INTRODUCTION

This report presents statistical profiles for all 58 Saskatchewan constituencies. Each constituency is entitled to return one Member to serve in the Saskatchewan Legislative Assembly. The statistical profiles are based on the constituency boundaries as described in the Representation Act, 2002. The statistical profiles are compiled from data collected from a 20% sample of households and includes characteristics such as home language, ethnic origin, place of birth, education, religion, labour force activity, housing costs, and income. The data in this report are derived from block information whose geography matches the constituency boundaries.

In the 2001 Census one Indian Reserve was listed as not enumerated. Data are not available for this reserve and are therefore not included in the statistical profile. This affects the constituency of Lloydminster. Users are advised to refer to the appendices for further information regarding data quality, definitions and the electoral maps.

Should you have any questions or require additional information, please contact:
