**This report is by:**

**Environment Canada**

**Canadian Wildlife Service**

The Canadian Wildlife Service, part of Environment Canada, manages wildlife matters that are the responsibility of the federal government. These include protection and management of migratory birds, nationally significant habitat and endangered species, as well as work on other wildlife issues of national and international importance. In addition, the Canadian Wildlife Service conducts research in many fields of wildlife biology and provides incentive programs for land stewardship and donation. For more information, visit: [www.on.ec.gc.ca/wildlife](http://www.on.ec.gc.ca/wildlife).

**Ontario Ministry of Natural Resources**

**Conservation and Planning Section, Lands and Waters Branch**

The Ontario Ministry of Natural Resources (OMNR) manages fish and wildlife, land, water, forest, and provincial parks matters that are the responsibility of the Ontario government. It also conducts related scientific research, and shares information and technology. OMNR is also responsible for developing and conducting evaluations under the Ontario Wetland Evaluation System. For more information, visit: [www.mnr.gov.on.ca/MNR/index.html](http://www.mnr.gov.on.ca/MNR/index.html).

**Natural Heritage Information Centre**

The Natural Heritage Information Centre is that part of the Ontario Ministry of Natural Resources that compiles, maintains and provides information on rare, threatened and endangered species and spaces in Ontario. This information is stored in a central repository containing a computerized database, map files and an information library, which are accessible for conservation applications, land use planning, park management, etc. The NHIC web site makes this information available through the world wide web. For more information, visit: [www.mnr.gov.on.ca/MNR/nhic/nhic.cfm](http://www.mnr.gov.on.ca/MNR/nhic/nhic.cfm).
