

## Roll-up Assignment #1

This message board involves youth across Canada sharing similarities and differences. As well, the youth participate in assignments that will help the overall set up and design of our youth website and other Government sites with youth content.

The first assignment was to come up with a name that represented the Online Youth Team. The name picked is what the youth will be known as. As well, we will have Team Name instead of numbers! Each Team should have its own identify, as it helps to create a sense of team spirit and cohesiveness.

The answers were as follows: (**BOLDED RED** name was the winner)
