

THE METRIC SECTION OF LAND

In the diagram below are various portions of a section of land shown in hectares. They are not exact, but are within 2% of the exact area. This is close enough for most practical purposes. More accurate conversion factors are given below the diagram.

ha	=	hectare	1 acre	=	0.405 ha
m	=	metre	1 ha	=	2.471 acres
1 ha	=	10,000 square metres
