Hon. Dalton McGuinty  
Premier of Ontario  
Queen's Park  
Rm 281, Main Legislative Building  
Toronto ON M7A 1A4

Dear Premier McGuinty

Please find enclosed a copy of resolution #4 for January 18, 2006, adopted at the regular meeting of the Council of the United Townships of Head, Clara & Maria in support of Nuclear New Build at the Rolphton site and/or AECL's Chalk River Laboratories site.

We are optimistic about the Ontario Power Authority's recommendations concerning maximizing the capabilities of existing nuclear plants and the role of new nuclear power plants in Ontario's future energy mix.

We believe that the development of nuclear power plants at already licensed sites will benefit our local communities, the County of Renfrew and the Province of Ontario as a whole. It will enable the Province to meet its clean-air objectives for future energy supply and will enable costs to be kept at a minimum.

We respectfully request that you consider our support of Nuclear New Build at the existing sites in Renfrew County and the potential benefits to the residents of our area and the province as a whole when determining where new nuclear developments will occur in Ontario.

Thank you in advance for your consideration.
