

# – INDEX –

## A

- Acetaminophen, 20, 174, 253
- Active Immunizing Agents, 71
- Adverse Events, 7
  - (see also individual vaccines)
- Anaphylactic Hypersensitivity, 12
- Anaphylaxis, Initial Management, 14
- Anti-vaccine Reports, 51
- Autism and MMR, 7

## B

- BCG Vaccine, 71
  - adverse reactions, 74
  - booster doses and re-immunization, 74
  - contraindications, 75
  - efficacy and immunogenicity, 72
  - other considerations, 75
  - preparations licensed for immunization, 72
  - preparations used for immunotherapy, 73
  - recommended usage, 73
  - simultaneous administration with other vaccines, 74
  - storage requirements, 74
  - usual response to immunization, 74

## C

- Cautions and Contraindications
  - (see also individual vaccines), 4
- Cholera Vaccine, 77
  - adverse reactions, 79
  - booster doses and re-immunization, 79
  - contraindications and precautions, 80
  - efficacy and immunogenicity, 78
  - epidemiology, 77
  - other considerations, 80
  - preparations licensed for immunization, 78
  - recommended usage, 78
  - route of administration, 79
  - serologic testing, 79
  - simultaneous administration with other vaccines, 79
  - storage requirements, 79

- summary of recommendations, 80
- Communication about immunization, 43
- Cost benefit, 2

## D

- Definitions for Reportable Adverse Events, 262
- Diphtheria Toxoid, 82
  - adverse reactions, 85
  - booster doses, 84
  - combined vaccines, 85
  - contraindications and precautions, 85
  - epidemiology, 82
  - preparations licensed for immunization, 83
  - recommended usage, 83

## G

- General Considerations, 1
  - administration of human immune globulin products, 33
  - adverse events, 7
  - anaphylactic hypersensitivity, 12
  - anaphylaxis management, 14
  - cautions and contraindications, 4
  - cost benefit, 2
  - immunization and breast-feeding, 19
  - immunization of children and adults with inadequate immunization records, 41
  - immunization of children with neurologic disorders, 20
  - immunization of people with hemophilia, 31
  - immunization in immunocompromised hosts, 20
    - chronic illness or advanced age, 22
    - congenital immunodeficiency, 23
    - HIV, myelodysplasias, 25
  - immunoablative therapy, 24
    - long-term drug treatment, 24
    - splenic disorders, 22
  - travellers, 26
  - immunization of infants born prematurely, 31
  - immunization during pregnancy, 18
  - immunization records, 40
  - immunization technique, 38
  - storage and handling of immunizing agents, 33

talking with patients about immunization, 42  
communication issues, 43  
questions and answers, 45  
resources, 54  
timing of vaccine administration, 32

## Guidelines for Childhood Immunization Practices, 58

## H

### *Haemophilus* Vaccine, 87

adverse reactions, 91  
booster doses and re-immunization, 91  
contraindications, 91  
efficacy and immunogenicity, 88  
epidemiology, 87  
preparation and route of administration, 90  
preparations licensed for immunization, 88  
recommended usage, 89  
schedule and dosage, 89  
simultaneous administration with other vaccines, 91  
storage requirements, 91

### Health Care Workers, 251

BCG, 253  
diphtheria and tetanus toxoids, 251  
hepatitis A, 253  
hepatitis B, 252  
influenza vaccine, 252  
measles vaccine, 252  
polio vaccine, 252  
rubella vaccine, 252

### Hepatitis A Vaccine, 93

adverse reactions, 100  
booster doses and re-immunization, 99  
contraindications and precautions, 100  
efficacy and immunogenicity, 95  
epidemiology, 93  
preparations licensed for immunization, 94  
recommended usage, 96  
route of administration, 99  
schedule and dosage, 99  
serologic testing, 99  
simultaneous administration with other vaccines, 100  
storage requirements, 100

### Hepatitis B Vaccine, 102

adverse reactions, 115  
booster doses and re-immunization, 112  
contraindications and precautions, 115  
efficacy and immunogenicity, 105  
epidemiology, 102  
preparations licensed for immunization, 103  
recommended usage, 105

route of vaccine administration, 112  
schedule and dosage, 111  
serologic testing, 113  
simultaneous administration with other vaccines, 115  
storage requirements, 115

### Hepatitis Vaccines Combined, 117

adverse reactions, 118  
booster doses, 118  
contraindications, 118  
efficacy and immunogenicity, 117  
preparations licensed for immunization, 117  
recommended usage, 117  
route of vaccine administration, 118  
schedule and dosage, 118  
simultaneous administration with other vaccines, 118  
storage requirements, 118

### HIV Infection and Immunization (see also individual vaccines), 25

### HIV Infection and Travel, 260

## I

### Immune Globulin, 33, 242, 245

### Immunization in Acute Care Institutions, 69

### Immunization for Adults, 65 recommended antigens, 65 strategies to improve vaccine delivery, 67

### Immunization for Infants and Children, 55

### Immunization in Long-Term Care Institutions, 70

### Immunization, National Guidelines, 58

### Immunization Records, 40, 41

### Immunization Schedules, 55 adults, 65 infants and children, 55

### Immunization Strategies to Improve Delivery, 67

### Immunization Technique, 38

### Immunocompromised Hosts, 20 chronic illness or advanced age, 22 congenital immunodeficiency states, 23 HIV, myelodysplasias, 25 immunoablative therapy, 24 long-term drug treatment, 24

splenic disorders, 22  
travellers, 26  
vaccination, 27, 28

## Internet Sites, back cover

### Influenza Vaccine, 120

adverse reactions, 125  
contraindications and precautions, 126  
efficacy and immunogenicity, 121  
preparations licensed for immunization, 121  
recommended usage, 121  
route of administration, 124  
schedule and dosage, 124  
simultaneous administration with other vaccines, 125  
storage requirements, 125  
strategies for reducing the impact of influenza, 126

## J

### Japanese Encephalitis Vaccine, 128

adverse reactions, 131  
booster doses, 130  
contraindications and precautions, 132  
efficacy and immunogenicity, 129  
preparations licensed for immunization, 129  
recommended usage, 130  
schedule and dosage, 130  
simultaneous administration with other vaccines, 131  
storage requirements, 131

## L

### Licensed Manufacturers, 272

### Lyme Disease Vaccine, 135

adverse reactions, 139  
booster doses, 138  
efficacy and immunogenicity, 137  
epidemiology, 135  
laboratory diagnosis, 138  
other considerations, 140  
personal protection, 136  
precautions, 139  
preparations licensed for immunization, 136  
recommended usage, 137  
schedule and dosage, 138  
simultaneous administration with other vaccines, 139

## M

### Malaria Prophylaxis, 261

### Measles Vaccine, 143

adverse reactions, 147  
contraindications and precautions, 148  
dosage, 146  
efficacy, 144  
epidemiology, 143  
outbreak control, 149  
preparations licensed for immunization, 144  
recommended usage, 145  
route of administration, 146  
simultaneous administration with other vaccines, 147  
storage requirements, 147

### Meningococcal Vaccine, 151

adverse reactions, 158  
booster doses and re-immunization, 158  
contraindications and precautions, 161  
efficacy and immunogenicity, 153  
epidemiology, 151  
other considerations, 161  
preparations licensed for immunization, 152  
recommended usage, 154  
route of administration and dosage, 158  
simultaneous administration with other vaccines, 158  
storage requirements, 158

### Misconceptions About Vaccines, 45

### Mumps Vaccine, 166

adverse reactions, 167  
efficacy and immunogenicity, 166  
precautions and contraindications, 167  
preparations licensed for immunization, 166  
recommended usage, 167

## O

### Oculorespiratory Syndrome, 111

## P

### Passive Immunizing Agents, 242

adverse reactions, 244  
contraindications and precautions, 244, 245  
immune globulin for hepatitis A, measles, hepatitis C, rubella, 243, 244  
recommended usage, 243

safety of IG preparations, 244  
specific immune globulin for botulism, diph-  
theria, hepatitis B, RSV, rabies, tetanus,  
varicella-zoster, 245-250

### **Pertussis Vaccine, 169**

adverse reactions, 174  
booster doses and re-immunization, 173  
conditions not considered contraindications, 174  
contraindications and precautions, 174  
efficacy and immunogenicity, 170  
epidemiology, 169  
other considerations, 175  
preparations licensed for immunization, 170  
recommended usage, 171  
route of vaccine administration, 173  
schedule and dosage, 172  
simultaneous administration with other  
vaccines, 173  
storage requirements, 173

### **Pneumococcal Vaccine, 177**

adverse reactions, 182  
booster doses and re-immunization, 181  
contraindications and precautions, 182  
efficacy and immunogenicity, 178  
epidemiology, 177  
other considerations, 175  
preparations licensed for immunization, 177  
recommended usage, 179  
route of vaccine administration, 181  
schedule and dosage, 180  
serologic testing, 181  
simultaneous administration with other  
vaccines, 181  
storage requirements, 181

### **Poliomyelitis Vaccine, 185**

adverse reactions, 189  
booster doses and re-immunization, 188  
contraindications and precautions, 189  
efficacy and immunogenicity, 186  
epidemiology, 186  
outbreak control, 188  
preparations licensed for immunization, 186  
recommended usage, 187  
route of vaccine administration, 188  
schedule and dosage, 187

### **Pregnancy (see individual vaccines), 18, 261**

## **R**

### **Rabies Vaccine, 191**

adverse reactions, 198  
contraindications, 199  
epidemiology, 191  
management of animals, 195  
management of people, 195  
post-exposure management, 193  
pre-exposure management, 193  
preparations licensed for immunization, 192  
schedule and dosage, 196  
serologic testing and booster doses, 198

### **Resources for Parents and Patients, 54**

### **Rubella Vaccine, 200**

adverse reactions, 203  
booster doses and re-immunization, 202  
contraindications, 203  
efficacy and immunogenicity, 201  
epidemiology, 200  
other considerations, 204  
precautions, 204  
preparations licensed for immunization, 200  
schedule and dosage, 201  
serologic testing, 202  
simultaneous administration with other vac-  
cines, 203  
storage requirements, 203

## **S**

### **Smallpox Vaccine, 207**

### **Storage and Handling of Immunizing Agents, 33**

### **Surveillance – Vaccine Safety Monitoring, 10**

## **T**

### **Tetanus Toxoid, 208**

adverse reactions, 212  
booster doses and re-immunization, 210  
contraindications and precautions, 212  
efficacy and immunogenicity, 209  
post-exposure prevention of tetanus, 211  
preparations licensed for immunization, 209  
recommended usage, 210  
route of vaccine administration, 210

- schedule and dosage, 210
- simultaneous administration with other vaccines, 212
- storage requirements, 211

### **Travellers, 255**

- recommended immunizations, 258
- required immunizations, 257
- routine immunizations, 256

### **Typhoid Vaccine, 214**

- adverse reactions, 219
- booster doses, 218
- contraindications and precautions, 219
- efficacy and immunogenicity, 216
- epidemiology, 214
- preparations licensed for immunization, 215
- recommended usage, 217
- route of vaccine administration and storage, 217
- simultaneous administration with other vaccines, 218
- summary of recommendations, 220

## **V**

### **Vaccine Products Available in Canada, 267**

### **Vaccine Safety, 8, 10, 46**

### **Varicella Vaccine, 223**

- adverse reactions, 229
- booster doses and re-immunization, 227

- contraindications, 229
- efficacy and immunogenicity, 225
- epidemiology, 223
- other considerations, 230
- precautions, 230
- preparations licensed for immunization, 224
- recommended usage, 225
- route of vaccine administration, 227
- schedule and dosage, 227
- serologic testing, 227
- simultaneous administration with other vaccines, 229
- storage requirements, 228

## **Y**

### **Yellow Fever Vaccine, 233**

- adverse reactions, 238
- booster doses, 237
- contraindications and precautions, 239
- efficacy and immunogenicity, 236
- epidemiology, 233
- preparations licensed for immunization, 236
- recommended usage, 236
- route of administration, 237
- serologic testing, 237
- simultaneous administration with other vaccines, 237
- storage requirements, 237
- summary of recommendations, 240
