

DIVISION 15

Adulteration of food

- B. 15.001.** A food named in column III of an item of Table I to this Division is adulterated if the substance named in Column I of that item is present therein or has been added thereto in an amount exceeding the amount, expressed in parts per million, shown in column II of that item for that food.
- 22-1-81 **B. 15.002.** (1) Subject to subsections (2) and (3), a food is adulterated if an agricultural chemical or any of its derivatives is present therein or has been added thereto, singly or in any combination, in an amount exceeding 0.1 part per million, unless it is listed and used in accordance with the tables to Division 16.
- (2) Subject to subsection (3), a food is exempt from paragraph 4(d) of the Act if the only agricultural chemicals that are present therein or have been added thereto are any of the following:
- (a) a fertilizer;
 - (b) an adjuvant or a carrier of an agricultural chemical;
 - (c) an inorganic bromide salt;
 - (d) silicon dioxide;
 - 22-3-05 (e) sulphur;
 - (f) viable spores of *Bacillus thuringiensis* Berliner; or
 - (g) kaolin.
- 26-1-98 (3) A food named in column IV of an item of Table II to this Division, a food that contains any such food or a food made from a product of any such food is exempt from the application of paragraph 4(d) of the Act if the agricultural chemicals named in columns I and II of that item are present in or have been added to the food in an amount not exceeding the maximum residue limit set out in column III of that item.
- 3-7-97 (4) A food set out in a Notice of Interim Marketing Authorization published under subsection B.01.056(6) is exempt from paragraph 4(d) of the Act in respect of any agricultural chemical or derivative of such a chemical, and any veterinary drug, set out in that notice that is present in the food in an amount not exceeding the maximum residue limit, expressed in parts per million, set out for the food in that notice.
- 11-4-91 **B. 15.003.** A food named in column IV of an item of Table III to this Division is exempt from paragraph 4(d) of the Act if the drug named in column I, and analysed as being the substance named in column II, of that item is present in the food in an amount not exceeding the limit, expressed in parts per million, set out in column III of that item for that food.

DIVISION 16

Food Additives

- 13-5-75 | **B.16.001.** A quantitative statement of the amount of each additive present or directions for use that, if followed, will produce a food that will not contain such additives in excess of the maximum levels of use prescribed by these Regulations shall be shown, grouped together with the list of ingredients, of any substance or mixture of substances for use as a food additive.
- 3-9-64 | **B.16.002.** A request that a food additive be added to or a change made in the Tables following section B.16.100 shall be accompanied by a submission to the Minister in a form, manner and content satisfactory to him and shall include
- (a) a description of the food additive, including its chemical name and the name under which it is proposed to be sold, its method of manufacture, its chemical and physical properties, its composition and its specifications and, where that information is not available, a detailed explanation;
 - (b) a statement of the amount of the food additive proposed for use, and the purpose for which it is proposed, together with all directions, recommendations and suggestions for use;
 - (c) where necessary, in the opinion of the Director, an acceptable method of analysis suitable for regulatory purposes that will determine the amount of the food additive and of any substance resulting from the use of the food additive in the finished food;
 - (d) data establishing that the food additive will have the intended physical or other technical effect;
 - (e) detailed reports of tests made to establish the safety of the food additive under the conditions of use recommended;
 - (f) data to indicate the residues that may remain in or upon the finished food when the food additive is used in accordance with good manufacturing practice;
 - (g) a proposed maximum limit for residues of the food additive in or upon the finished food;
 - (h) specimens of the labelling proposed for the food additive; and
 - (i) a sample of the food additive in the form in which it is proposed to be used in foods, a sample of the active ingredient, and, on request a sample of food containing the food additive.
- B.16.003.** The Minister shall, within ninety days after the filing of a submission in accordance with section B.16.002, notify the person filing the submission whether or not it is his intention to recommend to the Governor-in-Council that the said food additive be so listed and the detail of any listing to be recommended.
- 19-3-97 | **B.16.004.** Repealed by P.C. 1997-378 of March 19, 1997.
- 3-9-64 | **B.16.006.** Paragraph (c) of section B.01.042 and paragraph (a) of section B.01.043 do not apply to spices, seasonings, flavouring preparations, essential oils, oleoresins and natural extractives.
- 6-11-87 | **B.16.007.** No person shall sell a food containing a food additive other than a food additive provided for in sections B.01.042, B.01.043 and B.25.062.
- 11-8-88 | **B.16.008.** Revoked by P.C. 1988-1604 of August 11, 1988.
- 3-9-64 | **B.16.100.** No person shall sell any substance as a food additive unless the food additive is listed in one or more of the following Tables:

TABLE XV -- (continued)

<i>Item No.</i>	<i>Column I Additive</i>	<i>Column II Permitted in or Upon</i>	<i>Column III Maximum Residue</i>	<i>Column IV Maximum Level of Use</i>
11	Glyceryl tributyrate (Tributylin)	(1) (naming the flavour) Flavour (Division 10) (2) Unstandardized flavouring preparations		(1) Good Manufacturing Practice (2) Good Manufacturing Practice
1-11-94	Hexane	(1) Spice extracts; Natural extractives	(1) 25 p.p.m.	
27-4-78		(2) Hop extract in accordance with subparagraph B.02.130(b)(v) and paragraph B.02.133(a)	(2) 2.2%	
1-11-94		(3) Vegetable fats and oils (4) Vegetable oil seed meals (5) Pre-isomerized hop extract in accordance with subparagraph B.02.134(1)(a)(i) and subsection B.02.134(2)	(3) 10 p.p.m. (4) 10 p.p.m. (5) 1.5 p.p.m. per percent iso-alpha acid content of the pre-isomerized hop extract	
1-4-82	Isopropyl alcohol (Isopropanol)	(1) Spice extracts; Natural extractives (2) Fish protein (3) (naming the flavour) Flavour (Division 10) (4) Unstandardized flavouring preparations (5) Meat and Egg Marking Inks	(1) 50 p.p.m. (2) 0.15%	(3) Good Manufacturing Practice (4) Good Manufacturing Practice (5) Good Manufacturing Practice
1-11-94	Methyl Alcohol (methanol)	(1) Spice extracts; Natural extractives	(1) 50 p.p.m.	
1-4-82		(2) Hop extract in accordance with subparagraph B.02.130(b)(v) and paragraph B.02.133(a) (3) Meat and Egg Marking Inks	(2) 0.15%	
7-10-82	14.1 Methyl ethyl ketone (2-Butanone)	(1) Spice extracts; Natural extractives	(1) 50 p.p.m.
