HER MAJESTY THE QUEEN IN RIGHT OF CANADA (1998)
as represented by the Solicitor General of Canada.

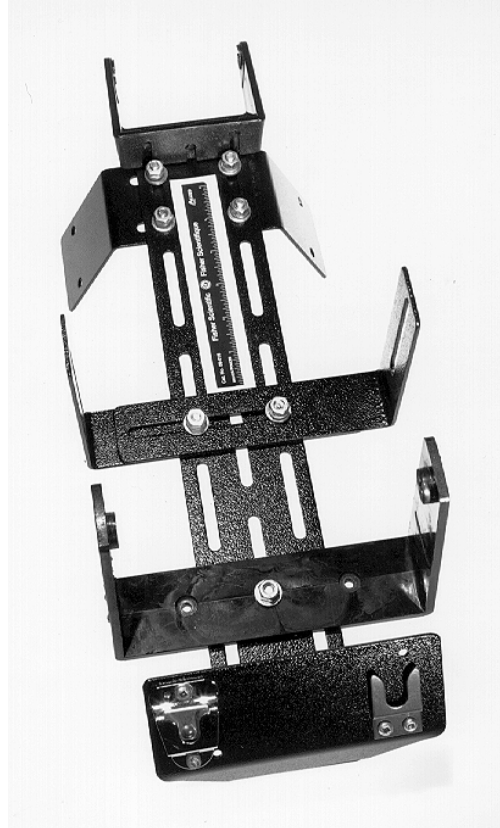

SA MAJESTÉ LA REINE DU CHEF DU CANADA (1998)
représentée par le Solliciteur général du Canada.

EXECUTIVE SUMMARY

The **Emergency Equipment Mounting Bracket** was developed by an RCMP telecommunications member in British Columbia as a lower cost alternative to commercially available brackets. It does not interfere with passenger side air bag deployment and has resulted in considerable financial savings to this Division.

SOMMAIRE

The **Emergency Equipment Mounting Bracket** was developed by an RCMP telecommunications member in British Columbia as a lower cost alternative to commercially available brackets and has resulted in considerable financial savings to this Division. It is a floor-mounted unit installed between driver and passenger seats onto which various telecommunications devices and emergency equipment can be mounted. It does not interfere with passenger side air bag deployment. It was designed by Civilian Member R. G. Johnson.

For further information Mr. Johnson can be reached by telephone at 250-474-2264.
