Order No. 503.000-2
June 1982

GUIDELINES FOR MINIMUM STANDARDS IN WATER WELL CONSTRUCTION PROVINCE OF BRITISH COLUMBIA

In preparing these guidelines, three main objectives were recognized (1) protecting and management of the groundwater resources of BC for present and future use, (2) protection of the health, safety and welfare of the public who use the groundwater resource and, (3) protection for the consumer to ensure he has adequate potable water at reasonable cost.
