

## Instructions for Affixing IFTA Decals

Affix a decal to each side of the cab, outside the vehicle. Make sure they are clearly visible.

1. Remove any wax, tar or other foreign substance. Make sure the surface is clean and dry. Do not affix the decal in temperatures of  $-25^{\circ}\text{C}$  or below.
2. Remove the decal from its protective backing.
3. Affix the decal. Press firmly on its entire surface. Do not try to remove the decal once it is in place.
4. Wait at least 24 hours before washing the vehicle.
