

Irrigation FACTSHEET

B.C. FROST PROTECTION GUIDE

This published book contains over 40 pages of valuable information on implementing frost protection to reduce crop loss in British Columbia. This publication explains the types of frosts that may occur, passive and active methods of frost protection and general guidelines on designing irrigation systems to protect against frost. This book can be obtained directly from the **Irrigation Association of British Columbia** for \$5.00 (plus taxes, shipping and handling charges). See next page for ordering instructions.

When ordering the published book (bound and stapled) please ensure that your full name, full mailing address, and phone number are included.
