

ENVIRONMENTAL (SCREENING) ASSESSMENT

Canadian Environmental Assessment Act Applicability: To be completed before providing form to Appraiser

CEAA Environmental Assessment Required?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Is other Federal Government money, permit, land or Aboriginal land involved? If yes, contact Environmental and Legal Policy Analyst	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Is Public Participation Appropriate?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Site Inspection Completed? <input type="checkbox"/> Yes <input type="checkbox"/> No	Date(s):	
PROJECT/ACTIVITY DESCRIPTION -- Provide a short description of the Project (i.e. construction of on-farm storage structure)		

IMPORTANT: For a construction project, please complete this form as if the construction was complete and in operation

PROJECT SITE DESCRIPTION

Describe the natural surroundings where the Project will be implemented (i.e. ocean, inland, municipally serviced, etc.):

Reasonably appropriate environmental management of site:	<input type="checkbox"/> Yes	2
	<input type="checkbox"/> No	4

SECTION 1: LICENSES, LEASES, PERMITS AND APPROVALS

All required permits and approvals are in place and up to date (or in process):	<input type="checkbox"/> Yes	2
	<input type="checkbox"/> No	4

SECTION 2: BUILDINGS AND OTHER IMPROVEMENTS

No reasonably apparent evidence of building contamination. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes	2
	<input type="checkbox"/> No	3
Buildings or improvements have been contaminated.	<input type="checkbox"/> Remediation Plan	4
	<input type="checkbox"/> No Remediation Plan	5

SECTION 3: UNDER AND ABOVE GROUND STORAGE TANKS

On site above ground diesel or gasoline. Location and management according to commonly accepted industry practice. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes	2
	<input type="checkbox"/> No	3
Underground Storage Tanks regularly tested and found to be leak-proof. No history of past leaks.	<input type="checkbox"/> Yes	3
	<input type="checkbox"/> No	4
Underground storage tanks have been tested and found to be leaking. Remedial plan in progress (or completed) to remove tanks and clean contaminated soils.	<input type="checkbox"/> Yes	4
	<input type="checkbox"/> No	5

SECTION 4: WASTE MANAGEMENT

Customer manages or disposes of significant amounts of waste materials or hazardous materials. Required licenses and permits are in place and reasonable management practices, industry standards, or commonly accepted farming practices followed. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes	3
	<input type="checkbox"/> No	4
There has been an unauthorized release of waste or hazardous material into water or soil.	<input type="checkbox"/> Remediation Plan	4
Reasonably apparent contamination.	<input type="checkbox"/> No Remediation Plan	5

SECTION 5: CHEMICALS, PESTICIDES AND FERTILIZERS

Reasonable management practices, industry standards, or commonly accepted farming practices followed for storage, use or disposal of chemicals, residual materials and containers. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes	2
	<input type="checkbox"/> No	3
Previous spill of chemicals or rinse water. Reason for spill identified and contamination remedied (or in process). Mitigation measures in place to guard against further contamination.	<input type="checkbox"/> Yes	4
	<input type="checkbox"/> No	5

SECTION 6: WATER AND WASTE WATER MANAGEMENT

A. WASTE WATER

No reasonably apparent water contamination. Regular water testing. Water management and filtration processes follow reasonable management practices, industry standards, or commonly accepted farming practices. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes	2
	<input type="checkbox"/> No	4
Existing water contamination or water management and/or filtration do not follow industry standards or commonly accepted farming practices.	<input type="checkbox"/> Remediation Plan	4
	<input type="checkbox"/> No Remediation Plan	5

B. DRINKING WATER

No reasonably apparent water contamination. Regular water testing. Future potential environmental effects are unlikely to be adverse.	2
Water contamination. Source of contamination identified and contamination remedied (or in process). Mitigation measures in place to guard against further contamination and future potential environmental effects are unlikely to be adverse.	3
Existing water contamination. Source of contamination not identified or remediation is incomplete.	5
Abandoned or uncapped water well on site.	3

C. SEPTIC SYSTEM

Municipal sewer service. Future potential environmental effects are unlikely to be adverse. Or septic system approved by appropriate authority and management and septic removal follows commonly accepted practices. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes	2
	<input type="checkbox"/> No	3

C. SEPTIC SYSTEM (CONTINUED)		
Septic tank with drainage bed or septic holding tank only not approved by appropriate authority	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Remediation Plan <input type="checkbox"/> No Remediation Plan	3 4 3 5
Existing septic failure.		

SECTION 7: ENVIRONMENTAL RISK MANAGEMENT SYSTEMS		
Environmental risk management systems are reasonably expected (commonly expected practice) or are more than commonly expected for the enterprise. Customer uses new technologies or methods to prevent or limit adverse environmental impact. Required licenses and permits are in place or in process of being obtained. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes <input type="checkbox"/> No	2 4

SECTION 8: ENDANGERED SPECIES, PROTECTED AREAS AND NEIGHBOURING PROPERTIES		
Project does not adversely affect Migratory Birds, Rare or Endangered Animal Species, Critical Habitat or Environmentally Protected Areas? Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes <input type="checkbox"/> No	2 4
No hazardous or sensitive activities on customer's or adjacent properties. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes <input type="checkbox"/> No	2 4
Hazardous or sensitive activities on customer's or adjacent properties, but reasonably adequate buffers, controls and risk management in place. Future potential environmental effects are unlikely to be adverse.		3

SECTION 9: ENVIRONMENTAL INVESTIGATIONS, REPORTS AND ISSUES		
Property is subject to an environmental investigation, order, regulatory proceeding, legal action or other complaint. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes <input type="checkbox"/> No	4 2
Phase 1 or Phase 2 report indicates environmental risk at site is reasonably managed/satisfactory mitigation measures. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes <input type="checkbox"/> No	2 4

SECTION 10: NATURAL GAS AND OIL WELLS		
Wells are managed according to industry practice. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes <input type="checkbox"/> No	2 4
Brine or oil spill.		4
Compensation dispute with Well Operator or Compensation Board.		4

SECTION 11: LIVESTOCK OPERATIONS		
Complete only where livestock waste produced is less than 1 Livestock Unit (1000 lbs.) per workable acre		
Required provincial approvals and permits in place. Animal unit limits respected. Manure management plan in place. Reasonably responsible management of manure, wastes and dead animals. Future potential environmental effects are unlikely to be adverse.	<input type="checkbox"/> Yes <input type="checkbox"/> No	3 4
Past manure spill/septic failure. Remediation is complete or in progress. Certificate of remediation issued from provincial authority (or in progress).	<input type="checkbox"/> Remediation Plan <input type="checkbox"/> No Remediation Plan	3 5

SECTION 12: OVERALL ENVIRONMENTAL EFFECT		
Select all environmental conditions reasonably affected by the customer's Project or activity:		
<input type="checkbox"/> Air Quality <input type="checkbox"/> Wetlands <input type="checkbox"/> Light pollution <input type="checkbox"/> Other (please describe) <input type="checkbox"/> Odour <input type="checkbox"/> Soil Stability/Erosion control <input type="checkbox"/> Natural vegetation <input type="checkbox"/> Groundwater Quality <input type="checkbox"/> Soil Fertility/Productivity <input type="checkbox"/> Animal or Plant Habitats <input type="checkbox"/> Surface Water Quality <input type="checkbox"/> Noise		
Describe the measures used to protect against environmental contamination (i.e. "All provincial approvals", "environmental policy", etc.)		
Overall Environmental Impact:		

<input type="checkbox"/> Significant Positive Environmental Effect	<input type="checkbox"/> Significant Negative Environmental Effect that Can Not be Mitigated
<input type="checkbox"/> No significant or Negative Environmental Effect	<input type="checkbox"/> Potential Negative Environmental Effect Unknown
<input type="checkbox"/> Negative Environmental Effect that Can be Mitigated	<input type="checkbox"/> Significant Public Concern
Is a follow-up program of the Project's environmental effects required? (If Yes, describe requirements and process on separate sheet)	<input type="checkbox"/> Yes <input type="checkbox"/> No

HIGHEST ENVIRONMENTAL RISK CODE	

SECTION 13: SCREENING ASSESSMENT DECISION		CHECK ONE
<input type="checkbox"/> The Project is unlikely to cause significant adverse environmental effects taking into account appropriate mitigation measures. <input type="checkbox"/> The Project is likely to cause significant adverse environmental effects. Loan Application must be declined. <input type="checkbox"/> Uncertain whether the Project would cause significant adverse environmental effects. Contact Environmental and Legal Policy Analyst. <input type="checkbox"/> Uncertain whether significant adverse environmental effects could be justified under the circumstances. Contact Environmental and Legal Policy Analyst. <input type="checkbox"/> Public Concern merits referral to Ministry of the Environment for Panel Review or Mediation. Contact Environmental and Legal Policy Analyst
