The Estimates Documents

Each year, the government prepares Estimates in support of its request to Parliament for authority to spend public monies. This request is formalized through the tabling of appropriation bills in Parliament. The Estimates, which are tabled in the House of Commons by the President of the Treasury Board, consist of three parts:

Part I – The Government Expenditure Plan provides an overview of federal spending and summarizes the relationship of the key elements of the Main Estimates to the Expenditure Plan (as set out in the Budget).

Part II – The Main Estimates directly support the *Appropriation Act*. The Main Estimates identify the spending authorities (votes) and amounts to be included in subsequent appropriation bills. Parliament will be asked to approve these votes to enable the government to proceed with its spending plans. Parts I and II of the Estimates are tabled concurrently on or before 1 March.

Part III – Departmental Expenditure Plans, which are divided into two components:

- (1) **Reports on Plans and Priorities (RPPs)** are individual expenditure plans for each department and agency (excluding Crown corporations). These reports provide increased levels of detail on a business line basis and contain information on objectives, initiatives and planned results, including links to related resource requirements over a three-year period. The RPPs also provide details on human resource requirements, major capital projects, grants and contributions, and net program costs. They are tabled in Parliament by the President of the Treasury Board on behalf of the ministers who preside over the departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*. These documents are to be tabled on or before March 31 and referred to committees, which then report back to the House of Commons pursuant to Standing Order 81(4).
- (2) **Departmental Performance Reports (DPRs)** are individual department and agency accounts of accomplishments achieved against planned performance expectations as set out in respective RPPs. These Performance Reports, which cover the most recently completed fiscal year, are tabled in Parliament in the fall by the President of the Treasury Board on behalf of the ministers who preside over the departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*.

The Estimates, along with the Minister of Finance's Budget, reflect the government's annual budget planning and resource allocation priorities. In combination with the subsequent reporting of financial results in the Public Accounts and of accomplishments achieved in Departmental Performance Reports, this material helps Parliament hold the government to account for the allocation and management of public funds.

The Government Expenditure Plan

Part I – The Government Expenditure Plan

The Expenditure Plan Overview

The Minister of Finance's Budget of February 28, 2000 sets out the government expenditure plan that amounts to \$158 billion. That plan includes \$116 billion of program spending, plus public debt charges of \$42 billion.

Main Estimates

The 2000–2001 Main Estimates presents budgetary spending authorities totalling \$155.7 billion. This represents over 98 per cent of the expenditure plan in the Budget. The Main Estimates differ from the expenditure plan presented in the Budget in several ways:

- The Estimates do not include funds that are set aside in the expenditure plan for operating contingency purposes, or for new initiatives that either require Parliamentary approval through legislation, or require further planning and development before spending authority is sought from Parliament. The government will seek spending authority for such items either through separate legislation or through Supplementary Estimates over the course of the fiscal year.
- The expenditure plan in the Budget includes provisions for the revaluation of the government's assets and liabilities. These are intended to account for changes in the value of existing loans and investments, as well as adjustments to liabilities with respect to accumulated employee severance and vacation benefits and certain other statutory programs. The Main Estimates do not include such provisions.
- The voted appropriations in the Estimates represent a legal limit on the amount that a department can spend. As a result, there is often a gap between that limit and the amount actually spent – that difference is known as a lapse of spending authority. These lapses occur for a variety of reasons, some unavoidable, such as weather-induced delays on a construction project or the late delivery of goods and services which had been ordered and others reflecting management decisions. The expenditure forecast in the Budget takes this anticipated lapse into consideration.

Public Debt Charges	42,000
<i>Total Budgetary Main Estimates</i>	<u>155,747</u>
Adjustments to reconcile to the Budget	2,253
Total Budgetary Expenditure	158,000

* For Budget purposes a forecast of \$10.6 billion has been used, reflecting a growth in Equalization payments equal to the growth in nominal GDP. For Estimates purposes, the amount above is calculated upon existing Federal/Provincial Fiscal Arrangements legislation.

Part I – The Government Expenditure Plan

Spending Authority

The Main Estimates present information on both budgetary and non-budgetary spending authorities. **Budgetary** expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations. **Non-budgetary** expenditures (loans, investments and advances) are outlays that represent changes in the composition of financial assets of the Government of Canada.

Budgetary Spending Authority

These Main Estimates support the government's request for Parliament's authority to spend \$50.1 billion under program authorities that require Parliament's annual approval of their spending limits. The remaining \$105.6 billion, or 68 per cent of the total, is of a statutory nature and the detailed forecasts are provided for information purposes only.

Non-budgetary Spending Authority

The 2000–2001 Main Estimates include a forecast increase in the value of loans, investments and advances of \$410 million. Voted non-budgetary spending authorities set out in these Estimates amount to \$31 million. The remaining \$379 million is pursuant to enabling legislation.

Statutory Authorities	105,650	379	106,029
Total Main Estimates	155,747	410	156,157

Note: **Voted** expenditures are those for which parliamentary authority is sought through an annual appropriation bill.

Statutory expenditures are those authorized by Parliament through enabling legislation.

A more detailed break-down of these authorities by department and agency is presented in Part II of the Main Estimates.

Introduction to Part II

Structure of the Main Estimates

The purpose of these Estimates is to present to Parliament information in support of budgetary and non-budgetary spending authorities that will be sought through Appropriation bills. These authorities are divided into two categories – Voted and Statutory. Voted authorities are those for which the government must seek Parliament's approval annually through an Appropriation Act. The wording and expenditure authority attributable to each vote appears in a Schedule attached to the Appropriation Act. Once approved, the vote wording and approved amounts become the governing conditions under which these expenditures may be made. Individual expenditure proposals included in Votes seek authority to make expenditures necessary to deliver various mandates that are under the administration of a Minister and are contained in legislation approved by Parliament. Statutory authorities are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is included in the Estimates for information only.

The basic structural units of **Part II** are the Votes and Statutory items that, in total, comprise the proposed expenditures under each departmental or agency program; a program being defined as a collection of activities having the same objective or set of objectives.

In general, the program and Vote structure correspond in that there is usually only one Vote for each program. The wording of a Vote and its amount are included in an Appropriation Act that provides the authority and the limit for payments to be charged against the Vote; it does not create a commitment to spend the entire amount. There are, however, certain exceptions to the normal Vote structure and these are discussed below.

The following kinds of Votes appear in Estimates.

- (a) *Program Expenditures Votes* – This type of Vote is used when there is no requirement for either a separate "capital expenditures" Vote or a "grants and contributions" Vote because neither equals or exceeds \$5 million. In this case, all program expenditures are charged to the one Vote.
- (b) *Operating Expenditures Votes* – This type of Vote is used when there is a requirement for either a capital expenditures Vote or a grants and contributions Vote or both; that is, when expenditures of either type equals or exceeds \$5 million. Where they do not, the appropriate expenditures are included in the program expenditures Vote.
- (c) *Capital Expenditures Votes* – This type of Vote is used when the capital expenditures in a program equal or exceed \$5 million. Expenditure items in a capital vote would include the acquisition of land, buildings and works (Standard Object 08), as well as the acquisition of machinery and equipment (Standard Object 09) where the item's value is expected to exceed \$10,000. Where a department expects to draw upon its own labour and materials, or employs consultants for purposes of creating assets, the expected outlays are also included in capital expenditures votes.
- (d) *Grants and Contributions Votes* – This type of Vote is used when the grants and contributions expenditures in a program equal or exceed \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the vote wording, the meaning of the word "contributions" is considered to include "other transfer payments" because of the similar characteristics of each.
- (e) *Non-Budgetary Votes* – This type of Vote, identified by the letter "L", provides authority for expenditures in the form of loans or advances to, and investments in, Crown Corporations; and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.

Introduction to Part II

- (f) *Special Votes: Crown Corporation Deficits and Separate Legal Entities* – The one Vote to one program concept does not apply where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity where such expenditures are part of a larger program. Where this is the case, a separate Vote structure is established for each. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.
- (g) *Special Votes: Treasury Board Centrally Financed Votes* – To support the Treasury Board in performing its statutory responsibilities for managing the government's financial, human and materiel resources, a number of special authorities are required and these are outlined below.
- (i) Government Contingencies Vote – This Vote provides funds to meet expenditures of a miscellaneous character which cannot be foreseen when the Estimates are developed, and to meet additional payroll costs such as those arising out of collective bargaining agreements that come into effect in the Estimates Year and which exceed the provision for these costs included in the individual Votes of departments and agencies.
 - (ii) Government Wide Initiatives Vote – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the public service of Canada including the Service Canada Initiative, Employment Equity programs and Comptrollership Modernization.
 - (iii) Collective Agreements Vote – This Vote supplements other appropriations to provide funding for the increased personnel costs of collective agreements between the Treasury Board and collective bargaining units representing public servants as well as collective agreements signed by separate employers.
 - (iv) Public Service Insurance Vote – This Vote provides for the payment of the employer's share of health, income maintenance and life insurance premiums; for payments to or in respect of provincial health insurance plans; provincial payroll taxes; pension, benefit and insurance plans for employees engaged locally outside Canada; and to return to certain employees their share of the unemployment insurance premium reduction.

Presentation by Ministry, Department and Agency

The programs for the departments and agencies for which a Minister is responsible, or reports to Parliament, are grouped together to provide a total ministry presentation. The ministries are then arranged alphabetically to make up the complete Main Estimates. Ministries of State, which may be formed under authority of the *Government Organization Act, 1970*, involve a more restrictive meaning of the term Ministry than that used here. Ministries of State are treated as departments for presentation purposes in these Estimates.

Each ministry presentation begins with a Ministry Summary table that shows, by Vote or Statutory item, the amount included in the Main Estimates for all programs comprising that Ministry. Abbreviated wordings are used in this table.

All Estimates data shown for the previous year are taken from the Main Estimates of that year. This ensures that all financial information is displayed on a consistent year over year basis. Where necessary, adjustments are made to the previous year amounts to reflect changes in organizational or program structure including changes in Ministerial responsibility, to provide a more relevant basis for comparison.

In general, the individual program presentation is made up of four sections, as explained below. Where a section is not appropriate to a particular program, it does not appear in the presentation for that program.

Introduction to Part II

Objectives

This section provides a statement of the Objectives of each program.

Business Line Description

This section serves to explain the program by describing the work done in each business line as it contributes to the achievement of the program objectives.

The Program by Business Line Table

This table shows the total financial resources proposed for the program. The amounts of Voted and Statutory authorities are combined and distributed across the business lines of each program. Expenditures for each business line are presented under the headings of Operating, Capital, Transfer Payments (Grants and Contributions), and Loans, Investments and Advances. Revenues credited to the Vote, for those departments and agencies authorized to do so, and revenues associated with Revolving Funds are also included in this table.

Receipts credited to general non-tax revenue and services provided without charge by other government departments are shown in the **Report on Plans and Priorities**.

Transfer Payments

This table provides additional detail on the transfer payments proposed for the program. A transfer payment is a grant, contribution or other payment made for the purpose of furthering program objectives but for which no goods or services are received.

Grants, contributions and other transfer payments differ in several respects:

- i) contributions are conditional payments and subject to audit whereas grants are not;
- ii) contributions require an arrangement between the recipient and the donor identifying the terms and conditions governing their payment while grants do not;
- iii) other transfer payments are payments based on legislation or an arrangement which normally includes a formula or schedule of payments as one element used to determine the annual amount; and
- iv) the wording used in the Estimates to describe a grant has a legislative character, while that used for contributions and other transfer payments is informational.

Revolving Funds

A Revolving Fund is a continuing or non-lapsing authorization by Parliament to make payments out of the Consolidated Revenue Fund up to a stipulated limit. As part of this authorization, expenditure requirements are offset, to the extent possible, by revenues generated.

Revolving Funds may be used to finance programs, business lines within programs or parts of business lines. The Program by Business Line table(s) have appropriate footnotes which disclose the expected operating income or loss, relate that balance to the Estimates' cash requirement and make reference to the **Report on Plans and Priorities** for further information.

Introduction to Part II

Crown Corporations

The general principle followed in **Part II** of the Estimates is to provide information related to operations being funded through appropriations, rather than on the corporate financial plan in its entirety. The Summaries of corporate plans and budgets, tabled separately, are intended to be the source of more detailed information for the use of parliamentarians in their review of Crown corporations' spending.

All Crown corporations for which appropriations are being requested have a separate presentation consisting of three standard sections:

- (a) *Objective* – This section describes the objective of the Crown corporation.
- (b) *Description of Funding through Appropriations* – This section outlines the major businesses and business lines for which funding through appropriations is needed. The section also describes major categories of expenses.
- (c) *Summary of Funding through Appropriations* – This table provides details of financial requirements to be met through appropriations. Formats may vary according to the circumstances of individual corporations and the form of disclosure adopted in their summaries of corporate plans and budgets and their annual financial statements. The presentation separates and identifies:
 - i) budgetary and non-budgetary funding according to the major business and business lines of the corporation;
 - ii) the amount of budgetary funding required for operating purposes, acquisition of fixed assets and other non-current assets; and
 - iii) the planned expenses, revenues and non-cash or other adjustments upon which the funding required for operating purposes is based.

Standard Object of Expenditure

To determine and report more accurately the impact of government revenues and expenditures on the rest of the economy, the net amount of government purchases and sales by standard object must be determined. All departments, including those that use revolving funds, must charge their expenditures for purchases from outside the government to standard objects 01 to 12. Standard objects are the highest levels of object classification used for Parliamentary and executive purposes, and are reported in the Estimates and the Public Accounts.

Budgetary estimates are distributed across the following Standard Objects of Expenditure:

1. Personnel
2. Transportation and Communications
3. Information
4. Professional and Special Services
5. Rentals
6. Purchased Repair and Maintenance
7. Utilities, Materials and Supplies
8. Acquisition of Land, Buildings, and Works
9. Acquisition of Machinery and Equipment
10. Transfer Payments
11. Public Debt Charges
12. Other Subsidies and Payments

Information is also provided on Revenues credited to the vote. (In certain specific situations, Parliament authorizes departments or agencies to spend revenues generated from their operations in the same manner as any funds appropriated

Introduction to Part II

through that Vote. These amounts offset planned expenditures shown in Standard Objects 1 through 12, which are shown on a gross basis).

Changes in the government's financial information systems are bringing about changes in the content of the various Standard Objects. These changes took effect in a limited number of departments in 1999-2000, but are much more widespread this year. The main thrust of the change is in Standard Objects 8 and 9 in which reference to "construction" has been deleted.

A brief explanation of each Standard Object follows:

1. *Personnel*

Includes salaries and wages, overtime, severance pay, retroactive pay and other special pay of civilian continuing (full-time) or term (part-time, seasonal and casual) employees except those of agency and proprietary Crown Corporations, as well as members of the military and the RCMP. Also included are judges' salaries, those of the Governor General, the Lieutenant-Governors and the indemnities to Members of both Houses of Parliament, and all types of allowances paid to or in respect of continuing and term employees, such as Living, Terminable, Foreign Service, Isolated Post, and board and subsistence allowances, shift differential allowances for assistants, and other such allowances. In addition, it includes Ministers' Motor Car Allowances, and the Expense Allowances to Senators and Members of the House of Commons.

Also included in this group are the government's contribution to various employee benefit plans (the Public Service Superannuation Account, the Supplementary Retirement Benefits Account, the Canada Pension Plan Account, the Quebec Pension Plan, the Public Service Death Benefit Account and the Employment Insurance Account), the Royal Canadian Mounted Police Superannuation Account, the Canadian Forces Superannuation Account and the Members of Parliament Retiring Allowances Account; and Government's contribution to provincial and other medical and hospital insurance plans. Also includes supplementary personnel costs for various purposes.

2. *Transportation and Communications*

Includes travelling and transportation expenses of government employees, Members of the Defence Forces and the Royal Canadian Mounted Police, removal expenses of those persons and their dependents, and living and other expenses of such persons on travel status; judges' travelling expenses, and travelling expenses and allowances payable to Senators and Members of the House of Commons. Also includes transportation of persons by contract and chartered facilities or by other means, including travelling expenses of persons engaged in field survey work, inspections and investigations. Also includes travelling and transportation of non-Government employees such as travel costs of veterans who are applicants for treatment or pensions.

Includes ordinary postage, airmail, registered mail, parcel post special delivery mail, post office box rentals, and any other postal charges. Also includes the expenditures for transportation of goods other than initial delivery cost on a purchase (which is included in the Standard Object covering the cost of the purchase itself) including charges for courier services provided by outside carriers. Includes all costs of telecommunication services by telephone, telegram, cable, teletype, radio and wireless communication (tolls, rates, etc.) and other communication costs such as courier services provided by outside agencies and communication services performed under contract or agreement.

Introduction to Part II

3. *Information*

This Standard Object contains three main categories of expenditures.

Advertising services

Includes advertising services acquired for publicity and general purposes from advertising agencies or directly for time on broadcast media or for space in print media or on outdoor posters or billboards. It includes advertising and creative work services such as graphic artwork.

Publishing, printing and exposition services

Includes publishing services for commissioning, marketing, distribution and sales of publications sponsored by the department, and for the acquisition of related government publications. Also included are services for printing, duplicating, photocopying, text editing, design of graphics, art work, technical and advisory services such as computerized text processing and mass transmission of printed material. In addition, it includes exposition services such as exhibits and associated audio-visual services related to exhibitions and displays.

Public Relations and Public Affairs Services

Includes services for attitude surveys, sales promotion, marketing, export marketing, public relations and publicity. Also includes services for speech writing, press releases, briefing, press conferences and special events. Public Affairs Services for attitude surveys, opinion polls, service assessment survey, contracts to organize and operate focus groups and media monitoring services are also included here.

4. *Professional and Special Services*

Includes provision for all professional services performed by individuals or organizations such as payments in the nature of fees, commissions etc. for the services of accountants, lawyers, architects, engineers, scientific analysts, reporters, and translators; for teachers at various levels of educational institutions; for doctors, nurses and other medical personnel; for management, data processing and other research consultants; and for other outside technical, professional and other expert assistance.

Includes payments for hospital treatment, care of veterans and welfare services, payments for the provision of services at computer service bureaux, payment of tuition for Indians at non-federal schools, purchase of training services under the Adult Occupational Training Act, and payments made to the Public Service Commission for training.

Includes payments for Corps of Commissionaires services and for other operational and maintenance services performed under contracts, such as armoured cars, laundry and dry cleaning, cleaning of buildings, temporary help, hospitality, storage and warehousing, and other business services, as well as payments made to PWGSC for contract administration.

5. *Rentals*

Includes provision for rentals of all kinds: rental of properties required for special purposes by the various departments and for the accommodation of government offices and services by the Department of Public Works and Government Services; hire and charter – with or without crew – of vessels, aircraft, motor vehicles and other equipment; and rental of telecommunication and office equipment including computers. Storage and warehousing services is however in Standard Object 4 even though it involves the rental of space.

Introduction to Part II

6. *Purchased Repair and Maintenance*

Provision is made in this Standard Object for the repair and upkeep under contract of the durable physical assets provided for in Standard Object 8 and of equipment provided for in Standard Object 9. Also included in this object are payments to the Department of Public Works and Government Services for tenant services. Materials, supplies and other charges entering into the cost of such repairs undertaken by a department directly are coded to other objects, according to the nature of the purchase.

7. *Utilities, Materials and Supplies*

Included here is the provision for all payments for services of a type normally provided by a municipality, or public utility service such as the supply of water, electricity, gas, etc., and includes water, light, power and gas services, and payment for such services whether obtained from the municipality or elsewhere.

It also includes provision for materials and supplies required for normal operation and maintenance of government services such as gasoline and oil purchased in bulk; fuel for ships, planes, transport, heating, etc.; feed for livestock; food and other supplies for ships and other establishments; livestock purchased for ultimate consumption or resale; seed for farming operations; books and other publications purchased for outside distribution; uniforms and kits; photographs, maps and charts purchased for administrative and operational purposes; laboratory and scientific supplies, including samples for testing; drafting, blueprinting and artists' supplies; supplies for surveys, investigations, etc.; chemicals; hospital, surgical and medical supplies; works of art for exhibits, and historical material for galleries, museums and archives; char service supplies; coal and wood; electrical supplies; repair parts other than parts normally acquired with equipment at the time of purchase for aircraft, ships, road vehicles, and for communication and other equipment; and all other materials and supplies.

Machinery and equipment, and attachments and accessories for such machinery costing less than \$1,000, which were formerly included here, are now included in Standard Object 9.

8. *Acquisition of Land, Buildings, and Works*

Includes provision for all expenditures for the acquisition of buildings, roads, irrigation works, canals, airports, wharves, bridges and other such types of fixed assets; improvements involving additions or changes of a structural nature, and for installing fixed equipment which is essentially a part of the work or structure such as elevators, heating and ventilating equipment, etc. It includes all reconstruction of such types of physical assets and such projects performed under contract or agreement. The purchase of land is also included. Expenditures pursuant to contracts for new construction for casual employees hired or continuing employees assigned to work full or part time on specified projects, travel, professional services, equipment rentals, equipment maintenance and of materials purchased directly for use on such projects are charged to the relevant Standard Objects (Standard Object 1 to 9).

9. *Acquisition of Machinery and Equipment*

Includes expenditures for the acquisition of all machinery, equipment, office furniture and furnishings, EDP and electronic or other office equipment; microfilming equipment and supplies, inter-office communication equipment, postal meter machines, machine records and all other office equipment; motor vehicles, aeroplanes, tractors, road equipment, telecommunications and related equipment, laboratory and other scientific equipment, vessels, icebreakers and other aids to navigation and all other types of light and heavy equipment; includes ammunition and various types of equipment for National Defence, such as ships, aircraft, mechanical equipment, fighting vehicles, weapons, engines and such spare parts and supplies as are normally acquired with that equipment at the time of purchase.

Machinery and equipment, and attachments and accessories for such machinery, regardless of their cost, are included here. Those costing less than \$1,000 are no longer included in Standard Object 7.

Introduction to Part II

10. *Transfer Payments*

Transfer payments comprise grants, contributions, subsidies and all other transfer payments made by government for which no goods or services are received.

This category includes the major social assistance payments made to persons such as Old Age Security benefits and related allowances, Veterans' pensions and allowances; subsidies and payments to the provinces and territories under the Constitution Acts, the Federal-Provincial Fiscal Arrangements Act, the Canada Health and Social Transfer and for official languages; payments to Indians and Inuit in support of self-government initiatives, health, educational, social and community development programming and in respect of native claims; payments to the territorial governments pursuant to financing agreements entered into between the Minister of Finance and the respective territorial Minister of Finance; subsidies and capital assistance to industry; research grants and other assistance towards research carried on by non-governmental organizations; scholarships; sustaining grants to many national and international non-profit organizations; contributions to international organizations and assessments for membership in such organizations, such as the contribution to the International Food Aid Program and Canada's assessment for membership in the UN.

Most of the payments in this Object are identified in the Estimates Details as "Grants" or "Contributions". The former are not subject to audit and are therefore restricted by Parliament as to amount and recipient and often as to purpose; the latter are conditional and subject to audit and are not so restricted.

11. *Public Debt Charges*

Includes interest on the unmatured debt of Canada (including Treasury Bills) and on other liabilities such as trust and other special funds. It also includes cost of issuing new loans, amortization of bond discount, premiums and commissions, and the costs of servicing the Public Debt.

12. *Other Subsidies and Payments*

Includes payments to Crown and some other government corporations or organizations, and to certain non-budgetary accounts, as well as the write-offs of various types of losses, the annual adjustment of reserves for financial claims and some other miscellaneous items referred to as "Sundries". Payments made to Crown corporations include those made to provide for operating deficits as well as other transfers paid to Crown corporations; payments to other government controlled corporations or organizations include those made to entities such as the National Arts Centre. Payments made to non-budgetary accounts include the government contributions to agricultural commodities stabilization accounts as well as benefits under the *Veterans Land Act*.

Miscellaneous expenditures includes licences, permits and payments for dockage, towage, wharfage and mooring privileges; bonding of government employees, loss of personal effects, and expenditures for small miscellaneous articles and services. Also included are many small items and services that do not lend themselves to identification under specific headings detailed in this summary.

Revenues Credited to the Vote

Revenues that are credited to the Vote in accordance with Parliamentary authority include a combination of revenues from external and internal sources. Revenues from external sources include: rentals received on government-owned buildings and equipment; receipts from the provision of police services to other levels of government; receipts of revolving funds as a result of transactions with parties outside the government; as well as recoveries of costs from provincial governments and other national governments. Revenues from internal sources include recoveries of costs of goods or services provided by one organization to another and the proceeds of sales by revolving funds to parties internal to government.

Changes in 2000-2001 Main Estimates

The purpose of this section is two-fold. As in previous years, it will describe changes in Vote, Program and other presentations in order to permit the reconciliation of the 2000–2001 Main Estimates with the 1999–2000 Main Estimates. In addition, this section will detail those Votes that contain specific authority that differs from that included in the previous year's Main Estimates as well as new expenditure authorities appearing for the first time. In light of the House of Commons Speaker's rulings in 1981, the government has made a commitment that the only legislation that will be amended through the Estimates process, other than cases specifically authorized by Statute, will be previous Appropriation Acts.

Changes to Government Organization and Structure:

Agriculture and Agri-Food – *Canadian Grain Commission* – Formerly part of the department, the Commission is now appearing in Main Estimates as a separate entity for the first time. Its objective is “A grain quality assurance system that enhances grain marketing in the interest of producers.”

National Revenue - With the passage of Bill C-29, the Department was renamed *Canada Customs and Revenue Agency*. Minister's title as “Minister of National Revenue” will remain unchanged.

Changes in Authorities (Votes):

Agriculture and Agri-Food – *Department* – Three new statutory votes have been added as follows: “Payments in connection with the *Farm Income Protection Act* - Transition Programs for Red Meats”, “Payments in connection with the *Farm Income Protection Act* - Agri-Food Innovation Program” and “Payments in connection with the *Farm Income Protection Act* - Canada/Nova Scotia Apple Industry Development Fund”. A new budgetary vote has been added as follows: “Pursuant to Section 29 of the *Financial Administration Act*, to authorize the Minister of Agriculture and Agri-Food Canada, on behalf of Her Majesty in Right of Canada, in accordance with terms and conditions approved by the Minister of Finance, to guarantee payments of an amount not exceeding, at any one time, in aggregate the sum of \$1,700,000,000 payable in respect of cash advances provided by producer organizations, the Canadian Wheat Board and other lenders under the Spring Credit Advance Program for 2000-2001.”

Agriculture and Agri-Food – *Canadian Grain Commission* – Given its status as a new agency, the Commission also has its own Program Expenditure vote.

Canada Customs and Revenue Agency – One new statutory vote has been added as follows: “Spending of revenues received through the conduct of its operations pursuant to Section 60 of the *Canada Customs and Revenue Agency Act*.”

Canadian Heritage – *Department* – There is no requirement for a vote for “Payments to the Canada Post Corporation” in the 2000-2001 Main Estimates.

Environment – *Department* – The vote wording for Vote 1(f) is changed to read “pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend in the current fiscal year revenues received during the fiscal year arising from the operations of the department funded from this Vote”.

Finance – *Department* – In the “Economic, Social and Financial Policies Program” there is no requirement for a vote for “Loan to the Bank of Thailand” in the 2000-2001 Main Estimates. Vote L15 for “Payments... to the European Bank for Reconstruction and Development” is no longer required. The statutory vote “Issuance ... Enhanced Structural Adjustment Facility” has been revised to read “Issuance ... Poverty Reduction and Growth Facility.” Three new statutory votes have been added as follows: “Payments to International Monetary Fund's Poverty Reduction and Growth Facility”, “Issuance of demand notes ... to the European Bank for Reconstruction and Development for supplementary subscriptions of shares (non-budgetary)”, and “Issuance of demand notes ... to the European Bank for Reconstruction and Development for supplementary subscriptions of shares and Payments to the European Bank for Reconstruction and Development - Capital Subscriptions (non-budgetary)”.

Changes in 2000–2001 Main Estimates

Foreign Affairs and International Trade – Canadian International Development Agency – The level of capital expenditures for this organization has fallen below the threshold level of five million dollars; therefore there is no requirement for a separate capital vote in the 2000–2001 Main Estimates.

The vote wording for L30 is changed to read “The issuance and payment of non-interest bearing, non-negotiable demand notes in an amount not to exceed \$136,000,000 in accordance with the *International Development (Financial Institutions) Assistance Act* for the purpose of contributions to the International Financial Institution Fund Accounts”.

The vote wording for L35 is changed to read “The Issuance and payment of non-interest bearing, non-negotiable demand notes in an amount not to exceed US\$11,178,000 in accordance with the *International Development (Financial Institutions) Assistance Act*, for the purpose of capital subscriptions in International Financial Institutions.

Human Resources Development – Department – The level of qualifying capital expenditures for this organization has fallen below the threshold level of five million dollars; therefore there is no requirement for a separate capital vote in the 2000–2001 Main Estimates. One new statutory vote has been added as follows: “Payments to private collection agencies pursuant to Section 17.1 of the *Financial Administration Act*.” As a result of program rationalization, the department has consolidated its four program into a new Human Resources Development Program with a revised business line structure with a corresponding change in the number of votes.

Indian Affairs and Northern Development – Department – The vote wording for the operating vote for the “Northern Affairs Program” is changed to read “... on behalf of the northern governments; authority...” In addition, the loan votes “Loans to the Yukon Elders” and “Loans to First Nations in British Columbia for the purpose of supporting their participation in the British Columbia Treaty Commission process” have been deleted since there is no funding requirement in the 2000-2001 Main Estimates.

Industry – Department – A new statutory vote has been added as follows: “Liabilities under the *Canada Small Business Financing Act*”.

Industry – Atlantic Canada Opportunities Agency – A new statutory vote has been added as follows: “Liabilities under the *Canada Small Business Financing Act*”.

Industry – Economic Development Agency of Canada for the Regions of Quebec – A new statutory vote has been added as follows: “Liabilities under the *Canada Small Business Financing Act*”.

Industry – Western Economic Diversification – A new statutory vote has been added as follows: “Liabilities under the *Canada Small Business Financing Act*”.

Justice – Commissioner for Federal Judicial Affairs – The vote wording for the operating vote is changed to read “... the Northwest Territories and the Nunavut Court of Justice...”

National Defence – The amount of commitment authority for National Defence Votes 1, 5 and 10 has been decreased from \$17,704,999,117 to \$16,158,840,000 of which \$5,851,000,000 will come due in future years. Vote wording for the statutory item “Military pensions” has been changed to “Pensions and other employee benefits – Members of the Military”.

Natural Resources – Department – There is no requirement for a vote for “Nova Scotia Fiscal Equalization Offset Payments”.

Natural Resources – Cape Breton Development Corporation – A new vote has been added as follows: “Payment to the Cape Breton Development Corporation for operating and capital expenditures”

Changes in 2000-2001 Main Estimates

Public Works and Government Services – Department – There is no requirement for a vote for “Payments to Old Port of Montreal” in the 2000-2001 Main Estimates.

Public Works and Government Services – Canada Information Office – Vote 20 is changed to read “Program Expenditures, the grants listed in the Estimates, and contributions”.

Treasury Board – Secretariat – The vote wording for Vote 10, the Government-wide Initiatives vote has been modified by the addition of the phrase “Service Canada Initiative”.

The vote wording for Vote 15, the Collective Agreements vote is changed to read “Subject to the approval of the Treasury Board, to supplement other appropriations, that may need to be partially or fully funded, as a result of adjustments made prior to February 1, 2000 to terms and conditions of service or employment of the public service”.

The vote wording for Vote 20, the Public Service Insurance vote is changed to read “The grants listed in the Estimates and payments, in respect of insurance, pension or benefit programs or other arrangements, or in respect of the administration of such programs, or arrangements, including premiums, contributions, benefits, fees and other expenditures, made in respect of the public service or any part thereof and for such other persons, as Treasury Board determines and authority to expend any revenues or other amounts received in respect of such programs or arrangements to offset any such expenditures in respect of such programs or arrangements and to provide for the return of certain employees of their share of the premium reduction under subsection 96(3) of the *Employment Insurance Act*.”

Changes in Presentation (Program Structure, Objectives, Business Line Descriptions):

Agriculture and Agri-Food – Canadian Dairy Commission – A change has been made to the Description of Funding through Appropriations to remove reference to the “Animal Feed Assistance Program”.

Canadian Heritage – National Gallery of Canada – Significant changes have been made to the program structure by replacing the current four business lines with seven new business lines entitled “Collections and Research”, “Public Affairs”, “Outreach”, “Development”, “Exhibitions and Collections Management”, “Facilities” and “Administration”.

Canadian Heritage – Parks Canada Agency – The objective statement has been rewritten as follows: “To protect and present nationally significant examples of Canada's natural and cultural heritage, and foster public understanding, appreciation and enjoyment in ways that ensure their ecological and commemorative integrity for present and future generations”.

Finance – Department – The Business Line Description for “Domestic Coinage” has been changed to read “Payment of the production costs for domestic circulating coinage.”

Health – Hazardous Materials Information Review Commission – Significant changes have been made to the program structure by replacing the current business line with three new business lines entitled “Material Safety Data Sheet Compliance”, “Client Services” and “Dispute Resolution.”

Human Resources Development – Department – As a result of program rationalization, the department has consolidated its four program into a new Human Resources Development Program with a revised business line structure.

Industry – Canadian Space Agency – Significant changes have been made to the program structure by replacing the current three business lines with one new business line entitled “Space Knowledge, Applications and Industry Development”.

Changes in 2000–2001 Main Estimates

Industry – Copyright Board – Minor changes have been made in the wording of the business line description in order to enhance clarity and understanding.

Natural Resources – Atomic Energy Control Board – The Board has made significant changes to its program structure by deleting its program objective and replacing the current business line with two new business lines entitled “Health, Safety, Security and Environmental Protection” and “Non-Proliferation and Safeguards”.

Natural Resources – Atomic Energy of Canada Ltd – Minor changes have been made to the Description of Funding through Appropriations in order to enhance clarity and understanding.

Parliament – Library of Parliament – The objective statement has been rewritten as follows: “To provide Parliament in timely fashion with comprehensive and reliable information, documentation, research and analysis while maintaining extensive and pertinent collections to support the functions of legislation and representation; and to distribute information about Canada’s Parliament to the public.” Significant changes have been made to the program structure by replacing the current three business lines with five new business lines entitled “Services to Parliamentarians”, “Services to Authorized Clients”, “Provide Collections to Parliament”, “Services to the Public” and “Infrastructure Services.”

Privy Council – Department – Major changes have been made in the wording of the business line description for “Commissions of Inquiry and Task Forces” in order to enhance clarity and understanding.

Privy Council – The Leadership Network – Minor changes have been made in the wording of the business line description in order to enhance clarity and understanding.

Public Works and Government Services – Department – The objective statement for the “Government Services Program” has been significantly modified. The business line “Information Management/Information Technology (IM/IT)” has been renamed “Government Telecommunications and Informatics Services” and completely changed. Also, significant changes have been made in the wording of the various business line descriptions in order to enhance clarity and understanding, particularly to “Consulting and Audit Canada” and “Communications Co-ordination Services”.

Public Works and Government Services – Canada Post Corporation – The description of the business line “Payments to Public Policy Programs” has been modified as follows: “... and transitional support for the implementation of the Canada Post Corporation Pension Plan(s)”.

Treasury Board – Secretariat – Significant changes have been made to the program structure by replacing the current three programs with one new program entitled “Management Board Program”. This new program will have six business lines as follows: “Expenditure Management and Planning”, “Comptrollership”, “Service and Innovation”, “Information Management and Information Technology”, “Human Resources Management” and “TBS Corporate Administration”.

Agriculture and Agri-Food Department

Objectives

Our objective is to promote and support, in a sustainable manner, a growing, competitive, market-oriented agriculture and agri-food industry and to promote rural community economic development.

Business Line Descriptions

Expanding Markets

Through the Expanding Markets business line, Agriculture and Agri-Food Canada promotes market access, market development and investment. This business line brings together activities from the Department and the Portfolio agencies and contributes actively to “Team Canada Inc” – Canada’s international business development network which assists Canadian companies in selling their products and services around the world and promotes investment in Canada. Expanding Markets focuses on improving and securing market access to enable sector clients to capture opportunities for increased trade, particularly in processed agricultural products, in both domestic and international markets. It focuses also on creating new market opportunities, ensuring improved market responsiveness in the Canadian agriculture and agri-food sector, and assisting the industry in attracting new investment by setting the stage for an improved climate for investment in the sector which will improve our capacity to produce world-competitive products.

Innovating for a Sustainable Future

The Innovating for a Sustainable Future business line includes the research and development and technology transfer activities of Agriculture and Agri-Food Canada. This business line contributes actively to reducing the costs of producing and processing agricultural and agri-food products, to improving the quality and safety of those products, and to developing and promoting production and processing practices which are safe and environmentally sustainable. The business line also includes direct participation in programs for the conservation and management of agricultural resources. A major focus is the promotion of a better understanding of the environmental issues affecting the sector and the development of appropriate policies and programs in support of long-term environmental sustainability. This business line pursues its objectives through Research Branch’s extensive network of research centres and facilities, working in partnerships with the Prairie Farm Rehabilitation Administration (PFRA), Policy Branch - Environment Bureau, the provinces, universities, agriculture sector communities, and the private sector.

Strong Foundation for the Sector and Rural Communities

This business line includes departmental activities which enhance the agriculture and agri-food sector’s economic viability and self-reliance and promote the economic development of rural communities. These activities include national safety net programs for the management of production and market risks, initiatives to help the sector adapt to an evolving business climate, regulatory and framework policies particularly in relation to the grains and supply-managed sectors, the promotion of the co-operative sector and infrastructure development in the Prairies. This business line also includes initiatives which ensure that federal programs, benefits and services are equally accessible in rural areas as in other areas.

Agriculture and Agri-Food Department

Sound Departmental Management

This business line provides the corporate policies and infrastructure needed to ensure Agriculture and Agri-Food Canada is fulfilling its mandate to Canadians in the most effective and efficient manner possible, including a constructive working environment for employees. Management activities such as Human Resources, Finance and Administration, Communications and Review are reflected under this business line, but it is the business of all employees to strengthen Agriculture and Agri-Food Canada's ability to achieve results on behalf of the agriculture and agri-food sector and Canadian taxpayers.

Agriculture and Agri-Food Canadian Dairy Commission

Objectives

To provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers with a continuous and adequate supply of dairy products of high quality.

Description of Funding Through Appropriations

Administration and Operations

The Canadian Dairy Commission has the authority to purchase, store, process and dispose of dairy products; to make payments to milk and cream producers for the purpose of stabilizing the price of industrial milk and cream; to investigate matters relating to the production, processing or marketing of any dairy product; to help promote the use of dairy products; and to receive funds for the administration and management of its programs. The Canadian Dairy Commission calculates support prices at which it will purchase butter and skim milk powder. These prices are used as a reference at the provincial level in pricing components sold to processors. The Commission works in close cooperation with the provinces through its chairmanship and technical support of the Canadian Milk Supply Management Committee, a government/industry body which coordinates the supply management of industrial milk and cream on a national basis.

The Commission's marketing and administrative costs are funded by the Government of Canada, producers and the marketplace.

The Commission administers the federal government's monthly subsidy payment to eligible producers. On behalf of the industry, the Commission exports mainly butter, evaporated milk and milk powders on a government to government basis and assists in the administration of marketing programs such as the Domestic Dairy Product Innovation Program, and the Optional Export Program. The Commission is also responsible for the expenses of the Commissioners and of a support staff of seventy employees needed to manage its activities on behalf of the dairy sector.

On behalf of producers, the Commission administers the Class 5 Milk Permit and Pooling System.

Agriculture and Agri-Food Canadian Food Inspection Agency

Objectives

To enhance the effectiveness and efficiency of the federal inspection and related services for food and animal and plant health.

Business Line Descriptions

Safe Food, Market Access and Consumer Protection

The Canadian Food Inspection Agency provides inspection and related services, such as inspection policy, assessment, evaluation and verification, research and standard setting, investigations of economic fraud, trade facilitation, registration and certification, and compliance and enforcement. The focus of these services is to verify that food products for domestic and foreign consumption meet domestic or export safety, quality, handling, identity, process and labeling standards, or contribute to the protection of Canada's animal and plant resource base from the introduction or spread of pests and diseases of economic and human health related significance.

Agriculture and Agri-Food Canadian Grain Commission

Objectives

A grain quality assurance system that enhances grain marketing in the interest of producers.

Business Line Descriptions

Canadian Grain Commission

The CGC has one business line and primary objective: a grain quality assurance system that enhances grain marketing in the interest of producers.

The CGC's programs and functions aim to:

- result in shipments of grain that consistently meet contract specifications for quality and quantity, are safe and meet tolerances for toxic contaminants, to enhance grain marketing
- provide a better understanding of the grain qualities required by end users, and how these qualities can be measured; to adapt to new technologies and changing markets
- maintain grain quality as it moves through the marketing channels; ensure fair treatment of grain producers; and ensure the integrity of grain transactions
- meet the needs of producers and other members of the grain industry in the most efficient and effective manner possible.

Parliament has previously authorized a total drawdown of \$12,000,000 for the Canadian Grain Commission Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2000	12,000
Plus:	
2000-2001 Main Estimates	252
Anticipated unused authority as of March 31, 2001	12,252

In addition, approximately \$6 million of the Commission's costs has been funded by Parliamentary appropriation.

Canada Customs and Revenue Agency

Objectives

To ensure the fair and timely assessment, collection and, where appropriate, refund of all taxes, duties, and other relevant charges and levies; to enhance the competitiveness of Canadian business through the administration of a wide variety of the Government's trade policy instruments and the facilitation of trade, international commerce and tourism; to enforce Canadian laws and sovereignty at the border, and protect Canadian business, individuals and society generally from inadmissible or dangerous goods and people; and to support the social and economic programs and goals of the Government such as competitiveness through fair and equitable administration of legislation, international treaties and agreements and other federal and provincial statutes and regulations.

Business Line Descriptions

Assistance to Clients and Assessment of Returns

To communicate to clients their rights and obligations; to provide them with the necessary forms and information for filing returns accurately and on time; to respond to their enquiries; to process and assess their returns; to advise them of results through the issuance of notices of assessment; to process their payments; to update their accounts for all assessments and remittances; and to conduct a limited verification of selected returns after assessment; and in doing so, to develop and maintain a registry of clients. Also included are an advisory function to other government departments and agencies with respect to the administrative feasibility of new legislation and treaties under negotiation; activities related to the registration of charities, pension and deferred income plans; and the provision of advance rulings on the tax implications of potential transactions.

This business line responds to the federal government's thrust toward reform of social policy through the administration of socio-economic payments made to low and modest income individuals and families, in the form of the Child Tax Benefit, Children's Special Allowances, Goods and Services Tax Credit, British Columbia Family Benefit and other provincial benefit payments.

Customs and Trade Administration

To enforce Canadian laws and sovereignty at the border and deliver customs border and trade services designed to advance and support the government's foreign policy and domestic socio-economic objectives, and thereby protect Canadian industry and society, through control of the movement of people, goods, and conveyances entering or leaving Canada, and through the detection of contraband; to support Canadian industrial competitiveness by ensuring that Canadian business receives the advantages intended by various international agreements and other government trade policy instruments; and to support domestic economic policy, such as industrial development, by administering duty relief measures with respect to certain imported goods which are exempt from the application of the government's trade policies.

Verification and Enforcement

To carry out a range of programs related to the verification and enforcement of compliance with tax legislation administered by the Agency. These programs include a variety of examinations, audits and investigations designed to increase compliance and ensure fairness in the self-assessment system.

Revenue Collections

To collect tax, levies, duties, and other amounts including collections of amounts deducted at source by employers on behalf of employees; and outstanding balances resulting from assessment or reassessment of both income and GST amounts as well as outstanding levies and duties. This business line also issues rulings on whether individuals are entitled to benefits under the *Canada Pension Plan* and *Employment Insurance Act*, and making other determinations at the request of the Department of Human Resources Development.

Canada Customs and Revenue Agency

Appeals

To provide clients with a means of redress, involving the resolution of Notices of Objection and Appeals by an impartial review of an assessment or reassessment contested by a client. Also included is the disposal of applications from employers or employees regarding the determination of eligibility under the provisions of the *Canada Pension Plan* and the *Employment Insurance Act*.

Administration and Information Technology

To provide executive direction and a range of support and central services to the other business lines. These include electronic data processing and information technology, internal audit and program evaluation, financial management, resource management, office systems, security, human resources, training, laboratory and legal services.

Canadian Heritage Department

Objectives

To build a strong society in which Canadians participate, celebrate and give expression to their values and heritage.

Business Line Descriptions

Cultural Development and Heritage

Cultural Development and Heritage helps create an environment in which Canada's heritage is preserved and made accessible, artistic expression can flourish, cultural markets develop thereby ensuring the availability of, and access to, Canadian arts, heritage, broadcasting products and services. This is achieved through a broad mix of activities and programs, instruments and institutions, including international agreements, cultural agencies, Special Operating Agencies, legislation and regulations.

Canadian Identity

Canadians share an identity based on common values and characteristics. Drawing strength from their diversity of languages, cultural heritage, ethnic origins and regional ties, their vision of Canada is one where everyone contributes to build a proud cohesive society.

Canadian Identity fosters knowledge and appreciation of Canadian institutions and achievements, Canadian symbols and the values they represent, the linguistic duality, the multicultural character and the contribution of Aboriginal peoples. It promotes civic participation and voluntarism, social justice, mutual understanding, human rights, the learning of both official languages, excellence in sport and recognition for Canadian athletes, and the commemoration of national events as means of taking part in strengthening and celebrating Canada.

Corporate Management

Corporate Management provides strategic advice, services and products associated with: strategic planning and policy co-ordination; financial management; human resources management; information management; communications and public affairs; corporate reviews; administrative support; and regional program delivery support. In addition, it promotes Canadian Heritage activities through coordination with portfolio agencies, active exchanges with central agencies, other government departments, the provinces, territories and the international community. It also co-ordinates Canada's participation in international expositions.

Canadian Heritage Canadian Broadcasting Corporation

Objectives

To develop and provide a national broadcasting service for all Canadians in both official languages, in television and radio, and be primarily Canadian in content and character.

Description of Funding Through Appropriations

The main business lines of the Corporation in the attainment of its objectives are set out below.

Television and Radio Service Costs

This business line includes all main broadcasting services, whether radio or television, French or English, national, regional, or local. It embraces:

- the planning of individual broadcasts and the broadcast schedules;
- the procurement of programs from other production agencies;
- in-house production of programs;
- services provided on a self-funded or contractual basis such as Radio Canada International, Galaxie, CBC Newsworld and Réseau de l'information;
- operational management services provided at the various production/transmission centres such as program supervision, program research, engineering, human resources, financial and administration services, and local management;
- the sales and marketing effort to sell CBC programs and commercial air time. This includes commissions to sales representatives and costs related to program sales.

Transmission, Distribution and Collection

The distribution of the national broadcasting service to all possible parts of Canada through the Corporation's or privately-owned outlets. The methods of delivery include satellite, microwave and landlines. Included in this business line is the provision of the signal that delivers the service to the individual radio and television receivers through CBC-owned transmitters, payments to privately-owned affiliates carrying CBC programs, and facilities to delay or pre-release broadcasts as required in the different time zones throughout the country.

Corporate Management

Those functions which must be discharged on a corporate basis are included in this business line. These include executive direction; policy and standards formulation; strategic planning and external relations.

Amortization of Capital Assets

This represents the annual amount recorded for the amortization of CBC's capital assets. Amortization is calculated on a straight-line method using rates based on the estimated useful life of the assets.

This is not an item requiring operating funds since the CBC receives separate funding for its capital expenditures. The amortization of capital assets however, is reported separately strictly for accounting purposes as required by generally accepted accounting principles (GAAP). Consequently, this expenditure is included in "items not requiring current operating funds" and is deducted in determining CBC's total operating requirements for the year, on a government funding basis.

Revenues

Comprised of advertising revenue, program sales, miscellaneous revenue and revenue from Specialty Services (CBC Newsworld, Le Réseau de l'information, Radio Canada International and Galaxie).

Capital Activities

Represents capital expenditures for the replacement of obsolete and worn-out equipment; to make essential improvements to existing plant and equipment to maintain efficient operations; and for other investments which serve to reduce operating costs.

Canadian Heritage Canadian Radio-television and Telecommunications Commission

Objectives

To regulate and supervise all aspects of the Canadian broadcasting system with a view to implementing the broadcasting policy set out in the *Broadcasting Act*; and to regulate telecommunications in Canada with a view to implementing the policy set out in the *Telecommunications Act*.

Business Line Descriptions

Canada's Voices

Canada's Voices' business line ensures diverse Canadian content and that an appropriate mix of foreign programs is made available to consumers. The CRTC creates and develops policies and regulations to ensure the availability of these programs; to encourage the creation and promotion of Canadian content; to ensure appropriate distribution for Canadian and foreign services; to support the distinctive role of public broadcasting; to support, where appropriate self-regulation to respond to social issues, and to develop a comprehensive international strategy.

This business line includes activities related to the provision of specific expertise in the evaluation and development of policy and regulations, by evaluating, analyzing and processing all applications received by the Commission and by monitoring the Canadian broadcasting system and ensuring compliance with statutes, conditions of licence and regulations. This business line includes, for the most part, the Broadcasting Sector, and at this point, some activities in the Telecommunications Sector concerning the analysis of issues related to access and to delivery of content. The lead for this business line is the Executive Director of Broadcasting.

Choices for Canadians

Choices for Canadians' business line ensures a broad range of communications services, and that affordable communications services will be provided to Canadians, through competitive industries. This will be achieved mainly through the establishment of a regulatory and supervisory framework, that will foster competition for the delivery of these services; rely more on market forces to provide fair and sustainable competition; monitor competition and regulate when market forces are not achieving public interest objectives; support convergence where appropriate and effective; foster new and diverse forms of content, packaging and delivery; and balance investment with diversity of choice through Canadian ownership and control policies.

The activities include the provision of specific expertise in the evaluation and development of policy and regulations, by evaluating, analyzing and processing all applications received by the Commission and advising the Commission on all matters related to telecommunications carrier regulations, and to broadcasting distribution. This business line includes the Telecommunications Sector, and in the Broadcasting Sector, some activities related to Broadcasting distribution. The lead for this business line is the Executive Director of Telecommunications.

Canadian Heritage National Film Board

Objectives

To produce audiovisual works that reflect Canadian realities and perspectives while innovating in various aspects of filmmaking, and to distribute and provide access to these audiovisual works.

Business Line Descriptions

National Film Board Operations

The NFB is a cultural agency reporting to the Minister of Canadian Heritage. It is administered by a Board of Trustees appointed by the Governor General in Council and chaired by the Government Film Commissioner.

The NFB is an integrated producer-distributor which develops, writes, shoots, finishes, promotes, markets, sells and distributes film and multimedia products. Its main production and distribution centre is located in Montreal but it also has offices in Halifax, Moncton, Toronto, Winnipeg, Edmonton and Vancouver and maintains offices in Paris, London and New York for the international marketing of its products. To deliver its Program, it uses in-house staff and freelancers and also works with public- and private-sector production and distribution partners when necessary.

Although it is autonomous and traditionally has an arm's length relationship with the government, this public film institution contributes in various ways to Canadian cultural policy objectives by producing socially and culturally relevant films, providing Canadian audiovisual materials for the educational sector, directly supporting various Canadian government initiatives at home and abroad, conserving and promoting access to Canada's rich audiovisual heritage, supporting new filmmaking talent, promoting the development of regional and diversity cinema, forging strategic alliances with the private and public sectors, promoting Canadian culture abroad and encouraging research and experimentation in communication technologies.

Canadian Heritage National Library

Objectives

To enable Canadians to know their country and themselves through their published heritage and to provide an effective gateway to national and international sources of information.

Business Line Descriptions

Canadiana Collections and Access Services

Build and preserve a comprehensive collection of published Canadiana to serve as an information and cultural resource for Canadians both now and in the future; build a bibliographic database to serve as a comprehensive record of Canadian publishing output, to facilitate access to the collection, and to assist libraries, the book trade and other information providers in identifying, acquiring and making available Canadiana materials; provide reference, research and referral services to Canadians and to Canadian libraries based on the Library's Canadiana collection, several collections of wider scope supporting Canadian Studies and staff expertise - all of which ensure a wide range of client services that are integral to the Library's support of the study of Canada; sponsor exhibitions, readings, lectures, concerts and other events in order to provide Canadians with opportunities to explore, understand and appreciate their cultural heritage.

Library Networking

Facilitate public access to information on National Library's holdings as well as the holdings of other libraries in Canada; work with libraries throughout Canada to develop and implement appropriate policies, procedures, standards, products and systems to support resource sharing among libraries; coordinate cooperative library services among the departments and agencies of the federal government and provide strategic policy and professional support for library development and coordination in Canada and at the international level.

Corporate and Branch Administration

Provide support for the Office of the National Librarian, corporate policy and strategic planning, internal audit, program evaluation, information resource management, office systems, corporate communications and branch administration. Administrative services, accommodation services, personnel and financial services operate as a common service for both the National Library and the National Archives of Canada.

Canadian Heritage National Museum of Science and Technology

Objectives

To foster the scientific and technological literacy of Canadians through the preservation and promotion of Canada's scientific and technological heritage.

Description of Funding Through Appropriations

The Corporation comprises two institutions – the National Museum of Science and Technology and the National Aviation Museum. Common Supporting Activities in the areas of personnel, finance, development and facilities management are provided centrally.

The museums are responsible for preserving Canada's scientific and technological heritage and disseminating knowledge of that heritage. Heritage preservation is achieved through the development and management of the Corporation's collection; knowledge dissemination involves the transmittal of information generated through the development of the collection as well as the underlying principles of science and technology and is centred around public programming activities. The activities in support of the primary functions of heritage preservation and knowledge dissemination are guided by the following broad corporate objectives:

Heritage Preservation

- To develop and manage a representative collection of historically and technologically significant artifacts and records which can be used to help Canadians understand how science and technology have transformed their lives, do now and will continue to do so;
- To make the collection both intellectually and physically accessible to a wide audience.

Knowledge Dissemination

- To present to Canadians their scientific and technological heritage so that they will better appreciate the role of science and technology in the building of their nation;
- To illustrate the underlying laws and theories of science and principles of technology, in order to foster a positive attitude towards the sciences.

Canadian Heritage Public Service Commission

Objectives

The corporate level strategic objectives of the Public Service Commission (PSC) are within its legislative mandate to assist in providing Canadians with:

- a highly competent, non-partisan, professional Public Service appointed on the basis of merit;
- a representative Public Service workforce;
- a Public Service which understands and is able to apply democratic, ethical, and professional values;
- a Public Service which builds on its competencies through development and continuous learning;
- the recognition and sustaining of a non-partisan public service as a cornerstone of the governance system; and
- a PSC which is an independent champion and steward of the principles of a professional Public Service, in the public interest.

Business Line Descriptions

Resourcing

The Resourcing business line encompasses activities in support of delegated and non-delegated staffing. These activities are program development, administration of staffing delegation, establishment of tests and standards for selection, administration of staffing priorities, recruitment and promotion, and diversity and employment equity initiatives. The business line also includes resourcing, exchanges and development programs for the Executive Group.

In addition, the business line is responsible for the delivery of the employment equity initiatives and corporate development programs on behalf of Treasury Board.

Learning

The Learning business line is composed of two main service lines: language training and professional development for non-executives.

Language Training assesses the potential for success of employees who are eligible for language training; provides mandatory and discretionary language training in both official languages and related orientation, and language training services. It provides for the development and design of second-language courses and tools to meet the job-related linguistic requirements of departments and a range of advisory, informational and co-ordinating services related to language training.

The PSC provides a range of learning products and services to key communities such as policy analysts, middle-management and supervisors, human resources specialists, comptrollership, communications analysts and others. The emphasis is on corporate learning messages (such as the machinery of government and values and ethics) and on products unique to government learning, not on work specific training which is the responsibility of departments. The PSC provides training services in both official languages to federal public servants across Canada in response to Treasury Board policies and departmental demands.

As the PSC repositions, its focus on learning will shift to a more strategic use of resources, concentrating on the design and development of new learning products and services, which respond to the strategic directions of the Treasury Board Secretariat Advisory Committee (TBSAC), and a second order governance structure, the Learning Advisory Panels for each strategic professional community.

Canadian Heritage Public Service Commission

Parliament has previously authorized a total drawdown of \$4,500,000 for the Staff Development and Training Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2000	6,506
Less:	
2000–2001 Main Estimates – Net Cash Required
Anticipated unused authority as of April 1, 2001	6,506

Recourse

The Recourse business line hears appeals by public servants against alleged breaches of the *Public Service Employment Act* and Regulations on matters such as appointment and promotion. Recourse is also responsible for the investigation of complaints and irregularities in the Resourcing process that are not subject to appeal, for the investigation of complaints of harassment in the workplace and for conciliating settlements where complaints are upheld. Training, advice and assistance are also provided to departments, unions, other organizations, and individuals.

Policy, Research and Outreach

This business line provides the capacity to measure, report, provide advice, and deliver policy in areas within the PSC's mandate. Services related to this business line will be delivered through the Policy, Research and Communications Branch.

This business line will support the medium and long-term positioning of the PSC through: strategic analysis and research, environmental scanning, and liaison with stakeholders, especially on issues related to the PSC's role as independent champion and steward of a professional, non-partisan, and representative public service, and key public administration values.

In support of this role, the business line will also enhance and co-ordinate the knowledge base of the PSC. The activities of the business will supply strategic information to the Commission and ultimately to Parliament (via the PSC's annual report) through the monitoring, assessment and review of PSC programs and policies and through the monitoring of the health of the Public Service in the areas related to the PSC's mandate.

Functions related to outreach, such as reporting to Parliament, the government and its central agency advisors on PSC matters at a strategic level, liaison and information sharing between provincial, federal, and international policy actors in areas related to the mandate and delegated responsibilities of the Public Service Commission, will be carried out through the Policy, Research and Outreach business line.

Corporate Services

The Corporate Services business line includes the activities of the President and Commissioners; management systems and policies; finance, human resources management, informatics, internal audit and internal evaluation and other administrative and support services.

Citizenship and Immigration Department

Objectives

The objectives of the program are to ensure that the movement of people into Canada and membership in Canadian society contribute to Canada's social and economic interests, while protecting the health and safety of Canadians. Citizenship and Immigration policies and programs are to be managed consistently with Canada's domestic needs and capacities, and international commitments and responsibilities.

Business Line Descriptions

Maximizing Benefits of International Migration

The Maximizing Benefits of International Migration business line develops policy and programs for the selection of immigrants and assessment of visitors; recommends to the Minister the target number of immigrants to be admitted to Canada on an annual basis; assesses the qualifications of persons seeking to settle permanently in Canada against the applicable criteria for immigrants; assesses potential foreign students and temporary workers against the applicable criteria; and evaluates the risk to the health of Canadians and the sustainability of the Canadian public health system posed by potential immigrants, visitors, temporary workers and foreign students.

Maintaining Canada's Humanitarian Tradition

The Maintaining Canada's Humanitarian Tradition business line provides international leadership in finding durable solutions to refugee situations, including through voluntary repatriation, local integration, resettlement in another country or through regional approaches to responsibility sharing; develops and implements policies and programs in support of Canada's commitments and protection obligations, both domestically and internationally; selects government and privately-sponsored refugees from abroad in accordance with annual levels tabled in Parliament; provides emergency and essential health care coverage to needy refugee claimants and Convention refugees not eligible for provincial health coverage (Interim Federal Health Program); provides financial assistance to refugees who have been accepted for resettlement through the Immigrant Loans Program and the Resettlement Assistance Program; and assists the Immigration and Refugee Board (IRB) to arrive at well-informed, timely decisions by providing case-related and country-specific information on refugee situations through the establishment of a Memorandum of Understanding between the CIC and the IRB.

Promoting the Integration of Newcomers

The Promoting the Integration of Newcomers business line develops policies and programs which promote integration and citizenship; provides basic assistance to newcomers upon arrival in Canada; ensures that the federal government's responsibilities toward the immigrants it accepts for permanent residence are met; educates potential new Canadians about the rights and responsibilities of Canadian citizenship; promotes the value of Canadian citizenship to newcomers; and administers and interprets the *Citizenship Act*.

Managing Access to Canada

The Managing Access to Canada business line develops policies and programs to prevent abuse of Canada's citizenship, immigration and refugee programs and to protect the safety of Canadians and the security of Canada; contributes to the management of international migration and travel by combatting illegal migration, including trafficking in people, while facilitating the movement of legitimate travellers; admits to Canada persons who comply with the *Immigration Act* and Regulations; denies admission to those who do not comply, including criminals and terrorists; detects abuse of the citizenship, immigration and refugee programs; manages Citizenship and Immigration Canada cases before the IRB, Federal Court and other tribunals; detains persons who pose a serious risk to Canadians or who would not appear for immigration proceedings; and removes persons not legally entitled to remain in Canada.

Citizenship and Immigration Department

Providing Corporate Services

The Providing Corporate Services business line coordinates Citizenship and Immigration Canada's (CIC) planning and review processes; manages the spending and use of public funds; develops and oversees cost recovery/revenue generation activities; provides administrative, financial and personnel services to the department, and functional guidance to Service Line and Program Delivery Directors General; manages, coordinates and maintains the information technology infrastructure to support decision-making and performance measurement, and to improve service delivery; conducts and disseminates research on citizenship and immigration issues; coordinates the development of citizenship and immigration policy and positions the Department within the government's socio-economic agenda; designs and disseminates information about CIC's goals, policies, programs and activities; influences the operating environment of the program to facilitate its success, including by promoting the contribution of newcomers to Canadian society; responds to case inquiries and requests for information; and coordinates the Department's relations with provincial governments, non-governmental organizations, international organizations, and other government departments and agencies.

Citizenship and Immigration

Immigration and Refugee Board of Canada

Objectives

The Board's objective is to meet Canada's immigration and refugee related obligations as defined in the *Immigration Act* and as a signatory to the *1951 United Nations Convention Relating to the Status of Refugees* and the *1967 Protocol to the Convention*. It does this by: determining claims to Convention refugee status made by persons within Canada; hearing appeals of certain persons who have been denied admission to or have been ordered removed from Canada; hearing appeals from Canadian citizens and permanent residents whose family members have been refused permanent resident status in Canada; hearing appeals from the Minister of an adjudicator's decision; conducting inquiries involving persons alleged to be inadmissible to or removable from Canada; and conducting detention reviews for persons detained for immigration reasons.

Business Line Descriptions

Refugee Determination

The Refugee Determination business line fulfils Canada's obligations as a signatory to the *1951 United Nations Convention Relating to the Status of Refugees* to protect those with a well-founded fear of persecution in their own country. It does this by hearing and deciding claims for refugee status made within Canada. Refugee determination at the Immigration and Refugee Board deals exclusively with claims to refugee status made by persons who have arrived in Canada.

Immigration Appeals

The Immigration Appeals business line makes available to persons who have been denied admission to or ordered deported from Canada, as well as to Canadian citizens and permanent residents whose family members have been refused landing in Canada, a quasi-judicial tribunal to which they may appeal. This is done by hearing appeals of refusals of sponsored applications for permanent residence, appeals against removal orders issued against permanent residents, persons found to be Convention refugees or by persons in possession of valid visas and appeals of the Minister of an adjudicator's decision to grant admission or not to order removal.

Inquiries and Detention Reviews

The Inquiries and Detention Reviews business line contributes to ensuring the safety of Canadian society by conducting inquiries on persons seeking admission at a Canadian port of entry believed to be inadmissible or persons in Canada believed to be removable; and by conducting detention reviews for persons who have been detained during the examination, inquiry or removal process.

Corporate Management and Services

The Corporate Management and Services business line provides the Board with efficient management processes and administrative services.

Environment Department

Objectives

The objective of the Environment Program is to make sustainable development a reality in Canada by helping Canadians live and prosper in an environment that needs to be respected, protected and conserved.

Business Line Descriptions

Clean Environment

Canadians are affected by pollutants from many sources and in many different forms. The objective of this Business Line is to protect Canadians from domestic and global sources of pollution. Specifically, Environment Canada, in collaboration with provinces and other partners: identifies threats from pollutants, their sources and means of controlling them through the application of sound science; develops standards, guidelines and codes of practice to ensure adequate levels of protection of environmental quality; identifies and implements appropriate strategies for preventing or reducing pollution; administers and enforces regulations for pollution prevention and control within areas of federal jurisdiction; monitors levels of contaminants in air, water, and soil; represents Canada's interests in the development of international agreements and accords to reduce pollution; and provides advice and tools for preventing pollution and support to the development and deployment of green technologies.

Nature

Canadians depend on ecosystems for providing many valued resources and services, from producing the oxygen that sustains us to providing recreational enjoyment. The objective of this Business Line is to conserve biological diversity in healthy ecosystems. Specifically, Environment Canada, in collaboration with provinces and other partners: develops scientific knowledge and tools needed to understand and respond to the effects of human activities on ecosystems; manages migratory birds and nationally significant migratory bird habitat; develops and implements recovery plans for endangered species; provides leadership on the implementation of the Convention on Biological Diversity; applies an integrated approach to conserving and restoring significant ecosystems, and provides tools to build local capacity to continue this work; represents Canada's interests in international arenas dealing with wildlife, ecosystem health and biodiversity; and provides federal leadership in conserving and protecting Canada's water resources.

Weather and Environmental Predictions

Canadians are affected by environmental conditions on many time and space scales; from minutes to centuries and from cities to continents. The objective of this Business Line is to help Canadians adapt to their environment in ways which safeguard their health and safety, optimize economic activity and enhance environmental quality. Specifically, Environment Canada: monitors the state of the atmosphere (weather, climate, air quality and ultraviolet radiation), hydrosphere (water) and cryosphere (ice and snow); provides information on the past, present and future states of the physical environment; issues warnings of severe weather and environmental hazards; engages in scientific research on the causes of severe weather, the mechanisms which transport chemicals and weather through the atmosphere and around the world, and the impacts of human activity on the atmospheric environment; and provides advice on adaptation to changing weather and climate.

Management, Administration and Policy

Addressing complex and cross-cutting issues requires that the department maintain a strong policy capacity and the ability to deliver efficient and innovative services. The objective of this Business Line is to provide strategic and effective departmental management to achieve environmental results. Specifically, this Business Line provides: departmental leadership; strategic policy advice; socio-economic analysis; coordination of international activities of the department; leadership and coordination in fostering partnerships with industry, non-governmental organizations, Aboriginal peoples, provinces and other government departments; communications and public outreach services; support services to decision making, management and accountability, including planning and financial systems and services, information technology, records and information holdings, human resources, security and the management of assets and accommodations and environmental management systems.

Canadian Environmental Assessment Agency

Objectives

To provide high quality environmental assessments that contribute to informed decision making in support of sustainable development.

Business Line Descriptions

Canadian Environmental Assessment Agency

The Agency is responsible for providing advice and recommendations to decision-makers that reflect public values and the principles of sustainable development. By strengthening partnerships, the Agency also facilitates environmental assessment approaches that are co-ordinated across government, and harmonized with other jurisdictions, including Aboriginal regimes. The Agency is continuously improving the federal environmental assessment process by enhancing its efficiency, effectiveness, predictability, and consistency, all the while maintaining the highest standards of quality. In addition, the Agency provides education and training to federal departments to improve their understanding of, and compliance with, the *Canadian Environmental Assessment Act* and the Cabinet Directive on the assessment of policy and program proposals. Finally, the Agency represents Canada's environmental assessment interests in international forums.

Fisheries and Oceans

Objectives

The objective of the Program is to undertake policies and programs in support of Canada's economic, ecological and scientific interests in the oceans and inland waters; to provide for the conservation, development and sustained economic utilization of Canada's fisheries resources in marine and inland waters for those who derive their livelihood or benefit from these resources; to provide safe, effective, and environmentally sound marine services responsive to the needs of Canadians in a global economy; and to coordinate the policies and programs of the Government of Canada respecting oceans.

Business Line Descriptions

Marine Navigation Services

Marine Navigation Services provides, operates and maintains a system of aids to navigation, provides waterways development and maintenance, and ensures protection of the public right to navigation and protection of the environment.

Marine Communications and Traffic Services

Marine Communications and Traffic Services provides distress and safety communications and coordination, vessel screening to prevent entry of unsafe vessels into Canadian waters, regulation of vessel traffic movements, and management of an integrated system of marine information and public correspondence services. In addition to ensuring safe marine navigation, Marine Communications and Traffic Services (MCTS) supports economic activities by optimizing traffic movements and port efficiency, and by facilitating industry ship/shore communications. All of the functions are derived from a regulatory framework based primarily on the *Canada Shipping Act* and the Safety of Life at Sea Convention.

Icebreaking Operations

Icebreaking Operations are those activities such as icebreaking escort, channel maintenance, flood control, harbour breakouts, and ice routing and information services for marine traffic navigating through or around ice-covered waters, and for the general public. It also coordinates the movement of cargo for the annual resupply of Northern settlements and military sites using contracted commercial carriers.

Rescue, Safety and Environmental Response

Rescue, Safety and Environmental Response (RSER) is composed of the following major program areas: marine search and rescue (SAR); environmental, response and departmental national emergency preparedness; and the promotion of boating safety to the marine public through prevention and regulation.

Fisheries and Oceans Science

Marine ecosystems are monitored and assessed through research vessel surveys, monitoring of fisheries and cooperative programs with fishers. Measurements of ocean parameters such as temperature, salinity, water levels and wave heights come from many sources within and outside the Department. Scientists work in multidisciplinary teams with collaboration of fishers and university based scientists to assess fish stocks in a broader ecosystem and environmental context. Climate-related studies focus on the effects of climatic changes in the ocean on fish species such as cod and salmon and the role of the oceans in the world climate system.

Aquaculture science is focused on making new fish species viable for culture in Canada and improving the efficiency of culture of existing species. The introduction and spread of fish diseases to wild and cultured stocks is combatted through fish health protection regulations requiring certification of fish production facilities before fish may be transported from such facilities into Canada or across provincial boundaries.

Fisheries and Oceans

Habitat Management and Environmental Science

This business line develops and implements policies, plans and programs and administers statutes related to the protection and conservation of aquatic habitats and the environment. It also involves investigating and monitoring chemical and physical conditions which affect the quality of aquatic environments as well as the collection, analysis and interpretation of information to support the sustained economic utilization of Canada's renewable aquatic resources and to assess, approve and monitor activities which affect the quality and quantity of fish habitat.

Hydrography

Hydrographic surveys measure the parameters necessary to describe the precise nature and configuration of the seabed and the floors of inland navigable waters, their geographic relationship to the landmass and the characteristics and dynamics of these waters. Parameters measured include: water depth, bottom type, near surface currents, tides, and water levels. Data collected are published as navigational charts and other publications such as Tide and Current Tables, Sailing Directions, Small Craft Guides, and Water Level Bulletins. Hydrographic information is also used for the determination of the seaward limits of national jurisdiction and the delimitation of maritime boundaries.

Fisheries Management

Fisheries Management is responsible for fisheries management functions in all provinces and territories in Canada, and within and adjacent to Canada's 200-mile fisheries zones. This includes the inland river systems and lakes in all provinces, except where authority for the management of inland fisheries has been delegated to the province or territory. This includes management in Canadian portions of transboundary rivers, shared management of interception fisheries in international waters and management of the Aboriginal, recreational and commercial fishing effort in Canadian coastal waters. Fisheries Management is also responsible for negotiating international arrangements to advance Canada's fisheries conservation interests in cooperation with other Government departments, and the negotiation and administration of international treaties and agreements affecting bilateral and multilateral fisheries relations with other countries.

The objectives of Fisheries Management are complemented through the delivery of capacity-reduction programs such as the Canadian Fisheries Adjustment and Restructuring (CFAR) Plan, the Atlantic Groundfish Strategy (TAGS) and the Northern Cod Adjustment and Recovery Program (NCARP). These special programs address specific needs for a specified period of time.

Harbours

The operation and maintenance of a national system of fishing and recreational harbours involves the construction and upkeep of wave protection structures and boat mooring and launching facilities as well as the dredging of harbour channels and basins to an adequate water depth. Additional activities include the provision and maintenance of service areas and equipment for fish and gear handling and various onshore services. Program management, including engineering and technical services, is provided regionally under national policy direction, with ongoing harbour management and administration, where applicable, provided locally.

Fleet Management

Fleet Management consists of the acquisition, maintenance, and scheduling of the Department's vessel and air fleets in support of the following program areas: Marine Navigation Services; Marine Communications and Traffic Services; Icebreaking Operations; Rescue, Safety and Environmental Response; Fisheries Management; Fisheries and Oceans Science; and Hydrography. The funding to crew and to operate the Fleet is provided by the above program areas. Fleet Management also arranges for any augmentation of fleet capabilities by arranging for other government departments and the private sector to provide additional sea and air support to the programs.

Policy and Internal Services

The responsibilities of Policy and Internal Services include: executive direction of the Program; corporate and regional management; provision of administrative services; coordination of departmental policies, programs; and development and promulgation of the Department's national regulations.

Foreign Affairs and International Trade Department

Objectives

To act for Canada and all Canadians to enhance prosperity, employment and security and work toward a peaceful world by the promotion of Canadian culture and values.

Business Line Descriptions

International Business Development

Create jobs and prosperity in Canada by encouraging Canadian firms to take full advantage of international business opportunities and by facilitating investment and technology flows.

Trade and Economic Policy

Create jobs and prosperity in Canada by effectively managing Canada's trading relationships with the United States and liberalizing trade and capital flows around the world, based on clear and equitable rules.

International Security and Cooperation

A peaceful, law-based international system reflecting Canadian values in which Canada is secure from threats from abroad.

Assistance to Canadians Abroad (Consular Services)

Satisfaction of the needs of individual Canadians travelling or living abroad for official assistance.

Public Diplomacy

Creation of interest and confidence in Canada abroad and an international public environment favourable to Canada's political and economic interests and Canadian values.

Corporate Services

Enable the Department to achieve its mission and objectives through the delivery of cost-effective support services.

Services to Other Government Departments

Enable other government departments to deliver their programs abroad through the delivery of cost-effective support services.

Passport Services

To provide internationally respected travel documents to Canadian citizens and other eligible residents of Canada. Parliament has previously authorized a total drawdown of \$4,000,000 for the Passport Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2000	18,435
Plus:	
2000–2001 Main Estimates – surplus	1,420

Objectives

To facilitate the efforts of the peoples of developing countries and countries in transition to achieve self-sustainable economic and social development in accordance with their needs and environment, by co-operating with them in development activities; and to provide humanitarian assistance thereby contributing to Canada's political and economic interest abroad in promoting social justice, international stability and long-term economic relationships, for the benefit of the global community.

Business Line Descriptions

Geographic Programs

Geographic programs involve direct contacts between the Government of Canada and recipient countries and are developed through consultation and co-operation with partners in these countries. They are the main assistance instrument directly available to the Government to invest, over the long-term, in areas critical to sustainable development. In all, geographic programs account for about one-third of the international assistance budget.

Projects supported through the geographic programs reflect both the needs of developing countries and Canada's ability to meet these needs. These projects, as well as the contracts and contribution agreements required for their delivery, range in value from thousands to tens of millions of dollars and can vary considerably in their approach and subject matter. With few exceptions, geographic programs are delivered in kind directly by Canadian suppliers and executing agents or under recipient country procurement – all within the framework of Canadian tied aid policies (funds allocated for the procurement of goods and services in Canada) and on Canadian content requirements.

Three geographic branches – Africa and the Middle East, Asia and Americas – are responsible for planning and providing Canada's country-to-country Official Development Assistance to eligible recipients. Programming in these regions is based on the ODA purpose statement and the 6 program priorities.

Countries in Transition

The Central and Eastern Europe (CEE) program is highly responsive and designed to assist countries in the region during a critical time of transition. A small share of the assistance provided through this program is considered ODA.

The CEE program transfers knowledge and expertise to countries in the region through human resource development, institution-building, humanitarian and multilateral assistance, as well as policy advice. Initiatives supported by the program are delivered in partnership with the private sector, non-governmental organizations (NGOs), academia, ethnic communities and all levels of Canadian government. These partnerships enable the program to leverage project contributions from Canada and recipient country partners.

Multilateral Programs

Multilateral programs involve Canadian International Development Agency (CIDA) in the work of a very wide range of international organizations and institutions. These include the UN and its agencies – such as UNICEF – the Commonwealth, la Francophonie and the regional development banks for Africa, Asia, Latin America and the Caribbean. Most of CIDA's humanitarian assistance and emergency aide is also provided through the multilateral program.

CIDA's multilateral programming seeks to achieve results in the 6 priority areas in a number of ways. Along with other donor countries, CIDA provides core funding to multilateral organizations and institutions working in these areas. CIDA also seeks to influence the policies and practices of these bodies to maximize the effectiveness of their programming and operations. In addition, the multilateral program monitors, assesses and reports on the performance of international organizations and institutions.

Multilateral Branch also works towards results related to improvements in the general policies and practices of multilateral institutions, particularly in such areas as country-level coordination, field-delivery supervision and evaluation. Improving the effectiveness of international organizations is an important element of the multilateral program.

Foreign Affairs and International Trade Canadian International Development Agency

Canadian Partnership

The Canadian Partnership program provides grants and contributions to Canadian and international organizations to support their activities in developing countries. This funding is responsive to the initiatives of these organizations (profit and non-profit), and emphasizes the development of sustainable partnerships between developing countries and Canadian society through the cost-sharing of projects. Canadian Partnership also manages CIDA's consultation policy and is the key interface for the Agency in external relations and consultations with its development partners.

The Canadian Partnership Program comprises three main sub-programs: Industrial Cooperation, Voluntary Sector and Scholarships. The Industrial Cooperation Program (INC) promotes economic growth and private sector development in developing countries by responding to Canadian private sector initiatives to establish mutually beneficial, long-term ties between Canadian and developing country partners.

The Voluntary Sector program focuses on grass-roots development and seeks to increase the capacity of organizations and institutions in developing countries to promote sustainable development in key socio-economic areas. The program has a strong emphasis on improving linkages between Canadian and developing country NGOs and also supports Canadian organizations and institutions working in such areas as the environment, public sector reform, human rights, democracy and good governance to promote technology transfer and capacity building.

The Scholarships program administers various fellowship and awards programs, as well as regulations and policies governing the selection and recruitment of technical assistance cooperant/experts and in-country trainees.

Policy

Policy Branch formulates and maintains CIDA's policy base within the context of the ODA purpose and priorities and Canada's broader foreign policy objectives and interests. It provides advice, information and briefing materials on policy matters and strategic issues to the Minister, CIDA and other government departments, as well as specialised expertise on scientific and technical areas. In certain cases – e.g., environmental assessment – Branch experts verify Agency compliance and legislation. The Branch also manages consultations on policy matters with special interest groups and the general public.

Policy Branch also takes the lead on the management of the International Assistance Envelope and allocations on behalf of CIDA. It houses the Agency's library and document collections, as well as numerous national and international databases, and produces corporate information required to meet national and international responsibilities for reporting on ODA expenditures.

At the international level, Policy Branch seeks to improve the coordination of Canadian development policies with those of other donor countries – for example, through the Development Assistance Committee of the Organization for Economic Cooperation and Development (OECD). Policy Branch also helps to represent Canada's interests in international fora and verifies that international commitments undertaken by this country are reflected in Canadian development policies.

Communications

In keeping with government communications policy, Communications Branch provides support to the Minister, President and CIDA branches to help them fulfill their responsibilities in this area. This support is provided as expert advice, media relations and analysis, public opinion research and in the form of printed and audio-visual materials.

Through its communications efforts, CIDA seeks to demonstrate to selected key publics, including youth, decision makers and opinion leaders, that it is an effective aid agency. It promotes greater awareness of international development and its impact and strengthens communications cooperation with domestic and international partners. Communications Branch is also responsible for implementing the Agency's internal communications policy.

Through the Development Information Program (DIP), Communications Branch works in partnership with non-governmental and private sector organizations and individuals to inform Canadians about development programs and issues, with a special emphasis on the important role and contributions Canadians make in developing countries.

Foreign Affairs and International Trade Canadian International Development Agency

Corporate Services

The Corporate Services activity provides the Agency with support services that are not specific to any individual channel of program delivery. These services are rendered by the Agency Executive, the Human Resources and Corporate Services Branch and the Performance Review Branch. The costs of these services are classified as indirect administration, as opposed to direct administration which can easily be identified with a particular channel of delivery.

Foreign Affairs and International Trade International Development Research Centre

Objectives

To initiate, encourage, support and conduct research into the problems of the developing regions of the world and into the means of applying and adapting scientific, technical and other knowledge to the economic and social advancement of those regions, and in carrying out those objects:

- to enlist the talents of natural and social scientists and technologists of Canada and other countries;
- to assist the developing regions to build up the research capabilities, the innovative skills and the institutions required to solve their problems;
- to encourage generally the coordination of international development research; and
- to foster cooperation in research on development problems between the developed and developing regions for their mutual benefit.

Description of Funding Through Appropriations

Development-Research Activities

Scientific and technical research projects are defined by six themes: Food Security, Equity in Natural Resource Use, Biodiversity Conservation, Sustainable Employment, Strategies and Policies for Healthy Societies, and Information and Communication. The Centre practices and promotes a holistic approach to the use of knowledge resources for sustainable and equitable development. Development research includes resource-expansion activities in which research activities are managed or administered by IDRC on behalf of other organizations.

Information Dissemination and Library

The dissemination of information and the maintenance of a specialized development research library are an important part of IDRC's role in promoting research.

Technical Support

Technical support personnel assist in the development of new projects, monitor ongoing research projects, and provide specialized support to recipients.

Regional Office Management

Regional offices are maintained abroad and foster special knowledge and awareness of developing-world research and development conditions. The overseas offices are situated in Egypt, India, Kenya, Senegal, Singapore, South Africa, and Uruguay.

Head Office Management

The role of head office management is to provide support and guidance to IDRC's program of work.

Administration

Policy, executive, administrative, and service functions are discharged by the Board of Governors, the President's Office, and Resources Branch.

NAFTA Secretariat, Canadian Section

Objectives

The NAFTA Secretariat, Canadian Section's program objective is to implement the dispute settlement provisions of the North American Free Trade Agreement (NAFTA), the Canada – Israel Free Trade Agreement and the Canada – Chile Free Trade Agreement, by providing support to panels established under the relevant agreements and by maintaining a court-like registry system relating to panel, committee, and tribunal proceedings of the relevant agreements.

Business Line Descriptions

NAFTA Secretariat, Canadian Section

Disputes relating to anti-dumping, countervailing duty and injury final determinations may be resolved under the NAFTA through the panel review process (Chapter 19) as an alternative to judicial review. Disputes concerning the interpretation or application of the NAFTA (Chapter 20) may be referred to a five-member panel. Disputes relating to the investment provisions of Chapter 11 and the financial services provisions of Chapter 14 of the NAFTA may be referred to dispute settlement under the Agreement.

Disputes arising under the dispute settlement provisions of Chapter 8 of the Canada – Israel Free Trade Agreement and Chapter N of the Canada – Chile Free Trade Agreement will be administered by the Canadian Section.

In the administration of the dispute settlement provisions of the relevant agreements, the NAFTA Secretariat, Canadian Section provides legal, professional and advisory support to panels and committees, operates a court-like registry and coordinates all panel and financial aspects of the process.

Non-dispute related responsibilities include providing assistance to the Commissions, as directed, and support for various non-dispute related committees and working groups.

Health Department

Objectives

The Departmental mission is to help the people of Canada maintain and improve their health.

Business Line Descriptions

Management of Risks to Health

This business line is responsible for anticipating, preventing and responding to health risks posed by food, water, drugs, medical devices and other therapeutic products, occupational and environmental hazards, diseases, consumer products, pest control products, blood and blood products, peacetime disasters and certain determinants of health such as personal behaviour, family, social and economic circumstances.

Promotion of Population Health

The business line provides a broad integrated approach to population health, taking into account the social, behavioural, and economic determinants of health. It addresses health inequalities among Canadians through the development and support of policies and programs to support disease prevention and health promotion in collaboration with key partners in other government departments, provinces, territories and the non-government sector. The business line supports action to promote health by addressing determinants that fall both within and outside of the health sector throughout the life cycle. It recognizes and emphasizes the importance of investment in early childhood as a means to better health throughout life. The delivery of this business line is carried out through a life cycle framework characterized under the three stages of life: i) Childhood and Adolescence, ii) Early to Mid-Adulthood, and, iii) Later Life.

Aboriginal Health

The principle that health status inequalities and health service concerns among First Nations will be addressed more effectively when decisions are made by themselves is widely accepted by health experts and Aboriginal people. This business line works toward increased control and management of community-based health services by Aboriginal people through transfer, integrated contribution agreements and other health funding arrangements, capacity building and training. The business line also supports actions on health inequities affecting First Nations and Inuit People.

Health System Support and Renewal

This business line provides support for leadership on all areas of Canada's health system. It uses knowledge and action from across the Department to ensure the viability and affordability of Medicare and a more appropriate balance in Canada's health system across health care, promotion, prevention and protection. The focus is on increasing efficiency and effectiveness in collaboration with the provinces and territories.

Health Policy, Planning and Information

This business line contributes to the achievement of federal health objectives by: Internally, drawing together activities and levers (surveillance, research, policy, communications, federal/provincial and international relations, legislation, consultation, planning and review) used across all business lines, into a cohesive, cost-effective way to deliver the government's health agenda and core Health Canada responsibilities; Externally, contributing to the generation, provision and use of health information, taking into account the roles of our health information partners.

Corporate Services

Corporate Services provides services and advice to departmental senior managers in support of program needs related to the management, use and reporting of financial and human resources, facilities and assets, information technology, and audit services.

Health

Hazardous Materials Information Review Commission

Objectives

To allow suppliers or employers involved with hazardous industrial materials to protect confidential business information concerning their products and at the same time to ensure that workers are provided with accurate safety and health information for these products.

Business Line Descriptions

Material Safety Data Sheet Compliance

This business line contributes to the right of workers to know about the health and safety hazards of exposure to chemicals found in products associated with claims for exemption by ensuring that Material Safety Data Sheet (MSDS) and labels are compliant with Workplace Hazardous Materials Information System (WHMIS) requirements. This includes an assessment of the scientific information relevant to each of the product's ingredients and advice on the health and safety hazards posed by the product pursuant to the *Hazardous Products Act*, the *Canada Labour Code*, and provincial and territorial occupational health and safety legislation. Where non-compliance is found, a formal order for revision of the MSDS is issued and follow-up done to ensure compliance.

This activity will continue to result in a direct contribution to the reduction of workplace-related illness and injury which, in turn, has the effect of easing economic pressures due to compensation claims and health care costs.

Client Services

The responsibilities within this area include the formal registration of claims for exemption, the issuance of Registry Numbers, the security of claim-related information and the issuance of a decision on claim validity pursuant to the *Hazardous Materials Information Review Act*. In addition, Client Services provides general advice and guidance to claimants and monitors levels of client satisfaction.

Dispute Resolution

This business line includes the convening of independent tripartite boards to hear appeals or disputes from claimants or affected parties in order to address issues or disputes as early and effectively as possible.

An appeal may relate to the compliance of an MSDS, the rejection of a claim or to a request that confidential business information be disclosed in confidence to an affected party for occupational safety and health reasons.

Dispute resolution options such as mediation or facilitated discussion, will be implemented in a manner that is cost-effective and fair to everyone involved.

Patented Medicine Prices Review Board

Objectives

To protect consumer interests and to contribute to Canadian health care by ensuring that prices charged by manufacturers of patented medicines are not excessive.

Business Line Descriptions

Patented Medicine Prices Review Board

The Patented Medicine Prices Review Board (PMPRB) gathers information on the prices charged by manufacturers of patented medicines in Canada, analyzes that data and takes action, when required, to reduce prices which are, in the opinion of the Board, excessive. Price reductions are accomplished through:

- voluntary action taken by the patentees;
- formal Voluntary Compliance Undertakings (VCUs) to lower prices and offset excess revenues; or,
- following a public hearing in which prices are found to be excessive, through the issuance of remedial orders.

The PMPRB relies on voluntary compliance wherever possible since it is more effective, less time consuming, and less costly to all parties. Voluntary compliance by patentees is facilitated by published Guidelines intended to assist companies in setting prices that are not excessive.

Under the *Patent Act*, the Board is required to consider the prices of medicines in other countries, the prices of other medicines in the same therapeutic class, changes in the Consumer Price Index (CPI), and other factors when assessing whether or not the price of a medicine is excessive. The Act allows the Minister of Health, in consultation with provincial ministers of health and others, to make regulations regarding additional factors the Board shall take into consideration in determining if a price is excessive and to assign additional duties and powers to the PMPRB. Furthermore, it authorizes the Minister of Health to require the Board to conduct inquiries into matters as determined by the Minister.

The PMPRB also reports to Parliament on the price trends of all medicines and on the ratio of pharmaceutical research and development expenditures to sales for the patented pharmaceutical industry and individual patentees in Canada.

Human Resources Development Department *Human Resources Development Program*

Objectives

The objective of Human Resources Development Canada is to enable Canadians to participate fully in the workplace and the community.

Business Line Descriptions

Human Resources Investment (HRI)

This business line focuses on:

- promoting transition to, attachment to and re-integration into the labour market;
- increasing private and voluntary sector capacity to promote human development;
- promoting learning and skills development; and
- promoting social inclusion to enable full workplace and community participation by all, with special emphasis on children, youth at risk, older workers, Aboriginal and people with disabilities.

These will be realized, in part, by taking an integrated and horizontal approach to human development and emphasizing preventative measures such as the development and strengthening of HRDC's partnerships with the private and voluntary sectors.

The HRI business line includes grants, contributions, loan and statutory programs and a range of information, coordination and advisory services designed to deliver high quality programs and services. HRI activities are designed to enable Canadians to learn, to manage transitions in their lives and to build capacity by helping individuals, businesses, communities, industrial and occupational sectors to identify, address and manage their human, social and labour market development needs.

Access to information, learning skills development, employment opportunities, job creation, and labour market information may be provided by HRDC, or through partnerships with provinces and territories, Aboriginal, private sector or community-based organizations. Financial assistance may also be made available for individuals to pursue their human development goals.

Employment Insurance Income Benefits (EIIB)

This business line focuses on the administration of the EI Program including the processing of Appeals, issuance of Social Insurance Numbers and administration of the Social Insurance Registry and the delivery of Government Annuities payments.

Labour

This business line includes four service lines:

Industrial Relations assists in resolving disputes involving employers, unions and workers under federal jurisdiction, supporting and funding collaborative labour-management initiatives on workplace issues, and researches current and emerging industrial relations priorities.

Labour Operations encourages client acceptance of, and responds to non-compliance with, federal mandatory and legislated programs designed to bring about fair, safe, healthy and equitable work environments.

Federal Workers' Compensation ensures, through administrative arrangements with provincial workers' compensation authorities, the provision of statutory employment injury and related claim benefits to eligible persons.

Legislation, Policy Research and Management develops policies and legislation that respond to the emerging needs of workers and employers, and the changing nature of the workplace and society; improves cooperation on labour issues with unions, business, and governments in Canada and internationally; and researches, provides and promotes access to workplace information.

Human Resources Development Department *Human Resources Development Program*

Income Security

The business line encompasses two major income security programs: Canada Pension Plan (CPP) and Old Age Security (OAS). CPP benefits include retirement pensions, disability benefits, children's benefits, surviving spouse's benefits and death benefits. OAS benefits include the basic OAS pension, the Guaranteed Income Supplement and a Spouse's Allowance.

The business line comprises the adjudication of CPP disability applications and one level of administrative appeal. The Review Tribunal and Pension Appeals Board, which operate at arm's length from the department, process subsequent appeals. This business line also negotiates and administers international social security agreements to ensure migrants to and from Canada are able to exercise the social security rights they acquired in both countries, to the greatest extent possible.

Service Delivery Support

This business line includes the management and operations of Systems activities supporting the delivery of services and benefits to our clients. It also includes direct client services such as reception and direction of clients whether in-person or by phone at the local Human Resource Centres of Canada as well as administrative support, and program advice and guidance through policy and procedure development that supports joint delivery of business lines at the local, area and regional levels.

Corporate Services

This business line includes four service lines:

- Departmental Executive is responsible for advice to Ministers, and the overall management of the department including direction of operations and coordination of delivery networks.
- Policy and Communications develops and evaluates policies and programs, coordinates international affairs, and provides structured, strategic communications advice and services that enable the department to achieve corporate and business line objectives.
- Financial and Administrative Services provides administrative and financial services to support departmental clients in the achievement of their business line objectives, consistent with overall government policies.
- Human Resources provides human resources services and advocates and facilitates best human resource management practices so that the department can meet its business objectives and ensure the well being of its employees.

Objectives

To provide Canadians with information about occupational health and safety which is trustworthy, comprehensive, and intelligible. The information facilitates responsible decision-making, promotes change in the workplace, increases awareness of the need for a healthy and safe working environment, and supports education and training.

Business Line Descriptions

Canadian Centre for Occupational Health and Safety

The Canadian Centre for Occupational Health and Safety (CCOHS) is Canada's national institute which promotes the fundamental right of Canadians to a healthy and safe working environment. CCOHS is independent from other federal and provincial departments and maintains a tripartite (labour, business, and government) governing council to help insure that intelligible, unbiased information is delivered to Canadians and their workplaces. The delivery of this information is provided via a toll free telephone based inquiries service or on a fee-for-service basis using the latest print and electronic technology. Information is gathered from numerous Canadian and international health and safety institutions and thereby provides Canadians with the most comprehensive, current, and reliable information. This information is distributed across Canada and to more than 50 countries.

Indian Affairs and Northern Development
 Department
Northern Affairs Program

Objectives

To promote the political, economic, scientific and social development of Canada's North; to assist Northerners, including Aboriginal groups, to develop political and economic institutions which will enable them to assume increasing responsibility within the Canadian federation; to effectively manage the sustainable development of the North's natural resources in preparation for devolution to the territorial governments; to preserve, maintain, protect and rehabilitate the northern environment; and to manage ongoing federal interests in the North, including federal northern policy, federal-territorial relations and claims and self-government implementation, and federal circumpolar activities.

Business Line Descriptions

Northern Affairs Programming

This business line provides for the development and implementation of policies and programs related to the political, economic, social and sustainable development of Canada's North. It manages the constitutional relationship between the department and the territorial governments, negotiates and implements resource transfers to northern governments, and provides continuing co-ordination and direction to the management of ongoing federal interests in the North. This business line provides for the management of the North's natural resources and the protection and enhancement of the Arctic environment, both nationally and internationally. It co-ordinates the implementation of northern land claims and enhances Aboriginal interests in the development of the North, as well as in the fur industry throughout Canada. The development and implementation of science and technology-related programs are promoted nationally and internationally.

Industry Department

Objectives

To promote international competitiveness and excellence in industry, science and technology in all parts of Canada, to promote regional economic development in Ontario, to assist Aboriginal people to realize their economic potential, to promote fair and efficient operation of the marketplace in Canada, and to establish the rules of the marketplace and ensure that they are effectively implemented and enforced.

Business Line Descriptions

Micro-Economic Policy

This Business Line sets the overall priorities and direction for the department's micro-economic agenda in the "four pillars" of marketplace climate, trade, technology and infrastructure, outlined in the government's framework document, "Building a More Innovative Economy (BMIE)" and consistent with the Speech from the Throne priorities. The major challenge in developing the micro-economic policy agenda will be to identify the key emerging issues, to marshal the analytical evidence for the appropriate policy responses and engage the commitment of a diverse group of departments and agencies inside and outside the Industry Portfolio in implementing them. The challenge must also include integrating a sustainable development strategy and sustainable development concepts into the work of the department.

Marketplace Rules and Services

The department's Marketplace Rules and Services Business Line represents a significant portion of the government's policy levers for maintaining an efficient and equitable marketplace, thus enhancing Canada's attractiveness for investment. Some 20 Acts set out the policy and legislative framework for the marketplace in such areas as bankruptcy, corporations and corporate governance, approval and inspection of measuring devices, intellectual property, competition, consumer product inspection and voluntary codes of practice, and spectrum licensing and monitoring.

Through this Business Line, Industry Canada develops, evaluates and revises rules, regulations and standards that govern the fair, efficient and competitive operation of the Canadian marketplace. These rules support and interpret marketplace legislation that is developed as part of the Service Line related to promoting a healthy marketplace climate in the Micro-economic Policy Business Line.

Under Marketplace Rules and Services, the department maintains consumer and business confidence by effectively administering and ensuring compliance with marketplace legislation, rules, regulations and standards. It also promotes these marketplace standards internationally to help Canadians compete more effectively in global markets.

The organizations that make up this Business Line also help businesses and consumers contribute to and benefit fully from marketplace rules and respond better to changing conditions by providing a wide range of marketplace information and services.

Included within this business line is the Canadian Intellectual Property Office Revolving Fund. Parliament has authorized a total drawdown of \$15,000,000 for the Canadian Intellectual Property Office Revolving Fund effective April 1, 1997. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2000	27,451
Plus:	
2000–2001 Main Estimates – surplus	5,001
Anticipated unused authority as of April 1, 2001	32,452

Industry Department

Industry Sector Development

The department's Industry Sector Development Business Line provides leadership and support to Canadian industry as it adapts to the challenges and opportunities of the global economy. This is accomplished through the development and implementation of strategies in cooperation with major partners and stakeholders for the advancement of trade, investment, technology, youth opportunities, information technology and telecommunications and human resource development. In addition, world-class information products and services will address the needs of Canadian industry. Policies, regulations and research will support Canada's information technology and telecommunications industry and targeted financial assistance will promote investment and leading edge technologies.

Tourism

The Canadian Tourism Commission (CTC) is a working partnership between tourism industry businesses and associations, provincial and territorial governments and the Government of Canada. The CTC has authority to plan, direct, manage and implement programs to generate and promote tourism in Canada. As a Special Operating Agency (SOA), it is an example of the new partnership model of the federal government. It is made up of industry representatives from across Canada acting to ensure that the tourism industry remains a vibrant and profitable part of the Canadian economy.

Corporate and Management Services

This Business Line encompasses the provision of corporate services, including management advisory services and strategic communication products and services direction, human resources and corporate development services, financial, administrative and common services and fulfils the functions of the Ethics Counsellor.

Canadian Space Agency

Objectives

The overriding objectives of the Canadian Space Program are summarized as:

- the development and application of space science and technology to meet Canadian needs; and,
- the development of an internationally competitive space industry in Canada.

Business Line Descriptions

Space Knowledge, Applications and Industry Development

The Canadian Space Agency works with universities and industry across Canada to contribute to and facilitate the advancement of space knowledge; the development of new processes, technologies and applications; and the use and application of space science and technology. This leads to an internationally competitive, export-oriented Canadian space equipment and services sector. In collaboration with other public sector organizations, or on its own, the Canadian Space Agency contributes to the sustainable development of Canada by linking Canadians from coast to coast, by enhancing the management of our environment and natural resources, and by learning how phenomena in space affect life on Earth.

The business line creates better awareness of the importance of space technology in all regions of Canada and improves cooperation and relationships with space sector organizations throughout the world. The business line also involves all initiatives that ensure that the Agency performs its role as the leader of the Canadian Space Program.

Industry Competition Tribunal

Objectives

The Tribunal's objective is to provide a court of record to hear and determine all applications under Parts VII.1 and VIII of the *Competition Act* as informally and expeditiously as circumstances and considerations of fairness permit.

Business Line Descriptions

Competition Tribunal

Through the *Competition Tribunal Rules* that regulate its practices and procedure, the Tribunal establishes a framework for informal, expeditious proceedings while leaving the Tribunal flexibility to respond to the wide range of variables that affect expediency and considerations of fairness in a particular case.

Industry Copyright Board

Objectives

To fix royalties that are fair and reasonable to both copyright owners and the users of copyright-protected works, and issue non-exclusive licences authorizing the use of works when the copyright owner cannot be located.

Business Line Descriptions

Copyright Board

The Copyright Board was established on February 1, 1989, as the successor of the Copyright Appeal Board. Its responsibilities under the *Copyright Act* are to:

- establish tariffs for the public performance or the communication to the public by telecommunication of musical works and sound recordings (sections 67 to 69);
- establish tariffs, at the option of a collective society referred to in section 70.1, for the doing of any protected act mentioned in sections 3, 15, 18 and 21 of the Act (sections 70.1 to 70.191);
- set royalties payable by a user to a collective society, when there is disagreement on the royalties or on the related terms and conditions (sections 70.2 to 70.4);
- establish tariffs for the retransmission of distant television and radio signals or the reproduction and public performance by educational institutions, of radio or television news or news commentary programs and all other programs, for educational or training purposes (sections 71 to 76);
- establish tariffs for the private copying of recorded musical works (section 79 to 88);
- rule on applications for non-exclusive licences to use published works, fixed performances, published sound recordings and fixed communication signals, when the copyright owner cannot be located (section 77);
- examine, at the request of the Commissioner of Competition appointed under the *Competition Act*, agreements between a collective society and a user which have been filed with the Board, where the Commissioner considers that the agreement is contrary to the public interest (sections 70.5 to 70.6);
- set compensation, under certain circumstances, for formerly unprotected acts in countries that later join the Berne Convention, the Universal Convention or the Agreement establishing the World Trade Organization (section 78).

In addition, the Minister of Industry can direct the Board to conduct studies with respect to the exercise of its powers (section 66.8).

Finally, any party to an agreement on a licence with a collective society can file the agreement with the Board within 15 days of its conclusion, thereby avoiding certain provisions of the *Competition Act* (section 70.5).

Economic Development Agency of Canada for the Regions of Quebec

Objectives

Under the *Department of Industry Act*, the Minister responsible for the Economic Development Agency of Canada for the Regions of Quebec must pursue the following objectives:

- a) promote economic development in areas of Quebec where low incomes and slow economic growth are prevalent or where opportunities for productive employment are inadequate;
- b) emphasize long-term economic development and sustainable employment and income creation;
- c) focus on small and medium sized enterprises and the development and enhancement of entrepreneurship.

Business Line Descriptions

Promotion of the Economic Development of the Regions of Quebec

With respect to economic development of Quebec regions, this activity includes in particular:

- Design and implementation of federal policies and programs.
- Participation in the implementation of national economic development priorities, as a member of the Industry Portfolio, in order to maximize the benefits for every region of Quebec.
- Harmonization of federal activities by ensuring the integrated management of Quebec regional economic development issues of concern to the Government of Canada. It designs and implements multi-sectoral federal strategies and action plans for the economic development of the regions of Quebec, and creates economic adjustment measures to adapt the application of some national policies to the regional context.
- Establishment of co-operative relations with other public and private socio-economic stakeholders, in particular the Community Economic Development Corporations, to better serve Quebec regions and SMEs.
- Advocacy within the machinery of the Canadian government, based on the analysis of economic development issues, in order to optimize the impact of national policies and programs on the economic development of the regions of Quebec.
- Promotion of federal programs and services through its network of business offices, to inform SMEs and actors in economic development on the programs and services provided by federal government departments and organizations for small and medium-sized enterprises.
- Development of knowledge and dissemination of information to develop and disseminate knowledge on issues related to the economic development of the regions and SMEs. To inform residents in the regions of Quebec with regard to Government of Canada policies, strategies and initiatives that effect the economic development of the regions.
- Design and implementation of special economic development and job creation mandates in Quebec, on behalf of the Government of Canada, to respond to specific public issues of an economic nature, often on an ad hoc basis.

National Research Council of Canada

Objectives

To enhance the national capability and to stimulate investment in research and development for the economic and social benefit of Canada.

Business Line Descriptions

Research and Technology Innovation

The Research and Technology Innovation business line includes the National Research Council's research programs, technology development initiatives, management of national science and engineering facilities, along with its research and technology collaborations with firms, universities and public institutions. These efforts all focus on key technological and industrial areas of Canada's economy where the National Research Council has specific roles and recognized competencies, and where it has the ability to have an impact.

Support for Innovation and the National Science and Technology Infrastructure

Support for Innovation and the National Science and Technology Infrastructure reinforces the National Research Council's role as a major research and development participant within the larger Canadian science and technology infrastructure. It encompasses the dissemination of scientific and technical information and provision of innovation assistance to industrial research. The National Research Council also maintains key engineering and technology-based facilities to support specific industrial areas of the economy.

Program Management

The Program Management business line provides a range of management and administrative services designed to support the National Research Council's performance as a dynamic, entrepreneurial organization that maximizes opportunities to transfer knowledge and technology.

Statistics Canada

Objectives

To provide statistical information and analysis on the economic and social structure and functioning of Canadian society as a basis for the development, operation and evaluation of public policies and programs, for public and private decision-making, and for the general benefit of all Canadians; and to promote the quality, coherence and international comparability of Canada's statistical system through collaboration with other federal departments and agencies, with the provinces and territories, and in accordance with sound scientific standards and practices.

Business Line Descriptions

Economic and Social Statistics

The Economic Statistics component of this business line provides information and analysis on the entire spectrum of Canadian economic activity, both domestic and international, through a set of macro-economic statistics. The organization of economic statistics is guided, in a large measure, by frameworks which constitute the Canadian System of National Accounts. The system makes it possible to measure both the current performance and the structural make-up of the Canadian economy by type of economic transaction and by sector. This set of accounts is designed to provide structural and current information on the Canadian economy in direct support of fiscal, monetary, human resource, industrial and international economic policy formulation and adjustment. The System of National Accounts also serves as a framework within which individual statistical series are compared to assess their reliability and as an analytic tool to identify shifts in the economic importance of various sectors.

Another component of Economic Statistics focuses on the business, trade and tourism sectors of the Canadian economy. Information includes measures of the value of production, cost structures, commodities produced and consumed, the flows and stocks of fixed capital assets employed in the economy, the degree of capacity utilization, estimates of planned annual capital expenditure of businesses and governments, and measures of price changes for industrial goods, capital expenditures and construction.

The Household Statistics component of this business line provides information on the economic and social characteristics of individuals, families and households in Canada, and on the major factors which can contribute to their well-being. It includes measures of household income and expenditure; of employment, unemployment, their associated costs and benefits, labour income and factors effecting labour supply; and information on topics of specific social policy concern.

The Institutions Statistics component of this business line provides information and analysis on the facilities, agencies and systems which are publicly funded to meet the socio-economic and physical needs of Canadians, and on the outcomes of the services which they provide. It encompasses the justice, health care, and education systems as well as cultural institutions and industries, in terms of the nature and extent of their services, and operations, the characteristics of the individual Canadians and families whom they serve, and their impacts on Canadian society. Increasingly, the Agency is attempting to go beyond the institutional orientation of this component, and to try to portray the impacts on Canadians of the activities of the health, education and justice systems.

Census of Population Statistics

This business line provides statistical information from the quinquennial Census of Population. The Census provides benchmark information on the structure of the Canadian population and its demographic, social and economic conditions. It provides the detailed information needed on subgroups of the population and for small geographic areas, which cannot be generated through sample surveys. Estimates of the size of the population and its demographic structure between Censuses, as well as population projections, are dependent on Census information.

Population counts and estimates are required to determine electoral boundaries, the distribution of federal transfer payments, and the transfer and allocation of funds among regional and municipal governments, school boards and other local agencies within provinces.

Offices of the Information and Privacy Commissioners of Canada

Objectives

Access to Information:

- to ensure that the rights of complainants under the *Access to Information Act* are respected; complainants, heads of federal government institutions and all third parties affected by complaints are given a reasonable opportunity to make representations to the Information Commissioner and investigations are thorough and timely;
- to persuade federal government institutions to adopt information practices in keeping with the *Access to Information Act*; and
- to bring appropriate issues of interpretation of the *Access to Information Act* before the Federal Court.

Privacy:

- to ensure that the rights of complainants under the *Privacy Act* are respected and that the privacy of individuals with respect to personal information about themselves, held by a federal government institution, is protected; and
- to encourage the growth of fair information practices by government institutions.

Business Line Descriptions

Access to Information

The primary activity of the business line is to investigate, report and make recommendations to the heads of government institutions as a result of complaints from individuals who allege non-compliance with the *Access to Information Act*.

The Commissioner may initiate a complaint. The Commissioner may appear on behalf of complainants, with their consent or as a party, in applications before the Federal Court for review of decisions by federal government institutions to refuse access under the Act. He reports to Parliament annually and may make special reports.

The users of the Act are the clients of the business line and include all Canadian citizens, permanent residents and persons or corporations present in Canada and the 155 government institutions subject to the Act.

Privacy

The primary activity of the business line is to investigate, report and make recommendations to the heads of government institutions and, in the case of complaints, report findings to the complainant. The Commissioner reviews personal information held in government information banks and investigates the institutions' collection, use, retention and disposal of personal information.

The Commissioner may, with a complainant's consent, appear on his or her behalf in an application for Federal Court review of an institutions' decision to deny access. The Commissioner reports annually to Parliament and may initiate special reports at any time. The Commissioner may also be requested to undertake special studies for the Minister of Justice.

The business line's clients include anyone legally present in Canada seeking access to their federal personal records, anyone dissatisfied with federal personal information handling practices, Members of Parliament, provincial privacy commissioners, and the general public and media seeking information about the Act and background on privacy issues.

Corporate Services

The primary activity of the business line is the provision of such administrative support services as finance, personnel, information technology and general administration (records management, security, procurement, library, reception and management services).

Natural Resources Department

Objectives

To advance the development of Canada's economy by providing expert scientific and economic knowledge to Canadians, and by promoting the sustainable development and use of Canada's natural resources and the competitiveness of the energy, forest, minerals and metals and geomatics industries.

Business Line Descriptions

Information Dissemination and Consensus Building

NRCan recognizes the need to invest in knowledge and systems innovation to create easily accessible and integrated information. To this end, the Department develops and maintains the knowledge infrastructure (*ResSources*) and databases, such as GeoConnections, necessary to provide Canadians with geographical and scientific information on the state of Canada's landmass, and with sound economic, environmental advice on matters relating to the sustainable development and use of Canada's natural resources and to public health and safety. It also gathers, shares, disseminates and analyzes information and prepares statistical reports on the productivity and competitiveness of the Canadian natural resource industry. The information is used as a basis for forecasting and reporting progress on market demand.

Promoting greater national and international cooperation and consensus on sustainable development is the basis for protecting existing resource-based benefits and building new opportunities in the knowledge-based economy. In this context, the Department co-manages the federal process to develop a National Implementation Strategy on the mitigation and adaptation to climate change. NRCan implements action plans, tools and testing that support new and innovative forest management practices. Under the terms of bilateral and multilateral agreements, the Department promotes globally the responsible development and use of minerals and metals and undertakes research and development to facilitate further growth for the Canadian geomatics industry. NRCan provides coordinated logistics advice and services in support of its scientific research programs and transfers its S&T technologies and sustainable resource management practices and techniques to stakeholders and users.

NRCan provides Canadians with the best possible fiscal and regulatory information to allow them to make informed decisions. In this regard, the Department develops national and international strategies, policies, regulations and voluntary approaches in support of sustainable development.

Included within this business line is the Geomatics Canada Revolving Fund. The fund was established under *Appropriation Act No. 3* in 1993-94. The fund allows Geomatics Canada to shift the costs of offering goods and services from taxpayers at large to specific users who benefit directly from them. This revenue retention mechanism gives Geomatics Canada the ability to recover full costs from Canadian customers and the freedom to charge market prices for international clients. It presents the opportunity to provide an increasing volume of products and services in response to the needs of Canadian clients as well as supporting the Canadian geomatics industry through the knowledge and expertise necessary to be competitive in the international market.

Parliament has previously authorized a total drawdown of \$8,000,000 for the Geomatics Canada Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2000	7,174
Plus:	
2000–2001 Main Estimates – net cash provided	1,136
Anticipated unused authority as of March 31, 2001	8,310

Natural Resources Department

Economic and Social Benefits

Leading edge science and technology, expert policy advice and innovation are essential if Canada is to maintain and expand its market share in the new global economy. In this context, the Department identifies business opportunities for resource-based products, knowledge, technologies and services. It works with stakeholders to provide a business climate that enhances the competitiveness of the natural resource sector (e.g., the administration of Canada's mining taxation regime). The Department holds investment seminars to attract investment to Canada and addresses international environmental and trade issues related to the natural resource sector. NRCan also works with governments and industry on issues related to understanding the geological framework of the nation and to stimulate exploration.

NRCan works internationally to facilitate the export of Canadian resource-related goods and services, and promotes the transfer of technologies and the exchange of knowledge supporting the sustainable development and use of natural resources. NRCan, in conjunction with the Department of Foreign Affairs and International Trade, maintains good relationships with counterparts in other countries, while building awareness of foreign developments. The Department facilitates private sector access to foreign markets for natural resource products, management practices and services. It supports the Canadian geomatics and geoscience industry in major international projects, in the development of standards, exchange of information, research and development, in training and personnel exchange, and on government policies and programs. The Department also helps ensure Canadian competitiveness and the fulfilment of trade obligations. For example, it influences the harmonization of international standards and codes, participates in multilateral fora, provides advice to assist in negotiations on trade frameworks as well as regulatory, trade and foreign policy issues. Likewise, bilateral relations allow the Department to exchange information to promote regulatory and policy consistency and to provide ideas and insights concerning the implementation of energy-efficiency and forestry measures, both current and prospective.

NRCan, in conjunction with Indian and Northern Affairs Canada, manages programs to generate Aboriginal employment in the natural resource industry. The Department finances viable Aboriginal operations and enhances their management skills. In addition, NRCan promotes initiatives and regulations that focus on work opportunities, economic diversification and decision-making relating to sustainable land and resource development in rural, Aboriginal and northern communities.

Included within this business line is the Geomatics Canada Revolving Fund. Parliament has previously authorized a total drawdown of \$8,000,000 for the Geomatics Canada Revolving Fund. The projected use of this authority as related to these Estimates is included under the Information Dissemination and Consensus Building business line.

Environmental Protection and Mitigation

NRCan has a key role in designing Canada's response options for climate change which are central to the federal government's mitigation and adaptation strategy and to the transformation of Canada's energy economy. In collaboration with its partners, the Department (i) develops a National Implementation Strategy for Climate Change, (ii) develops and promotes Canadian interests in meeting the Kyoto commitment and (iii) participates in Canada's international climate change agenda.

The Department manages the interdepartmental Program of Energy Research and development, develops and promotes the use of emerging and promising renewable resource technologies and alternative sources of energy, and develops and implements programs and technologies to promote energy efficiency in buildings, in industry and at home. In partnership with its clients and stakeholders, the Department also conducts forest science research and transfers technologies and techniques that contribute to Canada's forest health and sustainability, predicts and monitors the effects of human interactions and natural events on forest ecosystems, and conducts forest production research to ensure sustainability for difficult to grow and/or endangered trees. NRCan also develops and transfers technologies leading to more efficient industrial processes, the production of new, higher-performance mineral- and metal-based products and enhances the productivity of mining and ore processing operations. The Department carries out research that mitigates the impacts of effluent and drainage on mining and milling operations; provides technical support to mines in Canada on mine roof control, underground environmental assessment, ventilation and rockburst abatement; and makes improvements to procedures that apply to manufacturing.

Natural Resources Department

The Department, in collaboration with its co-delivery partners, develops and implements policies and practices to address hazards associated with natural resource development and use. It recommends options for the long-term management of radioactive waste and spent nuclear fuel. NRCan also develops technologies to improve the structural reliability of Canada's pipeline infrastructure.

Included within this business line is the Geomatics Canada Revolving Fund. Parliament has previously authorized a total drawdown of \$8,000,000 for the Geomatics Canada Revolving Fund. The projected use of this authority as related to these Estimates is included under the Information Dissemination and Consensus Building business line.

Safety and Security of Canadians

NRCan plays a critical role in providing information and expertise to Canadians with respect to natural hazards. NRCan's scientific expertise provides the advice and research recommendations for minimizing risks associated with natural hazards like earthquakes. In addition, the Department provides topographical maps and satellite imagery to respond to these hazard emergencies and to provide information about soil types, risk areas and erosion patterns to understand the cause of disasters.

The Department provides a reliable system of surveys, topographical maps, aeronautical charts and publications, remotely sensed data and geographically referenced information covering Canadian territory, in support of national sovereignty, defense, the environment, socio-economic development and the governing of Canada. In partnership with its counterparts, NRCan also maintains the boundary between the United States and Canada and carries out boundary survey work and inspections.

NRCan is the Government's primary source of expertise on explosives regulations and technology. The Department develops technologies and conducts inspections associated with the manufacture, use, storage and transport of explosives and pyrotechnics. In conjunction with Justice Canada, NRCan works to improve safety in the explosives industry by producing the explosives regulations in plain language and assisting in negotiations in international agreements.

NRCan provides the policy framework for safety and security in Canada's energy sector and specifically for energy transmission, offshore development and Canada's uranium and nuclear industry. It makes recommendations to the Minister on issues concerning the National Energy Board, the Atomic Energy of Canada Limited, the Atomic Energy Control Board, and the Newfoundland and Nova Scotia Offshore boards. NRCan promulgates health and safety regulations to ensure the integrity of survival and evacuation systems for frontier oil and gas exploration and development.

Included within this business line is the Geomatics Canada Revolving Fund. Parliament has previously authorized a total drawdown of \$8,000,000 for the Geomatics Canada Revolving Fund. The projected use of this authority as related to these Estimates is included under the Information Dissemination and Consensus Building business line.

Sound Departmental Management

This Business Line represents the corporate management that administers the Department's internal functions. It provides corporate strategic and management direction for aligning departmental objectives to ministerial and government priorities, for setting goals and monitoring results, and for managing allocated resources in an effective and efficient manner through: corporate strategic planning, department-wide policy coordination and issues management; Cabinet and Parliamentary liaison; financial, administration, real property, human resources, information management/information technology direction and services; communications strategy, advice and services; the administration of environmental policy and assessment activities; support to the Chief Science Advisor; and internal audits and program evaluations.

Natural Resources Atomic Energy Control Board

Objectives

To limit, to a reasonable level and in a manner that is consistent with Canada's international obligations, the risks to national security, the health and safety of persons and the environment that are associated with the development, production and use of nuclear energy and the production, possession and use of nuclear substances, prescribed equipment and prescribed information.

To implement, in Canada, measures to which Canada has agreed respecting international control of the development, production and use of nuclear energy, including the non-proliferation of nuclear weapons and nuclear explosive devices and to support international efforts to develop, maintain and strengthen the nuclear non-proliferation and safeguards regimes.

Business Line Descriptions

Health, Safety, Security and Environmental Protection

The AECB regulates the development, production, possession and use of nuclear energy, substances, equipment and information through a comprehensive licensing system. This system is designed to minimize the likelihood that nuclear workers, the public and the environment are exposed to unacceptable levels of radiation and to the radioactive or hazardous substances associated with nuclear technology. The AECB regulates such operations and facilities as accelerators, non-power nuclear reactors, nuclear fuel facilities, nuclear research and test establishments, nuclear substance transport packages, pool-type irradiators, power reactors, radioisotopes, radioisotope production facilities, uranium mines and mills and nuclear waste management facilities.

Non-Proliferation and Safeguards

The AECB regulates non-proliferation and safeguards through the implementation of safeguards agreements between Canada and the International Atomic Energy Agency (IAEA) and the nuclear non-proliferation provisions of Canada's nuclear cooperation agreements; and the maintenance of both a comprehensive nuclear materials/activity accounting/verification framework and a nuclear export and import licensing system. In addition, the AECB participates in multilateral nuclear non-proliferation, safeguards and security initiatives to strengthen the international nuclear non-proliferation regime and provides advice to senior government officials on the development and application of Canada's nuclear non-proliferation policy, IAEA safeguards implementation and development and international issues concerning the security of nuclear material and facilities.

Natural Resources Atomic Energy of Canada Limited

Objectives

To develop the utilization of atomic energy for peaceful purposes.

Description of Funding Through Appropriations

Nuclear Research and Development

Operates nuclear laboratories at Chalk River and Whiteshell to provide the multi-disciplinary technology base underlying the Canadian atomic energy program. The Whiteshell laboratories are in the transition process leading to eventual closure and decommissioning.

Undertakes applied research and development on existing and future nuclear power reactors, fuel cycles and systems, environmental protection, radioactive waste management and safeguards systems to:

- (i) secure for Canada a safe, reliable, long-term energy supply;
- (ii) increase the utilization of atomic energy to overcome future energy shortages;
- (iii) secure the CANDU option by improving reactor efficiency, integrity, and safety;
- (iv) demonstrate the safe management of radioactive wastes and other by-products.

Undertakes underlying research on the properties of materials, on chemistry including that fundamental to fuel development and waste management, and on the effects of radiation on man.

The above programs require major facilities such as reactors, experimental loops, accelerators, hot cells, waste management plants, and support services including financial, administrative, engineering and maintenance.

Natural Resources National Energy Board

Objectives

To regulate, in the public interest, those areas of the oil, gas and electricity industries relating to:

- the construction and operation of pipelines;
- the construction and operation of international and designated interprovincial power lines;
- traffic, tolls and tariffs of pipelines;
- exports of oil, gas and electricity and imports of gas and oil; and,
- oil and gas activities on Frontier lands not subject to a federal provincial accord.

To provide advice to the Minister of Natural Resources Canada on the development and use of energy resources.

Business Line Descriptions

Energy Regulation and Advice

The companies that are regulated by the Board create wealth for Canadians through the transport of oil, natural gas and natural gas liquids, and through the export of hydrocarbons and electricity. As a regulatory agency, the Board's role is to help create a framework which allows these economic activities to occur when they are in the public interest.

Parliament

The Senate

Objectives

To enable the Senate to carry out its constitutional role and to administer the affairs of the Senate.

The Senate has four main functions: to represent regional provincial and minority interests; to investigate national issues; to debate; and to legislate.

Senators perform these functions either individually through their offices or collectively through deliberations in the Senate Chamber and in Committees. Senate Administration provides the support services required by Senators in the performance of these parliamentary functions.

Business Line Descriptions

Senators and their Offices

This business line provides Senators with the statutory services set out in the *Parliament of Canada Act* and the *Members of Parliament Retiring Allowances Act*. Operating costs of Senators' offices are provided in accordance with established policies and guidelines.

Costs included under these two categories are: Senators' sessional indemnities and allowances as well as contributions to the Senators' pension plan; retiring allowances; travel and communication expenses; Senators' research and office expenses, including staff costs and the cost of goods and services incurred for the operations of Senators' offices; and Caucus research funds.

Chamber Operations

This business line provides the support and services Senators require for their work in the Senate Chamber, which includes debate and approval of legislation, presentation of petitions, discussion of Committee reports and ceremonial events. These functions are carried out in accordance with the Rules of the Senate, parliamentary procedure and precedents and the Speaker's rulings.

Costs included under this business line are: salaries for additional duties of the Officers of the Senate; staff costs and the costs of operating the offices of Officers of the Senate; salaries and other operating expenses of the Clerk of the Senate, Deputy Clerk, Parliamentary Counsel and Usher of the Black Rod; journals, reporting of debates and publications service in both official languages; Senate Pages; and parliamentary exchanges.

Committees

This business line provides support for the work of Senators on standing, special and joint committees. Committees are delegated the task of conducting in-depth studies of bills and approving or amending legislation based on testimony from expert witnesses and advice and counsel from legal experts. They investigate policy matters and make recommendations as well as examine the Government's spending proposals.

Senators also participate in parliamentary associations and friendship groups, representing Canada in international forums where issues of importance to Canadians are discussed.

Costs included under this business line are: committees and parliamentary associations; reporting of debates and publications service; and broadcasting committee proceedings.

Parliament The Senate

Administrative Support

This business line provides the on-going support services required for the effective, efficient and economical delivery of operating programs outlined under the other three business lines of the Senate. Administrative Support provides accommodation and other facilities and tools, information, goods and services, and expert advice on all aspects of operations.

Costs included in this business line are: financial services and materiel management; human resources; protective services; communications and information services; information technology management; accommodation planning, maintenance and upkeep of premises; postal, messenger and printing services; and repairs, trades and transportation services.

Parliament

House of Commons

Objectives

The House administration supports the activities of Members, both individually and collectively, in their roles as representatives of 301 constituencies, in the Chamber, in committee and in Caucus.

Business Line Descriptions

Constituency

This business line supports Members as elected representatives of 301 constituencies. In this capacity, Members carry out their responsibilities in a similar fashion as the operation of 301 small business enterprises. They receive the services and support set out in legislation such as the *Parliament of Canada Act*, the By-laws of the Board of Internal Economy, the Standing Orders and the Speaker's rulings. Other services that support the work of Members in constituencies are provided in compliance with the guidelines and standards established by the Board. The following costs are included:

- Members' salaries and allowances, including contributions to the Members' Pension Plan;
- Members' office budgets, including staff costs, office expenses and constituency travel;
- Communicating with constituents, including travel and communications;
- Goods and Services Supplied by the House;
- Other Staff Costs; and
- Institution's Administrative Costs for supporting this activity.

Chamber

This business line provides the resources for the Member's role in the Chamber, as Members are entitled to vote in the House of Commons or the Committee of the Whole House. In the Chamber, their actions must be in accordance with the Standing Orders of the House of Commons, parliamentary procedure, legal precedents and the Speaker's rulings, which are all not subject to appeal. When Members are performing these duties, a full range of services is required, including the following:

- Debates Reporting Service, Index and Reference Service, Publications Service;
- Security Services;
- Postal, Distribution and Messenger Services;
- Parliamentary Broadcasting;
- Maintenance Operations;
- Trades and Transport Services;
- Parliamentary Research and Exchanges;
- Page Program;
- Journals; and
- Institution's Administrative Costs for supporting this activity.

Committee

This business line provides the funding that supports Members when they sit on standing committees, special or joint committees, and the Board of Internal Economy. This role is necessary as the House of Commons delegates in-depth consideration of bills and the thorough scrutiny of the government's programs and policies to its committees. Members also participate in parliamentary associations and friendship groups, and are members of delegations in parliamentary exchanges. Professional advice is available to them on substantive issues involving the work of these associations and exchanges, and legal consultants provide advice and counsel with regard to the formulation of amendments to Government bills. The following are included:

- Committees and Parliamentary Associations;
- Parliamentary Research and Exchanges;
- Debates Reporting Service, Index and Reference Service, Publications Service;
- Parliamentary Broadcasting; and
- Institution's Administrative Costs for supporting this activity.

Parliament

House of Commons

Caucus

This business line provides the resources to support Members in their meetings with a variety of groups and in their relations with Members of their caucuses, including support to Party Research Offices and House Officers (the Speaker, Deputy Speaker, House Leaders, the Whips, and their respective assistants). The status of every Member is conferred by the Constitution and the *Parliament of Canada Act*. The By-laws of the Board of Internal Economy provide more information about the discretion left to the Members in various realms. The following are included in this activity:

- House Officers' Additional Salaries;
- Budget For Research Offices, Party Leaders and Other Offices of House Officers, including staff costs and operating costs;
- Other Personnel Costs; and
- Institution's Administrative Costs for supporting this activity.

Institution

This business line provides the resources for the House of Commons administrative staff. House employees are responsible for providing services to the Members elected during a Parliament, and in addition, serve the House as an institution on a permanent basis. The Orientation Program for new Members provides an opportunity to introduce newcomers to the By-laws of the Board of Internal Economy, administrative policies and rules of procedure, and the precedents earlier Parliaments have set to support future Parliaments. The staff of the House of Commons strive to represent the institution well and to support the Members in their roles as representatives of 301 constituencies, in the Chamber, in committee and in Caucus. Funds are included for:

- Policy and Management (Offices of the Clerk, Clerk Assistant, Deputy Clerk and Sergeant-at-Arms);
- Financial Services;
- Human Resources;
- Information Services;
- Security Services;
- Canadian Press Gallery;
- Building Services;
- Logistics Services;
- Telecommunications Services;
- Postal, Distribution and Messenger Services; and
- Institution's Administrative Costs for supporting this activity.

Library of Parliament

Objectives

To provide Parliament in timely fashion with comprehensive and reliable information, documentation, research and analysis while maintaining extensive and pertinent collections to support the functions of legislation and representation; and to distribute information about Canada's Parliament to the public.

Business Line Descriptions

Services to Parliamentarians

As the Library's primary clients, Parliamentarians and their staff individually or collectively, are offered a broad range of services and products in the Chambers, committees, and constituencies/regions. Research and analysis services are available exclusively to Parliamentarians.

Services to Authorised Clients

Other authorised clients are provided with personalised information and reference services, and a range of assistance according to level-of-service guidelines. As it does for primary clients, the Library must continually review its services and products in order to meet the evolving needs of authorised clients.

Provide Collections to Parliament

The Library ensures that its collections are developed and maintained through responsive acquisition and careful cataloguing of books and documents and analysis of new media. By preserving its historical collections, the Library ensures that our cultural and political heritage remains accessible by current and future generations.

Services to the Public

The Library of Parliament offers a wide range of services and programs for the public, including guided tours, theatrical animation programs, a call-centre for inquiries, the Teachers' Institute on Canadian Parliamentary Democracy, and a souvenir boutique.

Infrastructure Services

A wide range of support services ensures that the Library operates efficiently while achieving its goals.

Privy Council Department

Objectives

The strategic objective of the Privy Council Office is to provide for the operation and support of the central decision-making mechanism of the Government.

Business Line Descriptions

Office of the Prime Minister

The Prime Minister's Office Business Line provides advice, information and special services to support the Prime Minister as Head of Government and Chairman of Cabinet, including liaison with Ministers, issue management, government communications, planning and operations related to representation of Canada in the international community, and support for certain political responsibilities, including relations with Caucus. The Business Line also includes costs of operating the Official Residences of the Prime Minister. However, the National Capital Commission is responsible to furnish, maintain, heat and keep in repair the Prime Minister's Official Residences.

Ministers' Offices

The Ministers' Offices business line consists of: the Office of the Deputy Prime Minister who undertakes specific functions delegated by the Prime Minister, including serving as Acting Prime Minister in the Prime Minister's absence; the Office of the President of the Privy Council and Minister of Intergovernmental Affairs who is responsible for overseeing the management of federal-provincial relations; the Office of the Leader of the Government in the Senate who is responsible for the management of the Government's legislative program in the Senate; and the Office of the Leader of the Government in the House of Commons who is responsible for the legislative program in the House of Commons.

This Business Line provides for the administration of offices providing support services, information and advice to those Ministers. An Executive Assistant is responsible for the management of each of the above offices.

In addition, this Business Line includes the salaries and motor car allowances for Secretaries of State who assist Cabinet Ministers in carrying out their responsibilities. The operating budgets for the offices of these Secretaries of State are included in the Estimates of the respective departments.

Privy Council Office

The Privy Council Office Business Line consists of the Plans and Consultation Branch, the Operations Branch, the Security and Intelligence Branch, the Deputy Clerk and Counsel Branch, the Management Priorities and Senior Personnel Secretariat, the Foreign and Defence Policy Secretariat, and the Intergovernmental Affairs Branch.

The overall responsibilities of the Privy Council Office may be summarized as follows:

- provision of support and advice to the Prime Minister in his constitutional role as Head of Government and Advisor to the Crown;
- coordination and provision of material related to the meetings of Cabinet and committees of Cabinet for use by the Prime Minister, the chairpersons of committees, and members of committees;
- liaison with departments and agencies of government on Cabinet matters and other issues of importance to the Prime Minister and the Government;
- provision of support and advice to the Prime Minister respecting his prerogatives and responsibilities for the organization of the Government of Canada and for making recommendations to the Governor in Council on senior appointments; and
- provision of advice to the Prime Minister on national security and foreign intelligence matters.

Privy Council Department

The Privy Council Office is also responsible for supporting the Prime Minister and the Minister of Intergovernmental Affairs concerning the federal-provincial aspects of federal government policies. The Privy Council Office also supports the Leader of the Government in the House of Commons and the Leader of the Government in the Senate in the coordination and management of the Government's Parliamentary program and in the provision of policy advice on Parliamentary and electoral matters. In particular, it undertakes the following:

- formulates appropriate longer term policy relating to federal-provincial affairs and constitutional development;
- ensures that a federal-provincial perspective is brought to bear in the development of federal policies and programs, and provides information and analyses relating to emerging intergovernmental issues which require policy development;
- promotes and facilitates federal-provincial cooperation and consultation, and oversees federal activities pursuant to commitments and undertakings by First Ministers;
- provides administrative support and coordinates preparations for First Ministers' Conferences and meetings as well as for the Prime Minister's bilateral and multilateral meetings with his provincial counterparts; and
- provided advice on aboriginal affairs and maintains effective relations with representatives of aboriginal peoples, provincial and territorial governments and federal departments with respect to aboriginal issues, including aboriginal constitutional matters.

The Privy Council Office also supports the Minister designated as the Federal Interlocutor for Métis and Non-Status Indians.

While the above functions are expected to remain stable throughout the current time frame, the priorities of the Privy Council Office can be altered dramatically and unpredictably as a consequence of changes by the government to its established priorities, policies or direction, either in response to external pressures or by decisions to pursue different policy objectives.

Commissions of Inquiry and Task Forces

The Commissions of Inquiry and Task Forces Business Line consists of funding, as required, for Commissions of Inquiry appointed to make recommendations on specific issues and for the Task Forces and other persons or bodies that need to operate independently from the Privy Council Office, while still receiving the appropriate level of administrative services from the department.

Due to their independent nature and for administrative purposes, Commissions of Inquiry established under the *Inquiries Act* appear under the Privy Council Program.

Corporate Services

The Corporate Services Business Line within the Privy Council Program is responsible for providing regular ongoing administrative services and, as well, specialized services not found in other government departments. These common services are provided to the Prime Minister's Office, the President of the Privy Council and Minister of Intergovernmental Affairs and other Ministers' Offices within the Program, as well as the Privy Council Office. They include financial, administrative, information management, informatics, technical, translation and human resource services as well as responses to requests for access to information under the Access to Information and Privacy Acts.

Specialized services include the costs of operating the Prime Minister's switchboard, a correspondence unit responsible for the handling of all non-political, non-personal mail addressed to the Prime Minister and when required, to other Ministers in his portfolio, and technical tour support to the Prime Minister's Office. As well, the Business Line provides certain administrative services to Commissions of Inquiry and Task Forces.

Corporate services are provided by the following divisions: Office of the Assistant Deputy Minister (Corporate Services), Financial Services, Administration Informatics and Technical Services, Information Services, Access to Information and Privacy Office, Executive Correspondence Services and Human Resources Services.

Privy Council Canadian Centre for Management Development

Objectives

To assist managers in developing the conceptual, analytical, decision-making, problem-solving and implementation skills critical to meeting the current and future management challenges in the federal government, including responding to the changes in the social, cultural, racial and linguistic character of Canadian society; to assist managers in understanding the policies, operation, organization, dynamics and traditions of the federal government; and in managing government programs, services and personnel, efficiently and effectively, in a context of employment equity; to broaden the knowledge base related to the theory and practice of public sector management; and to further exchanges between senior private and public sector officials and academics on management issues.

Business Line Descriptions

Contribute to Building a Management Agenda for the Public Service of the Future

In partnership with other central agencies, provides a corporate research program that identifies critical management issues and brings together key Public Service leaders, academics and leading thinkers to discuss, debate and dialogue on options for their resolution in an “action research” network learning mode and provides a forum for discussions to better understand and generate visions of a renewed Public Service.

Strengthen Corporate Leadership Capacity Through Learning

Designs world-class learning opportunities that support the priorities of the Clerk; value service to Canadians in delivery and policy making; utilize modern leadership and management techniques; and value the creation of partnerships in public, private and voluntary sectors. These learning opportunities are designed to help Public Service managers develop the leadership skills to improve service to Canadians and implement renewal both at a personal and systemic level, both horizontally across the Public Service and vertically in departments. Supports continuous learning through networks, coaching and mentoring and offers a forum for exploring new ideas and learning from others to solve corporate cross-cutting issues.

Support Leaders of Change and Transformation

Provides support for corporate change agendas through customized design of management development programming. Transfers learning experiences to assist managers in improving teamwork to implement corporate change agendas.

Program Support

Provides leadership and support for the strategic directions of CCMD. Provides efficient and effective management and administrative services including finance, administration, information technology and management, communications and evaluation, all in support of program delivery and future directions.

National Round Table on the Environment and the Economy

Objectives

To play the role of catalyst in identifying, explaining and promoting, in all sectors of Canadian society and in all regions of Canada, the principles and practices of sustainable development.

Business Line Descriptions

The provision of objective views and information regarding the state of the debate on the environment and the economy

The NRTEE is a multistakeholder body comprised of a Chair and a maximum of 24 members who are opinion leaders from a variety of regions and sectors of Canadian society including business, labour, academia, environmental organizations and First Nations. The NRTEE actively promotes a round table and multistakeholder approach to analysing sustainable development issues and acts as a forum in which all points of view can be freely expressed and debated. The NRTEE members and stakeholders involved in its programs strive to define the relationship between the environment and the economy, to determine where consensus exists on resolving particular issues, and to identify any barriers that prevent consensus. This information is consolidated, assessed and communicated to stakeholders, relevant decision makers, and the media.

Within the NRTEE business line, activities are organized according to a number of program areas. Each potential program area is scoped and defined, and a task force assigned to oversee the associated activities. Emerging issues are continually explored, and if determined to be a priority, are established as new program areas as funds become available.

Public Works and Government Services

Department

Government Services Program

Objectives

To provide the best value for taxpayers' dollars in common and central services delivered to departments, agencies and other clients with due regard for the important government values of prudence, probity and transparency. By focusing on what the department does best – providing cost-effective services to government – PWGSC helps departments focus on what they do best.

Business Line Descriptions

Real Property Services

Real Property Services (RPS) Business Line activities center on two principal functions: real property stewardship and real property services. Using a net-voted appropriation, RPS provides leadership and stewardship as custodian of federal office and common-use facilities as well as various engineering works (e.g., bridges and dams). Related to this activity, RPS provides productive work environments for some 160,000 federal public servants (100 departments and agencies) and manages an inventory of some 6.0 million square meters of space at an annual net appropriation of approximately \$1.3 billion. Included in this inventory are national treasures such as the Parliamentary Precinct and heritage assets across Canada.

The RPS Business Line also provides expert and value-added professional and technical real property services (including architectural and engineering, real estate, and property and facilities management) to other departments and agencies. These services are provided on a fully optional basis and are charged at comparable market-based rates and managed through the RPS Revolving Fund. The services function also encompasses the administration, on behalf of the federal government, of Payments-in-Lieu of Taxes and the Real Property Disposition Revolving Fund, which facilitates the disposal of properties surplus to the needs of the government.

Supply Operations Service

The Supply component provides common services for acquiring goods and services on behalf of the federal government. It manages the supply process by assisting client departments with requirements definition, undertaking bid solicitation, evaluation and selection, and contract negotiation and administration. It also provides auxiliary services such as market research to identify what products are available from suppliers; product planning; method-of-supply studies; maintenance of statistical data base and reporting capability; policy framework; policy review and promulgation; and the technological infrastructure to support the electronic procurement function. In addition, Supply encompasses responsibility for all procurement-related aspects of Major Crown Projects.

Supply also includes certain specialized activities: marine inspection and technical services; cost analysis support; management of Crown-owned production assets; industrial security and personal security screening services for PWGSC and industry; development and maintenance of consensus standards and conformity assessment services; management of seized property (assets seized as a result of being obtained from the proceeds of crime); central freight, travel management, and household goods removal services; and, transportation advisory services.

The Crown Assets Distribution (CAD) component provides disposal services for all federal government departments and agencies. Disposal methods include sale, transfer, trade-in, donation, lease, loan and destruction.

Receiver General

The Receiver General Business Line is responsible for the receipt, transfer, holding, disbursement, reconciliation and monitoring of public money on behalf of the Government of Canada. The Business Line issues Receiver General payments, redeems and validates these instruments and Employment Insurance Warrants. It maintains the Accounts of Canada and provides interim reports, produces the Public Accounts of Canada and maintains the Central Accounting System. As a derivative of the above activity, the Receiver General provides optional related financial services to departments and agencies.

Government Services Program

Public Service Compensation

Public Service Compensation administers government payroll and pension processes, including the development and maintenance of computer systems and a national service office infrastructure, in order to allow departments to administer pay and benefits in accordance with the collective agreements and compensation policies established by Treasury Board and for the purpose of the administration of the *Public Service Superannuation Act* (PSSA). It also provides specialized pension services to National Defence and the Royal Canadian Mounted Police (RCMP) for the administration of their plans.

Government Telecommunications and Informatics Services

Government Telecommunications and Informatics Services (GTIS) acts as a key delivery agent of the Government of Canada's Information Management/Information Technology (IM/IT) Federated Infrastructure, which provides a secure delivery channel for electronic commerce and electronic service delivery government-wide. It also provides optional IM/IT services supporting the program delivery requirements of all federal departments, including PWGSC. GTIS provides leadership in supporting government-wide initiatives to solve fundamental IM/IT issues, development of a secure electronic delivery channel, IM/IT risk management and community renewal. Its services are delivered through partnership arrangements with the private sector and public sector institutions.

GTIS offers the following types of services:

- Strategic Services, focusing on development of government portfolio strategies and key technology partnerships, GOC IM/IT community renewal through *The Institute* and software sharing within the Government of Canada and with other levels of government through the *Software Exchange Service*;
- Secure Electronic Commerce and Emerging Technologies Services, focusing on provision of electronic commerce services and deployment of the Federated Infrastructure, which provides a secure electronic delivery channel for government;
- Applications Management Services, focusing on productivity, quality and enhancement of common support applications and information management;
- Network and Computer Services, focusing on end-to-end accountability and optimization of IM/IT network and computer services;
- Telecommunications Services, focusing on brokering telecommunications services from the private sector to meet the needs of small- and medium-sized departments; and
- Management Services, focusing on modernizing management and administrative practices to enhance GTIS efficiency.

Consulting and Audit Canada

Consulting and Audit Canada (CAC) is a Special Operating Agency that provides, on an optional and fee-for-service basis, consulting and audit services to federal Government departments and agencies across Canada. Services may also be made available to foreign governments and international organizations. CAC helps clients to provide better service by improving public sector management, operations and administration while meeting the priorities and needs of government. CAC stresses excellence in client service and the sharing of public sector expertise. Consulting and audit services focus on areas of particular relevance to the federal government and evolve with the needs of the public service managers and the priorities of the government. A few examples of CAC's services include program management and review, information technology development and review, financial management and approaches to risk management and comptrollership along with a variety of audit services. More than half of CAC services are delivered through partnering with the private sector via subcontracting, with the remainder delivered by in-house resources.

Translation Bureau

The Translation Bureau was established as a Special Operating Agency in 1995. The Bureau's translation services (official languages and over 100 other languages) to other federal government departments and agencies are optional and are provided on a cost-recovery basis. The Bureau receives vote funding for providing translation and interpretation services to Parliament and for supplying other government departments and agencies with standardized terminology and certain conference interpretation services. The Bureau maintains the mandate to standardize the use of terminology in the federal public service. The provision of these services is essential for the government to be able to deliver programs and services in both official languages.

Communications Coordination Services

The Communications Coordination Services (CCS) Business Line's services include advertising and public opinion research, media monitoring coordination, value-added communications-procurement services, and Crown copyright administration. As well, there are the Public Access services which include: The *Canada Gazette*, the Depository Services Program (DSP), Canadian Government Publishing, the Government Enquiry Centre, The Canada Site (the Government of Canada primary internet site) and Publiservice.

These services are key to fulfilling the Government of Canada's communications objectives. They fulfill a public policy need and/or they provide shared common services to all government communicators, and serve individual client departments (e.g., procurement services) and the broader communications objectives of the Government of Canada (e.g., Government Enquiry Centre, electronic media monitoring, use of common design for signage and merchandising at collocated departmental booths at fairs and exhibitions, and the Depository Services Program).

Operational Support

Operational Support is comprised of two service lines: a suite of support services combined under Information Management/Information Technology (IM/IT) – Departmental Operations and Corporate Management.

The Information Management/Information Technology (IM/IT) – Departmental Operations Service Line includes the provision of information management and information technology (IM/IT) support to PWGSC operations and its Business Lines.

The Corporate Management Service Line includes providing support to the offices of the Minister and the Deputy Minister, providing corporate services on a national basis related to finance, communications, audit and review, human resources, materiel management, security, contracts claims resolution, corporate policy and planning, portfolio management, corporate secretary function and legal services.

Public Works and Government Services Canada Mortgage and Housing Corporation

Objectives

To promote housing affordability and choice, ensure access to and competition and efficiency in housing finance, and protect the availability of adequate housing funding at low cost; to plan, research, and provide services and information, in areas of housing finance, affordability and choice, living environments and community planning; to promote and develop the export of Canadian expertise in housing research, services and products, and to support and participate in development and investigation of such expertise outside Canada; and to contribute to the overall well-being of the housing sector.

Description of Funding Through Appropriations

Canada Mortgage and Housing Corporation

Housing financing related activity includes provision of insurance against borrower default on residential mortgages, and guarantees for the principal and interest to investors in securities based on insured mortgages. The activities are funded through premiums and guarantee fees.

The Corporation undertakes housing research and information transfers, provides housing related services, develops and sells CMHC and federally held lands, and works in partnership with the provinces in land developments, on a fee for services basis.

CMHC identifies market opportunities, and provides practical information and advice to the housing industry in the export of Canadian housing expertise and products.

CMHC administers assisted housing initiatives for the federal government, provides loans and other investments for the initiatives with borrowings from the capital markets, and undertakes housing research. Housing assistance is provided in the form of housing supply, subsidies and renovations. The assistance is targeted to Canadians most in need.

Solicitor General Department

Objectives

To provide overall policy direction to the programs of the Ministry, and to perform review functions related to Ministry Agencies.

Business Line Descriptions

Advice to the Solicitor General Regarding Ministerial Direction to the Agencies, Portfolio Management and National Policy Leadership

The Department develops, provides and coordinates timely, responsive, integrated and comprehensive policy advice to the Minister in support of his responsibilities to: a) give direction to, and answer in Parliament for, the Ministry Agencies; b) enhance policy cohesion and coordination within the Portfolio; and c) exercise national policy leadership in policing and law enforcement, national security and corrections and conditional release.

First Nations Policing Program

The implementation of the First Nations Policing Policy provides practical ways to improve the administration of justice for First Nations through the establishment and maintenance of policing services that are professional, effective, and responsive to the particular needs of First Nations and Inuit communities.

The Aboriginal Policing Directorate is responsible for the implementation, maintenance and development of the First Nations Policing Program within the framework of the First Nations Policing Policy.

Office of the Inspector General, CSIS

The office of the Inspector General of CSIS is established by the *Canadian Security Intelligence Act*. The Inspector General has right of access to CSIS information and serves as the Solicitor General's internal auditor for CSIS operational activities. The office of the Inspector General regularly monitors the Service's compliance with its operational policies; reviews CSIS operational activities for compliance with law, other authorities, controls and standards governing the performance of these operational activities; and provides classified reports in support of the Inspector General's advice and a statutorily required Certificate to the Minister regarding these matters. Special reviews may also be conducted at the direction of the Minister, Security Intelligence Review Committee (SIRC), or on the Inspector General's own initiative.

*CORCAN, a revolving fund activity, is included in this business line. Its portion of this business line refers to the cash requirements for the Fund over the fiscal year and does not directly reflect the operating profit or loss that the fund will realize since the latter is calculated on an accrual accounting basis. Therefore, some cash amounts included in the Estimates do not impact upon the operating balance and certain other items that must be taken into consideration in calculating the profit or loss do not require a direct cash expenditure. The two can be reconciled as follows:

	(thousands of dollars)
Expected operating loss	530

Solicitor General Royal Canadian Mounted Police

Objectives

To enforce laws, prevent crime and maintain peace, order and security.

Business Line Descriptions

Federal Policing Services

Federal Policing Services provides policing, law enforcement, investigative, technical and protective services to the federal government to assist in the protection of public health and safety, the environment, trade and commerce, revenue collection, national security, foreign missions and state officials.

Contract Policing Services

Contract Policing Services ensures safe homes and safe communities by providing police services to diverse communities in eight provinces (with the exception of Quebec and Ontario) and three territories through cost-shared policing service agreements with federal, provincial, territorial, municipal, and aboriginal governments.

National Police Services

National Police Services provides specialized technical services to the law enforcement community and improves law enforcement investigative tools and the nature, scope and quality of shared law enforcement information which is used by the Canadian policing community, federal departments, law and regulatory enforcement agencies, and selected foreign police organizations, including Interpol. These services are used by the RCMP's federal and contract policing business lines and, to a limited extent, Peacekeeping Services business line.

RCMP specialized technical services provided to the law enforcement community include forensic laboratory (e.g., DNA analysis), identification (e.g., fingerprints), computerized police information (e.g., criminal records, communications), intelligence (e.g., organized crime), and advanced training services to the Canadian and international police community and some departmental law enforcement agencies.

Internal Services

Internal Services supports the internal management of the organization.

Peacekeeping Services

Peacekeeping Services manages the effective and timely participation of Canadian civilian police in international peacekeeping activities. These services are provided in accordance with Canada's foreign policy requirements and are undertaken on a full cost recovery basis with other governmental agencies such as the Canadian International Development Agency (CIDA) and the Department of Foreign Affairs and International Trade (DFAIT).

Objectives

To provide the public with an opportunity to make complaints regarding the conduct of members of the RCMP in the performance of their duties, and to have the RCMP disposition of those complaints reviewed by an external body in an independent and impartial manner.

Business Line Descriptions

Receipt and Review of Public Complaints

The RCMP Public Complaints Commission is an impartial and independent government institution. It receives complaints from the public and transfers them to the RCMP for investigation. It can also review the RCMP disposition if the complainant is not satisfied with that disposition. The Commission may conduct investigations, hold public hearings, summon witnesses, administer oaths, accept such evidence as the Commission sees fit and make findings and recommendations to the Commissioner of the RCMP and the Solicitor General of Canada. The Commission Chair may initiate complaints. The Chair must also submit an Annual Report to the Solicitor General setting out a summary of the activities of the Commission during the year and recommendations for tabling before each House of Parliament.

Transport Department

Objectives

To ensure high standards for a safe transportation system through:

- a comprehensive and progressive regulatory framework and standards; and
- effective certification, monitoring, inspection and compliance programs.

To contribute to Canada's prosperity through:

- up-to-date policies;
- the removal of institutional and legislative barriers; and
- selective funding of key elements of the system.

To protect the physical environment by:

- evaluating the impacts of policy and regulatory decisions on the environment; and
- promoting and meeting environmental standards.

To work with partners and clients through:

- effective consultation on transportation initiatives; and
- the implementation and management of joint undertakings.

To strengthen our services by:

- understanding our clients' needs; and
- providing decision making as close as possible to the clients.

To provide a challenging and supportive work environment by:

- treating people with trust and respect;
- developing and implementing effective human resource strategies; and
- providing a reward and recognition system consistent with our values.

Business Line Descriptions

Transport Canadian Transportation Agency

Objectives

To contribute to the attainment of an efficient and accessible Canadian transportation system that serves the needs of shippers, carriers, travellers and other users.

Business Line Descriptions

The Canadian Transportation Agency program is responsible for processing matters that come under the jurisdiction of the *Canada Transportation Act* and other related legislation, as they affect the rail, air and marine activities within federal jurisdiction. It examines applications, hears complaints and conducts investigations. It administers various competitive access and dispute resolution provisions relating to matters between railways and other affected parties such as shippers, municipalities, utility companies, landowners and other railways. It prepares the maximum rate scales annually for the movements of western grain and undertakes statutory costing activities. It protects the interests of consumers and carriers by ensuring that air carriers operating to, from and within Canada meet certain minimum economic requirements. To this end, it administers an air carrier licensing system, international air agreements and international air tariffs. Consumers interests are also protected through a certificate of fitness system for railways. It is also responsible for ensuring that undue obstacles to the mobility of persons with disabilities are removed from federally regulated transportation services and facilities.

Treasury Board Secretariat

Objectives

To support the Treasury Board as the government's management board in partnership with departments, agencies, Crown corporations and other central agencies, to achieve excellence in serving the government, Parliament and Canadians.

Business Line Descriptions

Expenditure Management and Planning

The Secretariat supports the Treasury Board by providing analysis and advice related to the utilization and management of direct program expenditures encompassing three areas:

- operating and capital budgets of government departments and agencies;
- payments to dependent Crown corporations; and
- transfer payments to organizations, individuals and corporations.

Oversight of the remaining major statutory program spending is the responsibility of the Department of Finance Canada.

Comptrollership

The role of the Comptrollership business line is to provide strategic leadership to government departments, other central agencies and Treasury Board Secretariat (TBS) on all matters related to comptrollership. These include financial management, procurement and management of assets, internal audit and program evaluation, management of risk, results-based management, and reporting to Parliament (Estimates, supply bills and Public Accounts).

Service and Innovation

The mandate of this business line is to lead government-wide initiatives to improve the delivery of government services to Canadians by:

- exercising leadership for service delivery improvement, innovation and organizational performance;
- developing and sharing knowledge, research, information and expertise on service and innovation; and
- facilitating the free flow of information and demonstrating a clear visual link between citizens and the Government of Canada's programs and services, and developing a common look and feel for all public access channels.

Information Management and Information Technology

The goal of this business line is to provide strategic direction and leadership in leveraging information management and information technology to improve public access to government services and to meet Public Service renewal objectives.

Human Resources Management

TBS is responsible for providing strategic direction for the management of human resources in the Public Service; for fulfilling the employer responsibilities of the Treasury Board; for delivering certain corporate responsibilities, programs and initiatives; and for working with departments to improve the quality of human resources management and measure progress.

TBS Corporate Administration

The Secretariat's corporate administration includes the offices of the President, the Secretary–Comptroller General, and the Deputy Secretary, and provides executive and ministerial direction and advice, as well as legal, public affairs, financial, human resources, and administrative services.

Veterans Affairs Program

Objectives

Contribute to the financial, physical and social health and well-being of veterans and other eligible clients in recognition of the sacrifices they made while serving their country, and to keep the memory of these sacrifices alive for all Canadians.

Business Line Descriptions

Benefits and Services

The Benefits and Services business line consists of four constituent service lines: Pensions and Allowances, Pensions Advocacy, Health Care, and Commemoration. These service lines provide, in a fair and timely manner, compensation for hardships arising from disabilities and lost economic opportunities, professional legal representation, the delivery of innovative health and social programs and programs aimed at recognizing and honouring the achievements and sacrifices of Portfolio client groups.

Corporate Administration

The Corporate Administration business line is composed of the following corporate functions: Offices of the Minister, the Deputy Minister, the Associate Deputy Minister, the Assistant Deputy Minister Corporate Services, Conflict Resolution, and Access to Information and Privacy; as well as executive secretariat services (including legislation and regulation), communications, corporate planning, finance (including Property Management functions), human resources, information management, management support services, audit and evaluation, and security services. These functions provide the corporate management and administrative support which enables the organization to set direction, manage change and assess performance.
