

2005 Audit Income Form

As part of the Student Financial Services audit system, we are required to verify the information contained within your 2004/2005 and/or your 2005/2006 application(s) for assistance. Accordingly, 2005 Tax Year information, obtained through Canada Revenue Agency (CRA), has been compared to information provided by you on your application(s).

A discrepancy was found, therefore, your application(s) for student financial assistance has been reassessed to reflect the income you have previously reported, as well as, prorating the discrepancy amount over the 12-month period. These adjustments have resulted in overawards of your Canada & Newfoundland and Labrador Integrated Student Loans, which will be recovered through your next entitlement(s).

If you feel your income has not been applied accurately, please complete the chart below and submit to the Student Financial Services Division by **January 26, 2007**. Information submitted after this deadline may not be considered. If any of this income was received in the form of a Canada Study Grant or a Millennium Bursary, please indicate. Please note the total income indicated below must be the same as that reported to CRA for that Tax year.

Breakdown of 2005 Tax Year Income:

January	\$	May	\$	September	\$
February	\$	June	\$	October	\$
March	\$	July	\$	November	\$
April	\$	August	\$	December	\$
