Ms. Jeanne Lacombe
Senior Analyst
Canadian Radio-television and
Telecommunications Commission
Ottawa, Ontario K1A 0N2

Dear Ms. Lacombe:

**RE: Industry Notification of Local Number Portability in the Exchanges of
Ganges and Port Hardy, British Columbia**

This is to provide advance notification to the Commission and the industry that Local Number Portability will be activated for commercial service in the British Columbia Exchanges of Ganges and Port Hardy, as early as November 2, 2007. Both exchanges are in the Capital Local Interconnection Region.

The industry accepted procedure and interval involving first port notification as identified in the Consensus report "Interim Notification Process for Declaring an Exchange Portable" (File #ROCO0410), dated January 7, 1999, will be followed. TELUS notes that Ganges and Port Hardy are scheduled for number portability by November 29, 2007 as part of the phased WNP rollout.

Please forward this letter to the appropriate industry distribution lists.

Yours truly,

[Original signed by]
