

25,000 gpd Equivalence (Imperial)

For any application with a proposed diversion rate of over 25,000 gallons per day, a Development Plan is required.

The rate of withdrawal at 25,000 gpd equates to:

Quantity	Unit
0.09	AF/day
8	AF in 90 days
10	AF in 110 days
11	AF in 120 days
17	AF in 180 days
114	cubic metres/day
113 650	litres/day
0.001	cubic metres/second
1.32	litres/second
0.046	cubic feet/second
9 125 000	gallons/year
