Transfer of Ownership

Purpose

The *Transfer of Ownership* form (CF21) is used to transfer ownership of cattle from the association to a member upon repayment of a loan taken out by the association on the member's behalf. The form is typically used when a member wants to:

- sell the cattle with the payment being sent directly to the member; **or**
- resign from the association once all loans have been paid.

Policies

- 1) Brand inspectors have been advised that cattle with an association brand are to be sold in the name of the association on behalf of the member, unless the member has an approved *Transfer of Ownership* or bill of sale.
- 2) Where a member has cattle at a sale and requires a *Transfer of Ownership*, the form may be completed and faxed directly to the brand inspector, provided the association and lender approve of the transfer, and provided the form is dated to expire that day.
- 3) The association must provide the original form to the member and maintain a copy for the association's file.

Completion

The completed *Transfer of Ownership* form must include:

- the name and address of the association;
- the association's brand and brand location;
- the kind, colour and number of livestock being transferred;
- the member who is receiving the cattle in his or her name;
- an arbitrary date set by the association at which time the release expires (to prevent the use of this form for other cattle at a later date);
- the dated signature of an association signing officer;
- the name of the association's lending institution; **and**
- the dated signature of the lender authorizing the release of any encumbrances on the aforementioned animals.
