

Schedule CLII - People's Republic of China

This Schedule is authentic only in the English language

PART I - GOODS

Notes on Agricultural Products (identified by "ag" in column 9)

1. The "final bound rate" of duty, if differing from the "bound rate at date of accession", will be implemented according to the date specified in the "Implementation" column. The implementation column indicates the date, referring to 1 January of the year indicated, when the final bound rate will be achieved. Tariff reductions will be implemented according to the attached Staging Matrix in Annex I.
2. a) The People's Republic of China shall maintain its in-quota applied and bound rates (and, upon removal of the tariff-quota, its applied and bound rates) for HS 1514 (rape or colza (canola) oil and its fractions, whether or not refined, but not chemically modified) at a level equal to that for HS 1507 (soya-bean oil and its fractions, whether or not refined, but not chemically modified) and for HS 1205 (rape or colza (canola) seeds, whether or not broken).
b) China undertakes in principle to apply its tariff, both bound and applied rates, as well as other duties and charges, in such a way as to not cause distortions in the terms of competition between substitute products or competing suppliers. In this regard, there was particular interest in ensuring fair competition between rape (canola) seeds and soybeans, rape (canola) oil and soybean oil; flours and meals of oilseed and forage products (including lupines); forage products (including lupines) and flours and meals of soybeans; forage products (including lupines) and oil-cake and other solid residues of soybean; raw cane sugar and raw beet sugar, refined sugar artificial sweeteners and sugar substitutes; and wool and other competing fibres.
c) After the implementation period for HS 12141000 (lucerne (alfalfa) meal and pellets), the People's Republic of China shall maintain its bound and applied rates for HS 12141000 at a level equal to that for HS 2304 (oil-cake and other solid residues, whether or not ground or in the form of pellets, resulting from the extractions of soybean oil).
d) Malt (1107)- The People's Republic of China agrees that the applied tariff for malt will be no more than seven percentage points higher than the applied rate on barley (i.e. if the applied rate on barley is three percent, the tariff on malt will be no higher than 10 percent; if the applied rate on barley is one percent, the applied rate on malt will be no higher than 8 percent).
e) Barley - The People's Republic of China shall provide adequate advance notice of at least 3 months for increases in the applied tariff rate on barley, which now stands at 3 percent. The People's Republic of China shall provide stability by ensuring any changes in applied rates will be in place for a minimum of one year. Tariffs will be no higher than the tariff which applied when contracts were signed.
f) The People's Republic of China specifically agrees that coconut oil (HS 15131100 and HS 15131900) will be accorded treatment upon importation on terms no less favorable than that accorded to like, directly competitive or substitutable products imported from any WTO Member.
g) Feed peas (07131090)- will be granted parity with HS 2304 (oilcake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of soybean oil.).
3. Except as specified in Section I-B, all products imported by non-state trading enterprises will be afforded no less favorable treatment than products imported by state trading enterprises, including but not limited to being subject to the same applied tariff and other duties and charges, inspection or quarantine requirements, application of the value-added tax, application of provincial taxes. All such imported products shall be accorded national treatment under Article III of GATT 1994, especially paragraph 4 thereof, in respect of their internal sale, offering for sale, purchase, transportation, distribution or use, including their direct access to end users.
4. Any enterprise possessing the right to trade (the People's Republic of China shall grant the right to trade state-traded agricultural products subject to a tariff-quota in Section I-B to any enterprises possessing the right to trade any product under Section 5 of the Protocol of Accession (i.e., possessing general trading rights), except for imports as specified in Section I-B reserved for state trading enterprises.) will be permitted to import products listed in Section I-I at the in-quota duty rate if the People's Republic of China increases the within-quota quantity to an amount in excess of that set forth in Section I-B for any year. Allocation of shares of such additional quota quantities to end users will be on the basis of first-come, first-served or the same method used for initial allocation of the product. The People's Republic of China shall publicly notify through the official journal the availability of additional quantities and the allocation procedures ten days in advance of their allocation and will notify the WTO Committee on Agriculture of the additional quantity and procedures in its annual tariff-quota notifications. Inquiries on the entities which received the allocation of the additional quantity can be made to the State Development and Planning Commission (SDPC) which will provide the information within 10 days.

5. See "Notes" at the end of this Schedule.

Notes on Other Products

PARTIE I - MARCHANDISES

Notes sur les produits agricoles (désignés « ag » à la colonne 9)

1. Le taux de droit consolidé final, à supposer qu'il diffère du taux de droit consolidé à la date d'accession, sera mis en application à la date spécifiée à la colonne « Implementation [mise en oeuvre] ». Cette colonne indique la date - soit le 1er janvier de l'année mentionnée - à laquelle le taux de droit consolidé final prendra effet. Les réductions tarifaires seront mises en oeuvre selon la matrice d'échelonnement qui figure à l'annexe I.
2. a) La République populaire de Chine maintiendra ses taux de droit applicables dans la limite du contingent et ses taux de droit consolidés (et, une fois supprimés les contingents tarifaires, ses taux effectifs et ses taux consolidés) pour le SH 1514 (huiles de navette ou colza et leurs fractions, raffinées ou non, mais non chimiquement modifiées) à un niveau égal à celui applicable au SH 1507 (huile de soja et ses fractions, raffinées ou non, mais non chimiquement modifiées) et au SH 1205 (graines de navette ou de colza, concassées ou non).
b) La Chine doit en principe appliquer son tarif - tant pour les taux de droit consolidés que pour les taux de droit effectifs - ainsi que les autres droits et impositions de manière à ne pas causer des distorsions à la concurrence entre les produits de substitution et les fournisseurs concurrents. À cet égard, une attention particulière a été portée au souci d'assurer une concurrence loyale entre les graines de navette (colza) et le soja; les huiles de navette (colza) et l'huile de soja; les farines et moulées d'oléagineux et les produits de fourrage (y compris les lupins); les produits de fourrage (y compris les lupins) et les farines et moulées de soja; les produits de fourrage (y compris les lupins) et les tourteaux et autres résidus solides de soja; le sucre de canne brut et le sucre de betterave brut; les édulcorants artificiels de sucre raffiné et les succédanés du sucre; la laine et les autres fibres concurrentes.
c) Après la période de mise en oeuvre prévue à l'égard du SH 12141000 (farine et agglomérés sous forme de pellets de luzerne), la République populaire de Chine maintiendra ses taux de droits consolidés et ses taux de droits effectifs applicables au SH 12141000 à un niveau égal à celui applicable au SH 2304 (tourteaux et autres résidus solides de soja, broyés ou non ou agglomérés sous forme de pellets, issus de soja).
d) Malt (1107) - La République populaire de Chine convient que le tarif effectif applicable au malt ne dépassera pas de plus de sept pour cent le taux effectif applicable à l'orge (par exemple, si le taux effectif applicable à l'orge est de trois pour cent, le tarif applicable au malt sera de dix pour cent au maximum; si le taux effectif applicable à l'orge est d'un pour cent, le taux effectif applicable au malt ne sera pas supérieur à huit pour cent).
e) Orge - La République populaire de Chine signifiera un préavis d'au moins trois mois en cas d'augmentation du taux de droit effectif applicable à l'orge, qui se situe actuellement à trois pour cent. La République populaire de Chine assurera la stabilité en maintenant tout changement apporté aux taux de droit effectifs pendant une période d'au moins un an. Les droits ne seront pas plus élevés que le droit effectivement appliqué au moment de la signature des contrats.
f) La République populaire de Chine convient plus particulièrement que l'huile de coco (SH 15131100 et SH 15131900) se verra accorder aux fins d'importation un traitement non moins favorable que celui accordé à des produits semblables, directement concurrentiels ou substituables importés d'un pays membre de l'OMC.
g) Pois secs (07131090) - Ce produit se verra accorder la parité avec le SH 2304 (tourteaux et autres résidus solides de soja, broyés ou non ou agglomérés sous forme de pellets, issus de soja)

3. Sauf exceptions indiquées à la section I-B, tous les produits importés par des entreprises commerciales non étatiques se verront appliquer un traitement non moins favorable que celui accordé aux produits importés par des entreprises commerciales d'État, y compris, sans s'y limiter, un traitement égal pour ce qui est du taux de droit effectif et des autres droits et impositions, des exigences d'inspection ou de quarantaine, du régime d'application de la taxe sur la valeur ajoutée et du régime de perception des taxes provinciales. De tels produits importés se verront tous accorder le traitement national aux termes de l'article III du GATT (1994), et plus particulièrement du paragraphe 4 dudit article, pour ce qui est de leur vente interne, mise en vente, achat, transport, distribution ou utilisation et accès direct aux utilisateurs.

4. Toute entreprise habilitée à faire du commerce [la République populaire de Chine accordera le droit de commercialiser des produits agricoles dont le commerce est régi par l'État sous réserve du contingent tarifaire mentionné à la section I-B à toute entreprise habilitée à commercialiser l'un ou l'autre des produits listés à la section 5 du Protocole d'accession (c.-à-d. toute entreprise détenant des droits généraux de commercialisation), à l'exclusion des importations désignées à la section I-B comme étant réservées aux entreprises commerciales d'État] sera autorisée à importer les produits listés à la section I-B au taux de droit applicable dans la limite du contingent si la République populaire de Chine fait augmenter le sous-contingent au-delà du niveau indiqué à la section I-B pour une année donnée. La quantité additionnelle sera attribuée aux utilisateurs selon l'ordre dans lequel ils en feront la demande ou selon le procédé employé pour la répartition initiale du produit. La République populaire de Chine notifiera au public, via le journal officiel, la disponibilité de toute quantité additionnelle et la procédure d'attribution à suivre dix jours avant la date de l'attribution; par ailleurs, elle signalera au Comité de l'agriculture de l'OMC la quantité additionnelle et la procédure d'attribution par le biais de ses notifications annuelles relatives aux contingents tarifaires. Les demandes de renseignements concernant les entités ayant reçu une part de la quantité additionnelle peuvent être adressées à la Commission d'État pour le développement et la planification (SDPC) qui y répondra dans les dix jours.

5. Voir « Notes » à la fin de cette Liste.

La quantité additionnelle sera attribuée aux utilisateurs selon l'ordre dans lequel ils en feront la demande ou selon le procédé employé pour la répartition initiale du produit. La République populaire de Chine notifiera au public, via le journal officiel, la disponibilité de toute quantité additionnelle et la procédure d'attribution à suivre dix jours avant la date de l'attribution; par ailleurs, elle signalera au Comité de l'accès aux marchés de l'OMC la quantité additionnelle et la procédure d'attribution par le biais de ses notifications annuelles relatives aux contingents tarifaires. Les demandes de renseignement concernant les entités ayant reçu une part de la quantité additionnelle peuvent être adressées à l'organisme compétent qui y répondra dans les dix jours.
