BRITISH COLUMBIA AGRICULTURAL TESTING LABORATORIES

The following is a list of laboratories that do agricultural testing. For each laboratory, the type of analysis offered is listed by the following code:

- ◆ S = basic soil
- ◆ C = crop or tissue
- ◆ M = manure
- ◆ W = water quality

For the purposes of developing a Nutrient Management Plan, only the basic soil fertility, crop quality, and manure nutrient analysis are required. However, most laboratories offer a variety of additional services. If other services are required, the laboratories should be contacted directly.
