<b>All Registration Types</b>	<b>14434</b>		<b>7807</b>	<b>14804</b>	<b>100.00</b>	<b>4603</b>	<b>420</b>	<b>19407</b>	<b>647</b>

Session Restart Total:	3249
Average Actioned Registration Steps per Session:	2.02
Sessions with E-mail Response Method:	6877
Sessions with Fax Response Method:	167
Sessions with Mail Response Method:	296
<b>Total Sessions: ( email, fax, and mail )</b>	<b>7340</b>

**Sessions** - Number of registration steps created within report date range. Date range is matched against the latest registration step completion date for a session.

**Pending** - Number of registrations with a status of Pending, In Progress, or Deferred. Date range is matched against the step creation date.

**Actioned** - Number of registrations that are completed or in the case of WCB and CRA linked (OneStop cannot determine a complete or incomplete session within iReg or BRO, only whether a user has linked to the iReg or BRO site). Date range is matched against the step actioned date.

**Deleted** - Number of All deleted registration steps. Date range is matched against the step creation date.

**Deleted After Starting** - Number of registration steps deleted after a user has started that registration process. (This is to determine users giving up on registration process.). Date range is matched against the step creation date.

**WCB/CRA Duplicate Sessions** - Number of sessions where the user accessed iReg/BRO more than once. (This is to determine users having to go to BRO or iReg more than once). Date range is matched against the step creation date.

**Total Actioned and Deleted** - Total registration steps actioned and deleted.

**Session Restart Total** - Date range is matched against the latest registration step completion date for a session.

**Average Actioned Registration Steps per Session** - For counting steps the date range is matched against the step actioned date. For counting sessions the date range is matched against the latest registration step completion date for a session.

**Sessions with E-mail Response Method** - Date range is matched against the latest registration step completion date for a session.

**Sessions with Fax Response Method** - Date range is matched against the latest registration step completion date for a session.

**Sessions with Mail Response Method** - Date range is matched against the latest registration step completion date for a session.
