

# Integrated Land Management Bureau

Integrated Land and Resource Registry (ILRR)

## Land Act Data Reference Guide

### The ILRR is:

A spatially enabled integrated register of over 250 different types of Crown land interests and tenures, regulated uses, land and resource restrictions and reservations (e.g. parks, mineral reserves). In addition to rights and interests, reference layers available in the ILRR include:

- Crown land parcels, and private land parcels where available. Survey parcel information can be accessed using the "Survey Parcel Search" query, the Custom Query or the map viewer.
- Administrative boundaries including forest districts and regions are available in the map viewer.
- Base map information, including TRIM topography, grids (e.g. NTS, BCGS, PNG).

### Why use the ILRR?

- Access comprehensive current land and resource information in minutes, instead of days or weeks.
- A real time acquirer takes information from Crown Lands system (Tantalis/Gator) and registers it in the ILRR (target within 30 minutes) allowing you to immediately view and status the interests against all other requested and active interest.
- Determine the current status of the land (Crown and private).
- Identify if further historical research may be necessary, and then use ILRR information to locate history in systems such as the Land and Resource Data Warehouse, and BC OnLine (land titles, personal property registries, etc.).
- Identify potential land use conflicts.
- Supports:
  - land planning and treaty negotiations;
  - inter-agency referral processes;
  - applications for interests in land; and
  - emergency planning and response.
- Faster, more consistent decision making using common information.
- Reduced risk in decision making.
- Quickly generate queries, maps or reports.

### Non-Land Act interests in the ILRR

Coal licences, leases and reserves; contaminated sites; ecological reserves; forest interests, tenures, and service roads; guide outfitter areas; heritage conservation sites; *Mineral Tenure Act* (mineral and placer) claims, leases and reserves; park designations; petroleum and natural gas Interests; protected area designations; *Range Act* Interests; trap lines; *Water Act* Interests; First Nations interests.

Status results: 70 interests found within 1000 meters of requested Residential Crown Grant 825353

## Custom Query – create, save, and share custom queries based on your needs

- Select up to 7 parameters: interest type, interest agency, location, term or other date, interest holder, status, size.
- Save your query to “My Queries and Notifications”. Run, modify, copy, or delete your query at any time.
- Share your query parameters with another IDIR or BCeID user.
- Create a notification based on your query and have the ILRR notify you of changes in your area of interest.

## Map Inquiry – spatially query interests, produce maps, select an “area of interest” for a land status

- View information on 250 different interests.
- Turn on and off any interest, administrative boundary, survey parcel or base layer (e.g. turn off everything but *Land Act* interests, survey fabric and TRIM base map).
- Drill down and generate list of interests at that point.
- Import a shape file, select a polygon, or draw a polygon to create an AOI (area of interest) then accept the AOI and generate a status report.
- View information on private land (PID, Jurol, legal description).
- Use edit tools to customize your map view or generate a map complete with legend.
- Save a map query session to your computer for later use.
- Link directly to GATOR to view the document’s image.

## Survey Parcel Search – Crown land PIN, private land PID, BC Assessment Jurol, and legal description
