Compendium of GST/HST Statistics

2004 Edition

Recueil de Statistiques sur la TPS/TVH

Édition 2004

Introduction

This is the first edition of the Canada Revenue Agency's (CRA) annual *Compendium of GST/HST Statistics*. This publication provides detailed profiles of goods and services tax/harmonized sales tax (GST/HST) registrants over the 10 fiscal-year period between 1994-95 to 2003-04.

This document has two parts. Part 1 includes explanatory notes such as a description of the items presented in the statistical tables and the major classification variables used for the various distributions of GST/HST registrants. Part 2 includes all of the GST/HST registrants tables.

Information on the Internet

Beginning this year, parts of this document are published on our Web site at www.cra.gc.ca.

Your opinion counts!

We will update this publication every year. If you have any questions, comments, or suggestions, contact us at the following email address:

Introduction

Voici la première édition annuelle du *Recueil de statistiques sur la TPS/TVH* de l'Agence du revenu du Canada (ARC). Cette publication fournit de façon détaillée les profils des inscrits à la taxe sur les produits et services/taxe de vente harmonisée (TPS/TVH) pour les 10 derniers exercices financiers, soit de 1994-1995 à 2003-2004.

Nous avons divisé le document en deux parties. Dans la partie 1, vous trouverez des notes explicatives qui comprennent une description des postes présentés dans les tableaux statistiques et des principales catégories ou variables utilisées pour les différentes répartitions des inscrits à la TPS/TVH. La partie 2 comporte tous les tableaux sur les inscrits à la TPS/TVH.

Renseignements sur Internet

À compter de cette année, vous trouverez certaines parties de ce document sur notre site Web à www.arc.gc.ca.

Faites-nous part de vos suggestions!

Nous réviserons cette publication chaque année. Si vous avez des questions, des suggestions ou des commentaires, communiquez avec nous à l'adresse électronique suivante :

Part 1 – Explanatory Notes

- Data sources
- Description of items
- Major classifications or variables
- Protection of confidential information

Data Sources

The data used to produce the statistical tables are derived from the information provided by GST/HST registrants on the following forms:

- Form RC1, *Request for a Business Number (BN)*; and
- Form GST34, *Goods and Services Tax/Harmonized Sales Tax Return for Registrants*.

Form RC1 can be found at www.cra.gc.ca/formspubs. Please note that Form GST34 is available only in paper format. You can order either form online at www.cra.gc.ca/orderforms or by calling 1-800-959-2221.

Description of items

GST/HST registrants

A **GST/HST registrant** is a person who has registered or is required to be registered for the GST/HST. "Person" means an individual, a partnership, a corporation, the estate of a deceased individual, a trust, or any organisation such as a society, a union, a club, an association, or a commission.

GST/HST returns

The total number of GST34 forms received and receivable from GST/HST registrants during the period is reported as the number of **GST/HST Tax Returns** in the Tables.

GST/HST collected

This amount is based on all GST/HST charged, at 7% GST or 15% HST, on paid **and** unpaid invoices during the reporting period. The total of GST collected in a reporting period is based on all **GST/HST collected and collectable** reported on line 105 of Form GST34, and includes adjustments from all forms filed by GST/HST registrants.

Input tax credits (ITC)

Registrants can claim an ITC to recover the GST/HST paid or owed for goods or services acquired, imported, or brought into a participating province for use, consumption, or supply in the course of their commercial activities. The amount of ITC claimed in a reporting period is based on the total of all ITC amounts reported on line 108 of Form GST34 and includes adjustments.

Partie 1 – Notes explicatives

- Sources des données
- Description des postes
- Principales classifications ou variables
- Protection des renseignements confidentiels

Sources des données

Les données utilisées pour produire les tableaux statistiques proviennent des renseignements que les inscrits nous ont fournis dans les formulaires suivants :

- Le formulaire RC1, *Demande de numéro d'entreprise (NE)*;
- Le formulaire GST34, *Déclaration des inscrits – Taxe sur les produits et services/Taxe de vente harmonisée (TPS/TVH)*.

Vous pouvez vous procurer le formulaire RC1 à www.arc.gc.ca/formspubs/menu-f.html. Veuillez noter que le formulaire GST34 est disponible sur papier seulement. Vous pouvez commander ces formulaires en ligne à www.arc.gc.ca/bondecmande ou en composant le 1 800 959-3376.

Description des postes

Inscrits à la TPS/TVH

Un **inscrit à la TPS/TVH** est une personne qui est inscrite ou qui devrait être inscrite à la TPS/TVH. On entend par « personne » un particulier, une société de personnes, une société, une succession, une fiducie ou toute autre organisation telle qu'une société, un syndicat, un club, une association ou une commission.

Déclarations de TPS/TVH

Dans les tableaux, le nombre total de formulaires GST34 reçus et à recevoir durant la période est indiqué en tant que nombre de **déclarations de TPS/TVH**.

TPS/TVH perçue

Ce montant est basé sur le total de la TPS/TVH facturée au taux de 7 % pour la TPS ou de 15 % pour la TVH sur les factures payées **et** impayées durant la période de déclaration. Le total de la TPS/TVH perçue dans une période de déclaration est basé sur tous les montants de **TPS/TVH perçus ou à percevoir** indiqués à la ligne 105 du formulaire GST34 et comprend les redressements provenant de tous les formulaires que les inscrits ont produits.

Crédits de taxe sur les intrants (CTI)

Les inscrits peuvent demander un **CTI** pour récupérer la TPS/TVH qu'ils ont payée ou qu'ils sont tenus de payer pour des produits et services qu'ils ont acquis, importés ou transférés dans une province participante afin de les utiliser, les consommer ou les fournir dans le cadre de leurs activités commerciales. Le montant des CTI demandés dans une période de déclaration est basé sur le total de tous les montants de CTI indiqués à la ligne 108 du formulaire GST34 et comprend les redressements.

Net tax

The **net tax** reported is determined as the difference between the total amount of GST/HST collected and the ITC amount (line 105 minus line 108 of Form GST34). If the total amount of GST/HST collected is less than the amount of the ITC, the registrant can claim a refund

Refund claimants

The number of **refund claimants** is calculated as the number of GST/HST registrants who claimed a refund for the reporting period on their Form GST34.

Returns with refunds

The **returns with refunds** are obtained from the total of GST34 Forms with a refund claimed amount associated with the reporting period.

Refunds claimed

The **refunds claimed** reported in the compendium were processed as the total of all refund claimed amounts reported on line 114 of the GST34 Forms filed during the reporting period.

Major classifications/variables

Fiscal year

The fiscal year is the 12-month period beginning on April 1 and ending on March 31 of the following calendar year. All numbers and amounts are associated with a fiscal year based on the date CRA receive Form GST34 from registrants.

Province or territory

Distributions by province or territory are based on the province or territory in the GST/HST registrants' mailing addresses when they filed their GST/HST returns.

Tax services office (TSO)

Distributions by TSO are based on the TSO associated with the most recent address of the GST/HST registrant. The TSO is the location where the registrant's GST34 forms are processed.

Major Industry Group

Distributions by industry group are based on the Standard Industrial Classification (SIC) coding system with the registrant's most recent industry code being assigned. Industry codes are based on the major business activity reported by the GST/HST registrant.

Taxe nette

On détermine la **taxe nette** inscrite dans les tableaux d'après la différence entre le montant total de la TPS/TVH perçue et le montant des CTI (ligne 105 moins ligne 108 du formulaire GST34). Si le montant total de la TPS/TVH perçue est moindre que le montant des CTI, l'inscrit peut demander un remboursement.

Demandeurs de remboursement

On calcule le nombre de **demandeurs de remboursement** d'après le nombre d'inscrits à la TPS/TVH qui ont demandé un remboursement pour la période de déclaration sur leur formulaire GST34.

Déclarations avec remboursements

On obtient le nombre de **déclarations avec remboursements** à partir du nombre total de formulaires GST34 qui comprennent une demande de remboursement pour la période de déclaration.

Demandes de remboursements

Les **demandes de remboursements** qui figurent dans ce recueil ont été calculées d'après le total des remboursements indiqués à la ligne 114 des formulaires GST34 produits durant la période de déclaration.

Principales catégories ou variables

Exercice financier

L'exercice financier est la période de 12 mois commençant le 1^{er} avril et se terminant le 31 mars de l'année civile suivante. Tous les chiffres et les montants sont associés à un exercice financier en fonction de la date à laquelle l'ARC reçoit le formulaire GST34 des inscrits.

Province ou territoire

Les répartitions par province ou territoire sont basées sur la province ou le territoire indiqué dans l'adresse postale de la dernière déclaration de TPS/TVH des inscrits.

Bureau des services fiscaux (BSF)

Les répartitions par BSF sont basées sur le plus récent BSF associé à l'adresse de l'inscrit. Le BSF est l'endroit où l'on traite les formulaires GST34 de l'inscrit.

Grand groupe d'industries

Les répartitions par grand groupe d'industries sont effectuées selon le système de codage de la classification type des industries (CTI), d'après le plus récent code d'industrie assigné à l'inscrit. On assigne le code d'industrie d'après la principale activité de l'entreprise de l'inscrit.

Filing frequency

Distributions by filing frequency are based on the most recent filing frequency in effect for the GST/HST registrant. A registrant can be assigned one of seven different filing frequencies based on annual taxable income and net tax remittable.

- **Monthly** – This is the assigned filing frequency for registrants with annual taxable sales more than \$6,000,000. It is optional for all other registrants.
- **Quarterly** – This is for registrants with annual taxable sales of more than \$500,000 up to \$6,000,000. It is optional for all registrants with sales of \$500,000 or less.
- **Annual/Quarterly remittance** – This is assigned to registrants who choose an annual filing frequency and who make quarterly instalment payments.
- **Annual/Annual Remittance** – This is the assigned filing frequency for registrants who have annual taxable sales of \$500,000 or less and have less than \$1,500 of net tax remittable to submit with their yearly GST/HST return.
- **Annual/Quarterly Remittance Extended** – This is the assigned filing frequency for registrants who file once a year in June but remit quarterly payments, the last being due in April.
- **Annual/Annual Remittance Extended** – This is the filing frequency assigned to registrants who file once a year before June 17 but have remittances due in April.
- **Not Stated** – This category of filing frequency is used for registrants whose filing frequency is unknown during the reporting period.

Accounting method

Distributions by accounting method are based on the most recent accounting methods used by the GST/HST registrants. There are two categories of accounting methods. Registrants can elect to use one of the two methods when filing:

- **Simplified** – With this method, the registrant does not have to separate the amount of GST/HST payable on each invoice. Instead, the registrant only has to track the total amount of taxable purchases for which they are entitled to claim input tax credits. They will, however, have to separate their purchases into those that are taxable at the 7% GST rate or the 15% HST rate.
- **Not Simplified** – All other GST/HST registrants who have not elected to use the simplified method of accounting.

Fréquence de déclaration

Les répartitions par fréquence de déclaration sont basées sur la plus récente fréquence de déclaration en vigueur pour l'inscrit. Un inscrit peut avoir une des sept fréquences de déclaration suivantes, en fonction de son revenu imposable annuel et de la taxe nette à payer.

- **Mensuelle** – Cette fréquence de déclaration est assignée aux inscrits qui ont des ventes annuelles imposables de plus de 6 000 000 \$. Elle est optionnelle pour tous les autres inscrits.
- **Trimestrielle** – Cette fréquence de déclaration est assignée aux inscrits qui ont des ventes annuelles imposables de plus de 500 000 \$ à 6 000 000 \$. Elle est optionnelle pour tous les inscrits qui ont des ventes de 500 000 \$ ou moins.
- **Annuelle – versements trimestriels** – Cette fréquence de déclaration est assignée aux inscrits qui ont choisi une fréquence de déclaration annuelle et qui versent des acomptes provisionnels trimestriels.
- **Annuelle – versement annuel** – Cette fréquence de déclaration est assignée aux inscrits qui ont des ventes annuelles imposables de 500 000 \$ ou moins et qui ont moins de 1 500 \$ de taxe nette à payer qu'ils soumettent en même temps que leur déclaration annuelle de TPS/TVH.
- **Annuelle – versements trimestriels avec prolongation** – Cette fréquence de déclaration est assignée aux inscrits qui soumettent une déclaration une fois par année en juin mais qui doivent faire des versements trimestriels, le dernier étant dû en avril.
- **Annuelle – versement annuel avec prolongation** – Cette fréquence de déclaration est assignée aux inscrits qui soumettent leur déclaration une fois par année avant le 17 juin mais dont les versements sont dus en avril.
- **Non déclarée** – Ce type de fréquence de déclaration est utilisé pour les inscrits dont la fréquence de déclaration n'est pas connue durant la période de déclaration.

Méthode comptable

Les répartitions par méthode comptable sont basées sur la plus récente méthode comptable que les inscrits ont utilisée. Il y a deux types de méthodes comptables. Les inscrits peuvent choisir d'utiliser un des deux types lorsqu'ils remplissent leur déclaration :

- **Méthode simplifiée** – L'inscrit n'a pas besoin de séparer le montant de la TPS/TVH à payer sur chaque facture. Il n'a plutôt qu'à tenir compte du montant total des achats imposables pour lesquels il a le droit de demander des crédits de taxe sur les intrants. Cependant, il doit séparer ses achats imposables au taux de la TPS à 7 % de ceux imposables au taux de la TVH à 15 %.
- **Méthode non simplifiée** – Ce type de méthode est celui de tous les autres inscrits qui n'ont pas choisi la méthode comptable simplifiée.

For more information on the simplified method, see the guide called *General Information for GST/HST Registrants*.

Legal entity status

These statistics are based on the most recent legal entity status of GST/HST registrants. Below is the list of the five different legal entity status categories used to report statistics.

- Sole proprietors – Individuals who are self-employed and who report the revenue from their business on their income tax return.
- Partnership – Two or more persons (individuals, corporations, trusts) that are in business together and that report the revenue from that business on their income tax return.
- Corporation – An entity that is incorporated through a provincial or federal body, and that has the associated articles of incorporation. This can include societies incorporated under the *Societies Act*.
- Other – This category applies to trusts, unions, clubs, and associations that do not meet the most common definitions of sole proprietor, partnership, or corporation.
- Unknown – This category is used for internal administrative processes to categorize payments and GST/HST returns for which, when the data was processed, it was not possible to determine legal entity for reasons such as the client could not be contacted or the type of business was not known.

Sales range

The sales ranges are based on the total amount of sales of goods and services, including zero-rated sales and other revenues reported on line 101 of Form GST34, filed during the reporting period by the GST/HST registrants.

Monthly statistics

We use the month of the date we receive Form GST34 to compile the monthly statistics.

Protection of confidential information

To protect GST/HST registrants' confidential information, data that refers to a small number of registrants, either in a single classification category or in a combination of classification categories, was omitted. This data was included in the appropriate totals. Furthermore, all numbers were rounded to the nearest 10. Amounts are in Canadian dollars and rounded to the nearest thousand.

Pour obtenir plus de renseignements sur les méthodes simplifiées, consultez le guide intitulé *Renseignements généraux sur la TPS/TVH pour les inscrits*.

État de l'entité légale

Ces statistiques sont basées sur le plus récent état de l'entité légale des inscrits à la TPS/TVH. Vous trouverez ci-dessous cinq types d'état de l'entité légale utilisés pour les statistiques.

- Propriétaire unique – Particulier qui travaille à son propre compte et qui déclare ses revenus d'entreprise dans sa déclaration de revenus.
- Société de personnes – Deux personnes ou plus (particuliers, sociétés, fiducies) qui font des affaires ensemble et qui déclarent leurs revenus d'entreprise dans leur déclaration de revenus.
- Société – Entité constituée par un organisme fédéral ou provincial et qui a des statuts constitutifs. Il peut s'agir de sociétés constituées en vertu de la *Loi sur les sociétés*.
- Autre – Ce type s'applique aux fiducies, syndicats, clubs et associations qui ne répondent pas aux définitions courantes de propriétaire unique, de société de personnes ou de société.
- Inconnu – Ce type est utilisé dans les processus administratifs internes pour regrouper les déclarations ou les paiements pour lesquels au moment de traiter les données, nous ne pouvions pas déterminer l'entité légale (par exemple, lorsqu'il était impossible de communiquer avec le client ou que le type d'entreprise n'était pas connu).

Fourchette de ventes

Les fourchettes de ventes sont basées sur le montant total des ventes des biens et services, y compris les ventes détaxées et autres recettes indiquées à la ligne 101 des formulaires GST34 que les inscrits ont produits au cours de la période de déclaration.

Statistiques mensuelles

Nous utilisons le mois où nous recevons le formulaire GST34 pour compiler les statistiques mensuelles.

Protection des renseignements confidentiels

Afin de préserver la confidentialité des renseignements des inscrits, nous n'avons pas tenu compte des données qui portent sur un nombre restreint d'inscrits soit dans une catégorie, soit dans une combinaison de catégories. Par contre, nous avons inclus ces données dans les totaux appropriés. De plus, toutes les données ont été arrondies au multiple de 10 le plus près. Les montants sont en dollars canadiens, arrondis au millier de dollars le plus près.

Part 2 – GST/HST registrants statistical tables

- Population coverage
- List of tables
- Statistical tables

Population coverage

All tables are based on the population of accounts registered for each fiscal year.

Account registration status

The **account registration status** monitors whether an account is registered for the purpose of collecting GST/HST. Although a registrant is recorded under one status, there are three types of status a registrant can have:

- Non-registered – This status is for clients who do not have to be registered for GST/HST, but require an account to claim a rebate.
- Registered – This status is for clients who are registered for GST/HST and, therefore, have to charge and remit GST /HST.
- De-Registered – This status is for clients who are no longer required to be registered for GST/HST.

See Description of GST/HST registrants statistical tables on page 203 for more details..

Partie 2 – Tableaux statistiques sur les inscrits à la TPS/TVH

- Renseignements sur l'effectif
- Liste des tableaux
- Tableaux statistiques

Renseignements sur l'effectif

Tous les tableaux sont basés sur le nombre de comptes inscrits pour chaque exercice financier.

État de l'inscription des comptes

L'**état de l'inscription des comptes** contrôle si un compte est inscrit dans le but de percevoir la TPS/TVH. Même si un inscrit est enregistré sous un seul état, il existe trois types d'état :

- Non-inscrit – Cet état est celui des clients qui ne sont pas obligés de s'inscrire mais, qui ont besoin d'un compte pour demander un remboursement.
- Inscrit – Cet état est celui des clients qui sont inscrits à la TPS/TVH et qui, par le fait même, doivent facturer et verser la TPS/TVH.
- Annulé – Cet état est celui des clients qui n'ont plus besoin d'être inscrits à la TPS/TVH.

Consultez la description des tableaux statistiques sur les inscrits à la TPS/TVH à la page 203 pour en savoir plus.

Description of GST/HST registrants statistical tables

Except for Table 8 to Table 8g, all tables are on a fiscal year reporting period basis.

The tables have been developed to present the statistics using three standard distributions: province or territory, tax services office, and major industry group.

Table 1, Table 1a, and Table 1c present distribution of GST/HST registrants by province or territory, tax services office, and major industry group respectively, by fiscal year.

Table 2, Tables 2a, and 2b present the three standard distributions of GST/HST registrants by filing frequency.

Note

Annual/Annual remittance extended – This filing frequency was implemented on January 1, 1995, and applies only to returns effective since that date.

There is no historical information for the filing frequency variable. As a result, the most recent available information was used to compile all the tables.

A value for this variable appears in all tables, although that value did not exist at the time.

Table 3 and Table 3a present distributions of GST/HST registrants by accounting method. These tables show GST/HST registrants who have elected to use the simplified method of accounting from those who have not.

The distributions of GST/HST registrants by major industry group (by province or territory), and by major industry group by tax services office are shown in Table 4 and Table 4a respectively.

Table 5, Table 5a, and Table 5b present the three standard distributions of GST/HST registrants by legal entity status. These tables profile registrants as sole proprietors, partnerships, corporations, legal entity status unknown, and others.

Table 6, Table 6a and Table 6b present the distribution of GST/HST registrants by sales range.

Tables 7 to 7g present the three standard distributions of GST/HST returns, GST/HST collected, input tax credits claimed, and refunds claimed. Table 7, Table 7b, and Table 7f deal with accounts and Table 7a, Table 7d, and Table 7g deal with amounts.

Tables 8 to 8c present monthly distributions of GST/HST returns, GST/HST collected, input tax credits claimed, and refunds claimed. Tables 8d to 8g present these four variables by month.

Description des tableaux statistiques sur les inscrits à la TPS/TVH

À l'exception des tableaux 8 à 8g, tous les tableaux sont basés sur une période de déclaration par exercice financier.

Les tableaux ont été élaborés afin de présenter les statistiques selon trois répartitions standard : province ou territoire, bureau des services fiscaux et grand groupe d'industries.

Dans les tableaux 1, 1a et 1b, vous trouverez les répartitions des inscrits à la TPS/TVH par exercice financier et par province ou territoire, bureau des services fiscaux et grand groupe d'industries.

Dans les tableaux 2, 2a et 2b, vous trouverez les trois répartitions standard des inscrits à la TPS/TVH par fréquence de déclaration.

Remarque

Annuelle – versement annuel avec prolongation – Cette fréquence de déclaration a été mise en oeuvre le 1^{er} janvier 1995 et s'applique seulement aux déclarations en vigueur depuis cette date.

Il n'existe pas de renseignements antérieurs pour la variable de la fréquence de déclaration. Par conséquent, nous avons utilisé les renseignements disponibles les plus récents pour compiler les données des tableaux.

Il y a donc une valeur pour cette variable dans tous les tableaux même si elle n'existait pas à ce moment-là.

Dans les tableaux 3 et 3a, vous trouverez les répartitions des inscrits, de façon distincte, par méthode comptable. Ces tableaux indiquent les inscrits qui ont choisi d'utiliser la méthode comptable simplifiée et ceux qui ne l'ont pas choisie.

Dans les tableaux 4 et 4a, vous trouverez la répartition des inscrits par grand groupe d'industries et province ou territoire et par grand groupe d'industries et bureau des services fiscaux.

Dans les tableaux 5, 5a et 5b, vous trouverez les trois répartitions standard des inscrits par état de l'entité légale. Ces tableaux montrent le profil des inscrits en tant que propriétaires uniques, sociétés de personne, sociétés, entités légales inconnues et autres.

Dans les tableaux 6, 6a et 6b, vous trouverez la répartition des inscrits selon les fourchettes de ventes.

Dans les tableaux 7 à 7g, vous trouverez les trois répartitions standard des déclarations de TPS/TVH, de la TPS/TVH perçue, des crédits de taxe sur les intrants demandés et des remboursements demandés. Les tableaux 7, 7b et 7f se rapportent aux comptes, tandis que les tableaux 7a, 7d et 7g se rapportent aux montants.

Dans les tableaux 8 à 8c, vous trouverez les répartitions mensuelles des déclarations de TPS/TVH, de la TPS/TVH perçue, des crédits de taxe sur les intrants demandés et des remboursements demandés. Les tableaux 8d à 8g présentent ces quatre variables par mois.

Table 9 and Table 9a show the distribution of GST/HST returns, GST/HST collected, input tax credits claimed, and refunds claimed by legal entity status. Table 9 deals with accounts and table 9a deals with amounts.

Table 10 shows the distribution of GST/HST collected, input tax credits claimed, and net tax by province or territory.

Dans les tableaux 9 et 9a, vous trouverez la répartition des déclarations de TPS/TVH, de la TPS/TVH perçue, des crédits de taxe sur les intrants demandés et des remboursements demandés par état de l'entité légale. Le tableau 9 se rapporte aux comptes et le tableau 9a se rapporte aux montants.

Dans le tableau 10, vous trouverez la répartition de la TPS/TVH perçue, des crédits de taxe sur les intrants demandés et de la taxe nette par province ou territoire.
