Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Preview of Products and Services, 2006 Census of Population: Standard data products

Population and dwelling counts	
Major characteristics	Along with a selected set of geography products that will be made available (see separate entry for Geography products), the 2006 Census will provide a set of national overview tables (part of the Highlight tables series) and <i>A National Overview</i> publication. These two products present a geographic distribution of Canada's population and dwelling counts at various levels of geography.
What's new?	<ul style="list-style-type: none"> ▪ National overview tables (part of the Highlight tables series) available to download into a comma-separated ASCII format (CSV) option.
Geography	<p>Levels of geography for both the national overview tables (part of the Highlight tables series) and the national overview publication:</p> <p>Canada, province and territory, federal electoral district (FED) (2003 Representation Order), census metropolitan area/census agglomeration (CMA/CA) and their zones of influence, census division/census subdivision (CD/CSD), urban area (UA), designated place (DPL), statistical area classification (SAC).</p> <p>As well, for the national overview tables (part of the Highlight tables series): Forward sortation area (FSA) will be available July 17, 2007.</p>
Internet access	<p>National overview tables (part of the Highlight tables series) - available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).
Other delivery methods	<p><i>A National Overview: Population and Dwelling Counts, 2006 Census</i> (print publication).</p> <p>Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.</p>
Availability	<p>Population and dwelling counts - National overview tables (part of the Highlight tables series) – March 13, 2007.</p> <p><i>A National Overview: Population and Dwelling Counts, 2006 Census</i> (print publication) – June 28, 2007.</p>
Price / Price range	<p>Population and dwelling counts - National overview tables (part of the Highlight tables series) – available for free to all users via the Internet.</p> <p><i>A National Overview: Population and Dwelling Counts, 2006 Census</i> (print publication – June 28, 2007). CAN\$40.</p>

Preview of Products and Services, 2006 Census of Population: Standard data products

Highlight tables	
Major characteristics	Beginning with the population and dwelling counts, these tables will be available for each of the eight major releases. Available on each official day of release they will present information highlights by topic via key indicators for various levels of geography. For example, these will include percent distributions and percentage change from 2001. The tables allow users to perform simple rank and sort functions.
What's new?	<ul style="list-style-type: none"> ▪ Expansion from 2001 based on ongoing consultation and research (i.e., new indicators, additional geographies, etc.). ▪ Available to download into a comma-separated ASCII format (CSV) option. ▪ Graphing capabilities for selected geographies and tables.
Geography	<p>Proposed levels of geography:</p> <p>Canada, province and territory, census metropolitan area/census agglomeration (CMA/CA), and their zones of influence (where applicable), census division (CD) and census subdivision (CSD).</p>
Internet access	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).
Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	From March 13, 2007 through May 1, 2008.
Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).

Preview of Products and Services, 2006 Census of Population: Standard data products

Analysis series	
Major characteristics	This series, launched via <i>The Daily</i> , for each of the eight major releases, includes a number of comprehensive analytical articles which will supplement day of release information. These catalogued articles provide an analytical perspective on 2006 Census topics. There are plans to complement these articles, where applicable, with animated vignettes and/or thematic maps.
What's new?	<ul style="list-style-type: none"> ▪ Where possible and/or applicable - plan to produce additional articles beyond those provided on day of release as additional data becomes available such as mobility and migration and housing and shelter costs.
Geography	Various levels of geography.
Internet access	Available for free to all users via the Internet: <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ PDF format.
Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	On and/or following each major day of release.
Price / Price range	Available for free to all users via the Internet: <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ PDF format.

Preview of Products and Services, 2006 Census of Population: Standard data products

Topic-based tabulations

Major characteristics

This series of cross-tabulations will present a portrait of Canada based on the various census topics. They will range in complexity and will be available for various levels of geography. A number of the tabulations will be available on day of release for each topic, while others will follow several months later. Content varies from:

- A simple overview of the country.
- Simple to more complex cross-tabulations.
- Current and previous census data.

What's new?

- Visit the topic-based tabulations page at www12.statcan.ca/english/census06/data/topics/Index.cfm for a content preview of the tables to be released from the 2006 Census.
- Standardization of variable content where possible.
- Streamlined and better integrated content to promote tables for which there is a more prominent demand.
- Better designed set of comprehensive tabulations to be more easily viewed and accessed from the Internet.

Geography

Various levels of geography (dependent on type of tabulation - some available on day of release and some to follow): Canada, province and territory, federal electoral district (FED) (2003 Representation Order), census metropolitan area/census agglomeration (CMA/CA), census division/census subdivision (CD/CSD), census tract (CT), forward sortation area (FSA), dissemination area (DA).

Internet access

Available for free to all users via the Internet:

- Canada, province and territory and census metropolitan area/census agglomeration (CMA/CA), and where possible, selected census divisions/census subdivisions (CD/CSD). Please note that there may be tabulations at these levels of geography that have been deemed too complex for 'general public access'.
- Pre-determined key stakeholders and partners will be provided with varying expanded Internet access privileges in order to obtain additional tabulations at no charge (i.e., more complex, lower levels of geography, additional format - Beyond 20/20). For this subset of tabulations, the general public will be directed to the Statistics Canada online catalogue listing to purchase for a fee. Please note that a number of libraries across the country will have expanded Internet access privileges and therefore, access for the general public on site.

Other delivery methods

Various electronic formats (i.e., Beyond 20/20).

Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.

Availability

From July 17, 2007 through 3rd quarter 2008. Some available on day of release and some to follow throughout the dissemination cycle.

Price / Price range

Some tables are available for free to all users via the Internet, while others are available for a fee (prices vary according to the level of geography and format) – see note above under 'Internet access'.

Preview of Products and Services, 2006 Census of Population: Standard data products

	Profiles Cumulative profile and release components
Major characteristics	Provides a statistical overview of various geographic areas based on a number of detailed variables and/or groups of variables. Release components will be available beginning with the Age and sex release and 'built-upon/appended to' throughout the release cycle. Together they will form the complete cumulative profile (approximately 1,700 data lines).
What's new?	<ul style="list-style-type: none"> ▪ Visit the cumulative profile and release components page at www12.statcan.ca/English/census06/data/profiles/release/Index.cfm for a content preview of the tables to be released from the 2006 Census. ▪ Census metropolitan area/census agglomeration (CMA/CA) – available free to general public via the Internet. ▪ Plan to release the complete cumulative profile for all levels of geography shortly following the last of the eight major releases (i.e., 2nd quarter 2008). ▪ Content now better integrated with other profile-type products.
Geography	<ul style="list-style-type: none"> ▪ Release component available on major days of release, starting with the Age and sex release at the following levels of geography: Canada, province and territory, federal electoral district (FED) (2003 Representation Order), census metropolitan area/census agglomeration (CMA/CA), census division/census subdivision (CD/CSD) and census tract (CT). ▪ Release component available following major days of release, starting with the Age and sex release: Forward sortation area (FSA), dissemination area (DA), urban area (UA), designated place (DPL). ▪ Complete cumulative profile for all levels of geography available shortly following the last of the eight major releases (i.e., May, 2008). ▪ Cumulative dissolved census subdivision (CSD) profile (i.e., municipalities that underwent boundary changes/amalgamation between 2001 and 2006) – following the last of the eight major releases (i.e., 3rd quarter 2008).
Internet access	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Census metropolitan area/census agglomeration (CMA/CA). ▪ Pre-determined key stakeholders and partners will be provided with varying expanded Internet access privileges in order to obtain lower levels of geography, all geographies and additional format (Beyond 20/20) for free. For this subset, the general public will be directed to the Statistics Canada online catalogue listing to purchase for a fee. Please note that a number of libraries across the country will have expanded Internet access privileges and therefore, access for the general public on site.
Other delivery methods	<p>Various electronic formats (i.e., Beyond 20/20).</p> <p>Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.</p>
Availability	<p>Release components available from July 17, 2007 through May 29, 2008.</p> <p>Complete cumulative profile (all levels of geography) available May 29, 2008.</p> <p>Cumulative dissolved census subdivisions profile available 3rd quarter 2008.</p>
Price / Price range	Some tables are available for free to all users via the Internet, while others are available for a fee (prices vary according to the level of geography and format) – see note above under 'Internet access'.

Preview of Products and Services, 2006 Census of Population: Standard data products

	Profiles
	Print profile series
Major characteristics	<p>Provides a statistical overview of various geographic areas based on a number of detailed variables and/or groups of variables in a publication series format.</p> <ul style="list-style-type: none"> ▪ Census division/census subdivision (CD/CSD) profile series. ▪ Census metropolitan area/census agglomeration (CMA/CA), census tract (CT) profile series. <p>Approximately 500 data lines.</p>
What's new?	<ul style="list-style-type: none"> ▪ Nothing new to report for this product.
Geography	<ul style="list-style-type: none"> ▪ Census division/census subdivision (CD/CSD). ▪ Census metropolitan area/census agglomeration (CMA/CA), census tract (CT).
Internet access	<p>Offered through the Statistics Canada online catalogue listing only - to purchase for a fee.</p> <p>Copies available for use on site in libraries.</p>
Other delivery methods	Not available.
Availability	April 16, 2009.
Price / Price range	CAN\$70 to 335.

Preview of Products and Services, 2006 Census of Population: Specialized products

Community profiles	
Major characteristics	Provides a statistical overview of all Canadian communities based on a number of variables and/or groups of variables. Profile components will be available for each of the eight major releases, beginning with the first release (Population and dwelling counts) and 'built-upon/appended to' throughout the release cycle. It will consist of approximately 200 data lines in total. A mapping feature is available for viewing the location of a community within Canada and a graphing capability enables the user to view the data using figures such as bar charts and/or pie charts.
What's new?	<ul style="list-style-type: none"> ▪ Ability to compare any two regions found within the community profiles. ▪ Ability to build a 'custom view'. ▪ Possible expansion of content. ▪ Option to initiate 'new search' from every page. ▪ A download to comma-separated ASCII format (CSV) option. ▪ Print-friendly format. ▪ Improved mapping capabilities.
Geography	Canada, province and territory, census metropolitan area/census agglomeration (CMA/CA), census division/census subdivision (CD/CSD), dissolved census subdivision (CSD), health region (available late 2008).
Internet access	Available for free to all users via the Internet: <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).
Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	March 13, 2007 through May 1, 2008.
Price / Price range	Available for free to all users via the Internet: <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).

Preview of Products and Services, 2006 Census of Population: Specialized products

Aboriginal population profile	
Major characteristics	<p>Provides a specific statistical overview based on a number of variables and/or groups of variables for the Aboriginal identity population for various communities in Canada where the Aboriginal identity population is at least 250 persons.</p> <p>Aboriginal identity refers to those persons who reported identifying with at least one Aboriginal group, that is, North American Indian, Métis or Inuit, and/or those who reported being a Treaty Indian or a Registered Indian, as defined by the <i>Indian Act</i> of Canada, and/or those who reported they were members of an Indian Band or First Nation.</p> <p>This product will be released in two phases. The first portion of information will be disseminated with the official Aboriginal release on January 15, 2008 and will include data releases up to and including the Aboriginal release. The final portion will follow the last release of Income (2nd quarter 2008). The product will include approximately 200 data lines. A mapping feature is available for viewing the location of a community within Canada.</p>
What's new?	<ul style="list-style-type: none"> ▪ Ability to compare any two regions found within the Aboriginal population profile. ▪ Ability to build a 'custom view'. ▪ Possible expansion of content. ▪ Option to initiate 'new search' from every page. ▪ A download to comma-separated ASCII format (CSV) option. ▪ Print-friendly format. ▪ Improved mapping capabilities.
Geography	<p>Canada, province and territory, selected census metropolitan area/census agglomeration (CMA/CA), census division/census subdivision (CD/CSD), dissolved census subdivision (CSD), designated place (DPL), health region (available late 2008).</p>
Internet access	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).
Other delivery methods	<p>Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.</p>
Availability	<p>Phase 1 release: data up to and including official Aboriginal release, January 15, 2008.</p> <p>Phase 2 release: following the last major release (i.e., Income), 2nd quarter 2008.</p>
Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).

Preview of Products and Services, 2006 Census of Population: Specialized products

Federal electoral district profile	
Major characteristics	<p>Provides a statistical overview based on a number of variables and/or groups of variables for the 308 federal electoral districts (FEDs) within Canada (2003 Representation Order).</p> <p>The product will include approximately 200 data lines and will be available following the last of the eight major releases (i.e., Income, 2nd quarter 2008). A mapping feature is available for viewing the location of a federal electoral district (FED) within Canada.</p>
What's new?	<ul style="list-style-type: none"> ▪ Possible expansion of content. ▪ A download to comma-separated ASCII format (CSV) option. ▪ Print-friendly format. ▪ Additional functionality being considered. ▪ Improved mapping capabilities.
Geography	Federal electoral district (FED) (2003 Representation Order).

Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).

Preview of Products and Services, 2006 Census of Population: Specialized products

Census trends	
Major characteristics	<p>This new product will present a series of summary data trends spanning the 2006, 2001 and 1996 censuses. The product is designed to facilitate the analysis and comparison of the changing demographic and socio-economic composition of selected geographic areas across Canada. Summary data trends will include percentage distributions and percentage change.</p> <p>This product will be released in two phases. The first set of summary data trends will be released on December 4, 2007 and the final portion will be released in the 2nd quarter 2008. The product will include approximately 85 key data indicators.</p>
What's new?	<ul style="list-style-type: none"> ▪ New product for 2006. ▪ A download to comma-separated ASCII format (CSV) option. ▪ Print-friendly format. ▪ Additional functionality being considered. ▪ Ability to compare data trends for geographic areas.
Geography	Canada, province and territory, census metropolitan area/census agglomeration (CMA/CA), selected census subdivision (CSD).
Internet access	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).
Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	<p>Phase 1 release: data up to and including official release of Languages; Mobility; Immigration/Citizenship; etc., December 4, 2007.</p> <p>Phase 2 release: additional data up to and including the last major release of Income (2nd quarter 2008).</p>
Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ Comma-separated ASCII format (CSV).

Preview of Products and Services, 2006 Census of Population: Specialized products

Special interest profile

Major characteristics

This new product will present data for specific census topics and population groups according to selected demographic, cultural, and socio-economic characteristics. These detailed 'profile-type' tables expand the analytical depth of basic census information.

Potential special interest profiles include:

- Ethnic groups.
- Aboriginal peoples.
- Youth.
- Seniors.
- Occupation.
- Industry.

What's new?

- New product for 2006.
- A download to comma-separated ASCII format (CSV) option.
- Print-friendly format.

Geography

Canada, province and territory, census metropolitan area/census agglomeration (CMA/CA).

Internet access

Available for free to all users via the Internet:

- Hypertext Mark-up Language (HTML) format.
- Print-friendly format.
- Comma-separated ASCII format (CSV).

Other delivery methods

Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.

Availability

From 4th quarter 2008 through 1st quarter 2009.

Price / Price range

Available for free to all users via the Internet:

- Hypertext Mark-up Language (HTML) format.
- Print-friendly format.
- Comma-separated ASCII format (CSV).

Preview of Products and Services, 2006 Census of Population: Specialized products

Public use microdata files (PUMFs)	
Major characteristics	<p>The census microdata files provide unique access to a small sample of non-aggregated data. They contain samples of anonymous responses to the 2006 Census questionnaire. The files have been carefully scrutinized to ensure the complete confidentiality of the individual responses.</p> <p>The PUMF user can group and manipulate these variables to suit data and research requirements. Tabulations excluded from other census products can be created or relationships between variables can be analysed using different statistical tests. The PUMF provides access to a comprehensive social and economic database about Canada and its people.</p> <p>Most of the subject matter covered by the census is included in the microdata files. To ensure the respondents' anonymity, geographic identifiers will be restricted to provinces/territories and large census metropolitan areas.</p>
What's new?	<ul style="list-style-type: none"> ▪ Number of files to be produced, specific content, format and levels of geography available - to be determined.
Geography	To be determined.
Internet access	Offered through the Statistics Canada online catalogue listing only (for fee).
Other delivery methods	To be determined.
Availability	To be determined.
Price / Price range	To be determined.

Preview of Products and Services, 2006 Census of Population: Specialized products

Census tract (CT) profiles	
Major characteristics	<p>Census tract (CT) profiles provide 2006 Census data for census tracts. Census tracts are small, relatively stable geographic areas that are located in census metropolitan areas (CMAs) and larger census agglomerations (CAs) and usually have a population of 2,500 to 8,000.</p> <p>These profiles contain free information for all census tracts in Canada. Search capabilities such as by postal code and a mapping application assist the user in finding a census tract of interest. A graphing capability enables the user to view the data using figures such as bar charts and/or pie charts. Additional information on data quality indexes and definitions is also available.</p>
What's new?	<ul style="list-style-type: none"> ▪ New product for 2006. ▪ Option to search using a postal code or GeoSearch2006. ▪ A download to comma-separated ASCII format (CSV) option. ▪ Print-friendly format. ▪ Mapping capabilities.
Geography	Province (PR), census metropolitan area/census agglomeration/census tract (CMA/CA/CT).
Internet access	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print friendly format. ▪ Comma-separated ASCII format (CSV).
Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	July 17, 2007 through May 1, 2008.
Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print friendly format. ▪ Comma-separated ASCII format (CSV).

Price / Price range	CAN\$65.

Preview of Products and Services, 2006 Census of Population: Specialized products

Teacher's kits	
Major characteristics	<p>This kit provides teachers with innovative classroom materials involving the results of the 2006 Census. Activities are available for elementary, intermediate and secondary schools, are classroom-ready, and have been classroom-tested by professional educators. Minimal preparation time is required.</p> <p>Activities are grouped according to subject, using census terminology. For example, activities one to three deal with population counts, the first variable released for the 2006 Census.</p> <p>The 2006 Census results teacher's kit activities are appropriate for the following subjects: English, Mathematics, Art, Social Sciences, Geography, History, Family Studies and Informatics. Suggested grade levels are indicated on each activity and all necessary tables, charts, graphs and data are included.</p>
What's new?	<ul style="list-style-type: none"> ▪ To be determined.
Geography	Not applicable.
Internet access	The activities are produced in both HTML and PDF formats.
Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	1st quarter, 2008.
Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ PDF format.

Preview of Products and Services, 2006 Census of Population: Reference products

Preview of products and services	
Major characteristics	<p>Provides a complete overview of the proposed products and services that will be released based on the 2006 Census results. Information (where applicable) will include major characteristics and content, 'What's new?' in comparison to 2001, levels of geography, availability/delivery methods, release timeframe and pricing.</p> <p>Regular updates will be made to this product throughout the census dissemination cycle.</p>
What's new?	<ul style="list-style-type: none"> ▪ Exclusively an Internet product for 2006 - no longer available in a formalized print format (i.e., newsletter publication); however, PDF formats available via the Internet. ▪ Now an incrementally updated product – as details regarding products and services become finalized, updates/additions will be made. ▪ The traditional census catalogue will not be produced for 2006. Users are encouraged to make use of the Statistics Canada online catalogue. ▪ The census standard products stubsets document will not be offered as a formalized product for 2006.
Geography	Not applicable.
Internet access	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ PDF formats (8.5x11 and 11x17).
Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	October 17, 2006 through 2008.
Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ PDF format.

Preview of Products and Services, 2006 Census of Population: Reference products

Dictionary	
Major characteristics	Provides a reference perspective of every aspect of the Census of Population and Census of Agriculture along with an overview of every phase of the census, from content determination to data dissemination with focus on the changes from 2001. As well as including detailed definitions of Census of Population concepts, universes, variables and geography, it also contains historical information to facilitate the comparison of variables between census years.
What's new?	<ul style="list-style-type: none"> ▪ The traditional census dictionary and census handbook have been merged into one comprehensive product for 2006 under the title of the dictionary. ▪ Internet version of the dictionary will be released in an incremental multi-phased approach: <ul style="list-style-type: none"> ○ Phase 1: geography variables. ○ Phase 2: remaining variables. ○ Phase 3: traditional handbook content with more emphasis on changes for 2006. ○ Phase 4: appendices. ▪ Formalized print publication will be produced later in the dissemination cycle (2nd quarter 2008).
Geography	Not applicable.
Internet access	Available for free to all users via the Internet: <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ PDF format.
Other delivery methods	Print publication and/or contact Statistics Canada's National Contact Centre at 1-800-263-1136.
Availability	Internet version: Phase 1: geography variables/definitions (February 14, 2007). Phase 2: remaining variables (May 8, 2007): The education questions on the census underwent substantial changes for 2006. Definitions and concepts are currently being developed. Census dictionary information on the topic of education will appear in the fall of 2007. Phase 3: traditional handbook content with more emphasis on changes for 2006 (fall, 2007). Phase 4: appendices (fall, 2007). Print publication: 2nd quarter 2008.
Price / Price range	Available for free to all users via the Internet: <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format. ▪ PDF format. Print publication – CAN\$27.

Preview of Products and Services, 2006 Census of Population: Reference products

Technical reports	
Major characteristics	<p>There will be two formalized technical reports produced for the 2006 Census: Sampling and Weighting, and Coverage. The content of these reports are aimed at moderate and sophisticated users.</p> <p>The Sampling and Weighting technical report will present the method of sampling and weighting used in the 2006 Census as well as its effect on the results. This report identifies bias, discrepancies observed and explains the probable causes.</p> <p>The Coverage technical report will present the coverage errors which occurred when persons or dwellings were missed by the 2006 Census or enumerated in error. Coverage errors are one of the most important types of error, since they affect not only the accuracy of the counts of the various census universes, but also the accuracy of all of the census data describing the characteristics of these universes.</p>
What's new?	<ul style="list-style-type: none"> ▪ Two formalized technical reports will be produced for 2006: Sampling and Weighting, and Coverage. ▪ Additional existing 2001 Census technical reports will be replaced with reference guides to be released around the major days of release.

Other delivery methods	Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	Two formalized technical reports: Sampling and Weighting (4th quarter 2008), and Coverage (4th quarter 2009).
Price / Price range	<p>Available for free to all users via the Internet:</p> <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format.

Preview of Products and Services, 2006 Census of Population: Reference products

Reference guides	
Major characteristics	Provides information that enables users to effectively use, apply and interpret data from the 2006 Census. Each guide contains definitions and explanations on census concepts, data quality and historical comparability. Additional information will be included for specific variables to help general users better understand the concepts and questions used in the census.
What's new?	<ul style="list-style-type: none"> ▪ Product has been renamed from user guides to reference guides. ▪ The additional existing 2001 Census technical reports, other than Sampling and Weighting, and Coverage, will be produced as reference guides to be released around the applicable major day of release. ▪ More detailed reference guides will be produced for variables where significant content change was made in 2006, namely, education and income.
Geography	Not applicable.
Internet access	Available for free to all users via the Internet: <ul style="list-style-type: none"> ▪ Hypertext Mark-up Language (HTML) format. ▪ Print-friendly format.

	Illustrated glossary
Major characteristics	The Illustrated Glossary is a tool that can help users take full advantage of census data, by providing an understanding of the terms related to geographic concepts, infrastructure, products and services. Geography is important to the national statistical system. Well-defined geographic areas provide the framework for the collection, presentation and analysis of data. Visitors to the census site can access the illustrated glossary which presents geographic concepts, products and services, as well as links to online tutorials and detailed definitions. To view the glossary, go to the census geography area on the Statistics Canada website.

	Digital geographic files
	Cartographic boundary files
Major characteristics	Cartographic boundary files present standard census geographic areas with coastlines and shorelines on the perimeter of Canada's landmass, including major islands. The files also include a water layer with other selected water features. The cartographic boundary files provide a framework for mapping and spatial analysis and are traditionally used with commercially available geographic information systems (GIS) or other mapping software.
What's new?	<ul style="list-style-type: none"> ▪ Canada, province and territory, census division (CD), census subdivision (CSD), economic region (ER), census metropolitan area/census agglomeration (CMA/CA), census consolidated subdivision (CCS), will be available for free from the Internet. ▪ Available in GML, MapInfo® and ArcInfo® formats.

	Digital geographic files
	Digital boundary files
Major characteristics	Digital boundary files present the boundaries used for the 2006 Census. They often extend as straight lines into bodies of water. They provide a framework for mapping and spatial analysis and are traditionally used with commercially available geographic information systems (GIS) or other mapping software. The files may not be suitable for mapping or display where realistic shoreline is required.
What's new?	<ul style="list-style-type: none"> ▪ Canada, province and territory, census division (CD), census subdivision (CSD), economic region (ER), census metropolitan area/census agglomeration (CMA/CA) and census consolidated subdivision (CCS) will be available for free from the Internet. ▪ Available in GML, MapInfo® and ArcInfo® formats.

Preview of Products and Services, 2006 Census of Population: Geography products

	Digital geographic files
	Road network and geographic attribute file
Major characteristics	<p>The Road Network and Geographic Attribute File (RNGAF) is a digital representation of Canada's national road network, containing information such as street name, type, direction, address range and road rank. Address ranges are largely dwelling-based and occur mainly in urban centres of Canada. Also included on each side of every road arc are identification names and codes for the following levels of geography:</p> <ul style="list-style-type: none"> ▪ province/territory; ▪ census subdivision; ▪ census metropolitan area; ▪ census agglomeration; ▪ census tract. <p>Roads are ranked according to four levels of detail, suitable for mapping at small to medium scales. The RNGAF provides cartographic reference features in the production of thematic maps using the 2006 Census Boundary Files. The positional accuracy of the RNGAF does not support cadastral, surveying, digitizing or engineering applications.</p> <p>The RNGAF is in latitude/longitude coordinates based upon the North American Datum of 1983 (NAD83). A reference guide is available (92-155-GIE).</p>
What's new?	<ul style="list-style-type: none"> ▪ New product for 2006. Replaces the 2001 Skeletal Road Network Files. ▪ Available in GML, MapInfo[®] and ArcInfo[®] formats.
Geography	Canada, province and territory.

	Postal code geography files
Major characteristics	<p>The Postal Code Conversion File (PCCF) links the six-character postal codes to the standard 2006 Census geographic areas (such as dissemination areas, census tracts, and census subdivisions). By linking postal codes to the Statistics Canada geographic areas, users can obtain statistical data for the areas serviced by the postal codes. The PCCF also associates each postal code with a longitude and latitude coordinate to support mapping applications.</p> <p>The Postal Codes by Federal Ridings File (PCFRF) update provides a link between the six-character postal codes and Canada's federal electoral districts (2003 Representation Order). A federal electoral district (FED) is any place or territorial area entitled to return a Member of Parliament (MP) to serve in the House of Commons and is commonly referred to as a federal riding.</p>
What's new?	<ul style="list-style-type: none"> ▪ Improvements in record linkage methodology. ▪ Record level quality indicator now included. ▪ Postal Code Working Paper. ▪ Postal Code by Federal Riding File (PCFRF) available as an update to purchasers of the 2001 PCFRF product.
Geography	<p>Canada, province and territory, federal electoral district (FED) (2003 Representation Order), census division (CD), census subdivision (CSD), economic region (ER), census metropolitan area/census agglomeration (CMA/CA), census consolidated subdivision (CCS), census tract (CT), forward sortation area (FSA), dissemination area (DA), designated place (DPL), urban area (UA), dissemination block (DB).</p>

Preview of Products and Services, 2006 Census of Population: Custom services

	Census custom tabulations
Major characteristics	Custom tabulations from the 100% and 20% databases are available for census years 1971 to 2006. They are produced to meet the needs of individual users, according to their exact requirements in terms of content, geography, format and output medium. This includes the derivation of new variables and the creation of custom geographies. The flexibility of this tabulation type allows for the handling of many demanding and complex requests. Experienced census consultants are available to advise clients on the tabulation that will best suit their needs.
What's new?	<ul style="list-style-type: none"> ▪ Nothing new to report for this product.
Geography	Standard geography, as well as user-defined custom geographies. Geographic levels available for place of work tabulations will vary depending on census year.
Internet access	Not applicable.
Other delivery methods	Available in a variety of output media (print, CD-R and electronic data transfer). Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	Beginning July 17, 2007.
Price / Price range	The minimum price per table is CAN\$1,115. Custom tabulations are prepared on a full cost-recovery basis. The price includes all consultation, computer processing and other costs incurred in their development and production.

Preview of Products and Services, 2006 Census of Population: Custom services

	Semi-custom tabulations
	Semi-custom profiles
Major characteristics	Semi-custom tabulations allow users to replicate the data content of standard topic-based tabulations for custom geographies or a fixed profile for custom geographies or custom target groups. The fixed profile, which cannot be modified, contains a wide range of census characteristics in a compact and easy to use format. The data content is similar to, but not the same as the standard profile published on our website. Semi-custom tabulations contain three types of tables, semi-custom profiles, target group profiles and semi-custom cross tabulations.
	Semi-custom profiles replicate a fixed profile for custom geographies. This format allows for easy comparison of characteristics between geographies. The semi-custom profile content pertains to individuals, families, households, and dwellings. Additional costs apply for creation of custom geographies. See Custom Geography Services (based on a 20% sample). Available for 1971 and 1981 to 2006 Censuses.
What's new?	<ul style="list-style-type: none"> ▪ Nothing new to report for this product.
Geography	Standard geography, as well as user-defined custom geographies.
Internet access	Not applicable.
Other delivery methods	Available in a variety of output media (print, CD-R and electronic data transfer). Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	20% data – Beginning September 12, 2007.
Price / Price range	The base price of a semi-custom tabulation is CAN\$305 plus area cost. Semi-custom tabulations are prepared on a full cost-recovery basis. The final price includes all consultation, computer processing and other costs incurred in their development and production.

Preview of Products and Services, 2006 Census of Population: Custom services

	Semi-custom tabulations
	Target group profiles
Major characteristics	Semi-custom tabulations allow users to replicate the data content of standard topic-based tabulations for custom geographies or a fixed profile for custom geographies or custom target groups. The fixed profile, which cannot be modified, contains a wide range of census characteristics in a compact and easy to use format. The data content is similar to, but not the same as the standard profile published on our website. Semi-custom tabulations contain three types of tables, semi-custom profiles, target group profiles and semi-custom cross tabulations.
	Target group profiles replicate a fixed profile for a custom target group (such as a specific ethnic group or linguistic group). This format allows for easier analysis of the characteristics of a target group on its own. In addition to the target group, the geography desired can also be customized. The content pertains to the universe of individuals only (no family, household, or dwelling data are available). Additional costs apply for creation of the target group and for creation of any custom geographies. Note: target group profiles can only be created for the 1991 to 2006 censuses.
What's new?	<ul style="list-style-type: none"> ▪ Nothing new to report for this product.

The fixed profile, which cannot be modified, contains a wide range of census characteristics in a compact and easy to use format. The data content is similar to, but not the same as the standard profile published on our website. Semi-custom tabulations contain three types of tables, semi-custom profiles, target group profiles and semi-custom cross tabulations.
	<p>Semi-custom cross tabulations enable users to replicate the content of published topic-based tabulations (TBT) data for the geographic area(s) and output medium of their choice.</p> <p>Some topic-based tabulations provide a simple overview of the country; others consist of three or four cross-tabulated variables; and still others are of special or analytic interest. Available for 1971 and 1981 to 2006 Censuses.</p>
What's new?	<ul style="list-style-type: none"> ▪ Nothing new to report for this product.
Geography	Standard geography, as well as user-defined custom geographies.
Internet access	Not applicable.
Other delivery methods	Available in a variety of output media (print, CD-R and electronic data transfer). Contact Statistics Canada's National Contact Centre at 1-800-263-1136 for more information.
Availability	Beginning July 17, 2007.
Price / Price range	The base price of a semi-custom tabulation is CAN\$305 plus area cost. Semi-custom tabulations are prepared on a full cost-recovery basis. The final price includes all consultation, computer processing and other costs incurred in their development and production.

Geocoding service	
Major characteristics	The Geocoding service allows users to define their own geographic areas of study (user-defined areas or aggregations of standard census geographic areas) for census data tabulations. This custom geography is produced from the aggregation of blocks, or where necessary, block-faces within the road network file coverage. Confidentiality constraints apply where necessary.
