- 3.2. The Adjustment Factor is automatically locked in on the Contract Date.

4. CWB's OBLIGATIONS

The CWB agrees as follows:

- a. To guarantee that it will accept delivery of the *Net Tonnes* contracted pursuant to this Agreement. If sufficient *Delivery Opportunities* are not provided during the 2008-09 crop year, the CWB will provide additional delivery opportunities. However, the CWB is not obliged to accept delivery of the *Net Tonnes* unless it is satisfied, in its sole discretion, that the producer took full advantage of all *Delivery Opportunities* for *Wheat* that were available to the producer from time to time during the 2008-09 crop year for which the *BPC* was chosen.
- b. To pay the producer in accordance with the terms herein contained in respect of the BPC.

5. PRODUCER'S OBLIGATIONS

- a. The producer undertakes to deliver the Net Tonnes in accordance with the CWB's Delivery Opportunities and this Agreement.
- b. The producer acknowledges that, except to the extent that any provisions may be inconsistent, this Agreement does not alter the producer's obligations under any delivery contract entered into between the producer and the CWB. The producer agrees that this shall be the case regardless of whether such delivery contract is entered into prior to or subsequent to the producer entering into this Agreement. In the event of such an inconsistency, the provisions of this Agreement will prevail.
- c. For the sake of clarity, the producer acknowledges that the only payment they will receive in respect of the Net Tonnes is the Option Payment.
- d. The producer undertakes to use his best efforts to deliver to the CWB the class of Wheat specified in this Agreement.

6. PRICING

- **6.1.** Subject to paragraph 6.3(a)(i) below, the producer may lock-in a *Basis* or a *Futures Price* for all or a portion of the *Net Tonnes* to which the price available at the time is to apply at the value indicated on the *Pricing Schedule* on such date.
- **6.2.** Beginning August 1, 2008, the producer may roll forward or backward all or a portion of the *Net Tonnes* to other Available Futures Months (the "Rollover").

6.3 Payment

- a. The Option Payment for a BPC is calculated as follows for each Net Tonne of Wheat.
 - i. Add the aggregate Basis amount (including any adjustments to the Basis resulting from Rollovers, as applicable);
 - ii. Add the Incremental Payment shown in the Pricing Schedule in effect on the Contract Date that corresponds to the Settlement Date;
 - iii. Add the Futures Price;
 - iv. Add the Adjustment Factor in effect on the Contract Date.

If the producer has locked in multiple deliveries, with respect to each delivery the *Futures Prices* and/or *Basis*, as applicable, will be applied on a first in, first applied basis;

- v. Adjust the CWB's grade and/or protein spread between the Reference Grade and the Actual Grade based on the Initial Payment on the Settlement Date;
- vi. Subtract the administration fee shown in the *Pricing Schedule* for *Rollovers Adjustments* (if applicable). An administration fee of \$1 per tonne is charged for each *Rollover Adjustment*;
- vii. Subtract the Feed Wheat Discount, if applicable, as specified in Pricing Schedule on the Settlement Date; and
- viii. Subtract all deductions authorized under the Canadian Wheat Board Act or under this Agreement or otherwise required by law, including, without limitation; the Force Majeure Deduction, if applicable, deductions under the Agricultural Marketing Programs Act, the Prairie Grain Advance Payment Act and the Spring Credit Advance Program.
- b. If the *Option Payment* less the *Initial Payment* results in a positive number the CWB agrees to forthwith pay same to the producer. If the *Option Payment* less the *Initial Payment* results in a negative number such amount will be deducted from future payments owing to the producer.

6.4 Designating the Net Tonnes

a. The producer undertakes to designate at the time of delivery the *Net Tonnes* to be priced under the *BPC*. Such designation must be made on or before the *Settlement Date* and shall be made by providing the contract number of the *BPC* to the CWB's agent at the location where the *Wheat* is delivered. Settlement must occur within the 2008-09 crop year.

7. FORCE MAJEURE

- a. A producer who has elected to include the Force Majeure provision in this Agreement and who is unable to deliver all or a portion of the Net Tonnes as a result of a Force Majeure Event, will be relieved of his/her obligations thereunder to the extent of the production loss and will not be required to pay Pricing Damages relative to same.
- b. A producer who has entered into a BPC with the Force Majeure provision must deliver against that contract in priority to all other contracts for like varieties of Wheat.
- c. A producer must determine on the Contract Date whether to have included in the Terms and Conditions the Force Majeure provision.
- d. A producer may enter into a BPC containing the Force Majeure provision on or before 7:30 a.m. (CT) on May 1, 2008.

2008-09 CWB BASIS PRICE CONTRACT FOR WHEAT: TERMS AND CONDITIONS

- e. A producer may only enter into a *BPC* with the Force Majeure provision for up to 50 per cent of his/her anticipated production. If the producer signs up tonnes in excess of 50 per cent of his/her anticipated production, the producer will be charged the *Force Majeure Deduction* on all of the *Net Tonnes*, however the provision will be of no force and effect for each *Net Tonne* which exceeds 50 per cent of his/her anticipated production.
- f. The producer will be charged the *Force Majeure Deduction* in consideration for the inclusion of the Force Majeure provision in the Agreement to reflect the additional risk that is being assumed by the CWB.
- g. A BPC containing the Force Majeure provision is not assignable. A producer may assign the contract provided that he has paid the Force Majeure Deduction on each of the Net Tonnes and both he and the assignee have acknowledged that the Force Majeure provision is of no force and effect.
- h. A producer must notify the CWB within 15 days of the occurrence of a *Force Majeure Event*, and the producer must prove to the CWB's satisfaction that a *Force Majeure Event* occurred which limited the producer's production.

8. DEFAULT

- a. The producer shall be deemed to be in default under the *BPC* if the producer fails, for any reason, to deliver all of the *Net Tonnes* through *Delivery Opportunities*. If the CWB, in its sole discretion, determines that the producer has fully utilized all of the available *Delivery Opportunities*, additional delivery opportunity will be provided.
- b. In the event that the producer is in default, the CWB may cancel the BPC and any or all other contracts to which the CWB and the producer are party.
- c. Further, the producer shall pay *Pricing Damages* to the CWB to compensate the CWB for its actual losses incurred as a result of the producer's default. Such *Pricing Damages* shall be equal to the *Buyout Price* in effect at the time of such default. The producer is responsible to deliver 100 per cent of the contracted *BPC* tonnage and any shortfall is subject to *Pricing Damages*.
- d. In the event that the producer is in default as a result of his/her failure to deliver the Net Tonnes the Pricing Damages assessed in accordance with this paragraph will be paid in addition to any liquidated damages which may be assessed pursuant to any delivery contract entered into with the CWB.
- e. The producer and the CWB agree that *Pricing Damages* determined in this manner are a genuine pre-estimate of the actual damages the CWB will incur as a result of the default by the producer and that such damages are not a penalty.
- f. Pricing Damages may be set-off by the CWB against any and all amounts that may become payable to the producer by the CWB, and/or against the proceeds of any and all deliveries made by the producer under the producer's delivery permit, or under any and all delivery permits in which the producer has an interest and is considered as a related producer. Any such delivery permit may be so endorsed.
