# INTRODUCTION

*British Columbia Public Libraries Statistics* is an annual publication of the Library Services Branch of the Ministry of Municipal Affairs.  It provides a compilation of statistical and financial data summarizing the activities of British Columbia public libraries for the calendar year.  The statistics are also published electronically on the Ministry of Municipal Affairs web site at:

http://www.marh.gov.bc.ca/LIBRARY/STATISTICS/

Since 1997, the statistics have been collected electronically, using the "Annual Survey of Public Libraries", a web-based application that accepts data filed by all public libraries in the province.  The result is as accurate a reporting of that data as is possible and an important accountability, planning, and performance measurement tool for library trustees, library staff and local government officials.

The Library Services Branch is grateful for the support and cooperation of the public libraries of the province in providing the data for this publication.  As always, the Branch staff will be pleased to receive comments and suggestions for improvements to the publication.

Errata (September, 2001)
1. p.10. The Average Circulation per Volume for Municipal Libraries has been corrected to 5.09.
2. p.22. The Average Circulation per Volume for Regional Library Districts has been corrected to 4.50.
3. p.22. The Average Circulation per Volume for Integrated Public Library Systems has been corrected to 3.73.

## ORGANIZATION OF BRITISH COLUMBIA PUBLIC LIBRARIES

On August 26, 1994, the *Library Act, S.B.C. 1994, c. 31*, except section 46, came into force.  A *Regional Library Districts Transitional Regulation* made under the new Act modified existing regional library districts by replacing constituent school districts with regional districts.  Section 46 came into force on January 1, 1995.  The Act provides for five types of public library organizations, which are described below in the order in which they appear in this publication.

A **Municipal Library**, established under Part 2 of the Act, is managed by a corporate public library board appointed by the municipal council and is supported from the municipality's annual budget.  Twenty-one  municipal libraries, including eleven members of the InterLINK Federated Public Library System, served a total population of 2,075,313 in 1999.

A **Regional Library District**, established under Part 3 of the Act, is managed by an appointed regional library district board with corporate powers and tax requisitioning authority and is composed of municipalities and regional districts.  Three regional library districts served 1,341,753 persons in 1999.

An **Integrated Public Library System**, continued under section 60 of the Act, is managed by a regional district board for all municipal and electoral participating areas of the regional district. Two integrated public library systems served a population of 201,624 in 1999.

A **Public Library Association**, continued under Part 4 of the Act, is managed by a corporate library board elected by members of the association.  Although public library associations are not part of municipalities or regional districts, most receive regular grants or contributions from local government.  Forty-five public library associations served 306,745 persons in 1999.

A **Library Federation**, established by agreement under section 49 of the Act, is managed by a corporate board and is composed of two or more library boards participating in the cooperative provision of library service.  One library federation, the InterLINK Federated Public Library System, served eleven municipal libraries, one regional library district and five public library associations, with a total population of 2,251,751 in 1999.
