with the results of the BPS to produce estimates for the full range of SEPH variables.

The administrative data come from 2 questions that were added to the Canada Customs and Revenue Agency's remittance form (PD7). Note that employers who remit less than \$15,000 monthly in income tax withholdings, Canada/Quebec Pension Plan contributions and Employment Insurance premiums need to remit only once a month while all others are required to remit twice or more monthly. In addition, beginning with October 1997, employers remitting a total of \$12,000 or less per year are allowed to send their payroll deductions to Canada Customs and Revenue Agency on a quarterly basis.

The total payroll and employment estimates are obtained from Administrative records. The Business Payrolls Survey (BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficients needed to estimate data not reported on the administrative records. Combining different sources, BPS and Administrative Survey results in the full range of SEPH variables.

## TERMS AND DEFINITIONS

**Enterprise:** An enterprise is any business or institution whether incorporated or not; it comprises sole proprietorships, partnerships, companies and other forms of organizations. An enterprise is considered to be simple if all its establishments operate in the same province/industry classification; otherwise, an enterprise is classified as complex.

**Establishment:** For statistical purposes it is the smallest entity capable of reporting statistics of economic production, typically a factory, a mine, a store or a similar unit. Industry classifications: the North American Industrial Classification System (NAICS) is based on the supply side or on production oriented principles. Each establishment is assigned an industry code according to the NAICS. A description of the various industries and groups of industries is contained in the "North American Industrial Classification System" manual, Catalogue #12-501XPE and 12-501-XPF. For analytical purposes, we have created special groupings that are not part of the NAICS classification.

**Les statistiques comprises dans la présente publication sont fondées sur:**

- un recensement des dossiers administratifs pour tous les établissements dans le champ de l'enquête ayant des employés et qui sont sur le Registre des entreprises 2. Le nombre total de salariés inscrits sur les listes de paye et la rémunération mensuelle sont calculés à partir des dossiers administratifs.
- une enquête-échantillon "l'Enquête sur la rémunération auprès des entreprises (ERE)" est effectuée chaque mois en vue de recueillir des données par ITAO (Interview téléphonique assistée par ordinateur) afin de permettre le calcul des variables de l'EERH non disponibles sur les dossiers administratifs. Les estimations obtenues à partir des dossiers administratifs sont combinées aux résultats de l'ERE en vue de produire des estimations pour la totalité des variables de l'EERH.

Les données administratives proviennent de 2 questions qui ont été ajoutées au formulaire des retenues sur la paye (PD7) de l'Agence des douanes et du revenu du Canada. Veuillez noter que les employeurs qui versent moins de 15 000 \$ par mois en retenues d'impôt, en contributions au fonds de pension du Canada, au Régime des rentes du Québec et en primes d'assurance-emploi, n'effectuent qu'un versement mensuelle tandis que les autres font 2 versements ou plus par mois. De plus, depuis octobre 1997, les employeurs ayant un maximum total de 12 000 \$ ou moins en retenues sur la paye par année, peuvent faire des versements sur une base trimestrielle à l'Agence des douanes et du revenu du Canada.

Le nombre total de salariés inscrits sur la liste de paye provient des dossiers administratifs. L'Enquête sur la rémunération auprès des entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas rapportées sur les dossiers administratifs. Ces différents volets soit l'ERE ainsi que les dossiers administratifs sont combinés en vue de produire toutes les variables propres à l'EERH.

## TERMES ET DÉFINITIONS

**Entreprise :** Toute entreprise commerciale ou institution, constituée ou non en société; il peut s'agir d'une entreprise à propriétaire unique, d'une association, d'une société ou d'une autre forme d'organisation. Une entreprise est qualifiée de simple si tous ses établissements se trouvent dans la même province/classification industrielle; autrement, une entreprise est considérée comme complexe.

**Établissement :** À des fins statistiques, l'établissement est la plus petite unité pouvant fournir des données sur la production économique, telle: une usine, une mine, un magasin ou une unité. Classement par activité économique: le Système de classification des industries de l'Amérique du Nord (SCIAN) est fondé sur des principes de l'offre ou de la production. Un code d'activité économique tiré du SCIAN est attribué à chaque établissement. Les industries et les différents groupes industriels sont décrit dans le manuel «Système de classification des industries de l'Amérique du Nord» au catalogue 12-501XPF. À des fins analytiques, nous avons créé des groupes spéciaux qui ne figurent pas dans le SCIAN.

---

**Special industry groupings based on NAICS:**

- a) Industrial aggregate (00-91N) represents the sum of all the industries included in the survey. Since March 1994, the employment estimates for the industrial aggregate include the unclassified businesses (0000).
- b) Unclassified businesses (0000) represents the businesses that have not yet been classified to a NAICS, a province or to a territory. The employment estimates for industrial aggregate includes the unclassified businesses.

## Variables

### *Employee:*

The employment is derived from administrative records. Since the data for the different employee categories are not reported on the administrative records, the BPS survey is conducted to estimate ratios needed to calculate those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Canada Customs and Revenue Agency T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

## The employees are classified into the following categories:

- a) **Employees paid by the hour:** any employee whose basic wage is expressed as an hourly rate.

For Elementary and Secondary schools (6111), Community colleges and CEGEP(s) (6112), Universities

publics don't l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.

**Classement géographique :** on attribue les unités déclarantes à une province ou à un territoire. Les statistiques contenues dans le présent document sont fondées sur la Classification géographique type de 1996.

**Congés payés :** les congés payés comprennent les jours fériés payés, les vacances, les congés de maladie ainsi que les congés d'accident du travail et les congés pour motifs personnels tels que les congés de deuil et les congés pour service judiciaire, etc.

**Semaine normale de travail :** les heures d'une semaine normale de travail reflètent la moyenne des heures de travail normalement déterminées pour une semaine.

## Variables

### *Salarié:*

L'emploi provient des dossiers administratifs. Toutefois, les renseignements concernant les différents types d'emplois ne sont pas rapportés sur les dossiers administratifs; l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servant à estimer ces variables.

L'enquête définit un salarié comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de l'Agence des douanes et du revenu du Canada.

Le concept de l'enquête combine les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en société, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus, les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

## Les salariés sont classés dans les catégories suivantes:

- a) **Salariés rémunérés à l'heure:** toute personne dont la rémunération de base est calculée selon un taux horaire.

Pour les écoles primaires et secondaires (6111), les collèges communautaires et les CÉGEP(s) (6112), les universités

(6113), Business schools and Computer management training (6114) and Technical and Trade schools (6115) industries, this category of employment represents **Non-teaching Staff**: all employees other than teachers and academic staff i.e. president, vice-president, librarian, registrar, bursar, accountant, guidance counsellor, laboratory technician, personnel officer, and other services (janitor, bus driver etc).

Supply or substitute teachers are excluded.

- c) **\*Other employees**: those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. *Although this variable is not included in this document, the data remains available.*

For Elementary and Secondary schools (6111), Community colleges and CEGEP(s) (6112), Universities (6113), Business schools and Computer management training (6114) and Technical and Trade schools (6115) industries, this category of employment represents **Supply or Substitute Teachers**: teachers who are called in to teach whenever their services are needed either to augment the existing staff or as a short-term replacement for a full-time or part-time teacher.

**Weekly Payrolls**: Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, employment insurance contributions etc., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to employment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to coincide with the reference week period. The gross monthly payrolls are derived from Administrative records.

**Average weekly earnings for all employees**: Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

(6113), les écoles de commerce et de formation en informatique et en gestion (6114) et les écoles techniques et écoles de métiers (6115), cette catégorie d'emploi représente le personnel non enseignant: **toute personne autre que le personnel enseignant**, c'est-à-dire le président, le vice-président, le bibliothécaire, le registraire, le boursier, le comptable, les orienteurs, les techniciens de laboratoire, les agents du personnel et les autres services (concierge, chauffeur autobus etc.).

- b) **\*Employés (payer à salaire fixe)**: toutes personnes dont la rémunération de base constitue une somme fixe versée pour au moins une semaine.

Pour les écoles primaires et secondaires (6111), les collèges communautaires et les CÉGEP(s) (6112), les universités (6113), les écoles de commerce et de formation en informatique et en gestion (6114) et les écoles techniques et écoles de métiers (6115), cette catégorie représente le **personnel enseignant**: tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur, professeurs, doyens, chefs de département, maîtres, enseignants, etc.), qu'il enseigne le jour ou le soir. Les suppléants ou remplaçants sont exclus.

- c) **\*Autres salariés**: toutes personnes dont la rémunération de base se présente sous forme de commissions, de salaire à la pièce, d'indemnités de millage, etc. *Même si cette variable ne figure pas dans ce document, elle demeure disponible.*

Pour les écoles primaires et secondaires (6111), les collèges communautaires et les CÉGEP(s) (6112), les universités (6113), les écoles de commerce et de formation en informatique et en gestion (6114) et les écoles techniques et écoles de métiers (6115), cette catégorie d'emploi représente le **personnel suppléant ou remplaçant: enseignants** appelés à se présenter au travail lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

**Rémunération hebdomadaire brute**: La rémunération mensuelle brute est définie comme étant la partie de la rémunération hebdomadaire brute qui reflète le travail accompli durant la semaine de référence. Ça représente la valeur brute en dollars avant les déductions pour l'impôt sur le revenu, les contributions à l'assurance-emploi etc., incluant le salaire régulier, le surtemps et la partie bonis, commissions et tout autres types de paiements spéciaux. Le concept sur la rémunération, ne comprend pas les montants en dollars qui représentent des allocations et des avantages imposables, certains types d'indemnités non salariales ainsi que les cotisations patronales à l'assurance-emploi, au régime de pension du Canada ou au Régime des rentes du Québec, aux régimes d'assurance-maladie provinciaux, aux caisses d'indemnisation des accidents du travail et à d'autres régimes de prévoyance. Les paiements annuels spéciaux sont exclus tandis que les paiements forfaitaires spéciaux sont rajustés de façon à coïncider avec la semaine de référence. La rémunération mensuelle brute provient des dossiers administratifs.

**Rémunération hebdomadaire moyenne pour l'ensemble des salariés**: La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés inscrits sur la liste de paye.

**Average weekly hours for employees paid by the hour and standard work week for salaried employees:**

Average weekly hours are obtained by dividing the total paid weekly hours (for employees paid by the hour) by the number of employees (paid by the hour). Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence.

**Average hourly earnings (including overtime) for employees paid by the hour:**

Is obtained by dividing the total weekly payrolls (for employees paid by the hour) by the total number of weekly hours (for employees paid by the hour). Average hourly earnings are calculated for the hourly-rated employees and for the salaried employees. ■

**Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:**

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées (des salariés rémunérés à l'heure) par le nombre de salariés (rémunérés à l'heure). Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées.

**Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:**

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute (des salariés rémunérés à l'heure) par le nombre d'heures travaillées (de ces même salariés). La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des employés. ■

### Employment, earnings and hours

Average weekly earnings for all employees rose \$2.73 to \$668.52 in August. On a year-over-year basis, average weekly earnings were up 1.8 percent, short of the 2.8% year-over-year growth in the consumer price index in August.

For most provinces, average weekly earnings were slightly higher than in August 2000. The provinces with the strongest earnings growth in the past year were Alberta (+2.8), Saskatchewan (+2.2%) and Newfoundland (+2.0%).

Average hourly earnings for hourly paid employees were \$17.00 in August, up 10 cents from July and up 2.4% from August 2000. Average weekly hours for hourly paid employees were down 0.1 to 31.2 hours, and average overtime hours were virtually unchanged from July.

In August, the number of employees on payrolls rose a slight 8,700, or 0.1%. The largest employment gain was in transportation and warehousing, due mostly to the end of the public transit strike in Vancouver. The largest employment loss by industry was in durable goods manufacturing-most of the losses were in Ontario. Alberta had the largest employment gain, +4,600, with small employment gains in most industries.■

L'Alberta a connu la plus forte hausse de l'emploi (+4 600), alors que de faibles hausses ont été enregistrées dans la plupart des secteurs économiques.■

**Administrative data:** data derived from the monthly payroll deduction forms (PD7 forms) from Revenue Canada. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month).

- TM refers to accelerated remitters (medium and large businesses reporting more than once a month).

**Données administratives:** données provenant des formulaires de retenue sur la paye (formulaires PD7) de Revenu Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).

- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

# **Employment, Earnings and Hours**

**Conversion table from the  
Standard Industrial Classification 1980 (SIC 1980) to the North  
American Industrial Classification System (NAICS).**

## Note on data conversion table

The Survey of Employment, Payrolls and Hours is now producing its estimates based on the North American Industrial Classification System (NAICS). In order to assist users in the transition, a concordance table between the two classifications has been produced. First, the employment estimates for each SIC-80 code was redistributed to its proper NAICS. Then, the employment attributed to a given NAICS (from each SIC-80 code) was calculated as a percentage of the total employment for the respective SIC-80 code (Column D). Also, in column E, the employment of a given SIC-80 migrating to a NAICS is calculated as a percentage of the total employment estimated for that NAICS. This table was produced using data at the Canada level. For more information contact the Labour Statistics Division by telephone: (613-951-4090; fax: 613-951-4087; e-mail: labour@statcan.ca).

## Notes sur le tableau de concordance

L'Enquête sur l'emploi, la rémunération et les heures produit maintenant ses estimations sur la base du Système de classification des industries de l'Amérique du Nord (SCIAN). Afin d'aider les utilisateurs à faire la transition vers la nouvelle classification, un tableau de concordance entre les deux classifications a été produit. En premier lieu, l'emploi de chacune des estimations de l'emploi selon la Classification type des industries (CTI-1980) a été redistribué selon le SCIAN. Ceci a permis d'évaluer, en pourcentage, la répartition de chacune de ces estimations (CTI-1980) selon les codes SCIAN (colonne D). De même, la colonne E montre ce que cette portion de l'emploi d'un code CTI 1980 allant à un SCIAN particulier, représente par rapport à l'estimation de l'emploi total du SCIAN. Cette table de conversion a été produite à partir des estimations au niveau du Canada.
