Corporate Documents

Companies Branch has ceased providing paper certified copies of corporate documents which have been historically stored on microfiche and now certify the entire microfiche record for a specific corporation.

In view of this change, Land Registrars have been instructed to accept for registration under section 18 of the *Registry Act* and as evidence accompanying a document under the *Land Titles Act*, a paper copy made from a microfiche which has been notarized by a notary public.

As an alternative to microfiche, clients can request from Companies Branch, a Certificate of Status and a Corporation Profile Report. These two products can be requested and produced remotely by the client.

If either of these documents is presented for registration under the *Registry Act* or as evidence as part of a registration under the *Land Titles Act*, they are to be accepted and given the same effect as a notarial copy of a corporate document.
