

Three more free vaccinations to protect the health of your children.

Vaccines for **chicken pox**, **meningococcal meningitis** and **pneumococcal disease** will be added to the routine vaccination schedule by January 1, 2005. High-risk children under five may be eligible earlier for the pneumococcal vaccine.

These free vaccines will help make Ontario a leader in preventing childhood diseases.

Call your local public health unit or talk to your doctor about these important new additions. You can also get more information by calling **1-877-234-4343**. TTY **1-800-387-5559**. Or visit **HealthyOntario.com**.

Protecting your health.
