

# 2007 British Columbia Oil and Gas Service Sector Tradeshow Pavilion

This is the fourth year of this successful annual event sponsored by the British Columbia Ministry of Energy, Mines and Petroleum Resource showcasing the Province's investment, service and supply opportunities.

Past events have given the British Columbia service sector an opportunity to meet companies that purchase goods and services in the Province's oil and gas industry. It has also given the purchasers an opportunity to see the variety of service sector companies that British Columbia has to offer.

- If you are an oil and gas producer, explorer or procurement official, come out and meet British Columbia's vibrant and growing oil and gas service sector.
- If you are a British Columbia oil and gas service sector company, come out and showcase your company to oil and gas companies active in the Province.
