(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of insurance coverage, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual percentage increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance, tirée des déclarations d'impôt de Revenu Canada, est disponible.

(2) À partir de juillet 1996, ces séries sont calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprendent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle effective des taux de base en pourcentage.

(1) Total exports include domestic exports and re-exports.

(2) The figures reflect a number of adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts.

For more information about these adjustments, refer to Quarterly Estimates of the Canadian Balance of International Payments (Catalogue no. 67-001-XIB).

(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations.

(2) Les chiffres tiennent compte d'un certain nombre d'ajustements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements à propos de ces ajustements, voir la publication Estimations trimestrielles de la balance canadienne des paiements internationaux (n° 67-001-XIB au catalogue).

(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

(1) Retail sales estimates exclude the Goods and Services Tax (GST). Prior to January 1991, sales data included the Federal Sales Tax (FST). Due to this change in indirect taxes, data for 1991 and after are not strictly comparable with those of previous years. For users interested in deriving comparable data, an estimate of the amount of FST included in sales for 1990 is available.

Tableau 30. Commerce de détail par genre d'entreprise (millions de dollars) (1) – fin

(1) Les estimations des ventes de détail excluent la taxe sur les produits et les services (TPS). Les données sur les ventes antérieures à janvier 1991 incluent la taxe de vente fédérale (TVF). Du à ce changement dans les taxes indirectes, les données à partir de 1991 ne sont pas tout à fait comparables à celles des années précédentes. Pour les utilisateurs intéressés à calculer des données comparables, une estimation du montant de la TVF inclus dans les ventes pour 1990 est disponible.
