

Personal Assistance Services Self-assessment Worksheet

Purpose

The purpose of this worksheet is to help you assess the extent to which you offer personal assistance in any one of six service areas: activities of daily living; central storage, distribution, administration or monitoring of medication; monitoring of food intake or therapeutic diets; maintenance or management of cash resources or property; psychosocial rehabilitation or intensive physical rehabilitation; and structured behavioural program. Personal assistance services may be provided at either a less intensive support service level or a more intensive prescribed service level. You may perform some or all of the activities in the support services column without triggering a prescribed service. If you apply for registration, please attach this completed worksheet to your application form.

Instructions

1. For each personal assistance service area, read the list of activities under each of the support services and prescribed services columns and place a check mark as appropriate.
2. If you do not offer or perform any activity listed in either column, check the box:
 Not offered or provided at all.
3. If you offer or provide any one of the activities listed under support services, check the box:
 Offered or provided at support service level.
4. If you offer or provide any one of the activities listed under prescribed services, check the box:
 Offered or provided at prescribed service level.

Service Area: Activities of Daily Living

Support Services	√	Prescribed Services	√
The personal assistance activities listed in this column are <i>not</i> prescribed services. Registered assisted living operators may perform all activities in this column.		Performing any one activity in this column indicates the service area listed above is a prescribed service.	
<p>Operator staff may:</p> <ul style="list-style-type: none"> • Observe changes of concern and bring to resident's, or other's, attention. • Provide cueing, reminders, prompts and redirection for daily activities/tasks. • Provide tactful reminders for individuals with short-term memory loss about to repeat an activity, such as having a second meal or washing their hair again. • Offer group programs to encourage and maintain socialization and awareness of current events in residence and community. • Provide ongoing assistance not requiring personal contact, such as positioning a chair or drawing a bath, getting needed items or being available while resident bathes. • Provide occasional or intermittent assistance for residents who are usually independent with "hands-on" tasks such as dressing, bathing, grooming, using the toilet, eating and mobility/transfer. • Provide occasional or intermittent assistance with activities of daily living in accordance with goals set out in a psychosocial rehabilitation plan (see last service area). 		<p>Operator staff may:</p> <ul style="list-style-type: none"> • Provide daily to weekly assistance on a regular and continuous basis,¹ such as with: <ul style="list-style-type: none"> – dressing, grooming or oral hygiene; – washing, bathing or perineal care; – mobility assistance; – incontinence care and programs, such as assistance to use the toilet. • Provide assistance with feeding, including tube feeding/hand feeding.² • Perform other tasks delegated from a professional,² such as foot care, ostomy care and exercise activation. • Observe and report any changes in resident's condition.² 	

Summary assessment of activities of daily living:

- Not offered or provided at all.
- Offered or provided at support service level.
- Offered or provided at prescribed service level.

1 The assistance could be on a scheduled or unscheduled basis.

2 Tasks delegated from a professional are to be performed in accordance with the *Personal Assistance Guidelines*, Ministry of Health Services, 1997. Available on the Registrar's website or from the Registrar's office.
