

AGE-RESTRICTED WATERS

KIDS! TAKE YOUR GRANDPARENTS FISHING!!

LESS THAN 16?...65 OR OLDER?

Age-Restricted waters are set aside just for you if you are less than 16 years of age or 65 or older. These waters are also open to disabled B.C. residents who have a valid fee-reduced angling licence (see page 6). If you are not in one of these categories, it is unlawful to fish in any of these waters.

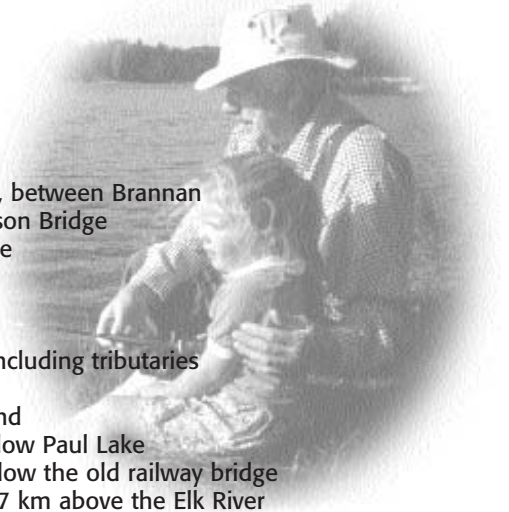

If you are under 16 you do not need a licence to fish any of B.C.'s lakes and streams, but eligible adults require a basic angling licence (see page 6) to fish these age-restricted waters.

We've picked 21 lakes and streams close to your home where there's lots of trout. The rest is up to you.

All angling regulations still apply, so find the water in one of the Regional Water-Specific Tables (look for the Age Restriction symbol Ⓜ) and note any Special Restrictions for the water. Then look up the "Daily Catch Quotas" in the Regional Regulations to find out how many trout (or other species) you may keep.
