

## **Appendix A**

### **Exhibit “A” Content Requirements for the Chilliwack Forest District**

Here is a list of content requirements for Exhibit “A” submissions. This supplements the letters sent to all Major Licensees, dated September 12, 2000 and March 17, 1999 regarding content of Road Permit (RP) and Cutting Permit (CP), Exhibit “A”s:

- The background is to be on a 1:20000 scale TRIM map, showing water features, roads, boundaries, cadastre (parks, lots, townships etc)
- In a CP application, ONLY THE CP BOUNDARY should be shown in bold.
- The size of the CP (ha).
- In a RP application, ONLY THE ROAD LOCATION should be shown in bold.
- The length of all road(s) (m) applied for in the RP.
- The point of commencement(s) (POC) for all block boundaries applied for in the CP's.
- The POC's and point of terminations (POT) for each road within the RP.
- The CP name and block number. Include the licence number.
- The RP name and section number (section number 10 digits or less). Include the licence number.
- DO NOT show locations of Wildlife Tree Patches.

Each Exhibit “A” header should show:

- File number
- Forest Region and District
- Land district
- BCGS ref map number(s)
- nad (83)
- Region, compartment, layer
- Coast or interior
- Date drawn
- Scale
- MOF logos
- Utm co-ordinates
- TSA number and block
- North arrow

If you have any questions regarding map submissions please contact Lindsay Scott at (604) 702-5700.

## Coast Forest Region

### Licensee Key Value Indicator Form for C&E Risk Ratings

(One to be submitted for each block with all Cutting Permit submissions)

Licensee Contact \_\_\_\_\_ Date: \_\_\_\_\_  
Licensee \_\_\_\_\_ Licence \_\_\_\_\_

Cutting Permit \_\_\_\_\_ Block \_\_\_\_\_

- 1) **Water Quality:** *Quality of water for human consumption or agricultural use. Is the block within a community watershed, or within 100 metres upslope of a known licensed domestic water supply intake?*  Yes  No
- 2) **Riparian Areas/Fish Habitat:** *The integrity of riparian management zones, riparian reserve zones, stream banks, stream beds, fish habitat and lakeshore management zones. Does the block contain, or is it within 50 metres of: a “fish stream”; a “Fisheries Sensitive Zone”; or a “Marine Sensitive Zone”?*  Yes  No
- 3) **Wildlife Habitat:** *Site features and habitat beneficial to wildlife (not restricted to identified wildlife). Is the block within a known wildlife habitat area, or is a known ungulate winter range; or does it contain or is it within 50 metres of a known wildlife habitat feature (eagle nest, bear den, etc.)?*  Yes  No
- 4) **Sensitive Soils:** a) *Does the block contain sensitive soils or is it particularly dry or wet (approximately 25% or more of the block’s area covered in soils with a soil moisture regime of “moderately dry” or drier, or “very moist” or wetter)?*  Yes  No  
b) *Does the block contain terrain assessed to have a “moderate” or “high” likelihood of instability in a TSFA?*  Yes  No
- 5) **Visual Quality:** *The value of a landscape from a visual perspective. Is the block within a known scenic area?*  Yes  No
- 6) **Recreation/ Range Values:** *Recreational use and recreation resources, sites or trails as defined by the Forest Practices Code of British Columbia Act. Range use and authorized structures, excavation or constructed livestock trails for range management. Does the block contain or are there known recreation facilities or features downslope of the block?*  Yes  No
- 7) **Cultural Heritage Resources:** *Cultural heritage resources as defined in the Forest Act. Does the block contain known cultural heritage resources?*  Yes  No
- 8) **Utilities/Private or Other Property:** *Electric transmission lines, telephone lines, and oil or gas lines (includes oil and gas activities), any private property, land or equipment corporately or individually owned and other property with specified uses, leases or rights. Does the block have utilities or private land (not owned by the cutting permit holder) adjacent?*  Yes  No
- 9) **Public health & safety:** *Health and safety of members of the public and public infrastructure (roads and railways). Does the block have rural or urban development adjacent or downslope; or is there a road, passenger railway line, or frequently used recreation site or trail immediately adjacent?*  Yes  No
