WEEKLY INCIDENT REPORT 6 Nov to 12 Nov 2006

BODY RECOVERY

On 10 Nov 06, Vernon SAR were called out to recover a deceased individual from a vehicle that went over an embankment on Shuswap River Road.

DANGEROUS GOODS

On 09 Nov 06 a cargo vessel measuring 198 metres in length struck the #2 berth at the south end of the Squamish Terminals in Squamish. The vessel sustained a 30 foot by 5 foot gash in the starboard side of the bow. The Ministry of Environment (MOE) Response Officer (RO) raised the incident to urgent status (Code 2) due to the potential for environmental damage and media interest as this was the same location as a significant oil spill earlier in the year. MOE RO and Conservation Officers (COs) attended the site along with Environment Canada Environmental Response Officers and determined there was no spill of materials and no impact to the environment. Transport Canada and MCTS also responded to the scene. The rupture was blocked and the bunker C fuel was transferred into another tank. Burrard Clean responded and placed a containment boom around the vessel while the damaged tank was cleaned. The incident was downgraded when it was confirmed that there had been no impact to the environment and no remaining threat of pollution.

On 10 Nov 06 a Superior Propane tanker truck carrying 18,000 litres of liquid propane rolled over onto the driver's side in front of a townhouse complex in the District of Whistler. An evacuation order was issued to encompass the area within a 100 metre radius of the vehicle until the material could be offloaded into another truck. The MOE RO raised the incident to urgent status (code 2) due to the risk of explosion and evacuation order. Environment Canada, MOE HQ, OFC, PEP RM and EPC were advised and monitored the situation until the material was safely offloaded and stabilized. The evacuation order was rescinded and the incident was downgraded to code 1.

MISCELLANEOUS

On November 12, 2006 RCMP had to evacuate up to 37 people due to a bomb threat and hostage taking incident at the Days Inn on King George Highway in Surrey. Evacuees were sent to a nearby hotel for the night and were provided with breakfast in the morning.

SEVERE WEATHER

An intense Pacific frontal system which arrived late Sunday evening, November 5, 2006 on the South Coast and Vancouver Island resulted in heavy rain, flooding, slides, evacuations and road closures throughout a wide area of Southern Vancouver Island, Greater Vancouver and the Fraser Valley. Local government emergency operation centres were activated in Fraser Valley RD, Squamish, Abbotsford, Hope and Richmond. The Fraser Valley Regional District declared a State of Local Emergency for an area in the Chilliwack River Valley. Provincial Regional Emergency Operations Centres in Surrey, Victoria and Kamloops and the Provincial Emergency Coordination Centre in Victoria were activated in support of the local governments affected by storm related incidents. Please refer to the PEP website for further details:
