## LETTERS OF TRANSMITTAL

September, 2001

Her Honour
The Honourable Dr. Lynda M. Haverstock
Lieutenant Governor of the Province of Saskatchewan

May it Please Your Honour:

I have the pleasure to transmit to your Honour the Annual Report of Saskatchewan Justice for the year ending March 31, 2001.

Respectfully submitted,

The Honourable Chris Axworthy, Q.C. Minister of Justice and Attorney General

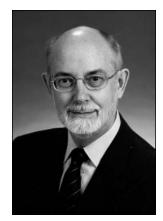

Province of Saskatchewan

September, 2001

The Honourable Chris Axworthy, Q.C. Minister of Justice and Attorney General Province of Saskatchewan

Dear Mr. Axworthy:

I have the honour of submitting for your consideration the Annual Report of Saskatchewan Justice for the year ending March 31, 2001.

Notwithstanding the high levels of offending and high utilization of the criminal justice system in Saskatchewan, the Department's cost per offence has remained among the lowest in Canada. The continuing high level of offending is a concern, however, as the criminal justice system does not seem to be addressing the needs of some communities for safety and social order. We continue to seek innovative ways to respond to offending and to encourage community development.

The Department, as a keen participant in the government-wide accountability project, is committed to identifying performance measures to determine the effectiveness of its programs, and to ensure that the financial choices made are producing the results the province needs in order to achieve its social goals. Performance measures should also assist us in determining which tasks we are adept at performing, and which tasks could better be performed by other agencies.

We recognize that the Department of Justice plays an important role in the economic and social development challenges Saskatchewan faces. James D. Wolfensohn, President of the World Bank, recently called on governments to recognize the link between law and development:

There can be no good and clean government without respect for the rule of law, nor transparent and well-functioning financial markets, nor equitable and sustainable development. What do legal and justice systems have to do with powerlessness, vulnerability and lack of opportunity? Almost everything: the quality of the legal norms in a society and the manner in which they are administered have clear and direct impacts on the extent to which citizens have a voice in the government decisions that affect their lives, the extent to which there are official safety nets and mechanisms that help them cope with economic and natural shocks, and the ways open to them to overcome disadvantages and to grasp opportunities. [St. Petersburg, July 9, 2001, Second Global Conference on Law and Justice]

Our goal of an effective justice system, guaranteeing the rule of law for all Saskatchewan people, depends on the continued dedication and commitment of all Justice staff, as well as members of other justice organizations that are our partners in Saskatchewan's justice system.

Respectfully submitted,

John D. Whyte, Q.C.

Deputy Minister and Deputy Attorney General

Government of Saskatchewan

#### Responsibilities of the Minister of Justice

The Minister of Justice is ex-officio the Attorney General. The Minister of Justice and the Department of Justice are independent parties. *The Department of Justice* Act describes a broad statutory mandate for the Minister, including responsibilities to:

- ! be the legal member of the Executive Council;
- ! superintend the administration of justice in the province;
- ! see that public affairs are administered in accordance with the law;
- ! serve as the official legal advisor to the Lieutenant Governor; and
- ! provide legal advice to the government and conduct all litigation for or against the Crown.

The Minister does not get involved in specific cases or complaints. The Minister does not give direction to the courts, the police or Crown prosecutors as to how a particular case should be handled. In cases of high public interest, the Minister may ask the police, prosecutor or complaint agency for a report. The Minister may also order a public inquiry into matters of great public interest.

The Minister has a broad mandate and is also responsible for a number of different areas including:

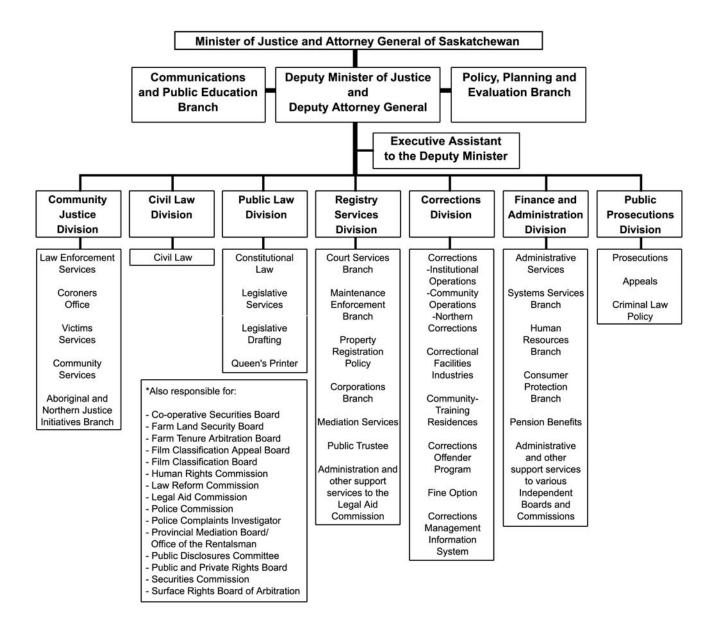

- ! Administration and delivery of justice, including:
  - prosecution of offences under the *Criminal Code*, *The Young Offenders Act*, and provincial statutes;
  - provision of civil legal services to the government;
  - provision of provincial policing services;
  - operation of the adult provincial corrections system;
  - operation of the Provincial Court, Court of Queen's Bench and Court of Appeal (except for the appointment of superior court judges); and
  - recognition and response to the needs of victims of crime.

- ! Protection of basic legal rights and relationships, including:
  - operating the personal property registration system (transferred to Information Services Corporation effective January 2001);
  - protecting and managing the estates of dependent adults or minors through the Public Trustee;
  - operating the provincial coroners system;
  - registering and/or licensing all corporations and entities that conduct business in the province; and
  - enforcement of maintenance orders.
- ! Other Justice functions, including:
  - regulating consumer and marketplace relations;
  - developing alternative mechanisms to resolve disputes outside the courts through legislative initiatives, education, and collaborative and interest-based and other innovative means of conflict resolution;
  - administration of *The Freedom of Information and Protection of Privacy Act*;
  - providing legal publications through the Queen's Printer Revolving Fund; and
  - operation of the Marriage Unit.

The Minister of Justice is responsible for a number of boards and commissions that receive varying levels of administrative and policy support from Saskatchewan Justice, including:

## Saskatchewan Justice Organizational Chart as of March 31, 2001

## THE STRATEGIC PLAN

#### The Strategic Plan and Accountability

In the fall of 1993, Saskatchewan Justice initiated a strategic planning process in an effort to identify and address the Department's needs and issues and create a strategic framework and focus for the Department. This resulted in the production of a Department Strategic Plan in February 1995. The Strategic Plan was reviewed in 1998, and changes were made that were adopted by the Department in 2000.

The Department identified six goals:

- ! Safe Communities: Individuals and communites are safe and are secure from crime.
- ! Conflict Resolution: Conflicts are resolved in constructive and timely ways.
- Legal and Policy Services: Uphold the rule of law and provide legal and policy services that meet public needs.
- ! Aboriginal Justice: The justice system responds to the values and the needs of Aboriginal people and relations between Aboriginal and non-Aboriginal peoples are enhanced.
- ! Vulnerable People: The justice system protects people in vulnerable circumstances.
- ! Marketplace Relations: A fair and effective marketplace.

#### **Evaluating our Performance**

Saskatchewan Justice is committed to identifying performance measures in order to determine the effectiveness of its programs in achieving these goals. Performance measures do two valuable things. First, citizens know whether the social goals for which expenditures were made were advanced and, therefore, whether the expenditures were fair ones to make. Second, when governments cannot do everything, performance measures help to identify the social tasks government is adept at performing and the tasks for which government is not the right agent.

The Department of Justice has a long history of seeking ways to evaluate its programs. With respect to the Aboriginal Justice Strategy there have been a number of evaluation reports: Aboriginal Justice Strategy Interim Report (February 1998); Review of First Nations Community Policing Agreements (May 1999); Saskatchewan Aboriginal Justice Strategy: The Origins, Rationale and Implementation Process: An Evaluation Report (January 2000); Police-Reported Aboriginal Crime in Saskatchewan (January 2000); and Saskatchewan Aboriginal Courtworker Program: Evaluation Report (August 2000). Other evaluations are pending respecting alternative measures programs, Aboriginal Resource Officer programs, Aboriginal family violence and urban Aboriginal crime prevention programs, and sentencing circles.

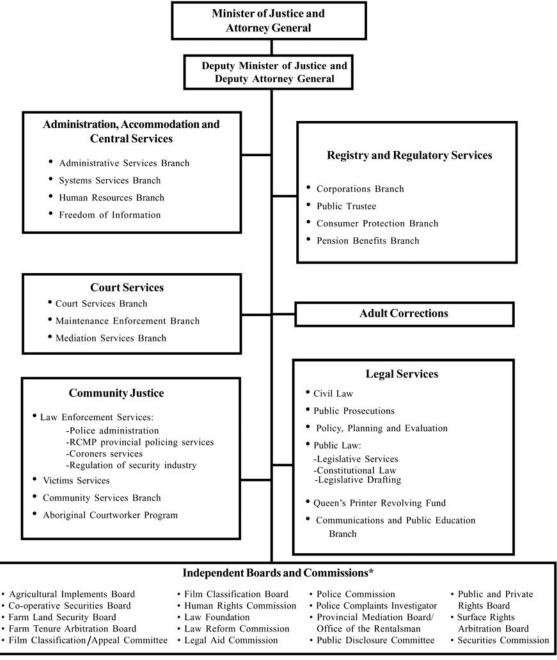

The chief goal of the justice system is to preserve social order, which is the product of many social factors relating to offending. It does not necessarily tell us much about social justice when offending rates continue to climb. Causal theories are complex. Studies may establish correlations between variables--for example, between low income and crime--but a correlation does not establish cause and effect. An alleged cause may, in fact, be an effect. There may have been other variables that caused both the low income and the crime.

A major task for the Department is to develop performance measures to measure the Department of Justice's effect, and to speak to social outcomes not just transactions. In some areas, there may be only transactions to measure. However, we have a commitment to continue to search for performance measures that measure effect.

#### **Strategic Functions**

To increase accountability, this annual report has been produced to correspond with the Department headings in the Provincial Estimates which reflect the Department's strategic functions:

- ! Administration, Accommodation and Central Services;
- ! Adult Corrections;
- ! Court Services;
- ! Community Justice;
- ! Registry and Regulatory Services; and
- ! Legal Services.

<sup>\*</sup>Many of these boards and commissions produce separate annual reports.

#### **Capital Assets**

In accordance with generally accepted accounting policies for governments, physical assets purchased by Saskatchewan Justice are expensed in the year acquired. However, information on capital assets is useful because these assets are a key component in the delivery of government programs and provide ongoing book value to the public.

The net book value of physical assets currently held by Saskatchewan Justice is \$5,386,000.

Net book value represents the cost of the acquired physical assest less an estimate of the portion of the assests used in the delivery of services.

The Saskatchewan Property Management Corporation (SPMC) acquires physical assets which are used by Justice in our day to day operations. Examples include the acquisition and management of buildings used by the Department. These assets are reported in the SPMC financial statements.

- ! The Summary Offences Procedure Act;
- ! The Occupational Health and Safety Act;
- ! The Freedom of Information and Protection of Privacy Act;
- ! the Corrections and Conditional Release Act;
- ! the Criminal Code; and

(The latter three statutes are federal enactments.)

Corrections Division achieves its mission by offering a wide range of programs providing for varying levels of offender care, control, and supervision. These programs are delivered through two operational systems -- the Community Operations Branch and the Institutional Operations Branch.

Community and Institutional services for Northern Saskatchewan offenders are administered through the North West Community Operations office in North Battleford and the North East Community Operations Office located in Prince Albert.

The Community Operations Branch assists the court through providing essential information for interim release or sentencing purposes (bail and pre-sentence reports), and promotes the responsible behaviour of offenders by providing a meaningful and socially productive level of control in the community. The services include developing and administering a range of responsible sentencing and pre-trial alternatives such as bail supervision, conditional sentence supervision, fine option, probation, restitution, community service work, intensive probation supervision/electronic monitoring, and impaired driving treatment. The programs are administered through six regional offices and nine sub-offices.

The Institutional Operations Branch administers programs for the care and custody of offenders sentenced to terms of imprisonment of less than two years. There are currently 13 correctional facilities being administered by the Branch:

- ! four provincial correctional centres;
- ! two community correctional centres;

- ! five community-training residences; and

**Budget:** \$52.1 million

**FTEs:** 883.7

Adult offenders are sentenced by the courts to community corrections programs and/or to terms of imprisonment less than two years. Selected Saskatchewan offenders sentenced to federal terms of incarceration are allowed to serve their sentences in provincial correctional centres to be near their homes and families under the terms of an Exchange of Services Agreement with the federal government.

## **RCMP Provincial Policing Service**

#### **2000-2001 Objectives**

- ! Continue provincial policing programs.
- ! Continue implementation of the new First Nations Tripartite policing agreements and helping First Nations communities that want to establish their own policing units.
- ! Continue implementation of the Models of Policing proposals.
- ! Implement migration of prisoner holding and escort services to the Province.

#### 2000-2001 Activities and Results

The RCMP provided policing services to most Saskatchewan people outside the major cities through detachments and offices in 125 locations, with 762 provincial, 102 first nations, 210.5 municipal, and 116 federal RCMP positions. Services comprise

- general police services supported by an array of specialized support services.
- Pirst Nations locations and northern communities through the First Nations Tripartite Policing Agreement. Two new Tripartite agreements were signed bringing the total to 30 covering 44 First Nation communities. One all-Aboriginal troop completed cadet training in 2000, there is one in cadet training currently, and there are plans in place for another Aboriginal troop for the fall of 2001. The RCMP is assisting File Hills Agency Chief of police so that there is a smooth transition when the agency evolves to a stand-alone First Nations policing service in 2002.
- The Models of Policing proposals for amalgamating detachments commenced in September 1997. The RCMP moved from 116 detachments and 8 satellites and through evaluation and consultation have moved to 73 larger host and stand-alone detachments and 46 smaller community detachments. Three one-person community detachments had a police service delivery change and five Town Police departments, through consultation and request of the communities, chose the RCMP as the police service provider. The prisoner and escort services in the province have been advancing well. Two Pilatis aircraft have replaced three previously used Twin Otters to perform escort duties. Most of the Sheriff's departments have completed their training and are now conducting prisoner escorts in the major cities of Regina and Saskatoon.

#### 2001 - 2002 Objectives

- ! Continue with current programs and initiate new crime prevention programs that focus on youth at an early age and are aimed at root causes for youth offenders and the youth at risk in our communities.
- ! Continue combatting organized crime by ensuring our intelligence gathering systems are effective and being utilized properly and enhance awareness for intelligence data and importance of submissions by RCMP personnel.
- ! Continue working closely and expand contacts with our partners, and in particular, other law enforcement agencies, on key crime priorities.
- ! Continue to use alternative justice options at every opportunity that provide better solutions for the offender, victim, and the community.

One of the primary indicators used in measuring police activity levels is the number of *Criminal Code* offences. Saskatchewan has the highest provincial crime rate in Canada and is one of two Canadian provinces where crime is still growing in a nation where crime has generally been decreasing since 1991. Saskatchewan has a growing at-risk-youth population in comparison to other jurisdictions where the at-risk-youth populations are generally declining.

Also, the statistics do not adequately reflect the increased time required for investigation of more complex cases such as increased disclosure of sexual assaults. The following table has been complied from RCMP data:

## Criminal Code Actual Offences - RCMP Provincial Policing Jurisdiction (excludes Municipal Policing)

Criminal Code Occurrences	1997	1998	1999	2000	% Var. 1999-2000

Grand Total	181,937	184,452	178,495	170,611	-4.42

Criminal Code cases continue to rise, while provincial liquor and traffic charges have dropped. Criminal Code cases tend to be reported by the public where the Provincial Statute cases are largely influenced by the level of police enforcement. The high level of RCMP vacancies in 1999 and 2000 was a major influence in the decline in liquor and traffic enforcement. As of January, 2001, the RCMP is back up to its full strength, so it is expected this may change in 2001.

#### Victims Services

Victims Services has the primary responsibility for assisting victims involved in the criminal justice system in Saskatchewan. Victims' needs are directly related to their involvement in the criminal justice system and may include:

- ! information on the justice system and assistance as they proceed through the criminal justice process; and
- ! compensation to offset expenses directly resulting from violent crime.

Victims of reported crime, those who come to the attention of the justice system, are the first priority of the program. Initiatives for victims of unreported crime and at-risk individuals are also considered important and are supported to the extent that resources are available. Special emphasis is placed on meeting the needs of more vulnerable individuals such as children and persons with disabilities.

In order to increase understanding about the needs of victims of crime and ensure basic services are available to meet their needs throughout Saskatchewan, the Victims Services Program offers a range of direct supports, such as:

- ! crisis intervention services;
- ! specialized victim services for special target groups such as victims of domestic violence and child and

- adult victims of sexual abuse;
- ! victim/witness services;
- ! victims compensation;
- ! Aboriginal initiatives; and
- ! the Victim Impact Statement Program.

Underlying these direct services are other initiatives that improve understanding and increase awareness of the needs of victims, and help ensure a comprehensive and cooperative response. These indirect supports include:

- ! education and training;
- ! co-ordination of services;
- ! research and evaluation initiatives; and
- ! prevention of victimization programming.

The governing legislation of the Victims Services program is *The Victims of Crime Act, 1995* and *The Victims of Crime Regulations, 1997*.

### **Court Services Branch**

Court Services Branch is primarily responsible for providing court services to all of the courts in the province (the Provincial Court; the Court of Queen's Bench which includes the Family Law Division and the Court of Appeal). This includes court reporting/recording and sheriff services as well as those services related to court administration. The Branch acts in a dual capacity in providing these services to Saskatchewan's justice system since it functions as both a branch of government and as a servant of the court.

Chief Justice and 32 other judges, all of whom are appointed federally. The Court of Queen's Bench sits in 13 judicial centres with permanent registries.

The Provincial Court of Saskatchewan is a court of record of limited jurisdiction dealing with small claims, family and youth, and criminal matters. The Provincial Court consists of a Chief Judge and 46 Provincial Court judges. Judges are appointed by the Lieutenant Governor in Council.

In 2000/01, the Provincial Court sat in 13 locations with resident judiciary and permanent facilities, and visited 78 other locations on circuit.

### 2000 - 2001 Objectives

- ! Begin a court facility/court security review in the fall of 2000. A committee of representatives from Court Services, Saskatchewan Provincial Court Judges' Association, Saskatchewan Property Management Corporation, and the RCMP will conduct the review. The committee will prepare a report with its findings and recommendations by March 31, 2001.
- Continue participating with the RCMP in a study regarding court security and transportation of prisoners. Sheriff's services will assume responsibility for inner-city transportation of adults in Regina and Saskatoon by October 1, 2000. This is an expansion of the existing program of transportation of young offenders by Sheriff's services. Sheriff's services will also assume responsibility for detention/security services at the Prince Albert Provincial Court by February 1, 2001, and responsibility for courtroom security at the Moose Jaw Provincial Court and the North Battleford Provincial Court in 2000-2001.
- ! Design a new juror summons system which streamlines the process used by Sheriff's staff. This process, which is presently centralized and handled by Court Services head office, will be decentralized to all Sheriff's offices in the province.
- Partner with other justice stakeholders in the preparation of a business plan for an "Integrated Justice System", which will include the response to the system changes as a result of the new youth justice initiatives.
- ! Assist the Legal Aid Commission in establishing a "duty counsel" model in the Provincial Courts in Regina and Saskatoon. Court Services will also explore options for streamlining processes in regard to court-appointed counsel for adult and young offenders.
- ! Funding was received in the Court Services 2000-2001 budget for an Aboriginal court party for the North. Court Services will work with all Justice stakeholders, as well as the communities impacted, on the implementation of this new initiative.
- ! Prepare a business plan, in response to the government's performance management accountability review. The business plan will include an information technology plan.

### 2000-2001 Activities and Results

- A court facility/court security review was conducted in the fall of 2000/early winter 2001. The review was conducted by a committee of representatives from Court Services, Saskatchewan Provincial Court Judges' Association, Saskatchewan Court of Queen's Bench, and the Saskatchewan Property Management Corporation. The review committee developed standards for all court facilities in the province, and identified facilities that require modification to meet the standards and areas requiring new facilities. The committee also developed security standards for all court facilities which included all aspects of both internal and perimeter security. The committee prepared a report with its findings and recommendations and submitted it to The Provincial Court Commission for its review on May 31, 2001.
- ! Sheriff's services in Regina and Saskatoon assumed responsibility for inner-city transportation of adult prisoners on October 1, 2000. This resulted in the expansion of the existing program of transportation of young offenders by Sheriff's services. Sheriff's services also assumed responsibility for detention/ security services at the Prince Albert Provincial Court on February 1, 2001, and responsibility for court-room security at the Moose Jaw Provincial Court and the North Battleford Provincial Court in the 2000/2001 fiscal year.
- ! A new juror summons system was implemented in all Sheriff's offices in the Province. The juror summons system streamlines the process used by Sheriff's staff, and provides a more efficient and expedient process for those who receive a summons for jury duty.
- 1. Courts Services continued its work as a partner with other justice stakeholders in the preparation of a business plan for an "Integrated Justice System," which includes the response to the procedural and system changes as a result of the new youth justice initiatives. This work will continue into the 2001/2002 fiscal year.
- Court Services assisted the Legal Aid Commission in establishing a "duty counsel" model in the Provincial Courts of Regina and Saskatoon. The duty model system in Regina Provincial Court was put into place in the early spring of 2001, and it is expected the Saskatoon duty model system will be in place in the fall of 2001. Court Services and the Legal Aid Commission also explored various options for

- streamlining processes in regard to court-appointed counsel for adult and young offenders. Work will continue on this initiative in the 2001/2002 fiscal year.
- 1 A Steering Committee was established with representatives from Saskatchewan Provincial Court judiciary, Court Services, Legal Aid, Prosecutions, Community Services, and Corrections to implement a Provincial Court circuit in the North that will provide services in the Cree language. A judge was appointed to this Court in January, 2001, and it is expected the Court will be fully operational by the fall of 2001.
- Properties of the Representatives from Court Services played a key role in the preparation of a business plan that fits within the Justice response to the government's performance management accountability review. The business plan includes an information technology plan and a human resources plan.

### 2001-2002 Objectives

- ! Court Services will take a lead role in organizing a national conference that will take place in September, 2001, in Saskatoon. The conference, called "Trial Courts of the Future", will examine the evolving role of trial courts and how they serve the needs of Canadians, including options and constraints for structural reform. This conference is the first of its kind in Canada, and will be attended by approximately 300 registrants—members of the judiciary from all levels of Court across Canada, senior court administrators, academics, and other members of the legal profession.
- ! Court Services will take a lead role in the implementation of the Cree Court in Northern Saskatchewan. It is expected that this Court will be fully operational by October 1, 2001, and will provide services in the Cree language. The Cree Court Party which includes a judge, legal aid lawyer, prosecutor and court clerk will all be Cree speaking, and a translator will travel with the court party to provide interpretation services when required.
- ! A "circle court" will be constructed in the Saskatoon Provincial Court. This circle court will be used as a therapeutic court for youth who are involved in crime and will provide the mechanism for the court to be involved in a more non-traditional role—that of a

- participant in a therapeutic approach to dealing with offending, in appropriate cases. It is expected that, over time, this court will play a role in resolving underlying causes of criminal or other inappropriate behavior.
- ! Court Services will participate in a review of the justice of the peace program in Saskatchewan. This will include a review of the existing justice of the peace structure, as well as a review of justice of the peace programs in other jurisdictions. In particular, the review will concentrate on improving Provincial Court and justice of the peace services in northern and Aboriginal communities.
- Court Services will begin a process to respond to the recommendations of the court facility/security report that was finalized in the spring of 2001. In particular, emphasis will be placed on improving the court facilities and security at Provincial Court circuit points.
- ! Court Services will continue to work with Aboriginal communities to accommode requests for the holding of Court on Reserve. In particular, emphasis will be placed on setting up new Cree Court circuit points on Reserve.
- ! Court Services will initiate a review of the Jury Fee payment processes, and develop an option paper in regard to remuneration provided to members of juries.
- ! Court Services will continue to explore and implement innovative methods for improving the collection rate on outstanding fines. This includes evaluating the cost benefits of establishing an internal fine collection unit, with the mandate to use civil remedies for the enforcement of the payment of fines.
- ! Court Services will participate in a national review, organized by the Association of Canadian Court Administrators, to set guidelines for court administrators across Canada to address the needs of self-represented litigants. Court Services will also be reviewing internal procedures for assisting self-represented litigants and identifying other self-help materials that would be of assistance to the ever growing number of self-represented litigants in our Courts.

- ! Court Services, in collaboration with other Justice partners, will initiate a review of access to justice issues as they relate to Small Claims Court and other Civil Courts.
- A mandatory parent education pilot program will be established in Yorkton and Saskatoon in the fall of 2001. This is a continuation of the parent education program that has been offered throughout the province on a voluntary basis since the Family Law Division was established in 1994.
- ! Family Law Support Services will change procedures for completion of custody and access assessments, with focus on "hearing the voices of the children". These changes have come about after extensive consultation with the judiciary, family law support services staff, and members of the public who have provided very valuable feedback about the present Family Law Support Services programs.

# LEGAL SERVICES

Saskatchewan Justice provides legal services through the following divisions and branches:

- ! Civil Law Division;
- ! Policy, Planning and Evaluation Branch;
- ! Public Law Division;
- ! Queen's Printer; and
- ! Public Prosecutions Division.

This section also includes the Communications and Public Education Branch.

**Budget:** \$15.1 million

**FTEs:** 216.8

The most important asset of all three legal divisions is the human resource component.

### Civil Law Division

### Goals and Objectives

The Civil Law Division provides legal services to the departments, agencies, boards and commissions of the Government of Saskatchewan.

The mandate of the Civil Law Division is to provide high quality, timely, and cost efficient legal services to client agencies on a day to day basis, relating to government functions, the administration of government programs, and litigation involving the Crown and its employees.

The Division has a statutory obligation to provide legal services to the Government of Saskatchewan under sections 9 and 10 of *The Department of Justice Act*.

Section 9 provides, in part, that the Minister of Justice shall "see that the administration of public affairs is in accordance with the law" and shall "advise the heads of the several departments of the government upon all matters of law connected with those departments".

Section 10 provides, in part, that the Attorney General "shall regulate and conduct all litigation for or against the Crown or any department in respect of any subject within the authority or jurisdiction of the Legislature".

### **Activities and Results**

The Civil Law Division provides legal services to Government of Saskatchewan departments, agencies, boards, and commissions. The full range of professional legal services offered by the Division is similar to those provided by any large law firm in Saskatchewan including:

- ! providing general legal advice respecting activities of the government;
- ! providing legal opinions respecting interpretations of legislative provisions, Crown liability as a result of government activities, and civil legal problems arising out of government programs;
- acting as counsel in lawsuits and other legal proceedings on behalf of the Crown;
- ! on instructions from the Maintenance Enforcement Office, enforcing Maintenance Orders filed pursuant to *The Enforcement of Maintenance Orders Act*,1997, on behalf of claimants;
- ! acting as counsel to the Department of Social Services with respect to matters under *The Child and Family Services Act* in the City of Regina;
- ! acting for the Director of the Labour Standards Branch of the Department of Labour to enforce wage claims of employees pursuant to *The Labour* Standards Act;
- ! negotiating and preparing agreements;
- preparing legal documents such as land transfers, releases, bonds, guarantees, assignments, etc.;
- ! participating in policy and program development for client agencies;

- ! assisting in the preparation of drafting instructions, new legislation and amendments to statutes; and
- ! preparing reports for the Minister of Justice and other members of the Executive Council.

### Accountability

The Civil Law Division uses three performance measures to determine whether the Division is reaching its objective.

The first performance measure is the work "output" of lawyers within the Division who record their billable hours for legal services to client departments and agencies, much as lawyers in private practice record their time for billing purposes. All lawyers within the Division are required to maintain time sheets on a daily basis for the purpose of recording billable hours to assigned client agencies. These time sheets are summarized on a monthly and calendar year basis. Total billable hours are measured against what is commonly accepted in the profession for lawyers in a private law firm. In calendar year 2000, Civil Law Division lawyers had a total of 29,405 billable hours of legal services compared to 29,235 billable hours in calendar year 1999.

The second performance measure is client satisfaction with legal services. Lawyers in the Division provide Annual Reports to all client agencies receiving 20% or more of the lawyer's billable hours. The annual report provides client agencies with a brief description of the legal services provided during the calendar year and the total allocated billable hours to that client agency. The purpose of the Annual Report is to obtain feedback from clients on both the quality and quantity of legal services being provided.

The third performance measure of legal services is "input" or the cost of providing legal services to the Government of Saskatchewan. In 1994/1995, the Civil Law Division's budget was \$2,252,000. In 2000/2001, the budget was \$15,000 less at \$2,237,000, although, actual expenditures were \$2,265,000. The over expenditure of \$28,000 was due entirely to accrued vacation leave liability for lawyers employed by the Division. Actual expenditures for 2000/2001 were \$52,254 less than they were in 1999/2000. Of the \$2,265,000 spent,

\$223,162 was paid in fees to private law firms to represent the government in proceedings against the Crown and in Maintenance Enforcement matters and to retain two contract lawyers to provide legal services to the Public Trustee and the Agricultural Credit Corporation of Saskatchewan. In 1999/2000 \$349,462 was paid to private law firms.

# Policy, Planning and Evaluation Branch

The Policy, Planning and Evaluation Branch advises, co-ordinates, and supports the development, implementation, and monitoring of policy, program, research, and evaluation issues which broadly impact on the Department.

### Pension Benefits Branch

The Pension Benefits Act, 1992 protects pension plan members on two principles:

- ! the accrued pension entitlements of plan members should be safeguarded from undue loss; and
- ! plan members should be treated on a fair and equitable basis.

The Act regulates employer-sponsored pension plans with Saskatchewan workers as members. The Act does not apply to certain plans established for employees of the Governments of Saskatchewan and Canada, nor does it apply to plans associated with undertakings regulated by the federal government (e.g., banks, transportation companies, broadcasting).

The Pension Benefits Branch identifies and manages risks and problems to bolster public confidence in the pension system while allowing the market to develop to meet the retirement needs of Saskatchewan workers and employers.

### 2000-2001 Objectives

- Protect pension plan members from undue loss by ensuring plans are sufficiently funded, plan benefits comply with the legislated minimum standards, and plans are administered in compliance with the legislation and plan documents.
- ! Review 50 70 actuarial valuation reports, 400 annual information returns, and 100 200 plan amendments.
- Participate in the development of national policy standards through the Canadian Association of Pension Supervisory Authorities (CAPSA) and the Joint Forum of Financial Services Regulators (Joint Forum). CAPSA is an interjurisdictional association of pension supervisory authorities whose mission is to facilitate an efficient and effective pension regulatory system in Canada. The Joint Forum was founded by pension, insurance, and securities regulators to develop cross-sectoral and cross-jurisdictional solutions to financial services regulatory issues.
- ! Review the feasibility of integrating the Pension Benefits Branch, the Financial Institutions Section

- of the Consumer Protection Branch, and the Saskatchewan Securities Commission into one financial services regulator.
- ! Explore options for the electronic filing of documents by pension plan administrators.

### 2000-2001 Activities and Results

- ! The Branch reviewed 63 actuarial valuation reports. An actuarial valuation measures the financial position of a defined benefit pension plan and recommends prospective contribution rates.
- Pefined benefit plan assets of \$6.6 billion exceeded their liabilities of \$5.9 billion, meaning the system as a whole had a surplus of almost \$700 million. Sixty of 159 defined benefit plans had an unfunded liability; however, plans with an unfunded liability tended to be smaller. Ninety-two percent of plan members belonged to a plan with surplus assets. Just 4 plans accounted for 89% of the \$55 million in total unfunded liabilities. The branch monitored those plans closely.
- ! CAPSA incorporated and established a permanent secretariat. It also established a strategic plan for the period 1999 to 2004.
- ! Saskatchewan participated in a Joint Forum committee to review the regulatory requirements for capital accumulation plans, including defined contribution plans.
- ! A consultant was engaged to review the organization of the financial market regulators. Further consultation is expected in 2001-2002.
- ! A discussion paper prepared by the Branch on possible amendments to the regulation of life income funds and locked-in retirement income funds was released for public comment in June 2000.
- ! Electronic filing was deferred. A CAPSA committee was established to review the feasibility of a national database.

### 2001-2002 Objectives

! Protect pension plan members from undue loss by ensuring plans are sufficiently funded, plan benefits comply with the legislated minimum standards, and plans are administered in compliance with the

- legislation and plan documents.
- ! Review 50-70 actuarial valuation reports, 400 annual information returns, and 100-200 plan amendments.
- ! Continue to participate in CAPSA and Joint Forum initiatives. The agenda includes ongoing harmonization initiatives in the following areas:
  - pension plan governance guidelines;
  - regulatory guidelines for electronic communication

- in the pension industry;
- principles for and implementation of a CAPSA model pension law;
- coordinated responses to investment issues arising from the federal investment rules; and
- continued work with the Joint Forum of Financial Market Regulators to develop regulatory principles for capital accumulation plans.

The Board is composed of six per diem members who reflect the stakeholders involved in the farm machinery industry. The staff of the Consumer Protection Branch provides policy, administrative and investigative support, as required.

### 2000-2001 Objectives

### 2000-2001 Activities and Results

- During 2000-2001, 116 distributors (122 in the previous year), representing 242 manufacturers (234 in the previous year), were registered in Saskatchewan. There were 473 dealers (453 in the previous year) licensed and 56 dealers licenses (34 in the previous year) were terminated during the year. A total of 35 written complaints (53 in the previous year) regarding agricultural implements were received from farmers, dealers, and distributors.
- ! The Board continued to monitor parts depots in Saskatchewan. The depots continue to fill parts orders at a high percentage rate.
- The Board initiated the consultation process, through Board members, with associations and other groups that have a direct interest in farm equipment manufacturing and sales, respecting the need to update current legislation. It was concluded the Department of Agriculture and Food could better serve the Board interests and a transfer of responsibility was completed in February 2001.

### Farm Tenure Arbitration Board

The Farm Tenure Arbitration Board arbitrates lease disputes between eligible farmers and lenders with respect to the six-year Farm Land Leaseback Program established pursuant to the provisions of *The Saskatchewan Farm Security Act*.

The Farm Land Leaseback Program assists farmers in financial difficulty by providing a period of secure land tenure to the farmer after title to the farmer's land has been transferred to a lending institution. It applies to farm foreclosures where foreclosure proceedings were commenced between September 20, 1992, and June 1, 1997. Security of tenure takes the form of a

mandatory leaseback in which the lending institution is required to lease the farm land back to the farmer for a period of up to 6 years.

The program provides farmers in financial difficulty with an opportunity to remain on the land and to contribute to the development of rural Saskatchewan. The Board has the authority to determine the commercially reasonable rent, terms and conditions of Leaseback Program leases, and to address termination and certain leaseback eligibility issues. The Board is also responsible for the administration of the lease and arbitration components of the Leaseback Program. The Collections, Taxes and Leaseback Division of Saskatchewan Agriculture and Food administers the compensation component of the program.

The client group served by the Board consists of farmers and/or farming corporations, chartered banks, credit unions, trust companies and the provincial government including Agricultural Credit Corporation of Saskatchewan and Saskatchewan Agriculture and Food.

The Farm Tenure Arbitration Board's governing legislation includes:

- ! The Saskatchewan Farm Security Act;
- ! The Farm Land Lease-back Regulations; and
- ! The Public Inquiries Act.

### 2000-2001 Goals and Objectives

The Board's goals and objectives for the 2000-2001 fiscal year were as follows:

- ! Maintain an effective and efficient means of dispute resolution for Leaseback Program participants by:
  - informally assisting leaseback participants in settling lease disputes without resort to arbitration with the minimum settlement target consisting of 15 per cent of hearing applications;
  - formally assisting leaseback participants through a timely and binding arbitration process with a turnaround time of 45 days or less;
  - minimizing hearing expenses for leaseback participants through location scheduling which involves less than 300 km of travel for the parties involved; and

- monitoring the cost effectiveness of hearings for leaseback participants by tracking the number of hearings involving legal counsel and expert witnesses.
- Maintain participant compliance with leaseback requirements by:
  - monitoring all incoming notice and lease documentation and informing participants of areas of concern within 15 days of receipt of documents; and
  - monitoring Board orders to determine whether conditions have been met.
- ! Implement the next phase of the Board's restructuring plan to accommodate the winding down of the Board and the Leaseback Program; and
- ! Finalize the program evaluation and final report framework for the Leaseback Program and expand the information gathering and consultation process that commenced in fiscal year 1999-2000.

#### 2000-2001 Activities and Results

Dispute resolution objectives were met for the 2000-2001 fiscal year. The Board received 2 hearing applications.

Of the applications received, 1 matter did not proceed to arbitration. The parties settled the dispute with the assistance of Board office staff. This settlement activity exceeded the Board's settlement objective of 15 per cent of hearing applications and contributed to a reduction in hearing expenses.

The remaining application resulted in an arbitration hearing in the 2000-2001 fiscal year. One hearing was held. The hearing occurred within 3-4 weeks of the date of application and within the 300 km travel maximum set by the Board, meeting the Board's objectives for timely and cost-effective hearings. The decision was generated within 15 days of the hearing date. No appeal was taken from the Board order.

Compliance objectives were also met for the 2000-2001 fiscal year. There was an overall decline in compliance concerns. The monitoring process and information service provided by Board staff continued to have a

direct impact on improvements in notice content and activity in terms of assisting participants in addressing compliance issues.

The next phase of the restructuring plan to facilitate the winding down of the Board and the lease and arbitration components of the Leaseback Program was implemented in 2000-2001, culminating with the abolition of the manager's position effective March 31, 2001. The plan involves a further series of budgetary reductions throughout the winding down period.

The Board prepared a program evaluation and report framework for the Leaseback Program that will be continued in 2001-2002. The information gathering process for the final report continued in 2000-2001 with consultation from representatives of the Board's client group and with written submissions from Board members and former staff.

### 2001-2002 Goals and Objectives

The Board's goals and objectives for the 2001-2002 fiscal year are as follows:

- ! Maintain an effective and efficient means of dispute resolution for Leaseback Program participants by:
  - informally assisting leaseback participants in settling lease disputes without resort to arbitration;
  - formally assisting leaseback participants through a timely and binding arbitration process with a turnaround time of 45 days or less;
  - minimizing hearing expenses for leaseback participants through location scheduling which involves less than 300 km of travel for the parties involved; and
  - monitoring the cost effectiveness of hearings for leaseback participants by tracking the number of hearings involving legal counsel and expert witnesses.
- ! Maintain participant compliance with leaseback requirements by:
  - monitoring all incoming notice and lease documentation and informing participants of areas of concern within 15 days of receipt of documents;
  - monitoring Board orders to determine whether conditions have been met;

- Continuing the Board's plan to accommodate the winding down of the Board and the Leaseback Program; and
- Proceeding with the program evaluation and final report for the Leaseback Program by continuing to gather and compile information.

### Film Classification Board

Film Classification Board members are appointed by the Lieutenant Governor through an Order-in-Council and report to the Legislature through the Minister of Justice.

Both statutory and regulatory obligations and standards under *The Film and Video Classification Act* govern film classification.

The Film and Video Classification Act requires that all films (theatrical pictures) intended for public viewing, and all video cassettes rented or sold through retail outlets in Saskatchewan, be classified. The classification system is made up of the following categories: General, Parental Guidance, 14A, 18A, Restricted, and Adult.

To assist the public in making informed choices about the maturity of the film, or suitability for their family's viewing, additional information captions may be used which give a further description of the film's content.

The actual viewing and classification of theatrical films and trailers (promotional clips) is no longer carried out by members of the Saskatchewan Film Classification Board, but the Board does continue to maintain the responsibility for classification by documentation - films that run for a short time in the province's repertory theatres.

The British Columbia Film Classification Office classifies films and videos on Saskatchewan's behalf by means of an agreement between the provinces of British Columbia and Saskatchewan that came into effect October 1, 1997.

A total of 157 theatrical films (173 in the previous year) and 292 trailers (331 in the previous year) were classified during the period April 1, 2000 to March 31, 2001. As

well, 24 films (60 in the previous year) were classified by documentation. 1,729 adult video titles (1,701 in the previous year) were classified during this period and 131 (116 in the previous year) were not approved.

The Film Classification Board maintains the responsibility for registering all businesses engaged in the distribution of film and video material in Saskatchewan.
