

ENVIRONMENT CANADA'S ENFORCEMENT OFFICES

The Compliance and Enforcement Policy for the *Canadian Environmental Protection Act, 1999* (CEPA 1999) sets out the principles for enforcement of the Act and advises everyone who shares a responsibility for protection of the environment — governments, industry, organized labour, and individuals — as to what is expected of them. It also provides information on what to expect from the officers who enforce CEPA 1999 and its regulations. The policy was developed in co-operation with the Department of Justice.

This fact sheet is part of a series of six that presents various aspects of the Compliance and Enforcement Policy: its principles, the personnel, enforcement activities, officers' responses to violations, court actions, and contact information for Environment Canada's enforcement offices.

*At Environment Canada,
we value the exercise by
all Canadians of a
shared responsibility for
our environment.*
