

OSH Works

Taking your Health and Safety Programs to the next level

What is OSH Works?

OSH Works is a web-based occupational health and safety management service created to help organizations understand and meet the requirements of the National and International "Occupational Health and Safety Management" Standards – OHSAS 18001 and CSA Z1000-06.

OSH Works provides you with the system framework and workplace health and safety resources that you need. Following the cycle of **Plan, Do, Check and Act**, OSH Works will help you to take your existing Health and Safety programs to the next level.

What does this mean?

OSH Works provides guidelines for establishing, maintaining and improving your OHS management system. As well, the service helps you identify workplace health and safety hazards and risks so you can work on their elimination and control.

OSH Works will help you:

- › Motivate your employees to implement an occupational health and safety management system.
- › Establish a management system that will help your organization improve workplace health and safety performance and nurture a safety culture.
- › Implement a flexible framework that can be used to apply all workplace health and safety standards.

OSH Works will enable your organization to:

Integrate occupational health and safety responsibilities into your everyday business management

Meet and exceed regulatory compliance requirements

Manage and enhance your existing occupational health and safety program

Promote workplace safety culture

Ensure a safe and healthy workplace!
