

ANNUAL SCHOOL MAINTENANCE FUNDING 2005-06

Each year school boards receive funds for renovations that will extend the useful life of district facilities. A school board's annual facilities grant is calculated using a formula based on student enrolment, the condition of facilities and the estimated cost of maintenance work.

In 2005-06, the annual facilities grant will include \$5 million for seismic upgrading. The funds will be used to carry out minor non-structural upgrades at schools in high-risk seismic zones.
