NOTE: For Import/Export, Accompany to Hunt, Rainbow Trout Pond or Scientific Collection (Fish) permits, do not use the General Application form. See the Permit & Authorization Service Bureau website for the appropriate application form instead.

Instructions: Based on the activity you wish to do, choose the appropriate permit code(s) from the list below. For some activities, you may need to list more than one permit code. When completing your application, please list all the codes related to a single activity on the same application form. You will be charged only for the most expensive permit issued. For example, if you are applying for a permit to capture live wildlife, you would probably also need a permit to transport that same live wildlife within B.C. In this case, your application form would include a request for Permit 2(h) and Permit 2(m). You would be charged only for the 2(h) permit, as it is the more expensive of the two. For unrelated activities, you must fill out separate application forms and pay separate fees.

If you cannot find a code that accurately reflects the activity you wish to do, please contact the Permit and Authorization Service Bureau at (250) 952-0932 or 1-866-433-7272.
