- Soaps
- Spinal rolls and pillows
- Suppositories
- Theraffin wax
- Thermometers
- Tooth paste, tooth powders, denture cleaners and denture adhesives
- Vaporizers and humidifiers

E. SALES OF USED BUSINESS ASSETS

Businesses are required to collect tax on the sale of used assets, such as vehicles and equipment. When used assets are being sold as part of the closure of a business, the purchaser is required to self-assess and report the tax.

F. GOODS AND SERVICES FOR YOUR OWN USE

Businesses are required to pay tax on purchases of equipment, services, and supplies used in their business. If they are purchased from a licensed supplier, the tax must be paid to the supplier. If they are purchased from an unlicensed supplier located outside Saskatchewan, the tax must be submitted with the return on the laid down cost, which includes exchange, transportation charges, customs and excise duties, and importation charges, but not the GST.

G. SASKATCHEWAN ELECTRONIC TAX SERVICE (SETS)

Saskatchewan Finance has made it possible for collectors to report and remit tax electronically through the use of a standard Internet connection. The Saskatchewan Electronic Tax Service (SETS) offers a secure, fast, easy and convenient alternative to filing returns in paper format. Several E-File services are currently available through SETS.

Businesses may use SETS to file and pay returns for Provincial Sales Tax and other provincial taxes.

SETS allows businesses to:

- File and pay returns or make payments on account.
- File a return and post-date the payment to the due date.
- View account balance and statement information.
- Authorize your accountant to file on your behalf.
- Subscribe to an E-mail Notification Service that allows the option to be notified by e-mail that a tax return should be filed (replaces the paper forms normally received in the mail).
