Province of Saskatchewan 2000-01 Estimates

Introduction

The 2000-01 Estimates represent the Government's financial plan for the General Revenue Fund (GRF) presented to the Legislative Assembly for the fiscal year commencing April 1, 2000 and ending on March 31, 2001. The Estimates outline the estimated expenditures, revenues, loans, advances and investments of the General Revenue Fund categorized in a manner which is intended to inform both the Members of the Legislative Assembly and the public. The Estimates are presented in accordance with *The Financial Administration Act*, 1993.

Principles and Concepts

Fiscal Year

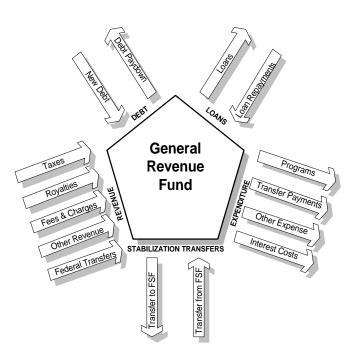

The Government's fiscal year is April 1 to March 31, and is represented by four digits of the starting year and the last two digits of the ending year, e.g. 2000-01.

Legislative Control

A fundamental principle of parliamentary government is that the Legislative Assembly exercises ultimate control over public finances.

General Revenue Fund (GRF)

The GRF is the central accounting entity into which all public monies are deposited to and disbursed from, as authorized by the Legislative Assembly. Exceptions to this principle must be authorized by law.

Fiscal Stabilization Fund (FSF)

The Government will introduce legislation in 2000-01 to create the FSF. The FSF's purpose is to stabilize the financial position of the Province which in turn will permit improved long-term fiscal planning by the Government.

Prior to 2000-01, dividends from the Saskatchewan Liquor and Gaming Authority (SLGA) were used to perform a similar function. However, adjustments to SLGA dividends simply showed up as less or more revenue to the GRF.

During 2000-01, the entire SLGA retained earnings as at March 31, 2000 will be brought into the GRF as revenue, as will SLGA's 2000-01 net income. This will result in higher than normal GRF revenue. The Government will transfer monies to the FSF to establish the initial balance.

Stabilization transfers between the GRF and the FSF will be reflected in the Estimates and Public Accounts. Transfers from the GRF to the FSF will be shown as an appropriation from the GRF (separate Vote). Changes to the budgeted stabilization transfers will be determined by the Government based on actual revenue or expenditure impacts during the fiscal year.

Estimates

Each year the Government provides the Legislative Assembly with its financial plan respecting revenues it expects to receive and monies it expects to spend from the General Revenue Fund. This plan is referred to as the Government's annual Budget. The detailed financial plan accompanying the Budget is referred to as the Estimates.

Program Budgeting

The Government's spending plan is organized in a manner which reflects the purpose of the spending: i.e., health care, education or highways. The approach of grouping expenditures by their intended purpose is the common practice by governments and is referred to as program budgeting.

The grouping of activities can be at various program levels. For example:

- , health care
 - , district health services and support
 - , emergency response services

Votes, Subvotes and Sub-programs

These terms correspond to the various program hierarchies. Using the program levels noted above, health care (Department of Health) would be the Vote level, district health services and support is the subvote and emergency response services is the sub-program. The Legislative Assembly authorizes (votes) money to the vote and subvote level.

Gross Budgeting

The Estimates reflect the gross costs of programs. Any offsetting revenues attributable to these programs are not netted against the expenditures but are recorded as revenues. This practice is in keeping with the General Revenue Fund concept and enhances legislative control. Exceptions to the gross budgeting principle are provided by legislation.

Restatements

It is difficult to compare a department's current budget with its previous year's budget if some of the department's programs have been transferred to or from another department or reorganized within the department. When this occurs, the previous year's Estimates are "**restated**" to reflect the new organization. When it is not possible or practical to restate, an explanatory note is referenced to the appropriate budget amounts.

Accrual Accounting

Accrual accounting recognizes revenues and expenditures at the time they occur, regardless of whether any cash is received or paid. If cash has not been received or paid an appropriate accounts receivable or accounts payable will be recorded.

The Government uses accrual accounting for the development and presentation of its financial plan for the General Revenue Fund. The only exceptions to this are pension costs and corporate and personal income taxes that are accounted for on a cash basis, and capital that is expensed in the year of acquisition instead of amortized.

Revenue and Expenditure

These transactions impact the General Revenue Fund's annual surplus or deficit.

Loans, Investments and Deposits

These transactions affect recorded assets or liabilities and do not have a direct impact on the annual surplus or deficit.

Capital Expenditures

Capital property is fully expensed in the period acquired. Transfers to local authorities such as school boards and district health boards for the purposes of capital property acquisition are expensed in the period the transfers are paid or owed.

Transfers or Transfer Payments

Transfers or transfer payments are monies paid from the General Revenue Fund to an individual, organization or other government for which the government making the transfer does not directly receive a good or service nor is any repayment or financial return expected.

Most transfer payments are to fund public services provided by an individual or organization outside government. For example, transfers to school boards are used to provide an educational service. The Estimates refer to these transactions as "Transfers for Public Services." Transfer payments that provide an income support, a subsidy or compensation are referred to as "Transfers to Individuals."

Voted and Statutory Expenditures

The Legislative Assembly gives its approval for spending from the General Revenue Fund in two ways. One way is by *Appropriation Acts* that provide an annual authorization (appropriation) of funds for specific purposes as outlined in the Estimates. These are "**voted**" appropriations. This approval lapses at the end of the fiscal year and new approval (appropriation) must be obtained for the following year's expenditures.

The other way the Legislative Assembly authorizes funds is by providing ongoing authority to spend for a specific purpose. This is done by legislation, i.e., a statute, therefore, are termed "statutory". These funds do not require annual authorization by the Legislative Assembly. Examples of these transactions are interest on the public debt, Teachers' Pension Plan payments and loans to Crown corporations.

Budget and Spending Control

The Legislative Assembly authorizes funding at the vote and subvote level as detailed in the Estimates. The law prohibits the Government from spending more than the Legislative Assembly has authorized. If those amounts are insufficient then further appropriations must be obtained either by introducing additional Estimates or by special warrants if the Assembly is not available.

Special warrant funding must be submitted to the Legislative Assembly for approval as part of the main *Appropriation Act*.

The Legislative Assembly authorizes funding at the subvote level but to deal with unforeseen variances the Assembly provides the Minister of Finance the authority to move (vire) unexpended and uncommitted funds from one subvote to another within a vote. This movement of funds is referred to as a virement. A similar process allows for the movement of funds between sub-programs within a subvote.

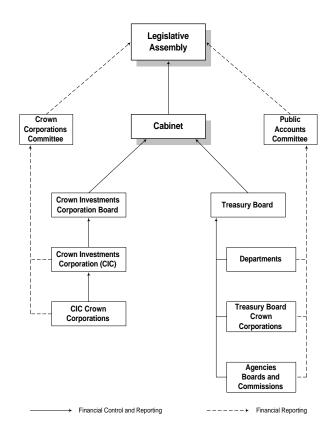

Departments are required to deliver their programming within the approved funding level. Departments must administer the funds allocated to them in accordance with legislative authorities, administrative policy and for the purposes as outlined in the Estimates.

The Provincial Comptroller is required to provide appropriation control, i.e., ensure departments do not overspend their approved funds (appropriations). The Provincial Comptroller is also responsible for ensuring that expenditures comply with legislative and administrative policy.

The Provincial Comptroller is responsible for preparing the Government's financial statements. These statements are audited by the Provincial Auditor and are included in the Public Accounts.

Financial Control and Reporting Structure

The Government and its Crown corporations report to the Legislative Assembly on their financial affairs through either the Public Accounts Committee or the Crown Corporations Committee. Below is a depiction of that reporting structure.

Vote 1

The mandate of the Department is to add value to agriculture by fostering a commercially viable, self-sufficient and sustainable Saskatchewan agriculture and food industry in partnership with industry. This mandate addresses needs of individual farms, encourages and develops higher value production and processing and promotes institutional changes required to meet the challenges and opportunities of the global economy.

FTE (Full-Time Equivalent) is a measure of staff utilization for executive government organizations which are subject to *The Public Service Act*.

¹ For 2000-01, the Department will account for activities previously transacted by the Agricultural Credit Corporation of Saskatchewan. This reflects an increase of 42.0 FTEs.

² 117.6 FTEs are transferred from the Department to the Saskatchewan Land Information Services Corporation for 2000-01.

³ 27.0 FTEs are transferred from the Department to the Apprenticeship and Trade Certification Commission for 2000-01.

1999-00 Expenditure and FTE Restatement

Restatement - Expenditure

Each year there may be some form of government reorganization. These reorganizations may include:

- creation of new departments or disestablishment of existing departments;
- transfer of a program or function from one department to another; and
- transfer of some program area or function (subvote) from one area of a department to another area.

To improve comparability, a restatement of the prior year's budget is presented. A restatement ensures that the prior year's funding associated with an activity or program is placed in the same department or subvote that will be performing that function in the current year.

The "Restatement Schedule" indicates the functions that were transferred in or out of a particular subvote in order to arrive at the 1999-00 "Restated Estimate" for the subvote as it appears in the 2000-01 Estimates.

Occasionally, departments may transfer functions within a subvote from one sub-program to another. In these instances, the affected sub-programs are restated and, if significant, an explanatory note is provided within the restatement schedule.

Restatement - FTE

FTE restatements follow the same principles as in the restatement of expenditure. The FTEs of the previous year are placed in the department that will be performing that function in the current year.

Treasury Board Crown Corporations

Treasury Board Crown corporations are those Crown corporations that are subject to Treasury Board orders and directives and include all Crown corporations not designated as CIC Crown corporations.

Below are the descriptions of Treasury Board Crown corporations that have significant financial transactions with the General Revenue Fund.

Agricultural Credit Corporation of Saskatchewan (ACS)

ACS was established pursuant to the provisions of *The Agricultural Credit Corporation Act* which came into force on January 1, 1984. The Corporation administers an agricultural loan portfolio and loan guarantee program.

Municipal Financing Corporation of Saskatchewan (MFC)

MFC was established pursuant to the provisions of *The Municipal Financing Corporation Act*. MFC assists in making capital funds available for the financing of schools, hospitals and other essential construction and local improvement projects in cities, towns, villages and rural areas throughout the Province. MFC may borrow directly from private lending institutions or from the General Revenue Fund. The funds borrowed by MFC are used to purchase a portion of approved debentures sold each year by Saskatchewan local governments.

Saskatchewan Communications Network (SCN)

SCN is governed by *The Communications Network Corporation Act.* SCN's mandate is to provide increased access to information for all Saskatchewan residents. SCN delivers its service through modern telecommunications technology. The Corporation is comprised of two interrelated networks. The SCN Training Network offers distance education, including K-12 and post-secondary credit courses to Saskatchewan residents in over 100 locations. The Cable Network is educational television, offering curriculum and credit programming along with a variety of special interest programs for all ages. SCN also offers a video conferencing system for business and other groups.

Saskatchewan Crop Insurance Corporation (SCIC)

SCIC operates under the authority of *The Crop Insurance Act* and *The Agricultural Safety Net Act*. The Corporation administers insurance programs which protect grain and livestock producers from production failures due to natural hazards. The Corporation also delivers the Waterfowl Damage Compensation Program and the Big Game Damage Compensation Program.

Saskatchewan Gaming Corporation (SGC)

SGC was established under *The Saskatchewan Gaming Corporation Act*, 1994. SGC operates casino gaming in

partnership with the Federation of Saskatchewan Indian Nations under an agreement that provides for revenue sharing within the casino gaming industry and joint participation and management of Casino Regina.

Saskatchewan Health Information Network (SHIN)

SHIN was established by Order-in-Council pursuant to the provisions of *The Crown Corporations Act, 1993*. SHIN's mandate is to implement, own, operate and manage the network in a timely, effective manner reflecting the priorities of the health system. The information network will provide access to comprehensive health information to support direct service delivery.

Saskatchewan Housing Corporation (SHC)

SHC operates under the authority of *The Saskatchewan Housing Corporation Act*. The Corporation provides suitable and affordable housing for low-income seniors, and for families and individuals with an identified need. SHC also improves access to other programs and services which enable its clients to achieve or maintain independence.

SHC funds and/or administers over 33,000 housing units in nearly 300 communities through local housing authorities and non-profit organizations. SHC receives subsidies from the General Revenue Fund, Canada Mortgage and Housing Corporation and municipalities.

Saskatchewan Liquor and Gaming Authority (SLGA)

SLGA is governed by *The Alcohol and Gaming Regulation Act*. Its mandate is to control the distribution and consumption of beverage alcohol and to regulate gaming in Saskatchewan.

SLGA warehouses and distributes wine, spirits and imported beer to SLGA stores and franchises for sale to the public and permittees. Domestic beer is distributed by the Saskatchewan Brewer's Association to retail liquor stores, some franchises and permittees.

SLGA owns and operates video lottery terminals in liquor licensed establishments and regulates charity and casino gaming in the Province. The Authority also works in partnership with the Saskatchewan Indian Gaming Authority to operate four regional casinos in the Province.

Saskatchewan Property Management Corporation (SPMC)

SPMC is governed by *The Saskatchewan Property Management Corporation Act*, 1987. SPMC operates on a cost-recovery basis and provides a diverse array of accommodation, transportation, warehousing, distribution and purchasing services to a wide range of public sector organizations.

SPMC owns and/or manages government facilities in more than 200 communities across Saskatchewan. Customers receive such services as: vehicle supply/service/support; interoffice mail; bulk buying; accommodation provision and management; risk management and insurance; air transportation services; and, sales of surplus equipment and vehicles.

Saskatchewan Wetland Conservation Corporation

The Saskatchewan Wetland Conservation Corporation was established by Order-in-Council under *The Crown Corporations Act, 1978.* The Corporation leads and coordinates provincial involvement in the North American Waterfowl Management Plan.

Revolving Funds

Revolving funds are established by statutes and are used to account for specific government operations which recover all or a portion of their costs from the funds' users. The revenue generated by the fund is used to finance its operations which in turn generate further revenue, hence the term "revolving". Accordingly, these funds are net budgeted in the Estimates.

Commercial Revolving Fund - Environment and Resource Management

The Commercial Revolving Fund is the financing mechanism used to collect and disburse funds for the operation of the Province's provincial parks, campgrounds and recreation sites. Authority to operate the Fund is found in *The Natural Resources Act*. The Fund collects revenues from camping fees, entry gate fees, cottage lot rentals, commercial lease fees and other miscellaneous revenues for activities taking place in the parks. These funds are used in the operation of the parks.

Conservation and Development Revolving Fund - Agriculture and Food

The Department of Agriculture Act provides authority to operate the Conservation and Development Revolving Fund. The Fund operates the Province's Community Pastures Program. Revenues are derived from fees charged for grazing livestock on community pastures.

Correctional Facilities Industries Revolving Fund - Justice

Correctional Facilities Industries Revolving Fund is established under the authority of *The Correctional Services Act*. The Fund is operated as a commercial enterprise providing inmates with opportunities to develop practical and marketable work skills. Revenue generated is retained by the Fund and serves to offset the cost of the program.

Correspondence School Revolving Fund - Education

The Correspondence School Revolving Fund is created and governed by *The Education Act*. It provides accredited high school and post-secondary correspondence courses throughout the Province. It recovers its costs primarily through registration and course fees.

Highways Revolving Fund - Highways and Transportation

The Highways Revolving Fund is governed by *The Highways and Transportation Act, 1997*. The main purpose of the Fund is to distribute the cost of equipment, materials and labour to Department projects. It also provides public road improvements for other governments and organizations on a contract basis. The Fund is intended to operate on a break even basis by recovering the cost of services from users. The majority of revenue is derived from rental of equipment and the sale of materials and labour.

Learning Resources Distribution Centre Revolving Fund- Education

The Learning Resources Distribution Centre is a Revolving Fund created and governed by *The Education Act*. The Fund bulk purchases, at a discount, a variety of classroom resources such as books, audio/visual kits and learning aids. The Fund then retails at cost these learning resources to school divisions and teachers.

Livestock Services Revolving Fund - Agriculture and Food

The Livestock Services Revolving Fund is governed by *The Department of Agriculture Act*. The Fund operates the livestock inspection program and provides brand registration, and dealer licensing. It also collects fees on behalf of The Cattle Marketing Deductions Fund and The Horned Cattle Purchases Fund.

Public Employees' Benefits Agency Revolving Fund -Finance

The Public Employees' Benefits Agency Revolving Fund is established under the authority of *The Financial Administration Act, 1993*. The Fund provides services to public sector pension and benefit plans and to plan members. The costs incurred by the Fund for providing services are allocated to, and reimbursed primarily by, various pension and benefit plans.

Queen's Printer Revolving Fund - Justice

Queen's Printer Revolving Fund is established under the authority of *The Queen's Printer's Act*. The Fund publishes and distributes legislation, regulations and other Government publications as the official printer of Government information. Revenue earned is retained by the Fund to cover associated expenses.

Resource Protection and Development Revolving Fund - Environment and Resource Management

The *Natural Resources Act* provides authority to operate the Resource Protection and Development Revolving Fund. The Fund is the financing mechanism used to operate the Radio Equipment Program, the Equipment Rental Program and the Staff Housing Program. Revenue for these programs is derived from rental and lease fees charged to government departments and agencies.

Glossary of Terms

Accumulated Deficit

The amount by which expenditures have exceeded revenues from the beginning of incorporation (in Saskatchewan's case, 1905) to the end of the fiscal year. It is the sum of all the annual deficits and surpluses plus any adjustments that were charged directly to the accumulated deficit. Some jurisdictions refer to the accumulated deficit as the net debt.

Appropriation

An amount of funding that the Legislature has authorized to be paid from the General Revenue Fund for a particular purpose. This purpose is outlined or defined in *Appropriation Acts* and in the Estimates.

Appropriation Act

The passage of an *Appropriation Act* by the Legislature is the legal authorization to spend monies for a fiscal year from the General Revenue Fund for the purposes identified by the Act and the Estimates.

Capital Expenditure

Costs incurred to acquire property, infrastructure and capital assets or to provide budgetary funding to others to acquire the same. The property, infrastructure or assets acquired provide a long-term benefit to the public or the Government.

Capital Transfer

A transfer given to a third party such as a school board, university or municipality to acquire capital assets such as school buildings or rural roads.

Debt

The amount of money the General Revenue Fund owes expressed in Canadian dollars. Such debt usually consists of borrowing obtained by issuing promissory notes or debentures. Debt does not include liabilities such as accounts payable.

Debt Servicing

Costs associated with servicing the debt of the General Revenue Fund. The costs include interest, foreign exchange gains and losses, discounts, fees and commissions. Costs incurred for financing Crown corporation debt are reimbursed by the Crown corporation.

Deficit

The amount by which expenditure exceeds revenue for a fiscal year.

Department

An organizational unit of executive government created for the purpose of managing related programs.

Estimated

The annual amounts the Government budgets for expenditure and revenue.

Estimates

The document tabled with the Budget which reflects the Government's detailed financial plan for the year and forms the basis for the requested appropriations. Also referred to as Main Estimates.

Executive Branch of Government

For the purposes of the Estimates display, the Executive Branch of Government includes those organizations of Government (departments, secretariats, offices) that report directly to a Member of Executive Council (Cabinet Minister). These organizations are created by legislation, many by *The Government Organization Act*. For display only, the grants to Crown corporations that have a separate vote are also categorized under the Executive Branch of Government.

All of the budgeted funding under the "Executive Branch of Government" has been reviewed and approved by Treasury Board and Cabinet prior to submission to the Legislative Assembly for final approval.

Expenditure

The cost of goods and services acquired in the fiscal year whether or not payment has been made including, capital acquisitions, interest on debt and transfer payments made or due. Expenditure is synonymous with expense except expenditures include capital acquisitions whereas expense reflects the amortization of capital.

Forecast

The amounts which the Government expects to be expensed and received in the current fiscal year, i.e., the fiscal year prior to the budget year.

Full-Time Equivalent (FTE)

A measurement unit of the size of the public service. One FTE is the equivalent of one person working full-time for a year. Twelve people working one month each would also equal one FTE. The FTE measurement is applied to permanent, non-permanent, Order-in-Council and personal service contract appointments.

The measurement is only applied to executive government covered by *The Public Service Act* and does not include Crown corporations, judges or staff of the legislative branch of government.

Government Delivered Services

Public services and government functions that are provided or performed by the Government, its employees and agents as opposed to public services delivered by third parties such as school boards.

Investing Activity

The amount of money invested by the General Revenue Fund during the fiscal year in items such as sinking funds and agricultural land and improvements.

Legislative Branch of Government

For the purposes of the Estimates display, the Legislative Branch of Government includes those organizations of Government created by legislation that report directly to the Legislative Assembly.

All of the budgeted funding under the "Legislative Branch of Government" has been reviewed and approved by the Board of Internal Economy prior to submission to the Legislative Assembly for final approval.

Lending Activity

The amount of money loaned or advanced by the General Revenue Fund during the fiscal year to a Crown corporation, public agency or other entity.

Pensions and Benefits

Expenditures incurred for public sector pension and benefit plans and employer contributions related to salaries. Pensions and benefits paid by transfers cover the Government's contribution to the pension and benefit plans of Saskatchewan teachers.

Revenue

The gross proceeds applicable to a fiscal year from taxes, licences, transfer payments and sources other than borrowing.

Revolving Funds

Revolving funds, which are established by statute, are used to isolate certain items of related revenue and expenditures and are net budgeted in the Estimates.

Revolving funds are used to account for specific government operations which recover all or a portion of the associated costs from the fund's users. Revenue generated by a revolving fund's activities is used to finance further operations which in turn generate further revenue, hence the term "revolving".

Salaries

Salaries and wages paid directly by the General Revenue Fund to executive government employees, judges, MLAs and employees of the Legislative Assembly. Employees include permanent, non-permanent, Order-in-Council and personal service contract employees. Salaries and wages paid from a revolving fund or entity funded by transfer payments are not displayed in the Estimates.

Sinking Fund

Monies that are set aside to provide for the orderly retirement of a portion of the Province's debt. Each year the Province makes payments into the sinking funds associated with certain debt issues outstanding.

Statutory

Expenditures and disbursements from the General Revenue Fund that have ongoing spending authority in legislation, i.e. statute. They do not require annual legislative authority by *Appropriation Acts*. Examples of this type of transaction are debt servicing costs or loans to Crown corporations.

Sub-Program

Component of a subvote. It represents a facet of the major program provided by the subvote. This may be a distinct client group or method of delivering the program.

Subvote

Component of a vote. Usually the subvote represents a major program or function within the vote.

Supplementary Estimates

Those Estimates which detail the amounts appropriated during the fiscal year by special warrants. Supplementary Estimates for a fiscal year are usually tabled in the Legislative Assembly at the same time as the Main Estimates for the following year. Supplementary Estimates are subject to review by the Legislative Assembly and form part of the main *Appropriation Act* for the fiscal year.

Supplier and Other Payments

All non-salary and non-pension and benefit costs incurred directly by the General Revenue Fund in delivering public services and performing government functions. These expenditures include accommodation, travel, supplies, equipment, communication and allowance for bad debts.

Surplus

The amount by which revenue exceeds expenditure for a fiscal year.

Third Parties

A term used to describe organizations independent of the General Revenue Fund that are receiving funding (see Transfers for Public Service). Typically, third parties are performing a public service with the funding they receive. Examples of third parties are district health boards, universities, school boards and group homes.

Transfers

Transfers of money from the Government to an individual, organization, authority or other government for which no goods or services are directly received by government and no repayment is expected in the future. Terms such as grants and entitlements are often used for transfers. *See following types of transfers.*

Transfers to Individuals

Transfers made directly or indirectly to individuals for which no public service is required of the recipient. These transfers provide the recipient with a financial benefit and are usually in the nature of an income support, subsidy or compensation payment. These transfers may include public goods and services that are income tested.

Transfers for Public Services

Transfers to individuals, organizations, Crown corporations and local authorities e.g., school boards, district health boards and municipalities to fund public services such as health care and education. Transfers to Government organizations and corporations which in turn provide a direct transfer or subsidy to their clients are treated as Transfers to Individuals (see above).

Vote

A block of funding provided by statute or voted on by the Legislative Assembly in an *Appropriation Act* which provides for the activities and purposes as outlined in the Estimates. The funding comprised in a vote is an approved amount for the fiscal year.
