## PESTICIDES AND GROUNDWATER

This publication focuses on the movement of agricultural pesticides to groundwater. It is intended to raise awareness of the site factors, pesticide properties, and applicator practices that increase the risk of groundwater contamination. Discusses Environmental Protection Agency's drinking water standards and the potential health effects of consuming water contaminated with pesticides. This guide is written for pesticide users and rural residents concerned about the quality of groundwater resources. To obtain a copy, please contact:

# Pesticides and Groundwater

## Table of Contents

- Groundwater
  - How Groundwater Moves
  - Where Groundwater Comes From
  - Consequences of Groundwater Contamination
  
- Pesticides in the Environment
  - Pesticide Properties
  - Soil Properties
  - Site Conditions
  - Determining Leaching Potential
  
- Applicator Practices
  - Integrated Pest Management
  - Pesticide handling
  - Pesticide Application
  - Well Protection
  
- Health Effects of Groundwater Contamination
  - Types of Health Effects
  - Dose-Response Relationship
  - EPA Drinking Water Standards
  - Water Testing
  - Pesticides in Groundwater: An Update

This publication is approximately 17 pages.
