BY EMAIL

July 6, 2005

To: All Electricity Distributors, participants in the 2005 Conservation and Demand Management Initiative (RP-2004-0203) and the Ontario Power Authority

Dear Sir / Madam:

Re: Draft Guide to Total Resource Cost Analysis

In support of cost effective conservation and demand management for the electricity sector, the Board has developed the Guide to Total Resource Cost Analysis. At this time, the Board is inviting comment from interested parties on the document.

A copy of the Guide to Total Resource Cost Analysis is available at:
www.oeb.gov.on.ca/html/en/industryrelations/ongoingprojects_distconservation.htm

Please submit 10 hard copies and one electronic PDF copy of any comments on the document to the Board Secretary with the title "Comments on the TRC Guide" before July 18, 2005.

While parties are expected to use the avoided cost information provided in the "Avoided Cost Analysis for the Evaluation of CDM Measures" submitted to the Board by Hydro One Networks Inc., as referred to in the Guide, the Board will not be receiving comments on this document.

Should you require any assistance, please contact Stephen McComb, Analyst, Facilities at 416-440-8143.

Yours truly,

Peter H. O'Dell
Assistant Board Secretary
