WEEKLY INCIDENT REPORT 10 April – 16 April, 2006

FLOODING

On 10 Apr 06, a debris flow was washed down Clement Creek north of Greenwood resulting in a deposit of mud and debris to be deposited on the Boundary Creek Road. The Emergency Program Coordinators for the City and Regional District were advised and conducted a site inspection to assess the damage and risk to public safety. A highway's maintenance crew responded and closed a portion of the road to vehicle traffic until the debris could be removed from the road surface and it was safe to resume regular traffic flow.

On 12 Apr 06, Hosmer Creek was approaching over bank flood levels with the potential to impact a number of homes. The SEA PREOC and PECC were activated to Level 1 in support of the Regional District to conduct remediation works by removing the gravel buildup and reduce the immediate threat of flooding.

On 14 Apr 06, Fruitvale Creek in Fruitvale, broke over its banks shortly after noon impacting 2 homes and a business. Municipal work crews managed to clear debris from the creek and associated culverts which reduced some of the impact. At least 2 other flood sites were reported, including Marsh Creek at Champion Lakes Road and Kenny Road at Beaver Creek. Local officials are responding to all flood sites. The SEA PREOC activated to Level 1 in support of local governments and sent two TEAMS members to the flood site to assist the local government crews with damage assessment. Bank armouring was completed by public works crews along Beaver Creek adjacent to municipal sewage lagoons. The PECC activated to level 1 to provide support and advice.

EVIDENCE SEARCH

On 14 Apr 06, Surrey SAR assisted the RCMP with an evidence search. Nothing was located and they were stood down.

MISCELLANEOUS

On 13 Apr 06, New West ESS responded to assist with the evacuation of 5-7 suites (20 people) due to a police incident.
