British Columbia Transportation GDP (\$1997 dollars)

Source: BC Stats, Statistics Canada Provincial Economic Accounts

What proportion of the economy does this represent?

Commercial Transportation as a % of provincial GDP,
2002

Source: Transport Canada

How many people are employed in B.C.'s transportation sector?

Employment in B.C.'s Transportation sector

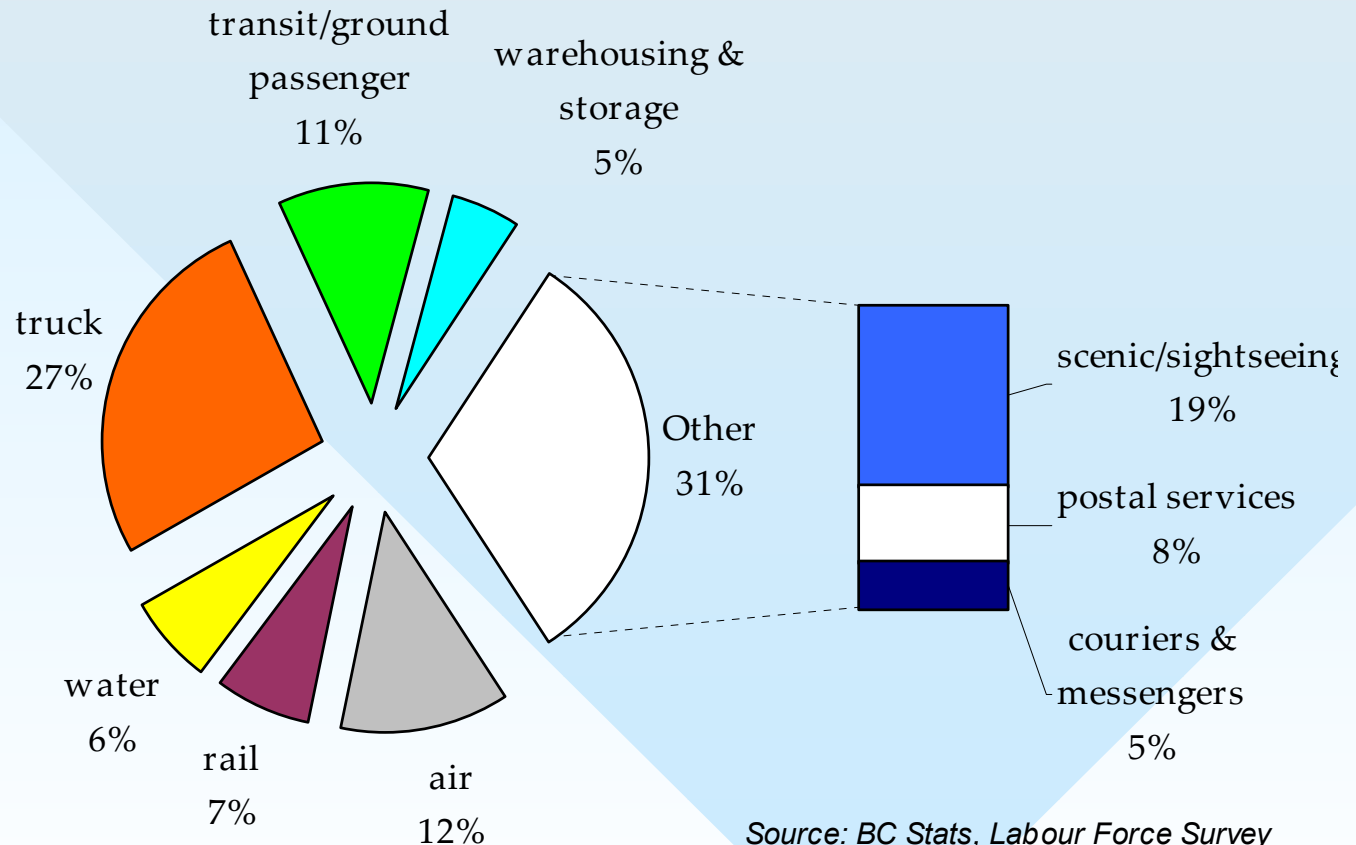

Source: Labour Force Survey

What range of activities do transportation workers do?

Transportation Employment by Subsector, 2003

total = 114,300

Source: BC Stats, Labour Force Survey

Current climate in the transportation sector

- Beginning to see traffic congestion in more populated centres: Lower Mainland, Okanagan Valley, Sea-to-Sky Highway
- Security and access concerns for truckers who are moving goods across the US border.
- Long-term benefits of investing in transportation not always factored in to land use decisions.
- Migration out of rural areas diminishes the tax base
- Physical challenges of moving people and commodities across B.C.'s landscape

Emerging opportunities & challenges

- Deteriorating infrastructure, and need to access capital investment for upgrading.
- Need to create infrastructure while supporting national and provincial climate change commitments.
- Increasing complexity of transportation operations.
- Competing priorities for urban land-use.
- B.C.'s population is growing, particularly in urban areas – commuter transportation pressures
