2006 Census Geography

Statistics Canada, Eastern Region

Briefly

This workshop provides an overview of geographical concepts, explores how they are used to disseminate Census data and presents tools available for studying the geographical aspects of these data.

Topics covered

- Geographical units
 - Canada, provinces and territories
 - Census Division (CD), Census Subdivision (CSD) and Dissemination Area (DA)
 - Census Metropolitan Areas (CMA), Census Agglomerations (CA) and Census Tract (CT)
 - Federal Electoral District (FED)
 - Forward Sortation Areas (FSA)
- Geographic products
 - Standard Geographical Classification
 - Cartographic Boundary Files, Digital Boundary Files and Road Network Files
 - Geographic Files by postal code
- Custom Services
 - Geocoding Services, Geography Custom Services, Geography Custom Mapping

Method of instruction

The workshop consists of presentations, discussions and practical exercises. To ensure a dynamic environment, participants are encouraged to share ideas and experiences.

Who is the workshop for?

This workshop is for users of Census data and users of other surveys conducted by Statistics Canada.

Where? When?

One-day workshop (9 a.m. to 4 p.m.)
