Note to users

Re-engineering the survey:

Beginning with the January 2001 data to be released on March 29, 2001, the Survey of Employment, Payrolls and Hours (SEPH) will start publishing its estimates based on the North American Industry Classification (NAICS). The NAICS-based estimates will not be comparable to the previously published estimates based on the Standard Industrial Classification for 1980. However, at the time of the March 29, 2001 release, SEPH will make available NAICS based historical series from January 1991 to December 2000. The historical series will also reflect the levels of employment and earnings derived from the administrative records resulting from the implementation of the third phase of the survey redesign in May 1998. In addition, seasonal factors will be revised, thus improving the historical consistency of seasonally adjusted estimates.

For more information on the NAICS, consult the *Concepts, definitions and methods* page on Statistics Canada's Web site (www.statcan.ca) or contact Jean Leduc at (613) 951-4090; fax: (613) 951-4087; e-mail: labour@statcan.ca.

Avis aux utilisateurs

Remaniement de l'enquête:

À partir des données de janvier 2001 dont la publication est prévue pour le 29 mars 2001, l'Enquête sur l'emploi, la rémunération et les heures de travail (EERH) commencera à publier ses estimations sur la base du Système de classification des industries de l'Amérique du Nord (SCIAN). Les estimations basées sur le SCIAN ne seront plus comparables aux estimations précédemment publiées sur la base de la Classification type des industries de 1980. Cependant, au moment de la parution du communiqué le 29 mars 2001, l'EERH fournira des séries chronologiques basées sur le SCIAN pour la période allant de janvier 1991 à décembre 2000. Ces séries chronologiques refléteront aussi les niveaux de l'emploi et de la rémunération obtenus à partir des données administratives résultant de l'introduction de la troisième phase du remaniement de l'enquête en mai 1998. De plus, les facteurs saisonniers seront révisés afin d'améliorer l'uniformité des estimations désaisonnalisées chronologiques.

Pour plus de renseignements sur le SCIAN, consultez le site Web de Statistique Canada (www.statcan.ca) sous la rubrique *Concepts, définitions et méthodes* ou communiquez avec Jean Leduc au (613) 951-4090; Télécopieur: (613) 951-4087; courriel: travail@statcan.ca.

Survey Overview

Aperçu de l'enquête

Note to readers

The Labour Statistics Division completed the incorporation of administrative records in the production of employment, earnings and hours estimates (SEPH) in May 1998 (third phase of the re-design). As a result of this change in methodology, estimates derived from administrative records may show a different pattern than the previous data, which may affect the historical comparability of employment and earnings series.

Beginning with the January 2001 data, SEPH estimates will be based on the North American Industry Classification System (NAICS) instead of the 1980 Standard Industrial Classification. At the same time, the historical series will be revised to reflect the new phase three levels of employment and earnings derived from administrative records on a NAICS basis. In addition, seasonal factors will be revised, thus improving the historical consistency of seasonally adjusted estimates.

The monthly Survey of Employment, Payrolls and Hours is designed to measure the levels and month-to-month trends of payroll employment, paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

Methodology

Target population

The target population is composed of all employers in Canada, except those in agriculture, fishing and trapping, private households services, religious organizations and military personnel of defence services. The survey reference period for SEPH is the pay period that includes the last seven days of the month.

The statistics contained in this publication are based on:

- *a census of administrative records having approximately 100 employees or more,
- *a sample of administrative records having approximately 99 employees or less,
- a sample survey (BPS) conducted to estimate the variables not reported on administrative records.

*The administrative data come from 2 questions that were added to the Canada Customs and Revenue Agency's remittance form (PD7). Note that employers who remit less than \$15,000 monthly in income tax withholdings,

Note aux lecteurs

La Division de la statistique du travail a complété l'inclusion des données administratives dans la production des estimations de l'emploi, gains et durée du travail (EERH) en mai 1998 (troisième phase du remaniement). Résultant de ce changement méthodologique, il se peut que les estimations de l'emploi mesurées à partir de données administratives montrent un modèle saisonnier différent de celui des données obtenues auparavant et ceci pourrait affecter la comparabilité des séries historiques sur l'emploi et la rémunération.

À partir des données de janvier 2001, les estimations de l'EERH seront basées sur le système de classification des industries de l'Amérique du Nord (SCIAN) plutôt que sur la classification type des industries de 1980. En même temps, les séries historiques seront révisées pour refléter les niveaux de l'emploi et la rémunération de la Phase III (obtenus suite à l'augmentation de l'utilisation des données administratives) sur la base du SCIAN. De plus, les facteurs saisonniers seront révisés afin d'améliorer la consistance des estimations désaisonnalisées historiques.

L'enquête mensuelle sur l'emploi, la rémunération et les heures a pour objet de mesurer les niveaux et les tendances mensuelles de l'ensemble des salariés inscrits sur la liste de paye, des heures rémunérées et des gains. Ces données sont rassemblées à des niveaux détaillés selon l'activité économique pour le Canada, les provinces et les territoires.

Méthodologie

Population cible

La population cible comprend tous les employeurs au Canada sauf ceux des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques, des ménages, des organismes religieux et des services du personnel militaire de la défense. La période de référence de l'EERH, est la période de paye qui correspond aux sept derniers jours du mois.

Les statistiques comprises dans la présente publication sont fondées sur:

- *un recensement des dossiers administratifs comprenant approximativement 100 salariés ou plus,
- *un échantillon des dossiers administratifs comprenant approximativement 99 salariés ou moins,
- une enquête-échantillon (ERE) servant de base pour estimer les variables non rapportées sur les dossiers administratifs.

*Les données administratives proviennent de 2 questions qui ont été ajoutées au formulaire des retenues sur la paye (PD7) de l'Agence des douanes et du revenu du Canada. Veuillez noter que les employeurs qui versent moins de 15 000 \$ par mois en retenues

Canada/Quebec Pension Plan contributions and Employment Insurance premiums need to remit only once a month while all others are required to remit twice or more monthly. In addition, beginning with October 1997, employers remitting a total of \$12,000 or less per year are allowed to send their payroll deductions to Canada Customs and Revenue Agency on a quarterly basis.

The total payroll and employment estimates are obtained from Administrative records. The Business Payrolls Survey (BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficients needed to estimate data not reported on the administrative records. Combining different sources, BPS and Administrative Survey results in the full range of SEPH variables.

TERMS AND DEFINITIONS

Industry classification: On the basis of its principal activity, each establishment is assigned an industry code according to the 1980 Standard Industrial Classification. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue 12-501. In the tables of this publication, a column is identified "S.I.C. Code" and corresponds to that manual. SEPH has 281 industry groups in scope. For analytical purposes, special groupings which are not part of the Standard Industrial Classification, have been created.

- a) Industrial aggregate (000-999) represents the sum of all the industries included in the survey. Since January 1994, employment estimates for the Industrial aggregate include the unclassified businesses.
- b) Unclassified businesses (000) represents businesses that have not yet been classified to an SIC, a province or a territory. Since January 1994, employment estimates for industrial aggregate includes the unclassified businesses.
- c) Goods-producing industries (041-449)(491-499) consist of the following industries; forestry, mining, manufacturing, construction and other utilities industries.
- d) Service-producing industries (451-484)(501-999) consist of the following industries; transportation, communication and storage, trade, finance and insurance, services (except religious organizations and private households) and public administration industries (except military personnel of defence services and other government services).
- e) Durable goods manufacturing consist of the following industries; wood (251-259), furniture and fixtures (261-269), primary metal (291-299), fabricated metal products (301-309), machinery (311-319), transportation equipment (321-329), electrical and electronic products (331-339), non-metallic mineral products (351-359) and other manufacturing industries (391-399).

d'impôt, en contributions au fonds de pension du Canada, au Régime des rentes du Québec et en primes d'assurance-emploi, n'effectuent qu'un versement mensuelle tandis que les autres font 2 versements ou plus par mois. De plus, depuis octobre 1997, les employeurs ayant un maximum total de 12 000 \$ ou moins en retenues sur la paye par année, peuvent faire des versements sur une base trimestrielle à l'Agence des douanes et du revenu du Canada.

Le nombre total de salariés inscrits sur la liste de paye provient des dossiers administratifs. L'Enquête sur la rémunération auprès des entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas rapportées sur les dossiers administratifs. Ces différents volets soit l'ERE ainsi que les dossiers administratifs sont combinés en vue de produire toutes les variables propres à l'EERH.

TERMES ET DÉFINITIONS

Classement par activité économique: Un code d'activité économique tiré de la Classification type des industries de 1980 est attribué à chaque établissement selon sa principale activité. Les industries et les différents groupes industriels sont décrits dans le manuel "Classification Type des Industries 1980" catalogue 12-501. Dans les tableaux de cette publication, une colonne est identifiée "CTI 1980". Ces codes correspondent à ce manuel. On compte 281 groupes d'activités visées par l'EERH. À des fins analytiques, nous avons créé des groupes spéciaux qui ne figurent pas dans la Classification type des industries.

- a) Ensemble des industries (000-999) représente la somme de toutes les industries visées par l'enquête. Depuis janvier 1994, l'emploi pour l'ensemble des industries comprend les entreprises non classifiées.
- b) Les entreprises non classifiées (000) représentent des entreprises n'ayant pas été identifiées à une classification industrielle, une province ou un territoire. Depuis janvier 1994, l'emploi des entreprises non classifiées est compris dans l'ensemble des industries.
- c) Branche productrice de biens (041-449)(491-499) englobe les industries suivantes; forêts, mines, manufactures, construction et autres services publics.
- d) Branche productrice de services (451-484)(501-999) englobe les industries suivantes; transports, communications et entreposage, commerce, finances et assurances, services (sauf les organismes religieux et les ménages privés) et l'administration publique (excepté les services du personnel militaire de la défense et autres services gouvernementaux).
- e) Biens durables des industries manufacturières englobe les industries suivantes; bois (251-259), meubles et articles d'ameublement (261-269), première transformation des métaux (291-299), fabrication des produits métalliques (301-309), machinerie (311-319), matériel de transport (321-329), produits électriques et électroniques (331-339), produits minéraux non métalliques (351-359), et autres industries manufacturières (391-399).

Les établissements publics dont l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.</p> |

Variables

Employee:

The employment is derived from administrative records. Since the data for the different employee categories are not reported on the administrative records, the BPS survey is conducted to estimate ratios needed to calculate those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Canada Customs and Revenue Agency T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

Variables

Salarié:

L'emploi provient des dossiers administratifs. Toutefois, les renseignements concernant les différents types d'emplois ne sont pas rapportés sur les dossiers administratifs; l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servant à estimer ces variables.

L'enquête définit un salarié comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de l'Agence des douanes et du revenu du Canada.

Le concept de l'enquête combine les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en société, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus, les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

The employees are classified into the following categories:

- a) **Employees paid by the hour:** any employee whose basic wage is expressed as an hourly rate.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category **non-teaching staff:** All employees other than teachers and academic staff, for example; president, vice-president, librarian, registrar, bursar, accountant, guidance counselor, laboratory technician, personnel officer and other services (janitor, caretaker, bus driver, etc.).

- b) ***Salaried employees :** any employee whose basic remuneration is a fixed amount for at least one week.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category **teaching staff:** those classified as teachers, instructors or academics in the payroll records (e.g. principal, professor, dean, head of department, master, teacher, etc.) whether they teach during the day or evening. Supply or substitute teachers are excluded.

- c) ***Other employees:** those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. *Although this variable is not included in this document, the data remains available.*

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category **supply or substitute teachers:** teachers who are called in as needed either to augment existing staff or as short-term replacements for a full-time or part-time teachers.

Weekly Payrolls:

Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, employment insurance contributions etc..., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to employment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to coincide with the reference week period. The gross monthly payrolls are derived from Administrative records.

Les salariés sont classés dans les catégories suivantes:

- a) **Salariés rémunérés à l'heure:** toute personne dont la rémunération de base est calculée selon un taux horaire.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le **personnel non enseignant:** toute personne autre que le personnel enseignant, c'est-à-dire le président, le vice-président, le bibliothécaire, le secrétaire général, l'économiste, le comptable, les orienteurs, les techniciens de laboratoire, les agents du personnel ainsi que les autres services (le concierge, pourvoyeur, chauffeur d'autobus, etc.)

- b) ***Employés (à salaire fixe):** toutes personnes dont la rémunération de base constitue une somme fixe versée pour au moins une semaine.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le **personnel enseignant:** tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur, professeurs, doyens, chefs de département, maîtres, enseignants, etc.), qu'il enseigne le jour ou le soir. Les suppléants ou remplaçants sont exclus.

- c) ***Autres salariés:** toutes personnes dont la rémunération de base se présente sous forme de commissions, de salaire à la pièce, d'indemnités de millage, etc. *Même si cette variable ne figure pas dans ce document, elle demeure disponible.*

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le personnel **suppléants ou remplaçants:** enseignants appelés à se présenter au travail lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

Rémunération hebdomadaire brute:

La rémunération mensuelle brute est définie comme étant la partie de la rémunération hebdomadaire brute qui reflète le travail accompli durant la semaine de référence. Ça représente la valeur brute en dollars avant les déductions pour l'impôt sur le revenu, les contributions à l'assurance-emploi etc..., incluant le salaire régulier, le surtemps et la partie bonis, commissions et tout autres types de paiements spéciaux. Le concept sur la rémunération, ne comprend pas les montants en dollars qui représentent des allocations et des avantages imposables, certains types d'indemnités non salariales ainsi que les cotisations patronales à l'assurance-emploi, au régime de pension du Canada ou au Régime des rentes du Québec, aux régimes d'assurance-maladie provinciaux, aux caisses d'indemnisation des accidents du travail et à d'autres régimes de prévoyance. Les paiements annuels spéciaux sont exclus tandis que les paiements forfaitaires spéciaux sont rajustés de façon à coïncider avec la semaine de référence. La rémunération mensuelle brute provient des dossiers administratifs.

Average weekly earnings for all employees:

Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

Average weekly hours for employees paid by the hour and standard work week for salaried employees:

Average weekly hours are obtained by dividing the total paid weekly hours (for employees paid by the hour) by the number of employees (paid by the hour). Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence.

Average hourly earnings (including overtime) for employees paid by the hour:

Is obtained by dividing the total weekly payrolls (for employees paid by the hour) by the total number of weekly hours (for employees paid by the hour). Average hourly earnings are calculated for the hourly-rated employees and for the salaried employees. ■

Rémunération hebdomadaire moyenne pour l'ensemble des salariés:

La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés inscrits sur la liste de paye.

Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées (des salariés rémunérés à l'heure) par le nombre de salariés (rémunérés à l'heure). Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées.

Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute (des salariés rémunérés à l'heure) par le nombre d'heures travaillées (de ces même salariés). La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des employés. ■

Indices à pondération fixe (1986=100) de la rémunération horaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1996-2000).

The year-over-year growth rate of the fixed-weighted index of average hourly earnings decreased slightly in October. Annual growth of the fixed-weighted index declined to 2.1 percent from 2.5 percent in September due to less earnings growth in goods-producing industries, especially manufacturing.

D'une année à l'autre, l'indice à pondération fixe de la rémunération horaire moyenne a baissé légèrement en octobre. En septembre le taux de croissance annuelle de l'indice a chuté de 2,5% en raison d'une plus faible croissance de la rémunération dans les industries de la branche productrice de biens et plus particulièrement dans l'industrie manufacturière.

Administrative data: data derived from the monthly payroll deduction forms (PD7 forms) from Canada Customs and Revenue Agency. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month).

- TM refers to accelerated remitters (medium and large businesses reporting more than once a month).

* Please note that as of May 1998 reference month, the SEPH establishment survey has been replaced by an increased use of administrative records in the production of the SEPH estimates.

Données administratives: données provenant des formulaires de retenue sur la paye (formulaires PD7) de l'Agence des douanes et du revenu du Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).

- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

*Veuillez noter, qu'à partir du mois de référence mai 1998, l'enquête établissement de l'EERH a été remplacé par l'utilisation accrue des données administratives dans la compilation des estimations de l'EERH.
