Number of Overnight Outbound Trips by Ontario Residents, by destination, 1980-2004

Notes:

1. Outbound Person Trip

Refers to trip taken by one person to destinations outside of Ontario.

A **domestic trip** is defined by **Statistics Canada** as travel to a Canadian destination at least 80 km one-way from home for any reasons except: travel to and from work or school (i.e., commuting); one way travel involving a change of residence; travel of operating crew members of buses, airplanes, boats, etc; travel in an ambulance to a hospital or clinic; trips that did not originate in Canada; trips longer than a year. A same-day trip does not include a night away from home, while an overnight trip includes at least one night away from home.

An **international trip** is defined by **Statistics Canada** as travel for less than 12 months for any reason by anybody except: immigrants, former residents, military personnel, diplomats and dependants and crews, returning to Canada who is cleared through Customs and Immigration point of entry.

The methodology of the International Travel Survey has changed in 2000. Therefore, data prior to 2000 are not comparable to those after 2000.

2. Discrepancies are due to roundings.
