# Province of Saskatchewan 2005-06 Estimates

## Introduction

The 2005-06 Estimates represent the Government's detailed financial plan for the General Revenue Fund (GRF) presented to the Legislative Assembly for the fiscal year commencing April 1, 2005, and ending March 31, 2006.

The Estimates outline the estimated expenses, revenues, loans, and investments of the GRF and other information as determined by Treasury Board in accordance with *The Financial Administration Act, 1993*.

## What's New for 2005-06

### SPMC becomes a Department

Effective April 1, 2005, Saskatchewan Property Management Corporation (SPMC) will be disestablished and the Department of Property Management will be established in its place. All buildings, vehicles and other assets and liabilities of SPMC will be transferred to the GRF.

In 1986, the Government established SPMC. The following year the Department of Supply and Services was disestablished and its activities were transferred to SPMC. Ownership of government buildings was transferred to SPMC. The GRF provided grants to SPMC for new building acquisitions and major maintenance activities.

As a corporation, SPMC charged departments for accommodation and other services provided to them. However, because the GRF had previously incurred the cost

of building acquisition, the amortization of these buildings was not included in the accommodation charges to departments. SPMC was also allowed to provide its services to organizations outside of executive government.

Recent changes to *The Financial Administration Act, 1993* allow for departments to provide services to other departments and to charge those departments for the costs of those services. The Act was also changed to allow a form of net-budgeting for commercial activities provided by a department to individuals and organizations that are outside of executive government.

These changes to the Act allow the new Department of Property Management to charge departments and organizations for the services they provide in a manner similar to what was done by SPMC. The significant exception is that now departments will be charged for building amortization and major maintenance as part of their accommodation costs. This has no financial impact on government as a whole but these costs will now be displayed in each department's accommodation costs. The Department of Property Management is subject to the same review, disclosure, controls and accountability required of all government departments.

The Estimates for the Department of Property Management will disclose the appropriation the department is asking the Legislative Assembly to approve for its own use as well as expenses it will incur and charge back to other departments and organizations.

### Two New Departments

On October 1, 2004, the Government created the Department of First Nations and Metis Relations pursuant to *The Government Organization Act*. The core of this new department was the Aboriginal Affairs division in the Department of Government Relations and Aboriginal Affairs, which is renamed the Department of Government Relations.

Effective, April 1, 2005, the Government created the Department of Rural Development pursuant to *The Government Organization Act*. The base programming of the new department comes from the rural development programs in the Department of Industry and Resources and the Department of Agriculture, Food and Rural Revitalization. The Department of Agriculture, Food and Rural Revitalization is renamed to the Department of Agriculture and Food.

## **Central Management and Services Subvote**

In previous Estimates, most departments had two standard non-program subvotes, “Administration” and “Accommodation and Central Services”. The latter subvote was intended for accommodations and services charged by SPMC. The Corporation is disestablished and responsibility for its activities are transferred to the Department of Property Management.

These two subvotes are being replaced with a “Central Management and Services” subvote. The new subvote name and wording provides a better description and disclosure of costs and services that are provided by that subvote. It will contain the costs incurred by the department that are not directly related to its individual programs and public services.

## ***Principles and Concepts***

### **Legislative Control**

A fundamental principle of parliamentary government is that the Legislative Assembly exercises ultimate control over public finances. Prior to 2004-05, Estimates of all departments received detailed review in the Committee of Finance. Now, detailed department estimates are referred to one of four policy-field committees for review. The Estimates of the Legislative Assembly and its Officers are reviewed by the House Services Committee.

### **General Revenue Fund**

The General Revenue Fund is the central accounting entity where all public monies are deposited to and disbursed from, as authorized by the Legislative Assembly. Exceptions to this principle must be authorized by law.

### **Fiscal Stabilization Fund (FSF)**

Created in 2000, the Fiscal Stabilization Fund’s purpose is to stabilize the financial position of the GRF, which in turn permits improved long-term fiscal planning by the Government.

In the last couple of years, the FSF has been used to receive one-time targeted federal funding. These funds are earmarked for these targeted purposes and are drawn out of the FSF into the GRF when these activities or programs are undertaken.

For cash management purposes, the monies in the FSF are not invested but instead deposited in the GRF. The debt servicing savings more than offset the investment revenue the FSF would earn.

Stabilization transfers between the GRF and the FSF are reflected in the Estimates and Public Accounts. Transfers from the GRF to the FSF are shown as an appropriation from the GRF. Stabilization transfers are determined by the Government based on the economic and fiscal environment during the year.

### **Estimates**

Each year, the Government presents a Budget to the Legislative Assembly. The detailed financial plan of the GRF that accompanies the Budget is called the Estimates.

The Estimates for executive government are reviewed by Treasury Board and approved by Cabinet. The Estimates for the Legislative branch of government are reviewed and approved by the Board of Internal Economy except for the Provincial Auditor’s Estimates which are approved by the Public Accounts Committee. These Estimates are presented by the Minister of Finance to the Legislative Assembly for final review and approval.

### **Program Budgeting**

The Government’s spending plan is organized to reflect the purpose of the spending: e.g., health care, education or highways. The approach of grouping expenditures by their intended purpose is the common practice by governments and is referred to as program budgeting.

The grouping of activities can be at various program levels. For example:

- Health
  - Provincial Health Services
  - Provincial Laboratory

### **Votes and Subvotes**

The Estimates allocate funds to individual departments in Votes. Typically, departments receive one Vote for operating activities. Votes can also represent specific funding that will be transferred to a Crown organization such as Saskatchewan Research Council. Votes can also represent some segregation of funds for a specific purpose such as the Department of Highways and Transportation – Capital Vote.

Subvotes represent the funding that will be required by the major programs or functions within the Vote. Subvotes can also represent significant grant funding to third parties such as regional health authorities or school boards.

Some subvotes may provide further breakdown of funding into aspects of the program, function or grant funding. These are referred to as allocations.

### **Gross Budgeting**

The Estimates reflect the gross cost of programs. Any offsetting revenue attributable to these programs is not netted against the expense but is recorded as revenue. This practice is in keeping with the GRF concept and enhances legislative control. Exceptions to the gross budgeting principle are provided by legislation.

*The Financial Administration Act, 1993* was changed recently to allow a form of net budgeting for commercial activities subject to Cabinet approval. These activities are displayed on a gross basis in the Estimates but are netted when determining the voted appropriations required and the expense of the department. The Public Accounts will continue to account for these activities on a gross basis but will distinguish between the expense of a department's public programs and the expense for commercial activity.

### **Restatements**

It is difficult to compare a department's current budget with its previous year's budget if some of the department's programs have been transferred to or from another department or reorganized within the department. When this occurs, the previous year's Estimates are "restated" to reflect the new organization. When it is not possible or practical to restate, an explanatory note is provided for the appropriate budget amounts.

### **Transfers or Transfer Payments**

Transfers or transfer payments are monies paid from the GRF to an individual, organization or other government for which the GRF does not directly receive a good or service and expects no repayment or financial return. Most transfer payments are to fund public services provided by an individual or organization outside Government. For example, transfers to school boards are used to provide an educational service. The Estimates refer to these transactions as "Transfers for Public Services." Transfer payments that provide income support, a subsidy or compensation are referred to as "Transfers to Individuals."

### **Voted and Statutory Spending**

The Legislative Assembly gives its approval for spending from the GRF in two ways. One way is by appropriation acts that provide an annual authorization (appropriation) of funds for specific purposes as outlined in the Estimates. These are "voted" appropriations. Unless otherwise specified by *The Appropriation Act*, this approval lapses at the end of the fiscal year and new approval (appropriation) must be obtained for the following year's expenditure.

The other way the Legislative Assembly authorizes funds is by providing ongoing authority to spend for a specific purpose. This is done by legislation (statute) and therefore, is termed "statutory". These funds do not require annual authorization by the Legislative Assembly. Examples of these transactions are interest on the government debt, teachers' pension plan payments and loans to Crown corporations.

### **Accounting Policies**

Estimates of revenue, expenses, loans, and investments and the financial statements and schedules in this document are prepared in accordance with generally accepted accounting principles for senior governments as recommended by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants with the following exceptions:

- Transfers to and from the FSF are included in the determination of surplus for the year; and,
- Pension expenses are accounted for on a cash basis.
- Income taxes are recorded when received from federal government.

**Accrual accounting** is the basis of accounting used in preparation of the Estimates. Accrual accounting recognizes revenue and expense at the time it occurs, regardless of when the cash is received or paid.

**Revenues** are estimated on an accrual basis, except for corporate and personal income taxes that are estimated on a cash basis. Federal transfers are estimated as revenue in the accounting period when the transfer is authorized and any eligibility criteria are met.

**Expenses** are estimated on an accrual basis except for pension costs that are estimated on a cash basis. Provincial transfers are expensed in the period in which the transfer is authorized and any eligibility criteria are met.

**Capital** – Capital assets acquired by the GRF are expensed or amortized over the useful life of the asset. The amortization is usually calculated using a straight-line method, which provides the same amortization expense in all years of an asset’s service life. Transfer payments to third parties are expensed in the year the transfer is provided and the eligibility criteria are met.

### **Budget and Spending Control**

The Legislative Assembly authorizes funding at the vote and subvote levels as detailed in the Estimates. The law prohibits the Government from spending more than the Legislative Assembly has authorized. If the amounts appropriated are insufficient, further appropriations must be obtained either by introducing additional Estimates or by special warrants if the Legislative Assembly is not in Session.

Special warrant funding must be submitted to the Legislative Assembly for approval as part of the next *Appropriation Act*, that is not for interim supply.

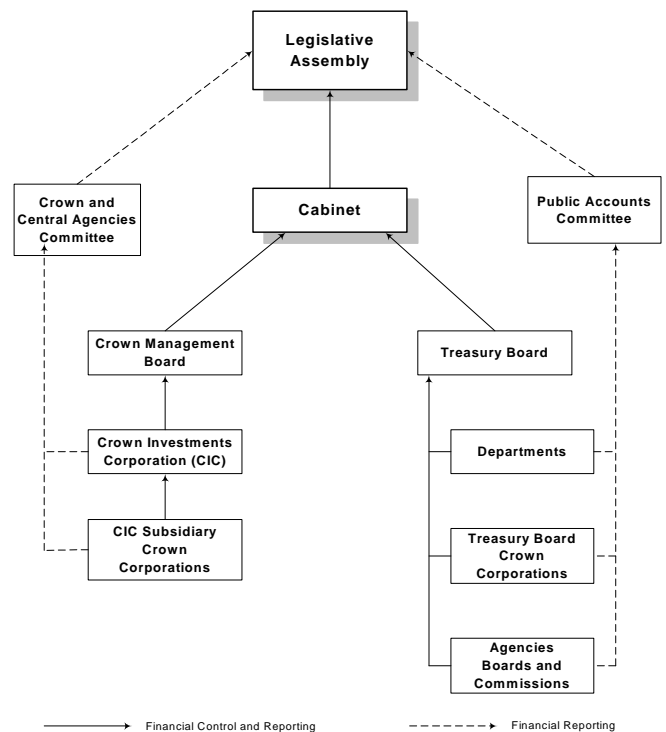

The Legislative Assembly authorizes funding at the subvote level. To deal with unforeseen variances, the Legislative Assembly provides the Minister of Finance the authority to move (vire) unexpended and uncommitted funds from one subvote to another within a vote. This movement of funds is referred to as a virement.

Departments are required to deliver their programming within the approved funding level. Departments must administer the funds allocated to them for the purposes outlined in the Estimates and in accordance with legislative authority and administrative policy.

The Provincial Comptroller provides appropriation control to ensure departments do not overspend their approved funds (appropriations). The Provincial Comptroller is also responsible for verifying that expenditures comply with legislation and administrative policy, and is responsible for preparing the Government’s financial statements. These statements are audited by the Provincial Auditor and are included in the Public Accounts.

### **Financial Control and Reporting Structure**

The Government and its Crown corporations report to the Legislative Assembly on their financial affairs through either the Public Accounts Committee or the Standing Committee on Crown and Central Agencies. Below is a depiction of that reporting structure.

Effective April 1, 2005, the Saskatchewan Property Management Corporation (SPMC) is disestablished and responsibility for its activities are transferred to the Department of Property Management. For 2004-05, the General Revenue Fund grant to SPMC was classified as a transfer payment and SPMC's charges to departments for accommodation and services were classified as supplier and other payments. For 2005-06 these similar expenses are classified as salaries, supplier and other payments and amortization.

SASKATCHEWAN

# Agriculture and Food

## Vote 1

The mandate of the Department is to foster a commercially viable, self-sufficient, and sustainable agriculture and food sector. Working with individuals, businesses, communities, and governments, the Department will assist farmers and ranchers, encourage higher value production and processing and promote sustainable economic development in rural Saskatchewan.

### Summary of Appropriation and Expense

(in thousands of dollars)

	<b>Estimated 2005-06</b>	<b>Estimated 2004-05</b>

SASKATCHEWAN

# Community Resources and Employment

## Vote 36

The mandate of the Department is to work with citizens to help them build better lives for themselves through economic independence, strong families, inclusive communities, and active involvement in Saskatchewan's labour force and economy. Department programs support employment, child development, better housing for low and moderate income people and independent living for seniors and people with disabilities. The Department also offers programs that ensure basic standards of income and child well-being are maintained.

# Culture, Youth and Recreation

Vote 27

The mandate of the Department is to support and celebrate Saskatchewan as a great place to live and work. The Department is dedicated to ensuring that Saskatchewan people, especially our young people, reach their fullest potential. By working collaboratively with diverse groups and communities, the Department enhances the province's cultural, artistic, recreational and social life. It also recognizes accomplishment and promotes excellence in the arts, culture, heritage and sport.

## Vote 20

The mandate of the Department is to ensure safe, fair and productive workplaces in Saskatchewan. The Department carries out this mandate through labour relations legislation, prevention, education and training services, promoting, developing and enforcing occupational health and safety and labour standards, providing support to injured workers and assisting in preventing and resolving workplace disputes. The Department also works in partnership with all other provincial departments towards the goal of equality for Saskatchewan women.

# General Revenue Fund Budgetary Appropriation and Expense

## Legislative Branch of Government

Except for the Provincial Auditor, the Estimates included in the “Legislative Branch of Government” section are reviewed and recommended by the Board of Internal Economy. The Board is established by *The Legislative Assembly and Executive Council Act* to exercise financial authority over the operations of the Legislative Assembly and various officers of the Legislature.

Pursuant to *The Provincial Auditor Act*, the Estimates of the Provincial Auditor are reviewed and recommended by the Public Accounts Committee.

The Legislative Assembly refers the review of these Estimates to the House Services Committee.

FTE (Full-Time Equivalent) is a measure of staff utilization for executive government organizations that are subject to *The Public Service Act*.

<sup>1</sup> For 2005-06, four departments have adjusted their FTEs for a total of 145.8 to more accurately reflect actual staff utilization. 2004-05 FTEs for the Department of Corrections and Public Safety (11.0 FTEs), Department of Environment (44.1 FTEs), Department of Health (81.2 FTEs), and the Commercial Revolving Fund (9.5 FTEs) are adjusted accordingly.

<sup>2</sup> For 2005-06, the Saskatchewan Property Management Corporation is disestablished. Responsibility for the activities of the Corporation and 829.8 FTEs are transferred to the Department of Property Management.

All amounts except for Inventories are from 2003-04 Public Accounts - Volume 1.

# Restatement Schedule

## 2004-05 Appropriation and FTE Restatement

### Restatement - Appropriation

Each year there may be some form of government reorganization. These reorganizations may include:

- creation of new departments or disestablishment of existing departments;
- transfer of a program or function from one department to another; and,
- transfer of some program area or function (subvote) from one area of a department to another area.

To improve comparability, a restatement of the prior year's estimate is presented. A restatement ensures that the prior year's funding associated with an activity or program is placed in the same department or subvote that will be performing that function in the current year.

The "Restatement Schedule" indicates the functions that were transferred in or out of a particular subvote in order to arrive at the 2004-05 "Restated Estimate" for the subvote as it appears in the 2005-06 Estimates.

Occasionally, departments may transfer functions within a subvote from one allocation to another. In these instances, the affected allocations are restated and, if significant, an explanatory note is provided within the restatement schedule.

### Restatement - FTE

Changes to *The Financial Administration Act, 1993* allows departments to provide services to other departments on a cost recovery basis. Staff utilization (FTEs) required to provide the service is shown in the department providing the service. The restatement of FTEs for this purpose is shown in the restatement schedule by department. No appropriation transfer is required because departments will continue to be responsible for the cost of the services.

**Restatement Schedule**  
 2004-05 Appropriation and FTE Restatement  
 (in thousands of dollars)

	<b>Appropriation</b>	<b>FTE</b>
<b>Executive Branch of Government</b>		
<b>Agriculture, Food and Rural Revitalization</b>		
Vote 1		
In addition to the reorganization of programs outlined below, this vote is shown as Agriculture and Food.		
<b>Administration (AG01) and Accommodation and Central Services (AG02)</b>

# Treasury Board Crown Corporations

Treasury Board Crown corporations are those Crown corporations that are subject to Treasury Board orders and directives and include all Crown corporations that do not report to the Crown Management Board.

Below are the descriptions of Treasury Board Crown corporations that have significant financial transactions with the GRF.

## **Agricultural Credit Corporation of Saskatchewan (ACS)**

ACS was established pursuant to the provisions of *The Agricultural Credit Corporation Act* which came into force on January 1, 1984. The Corporation's agricultural loan portfolio, agri-food investment portfolio and loan guarantee program are in the process of being wound down.

## **Municipal Financing Corporation of Saskatchewan (MFC)**

MFC was established pursuant to the provisions of *The Municipal Financing Corporation Act*. MFC assists in making capital funds available for the financing of schools, hospitals and other essential construction and local improvement projects in cities, towns, villages and rural areas throughout the Province. MFC may borrow directly from private lending institutions or from the GRF. The funds borrowed by MFC are used to purchase a portion of approved debentures sold each year by Saskatchewan local governments.

## **Saskatchewan Communications Network (SCN)**

SCN is governed by *The Communications Network Corporation Act*. SCN operates in three key areas – broadcast network, e-learning and technology services. The Corporation is Saskatchewan's Canadian Radio-television and Telecommunications Commission (CRTC) licensed educational broadcast television network available throughout the Province on cable, satellite and wireless cable systems. SCN's broadcast network provides high quality commercial-free educational, children's and cultural programming. The e-learning division operates distance learning networks on behalf of the Department of Learning that link the Province's universities, SIAST, regional colleges, high schools and government departments using a variety of technologies including video over satellite, media streaming and web-based learning systems. The technology services division provides a variety of services including high-speed internet, via satellite, to rural and northern communities as part of the Province's CommunityNet initiative, and distribution services for the broadcast and streaming of the Saskatchewan Legislative Assembly.

## **Saskatchewan Crop Insurance Corporation (SCIC)**

SCIC operates under the authority of *The Crop Insurance Act* and *The Farm Financial Stability Act*. The Corporation administers insurance programs which protect crop and livestock producers from production failures due to natural hazards. The Corporation also delivers the Waterfowl Damage Compensation Program and the Big Game Damage Compensation Program.

## **Saskatchewan Gaming Corporation (SGC)**

SGC was established under *The Saskatchewan Gaming Corporation Act, 1994*. SGC operates casino gaming in partnership with the Federation of Saskatchewan Indian Nations under an agreement that provides for revenue sharing within the casino gaming industry and joint participation and management of Casino Regina and Casino Moose Jaw.

## **Saskatchewan Health Information Network (SHIN)**

SHIN was established by Order-in-Council pursuant to the provisions of *The Crown Corporations Act, 1993*. SHIN's mandate is to implement, own, operate and manage the provincial health information network in a timely, effective manner reflecting the priorities of the health system. The information network will provide access to comprehensive health information to support direct service delivery.

## **Saskatchewan Housing Corporation (SHC)**

SHC operates under the authority of *The Saskatchewan Housing Corporation Act*. The Corporation provides suitable and affordable housing for low-income seniors, and for families and individuals with an identified need. SHC also improves access to other programs and services that enable its clients to achieve or maintain independence.

SHC funds and administers nearly 30,000 housing units in 341 communities through local housing authorities and non-profit organizations. SHC receives subsidies from the GRF, Canada Mortgage and Housing Corporation and municipalities.

### **Saskatchewan Liquor and Gaming Authority (SLGA)**

SLGA is governed by *The Alcohol and Gaming Regulation Act, 1997*. SLGA is responsible for the distribution, control, and regulation of liquor and gaming across the province.

SLGA warehouses and distributes wine, spirits and certain beer to SLGA stores and franchises for sale to the public and permittees. Most mainstream beer is distributed by Brewer's Distribution Ltd. to retail liquor stores, some franchises and permittees.

SLGA owns and operates all video lottery terminals and owns and manages the slot machines at all Saskatchewan Indian Gaming Authority casinos. SLGA also licenses and regulates most forms of gaming including bingo, raffles, casinos, breakopen tickets, and horse racing.

### **Saskatchewan Watershed Authority**

The Saskatchewan Watershed Authority was established under *The Saskatchewan Watershed Authority Act, 2002*. It was established as part of the government's Long Term Safe Drinking Water Strategy and has a mandate to manage water supplies and protect source water quality. The Authority focuses on watershed management involving all environmental and socio-economic aspects associated with water source issues and developments and is an integral part of total water management in Saskatchewan. As the provincial water manager with general authority over matters related to the sustainability of aquatic ecosystems and their related land resources, the Authority will manage and protect water and related land resources.

# Revolving Funds

Each revolving fund is established by statute and is used to account for specific government operations which recover all or a portion of the associated costs from the fund's users. The revenue generated by each fund is used to finance its operations which in turn, generate further revenue, hence the term "revolving". Accordingly, revolving funds are net-budgeted in the Estimates.

## **Commercial Revolving Fund - Environment**

The Commercial Revolving Fund is the financing mechanism used to collect and disburse funds for the operation of the Province's provincial parks, campgrounds and recreation sites. Authority to operate the Fund is found in *The Natural Resources Act*. The Fund collects revenues from camping fees, entry gate fees, cottage lot rentals, commercial lease fees and other miscellaneous revenues for activities taking place in the parks. This revenue is used to operate the parks.

## **Correctional Facilities Industries Revolving Fund - Corrections and Public Safety**

The Correctional Facilities Industries Revolving Fund is established under the authority of *The Correctional Services Act*. The Fund is operated as a commercial enterprise providing inmates with opportunities to develop practical and marketable work skills. Revenue generated is retained by the Fund and serves to offset the cost of the program.

## **Correspondence School Revolving Fund - Learning**

The Correspondence School Revolving Fund is created and governed by *The Education Act*. It provides accredited high school correspondence courses throughout the Province. It recovers its costs primarily through registration and course fees.

## **Livestock Services Revolving Fund – Agriculture and Food**

The Livestock Services Revolving Fund is governed by *The Department of Agriculture, Food and Rural Revitalization Act*. The Fund operates the livestock inspection program and provides brand registration and dealer licensing. It also collects fees on behalf of the Cattle Marketing Deductions Fund and the Horned Cattle Purchases Fund.

## **Pastures Revolving Fund - Agriculture and Food**

*The Pastures Act* provides authority to operate the Pastures Revolving Fund. The Fund operates the Saskatchewan Pastures Program. Revenues are derived from fees charged for grazing livestock on community pastures and other related services.

## **Public Employees' Benefits Agency Revolving Fund - Finance**

The Public Employees' Benefits Agency Revolving Fund is established under the authority of *The Financial Administration Act, 1993*. The Fund provides services to public sector pension and benefit plans and to plan members. The costs incurred by the Fund for providing services are allocated to, and reimbursed primarily by, various pension and benefit plans.

## **Queen's Printer Revolving Fund - Justice**

The Queen's Printer Revolving Fund is established under the authority of *The Queen's Printer Act*. The Fund publishes and distributes legislation, regulations and other Government publications as the official printer of Government information. Revenue earned is retained by the Fund to cover associated expenses.

## **Resource Protection and Development Revolving Fund - Environment**

*The Natural Resources Act* provides authority to operate the Resource Protection and Development Revolving Fund. The Fund is the financing mechanism used to operate such programs as the Radio Communications Program, the Staff Housing Program and the Northern Air Operations Program. This fund is intended to operate on a break-even basis by recovering the cost of services from users. Revenue for these programs is derived from rental and lease fees charged to government departments and other agencies.

(This page left blank intentionally)

# Glossary of Terms

## Accumulated Deficit

The excess of expense over revenue measured from the beginning of incorporation. It is the difference between the recorded assets and liabilities.

## Amortization

Amortization of capital assets has also been referred to as depreciation expense.

Amortization is recognizing the financial impact of a transaction or event over multiple years. With respect to capital assets, the acquisition cost of the asset is not expensed in the year it is acquired but over the years it will provide service. The portion of the capital asset that is consumed in providing service is charged to expense and accordingly reduces (depreciates) the recorded value of the asset. For example, a highway costing \$4M to construct that will last 40 years would be amortized or depreciated at \$100,000 per year. The \$100,000 is what would be charged as an expense to the Statement of Operations.

## Allocation

Component of a subvote. It represents a facet of the major program provided by the subvote such as a distinct client group or method of delivering the program. It may also be a component of a function or funding to a third party.

## Appropriation

An amount that the Legislature has authorized to be paid from the GRF under an Act of the Legislative Assembly for a particular purpose. This purpose is outlined or defined in appropriation Acts and in the Estimates.

## Appropriation Act

A supply bill when passed by the Legislature becomes an appropriation Act. An appropriation Act is the legal authorization to spend monies from the GRF for the purposes and time period identified by the Act and the Estimates.

## Capital Assets

The property, infrastructure, equipment, vehicles, computer systems or other assets acquired that provide a long-term benefit to the public or the Government. Similar assets acquired below a certain dollar value (threshold) are not recorded as capital assets but fully expensed in the year of acquisition.

## Capital Transfer

A transfer given to a third party such as a school board, regional health authority, university or municipality to acquire or finance capital assets such as school buildings.

## Debt

Borrowings, expressed in Canadian dollars, obtained by the Province through the issuance of debt instruments such as

promissory notes, debentures, or savings bonds. The debt amounts are net of sinking funds (monies set aside to help retire the debt). Debt does not include other liabilities such as accounts payable or pension obligations.

Debt is measured in a number of ways:

- **Government Purpose Debt** – Debt incurred by the GRF for its own purposes.
- **Crown Corporation Debt** – Debt incurred by the GRF for Crown corporation purposes.
- **Gross Debt** - Debt before the netting of sinking funds.
- **Guaranteed Debt** - The debt of others that the government has agreed to repay if they default.
- **Net Debt** – Not a true measure of debt but the amount by which the GRF's recorded liabilities exceed its financial assets (see definition of Net Debt).

## Debt Servicing

Costs associated with servicing the debt of the GRF. The costs include interest, foreign exchange gains and losses, discounts, fees and commissions. Costs incurred for financing Crown corporation debt are reimbursed by the Crown corporation.

## Deficit

The amount by which expense exceeds revenue for a fiscal year.

## Department

An organizational unit of executive government created for the purpose of managing related programs.

## Estimated

The annual amounts the Government budgets for expenditure, revenue, loans, advances, investments and debt.

## Estimates

The document tabled with the Budget that reflects the Government's detailed financial plan for the year is referred to as the Estimates. The document presented after the Estimates for supply is referred to as Further or Supplementary Estimates. In Saskatchewan, Supplementary Estimates details the appropriations provided by special warrant.

## Executive Branch of Government

The Executive Branch of Government includes those organizations of Government (departments, secretariats, offices) that report directly to a Member of Executive Council (Cabinet Minister). These organizations are created by legislation, many by *The Government Organization Act*.

For Estimates purposes, the grants to Crown corporations that have a separate vote are also categorized under the Executive Branch of Government as are monies to the judicial arm of government.

**Expenditure**

The cost of goods and services acquired in the fiscal year whether or not payment has been made, including capital acquisitions, interest on debt and transfer payments made or due. Expenditure is synonymous with expense except expenditures include capital acquisitions whereas expense reflects the amortization (depreciation) of capital.

**Expense**

The cost of goods and services acquired in the fiscal year whether or not payment has been made, including interest on debt and transfer payments made or due. Expense also includes the cost of amortizing (depreciating) capital assets.

**Financing Activity**

A term used in the Statement of Cash Flow. It refers to cash received through borrowings and deposits from Crown organizations and cash disbursed to retire debt and reduce deposits from Crown organizations.

**Forecast**

The amounts of expense, revenue, or debt the Government expects to realize and record in the fiscal year.

**Full-Time Equivalent (FTE)**

An FTE is the equivalent of one person working full-time for a year. Twelve people working one month each would also equal 1 FTE. The FTE measurement is applied to permanent, non-permanent, Order-in-Council and personal service contract appointments.

The measurement is only applied to the Executive Branch of Government covered by *The Public Service Act* and does not include Crown corporations, judges or staff of the Legislative Branch of Government.

**Government Delivered Programs**

Public services and functions that are performed by the Government, its employees and agents. It does not include transfer payments to Crown corporations and third parties that in turn use the funding to provide public services.

**Infrastructure**

Consists of permanent installations as a basis for operations and includes highways, roads, bridges, dams, and irrigation systems.

**Investing Activity**

The amount of money invested by the GRF during the fiscal year in items such as sinking funds, Crown corporations and agricultural land.

**Legislative Branch of Government**

For Estimates purposes, the Legislative Branch of Government includes the Legislative Assembly and the

organization that supports it as well as those offices or organizations that report directly to the Legislative Assembly.

**Lending Activity**

The amount of money lent or advanced by the GRF during the fiscal year to a Crown corporation, public agency or other entity.

**Liabilities**

Amounts owed including debt, deposits held on behalf of others, accounts payable and accrued liabilities.

**Net Debt**

Net Debt and Accumulated Deficit are terms used by governments to indicate their financial positions. Both measures are calculated by netting assets against liabilities. However, Net Debt only includes financial assets whereas Accumulated Deficit also includes capital assets. Net Debt recognizes that a government's capital assets cannot be used or sold to reduce its liabilities.

**Pensions and Benefits**

Expenses incurred for public sector pension and benefit plans and employer contributions related to salaries. Pensions and benefits paid by transfers cover the Government's contribution to the pension and benefit plans of Saskatchewan teachers.

**Recovery**

Recovery of expenses incurred by a department in providing services to another organization. If the services are to another department it is an internal recovery, i.e., internal to the GRF. If the department is providing commercial services to an organization outside the GRF, the recovery of those expenses is external.

**Revenue**

The gross proceeds applicable to a fiscal year from taxes, fees, licences, transfer payments and sources other than borrowing.

**Revolving Funds**

Revolving funds, which are established by statute, are used to isolate certain items of related revenue and expense and are net-budgeted in the Estimates.

Revolving funds are used to account for specific government operations that recover all or a portion of the associated costs from the funds' users. Revenue generated by a revolving fund's activities is used to finance further operations that in turn generate further revenue, hence the term "revolving".

**Salaries**

Salaries and wages paid directly by the GRF to executive government employees, judges, MLAs and employees of the Legislative Assembly. Employees include permanent, non-permanent, Order-in-Council and personal service contract employees. Salaries and wages paid from a revolving fund or an entity funded by transfer payments are not displayed in the Estimates.

**Sinking Fund**

Sinking funds accumulate monies that are set aside to provide for the orderly retirement of a portion of the Province's debt.

**Statutory**

Expenses and disbursements from the GRF that have ongoing spending authority in legislation, i.e. statute. They do not require annual legislative authority by appropriation Acts. Examples of this type of transaction are debt servicing costs or loans to Crown corporations.

**Subvote**

Component of a vote. Usually the subvote represents a major program or function within the vote.

**Supplementary Estimates**

Those Estimates which detail the amounts appropriated during the fiscal year by special warrants. Supplementary Estimates for a fiscal year are usually tabled in the Legislative Assembly at the same time as the Main Estimates for the following year. Supplementary Estimates are subject to review by the Legislative Assembly and form part of *The Main Appropriation Act* for the fiscal year.

**Supplier and Other Payments**

Payments that cover all non-salary and non-pension and benefit costs incurred directly by the GRF in delivering public services and performing Government functions. These expenses include accommodation, travel, supplies, equipment, communication and allowance for bad debts.

**Surplus**

The amount by which revenue exceeds expense for a fiscal year.

**Third Parties**

A term used to describe organizations independent of the GRF that receive provincial funding (see Transfers for Public Service). Typically, third parties are performing a public service with the funding they receive. Examples of third parties are regional health authorities, school boards and universities.

**Transfers**

Transfers are payments by the Government to an individual, organization, authority or other government for which no goods or services are directly received by Government and no repayment is expected in the future. Terms such as grants and entitlements are often used for transfers. *See the following types of transfers.*

**Transfers to Individuals**

Payments from the GRF made directly or indirectly to individuals for which no public service is required of the recipient. These transfers provide the recipient with a financial benefit and are usually in the nature of an income support, subsidy or compensation payment. These transfers may be income-tested.

**Transfers for Public Services**

Payments from the GRF to individuals, organizations, Crown corporations and local authorities such as school boards, regional health authorities and municipalities to provide a public service.

Transfers to Government organizations and corporations which in turn provide a direct transfer or subsidy to their clients are treated as Transfers to Individuals (see above).

**Vote**

A block of funding provided by statute or voted on by the Legislative Assembly in an appropriation Act that provides for the activities and purposes as outlined in the Estimates for a fiscal year.

The common practice in Saskatchewan's Estimates is for the operating and capital activities of a government department or organization to represent a unique Vote. Separate votes are provided to departments for loans and investments. On occasion a department may have more than one vote or more than one organization may be grouped into a single vote.
